"In the early and even in the more recent history of bicycling, such was the novelty of the wheel to the average beginner in this most fascinating and all-absorbing pastimes that he or she thought of nothing but to stay on the thing and keep it going. Little or no study was bestowed upon friction, cushion tires or springs until after the riders had become quite expert, when, possibly, upon reflection, one or more of these vital questions began to interest. By this time serious damage to the rider had very likely been done, and if the victim had not been compelled to abandon the wheel altogether, was certainly warned of the danger and began to seek a remedy. Just here is the problem. What is the remedy? Our Manufacturers are answering the question as rapidly and as successfully as possible,—though why this most important question of all others has been passed by and allowed to remain so long in the background, is a mystery indeed to the writer—a question, the magnitude of which eclipses all others—the one of all others effecting the health and physical relation of all riders, regardless of sex, age or condition. With so many arguments in favor of the use of the bicycle, there should not be one 'little bit' of an objection to it. But on the contrary as a matter of fact—deplorable as it is—there are hundreds of riders who have been permanently injured by the use of rigid wheels, and though many medical men long ago put themselves on record upon the negative side of this question, as did Dr. Agnew, who said: 'Show me a man who rides the bicycle, and I'll show you a victim to spinal irritation.' Still our manufacturers, with perhaps three or four exceptions, have ignored the pleadings of the medical profession and that of the more thoughtful of the laity and persisted in crowding upon the market rigid frames and saddles until more damage has been done than they will ever be able or willing to repair on the plea that they must fill the demand instead of making a wheel void of the objections named, and educating the customers in the dangers he must of necessity meet in the use of a rigid wheel, and in this connection let me say that I think the medical profession has been dilatory and unfaithful to their trust—possibly through lack of interest in what has been styled 'boy's play.' These, however, can no longer be standard excuses with the medical profession. We must warn the people of the dangers incident to the use of rigid wheels or be held responsible for the damage done. This is no longer 'boy's play.' Bicycling must go and we are all 'in it.' Several of our manufacturers have already taken in the situation and are making the most telling progress along the line of anti-vibration, and their products truly merit the the attention of every purchaser of a bicycle. They are indeed almost complete and stand in the most exalted favor with the medical profession and all who by earnest study have qualified and become reliable authority on the question of to-day, what bicycle shall I purchase?"

Coming from such a source, this advice should carry its own moral. Dr. True answered his own question by disposing of his rigid mount. There can be no better advice or example for *you*. If you have never tried a Rambler and felt the luxuriousness of its spring frame, you have missed one of the pleasures of cycling. You can only judge of the superiority of its spring frame over a rigid machine by actual trials. Take the good old advice: Don't be a clam. *Try it.* There is nothing to lose and everything to gain. When competent men like Dr. True voluntarily give advice it is worth heeding. Permit us to send you a catalogue of the Rambler. We feel sure it will interest you. "Spinal irritation" is an unknown quantity with that wheel. It doesn't take more than a glance to show that.

WILEY & RUSSELL MFG. CO.,
Greenfield, - - Mass.

THE Tire question is still on the rampage. The pros and cons fly thick. The merit and demerit side are ranged up as savagely as bulls and bears in the wheat pit, and the end is not yet. Some say the Pneumatic is just the stuff, and others reply that it is just the stuff for hose. Settle the question by getting a Union or Sylph Spring Frame, and trade in your old mount.
KNIGHT CYCLE CO., - St. Louis, Mo.

mittee work is all assigned, a judicious and attractive programme made up, and steps have been taken towards securing the attendance of all the crack racing men. The meet will be by far the most important ever held so early in the season, and will be of peculiar interest as a precursor of the Hartford Wheel Club's great fall event. The track at Charter Oak is one of the best cycling paths in the world, and will be at the free disposal of racing men for a month previous to the meeting.

IRVINGTON-MILBURN ROAD RACE.

THE arrangements for this event are progressing finely, and at a meeting last week the officials were appointed. Mr. Prial will do the handicapping, while Mr. Barkman will attend to the general management. Mr. Geo. R. Bidwell will referee the race. The race will be started promptly at 11 A. M., rain or shine. The rumor that the authorities would interfere this year in the running of the races appears to be without foundation, and the course will have unusual care in preparing it for the race. It has been decided to penalize pneumatics and also cushion tires. Entries to A. B. Barkman, 241 Broadway, New York.

THE PULLMAN-CHICAGO ROAD RACE.

SOME of the principal rules laid down for the great race, May 30th, under the auspices of the A. C. C. of Chicago, are as follows: Open to any amateur club member in good standing. Entry fee $1.00. To close May 15th. Full and true information and answers in entry blank requisite; a failure makes entry void, and disqualifies contestant after the race. Handicaps to be announced three days before the race. Each contestant must wear a number. Sidewalk riding will disqualify. Deliberate fouling or impeding another contestant will disqualify. Protests must be filed within 24 hours of the close of race. Time limit 12 minutes. Pneumatic tires, penalized, 4 minutes. The race will start 10.12 A.M., May 30, rain or shine, from Jackson street and Michigan avenue.

The first man to finish shall receive first choice of prizes, the second man, the second choice, and so on. There shall be three time prizes, one of which shall be awarded to a rider of a cushion or solid tired wheel making the best time, but no man shall take two time prizes. Entries close May 15th, with S. A. Miles, Sec'y, Room No. 590, No. 334 Dearborn street, Chicago.

HARVARD U. C. A.

THE H. U. C. A. will give a race meeting on Holmes' Field, Saturday, May 23. The events are: First, one mile ordinary, scratch, open. Second, one mile safety, handicap, open; pneumatic and solid tires. Third, one mile safety, scratch, open; solid. Fourth, half-mile ordinary, handicap, open. Fifth, one mile tandem safety, handicap, open. One mile ordinary, interscholastic scratch, open to all preparatory schools in New England. Seventh, Two mile ordinary, intercollegiate handicap, open to I. C. A. A. A., N. E. I. C. A. A. and M. I. T. Eighth, one mile safety, scratch, open; pneumatic. L. A. W. rules to govern. Entries $1; close May 16, to F. L. Olmstead, 13 Wadsworth House, Cambridge, Mass.

THE WHEELMEN'S RACING LEAGUE.

THE delegates from the New York Clubs interested in the formation of an inter-club team road racing association, met April 20th, at the Brooklyn clubhouse. There were present delegates from the New York, Manhattan, Bedford and Brooklyn clubs, the Gotham, Kings County and Harlem and the Brooklyn Ramblers.

The desire to form a club for the purpose of road-racing was unanimous, and an association was formed, to be known as the Wheelmen's Racing League. Only recognized clubs from New York and Brooklyn will be eligible for membership. It was decided that races should be held semi-annually, the distance to be fifteen miles, limited to one team of four men from each club. The first race is to be held on June 6 and the second on September 12. The most important resolution passed was the one which will disqualify members of athletic club cycling teams from competing in these races. A committee was appointed to draft proper Constitution and By-laws. The next meeting will be held in New York May 6.

B. J. Holcombe, 222 Woodward ave
Races and Transportation—
Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

The Renewal Season.

The renewal season is now open, and we are ready to receive the annual dues of members.

We have opened the books for 1891-2, and applicants for membership may now send $2 and they will be put upon the roll for the year ending April 30, 1892.

All memberships expire April 30, and must be renewed before July 1st.

We publish a renewal blank which we hope will be universally used. A blank of this kind is more satisfactory for filing than a notice of renewal written in letter form. If a member has no blank and does not care to mutilate his paper, he will oblige us by sending renewal on paper the size of the blank and made out after the same form. The same applies when two or more names are sent.

Every League club has been supplied with sheets to send renewals on, and also a renewal of the club. Since many non-League clubs send in lists of names, a list of names is no indication that a League club renews its membership, and we must have the regular certificate of renewal as per blank furnished every club before we can issue our certificate of membership.

Club Secretaries will be supplied with renewal sheets for club lists on application.

Consuls, Agents, Club Officers, etc., who desire renewal or application blanks should procure them of the Secretary-Treasurers of their respective Divisions. See addresses in BULLETIN.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Transportation,

Mr. Charles A. Sheehan is appointed a member of the Transportation Committee for the current year.

JAMES R. DUNN, President.

Massachusetts Division Spring Meet.

The spring meet of the Massachusetts Division L. A. W. will be held at Worcester on Decoration Day, Saturday, May 30th, and every *League wheelman* is cordially invited.

PROGRAMME.

First, Morning reception at Continental Hall where refreshments will be served, and badges distributed to holders of League tickets.

Second, A short parade through the principal streets, for which the following prizes will be awarded (Local Clubs will not compete):

(a) To the club having the largest number of L. A. W. members in line, an elegant silver tilting water pitcher.

(b.) To the club having the second largest number of L. A. W. members in line, a valuable steel engraving.

(c) To the club presenting the finest appearance in line, a beautiful steel engraving.

Third, After the parade the wheelmen will be photographed.

Fourth, In the afternoon there will be a Grand bicycle tournament at Bay State Park, and L. A. W. members will be provided (free) with tickets to the grand stand. This will be the most interesting event of the day, as several State championships will be decided. Valuable prizes will be offered, and all the prominent racers will compete.

Fifth, In the evening there will be a grand ball at Horticultural Hall (tickets free to L. A. W. members), and during the evening the prizes will be awarded, and refreshments served without charge. The local clubs will invite all their lady friends to attend, so there will be no lack of partners for dancing. Bicycle suits will be "full dress."

POINTERS.

This grand entertainment is provided free for League members only. Be sure and attend, and bring your League ticket and wheel with you.

Tell your acquaintances, and urge them to join the League on or before that date. An official will be at the hall in the morning to receive applications for membership and issue certificates.

Special—[Notify the chairman of committee at once if you intend to participate.]

Clubs will be assigned positions in the line of parade in the order in which their notifications are received.

There will be a special division for unattached riders.

Entries for these races will close May 23.

Blanks can be obtained from and returns should be made to A. C. Copeland, 10 Dale street, Worcester.

HOTELS.

The Lincoln House is the League Hotel, and special rates will also be made by the Bay State Hotel for this occasion.

TRANSPORTATION.

The Boston contingent will leave the Albany station at 8.30 A.M. Special cars will be provided for the free transportation of wheels, which must be at the station at 8 o'clock, with pedals removed. The fare for the round trip will be $1.50. Single fare, $1.00.

Special cars will be provided for the return of wheels on the 6 P.M. train.

These cars will be side-tracked at Boston, and the wheels delivered on Sunday morning to those who remain to the ball in the evening.

Return trains from Worcester will leave at 6 P.M. and on Sunday at but wheels must be returned on the 6 o'clock train.

TOURING PARTY.

On the following day there will be a tour to Boston, announcements for which will be made later by the Touring Committee.

Per order of Committee.
ARTHUR W. ROBINSON, Chairman,
21 Milk st., Boston.
A. C. COPELAND,
B. A. BARBER,
J. W. BEAN.

Massachusetts Division.

A meeting of the Board of Officers of the Massachusetts Division League of American Wheelmen was held at the Clarendon Hotel, Boston, Saturday evening, April 25. The meeting was called to order at 8.25, Chief Consul Robinson presiding. Members present, Vice Consul Perkins, J. W. Bean, A. C. Copeland, P. L. Hassenforder, G. F. Kehew, I. E. Moultrop, C. W. Pierce, W. W. Scott and C. G. Wells.

Mr. Wells was elected Secretary pro tem. The report of the last meeting was read and accepted. The Finance Committee reported as follows on the question of paying railroad fare one way of Representatives attending meetings of the Board.

To the Chief Consul and Board of Officers of the Massachusetts Division of the L. A. W.:

Gentlemen—Regarding the order which was referred to the Finance Committee at the last meeting of your Board, this committee respectfully presents the following for your consideration:

The Finance Committee do not consider that the Board, in referring the matter to them, desired any expression of opinion further than as regards the effect on the Treasury of the Division.

As the Division has considerable work mapped out that will use the greater part, if not all of the funds, we would respectfully submit that it would perhaps be wise to extend the limit from ten to thirty-five miles, for the present year.

If this was done and the fares one way were allowed the seven members residing outside the last named distance, the annual cost to the Division, allowing that every man was present, and that there was not more than ten meetings, would not exceed sixty-five dollars, which in our opinion would be a wise and just expenditure. This committee consider that it would be for the interest of the Division to pay the fare both ways of the member from District 7, as it costs him $4.98 for a round trip, and that is too much to ask of any member, when the importance of the average meetings of the Board are taken into consideration. The present member resides 107 miles from Boston, and the fare is $2.49.

All of which is respectfully submitted,
J. FRED ADAMS,
A. H. CARSLEY,
B. A. BARBER,
Finance Committee.

Report was accepted. On motion of Mr. Bean it was voted to lay the question over until the next meeting. It was voted to purchase a Vice Consul's badge at an expense not to exceed five dollars, said badge to be used by the Vice Consul, but to remain the property of the Division.

The new draft of By-Laws presented in the report of the Committee on Rules and Regulations was then taken up. Article III, Section 1, (a), third clause, was amended by the insertion of "(with power of removal)", to read as follows: "Shall appoint (with power of removal) one consul for each locality," etc. During the discussion a question arose as to the right of representation in the Board of League Clubs, which become such after the prescribed date of annual elections. Referred to the Committee on Rights and Privileges. Mr. Scott moved the adoption of the By-Laws as read and amended. Unanimously carried.

Mr. Copeland and the Chief Consul made verbal reports of progress in the arrangements for the Spring Meet at Worcester. On motion of Mr. Bean it was voted to appoint a committee of three, with the Chief Consul as chairman, to consider and report on arrangements for summer meet at Cottage City.

Mr. Copeland, for the Bay State Bicycle Club, applied for the following races to be run at Worcester, May 30, in case Massachusetts is made a separate racing district: One-mile, ordinary, one-mile safety, and one-mile tandem safety. Referred to Committee on Racing with full powers, and a recommendation to grant the request. It was voted that Mr. Pierce be requested and empowered to provide new fixtures at the Chestnut Hill Reservoir well at an expense not to exceed five dollars. Adjourned at 10.07.

CHAS. G. WELLS, Sec. pro tem.

Massachusetts Division.

LOCAL CONSULS.

The following additional consuls are hereby appointed:
Mr. L. W. Piper, Newburyport.
Mr. Henry West, Neponset.
Fraternally, ARTHUR W. ROBINSON, C. C.

Massachusetts Division.

To the members of the Massachusetts Division, L. A. W.:

You are earnestly requested to renew at *once*. Blanks can be obtained of Local Consuls, and remittances should be made to Mr. Abbot Bassett, 12 Pearl street, Boston.

You are also urged to take a personal interest in securing recruits, for a little effort on your part will greatly advance the welfare of the Division.
Fraternally, ARTHUR W. ROBINSON, C. C.

Massachusetts Division L. A. W.

Mr. J. S. Cartwright is hereby appointed a member of the Touring Committee.
Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Massachusetts Committee on Racing.

A. D. Peck, Jr., of Boston, A. C. Copeland of Worcester, and W. S. Atwell of Charlestown, are hereby appointed a State Committee on Racing.
Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Missouri's Perseverance.

To Consuls and Members:

"Perseverance and pluck, better than riches and luck," is an old but trite saying, and it is befitting the occasion of our passing the 500 mark. The Local Consuls who have aided in the work deserve, and should receive the thanks of the entire Division, and the same can be said of our Representatives. It is with no disguised pride that I can point to an increase of over 40 per cent. in our membership since last year; and if the good work of recruiting, which is now fully under way, goes on, there is no reason why our membership should not number 600 by July 1. An average of 10 applications per week will do the business. At this time last year 100 recruits were secured in the time named, and we should at once try to repeat the experiment. They say "any one can make money, but it is another thing to keep it," and any one can hustle in the interest of our organization, even though he be not successful at first. If you are successful in getting members unasked, you will be doubly so when you decide to do some sharp recruiting by personal solicitation. The League is a common-sense organization, and it took but a handful of common-sense to start it, and hardly more than that to keep it going; but its greatest success lies in the fact that it is just "common-sense" enough; so when we get a new member he will be surprised at his lack of common-sense in not having joined us long ago. Surely the League acts as a magnet on all cycling mankind, provided you place the magnet properly. It does not attract one year and lose its power the next. Its members do not drop out, one by one, but stay in, and good enterprising members get others in. Are your friends in it?
Fraternally yours,
ROB'T HOLM, Chief Consul.

P.S. Our renewals are really surprising. Have you renewed to date. If not, U. S. A. O.

Missouri Appointments.

The following appointments have been made, to take effect from date:
Local Consul at Marionville, W. F. Flournly.
Local Consul at Chilicothe, A. J. Simpson, Box 240.
Repair Shop at Springfield, H. W. Gyon.
Local Cousul at Macon, W. J. Fruitt.
Fraternally yours, ROBT. HOLM,
St. Louis, April 24, 1891. C. C.

Ohio.

To the Members:

Sixty-two new members during the first three weeks of April is doing very well. We must keep up the good work, however, if we wish to get the membership up to the desired point this season. This is a race in which there must be no stopping to rest. We have too much of a lead to overcome to let up in our efforts. It must be scorch from the word go. That's the only way to get ahead of those who have passed us. Do you realize that you are the one that this is meant for? or are you like the man who always found some one else to whom the sermon applied more forcibly than to himself?

In your hunt for recruits do not forget to renew, and get all other members in your vicinity to do the same. If you are out of the State temporarily, see that you renew from Ohio. Don't put it off for a day or two as you might die in the mean time.
Fraternally, M. A. HIGH,
Cincinnati, April 23, 1891. Chief Consul.

Ohio Consuls.

Madisonville, Arthur Stedman, instead of Chas. P. Aston, removed to Cincinnati.
Tiffin, Chas. Herhmann, Jr., instead of C. L. Wenner, removed to Chicago.
Fraternally, WM. D. KEMPTON,
Cincinnati, April 25, 1891. Sec.-Treas.

Iowa Consuls.

I hereby appoint Clarence W. Elsworth as Local Consul for Des Moines, Iowa, in place of W. P. Chase resigned. H. L. CHASE, C. C.

Notice to Iowa Wheelmen.

We want to impress upon the mind of every League member in the State the importance of increasing the list of membership of the Iowa Division. Wheeling is having a boom in Iowa this season, and there is no reason why every eligible wheelman should not belong to the League. The increase in our membership means increased benefits to every Iowa wheelman, financially, and in every other way.

Now is the time to renew, now is the time to get new members. Let us all get to work, increase our list, and all go to the meet in Newton, June 16 and 17, where there will be the finest list of races ever run in Iowa. Programme will soon be published. Yours fraternally, H. L. CHASE,
C. C. Iowa Division.

District of Columbia Division.

The Plymouth Rock Pants Co., No. 943 Pennsylvania avenue, have been appointed official League Tailors for this Division. Fraternally yours,
Geo. S. Atwater,
Washington, April 22, '91. Chief Consul.

Virginia.

Law: L. Waring, Norfolk, is appointed Chief Consul of Virginia, and will enter upon his duties at once. JAMES R. DUNN, President.

New Hampshire.

The Plymouth Rock Pants Company is appointed Division tailor for New Hampshire. Price of suit $12.25. Members residing in places where the company has no agent will send to Manchester for blanks to fill out. F. A. MCMASTER,
Chief Consul.

L. A. W. Championships.

The Racing Board has located the National Championships at Detroit to be run at the National Meet held there July 16th, 17th, and 18th, '91, Championships to be run on 2d and 3d days.
Respectfully submitted,
C. E. RANDALL, Chairman.

Chicago, April 24th, 1891.

Illinois Division.

A meeting of the Illinois Division Board of Officers will be held at the Grand Pacific Hotel, Chicago, Saturday, May 30, 2 P.M.
W. A. DAVIS,
Chicago, April 23, '91. Chief Consul.

Illinois.

According to our constitution, a mail vote has been taken, by the Board of Division Officers, on the location of the Annual Meet of our Division.

Total number of members voting 17
Rockford received.....17
Kankakee..... 0

Rockford having received a majority of the votes cast is therefore chosen as the place for holding our annual meeting on July 4th, 1891.
For the Chief Consul,
THOS. F. SHERIDAN, Sec.-Treas.
Springfield, April 25th, 1891.

Racing Board.

The Racing Board has appointed Mr. Charles E. Randall to represent the League as a member of the tribunal provided for in Article 3 of the Alliance. CHARLES E. RANDALL,
Chicago, April 22, 1891. Chairman.

Nebraska Division.

Chief Consul Perrigo has made the following appointments of Local Consuls:
Fremont—F. I. Ellick, Jr.
Shelton—J. T. Ashton, Jr.
Fairfield—D. B. Potter.
Broken Bow—Fred. W. Hayes.
Hastings—Chas. S. Hartwell.
Stromsburg—W. L. Frew.
Fraternally, C. B. NICODEMUS,
Fremont, Neb., April 23, 1891. Sec.-Treas.

California.

The century run, under the auspices of this Division, will be held on May 31st. Start to be made from corner Mission and 21st Streets, San Francisco. Route.—To San Jose and return to San Francisco. This is final, and the run will positively be held at the time and place mentioned; all reports to contrary are misleading. JAS. G. COX,
Chairman Committe.

I have appointed Mr. H. A. Greene as Local Consul for Monterey. L. A. W. members wanting permission to wheel through the Del Monte Grounds should apply to him. THOS. L. HILL,
Chief Consul.

Michigan Consuls.

The following appointments are hereby made to take effect from this date:
H. B. Merritt, Consul at Pontiac.
Geo. W. Lyon, 416 Potter St., S. E. S., Consul at Saginaw.
E. A. Bowd, Consul at Lansing.
W. T. Reeder, Consul at Adrian.
Fraternally, A. B. RICHMOND,
Grand Rapids, Mich. Chief Consul.
April 16, 1891.

New League Clubs

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:

320—Flour City Cyclists, Minneapolis, Minn. H. H. Hodsdon, Secretary.

Stolen Bicycle,

A '91 Columbia Safety, No. 14,540, cushion tire on rear wheel and solid tire on front wheel, was stolen from the New Haven Bicycle Club house on Tuesday evening, April 21st. Address John G. Beck, No. 173 Olive street, New Haven, Ct.

Connecticut members can do a brother member a good turn by keeping an eye open for 14,540.
A. A. DEAN, C. C.
Danielsonville, April 27, 1891.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an intiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

"THE GIANTESS." . . .

Spring Fork, Spring Frame, Balls all Over, 28-inch rear, and 26-inch Front Wheels. Price only $75.00. Is now ready for delivery. Universally conceded to be the novelty of the season.

H. A. LOZIER & CO., Cleveland, Ohio. | Catalogue on Application.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100

J. H. BANNISTER & CO., Youngstown, Ohio.

To Athletes, Cyclists, Baseball & Footballists, Horse-back Riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

Has a large and increasing sale throughout Great Britain

Mention this paper.

TWO PILGRIMS' PROGRESS, "From Fair Florence to the Eternal City of Rome—Delivered under the Similitude of a Ride, wherein is Difcovered the manner of their fetting out, their dangerous journey and fafe arrival at the Defired City." By Joseph and Elizabeth Pennell. A delightful book of travels on a tandem, and containing nearly 200pages of letter press by Mrs. Pennell, and numerous illustrations from the pencil of Jo Pennell. The book is elegantly bound, and is an ornament to any table or library. Price, $1.60, post paid. For sale by Bicycling World Co., 12 Pearl st., Boston, Mass.

☞Postage stamps not received in payment.

MY CYCLING LOG BOOK. By "Papa" Weston. The transitory pleasures of cycling can be made as permanent as its physical benefits, by jotting down in a well devised log book, the distances and incidents of one's various journeys. Knowing that such a record is a most pleasant thing to have, and believing that the keeping of such should be encouraged, as tending to the permanent good of cycling in more ways than can be referred to here. The Log Book is handsomely and strongly bound in red leather, will last for years of constant use, and is the best arranged book of its kind ever yet devised. It fills a want often felt by the cyclist who values records of interest for future reference. Price, post paid, $1.25 For sale by Bicycling World Co., 12 Pearl st., Boston.

☞Postage stamps not received in payment.

NOW IS THE TIME To Advertise in the BICYCLING WORLD AND L. A. W. BULLETIN.

Only the First of the Season, and again the

FAMOUS REFEREE SAFETY

Is to the front. What do you think of this Testimonial from the well-known crack rider of Harvard College?

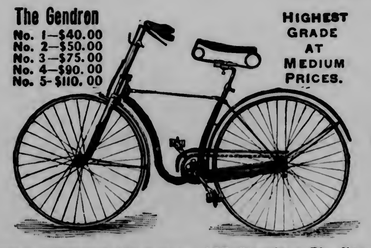
CAMBRIDGE, April 13, 1891.

MR. W. J. NEWMAN:

Dear Sir—I never expected to desert my ordinary, but your *Referee Safety* has converted me. I have owned nearly a dozen wheels, but never one on which riding was half so pleasant as on my present one.

Yours,

KENNETH BROWN.



Now, I say as one of the oldest safety riders in the country, and one of the hardest long-distance riders, that the REFEREE is a wonderful machine. The Ladies' is simply a beauty.

IMITATION or FLATTERY, WHICH?

We cannot refrain from expressing our satisfaction that the reform we started, two years since, to inaugurate, by building bicycles of honest material and drop forgings, instead of iron castings, has proved a success, and all American builders are now following our example.

PNEUMATICS.

Delivery same day as order.

We have ready for instant delivery, in lots of one to one hundred, the celebrated

"Irwell Pneumatic Safety,"

PRICE, $150.

We shall not import any more owing to our arrangements with Mr. Featherstone. If you want any of these **SPEAK QUICK.**

By-the-way, did you know that away up in the northwest part of Illinois, in a city most favorably located for manufacturing, called Freeport, an enterprising firm has located there, The Stover Bicycle Mfg. Co., and they are building a bicycle that we are proud to represent. They call their wheel

"THE PARAGON,"

And it is rightly named. We visited the factory before we decided to represent the wheel, and we found that from first to last the PARAGON is an honest wheel.

In Material.
In Workmanship,
In Excellence of Design,
In Originality,
In Ease of Running

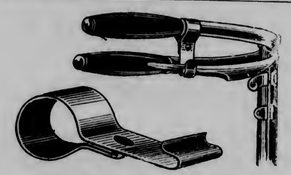
We believe that

"THE PARAGON"

Represents more true American manhood than any wheel yet put on the market. An essential point to be remembered is

"We Guarantee Every One."

The Trade in our section of the country is requested to write for Agencies.



The balance of our line includes many desirable wheels, in fact it is admittedly the most complete line in the United States. Please note,

Price $25 to $300.

Bicycles and Sundries.

CYCLING FOR Health and Pleasure.

CHAPTERS VII and VIII.

High gearing is a *fad* just at present (for reasons which it would require considerable space to trace), in spite of the common sense of many old riders. Chapter *VII* explains the *nature* and *effect* of gearing, so that any one who reads it can understand for himself the relative value of different gears, and form an intelligent opinion.

Chapter VIII. treats of the distinctive features of the principal types of machines; illustrates them; and discusses their merits.

She loved him in return,
And they thought no fate could separate
Hearts that like theirs did burn.

But she became a victim
Of the bold bicycling craze;
And she used her beau, as a prop, you know,
To hold the wheel in place.

She fell and skinned her elbow,
Then fell and cut her cheek,
And the love they knew broke square in two,
They pass and do not speak.

Agents Wanted all Over the World.

J. E. POORMAN, Agt., Cincinnati, O.

COLUMBIAS.

Columbia Light Roadster.

SEVENTH YEAR.

This is a famous wheel, and ranks first among all machines of its class in the world.

PRICE, $125.00.

Expert Columbia.

TENTH YEAR.

Without a doubt the most widely known wheel ever made. It is a regular roadster of the finest construction.

PRICE, $110.00.

Volunteer Columbia.

FOURTH YEAR.

A high-grade wheel of best materials, but with a slight economy in construction. Sold at a low figure.

PRICE, $90.00.

In all above machines STEEL Forgings only are used. There are no castings.

Columbia Semi-Roadster.

SIXTH YEAR.

A high-grade, moderate-priced boy's wheel

PRICE, $55.00.

The regular bicycle has not yet gone out of use. A good many riders still prefer it to the Safety. They consider it more speedy, more exhilarating, and more delightful in every way. Perhaps you are one of this number. If so, we advise you to ride an Ordinary and ride a good one. And where can you find better than COLUMBIAS? They are the original American wheels, and have won for themselves an unequalled reputation on race track and on roads, across prairies, over mountains, around the world.

Grand Rapids, Mich., March 24, 1891.

Gentlemen—I have ridden my Columbia Expert since May, 1885, with a mileage of nearly 13,000 miles. * * * With new take up sleeves put in the little wheel, and a new tire on the little wheel, it would be fit to start on a tour across the continent or around the world. It is a great satisfaction on a hard tour to ride a wheel that I know won't break down, and that I have so thoroughly proved CAN'T break down.

Yours respectfully,
L. J. BATES,
("President Bates.")

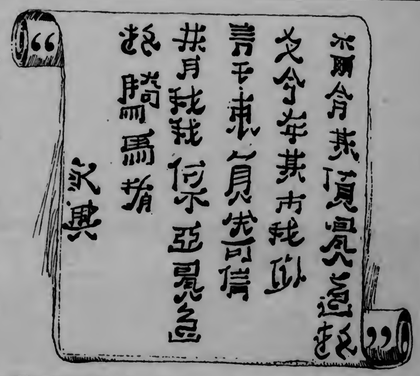
THE BICYCLING WORLD & BULLETIN.

FOUNDED 1878

DEVOTED TO THE INTERESTS OF CYCLING.



Volume XXIII. Number 2. BOSTON, 8 MAY, 1891 $1.00 a Year. 5 cents a copy.

"And May the Best Swimmer Get Ashore."

As this letter was used by bicycle makers as a testimonial for their bicycles, and was printed by them over their signature on the back page of the BICYCLING WORLD, we have been curious to know whether the translation given by them was correct.

Thousands have tried to translate this letter. Our mails have been full of efforts.

We print below the contents of two letters received from Chinese gentlemen who are probably the highest authority on Chinese in this country."

"I can not make anything out of the paper. It is meaningless. They must be written by some American who imitates not to perfection."

"The inclosed advertisement, if meant for Chinese eyes, is of no practical use whatever, because no Chinese could make out its meaning, and some of the characters can hardly be recognized as Chinese. It looks like Japanese-Chinese and a vain attempt at copying the original."

"When an Intelligent Man Wants

To purchase, he buys from parties whose standing in their several callings is a guarantee for the quality of their wares."

When the same man wishes to buy a bicycle he goes to those who have made cycle making a scientific study, and whose years of solid experience entitle him to expect THE BEST in every respect.

For years we have been building high grade cycles called "VICTORS." It goes without contradiction that they have always ranked with the very best—a leader of leaders. Our style and work have often been copied by inexperienced makers, but with limited success. We never put out imperfectly constructed models, but

"We Try the Experiments."

Overman Wheel Co., - Chicopee Falls, Mass.

BOSTON. WASHINGTON. DENVER. SAN FRANCISCO.

SERIOUS COMPLAINTS

Have come to us of which the following is a sample:

NEW BRITAIN, Ct., April 24, 18,1.

Elliott Hickory Cycle Co., Newton, Mass.:

Dear Sirs—Several accidents have happened in this place from people being run into by Hickory Bicycles. These machines are so noiseless that pedestrians have no warning of their approach.....A Hickory Machine and an incautious rider make a very dangerous combination. Couldn't something be put on these wheels that would give notice of their coming? Forsaide from that one objection we like them very much.

Yours, J. M. BURDICK.

Yes, there are several things we *might* do, as for instance: We might put on metal guards or a detachable lamp bracket. Or we might use the common form of brake connections. Or a few springs scattered gracefully among a lot of heretofore avoided joints would certainly "give warning of its approach." And in case the pedestrian was a little hard of hearing we could easily find a style of chain that would cause him to "look towards us." While me might attract his *undivided* attention by using "rat-trap" spokes tied with bonnet wire, and tuned up with drop forged "nipples." These are things we *might* do, but what we *prefer* to do is to admit that the Hickory has one fault which we don't care to overcome. Any well-organized pedestrian would rather be run over by a noiseless machine than to stand safely on the sidewalk and listen to too much "metallic clamor."

Orders: An order placed *now* for a Hickory Bicycle is filled within a few days (not more than a week). And we hope during the present month to do still better in the way of promptness.

Catalogues may now be had by all who ask for them.

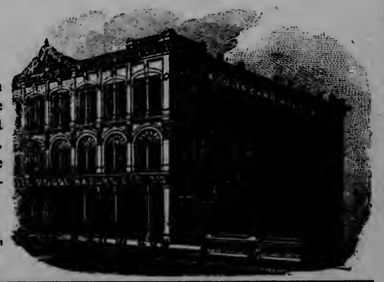
Agents who have for a long time believed that there was something in Hickory, but had not quite got to the point of saying so to the world, should take it up now so as to be in the procession when it gets well under way.

If there is no agent for the Hickory in your town, send in your request at once, and if we find that you have no bad habits we will open an account with you. Selling metal wheels we do not class among other bad habits, it is only catering to a depraved public appetite and is excusable on the same ground that selling liquor is, (if *you* don't do it somebody else will). But we can fix all that in time.

Agents and others who think the Hickory is "no good" and tell customers that they will "all fall to pieces," should stop and think how they will feel when everybody admits that "Hickory is the stuff," and these same men have to come up smiling, (about the same kind of a smile a man might be expected to wear while telling his best girl that she was sitting on his Sunday hat), and when they are asked to explain, be obliged to say: "oh yes, we knew it all the time, but we had to sell off our old stock, don't you know."

For terms and all other information, write to the

Elliott Hickory Cycle Co.,



Newton, Mass.

P. S.—Don't get killed in the rush.

A. P. BENSON, Newton Club.

TRADE NOTES.

THE POPE MFG. CO.'S NEW BUILDING.

IT has been the good fortune of Boston, within a few years to secure the addition of some notably elegant and imposing public and business buildings. One of the most attractive of these will be, when completed, the new building of the Pope Mfg. Co. on Columbus avenue, at the corner of Morgan street.

For several years the company has occupied the building at 77 and 79 Franklin street for their salesroom and offices, but on account of their largely increased business it was decided to erect a building which should not only meet the requirements of their business, but be an architectural credit to the city.

Plans as prepared by Messrs. Peabody & Stearns, architects, were accepted, and the contract for building awarded to Messrs. Woodbury & Leighton, who are rapidly pushing forward the work.

The building will have a frontage on Columbus avenue of 85 feet and a depth of 100 feet; while an additional ten feet are reserved in front for an extra width of sidewalk. The first story of the building, resting on foundations of granite, is of a beautiful light Ohio sandstone. Above this are four stories of a light cream colored brick, with trimmings and cornice of terra cotta specially designed by the Perth Amboy Co. The main entrance, at the centre of the Columbus avenue front, is through a richly designed vestibule of Mexican onyx. Without, on either side, is a Florentine lantern of unique and beautiful design. The vestibule opons into a lobby with walls of English enamel bricks, and which extends back to the main stairway and electric passenger elevator at centre of the building.

At the rear is an elevator for freight. All remaining space on the first floor is utilized for two stores, each running the entire depth of the building. One of these stores will be occupied by the owners as an exhibition and salesroom for their "Columbia" bicycles and tricycles.

The entire second floor is devoted to the offices and general counting room of the company. The private office of the President is on this floor; there is a retiring room for various purposes, such as conferences, etc., and a library is provided into which it is the design of Colonel Pope, the President, to gather the most comprehensive collection in this country of books, periodicals, and records relating to cycling and its kindred subject—the building and improvement of roads. There will also be on this floor coat rooms and toilet apartments of the most approved plans.

The third floor will be let, but all of the fourth floor will be devoted to various departments of the company's business. The fifth floor will be used for the riding school for which it is especially constructed, and as such its appointments will be complete. It has always been the custom of the Pope Mfg. Co. to furnish free instructions in riding to purchasers of "Columbias," and the new rink, which will be the most perfect of its kind in the country, will be highly appreciated.

It is worth noting that the entire building is provided with a very large amount of window space, and the windows of every floor in front are of plate glass. The single plates of the show windows on the first floor are probably the largest in the city, each being twelve feet wide and fourteen feet high.

The general appearance of the structure will be imposing, not so much from massiveness, or any over-towering height, as from the beauty of its architecture. The cost, including land, is about $200,000, and as the Pope Mfg. Co. will at once, upon completion, use the entire building for their own business, excepting only the third floor and one store, some idea may be gained of the extent to which this business has grown. Indeed, one cannot refrain from glancing backward to so recent a year as 1878, when the company were putting out a few bicycles of a rather experimental type, and contrasting it with their business only a dozen years later, when their annual output exceeds 10,000 highest grade bicycles and tricycles; and this when some seventy American competitors are in the field.

It requires a product of unusual merit, together with business management of high order, to achieve such results; and for this reason the Pope Mfg. Co. may take a just pride in the success which finds expression in the splendid structure briefly described above.

STERLING ELLIOTT offers his entire business *outside* the cycle business for sale. The Hickory bicycle trade has grown to such proportions as to engage the entire energy and attention of Mr. Elliott. Mr. Elliott owns some very valuable patents in lace cutters, cutting off tools, pamphlet stitching machines, press drills, etc., all of which will be disposed of to the "highest bidder."

EVERYBODY is delighted with the Featherstone Pneumatic Wheels that have tried them, and Messrs. Howard A. Smith & Co., Newark, the sole agents for New Jersey, are receiving orders for them from all over the State.

MR. A. J. MARRET, Manager Coventry Machinists' Co., Chicago, was in Boston one day last week. He complains that he cannot get Swift Safeties fast enough. Manager Hill in Boston says he is unable to keep up with his orders.

THE Paragon is attracting a great deal of attention, its fine lines, excellent workmanship, and finish, and spring-frame, has created a great demand for this wheel; but Sidwell & Saben, who are the New England agents, state that they are still "in the ring," as they placed a large order for their wheels early in the season, and are therefore filling orders promptly.

WE take pleasure in calling attention to the advertisement of the Premier Cycle Co. of New York on page 47.

THE Ariel Cycle Mfg Co. of Goshen, Ind., writes us: "We shall make a gentleman's and also a ladies' wheel. The gentleman's wheel will be ready for the market in a few weeks. This wheel is a diamond frame trussed, all ball bearings with improvements in the cone for the balls of our own design. Cushion tires and soft handles of our own design and expressly manufactured for us. At every point there has been no sparing of time, money, or pains, in the endeavor to accomplish the perfect union of strength, beauty, and ease."

A WONDERFUL ride. See page 36.

QUITE a contingent of road scorchers have put in an appearance, mounted on the Diamond frame Warwick, the inference being that the coming road races will see this popular wheel well represented.

ROUSE, HAZARD, & Co., Peoria, Ill., report a large wholesale trade on Western Wheel Works' goods, and rejoice in the fact that they are now prepared, and will be during the entire season, to fill orders promptly. Dealers will do well to correspond with them, if wanting machines, without delay.

THE SPOKELESS WHEEL.

THE invention of MR. W. G. Douglass of Newcastle, England, to employ thin steel disks in place of ordinary wire spokes is causing much comment in manufacturing circles. The peripheries of these disks are riveted to the rim. The axle passes through holes in the centres of disks. The axle is cut with a right and left hand thread, and the hub is cut with a thread to engage these so that by turning the axle the hubs are forced apart, and the tension on the steel disks is effected. The action on the pedals has the tendency to make this tension steel tighter. The steel will be so thin as to not materially increase the weight of wheel. The claims of advantage are perfect tension, impossibility to buckle or become untrue, and a saving of windage.

FIXTURES.

MAY.

23—Road Race at Forest Park, St. Louis, Mo.
23—Lantern Parade of St. Louis Wheelmen.
23—Harvard University Cycling Association meeting, at Holmes Field, Cambridge, Mass.

Division Officers.

Consuls and agents should draw upon Division Officers for supplies of Application and Renewal Blanks, and for League literature of all kinds. Post Office addresses will be found below:

CALIFORNIA—Chief Consul, Thos. L. Hill, Odd Fellows' Bldg, San Francisco. Secretary-Treasuer, Oswald Granicher, 15 So. First street, San Jose.

COLORADO—Chief Consul, Edward S. Hartwell, 125 West Twelfth avenue, Denver.

CONNECTICUT—Chief Consul, Arthur Allen Dean, Danielsonville. Secretary-Treasurer, Edward A. De Blois, Drawer 11, Hartford.

DELAWARE—Chief Consul, S. Wallis Merrihew, 906 Jackson street, Wilmington. Secretary-Treasurer, Chas. S. Wilson, 813 Franklin street, Wilmington.

DISTRICT OF COLUMBIA—Chief Consul, George S Atwater, 1424 Pennsylvania avenue, Washington Secretary-Treasurer, W. H. Stearns, 1421 G street, N W., Washington.

ILLINOIS—Chief Consul, Wm. A. Davis, 340 South Leavitt street, Chicago. Secretary-Treasurer, Thomas F. Sheridan, 1411 North Fourth street, Springfield.

INDIANA—Chief Consul, Harry T. Hearsey, 116 No Penn street, Indianapolis. Secretary-Treasurer, Arthur C. Newby, 607 No. Alabama street, Indianapolis.

IOWA—Chief Consul, H. L. Chase, Cedar Falls. Secretary-Treasurer, C. H. Curley, Prairie City.

KANSAS—Chief Consul, C. S. Davis, Junction City. Secretary-Treasurer, W. S Lydecker, Junction City.

KENTUCKY—Chief Consul, Andrew J. Lamb, Box 65, Louisville. Secretary-Treasurer, G. E. Johnson, 1919 Floyd street, Louisville.

LOUISIANA—Chief Consul, Frank B. Born, 214 Louisiana avenue, New Orleans. Secretary-Treasurer, C. P. Chapman, 847 Carondelet street, New Orleans.

MAINE—Chief Consul, Howard M. Breen, 199 Franklin street, Portland. Secretary-Treasurer, Bates Torrey, 190 High street, Portland.

MARYLAND—Chief Consul, Albert Mott, 203 Lenox street, Baltimore. Secretary-Treasurer, Wm. J. Unverzagt, 29 South Charles street, Baltimore.

MASSACHUSETTS—Chief Consul, A. W. Robinson, 21 Milk street, Boston. Secretary-Treasurer, Chas S. Howard, Globe office Boston.

MICHIGAN—Chief Consul, A. B. Richmond, 370 So. Lafayette street, Grand Rapids. Secretary-Treasurer C. A. Conover, Coldwater.

MINNESOTA—Chief Consul, T. M. Slosson, Box 380, Minneapolis. Secretary-Treasurer, E. S. Gregory, Winona.

MISSOURI—Chief Consul, Robert Holm, 908 La Salle street, St. Louis. Secretary-Treasurer, J. H Kelley, Smith Hardware Co., Sedalia.

NEBRASKA—Chief Consul, A. H. Perrigo, 1315 Dodge street, Omaha. Sec.-Treas, C. B. Nicodemus, Fremont.

NEW HAMPSHIRE—Chief Consul, Frank A. McMaster, 101 Ash street, Nashua. Secretary-Treasurer, R. H. Scott, People's Ins. Co., Manchester.

NEW JERSEY—Chief Consul, Dr. G. Carleton Brown, 116 Broad street, Elizabeth. Secretary-Treasurer, Geo. C. Pennell, 414 South Broad street, Elizabeth.

NEW YORK—Chief Consul, W. S. Bull, 754 Main street, Buffalo, N. Y. Secretary-Treasurer George M. Nisbett, 50 Wall street, New York City.

OHIO—Chief Consul, M. A. High, 106 Vine street, Cincinnati. Secretary-Treasurer, Dr. W. D. Kempton, 53 West Ninth, Cincinnati.

PENNSYLVANIA—Chief Consul, Samuel A. Boyle, Ass't Dist. Atty, Philadelphia. Secretary-Treasurer, John J. Van Nort, Scranton.

RHODE ISLAND—Chief Consul, Geo. L. Cooke, Box 1101, Providence. Secretary-Treasurer, Nelson H. Gibbs, 218 Westminster street, Providence.

TENNESSEE—Chief Consul, Chas. J. Sherer, 211 Main st, Memphis. Secretary-Treasurer, B. A. Patch, Clarksville.

TEXAS—Chief Consul, E. W. Hope, Sherman.

UTAH—Chief Consul, Harry C. Creary, Box 281 Salt Lake City.

VERMONT—Chief Consul, F. A. Hubbard, Brattleboro'. Secretary-Treasurer, F. A. Roberts, Brattleboro.

VIRGINIA—Chief Consul, Law: L Waring, Norfolk.

WEST VIRGINIA—Chief Consul, J. M. Belleville, 42 No. Front street, Wheeling.

WISCONSIN—Chief Consul, W. L. Simonds, 382 East Water street, Milwaukee. Secretary, F. J. Morawetz 537 Milwaukee street, Milwaukee.

FOREIGN MARSHAL—Joseph Pennell, care J. S. Morgan & Co., 22 Old Broad street, London, E. C. England.

L. A. W. Renewal Blank, 1891.

Fill out this blank, enclose $1 to pay your dues to April 30, 1892, and send to ABBOT BASSETT, Box 5267, Boston, Mass.

Don't send soiled bills. New bills are safer in the mails.

Don't Forget to send your Number.

Don't send checks for $1.

Write very plainly—PRINTING PREFERRED.

Stamps of a denomination above two cents will not be received.

If you live in one State and have your mail sent to another, state the fact that you may be located with the Division in which your home is.

If you desire your address changed, you must make the request on another sheet than this.

Ticket holders, 25 cts.; with name stamped, 50 cts.

Write nothing above this line.

A. FEATHERSTONE,

Clark and 16th Sts., and Armour Ave., - - - Chicago.

UNPRECEDENTED IN HISTORY.

A CYCLISTS' WONDERFUL FEAT.

Harry K Recher Climbs the Steep Roof of the Tabernacle Building.

Yesterday evening, Messrs. Geo. Updegraff, Bert Shildneck and Harry K. Recher, all cyclists of our city, visited the new tabernacle building now in course of erection on Baltimore street, by the German Baptist Brethren. As they stood by, contemplating the vastness of the building and the steep incline of the roof, the thought suggested itself to Mr. Recher to scale the roof with his Swift Cushion-Tired Bicycle. His associates at once tried to dissuade him from his purpose, but with indomitable courage he secured a wide plank and placing it on the eaves of the roof commenced his perilous ascent. When the roof was reached, he found he had but the width of a foot between the laps in which to ride; but, nothing daunted, he continued his ascent, which was watched by those below with bated breath and nervous suspense. He reached the top safely, and then began the descent on the other side. His faithful machine, with unerring course glided smoothly down the board roof. A few wavering motions of the wheel were noticed when he was half way down, but with steady nerve and cautious guidance he completed his descent amidst the applause and congratulations of the crowd who had congregated to witness a feat in cycling that was unprecedented in the history of the wheel. The angle of the roof inclines to 45 degrees, and the distance covered was 120 feet. Five minutes were consumed by Mr. Recher in the accomplishment of his daring ride.—*Extract from a Hagerstown (Md.) morning paper.*

MORAL—The Swift Cushion Tyre is a great aid on hill climbing. Swift's have the correct facilities for steering accurately, invariably true, easy and reliable. Be wise in time.

COVENTRY MACHINISTS' CO., Ltd.,

239 Columbus Avenue, Boston, Mass. | **11 and 13 Madison Street, Chicago, Ill.**

HANDSOMEST SAFETY MADE.

WHY is the NEW MAIL at $100

The Best Value in the Market at the Price or Anywhere Near It?

BECAUSE IT HAS Cushion Tires which annul jar and vibration, giving life and elasticity to whole wheel, and are to be the Favorite Tires for 1891, and we Warrant Them. Our Cushion Tires are Right and the Best.

BECAUSE IT HAS Tangent Spokes strongly tied and Nickelled to intersections. Stronger and handsomer than direct spokes as used on cheaper wheels. Select Tangent Spokes Always!

BECAUSE IT HAS a Brazed Frame at all joints. Look our and get a Brazed Frame always to stand road wear, and at *every point* of the frame!

BECAUSE IT HAS a Standard Easy Saddle, the Garford, which is a Favorite.

BECAUSE IT HAS the Popular New Mail Shape Handle Bars, low and well back to rider.

Study all these points on examining the wheels in the market and see if you find them in Any Other. The BEST YET!!! If your dealer has not got it ask him to show one before you decide.

BOSTON, 8 MAY, 1891.

"THE THREE STARS."

GEO. P. ROWELL & CO.'S Newspaper Directory for '91 has the following rating of the BICYCLING WORLD AND L. A. W. BULLETIN: "Circulation F2. ***. ☞Actual average circulation for the past year 14,638." [Oct. 24, 1889 to Oct. 24, 1890.—ED.]. The three stars mean that the correctness of the rating is GUARANTEED.

☞When looking at ratings of all papers notice whether the three stars are present or absent. OUR present circulation, sworn, is 20,700. Here's food for thought among advertisers.

WE have before us the full text of the Racing Rules as amended by the Board at Cleveland, O., last month, and we print same in full on the next page.

We are glad to notice that the Board will pass on *all* records whether made in competition or against time. We have always regretted that the Racing Board ignored records against time, and we hail the change with pleasure. The Chairman of the Racing Board shall have the power to appoint Division Racing Boards, and fill vacancies in cases when the Division Constitution or By-laws does not provide for same. This is a good rule, as also is the change allowing only the winners of the Division to be eligible to the National Championships. Since the District Championships are abolished, and Division Championships take their place, the contestants would be too numerous for comfort if the first and second man were allowed to start, besides, the tendency is to make the Division Championships more interesting.

We think the rule a fair one which provides that a member of a Division which fails to run the championships can obtain the consent of the Racing Board to start in the National events. We are glad to notice that the Referee has the power to call off the track, as being distanced, contestants who have fallen hopelessly behind the leader. The duties of the Judges have also been defined in a way that cannot but help be beneficial. The appointment of the Scorer or his assistant to give the bell signal for the last lap is putting that duty in the right hands.

WE NOW come to Rule G, and the consideration thereof. The rule reads:

"Any cycle or athletic club will be allowed, under special sanction of this Board, to pay the entrance fees and actual necessary travelling expenses of a member or members whom they may desire to represent them at a race meeting, but without this special sanction no competitor in amateur events shall accept from his own club, or from a club promoting sports at which he competes, any payment for his expenses under penalty of suspension from the track for a time at the discretion of the Board."

The first question to consider is, is this rule constitutional? We find in section 9 (d) that a cyclist ceases to be an amateur on his

"Accepting, directly or indirectly, any remuneration, compensation, or expenses whatever from a cycle manufacturer, agent, or other person interested in the trade or sport, for cycling."

Here we find three classes mentioned, "manufacturer, agent, or other person;" and while it is clear to us that "other person" means any one pecuniarily interested in the sale of bicycles, we cannot see by what right the Board can make such a rule as Rule G; for if the words "every other person" includes cycle and athletic clubs, the Racing Board has no right to sanction conditionally the payment of *any* expenses, as it is prohibited by the Constitution. If, on the other hand, the words mean, as we believe them to, (i.e., every other person pecuniarily interested in the sale of cycles,) then the Board has no right to say that cycle and athletic clubs shall *not* pay the proper expenses of members. The Racing Board in making its rules, must be controlled by the Constitution and By-laws, and it has no power to go beyond these or make rules which are in direct violation of same.

NOW as to the By-laws; we find that the Racing Board has power (section 7, b,) "to make inquiry regarding any wheelman whose amateur status is questioned; * * * and if the charges are proved," the Board can declare that "the party has forfeited his amateur status * * *." Again we find, Section 7, (d):

"It shall be within the province of the Racing Board to suspend from the race track, for such a time as it may deem proportionate to the offence, any wheelman guilty of unfair dealing in connection with cycle racing or ungentlemanly conduct on the track, or any wheelman who competes in a race not governed by the rules of the L. A. W., or those that may be approved by the Racing Board. * * *"

Here we find, very distinctly, By-laws laid down under which the Racing Board has the power to suspend or expel. The Constitution is its guide as to what constitutes an amateur, and the By-laws direct on what charges suspensions or expulsions can be made. It will be observed that neither the Constitution or By-laws forbid the payment of proper expenses by cycle or athletic clubs.

THE next question which presents itself is the meaning of section 7, (e) of the By-laws which reads:

"The Racing Board shall have the power to make such rules for its government, and *the government of cycle race meetings* as may be deemed expedient, and may appoint one or more official handicappers at its discretion."

The italics are ours. We find that after the Constitution and By-laws specifically define on what ground suspensions and expulsions can be made, the By-laws further extend the authority of the Board to the making the track rules which shall govern the actual running of races.

SUSPENSION is the abrogation of an amateur's rights, and when these rights are interfered with under other rules than those laid down by the Constitution and By-laws it becomes inoperative, and neither the Racing Board or any other Committee of the L. A. W. has power to make rules which are in opposition to these two governing codes.

HAVING briefly expressed an opinion as to the constitutionality of Rule G as presented by the Racing Board we desire to briefly review the history of the Alliance between the L. A. W. and A. A. U. At the National Assembly in Washington February 16, it was voted on motion of Mr. Post that the matter of alliance with the A. A. U. be "referred to the Executive Committee with the Racing Board with full powers." Negotiations were entered into, and at a joint meeting of the Executive Committee and Racing Board held in New York in April the terms of the alliance as printed in this paper on the 24th April, page 712, were submitted to it and unanimously accepted, and in turn accepted by the A. A. U. In the terms of alliance it is distinctly stated that "every cyclist shall be subject to test as to his amateur standing exclusively by the provision of the Constitution of the L. A. W. defining an amateur."

IT is with regret that we have to criticise the racing rules as presented by the Board, as we believe not only that Rule G is unconstitutional, but that it is not according to the spirit or letter of the Alliance made with the A. A. U., and we hope the Board will reconsider the matter and expunge the obnoxious rule, and in this way show our good faith with the A. A. U., and avert a controversy which cannot but prove disastrous to racing interests and amateur sport.

THE Illinois Division officials ought to be actively engaged in opposing the proposed bill presented by Mr. White of Stark County, compelling cyclers in the State of Illinois to dismount one hundred yards from any team which they may meet on the highways. The Capital City Cycle Club of Springfield, Ill., has taken action in the matter, and passed resolutions protesting against the bill as being unconstitutional and unjust. There is no doubt as to its being unconstitutional, but unless vigorous methods are employed the bill may pass the two houses and become a law. While there is little chance of this occurring in the face of active opposition on the wheelmen's behalf, laxity or carelessness might bring about disastrous results, and the wheelmen would have harder work to get the law repealed than they would to prevent its passage. The Capital City Club, however, seem to be awake to the gravity of the situation, but they should receive the active co-operation, as they no doubt will, of the Illinois Division itself.

RACING RULES.

CHICAGO, April 22, 1891.

At a meeting of the Racing Board, held in Cleveland, April 18, 1891, the following rules were adopted for the ensuing year.

CHARLES E. RANDALL, Chairman.

GENERAL RULES.

A. Any amateur wilfully competing at races not held under the rules of the Board, or rules approved by the Board, shall be liable to suspension from the race track for such a time as the Racing Board may determine; and amateurs are notified that to compete against any rider who has been suspended will render them liable to the same penalty.

B. The Racing Board will receive and pass upon all claims for competition and time records. The former must be made at an open meeting. If required, claimants must furnish a statement from the judges and time-keepers, together with a sworn statement from a competent surveyor certifying the measurement of the track. When a record has been proved to the satisfaction of the Board, it shall be published in the official organ, and stand as record on the books of the Board. No record made at a meeting not governed by League rules will be considered. No record made on the Lord's Day will be considered. The Board will enter no competition record on its books that is not made at an open meeting, of which at least one week's notice has been given. The Board will enter no record on its books that is made on a board track or under cover. A competition record must be made in a race between men. A time record may be made with or without pacemakers.

C. Tracks shall be measured on a line drawn not more than eighteen inches from a well-defined, fixed and continuous inner curb or pole, and no record shall be allowed on a track otherwise measured.

D. The Board reserves the right to exclude from the racing path any and all machines which, in their judgment, do not come within the commonly accepted meaning of the terms "bicycles," and tricycles," either by peculiarity of construction or by undoubted mechanical advantages which they may possess.

E. (1) The National L. A. W. Championship events shall be as follows: one quarter, one half and one mile "ordinary" bicycle; one quarter, one half and one mile "safety" bicycle, and one mile "tandem" safety bicycle.

(2) Each L. A. W. Division may contest corresponding events to be known as Division Championships under the supervision of the Division Racing Board. The *chairman* of the National Racing Board shall have power to appoint Division Racing Boards and fill vacancies when not provided for in Division Constitutions or By-laws.

Each Division Racing Board shall have entire charge of all matters pertaining to the running of the championships in its Division. The Division Championships shall be contested prior to July 15th of each year, at such place or places as the Division Racing Board may determine. Division championships are open to any League member residing in the Division.

(3) The *winner* of each Division Championship shall be eligible to enter only corresponding National Championships.

Any wheelman who is a member or a Division which fails to contest its Division Championships, or who is a member of the League and resides in a State where no L. A. W. Division has been formed may compete in the National Championships upon obtaining the consent of the Chairman of the National Racing Board.

(4) The National Championships shall be contested annually between July 15th and October 15th, at such place as the Racing Board may determine. No entrance fee shall be charged to the National Championships.

National and Division Championships are open to League members only, and the trophies for National Championships shall be medals, struck from dies owned by the League, to cost in no case more than $50, and to become the property of the winners.

(5) The Racing Board shall give at least thirty days' notice of the location and date of the National championships. Division Racing Boards shall give at least fourteen days' notice of the location and date of the Division championships.

(6) Privilege to hold State championships in States where no Division of the League has been formed may be granted to clubs or authorized associations, where the importance of the meeting is sufficient to warrant the Racing Board's special sanction; but the winners shall not be eligible to compete in any National Championships by reason of winning such event.

F. (1) The Board shall appoint seven or more League handicappers, giving to each a special district, at its discretion, who shall, for a stated fee, attend to the classifications and handicapping of racing men. Classifications shall be based on the appended table in Rule 29. Handicaps shall be based on the ability as well as records of the contestants. Handicaps shall be framed and the men classified before the day of the race shall appear on the programme, and shall not be changed during that day's meeting.

(2) Entries to handicaps and class races shall close seven days prior to contest to allow time for proper investigation.

(3) Promoters of races must send to the official handicapper of the district in which the races are to be held a complete list of entries accompanied by entry blanks in all handicaps and class races, not later than five days previous to the date of races. Any contestant in a handicap or class race, not handicapped or classified by the District Handicapper, shall be liable to suspension from the track for such a time as the Racing Board may determine. All entry blanks shall become the property of the League and shall be in charge of the District Handicapper.

(4) A fee of twenty-five cents may be charged for each entry to be paid by the club or managers of the race meeting for which the handicapping and classifying is done.

G. Any cycle or athletic club will be allowed, under special sanction of this Board, to pay the entrance fees and actual necessary travelling expenses of a member or members whom they may desire to represent them at a race meeting, but without this special sanction no competitor in amateur events shall accept from his own club, or from a club promoting sports at which he competes, any payment for his expenses,under penalty of suspension from the track for a time at the discretion of the Board.

H. No open betting shall be permitted. The officials of a race meeting (see Rule 2) shall not bet upon the results of any race. Officials found guilty of violating this rule shall be debarred from holding official positions at race meetings for such time as the Racing Board may determine.

I. No prizes except medals, suitably inscribed, shall be given to, or received by any cyclist competing in National or Division Championships.

TRACK RULES.

1. Entries and awards in amateur events shall be confined strictly to amateurs, and persons entering for these races who are not members of cycle or other athletic clubs whose rules of membership exclude professionals, must satisfy the Executive Board that they are not professionals, either by their own statements in writing or otherwise.

2. The officers of a race meeting shall be: A referee, three judges at the finish, three time-keepers, one starter, one clerk of the course, with assistants, if necessary, one scorer, with assistants, if necessary, and one umpire for every one-eighth of a mile. The referee, judges, and clerk of the course shall constitute an Executive Board.

3. The referee shall have general supervision of the race meeting. He shall give judgments on protests received by him; shall decide all questions or objections respecting foul riding or offenses which he may be personally cognizant of, or which may be brought to his attention by an umpire or other officers. He shall act asthe may think for the best in cases of misconduct by attendants, and shall disqualify any competitor who may become liable to disqualification. He shall decide all questions whose settlement is not otherwise provided for in these rules. His decision, in all cases, shall be final.

4. The judges shall decide the position of the men at the finish. In case of disagreement the majority shall decide. Their decision shall be final and without appeal.

5. The time-keepers shall compare watches before the races are started, and shall note any variance; they shall each time every event, and in case of disagreement the intermediate time of the three watches shall be the official time. Time shall be taken from the flash of the pistol. In case two watches of the three mark the same time, that shall be the official time.

6. The scorer shall record the laps made by each competitor in the order of the men at the finish as given him by the judges and the time as given him by the time-keepers. He shall indicate the commencement of the last lap by ringing a bell as the riders pass over the mark for the final lap.

7. It shall be the duty of the starter, when it has been reported to him by the clerk of the course that all the competitors are ready, to see that the time-keepers are warned, and before starting the men to say "Mount," in a few seconds after to say "Are you ready?" and if no reply to the contrary be given, to effect the start by report of pistol. Should the pistol miss fire the start may be made at the word "Go." The starter may, at his discretion, put back for a distance not exceeding ten yards any competitor starting before the signal is given. In case of a false start, the competitors shall be called back by the starter by the ringing of a bell and re-started. Any competitor refusing to obey shall at once be disqualified. He shall announce to the competitors the distance which they are to ride. In case of a fall within thirty feet of the scratch line, the contestants shall be recalled, and the race started over again.

8. The clerk of the course shall call competitors in ample time for each event, and see that they are provided with numbers properly worn. He shall report the contestants to the scorers, see that they are on their appointed marks, and call their numbers for the scorers as they cross the line at the end of each lap.

9. It shall be the duty of an umpire to stand at such part of the field as the referee may direct, to watch closely the riding, and immediately after each race to report to the referee any competitor or competitors whose riding he may consider unfair, to the end that the referee, before making any decision, may be credibly informed by an official as to the facts.

10. It shall be the duty of the Executive Board to adjudicate any questionable entry, and they shall have the power to make any alteration in the programme that they may deem necessary, or to disqualify competitors without any protests being lodged by another competitor.

11. No person whatsoever shall be allowed inside the track except the officials. Authorized persons shall wear a badge. Competitors not engaged in the race actually taking place shall not be allowed inside or upon the track. Trainers shall not be allowed to "coach" competitors.

12. Any competitor making a false entry shall be disqualified and debarred from any place or prize, and will be liable to suspension from the race tracks.

(13) Choice or change of machine and choice of costume shall not be limited, except that shirt and breeches shall not bare shoulder or knee. In races distinctly stated on the programme of events to be for a particular class of machine, this rule shall not apply so far as choice or change of machine is concerned. Safety bicycle races shall be limited to machines whose driving wheel does not exceed 36 inches in diameter. "Ordinary" bicycles and "safety" or "tandem" safety bicycles shall not be ridden in the same race *except* by permission of the Chairman of the Racing Board. Race promoters desiring to bar out or penalize a certain type or style of machine must give notice of such intentions on both entry blank and programme, in order that racing men may understand the conditions under which they are to compete.

(14) Every competitor will receive in the dressing room a ticket bearing a number corresponding with his number on the programme, which ticket must be worn by him on his back during the race. He shall inform himself of the times at which he must compete, and await the call of the clerk in the dressing room.

(15) The drawing for positions in each event shall be done by the promoters of the meeting, and the positions of the men shall appear on the programme. When it becomes necessary to draw for positions on the grounds, the work shall be done by the clerk and starter in conjunction. In heat races the winner of the first heat shall take the pole in the next succeeding heat. When races are run in heats and a final, the winner of the fastest heat shall take the pole in the final.

(16) All starts, bicycle or tricycle, shall be from a standstill, with the left hand towards the curb, and the machine shall be held in position by an attendant (the front wheel touching the starting line) until the signal is given by the starter. Attendants when pushing off competitors must have and keep *both* feet on the ground *behind the mark from which the competitor actually starts*. Should any part of the attendant's body touch the track in front of the mark, the competitor may be disqualified. Any competitor shall be at liberty with the consent of the Referee to start from a mark behind the one allotted him in the race; but in such case as in all others the point of contact of the front wheel of the machine with the ground shall be considered the starting mark, and the same rule shall apply.

(17) The finish of all races shall be judged by the first part of the front wheel which touches the tape fastened flat on the ground at the winning post.

(18) Riders must pass on the outside (unless the man passed be dismounted), and must be at least a clear length of the cycle in front before taking the inside. The inside man must allow room for his competitor to pass on the outside. A competitor overtaking another may pass between him and the pole if there be ample room, but he does so at his risk; and should a foul be claimed the referee must decide if the rider was justified in his course. Riders are cautioned that they must not pass inside, except as a last resort.

(19) Any competitor guilty of foul riding shall be disqualified and debarred from any place or prize and will be liable to suspension from the race tracks.

(20) Any protest against a competitor respecting his qualification as an amateur must be lodged with the referee before starting; and any protest respecting foul riding or breach of rules must be made to the referee immediately after the heat is finished. A competitor, upon being disqualified, shall forfeit any entry fee he may have paid.

(21) Competitors may dismount during a race at their pleasure, and may run with their cycles if they wish to, but they must keep to the extreme outside of the path whenever dismounted. If a rider be dismounted by accident or to change his machine, an attendant may hold his machine while he mounts it, and he must so mount at the extreme outside of the path.

(22) Any wheelman found guilty of unfair dealing inconnection with cycle racing, or of ungentlemanly conduct on the race track shall be suspended from the race tracks for such a time as may be deemed proportionate to the offence. (See clause D, section 7, article IV of By-laws.)

(23) The referee may place a time limit on any race. The time limit shall not be announced to the contestants until their arrival at the tape preparatory to the start of the race. If the competitors finish within the limit they shall receive the prizes. If they fail to so finish, and the referee is convinced by their riding and the time made that they endeavored to reach the limit, he may award the prizes. It shall be his privilege to withhold any prize if in his opinion a competitor did not try to win the race.

(24) In order to secure a special prize, offered for the fastest time made at a stated distance, the successful competitor must have ridden the entire distance of the race in which he makes his record.

(25) If in any race, by reason of accident or withdrawal, only one contestant remains upon the track, the referee may call such contestant from the track and award him the first prize. If a competitor in a race for any distance not exceeding three miles shall fall behind a quarter of a mile or if he shall fall behind half a mile in a race or any greater length he shall be adjudged distanced by the referee and shall be called from the track. Pacing if attempted shall disqualify both the competitor and pacemaker.

(26) The officers of a race meeting, see rule 2, shall not be permitted to compete in any race at a race meeting with which they are officially connected.

(27) A novice race is open only to those who up to date of event have never won a prize in a race and shall be the first race of the meet.

(28) A class race is open only to those who up to date of the closing of entries have not won one of the first two positions in a track race in the same or better time than the class under consideration or in relative time, judged from the other distances according to the appended table. See rule F., clause D, section 7, article IV of By-laws.

Quarter Mile.	Half Mile.	One Mile.	Two Miles.	Three Miles.	Five Miles
.34	1.18	2.40	5.30	8.20	14.20
.35	1.20	2.45	5.40	8.30	14.40
.36	1.23	2.50	5.50	8.45	15.00
.37	1.25	2.55	6.00	9.00	15.30
.38	1.27	3.00	6.10	9.15	16.00
.39	1.29	3.05	6.20	9.30	16.30
.40	1.31	3.10	6.30	9.45	17.00
.41	1.33	3.15	6.40	10.00	17.30
.42	1.35	3.20	6.50	10.30	18.30
.43	1.40	3.30	7.10	11.00	19.00

(29) In a race without hands the start shall be made as usual. Ten seconds from the time of starting the scorer shall ring his bell, and this shall be the signal for the riders to take their hands off. The competitors must then ride with their arms folded or the hands and arms otherwise kept quite off the machine. Any competitor touching any part of his machine with his hands or arms shall be disqualified.

(30) In a slow race, a straightaway course not less than three nor more than five feet in width should be marked out for each competitor. Any competitor who rides outside of these lines, to be judged by the centre of the driving wheel, or who comes to a standstill, or who is dismounted, or who fails to start at the signal, shall be disqualified.

(31) In a lap race, the position of the first three men shall be taken at the finish of every lap. The first man shall score three points, the second man shall score two points, the third man shall score one point, and no others shall score. The contestant who crosses the line first at the finish shall for that lap score four points. The competitor who scores the greatest number of points shall be declared the winner; but any contestant, in order to secure a prize, must ride the entire distance and be within 150 yards of the finish when the first man crosses the tape at the end of the last lap. Any competitor failing to comply with this rule shall be disqualified.

(32) In a team race the position of each rider must be taken at the finish of each lap. The first man shall count a number equal to that of the contestants at the start, the second man shall count one less, the third two less, and so on. The aggregate scores of the team members shall decide the winning team. A team shall be limited to three riders, each of whom shall have been a member of the club entering the team for at least *three months* previous to date of event. Each team member must also have resided within five miles of the city or town where the club has its headquarters for at least six months previous to the date of contest.

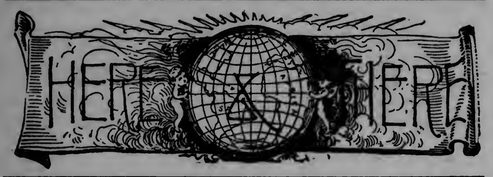
(33) The contestants in the run-and-ride race shall be started on foot in the usual manner, and umpires shall be stationed on the track at the mounting and dismounting stations, who shall take account of the fairness of mounting and dismounting. Mounting before reaching, or dismounting after passing the station, shall be sufficient cause for disqualification. The alternating distance shall be one-quarter of the distance of the entire race.

(34) In a heat race, where the contestant must win two in three, or three in five, the position of each rider must be taken at the finish of each heat. The first man shall count a number equal to that of the contestants in the first heat, the second man shall count one less, the third two less, and so on. The competitor who scores the greatest number of points shall be declared the winner.

(35) Entries in a consolation race shall be limited to those who have won no prize in any event of the meeting; provided, however, if only a single prize is given in the team race, members of the winning team shall not be considered to have won a prize, and shall be eligible to the consolation race.

(36) Any club, or race promoters, desiring to place upon their list of events, a race of different nomenclature than those given above must first explain the nature of the event to the Chairman of the National Racing Board and obtain his consent. The consent having been obtained, they shall print upon the entry blank and the programme of the day a rule to define the race, that the officials and contestants may clearly understand the conditions of the contest.

(37) Ignorance of any of the foregoing rules will not be considered a valid excuse for violation.



MINORITY REPORT.

I desire to put myself on record in opposition to the placing of Rule G in our code. I do this because I believe it unconstitutional, and therefore inoperative. I believe that the Racing Board has no power to pass a rule which amends the Constitution as this does. Were it a question of policy or expediency at issue, I should stand by the decision of the Board, though in the minority, but I cannot connect myself with a measure that I do not believe we have the right to enact, and which is out of harmony with the alliance made with the A. A. U. which, under instruction from the National Assembly, has been consummated and which we are in honor bound to carry out to the letter. My protest is not based upon any opinion that I may hold regarding the payment of expenses.

ABBOT BASSETT,
Member of Racing Board.

to say, is not yet recorded the feeling that honest labor is unworthy of a man, and that he cannot be a gentleman, an amateur, or anything else creditable that he may want to, provided no worse charge be laid at his door than that of being a bread-winner. When, in this country, a man must first be a loafer before he can be an amateur, I am convinced that there will be many more professionals than there are now, and that they then will be in the honorable position and the amateurs occupy the discreditable one. Seriously though, this will never come to pass.

"HAWKSHAW."

WE congratulate "Judge," our Detroit correspondent, on his approaching nuptuals. Other duties will engage the attention of our good friend "Judge," and we shall miss his news notes from our columns. We have another correspondent in Detroit, and we have no doubt he will be as well and favorably liked as our old friend "Judge."

UNRIVALLED, the BICYCLING WORLD stands to-day as a medium for men's goods; what other paper is there in the United States which reaches 20,000 young men exclusively as it does? You can make no mistake in using it for advertising.

THE Chicago Cycling Club House Committee are having some trouble with land owners who demand too much for ground, but hope to have all arrangements completed shortly.

THE Denver (Col.) Cyclists Union have selected May 30 and 31 as the dates for the spring tournament.

THE membership of the Century Wheelmen, Philadelphia, is booming since the removal of the active membership limit.

THE Onondaga Cycling Club of Syracuse, N. Y., held its annual meeting at the Vanderbilt House last Thursday and elected officers. A committee of five were also appointed to make arrangements for a road race. A number of very fine gold and silver badges are offered as prizes.

ON Sunday afternoon, as Mr. H. Crowther was riding home from the Pennsylvania Bicycle club house, he was stoned on Girard avenue, just within the park entrance, by a crowd of young toughs. One of the offenders was arrested, and was bound over the following morning by magistrate Romig in four hundred dollars' bail against further molestation of cyclers. He gave the name of Lines.

RAVENSWOOD, a pretty suburb of Chicago, is forming a cycling organization. Fully fifty members are already guaranteed.

Two months have now elapsed since the first steps were taken towards the incorporation of the Houston, Texas, Bicycle Club under the laws of the State of Texas. As then stated, the capital stock of $5000 was divided into 500 shares of $10 each. The money received for shares is to be expended in the erection of club house, and the putting in of a half-mile track, which will be one of the best in the United States and the best in the South. The club has made arrangements with Mr. Jno. T. Brady for a site for track, at the beautiful Magnolia Park, about four miles from the city. Mr. Brady liberally subscribes $375 towards the improvement of this track, and grants a lease on the ground for five years. It is expected that the track will be in good shape for use by June, as the State meet will be held there sometime during that month.

A MOVEMENT is on foot in Chicago to form a colored men's cycling club. The Garden City has many excellent riders among its colored wheelmen.

THE Quaker City Wheelmen of Philadelphia gave a very enjoyable musicale and literary entertainment at the club house on Friday evening, which drew a large attendance.

DURING Madri Gras at Galveston, Texas, quite a number of wheelmen from all parts of the State, and also from Houston went down to the Island City and participated in the races at that point. Some handsome prizes were offered, some of which were won by the Houston cyclers. Notwithstanding the fact that three months have elapsed since these prizes were won, the winners have not yet received same, nor does there seem to be any immediate probability of their doing so. The subscribers to the fund for the purposes of buying suitable medals, it is understood, have all paid in their money. The trouble it seems is not with the Galveston Wheel Club but with two outside wheelmen, one of Houston and the other of Galveston. In the case of any future contests it is hoped that they will be held under the auspices of the Galveston Club, in which case we feel sure that there will never be any cause for complaint.

WHEN the Texas State meet comes off in June it is hoped that every wheelman in the State, whether a League member or not, will be on hand. Due notice will be given through the Houston *Post*, whose management have tendered the use of a column for the purpose of giving news of interest to wheelmen, and which is being ably edited by Mr. F. W. Dumble. Mr. Dumble would be pleased to have items from every wheelman in the State as concerns his respective locality.

IT has been decided by the Philadelphia Outing Club that their lady members are to be admitted to the same rights in the club as the gentlemen. This carries with it the privilege of holding office.

PRESIDENT GRIFFITH, of the Detroit Wheelmen, has issued a congratulatory circular to the club members on the success of the club and the changing of dates for the National Championships so that Detroit can run them. He urges them to be "modest under their success." He says in conclusion: "You have the good will of the people, be careful to keep it. Keep on the right side of the road, be careful at crossings, and most of all, be polite and considerate to others, so that when our brother wheelmen visit us they will not only be our guests, but also the guests of the city. Respect the rights of others and thus demand your own."

"'LINNEUS,' in speaking of the 4th District Racing Board," says "Star," of Cincinnati, "in your issue of April 24, asks 'Where is Cincinnati?' Well, 'Mr. Linneus,' Cincinnati is still in the same salubrious locality that she has occupied for more than a hundred years. The only reason we are not in the races of the 4th District is because we are modest and want to give the rest a chance. We feel assured if Kobmann, Windisch and Tutty of the Porkopolis Wheelmen would only start on the war path they would not only get all of the scalps, but would take in the whole 'brewery' besides."

THE Detroit Wheelmen have offered the use of their club rooms to the G. A. R. during their encampment in August. The offer was gladly accepted, and the rooms will be used as the headquarters of the Detroit Post.

MR. SAMUEL BRADY has written the Secretary of the Detroit Wheelmen, thanking the club on behalf of the descendants of Gen. Hugh Brady for their tribute to his memory in placing a memorial tablet on the walls of the Detroit Museum of Art, which is situated on the site of Gen. Brady's early home.

DURING the past week Detroit has been receiving congratulations on all sides on the action taken by the Racing Board in assigning the Championships to be run there.

THE road race of the Detroit Wheelmen for Decoration Day has been postponed one week, and will be run Saturday afternoon, June 6th. The course will probably be changed, owing to the opposition of several drivers who object to allowing bicyclists to race on the Grosse Point road.

THE sailing time of the Hamburg American steamers having been changed, the Harz Mountain tourists will sail from New York on July 4 at 5 A.M., on steamer Dania, instead of June 30th, as heretofore announced.

THE Orange (N. J.) Wheelmen have accepted plans for a splendid new club house. The building will be 30x110, and will contain all that a first-class club house should, including gymnasium, etc. The style will be colonial, and it will be two stories high.

GENTLEMAN going to Mifflin County about June 1st would like to meet party going same direction, or to Harrisburg. Start from Philadelphia. Address Reynolds, No. 1604 Federal street, Philadelphia, Penn.

AFTER considerable house hunting the Douglas Cycling Club of Chicago have decided to retain their present quarters at Rhem and Loomis streets for a time. A house on Ashland or 12th street boulevards was desired.

A "LADIES' night" was held by the Ansonia Wheel Club on the 23d of

The First Cycles in the United States

Roxbury, April 24, 1891.

To Singer & Co.,

Dear Sirs:—I have used your 1891 pattern wheel, with the one inch wired tire, and have no hesitation in stating that it gives more satisfaction than any cushion tire that I have ever tried, and as for hill climbing, it is unsurpassed.

Yours truly,
JAMES KELTIE,
Captain Roxbury Bi. Club.

The Largest Cycle Manufactory in the World

SINGER & CO., 6 and 8 BERKELEY STREET and 2 WARREN AVENUE, BOSTON, MASS.

April. The occasion was the re-opening of the enlarged quarters of the club, and brought out a large attendance of ladies. The programme of the evening consisted of vocal and instrumental music, and a stereopticon entertainment by members of the club, and the evening closed with dancing and refreshments.

CHARLES G. KILPATRICK, the one-legged cycler of Milwaukee, Wis., is ready to meet any other one-legged man in the country to try conclusions on the race track.

A 56-INCH Victor safety has been stolen from the Brooklyn (N.Y.) Bicycle Club. It is the property of Mr. F. B. Jones.

THE prudes of New Haven, Ct., are startled over the appearance of two pretty girls on bicycles. So says the *Union* of that city. We did not know New Haven was so far behind the time as to be scandalized at what in other cities excites no comment other than favorable. This is the way the *Union* sums up its idea of the matter: "On the bicycle the double-skirted, blue-capped, blooming-cheeked, buff-buskined girl is a symphony of colors, dashing dignity and lithe and lively form, and she presents a bright, fleeting picture of hearty, health-preserving independence."

THE Springfield (Mass.) Athletic Association voted unanimously to join forces with the Springfield Bicycle Club. It remains now for the latter club to accept or reject the proposed terms of the Association.

THE Wolverine Cyclers of Ann Arbor, Mich., held their final hop April 16. There were 125 couples present, and the programme containing 25 numbers was of a size sufficient to satisfy the most inveterate dancers.

THE Alameda Bicycle Club of Oakland, Cal., has expanded so much that it needs larger quarters.

THE Æolus Cycling Club of Chicago moved into their new club house at 174 Evergreen avenue this past week. This house was built especially for the club, and is a model cycling house.

Is this the kind of amateurism they have in Australia? T. Busst described as "the Melbourne Bicycle Club's crack rider" recently took part in a 5 miles invitation race in which "a new plan to do away with the much-decried 'loafing' tactics of racing cyclists was instituted and met with much success. The scheme was to award a half sovereign to the leading man at each lap. Chrisp and Mills won most of this money and strove their best to defeat Busst in the final lap, but were beaten by fully a wheel's length."

THURSDAY evening last the Cook County Wheelmen of Chicago gave a progressive card party, musical and literary entertainment combined. A large number were in attendance.

HE who is not ready to-day will be less so to-morrow." If you have any article of merit to sell that men use advertise in the BICYCLING WORLD—an unrivalled medium for men's goods—a weekly circulation of 20,000 guaranteed.

A STORY comes to us from Hagerston, Md., of the wonderful but rather foolhardy feat of Mr. H. K. Recher in riding up and down the roof of a new church building. The angle of the roof inclines to 45 degrees, and the distance covered was 120 feet. Those who saw him do it were breathless with amazement at Mr. Recher's coolness and success.

NEARLY a half-thousand people witnessed the reproduction of the Englewood Cycling Club's (of Chicago) minstrel show at Bloomington, Illinois. The party stayed over Sunday to enjoy a little riding. The entertainment was well given, being frequently encored.

THE annual race meeting of the Columbia Cycle Club of Washington, D. C., will be held on the Benning track May 30th.

A NUMBER of the members of the Long Island (N. Y.) Wheelmen will tour to Hagerstown to attend the July meet there. By the way, all are glad to notice this club discourages formal Sunday club runs.

WE are glad to notice that the Baltimore *Herald* has facts at its fingers' end which disprove the report which appeared in a Boston daily that Massachusetts would not be represented at the Hagerstown meet. Lots of New Englanders will be present and a glorious time they will have, too.

FIFTY Chicago wheelmen took dinner at Pullman last Sunday. Nineteen Lincoln's, sixteen Columbia wheelmen, eight Douglas, and the rest scattered. Over ninety per cent. of the riders rode the "good old ordinary."

THE Union Bicycle Park, situated on the Bristol Turnpike, half way between Bristol, Pa., and Schencks Station, is now open. The annual subscription is $1.00, entitling subscribers to the use of the track and grounds, which are now ready.

THE Auburn Bicycle Club, of Auburn, R. I., was recently organized with much rejoicing, cheering and whistle blowing.

THE Wheelmen's Racing League of the Metropolitan District has not yet decided on the course they will use. It will be either the Milburn-Irvington course or the Larchmont.

THE Columbia Wheelmen of Chicago will occupy the club house formerly occupied by the Æolus Cycling Club. Refitting is going on rapidly, and the house will present an entirely different appearance shortly.

MRS. C. W. DALSEN, Capt. of the Fairmount Ladies' Club, of Philadelphia, offers a prize to her club members for the best mileage during 1891.

THE Inter-club Road Racing Association for Boston and vicinity is practically an assured thing.

THE Atlanta City (N. J.) Wheelmen will hold a race meeting May 30. Entries close May 23 with I. Bacharach, 929 Atlantic Avenue, Atlantic City, N. J.

THE Yonkers (N.Y.) Bicycle Club will hold its annual club road race May 15. The event will be for ordinaries.

REPAIRERS are wanted in Chicago. Several of the large firms are rushed to death with repair jobs, and men cannot be found.

ANOTHER European party will leave these shores June 27. Mr. Henry L. Coar of Springfield has the party in charge.

MR. GEORGE CURTIS, of the Bretz & Curtis Manufacturing Co. of Philadelphia, sailed for England on Wednesday.

THE one mile, ordinary, State Championship and the half mile, safety, State Championship, will be run at the Columbia Cycle Club's tournament July 4, Charter Oak Park, Hartford, Conn.

Do not be mistaken and suppose that nothing can be successfully advertised in this paper but cycles, etc. We have testimonials to disabuse your mind of any such ideas; a trial will convince you to the contrary.

CHIEF Consul Mott, of Maryland, spent Sunday and Monday of this week in Philadelphia. He came over to attend the Century banquet, and was accompanied by Mrs. Mott.

TWELVE of the Farragut Cycling Club of Chicago, all on safeties, rode to Sunnyside last Sunday to dinner.

S. H. CRAWFORD, the one-time racing pride of the Pennsylvania Bicycle Club, is doing considerable riding this season, and is apparently in better form than ever.

F. HOWARD TUTTLE of Chicago has entered the employ of the Humber Importing Co.

THE Mount Vernon Wheelmen of Philadelphia have received their charter from the courts, and are now a regularly incorporated club.

A BOXING and athletic entertainment was given by the Oak Park Cycling Club of Chicago last Saturday evening. Music and supper followed. One hundred were present.

THIS is for YOU. Have you any article of merit to sell that men use? Try the BICYCLING WORLD, and you will always use it; 20,000 young men with a dollar to spend for a good article will read your ad. each week.

THE South End Wheelmen of Philadelphia are arranging for a race meet on June 27th, which will be run on the new Brotherhood track at Broad and Dauphin streets.

THE East Orange (N.J.) Cyclers were represented by half a dozen of their number in Philadelphia last week having ridden over on Saturday.

L. A. W. AND A. A. U. ALLIANCE.

NEW YORK, April 15th, 1891.

Mr. Jas. R. Dunn, President L. A. W., No. 40 Wall street, City.

My dear Mr. Dunn: One week ago to-day I tendered you an apology for the delay which had occurred in sending out the Articles of Alliance for ratification by the A. A. U.—a delay due, as I explained, largely to the unfortunate illness of Mr. Mathewson of our Committee—by whose request I took steps to facilitate the taking of the mail vote. I now beg to advise you, unofficially, of the fact that the Articles of Alliance have been ratified by the A. A. U. in a manner fully complying with the provisions of our Constitution; and I will be glad to know whether you are ready to join in promulgating the same.

When the formal documents reach you, you will find that the Resolutions (which I prepared and sent to Mr. I. B. Potter, and which he subsequently transmitted to the members of your Executive Committee, at the time I first took a hand in this matter, about a month ago) have been formally adopted by the A. A. U. These resolutions not only ratify the Articles of Alliance, but also contain a formal endorsement of the L. A. W. and its objects by the A. A. U. I trust, however, that your body will suggest specific means whereby ours may more effectively further the objects of yours, especially in the important matter of highway improvements in the furtherance of which I certainly think your body should have the hearty support not only of the A. A. U. and its clubs, but also of every public spirited citizen.

I beg to congratulate you that means have finally been found to ally our two great organizations, without the sacrifice in the slightest degree of the dignity or individuality of either; and that, as I have always thought it should be, the agreement reached formally recognizes the jurisdiction of your organization over that beautiful and healthful athletic exercise whose present high standing is due solely to the earnest and well-directed efforts of the L. A. W.

That the effect of this Alliance will be to raise the standard of amateur sports and to increase the general interest of our people therein, I do not doubt. With high regard I am

Very truly yours,
(Signed) A. G. MILLS.

April 18th, 1891.

Mr. A. G. Mills, New York.

Dear Sir: I am much gratified by the intelligence that the A. A. U. has formally ratified the Articles of Alliance (as recently amended at the joint conference), as stated in your valued favor of the 15th inst. As soon as your body is prepared to formally consumate the agreement by such instruments as are necessary in the premises, I shall be glad to act in conjunction with its authorized representatives in formulating, ratifying, signing and promulgating the proposed agreement.

I heartily concur in your views as to the result of the adoption of these Articles of Alliance, and beg to assure you that while the L. A. W. is and always has been strenuous in maintaining its jurisdiction over the sport of cycling, neither arrogance of power nor acknowledged strength of possession has moved it to assume any attitude other than that of considerate and friendly respect for the rights of individuals and associations whose interests are coexistent under its present administration.

If cycling and kindred sports be in any measure elevated, if pure amateurism be brought nearer as a possibility, if generous co-operation and mutual benefit accrue to these two great athletic powers, by reason of this Alliance, we may well feel satisfied with the result of the arduous and painstaking labors of our respective Committees.

At this point let me express my sincere appreciation of the endorsement of the great work of Highway Reform undertaken by the L. A. W. which is set forth in the resolutions adopted by the A. A. U. to which you refer.

The co-operation and assistance of the members of the A. A. U. in this grand movement will undoubted reflect honor upon themselves and will always elicit our cordial recognition. With great respect I remain,

Truly yours,
(Signed) JAMES R. DUNN.

Whereas: The following Resolution has been adopted by a joint committee of the League of American Wheelmen,

Resolved: "That the Articles of Alliance as amended be adopted as a whole, and that the Chairman and Secretary of the Special Committee be instructed to prepare and sign such papers as are necessary in the case. Unanimously adopted." And

Whereas: The following Resolutions have been adopted by the Amateur Athletic Union:

Resolved: "That the proposed Articles of Alliance between the L. A. W. and this Union accompanying these Resolutions be, and the same are hereby, adopted and ratified, and the President and Secretary are hereby instructed to forthwith execute the same in behalf of this Union."

Resolved: "That this Union hereby signifies its high regard for and its cordial sympathy with the objects of the League of American Wheelmen, and pledges to that body the hearty support and assistance of this Union in furtherance of its road improvement and other projects of public interest.

These Articles of Alliance between the Amateur Athletic Union of the United States, and the League of American Wheelmen,

Witness:

1. All cycling events in the championship or other meetings of the A. A. U., or of its associations or clubs, shall be given under the rules of the L. A. W.

2. Every cyclist shall be subject to test as to his amateur standing exclusively by the provisions of the Constitution of the L. A. W., defining an amateur.

3. Charges against any cyclist shall be tried by the L. A. W., except that a cyclist a member of an A. A. U. club shall be tried by a committee of three, one of whom shall be named by the A. A. U., one by the L. A. W., and the third member by the two so chosen, provided the accused shall, within twenty days after the receipt of a copy of such charges, submit to the Racing Board proof of his A. A. U. membership, and claim trial by such committee.

4. The League of American Wheelmen shall annually, or at such time and for such periods as it may deem advisable, appoint a delegate who shall act with and constitute one of the Board of Governors of the A. A. U., and shall have a vote upon all questions coming before said Board, and a right to sit upon committees and take part in all the actions thereof as fully as members of said Board elected from the several associations of the A. A. U., and to the same extent and in like manner as the delegates from the North American Turnerbund.

5. These Articles of Alliance shall be terminable by either party upon thirty days' written notice to the other. In case of disagreement between the L. A. W. and the A. A. U. upon any point covered by these Articles, the same shall be submitted to the Board of Governors of the A. A. U., including the members of the Board appointed by the L. A. W., Turnerbund, and any other association in alliance with the A. A. U. and having a delegate upon the said Board.

In witness whereof the Amateur Athletic Union by its President and Secretary thereto duly authorized, and the League of American Wheelmen by the Chairman and Secretary of its Joint Committee thereunto duly authorized, have duly executed these Articles.

(Signed.) HARRY MCMILLAN,
President Amateur Athletic Union.
(Signed.) JAMES E. SULLIVAN,
Secretary Amateur Athletic Union of United States.
New York, May 4, 1891.

(Signed.) JAMES R. DUNN,
Chairman Joint Committee and President L. A. W.
(Signed.) G. CARLETON BROWN,
Secretary Joint Committee L. A. W.
New York, May 5, 1891.

A PLEASANT AFFAIR.

A FEW friends of Mr. Edward C. Hodges tendered him a complimentary dinner at the Victoria, Boston, on Saturday evening last. The occasion was in anticipation of Mr. Hodges' approaching nuptuals May 12th. The gathering was confined to old riders of the Boston Bicycle Club of which Mr. Hodges has been President for many years. Among those present were several founders of the club in 1878, and nearly all at the board could look back to a decade of active wheeling. It was an informal and jolly coterie of old friends. The speeches were full of heartfelt expressions of good will and wishes for future happiness of both Mr. Hodges and his bride that is to be. Among those at the board were Frank W. Weston, Arthur L. Woodman, J. S. Dean, W. G. Kendall, S. N. Turner, W. H. Edwards, Paul Butler, Willis Farrington, Edward F. Lowey, W. E. Hodgkins and W. B. Everett.

AN UNJUST LAW PROPOSED IN THE ILLINOIS LEGISLATURE.

A BILL has been presented to the Illinois Legislature by Mr. White of Stark County, which proposes that cyclists on the highways shall stop, dismount, and stand by their cycles whenever they meet any person or persons going in the opposite direction with horses or other animals, and said dismount must be made at least one hundred yards from said approaching horse or animal. In case of violation of the proposed law and accident arising therefrom, a fine of from $10 to $50, to be imposed, and the cyclist to be liable for damages. Failure to pay fine and damages, the cyclist to be incarcerated in the county jail until such fine and damages are paid.

The Capital City Cycling Club of Springfield, Ill., have met and passed resolutions protesting against the passage of the bill. They call attention to the fact that the propssed law is unconstitutional, and that the Supreme Court of Illinois has adjudged the bicycle as a vehicle or carriage. The Capital Cycle Club have petitioned the representatives from their district (the 39th) to oppose the bill. Copies of the resolutions have been sent to Representatives and Senators, and every effort will be made to defeat the bill.

THE MISSOURI DIVISION MEET.

THE committee for working up the meet have all been appointed, and are busily engaged in their respective duties. A large entertainment fund has been subscribed, and will be used solely in the purpose for which it was raised. The programme will be issued June 1st, and mailed to members at an early date. Two day's racing, comprising 16 events, with valuable prizes, have been arranged for. A hill climbing contest where speed will be thrown out and energy and endurance substituted is one of the special features, while runs, athletic entertainments, photos, parade, smoker, banquet, and a grand lantern parade constitute the remainder of the programme. Several parties are organizing through the State for the purpose of touring to the meet. Already inquiries have been received from racing men in Kansas, Nebraska, Iowa and Colorado, regarding races, prizes, etc., and large delegations from Kansas are expected to attend. Carthage is one of the most delightful resorts in the West, and a better location for holding such a meeting could not be found anywhere. Arrange your affairs so as to be at Carthage on the 3d and 4th of July, or you will miss the grandest meet the Missouri Division has ever held. Come and bring your friends. "LINNEUS."

"PAPA, HIS RAMBLER, AN' ME."

EIGHTH ANNUAL MEET OF THE IOWA DIVISION AT NEWTON.

THE local club is progressing finely with its arrangement for the annual State meet June 16, 17, 1891. Good weather and Newton's reputation for hospitality should make it the largest and most enthusiastic meet ever held in the Iowa Division.

They open the first day with business meeting at 9 A.M. Officers will be elected for the ensuing year, and all business transacted in connection with the Division. Badges will be distributed, visiting wheelman assigned their quarters, etc.

(Special attention given to L. A. W. members).

Racing to begin at 2 P.M. There will be twelve events the first day. In the evening there will be a banquet given by the "Newton Cycle Club."

Second day grand street parade and photographed. Afternoon, racing and distribution of prizes, of which they have a fine list. In the evening a Wheelman's hop in League uniform.

With Iowa's level roads and fine climate it should rank first in cycling States. And we think the coming meet will give it a boom that will place her in the front if not the lead in the West. The people of our State have just begun to appreciate the bicycle as a practical road vehicle. And by another year (or two, at least,) we hope to be able to hang out a programme that will draw the "cracks" from as far east as "Boston town" and Jersey's shores."

Newton is a thriving city, thirty miles east of Des Moines, on the C. R. I. and P. R. R., also Iowa Central and N. and M., making it easy of access. We extend a cordial invitation to all wheelmen to come and help us make our meet a success. Fraternally yours, FRED H. GIFFORD, L. C.,
Newton Bicycle Club.

THE ILLINOIS DIVISION MEET.

OFFICIAL notice has been given Rockford of its selection as the place for the annual meet of the Illinois Division. Committees have been appointed, and work is going on rapidly. A valuable prize list has already been obtained. The track is of clay and so hard that horsemen object to it. Chicago wheelmen will be present in Rockford in large numbers. A fair canvass would show over two-thirds expecting to go.

THE HARVARD UNIVERSITY CYCLING ASSOCIATION.

THE prospects for an unusually good meeting of the Harvard University Cycling Association are numerous. The time of 5.46 1-5 for two miles, made by a freshman who has never raced before this spring, and the fact that the four starters, none of whom have ever done very fast riding, came in within a second of the leader, show what the Holmes Field track is worth when it is in good condition, as it was Saturday, and as it will be on the twenty-third.

The New York Athletic Club will send on a team consisting of manager A. B. Rich, W. F. Murphy, A. A. Zimmerman, Hoyland Smith, and H. G. Cornell. This is official from Rich, and corrects the make-up of the N. Y. A. C. team given in the *Herald* a week ago.

RACING AT WILMINGTON, DEL.

ON May 2 a road race of 5 3-4 miles was run at Wilmington, Del., between four members of the Wilmington Wheel Club, W. C. Seeds, William Sheward, Robert McCardle and Lee Hanley. Sheward rode a pneumatic tire machine and the others ordinaries.

Hanley started at 4.30, McCardle 4.31, and Seeds and Sheward at 4.33 P. M. Sheward finished first, actual time 21.19; Seeds second, in 21.38; McCardle third, 24.10, and Hanley last in 25.13.

The best previous record on a solid tire was 25 minutes, held by Seeds.

THE WAIONTHA FIFTY-MILE HANDICAP ROAD RACE.

THE coming road race at Richfield Springs, N. Y., August 4th, 1891, promises to be an important event in this season's sport. The race will be held on the twelve and one-quarter mile Canadarago Lake course, which is one of the finest in the State. About fifteen fine prizes will be offered as well as specials for records, etc. The race will be handicapped by F. P. Prial. Programmes are being issued and can be had of August Kinne, Chairman of the committee. The race is to be run rain or shine.

RACING AT ROME, N. Y.

THE Rome, N. Y., cyclers had their annual handicap road race last Friday afternoon at about four o'clock. The start was made at the corner of Court and Madison streets. Distance of 8 3-8 miles. The time taken was as follows, the men coming in in the order named: Carl G. Miller (5.30) 34.47; W. McGinnis (7.00), 37.25; W. Onley (2.00), 34.15; Robert Van Dyke (7.00), 38.27. In the evening the cyclers enjoyed a banquet at Abner S. Whites's hotel.

GOOD TIME AT HARVARD.

AT the 'Varsity games on Saturday last, F. S. Pratt rode 2 miles in 5.46 1-5 in the 2-mile bicycle race. The best previous for Harvard was 5.50 1-4 made by W. B. Greenleaf in 1889.

(SEE SUPPLEMENT.)

HARVARD UNIVERSITY
Cycling Association.

SECOND ANNUAL SPRING MEETING

ON HOLMES FIELD,

CAMBRIDGE, MASS., SATURDAY, MAY 23d, 1891.

EVENTS:

1. **ONE MILE ORDINARY,** Scratch—Open.
2. **ONE MILE SAFETY,** Handicap—Open. Pneumatic and Solid Tyres.
3. **ONE MILE SAFETY,** Scratch—Open. Solid.
4. **HALF MILE ORDINARY**—Handicap—Open.
5. **ONE MILE TANDEM SAFETY,** Handicap—Open.
6. **ONE MILE ORDINARY,** Interscholastic Scratch—Open to all Preparatory Schools in New England.
7. **TWO MILE ORDINARY,** Intercollegiate Handicap—Open to I. C. A. A. A. A., N. E. I. C. A. A. and M. I. T.
8. **ONE MILE SAFETY,** Scratch—Open. Pneumatic.

Three very valuable medals (gold, silver, and bronze), struck from special dies owned by the association, will be given as first, second and third prizes in the two-mile Intercollegiate and in all open events, with the exception of the Tandem Handicap, in which there will be no third prizes, and silver cups will be substituted for gold medals.

A solid Silver Cup will be given to the Club scoring the most points in the open events, to be counted as follows: First place, five; second, three; third, one.

Entries close Saturday, May 16, at 12 P. M. Address, F. L Olmsted, Jr., 13 Wadsworth House, Cambridge, Mass.

Reception—C. H. Smith, 211 Putnam avenue;
B. J. Holcombe, 222 Woodward ave
Races and Transportation—
Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

The Renewal Season.

The renewal season is now open, and we are ready to receive the annual dues of members.

We have opened the books for 1891-2, and applicants for membership may now send $2 and they will be put upon the roll for the year ending April 30, 1892.

All memberships expire April 30, and must be renewed before July 1st.

We publish a renewal blank which we hope will be universally used. A blank of this kind is more satisfactory for filing than a notice of renewal written in letter form. If a member has no blank and does not care to mutilate his paper, he will oblige us by sending renewal on paper the size of the blank and made out after the same form. The same applies when two or more names are sent.

Every League club has been supplied with sheets to send renewals on, and also a renewal of the club. Since many non-League clubs send in lists of names, a list of names is no indication that a League club renews its membership, and we must have the regular certificate of renewal as per blank furnished every club before we can issue our certificate of membership.

Club Secretaries will be supplied with renewal sheets for club lists on application.

Consuls, Agents, Club Officers, etc., who desire renewal or application blanks should procure them of the Secretary-Treasurers of their respective Divisions. See addresses in BULLETIN.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Racing Board.

Members of the Racing Board have had assigned them the following territory:

Mr. Miller in charge of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York and New Jersey.

Mr. Atwater in charge of Pennsylvania, Maryland, Delaware, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama and Mississippi.

Mr. Collister in charge of Michigan, Ohio, Indiana, Kentucky, Tennessee, Arkansas, Louisiana, Texas, Indian Territory, Missouri, Kansas, Illinois and Wisconsin.

Mr. Bassett in charge of Iowa, Minnesota, North Dakota, South Dakota, Nebraska, Wyoming, Montana, Idaho, Washington, Oregon, California, Nevada and Utah, Colorada, New Mexico, and Arizona.

CHAS. E. RANDALL,
Chairman Racing Board.

Chicago, April 25, 1891.

Connecticut Division Racing Board.

At a meeting held in Hartford April 27th the following State Championships were established: Quarter, half and one-mile ordinary; quarter, half and one-mile safety; and one-mile tandem safety. The half-mile ordinary and one-mile safety championships were awarded to the New Haven Bicycle Club, to be contested at New Haven June 8, 1891.

The Columbia Cycle Club were awarded the half-mile safety and one-mile ordinary championships, to be run at Hartford, July 4, 1891.

Yours sincerely, HENRY GOODMAN,
Chairman.

Connecticut Local Consuls.

I have a list of twenty-one Division members to be appointed Local Consuls. All but three of them were the only League members in their respective places when I secured their consent to serve the Division as Local Consuls. Eighteen of these Consuls have, in two weeks, secured 22 new L. A. W. members.

There are now at large, in the possession of 25 Division members, 25 letters from the Chief Consul, requesting in behalf of the Connecticut Division and the L. A. W. the service of 25 members as Local Consuls. All these 25 are solitary members in small places, but we want them as Local Consuls just the same.

In a short time I shall make official appointment of Local Consuls and the 21 now on file should be increased to 46. Will you do your part?

ARTHUR ALLEN DEAN,
April 29, '91. Chief Consul.

For Connecticut Only.

Now is the time for Connecticut members to be on the alert both for new members and for renewals.

On old and new lists we now lead. Illinois Division 20 members.

You have put in 141 members in four weeks.

On the first of July, if you renew as is possible, and as I believe you will, we may confidently expect to lead Illinois in fine style.

ARTHUR ALLEN DEAN,
Danielsonville, April 29, 1891. Chief Consul.

Connecticut Division Tailor.

I have closed a contract with th Plymouth Rock Pants Co. of Boston, Mass., and have appointed the aforesaid Plymouth Rock Pants Co. Division Tailor for the Connecticut Division.

The agreement to this end effected is the form recommended by the Uniform Committee of the National Organization in these columns, issue of April 17th, page No. 681, with following changes and additions:—

Article III. After words "contract price," for, "at his expense" substitute "at the member's expense. Also in same article, after word "express" add, except in such cases as are hereinafter provided for concerning delivery of uniforms.

Article IX. After words "state of," add "Connecticut, namely: Hartford, New Haven, and Waterbury." Also:

"And it is further agreed that the party of the second part shall deliver the Uniform or any part of the Uniform of the League of American Wheelmen, to any member of the Connecticut Division, at the contract price, without additional charge whatever at the above named offices, branches, or stores, in all cases in which the orders and measurements for the Uniforms or parts thereof are taken at the above named offices, branches, or stores."

"Orders sent in from agents will be shipped C. O. D. for balance due; express charges to be paid by customer."

This agreement terminates on the first day of December, 1891.

The contract prices are as follows:
For the coat, $7.50.
For the breeches, $4.75.
For the cap, $1.25.
For the stockings, $1.00.
For the vest, $3 00.

The Plymouth Rock Pants Co. have agents who will take measurements and send in orders, as follows:

Meriden—T. F. Burke, 705 Broad Street.
Norwich—P. H. McLaughlin, 108 Boswell Avenue.
Middletown—J. W. Burke, 122 Main Street.

Blanks for self measurement will be furnished to all who apply, by the Plymouth Rock Pants Co. of Boston, but it is recommended that so far as may be practicable, members leave their orders at the Hartford, New Haven or Waterbury stores of the Plymouth Rock Pants Co.

Hartford, Exchange Street, cor. entrance, No. 2 State Street.
New Haven, 796 Chapel Street.
Waterbury, 68 South Main Street.

The Chief Consul desires to be promptly notified of any violation of the Uniform Contract.

ARTHUR ALLEN DEAN,
Danielsonville, April 29, '91.

Local Consuls Wanted.

Consuls are wanted for the following places, and local wheelmen are requested to forward nominations at once, and by so doing greatly assist in the work of this Division:

Acushnet, Andover, Arlington, Ashfield, Ashland, Attleboro Falls, Belchertown, Bedford, Beverly, Bourndale, Bradford, Bridgewater, Brookline, Bryantville, Campello, Canton, Chicopee, Chicopee Falls, Dover, Douglass, East Douglass, Easthampton, East Peppercll, Ellis, Essex, Fairhaven, Foxboro, Greendale, Haydenville, Hingham, Mansfield, Maplewood, Milford, Milton, Mittineague, Newton Lower Falls, Northampton, Northboro, Norwood, Oxford, Plainville, Rutland, Somerville, South Boston, South Hadley Falls, South Groveland, South Lancaster, South Weymouth, Townsend, Uxbridge, Waban, Watertown, Wellington, Wellfleet, Weymouth, Winchester, Wyoming, Leominster, Merrimac, Montague. Fraternally, ARTHUR W. ROBINSON,
21 Milk street. C. C.

Massachusetts Division Spring Meet.

SATURDAY, MAY 30, 1891.

For particulars see BICYCLING WORLD of May 1.

Special attraction—Prof. Carl Meyers, with his Sky Bicycle or Flying Machine will give an exhibition at the close of the races.

Wheelmen should notify the Chairman of Committee as soon as possible if they propose to attend the meet. Captains of clubs will please notify for club members.

Wheelmen from Boston and vicinity who intend going on the 8.30 train must so notify the Chairman on or before May 28, in order that the proper arrangements may be made.

There will be a meeting of Local Consuls at Continental Hall immediately after the parade, and it is hoped that every Consul in the State will be present. Fraternally,

ARTHUR W. ROBINSON,
21 Milk street. C. C.

Massachusetts Division L. A. W.

The following Local Consuls are hereby appointed, for districts designated:
West Roxbury—Edw. C. Wade, Centre street.
Fall River—Willis H. Brow, 65 No. Main street.
Allston—Frank S. Wilson.
Newtonville—W. W. Phipps.
Fraternally, [ARTHUR W. ROBINSON, C. C.

California.

There will be a meeting of the Board of Officers California Division L. A. W. at the office of Dr. Thos. L. Hill, room 8, I. O. O. F. Building, San Francisco. The meeting to be called for Saturday May 9th at 8 o'clock sharp. It is earnestly hoped that all will attend, as business of importance will be transacted. The votes for the adoption of the Constitution, to be canvassed and By-laws formulated. Yours fraternally,
O. GRANICHER, Sec.-Treas.
April 28.

Maine Division—Spring Meet May 30.

The spring meet of the Maine Division will be held at Belfast, May 30. By a proper rotation of events it is eminently fitting that the East should be selected for this meet, for although most of the members of the Division are located in Cumberland and York Counties, still this is not a subject for majority rule, but for action conducive to the good of the Division at large, and for the encouragement of wheeling throughout the State. Bicycling interests need no particular fostering in the counties mentioned, but eastern Maine because of its good roads promises well for the future, and one or two events of this sort will give the right impulse.
The new road book will be distributed at the spring meet. Each member is entitled to one copy for half price, and it will facilitate matters if each is on hand to sign for his book.
BATES TORREY, Sec.-Treas.

Rhode Island Division.

At a special meeting of the Board of Officers held Monday evening, April 20, 1891, the following amendments were made to the By-Laws:—
Article II. section 2,was amended to read: Each League Club shall annually, between October 15 and November 15, elect from its Active membership one Division Representative for the first twenty League members, and an additional Representative for each fifty additional League members in its roll October 1st.
Art. X. was amended by inserting "one or more Consuls" after appoint.
Art. XV. was adopted as follows: If a Division Representative elected by a League Club shall cease to be an Active member of such club, he shall be deemed to have resigned as such Representative.
A League Club shall have the right to nominate for a vacancy in its Club Representation some Active member of the Club, and the Chief Consul shall appoint such member to fill the vacancy; but if such Club shall neglect to make such nomination within thirty days from the time such vacancy occurs, the Chief Consul shall fill the vacancy in manner as provided for vacancies in other offices, from the Active membership of such Club.
NELSON H. GIBBS.
May 4, 1891. Sec'y-Treasurer.

Minnesota Consul and Hotel.

Mr. W. C. Montgomery having resigned the position of Local Consul at St. Cloud, I have appointed as his successor Mr. C. B. Adley.
The Bolton House is hereby appointed League Hotel at Verndale. Regular rates $2.00; L. A. W. rates, $1.50; single meals or lodging, 40 cents.
T. M. SLOSSON, Chief Consul.
Minneapolis, April 30, 1891.

Disqualified.

C. G. Kilpatrick, formerly of Danville, Ill., now of Milwaukee, Wis., has been suspended from the L. A.W., pending investigation of charges against him for violation of the amateur rule, clause a.
CHARLES E. RANDALL,
April 27, 1891. Chairman.

New League Clubs

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:
321—Cranford Cycling Club, Cranford, N. J.; Geo. G. Teller, President.
322—Ashland Cycling Club, Chicago, Ill. H. C. Ambler, Secretary.
323—Adrian Wheel Club, Adrian, Mich. Erle B. Allan, Secretary.
324—Wooster Bicycle Club, Wooster, Ohio. C. E. Ohliger, Secretary.
325—Dayton Ramblers, Dayton, Ohio. C. O. Tower, Secretary.
326—Ashland Bicycle Club, Ashland, Ken. W. S. Boggers, Secretary.

League Club Renewals.

The following clubs have renewed membership in the League for 1891-2 by filing renewal certificate with the Secretary:
1—New York Bi. Club.
10—Yonkers Bi. Club, New York.
11—Rockingham Bi. Club, New Hampshire.
20—Peoria Bi. Club, Illinois.
24—Detroit Wheelmen, Michigan.

41—Holyoke Bi. Club, Massachusetts.
54—Portland Wheel Club, Maine.
95—Westfield Wheelmen, New Jersey.
100—Bay City Wheelmen, California.
117—Columbia Bi. Club, Massachusetts.
124—Rovers Cycle Club, Massachusetts.
126—Lockport Wheelmen, New York.
137—Roxbury Bi. Club, Massachusetts.
166—Exeter Bi. Club, New Hampshire.
168—York County Wheelmen, Maine.
185—Ottawa Cycling Club, Illinois.
179—Capital City Cycling Club, Illinois.
201—Port Huron Wheelmen, Michigan.
213—Blennerhassett Wheelmen, West Virginia.
219—Trenton Wheelmen, New Jersey.
221—Athletic Cycle Club, Ohio.
223—Flint Wheelmen's Club, Michigan.
226—Fostoria Bi. Club, Ohio.
239—Westchester County Wheelmen, New York.
244—Juniata Wheelmen, Pennsylvania.
247—Rome Cyclers, New York.
248—Mount Vernon Cycling Club, Ohio.
250—Benton Harbor Wheelmen, Michigan.
251—Providence Ladies Cycling, Rhode Island.
252—Porkopolis Wheelmen, Ohio.
254—West Jersey Cyclers, New Jersey.
256—Dayton Bicycle, Ohio.
258—Bay State Bi. Club, Massachusetts.
259—Colt Bi. Club, Connecticut.
264—Belmont Club Wheelmen, Massachusetts.
275—Mishawaka Cycling Club, Indiana.
281—Houston Bi. Club, Texas.
297—Sharon Cycle Club, Connecticut.
308—Cortland Wheel Club, New York.
309—Norwich Wheel Club, Connecticut.
311—University of Illinois Cycle Club, Illinois.
314—Frederick Bicycle Club, Maryland.
315—Oak Leaf Wheelmen, California.
Clubs numbered above 315 are entered on the 91-2 list, and do not need to renew.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:
"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an intiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."
Tickets will be issued fourteen days after the publication of names.
Candidates will please notice if their names and addresses are correct.
Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.
The application list is closed at 10 A. M. on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

RICH & SAGER, 210 West Main Street, Rochester, N. Y.

IMITATION or FLATTERY, WHICH?

We cannot refrain from expressing our satisfaction that the reform we started, two years since, to inaugurate, by building bicycles of honest material and drop forgings, instead of iron castings, has proved a success, and all American builders are now following our example.

PNEUMATICS.

Delivery same day as order.

We have ready for instant delivery, in lots of one to one hundred, the celebrated

"Irwell Pneumatic Safety,"

PRICE, $150.

We shall not import any more owing to our arrangements with Mr. Featherstone. If you want any of these SPEAK QUICK.

By-the-way, did you know that away up in the northwest part of Illinois, in a city most favorably located for manufacturing, called Freeport, an enterprising firm has located there, The Stover Bicycle Mfg. Co., and they are building a bicycle that we are proud to represent. They call their wheel

"THE PARAGON,"

And it is rightly named. We visited the factory before we decided to represent the wheel, and we found that from first to last the PARAGON is an honest wheel.

In Material.
In Workmanship,
In Excellence of Design,
In Originality,
In Ease of Running

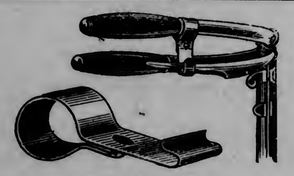
We believe that

"THE PARAGON"

Represents more true American manhood than any wheel yet put on the market. An essential point to be remembered is

"We Guarantee Every One."

The Trade in our section of the country is requested to write for Agencies.



The balance of our line includes many desirable wheels, in fact it is admittedly the most complete line in the United States. Please note,

Price $25 to $300.

QUALITY, Highest Grade in Each Class.
QUANTITY, Almost Unlimited.
DELIVERY, Immediate.
TERRITORY, Guaranteed.
AGENTS, Fully Protected.

Bicycles and Sundries.

CYCLING FOR Health and Pleasure.

CHAPTERS VII and VIII.

High gearing is a *fad* just at present (for reasons which it would require considerable space to trace), in spite of the common sense of many old riders. Chapter *VII* explains the *nature* and *effect* of gearing, so that any one who reads it can understand for himself the relative value of different gears, and form an intelligent opinion.

Chapter VIII. treats of the distinctive features of the principal types of machines; illustrates them; and discusses their merits.

230 Pages, Illustrated.

"PERFECT" POCKET OILER.

One-half size.

[For Bicycles, Guns, etc. No Leakage. Throws only small quantity of oil at a stroke. Handsomely nickel plated. For sale everywhere, or sent by mail on receipt of price, 50c. each. CUSHMAN & DENISON, 177 Ninth Ave., N. Y.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.
Made in sizes suited to different machines.
Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.
In ordering state make of wheel and give diameter of seat rod or handle bar shaft.
Price mailed, 50c.
With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c
Agents wanted everywhere.

ST. LOUIS WHEEL COMPANY,
311 N. 14th St., St. Louis, Mo.

To Athletes, Cyclists, Baseball & Footballists, Horse-back Riders, Boxers and Oarsmen when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.
Has a large and increasing sale throughout Great Britain

COLUMBIAS.

Columbia Light Roadster.

SEVENTH YEAR.

This is a famous wheel, and ranks first among all machines of its class in the world.

PRICE, $125.00.

Expert Columbia.

TENTH YEAR.

Without a doubt the most widely known wheel ever made. It is a regular roadster of the finest construction.

PRICE, $110.00.

Volunteer Columbia.

FOURTH YEAR.

A high-grade wheel of best materials, but with a slight economy in construction. Sold at a low figure.

PRICE, $90.00.

In all above machines STEEL Forgings only are used. There are no castings.

Columbia Semi-Roadster.

SIXTH YEAR.

A high-grade, moderate-priced boy's wheel.

PRICE, $55.00.

The regular bicycle has not yet gone out of use. A good many riders still prefer it to the Safety. They consider it more speedy, more exhilarating, and more delightful in every way. Perhaps you are one of this number. If so, we advise you to ride an Ordinary and ride a good one. And where can you find better than COLUMBIAS? They are the original American wheels, and have won for themselves an unequalled reputation on race track and on roads, across prairies, over mountains, around the world.

Grand Rapids, Mich., March 24, 1891.

Gentlemen—I have ridden my Columbia Expert since May, 1885, with a mileage of nearly 13,000 miles. * * * With new take up sleeves put in the little wheel, and a new tire on the little wheel, it would be fit to start on a tour across the continent or around the world. It is a great satisfaction on a hard tour to ride a wheel that I know won't break down, and that I have so thoroughly proved CAN'T break down.

Yours respectfully,
L. J. BATES,
("President Bates.")

THE BICYCLING WORLD & L. A. W. BULLETIN.

DEVOTED TO THE INTERESTS OF CYCLING.

Volume XXIII. Number 3. BOSTON, 15 MAY, 1891 $1.00 a Year. 5 cents a copy.

"You'll find it in all the Professions,
In pulpit, in court and in shop,
As well as in strawberry boxes;
The best ALWAYS get to the top."

As you ascend the scale of excellence, you'll find that the farther up you go the less company you'll have.

THE First of the above sage observations . . . .

OVERMAN WHEEL COMPANY

- - - MAKERS OF - - -

Victor Bicycles.

BOSTON. WASHINGTON.
DENVER. SAN FRANCISCO.

We clipped from a newspaper, the other we built specially for the occasion. As for the application—well, now do you think we would dwell on such things, as the best getting to the top, and how lonely it is up there, and all that, if we didn't believe we had put Victor Bicycles just there, at the top? No.

Look the matter up carefully and you'll agree with us.

Catalogue will assist you in your researches. Costs you nothing.

Office and Factory: - CHICOPEE FALLS, MASS.

HICKORY HALL.

Last spring we held a reception in hickory hall (possibly you were there); the occasion was so pleasant that we had intended to make it an annual affair, and about this time expected to be issuing invitations to our friends, asking them to again join us in an entertainment, consisting principally of "wind and water."

But it was not to be, and for reasons to be hereinafter specified.

When we first began the making of Hickory Wheels of course it was an "infant industry." But it didn't need any protection, it just needed an excuse for living, and this it had, in the fact that few cared whether it lived or not.

It got through its first summer with some difficulty, and soon began to attract attention. At first people came to see it, just as they go to see a three-legged chicken or a two-headed girl. Finally they came to look upon it more, as they look at a one-headed girl, (because it was real nice and they liked it.) The original factory was built twice as large as was thought necessary, then it was doubled, and later the whole thing was doubled again. Now the work has filled every part to overflowing, and it runs over into Hickory Hall.

Thus do the encroachments of business tread on the heels of sociability. Where once was heard the rhythmic "plunk" of the guitar, we now hear the prosaic "thud" of the workman's hammer. Instead of the violin solo, we have hickory piled so high that the voice of the elocutionist cannot get over it.

Gone is the piano, and in its stead the wheelwright files his saw and sighs for more hickory (which is on the way.)

We are much disappointed at being obliged to waive the "birth day party," but we can't help it.

It may not be generally known that we have a Stall in the Boston Market; it is located at 509 Tremont Street. All New England orders and enquiries should be sent there. Mr. Stall also has for sale other makes of machines, but you needn't mind that, we can't expect a man to reform all at once.

Elliott Hickory Cycle Co.,

Newton, Mass.

P. S.- Our '91 catalogue is now being mailed. It isn't a work of art. It has no scenery. It isn't handsome. It isn't embossed. It is just a plain, little, every day, ordinary catalogue, which deals briefly with a few points on the construction of Hickory Wheels. The only claim we care to make for this catalogue is, that it contains no statement which we cannot prove and we feel tolerably certain of several other things which have not been therein mentioned.

Sylph Cycles smooth the road.
Smooth roads mean fast time.
Therefore, ride the "SYLPH" if you want to get there.

DON'T think the "Sylph" three part spring frame is slow because you know of a spring fork machine that is slow. The "Sylph" frame is rigid every way but vertically, and vertical elasticity adds to the speed. Remember that the Sylph has a three-part frame, that a three-part frame is a distinctly new departure and that we own it.

Remember, also, that our spring frame is as light as most stiff frames, so that you are not losing in increased weight, the advantage gained by the springs. Remember, further, that all light carriages are built with springs, that they would have to be built heavier if they were not provided with springs, and that if you want a perfect carriage, you can find it in the "Sylph."

Liberal terms to Agents. Catalogue free.

Gentlemen—"For several seasons I have used your Lactart and found it very satisfactory, as a quencher of thirst." Respectfully,

A. P. BENSON, Newton Club.

Union Cycles Win the Race.

Jack and Bill went up the hill,
To try their wheels at coasting;
Bill had said he'd get ahead,
But Bill, you'll see, was boasting.

Jack and Bill came down the hill
Amid derisive laughter.
Jack came down and beat the town;
And Bill, —— came trundling after.

And this is how it occurred:

FALL RIVER, MASS., May 6, 1891.

UNION CYCLE MFG. CO.,

Highlandville, Mass.,

Gentlemen—At a coasting contest open to members of the F. R. C. C., in which about fifteen wheels participated last evening, May 5, the result was as follows: L. R. Darling, Secretary of the Club, first on Union No. 10, with cushion tires; second, Mr. Norman Johnson, on Cushion tired——; third, Mr. Samuel Wood, on Cushion tired——. The Union No. 10 won by a good distance.

In my opinion the UNIONS are the easiest running machines on the market. I tested the quality of the spring frame for coasting on my sister's No. 13, with Mr. Johnson on the ——. The little ladies' machine with only 28-in. wheels, 3 4-in. tire on rear wheel and 5-8-in. tire on front wheel, beat the —— fairly. The —— having 30-in. wheels and 1 1-4 in. cushioned tires. I exchanged wheels with him, he taking the UNION and I the ——, and the UNION beat again.

Yours very truly,

(Signed) F. C. NICHOLS,

The wheels designated by a dash were not UNIONS and not "in it." Great Scott! How they coast.

EDITORS:

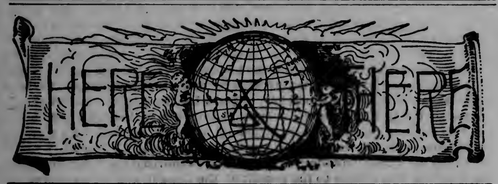
C. W. FOURDRINIER. J. S. DEAN.

BOSTON, 15 MAY, 1891.

WHAT a lot of arrant nonsense is being written about the A. A. U. alliance! The average cycle scribe feels that it is his bounden duty to pitch into everybody and everything, and so the alliance has to come in for its share, and once more the scribe demonstrates the worthlessness of his opinion. They tell us that the L. A. W. has "backed down," has "eaten dirt," has been "slapped in the face by the A. A. U.," and a lot of other rubbish that is easy to say but cannot be substantiated. Now let us look at what has been done. The A. A. U. has agreed to recognize the absolute jurisdiction of the L. A. W. over cycling; it has agreed to recognize and use the L. A. W. rules in all its contests; it grants the L. A. W. the privilege of electing a man who shall have a seat on the Board of Managers of the A. A. U. It does all these things, and what does it ask in return. A very simple and a very just concession. It has been possible for the Racing Board to pass sentence on a man that shall lead to his expulsion from both the A. A. U. and the L. A. W. The A. A. U. now asks that when one of their members is on trial they shall have on the Board of Judges one member who shall represent their interests. They are willing that he shall be judged by the L. A. W. rules, but since his conviction will lead to his expulsion from their organization they ask that he shall have one of his peers on the Board of Judges. Could any request be fairer? And yet because this has been granted we are told that the L. A. W. has "sold out." What does the granting of this request mean? Peace and harmony between two great bodies laboring to the same end. What would the failure to grant the request mean? War and strife and resultant damage to both bodies. If the advice of some of the hot-headed correspondents were taken we should see a pretty state of things.

THERE are those who say that the A. A. U. is ruining the sport by paying the expenses of racing men, but others say that if it were not for this we should have no good racing. Is it the business of the L. A. W. to foster racing or to kill it? Some men think the passage of a law corrects an evil, but history shows that no law can be enforced that public opinion does not sustain. We are of the party that wants to see pure amateurism prevail; but if the people are not with us we must wait till they are converted. The leading men of the A. A. U. are opposed to the expense system, and last winter they tried to take radical measures to correct the evil. We all know that they were not successful. The rank and file outvoted the leaders, and the expense system will continue. Eventually, better things will prevail, but this never can obtain with the L. A. W. and the A. A. U. at loggerheads. Peace will give better results than war, and the Alliance assures peace.

"ET TU BRUTE"—yes, and now even our good old friend and erstwhile correspondent, "The Stroller," turns his guns on us and manufactures a very spicy interview with an imaginary "well-known wheelman and writer," in which he takes occasion to empty the vials of his wrath on our devoted head and the heads of Messrs. Dunn and Bassett, and accuses us of being led by the nose by those two gentlemen. "What right," says our friend, "I would like to know has the paper" (THE WORLD) "to assure the League's eighteen thousand or twenty thousand members that this humbugging alliance is beneficial, where every men with a grain of common-sense knows that by it the League has been disgraced? * * * " By "the right," dear "Stroller" of honest conviction that the Alliance is one which cannot but accrue to the benefit of the League and cycle racing in general. By the right of the privilege we retain of expressing our candid opinion.



THE "Stroller" will have another chance to interview some more "prominent wheelmen and writers" when he reads our opinion of the Racing Board's action in incorporating Rule G in the new racing rules, and we have no doubt but that "Stroller" will take up the cudgels on the side of the Racing Board with as much fervor as though he were a member of that Board, though for the life of us we cannot see why he should. We may, however, do the "Stroller" injustice, and he may not be in sympathy with the prominent "wheelman" whose interview he so carefully reports. He may come out and say frankly that he is one who has not "a grain of common-sense," and he believes that the Alliance is a good one. In the mean time we shall search curiously for the reason which evidently prompts the "Stroller" to so warmly espouse the cause against the Alliance. Finally, we beg leave to assure our late valuable and interesting correspondent that our nose is in most excellent condition, and up to the present time (by the grace of Messrs. Dunn and Bassett) entirely at our own disposal; and should the Executive Committee or Mr. Bassett do any thing that was undoubtedly wrong and against the interests of the League, we would blow it to the tune of condemnation; and if, on the contrary, they do what we consider right, we shall take pleasure in sneezing our most hearty approbation.

ALL must observe with pleasure the growing fondness of the better class of Americans for athletic sports. A tendency in this direction is as much prophetic of the future greatness of the nation as is any development of mental training. The aggressive and producing nations of the past—the Greeks and Romans, who were not content with mere receptive culture, who created literature, and who made and enforced laws for a whole world—were prepared for their wonderful work by long years of persistent physical training. In modern times the two conquering nations of the earth—the two that have produced nearly all we have in music and literature, the English and the Germans—follow a systematic course of physical education. The evidence of intellectual strength in these nations is too powerful to admit of any doubt that their marked and aggressive culture has been the outgrowth of a development of body commensurate with that of the brain. Americans, ever rapid in discovering anything that may aid them in the battle of life, have at last turned their attention to the training of the body by exercise to withstand the strain it is subject to under the system of life at high pressure so much in vogue here, and true to their instincts of always getting the most and the best for their money, they have not failed to honor the bicycle with the first place in their plans for physical improvement. The choice they have made in it but adds another laurel to the wreath of their successes. To those who remain loyal to the wheel will be given that friend so rare in life, who ever remains true to those who love it, and turns not from but with them.

WE are sorry to notice that the success of the proposed racing circuit for the New York Division is threatened. The reasons for the possible abandonment of the scheme are the apparent apathy of the clubs and members, the complications which may again arise between the L. A. W. and A. A. U., and the delay in appointing the Chairman of the Division Racing Board. The matter has not advanced much beyond the stages of the original proposition, and although the racing season is now upon us the arrangements are not even in the preliminary stages

THE press all over the country are beginning to preach the true doctrine of general good in the scheme of improved highways. Even those who at one time could only see the cyclists' selfish motives in the League's efforts to bring about that desideratum, have come to the very sensible conclusion that the idea has a broader scope than the mere benefit to accrue to wheelmen alone.

IT is with pleasure that we call attention this week to the first of a series of articles on French roads, written by Mr. A. G. Collins, a writer who is always instructive as well as entertaining. These articles have been furnished the Roads Improvement Committee by Mr. Collins on the request of Mr. Potter, Chairman. They cannot fail to be of great value and interest to all interested in the matter of Roads Improvements.

"DON'T forget the Eighth Annual Meet of the New Jersey Division L. A. W. at Elizabeth, N. J., May 29-30" is good advice, and for further particulars we gladly call attention of our readers to page 66 of this issue.

STILL another cycling paper born to the troubles and trials of this work-a-day world. *The American Wheelmen* is the name of the newcomer, and it is published semi-monthly at 6019 Penn avenue, Pittsburg, Pa. It is the intention of the editor to pay special attention to the local news.

SUCCESS crowns the efforts of those who use the columns of the BICYCLING WORLD. It cannot help being so. Are YOU one of those who use it? If not, you should do so. A weekly circulation of 21,000 guaranteed,

THIRTEEN members of the Press Cycle Club of Buffalo, N. Y., and two members of the Ramblers of the same city trained it to Erie, Saturday, May 2, intending to ride the century to Buffalo. Darkness and rain at two A. M. Sunday discouraged five from starting. When seven miles out two men backed out, and when North East was reached two more had enough. This left Neumann, Brunner, Sullivan, Finley and Klipfel. The last named three arrived in Buffalo at 9.30 P. M., and Neumann and Brunner sometime later. The roads were horrible, and it was no doubt the hardest run ever made by Buffalo wheelmen.

THE clubs of Baltimore, Md., have emerged from their respective social haunts with a manifest activity, which bids fair to assure the approaching riding season as the most enjoyable and successful of cycling history hereabouts. Several new clubs have been organized since the close of last season, and all seem to be in a healthy condition, with expressed ambition, which, if carried out, will give rise to local competition in various forms that shall place "1891" on record for its many events of interesting rivalry. The captains have announced their schedules of runs, and all show great care and forethought in their arrangement; prominent in this respect is the schedule of Captain Merriam of the Chesapeake Wheelmen, who has issued to each of his "One Hundred" a very neat book announcing on the one side the run, with such points of special interest as will be met with thereon, and opposite a blank page for individual notes of incidents of the run.

As an inducement to the members of the Plainfield Bicycle Club to turn out in large numbers on the occasion of the Century Run from Newark to Philadelphia on June 13, a handsome souvenir medal, donated by F. L. C. Martin, will be given each member of the organization making the entire run.

THE Springfield, Mass., Bicycle Club celebrated the 10th anniversary of the formation of the club on the evening of May 6.

THE 4th annual ten-mile road race of the Peoria, Ill., Bicycle Club will take place on May 21. This race is open to wheelmen of Peoria. Five elegant prizes are offered, and this fact should make the race a hotly contested one.

MIDDLETOWN, Conn., Wheelmen are highly enraged at the conduct of a man, if such he can be called, in deliberately running down a young lady cycler in that place quite recently, badly damaging her wheel, but quite fortunately not injuring her. Eye witnesses to the affair say the young lady was on the right side of the road. A reward is offered for the name of the party driving the team.

"A good opportunity is often lost by delay." *Now* is the time—give us a trial and you will not regret it; 21,000 young men will read your "ad" each week. What better paper can you find for men's goods?

THE Chesapeake's of Baltimore, Md., do not hesitate to let it be known that they will be in the ring this season as last, and to this end Captain Merriam is looking up the promising "flyers" of the club, and promises to give the club teams of the Division a hard rub for any trophies that may be carried off from the "black and orange" boys. H. D. Dietz, who made the record for hill climbing last year, is again in the arena for startling events; his first accomplishment this year was to ride a distance of about 1 1-2 miles on cobble and Belgian blocks on Baltimore street hands off, encountering therein two hills and evading a constant travel of cars and vehicles. His last and greatest feat was to ride, on April 26th, from Relstertown to the Pimlico Avenue entrance of Druid Hill Park, a distance of 14 miles, "hands off," in one hour and five minutes. His special effort will, however, be to break the record of LeCato for one day's road riding, made last October, in which LeCato covered 115 miles, crossing therein two mountain ranges.

THE South Norwalk, Conn., Wheel Club have taken posession of their new rooms in the Swartz & Corbett Building. The apartments are very nicely planned and nicely furnished, and the organization is to be congratulated on the beauty of their club house.

THE Newburgh (N. Y.) Wheelmen are enjoying an immense boom. Organized a year ago with 10 members, at the present time the membership is 50 strong.

THE New Bedford, Mass., Cycle Club held a ladies' night on the evening of May 4. A large number were present, and after an excellent musical programme the company partook of a bountiful collation.

THE cyclists of Buffalo are happy in the prospect of very soon being well rid of the *dog nuisance*, as the dog tax and laws are about to be enforced; any dog found without a collar and license check will be brought to the station house in the precinct in which it is found, and will be shot.

THE annual clambake of the Columbia Bicycle Club of North Attleboro took place on May 2. The North Attleboro club was re-enforced on this occasion by the Attleboro Club, and a highly delightful time was enjoyed by all present.

THE Bergen County Wheelmen and the Palisades Wheelmen are negotiating for a team road race among members.

A CYCLE club recently organized at Jackson, Mich., starts off with 35 members.

THE Queens County Wheelmen of New York will hold their first annual road race on June 6, rain or shine. The distance is five miles, and is to be run on Broadway. Two medals, one for first place, and the other for best time, will be offered.

BUFFALO is to have a 50-mile road race in June.

THE Century Wheelmen are to hold a race meet on the Tioga track, Westmoreland Station, on June 20. In addition to a number of handicap and class races, the 1-2 and 1 mile, safety, and 2 mile, ordinary, championships assigned the Century by the State Racing Board will be run.

THE Park Avenue Wheelmen have abandoned their proposed European trip.

H. C. PEASE, of the Comet Cycle Company, who is to leave Buffalo and return to Toronto, was made the recipient of a handsome Ramblers Club badge set with a diamond. His head was also crowned with a new Knox of the style of 1876.

THE new club house of the Hudson County Wheelmen is rapidly approaching completion, and it is expected that it will be ready for occupancy about June 1.

AT the spring race meeting of the Surrey Bicycle Club of England on April 25, 106 men out of an entry of 130 started in a one-mile safety race.

THE Barre (Vt.) Bicycle Club will hold three handicap road races during the summer; a 5-mile—one to Montpelier and return, and a 25-mile race.

THE Century Wheelmen, Philadelphia, Pa., gave their fifth annual club dinner on the evening of May 4. One hundred members and guests were present, and a very enjoyable time was passed by all.

THE Press C. C. of Buffalo, N. Y., has taken possession of its new club house on Franklin street. The house is to be fitted up in handsome style, and will be made a model wheelman's home.

THE Bridgeport, Conn., Wheelmen will hold a ten-mile handicap road race on July 4.

THE McKeesport, Pa., Bicycle Club has engaged W. S. Maltby, the champion scientific and trick rider, to delight the patrons of their entertainment to be given on May 23.

A NEW club has been recently organized in Batavia, N. Y., to be known as the Batavia Wheelmen.

THE Chester County, Pa., Wheelmen are to hold a 25-mile road race the latter part of the month; it is expected that many of the crack riders will participate in the event, and an excellent race will no doubt result.

THE big race meet to be given by the Columbia Cycle Club, Hartford, Conn., at Charter Oak Park July 4, promises to be the most important held there since 1883. Crack racing men from all over the country are to be present.

THE Stamford, Conn., Wheel Club gave an entertainment on the evening of May 7 before a large and interested audience. W. S. Maltby added much to the otherwise excellent programme by his daring and fancy riding on the bicycle. Financially the affair was a grand success.

THE Bridgeport, Conn., Wheelmen will make a run to Stamford, Conn., on Sunday, May 17. The Stamford Cycle Club will meet them at Norwalk, and after dining together there will wheel to Stamford.

THE Jersey City Athletic Club has recently organized a wheeling division, some twenty members joining same on the first evening. The members are enthusiastic over the outlook, and it seems as if bicycle matters would boom this season with the J. C. A. C.

THE Palisade Wheelmen, of W. Hoboken, N. J., held a lantern parade on the evening of May 2, some 75 members participating. On their return to the clubhouse the members and guests enjoyed a bountiful spread.

THE "Kokomo Cycle Club" is the name of a new club recently organized at Kokomo, Ind. Thirty-seven members to start with is a good foundation for a splendid organization.

THE race on Memorial Day for teams from the Apollo Club of Taunton, the Fall River club and the New Bedford Cycle Club hangs fire, as many of the wheelmen of these organizations desire to attend the L. A. W. meet at Worcester on that day.

W. D. BANKER, the well known racing wheelman, has become a Buffalonian, and will perhaps ride this season under the colors of the Buffalo A. C. He has been secured as salesman by J. F. Doll & Co., the cycle dealers at No. 602 Main street, and will devote his spare time to racing.

A MASS meeting of St. Louis citizens to make arrangements and suggestions for the autumnal festivities will be held at the Exposition Entertainment Hall on Monday. The local cyclists are straining every nerve to obtain an appropriation of $500 for an illuminated parade, and they will be represented at the meeting by a committee of six.

PRESIDENT DUNN will act as Chief Marshal in the parade to take place at the Hagerstown meet, July 4th.

THE Connecticut Division has appropriated $250 for the entertainment of League members at the New Haven meet, June 8th. The nature of the entertainment has not yet been decided on.

A CYCLING club has been formed in Syracuse, N. Y., to consist only of employees of the Premier Typewriter manufactory, and to be known as the Premier Typewriter Cycling Club. It starts off with 30 members, and will join the L. A. W.

THE Century Wheelmen will soon break ground for their new gymnasium. This building will be thoroughly equipped with everything necessary for a first-class gymnasium, and will also have a stage in the rear for private theatricals.

THE Pennsylvania Bicycle Club are to make a trip to Washington on Decoration Day, and an invitation is extended to all Philadelphia wheelmen to join in the excursion. Special rates have been obtained from the Pennsylvania Railroad and hotels, and many riders are going to take advantage of the opportunity, and put in two pleasant days at the Capital and its surroundings.

THE Indianapolis Zig Zags will run a five-mile handicap road race on Decoration Day. Three gold medals, one a time medal, will be offered, besides other prizes. The course is a five-mile straight-away on the national road between Cumberland and Greenfield, about twelve miles from the city.

THE first annual road race of the Onondaga Cycling Club of Syracuse, N. Y., will take place on Wednesday afternoon, May 20th, at 3 o'clock. The run will be made from the watering trough to Centreville and return, making 10 miles. The six gold and silver prizes which will be contested for are now on exhibition in the Star Clothing Company's window. The club is the second organized in this city and is commencing to boom cycling early in the season. The road race will be held annually for the club championship.

OUR correspondent, "Wayne Scott," of Chicago, is ill with an attack of the dreadful grippe. Hence no Chicago notes this week.

REMEMBER the Tennessee Division meet at Nashville, Tenn., July 3, 4. There will be a road race on the 3d, and track races on the 4th.

A NEW cycle club called "The Tourists," of Paterson, N. J., has been formed. The charter members number twenty.

THE first lantern parade ever held in Adrian, Mich., was given by the Adrian Wheel Club of that city, Friday evening, May 8th. There were over ninety formed in line at the time of meeting, and wheelmen joined the procession all along the line of march. Wheelmen from Hillsdale, Hudson, and Tecumseh, were the guests of the club during their stay. The line of march was lined with people young and old, and several citizens along the line trimmed and lighted their houses and burned lights.

THE wheelmen of Pawtucket, R. I., met last Monday evening, and took steps towards forming a cycle club.

THE New Bedford (Mass.) Cycle Club wound up the social season by giving a ladies' night. The programme consisted of vocal and instrumental music and readings. After the entertainment an excellent supper was served.

"LITTLE pains, in a due hour employed, great profit yields." Take a few spare moments, write up an ad. and send it to the BICYCLING WORLD. If you don't get a good return from your investment, it will be a big surprise to us. A weekly circulation of 21,000 guaranteed.

DURING last season Oxford, N. Y., could boast of but one or two wheels at the most. But with the coming of spring came the bicycle fever. One by one wheels have been purchased, until now our town proudly shows a list of 33 wheelmen, among whom are several lady riders. New wheels are arriving daily, and the outlook for the coming season is most promising. Norwich, Sherburne and Greene each possess a goodly number of wheelmen, but Oxford still leads.

A WEEK or so ago the Oxford (N. Y.) wheelmen met in the parlors of the St. James Hotel in their village and formed the "Oxford Wheel Club," with a large list of members. Fine rooms have been procured in the Opera House Block, where Oxford's wheelmen are ever ready to receive a travel-stained cycler with a rousing welcome.

THE Chenango, N. Y., valley, in which Oxford village is situated, is one of the most pleasing routes offered to wheelmen. The roads are good, and for the most part kept in splendid condition. The country is rolling, giving few hard hills and many good coasts. The scenery is especially pleasing. Distant hills crowned with woods, the clear waters of the Chenango beneath, white villages rising to view, a clear sky and a good road—surely the cycler can ask no more.

W. F. WEST, the noted Philadelphia rider, has been suffering from typhoid pneumonia. Mr. West won the Irvington-Milburn race last year.

THE "Porkopolis" Wheelmen of Cincinnati elected four new members and received seven applications on the evening of May 5th. This gives them over fifty members, and the indications are that it will not be a great while till their membership will be large enough to entitle them to two representatives.

THE club house of the East Orange (N. J.) Cyclers is almost completed, and the members expected to take possession before the middle of May. The formal opening will take place May 23.

W. MURPHY appeared for the first time on the race track since the recent "misunderstanding," at the Princeton games last Saturday.

MESSRS. E. FREDERICKS AND J. H. HILL, two of New Orleans' (La.) best riders, think nothing of riding across trestle bridges. Both these gentlemen ride ordinaries, they take the track between the rails over the cross ties, which in a good many instances are from nine to ten inches apart. The Northeastern trestle bridge, which is in the neighborhood of eight miles long has been crossed by them already this season. We wonder if a description of the gentlemen's sensations in accomplishing this feat could appropriately come under the heading: "The pleasures of cycling!"

THERE is many an article of merit which men use that is unknown to the general public, simply from a lack of advertising. Have you any such articles to sell? If so, we cordially invite you to use the BICYCLING WORLD to advertise your wares. A weekly circulation of 21,000 guaranteed.

HARRY J. HALL, JR., will probably appear as a racing man for the first time "in many moons" in the Irvington-Milburn road race.

THE Richmond, Ind., livery men are complaining bitterly that the bicycle is ruining their business.

THE Providence Wheelmen will make their 4th annual pilgrimage to Boston next Monday. They leave Providence via N. Y. and N. E. at 7.30. The tour proper will commence at Mt. Bowdoin station (near Oakland Garden) at about 9.15 A. M.

"G. D. MITCHELL and E. E. STEVENS of Washington left by the Teutonic yesterday on a bicycle trip around the world. They will ride safety machines, and it is their intention to take things somewhat easy, and anticipate that it will take them two years before their *circumperambulatierrical* trip is over."—*Exchange.* [That word ough to be copyrighted.—ED.].

THE Union Cycle Club is the name of a new club formed in Boston by the members or the B. Y. M. C. U. The club starts with about twenty members. It will be a League club. All wheelmen desiring to join are requested to address C. C. Orcutt, 48 Boylston street, Boston.

THE Business Men's Cycle League of Newark, N. J., had a club run to Philadelphia on Saturday. They were taken in charge of the Park Avenue Wheelmen, who on Sunday showed them the various points of interest in Fairmount Park. President Bunnell and Captain Bilyeu made the arrangements, and the visitors departed, well satisfied with the Quaker City's hospitality.

CHAIRMAN CROWTHER of the Pennsylvania State Board will assign two of the Division Championships to the Hagerstown race meet in order that the Pennsylvania men present may have an opportunity of competing in championship events, as since the abolishment of the District Championships those races of course cannot be run as was originally intended.

TOM ROE of Chicago on Saturday created a new record from Wilmington to New Castle, Delaware. The distance is 5 1-2 miles, and Roe covered it in 19 minutes and 18 seconds, which breaks McDaniel's record of 20 minutes and 30 seconds.

THE Pennsylvania Bicycle Club will have a century run to Reading on Saturday and Sunday, June 27th and 28th, riding upon Saturday afternoon as far as Pottstown, and from Pottstown to Reading by moonlight Saturday evening, stopping at Reading over night.

THE Columbias of Buffalo will have a road race for members only. Date not decided on yet.

"THE great obstacle to progress is prejudice." Simply because our paper is devoted to the interests of cycling, is no reason why it is not a good medium for men's goods. Disabuse your minds of this prejudice and try the BICYCLING WORLD, a weekly circulation of 21,000 guaranteed.

THE Cleveland, Ohio, Wheel Club will hold their first annual 23-mile handicap road race Decoration Day, May 30th, 1891, the course being from the Y. M. C. A. Building, junction of Prospect and Erie streets, running east on Prospect street to Wilson, north on Wilson to Euclid avenue, east on Euclid to the end of the Wickcliff plank road, returning over the same route and finishing at the main entrance of Wade Park. The club extends all a hearty invitation to participate. Entries close May 27. Fee 50 cents.

OUR correspondent, "Jasper," of Detroit, notes the fact that the ordinary is regaining its temporary loss of popularity, and he says it is not an uncommon thing in a lot of wheelmen to see the "G. O. O." in the majority.

TWELVE unattached L. A. W. members, in company with other riders, are going to start from Norfolk street square, Dorchester, the morning of the 30th next, to ride to Worcester. All wishing to join this party can get further information by addressing Alfred C. Post, 54 Monadnock street, Dorcsester, or C. A. E. Long, Evans street, Dorchester.

THE arrangements for the race meeting of the Kings County (N.Y.) Wheelmen, to be held June 27 at Easton Park, are progressing finely. This club will have a strong team to compete in the first race of the Wheelmen's Racing League on June 6th.

WE wonder what make of wheel it was? "LeRoy Corser of Brattleboro, Vt., mounted his bicycle and proceeded to take a fast ride down a hill, when his machine became unmanageable and he ran into a team, breaking the bicycle and wagon, beside hurting the horse." When it gets so that wagons and horses get smashed up by collision with cycles, the horsemen will become "more respectful."

THE Springfield (Mass.) Bicycle Club will hold a field day some time in June.

AN exchange likens the pneumatic tire cycle to "a gentle gazelle clad in number twelve overshoes."

THE Fair Association of Chillicothe, Mo., have decided to omit the regular foot race, which has long been a fixture, and in its place substitute a five-mile bicycle race. Gold medals will be the prizes, and Local Consul A. J. Simpson will be glad to furnish particulars. Chillicothe is also moving towards the front in improving her streets, and the city council have lately appropriated $200,000 for this purpose. The paving material to be vitrified brick.

CYCLING is having a genuine boom in Detroit this year, and the pleasantest part of it is that a large percentage of the orders now are for ladies' safeties. Last year Detroit had less than a dozen lady riders, but now they are a common sight on the streets; several of the ladies ride, using them to and from their daily occupation.

THE annual hill climbing contest on Son-of-a-Gun-Hill, near St. Louis, Mo., which takes place on Saturday, June 6, this year, is an assured success, and not a run passes the hill but what every participant stops to try conclusions with the grade. No restrictions as to the weight or pattern

THE press all over the country are beginning to preach the true doctrine of general good in the scheme of improved highways. Even those who at one time could only see the cyclists' selfish motives in the League's efforts to bring about that desideratum, have come to the very sensible conclusion that the idea has a broader scope than the mere benefit to accrue to wheelmen alone.

IT is with pleasure that we call attention this week to the first of a series of articles on French roads, written by Mr. A. G. Collins, a writer who is always instructive as well as entertaining. These articles have been furnished the Roads Improvement Committee by Mr. Collins on the request of Mr. Potter, Chairman. They cannot fail to be of great value and interest to all interested in the matter of Roads Improvements.

"DON'T forget the Eighth Annual Meet of the New Jersey Division L. A. W. at Elizabeth, N. J., May 29-30" is good advice, and for further particulars we gladly call attention of our readers to page 66 of this issue.

STILL another cycling paper born to the troubles and trials of this work-a-day world. *The American Wheelmen* is the name of the newcomer, and it is published semi-monthly at 6019 Penn avenue, Pittsburg, Pa. It is the intention of the editor to pay special attention to the local news.

SUCCESS crowns the efforts of those who use the columns of the BICYCLING WORLD. It cannot help being so. Are YOU one of those who use it? If not, you should do so. A weekly circulation of 21,000 guaranteed.

THIRTEEN members of the Press Cycle Club of Buffalo, N. Y., and two members of the Ramblers of the same city trained it to Erie, Saturday, May 2, intending to ride the century to Buffalo. Darkness and rain at two A. M. Sunday discouraged five from starting. When seven miles out two men backed out, and when North East was reached two more had enough. This left Neumann, Brunner, Sullivan, Finley and Klipfel. The last named three arrived in Buffalo at 9.30 P. M., and Neumann and Brunner sometime later. The roads were horrible, and it was no doubt the hardest run ever made by Buffalo wheelmen.

THE clubs of Baltimore, Md., have emerged from their respective social haunts with a manifest activity, which bids fair to assure the approaching riding season as the most enjoyable and successful of cycling history hereabouts. Several new clubs have been organized since the close of last season, and all seem to be in a healthy condition, with expressed ambition, which, if carried out, will give rise to local competition in various forms that shall place "1891" on record for its many events of interesting rivalry. The captains have announced their schedules of runs, and all show great care and forethought in their arrangement; prominent in this respect is the schedule of Captain Merriam of the Chesapeake Wheelmen, who has issued to each of his "One Hundred" a very neat book announcing on the one side the run, with such points of special interest as will be met with thereon, and opposite a blank page for individual notes of incidents of the run.

As an inducement to the members of the Plainfield Bicycle Club to turn out in large numbers on the occasion of the Century Run from Newark to Philadelphia on June 13, a handsome souvenir medal, donated by F. L. C. Martin, will be given each member of the organization making the entire run.

THE Springfield, Mass., Bicycle Club celebrated the 10th anniversary of the formation of the club on the evening of May 6.

THE 4th annual ten-mile road race of the Peoria, Ill., Bicycle Club will take place on May 21. This race is open to wheelmen of Peoria. Five elegant prizes are offered, and this fact should make the race a hotly contested one.

MIDDLETOWN, Conn., Wheelmen are highly enraged at the conduct of a man, if such he can be called, in deliberately running down a young lady cycler in that place quite recently, badly damaging her wheel, but quite fortunately not injuring her. Eye witnesses to the affair say the young lady was on the right side of the road. A reward is offered for the name of the party driving the team.

"A good opportunity is often lost by delay." *Now* is the time—give us a trial and you will not regret it; 21,000 young men will read your "ad" each week. What better paper can you find for men's goods?

THE Chesapeake's of Baltimore, Md., do not hesitate to let it be known that they will be in the ring this season as last, and to this end Captain Merriam is looking up the promising "flyers" of the club, and promises to give the club teams of the Division a hard rub for any trophies that may be carried off from the "black and orange" boys. H. D. Dietz, who made the record for hill climbing last year, is again in the arena for startling events; his first accomplishment this year was to ride a distance of about 1 1-2 miles on cobble and Belgian blocks on Baltimore street hands off, encountering therein two hills and evading a constant travel of cars and vehicles. His last and greatest feat was to ride, on April 26th, from Reistertown to the Pimlico Avenue entrance of Druid Hill Park, a distance of 14 miles, "hands off," in one hour and five minutes. His special effort will, however, be to break the record of LeCato for one day's road riding, made last October, in which LeCato covered 115 miles, crossing therein two mountain ranges.

THE South Norwalk, Conn., Wheel Club have taken posession of their new rooms in the Swartz & Corbett Building. The apartments are very nicely planned and nicely furnished, and the organization is to be congratulated on the beauty of their club house.

THE Newburgh (N. Y.) Wheelmen are enjoying an immense boom. Organized a year ago with 10 members, at the present time the membership is 50 strong.

THE New Bedford, Mass., Cycle Club held a ladies' night on the evening of May 4. A large number were present, and after an excellent musical programme the company partook of a bountiful collation.

THE cyclists of Buffalo are happy in the prospect of very soon being well rid of the *dog nuisance*, as the dog tax and laws are about to be enforced; any dog found without a collar and license check will be brought to the station house in the precinct in which it is found, and will be shot.

THE annual clambake of the Columbia Bicycle Club of North Attleboro took place on May 2. The North Attleboro club was re-enforced on this occasion by the Attleboro Club, and a highly delightful time was enjoyed by all present.

THE Bergen County Wheelmen and the Palisades Wheelmen are negotiating for a team road race among members.

A CYCLE club recently organized at Jackson, Mich., starts off with 35 members.

THE Queens County Wheelmen of New York will hold their first annual road race on June 6, rain or shine. The distance is five miles, and is to be run on Broadway. Two medals, one for first place, and the other for best time, will be offered.

BUFFALO is to have a 50-mile road race in June.

THE Century Wheelmen are to hold a race meet on the Tioga track, Westmoreland Station, on June 20. In addition to a number of handicap and class races, the 1-2 and 1 mile, safety, and 2 mile, ordinary, championships assigned the Century by the State Racing Board will be run.

THE Park Avenue Wheelmen have abandoned their proposed European trip.

H. C. PEASE, of the Comet Cycle Company, who is to leave Buffalo and return to Toronto, was made the recipient of a handsome Ramblers Club badge set with a diamond. His head was also crowned with a new Knox of the style of 1876.

THE new club house of the Hudson County Wheelmen is rapidly approaching completion, and it is expected that it will be ready for occupancy about June 1.

AT the spring race meeting of the Surrey Bicycle Club of England on April 25, 106 men out of an entry of 130 started in a one-mile safety race.

THE Barre (Vt.) Bicycle Club will hold three handicap road races during the summer; a 5-mile—one to Montpelier and return, and a 25-mile race.

THE Century Wheelmen, Philadelphia, Pa., gave their fifth annual club dinner on the evening of May 4. One hundred members and guests were present, and a very enjoyable time was passed by all.

THE Press C. C. of Buffalo, N. Y., has taken possession of its new club house on Franklin street. The house is to be fitted up in handsome style, and will be made a model wheelman's home.

THE Bridgeport, Conn., Wheelmen will hold a ten-mile handicap road race on July 4.

THE McKeesport, Pa., Bicycle Club has engaged W. S. Maltby, the champion scientific and trick rider, to delight the patrons of their entertainment to be given on May 23.

A NEW club has been recently organized in Batavia, N. Y., to be known as the Batavia Wheelmen.

THE Chester County, Pa., Wheelmen are to hold a 25-mile road race the latter part of the month; it is expected that many of the crack riders will participate in the event, and an excellent race will no doubt result.

THE big race meet to be given by the Columbia Cycle Club, Hartford, Conn., at Charter Oak Park July 4, promises to be the most important held there since 1883. Crack racing men from all over the country are to be present.

THE Stamford, Conn., Wheel Club gave an entertainment on the evening of May 7 before a large and interested audience. W. S. Maltby added much to the otherwise excellent programme by his daring and fancy riding on the bicycle. Financially the affair was a grand success.

THE Bridgeport, Conn., Wheelmen will make a run to Stamford, Conn., on Sunday, May 17. The Stamford Cycle Club will meet them at Norwalk, and after dining together there will wheel to Stamford.

THE Jersey City Athletic Club has recently organized a wheeling division, some twenty members joining same on the first evening. The members are enthusiastic over the outlook, and it seems as if bicycle matters would boom this season with the J. C. A. C.

THE Palisade Wheelmen, of W. Hoboken, N. J., held a lantern parade on the evening of May 2, some 75 members participating. On their return to the clubhouse the members and guests enjoyed a bountiful spread.

THE "Kokomo Cycle Club" is the name of a new club recently organized at Kokomo, Ind. Thirty-seven members to start with is a good foundation for a splendid organization.

THE race on Memorial Day for teams from the Apollo Club of Taunton, the Fall River club and the New Bedford Cycle Club hangs fire, as many of the members of these organizations desire to attend the L. A. W. meet at Worcester on that day.

W. D. BANKER, the well known racing wheelman, has become a Buffalonian, and will perhaps ride this season under the colors of the Buffalo A. C. He has been secured as salesman by J. F. Doll & Co., the cycle dealers at No. 602 Main street, and will devote his spare time to racing.

A MASS meeting of St. Louis citizens to make arrangements and suggestions for the autumnal festivities will be held at the Exposition Entertainment Hall on Monday. The local cyclists are straining every nerve to obtain an appropriation of $500 for an illuminated parade, and they will be represented at the meeting by a committee of six.

PRESIDENT DUNN will act as Chief Marshal in the parade to take place at the Hagerstown meet, July 4th.

THE Connecticut Division has appropriated $250 for the entertainment of League members at the New Haven meet, June 8th. The nature of the entertainment has not yet been decided on.

A CYCLING club has been formed in Syracuse, N. Y., to consist only of employees of the Premier Typewriter manufactory, and to be known as the Premier Typewriter Cycling Club. It starts off with 30 members, and will join the L. A. W.

THE Century Wheelmen will soon break ground for their new gymnasium. This building will be thoroughly equipped with everything necessary for a first-class gymnasium, and will also have a stage in the rear for private theatricals.

THE Pennsylvania Bicycle Club are to make a trip to Washington on Decoration Day, and an invitation is extended to all Philadelphia wheelmen to join in the excursion. Special rates have been obtained from the Pennsylvania Railroad and hotels, and many riders are going to take advantage of the opportunity, and put in two pleasant days at the Capital and its surroundings.

THE Indianapolis Zig Zags will run a five-mile handicap road race on Decoration Day. Three gold medals, one a time medal, will be offered, besides other prizes. The course is a five-mile straight-away on the national road between Cumberland and Greenfield, about twelve miles from the city.

THE first annual road race of the Onondaga Cycling Club of Syracuse, N. Y., will take place on Wednesday afternoon, May 20th, at 3 o'clock. The run will be made from the watering trough to Centreville and return, making 10 miles. The six gold and silver prizes which will be contested for are now on exhibition in the Star Clothing Company's window. The club is the second organized in this city and is commencing to boom cycling early in the season. The road race will be held annually for the club championship.

OUR correspondent, "Wayne Scott," of Chicago, is ill with an attack of the dreadful grippe. Hence no Chicago notes this week.

REMEMBER the Tennessee Division meet at Nashville, Tenn., July 3, 4. There will be a road race on the 3d, and track races on the 4th.

A NEW cycle club called "The Tourists," of Paterson, N. J., has been formed. The charter members number twenty.

THE first lantern parade ever held in Adrian, Mich., was given by the Adrian Wheel Club of that city, Friday evening, May 8th. There were over ninety formed in line at the time of meeting, and wheelmen joined the procession all along the line of march. Wheelmen from Hillsdale, Hudson, and Tecumseh, were the guests of the club during their stay. THE Cleveland, Ohio, Wheel Club will hold their first annual 23-mile handicap road race Decoration Day, May 30th, 1891, the course being from the Y. M. C. A. Building, junction of Prospect and Erie streets, running east on Prospect street to Wilson, north on Wilson to Euclid avenue, east on Euclid to the end of the Wickcliff plank road, returning over the same route and finishing at the main entrance of Wade Park. The club extends all a hearty invitation to participate. Entries close May 27. Fee 50 cents.

OUR correspondent, "Jasper," of Detroit, notes the fact that the ordinary is regaining its temporary loss of popularity, and he says it is not an uncommon thing in a lot of wheelmen to see the "G. O. O." in the majority.

TWELVE unattached L. A. W. members, in company with other riders, are going to start from Norfolk street square, Dorchester, the morning of the 30th next, to ride to Worcester. All wishing to join this party can get further information by addressing Alfred C. Post, 54 Monadnock street, Dorcester, or C. A. E. Long, Evans street, Dorchester.

THE arrangements for the race meeting of the Kings County (N.Y.) Wheelmen, to be held June 27 at Easton Park, are progressing finely. This club will have a strong team to compete in the first race of the Wheelmen's Racing League on June 6th.

WE wonder what make of wheel it was? "LeRoy Corser of Brattleboro, Vt., mounted his bicycle and proceeded to take a fast ride down a hill, when his machine became unmanageable and he ran into a team, breaking the bicycle and wagon, beside hurting the horse." When it gets so that wagons and horses get smashed up by collision with cycles, the horsemen will become "more respectful."

THE Springfield (Mass.) Bicycle Club will hold a field day some time in June.

AN exchange likens the pneumatic tire cycle to "a gentle gazelle clad in number twelve overshoes."

THE Fair Association of Chillicothe, Mo., have decided to omit the regular foot race, which has long been a fixture, and in its place substitute a five-mile bicycle race. Gold medals will be the prizes, and Local Consul A. J. Simpson will be glad to furnish particulars. Chillicothe is also moving towards the front in improving her streets, and the city council have lately appropriated $200,000 for this purpose. The paving material to be vitrified brick.

CYCLING is having a genuine boom in Detroit this year, and the pleasantest part of it is that a large percentage of the orders now are for ladies' safeties. Last year Detroit had less than a dozen lady riders, but now they are a common sight on the streets; several of the ladies ride, using them to and from their daily occupation.

THE annual hill climbing contest on Son-of-a-Gun-Hill, near St. Louis, Mo., which takes place on Saturday, June 6, this year, is an assured success, and not a run passes the hill but what every participant stops to try conclusions with the grade. No restrictions as to the weight or pattern

of wheels will be enforced, save that no machine will be allowed to be geared lower than 54 inches. Two gold medals will be the prizes. As the novice's climb last year caused bad feeling to be engendered, it has been decided to abolish it this year and award the medals to the first and second men making the best time. Entries for this event close on June 3, with Geo. Wilder, 1724 Olive street, St. Louis, and the entry fee is placed at fifty cents.

AT the last monthly meeting of the Ramblers of Buffalo, held on the 5th, the amendment of the constitution making the club no longer a member of the L. A. W. was ratified.

NOTHING that was ever done in St. Louis has tended to boom the sport more than the abandonment of the sprinkling, aye, slopping of the asphaltum streets, and the consternation of all our riders who use the wheel for business purposes can be imagined when last Monday the "four sloppings" per day were resumed. A committee at once waited on Street Commissioner Murphy, and he stated that the adjoining property owners were responsible for the trouble, as they refused to pay sprinkling taxbills unless the service was rendered. The department is again experimenting with a patent sweeper, and if it will do what is claimed for it, Mr. Murphy stated positively that no more sprinklings would be allowed on the asphaltum streets.

THE course of the road race at Detroit, June 6th, will be out Michigan avenue, from the Five Mile house to Wayne and return, giving the riders fifteen miles of excellent roads.

HAWKSHAW'S COLUMN.

I DON'T think I am a particularly observing individual, but I do believe that I can tell a wheelwoman at a glance whenever the lack of gallantry among men compels her to stand in a car, either elevated or surface. I know it by the ease and sureness with which she adjusts herself to the motions of the vehicle, and at the same time preserves her feminine dignity. This is a most desirable acquisition for the city woman, whom we are accustomed to see tipping and staggering about in the street cars, elevated and bridge cars when forced to stand. Thus cycling does not alone give roundness of limb and redundancy of health to such fair devotees as follow it, but it adds to all this a faculty of keeping their balance, mental as well physical, that makes them at once the envy and admiration of their less robust sisters.

There are those who would have us think that the glory of cycling is in its past, that only the fruit we have eaten is sweet, while that which our hand holds is bitter and rotten, and that on the boughs of our orchard there is no blossom that promises fresh wealth for the spring. These are but pessimists, less logical in the position they assume than those who would rob the past of the glories that are justly its own.

Poor candor! It is never right. If agreeable, it is denounced as flattery, if distasteful it is slighted as censure! Let anyone who does not think this a true statement attempt to write for the cycling press awhile, and then let him say I am not right. If one finds merit in a maker or his wheels and dares to say so, it is whispered that the writer is owned by the manufacturer; if to the contrary, he sees faults in the man or his machine which he thinks demands his censure, it is a thousand to one that the item gets "killed" by the deadly "blue pencil," or if it be lucky enough to escape with its life and see the light of publicity then the one criticised by it cries out that the writer is the tool of rival concerns.

Strange, is it not, how the man who regards a twenty-five mile ride on a bicycle as but play, will become faint and exhausted at the bare idea of wheeling a baby carriage half-way around the block?

A true lover of cycling does not mean one who tears over roads at full speed, regardless of every one's safety and convenience not his own; no, that is a very poor idea; he unites exercise with a love for the country and admiration of nature. In riding with friends he goes easily and quietly along, talking and looking about him, not merely possessed with the object of getting over as much ground as possible, and to do so scorching along, making his tire take the place of a handkerchief to remove the perspiration from his nose. The true cyclist aims to enjoy a few hours away from his desk, away from the roar and rattle of paved streets choked with the traffic of a city, and he seeks this among the quiet roads and lanes of the country, with his companions and kindred spirits. In the past ten years or more, I have stated this truism a great, great many times, and yet I much fear that I have not decreased the number of nose-grinders by so much as one.

France may well point with pride to the 400,000 miles of the finest roads in the world that are spread like a net over every portion of her possessions. To accomplish all of this, she has expended during the last ten years over $116,000,000 in the constructing and keeping in repair of her highways. An army of 50,000 laborers is constantly employed in national road work, whose labors are overseen by 5,000 road-surveyors, who in turn are directed by 1,800 government engineers who devote their entire time to the building and keeping in repair the perfect roads of the republic. We have learned many things from France, and we have yet many more to learn, and among this many, the lesson she teaches us in roadbuilding will not, I hope, be put at the bottom of the list. The roads of France, and those of the United States, are alike in one respect—they are the wonders of the world. In regard to the French roads the world wonders how they could be so perfectly built and so beautifully kept, while with the American ones it wonders how they could be called roads and yet be so different from the ones seen in every other civilized country.

"Papa, what is League politics?"

"Just now, my son, it is an everlasting, immeasurable, incomprehensible, unlimited, unmitigated, incoherent, irresponsible, and irrepressible mix, without wisdom or the spirit of understanding."

"Thanks, papa. I understand all about it now."

"What a beautiful clear day it is," remarked a wheelman who was riding through a desert in a sand storm, to an Arab who crouched in the sand to save his life from the clouds of dust that filled the air. "Allah be praised! The infidel is bereft of reason," muttered the Arab as he covered his head and crouched still nearer to the earth. But the rider wasn't crazy, not much; but you see he had been used to riding on New York streets, and the sand storm of the desert was so slight in comparison to the one he usually rode in, that he did not notice it. "HAWKSHAW."

FRENCH HIGHROADS—THEIR CONSTRUCTION AND MAINTENANCE.

BY A. G. COLLINS.

FRENCH highroads are divided into three great classes. The first and most important class is that of the *Grandes Routes Nationales*, or Grand National Routes, created and maintained by the General Government.

The second class is the *Routes Departmentales* or Departmental Routes, built and maintained by the different departments of France.

The third class is that of the smaller roads in the villages and communes, called *Routes Communales*.

All of these roads are under the supervision of the Governmental Department of Bridges and Roads (*Ponts et Chaussees*), at the head of which is the Minister of Public Works.

An elaborate system of organization pervades this Department, and the work is carried on as methodically as in the War or Navy Departments. A direct responsibility rests upon all in the department for duty to be done, and when it is not done, somebody suffers.

It is unnecessary to go into detail as to the origin of these roads or of the system by which they are kept up. Let us take them as we find them at the present day, and endeavor to learn something from them to the profit of the people of the United States.

The system of grand routes is in its origin essentially military, and was begun by Napoleon I., who tore up the old pavement, some of which dated from Roman times, and converted the huge blocks into broken stone, with which the roads were macadamized.

Their general character is almost uniform throughout France.

Crossing the level country in perfectly straight lines, they often turn miles to avoid a hill; and, where unavoidable, they surmount it by grades so long and easy that artillery can travel with ease.

In the mountainous districts the most wonderful engineering skill is displayed in circling up mountain sides, crossing ravines, and tunnelling through projecting crags or shoulders of the mountain. Always solid, always in good repair, these magnificent national roads never fail to excite the admiration of the American tourist or engineer.

Connecting all the large cities with each other, and passing through the principal secondary towns and cities, the *Routes Nationales* cross the country throughout its entire length and breadth with a network, which can only be compared with the lines of a spider's web or the spokes of a wheel.

Let us examine in detail a small section of a *Route Nationale*, which will serve to give us an idea of them all.

This section we may almost choose haphazard, either near Havre in Normandy, near Paris, near Geneva, in the East, or in the *Midi* near Marseilles.

We shall find in any case a broad, smooth, white-surfaced avenue, free from dust, mud, ruts, or the smallest loose stone.

This, if the country be level, will most likely stretch away before us in a dead straight line to the horizon. We shall find the edges of this wide white road bordered by grassy strips about twenty feet wide, at the further side of which is a deep ditch or gutter, with the earth which has been excavated thrown up on the side farthest from the road, in order to keep water from the fields and hills away.

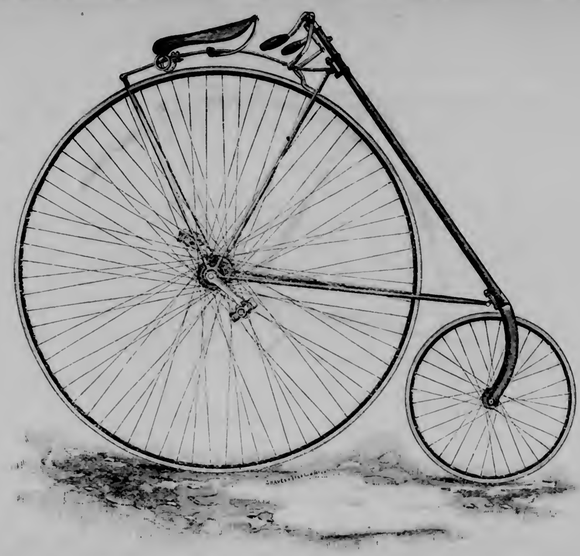
On each side of the road a row of tall poplars is planted in the grass, sometimes a double row on each side, which add much of the peculiar character of stateliness which these roads have.

The poplars, sixty or more feet high, are kept trimmed of all branches for thirty feet from the ground, and their feathery tops almost meeting in mid-air, give one the sensation of looking down a long vista in some princely domain. The grass plots are cut every hundred feet by smaller gutters which carry rain water from the road to the large ditches.

The roadway in most cases has curbstones on either side and paved gutters, and sometimes, for many miles, there is a well made macadamized sidewalk beneath the trees, although this may be far from any town.

Thus at first, one is constantly imagining that one is travelling through some vast park, and that presently this avenue will end, and one will get to the real country roads and the expected stone, ruts and mud. It is hard at first to realize that that magnificent avenue over which you take a drive of a few miles, goes on and on, through distant Lyons to the shores of the blue Mediterranean, always the same beautiful surface, always equally good! It is hard to realize (indeed, well nigh impossible for an American) that while one may be driving in a closed carriage muffled in furs, during the cold of a winter in Northern France, that the same smooth pathway you are rolling over extends itself far, far away to the fair land of Provence, where its southern portion is bathed in sunshine and overhung by the palms, the olives, the orange blossoms of Nizza La Bella! Strange but true!

When shall come the day when the shivering inhabitant of Northern New England can warm himself with the thought that outside his cottage door runs the National Highroad which he has only to follow long enough in order to arrive among the magnolias of Jacksonville, or the roses and jasmines of Los Angeles? Speed the day!



The traveller from America will also be agreeably surprised to find that, if he be not blind and knows to what town he wishes to go, there is no possibility of his going astray. This is because on all the grand routes (and the departmental routes as well) he will find by the roadside at the end of each kilometre, five-eighths of a mile, a substantial stone set up.

This kilometre stone is about two feet high, one foot wide and eight inches thick.

Upon the face, and following the curve of the rounded top, he will find cut in the stone, and painted black, the words "Grande Route Nat'l., No. 5-7," or whatever the number may be. Below this, if the route, for instance, is between Paris and Rouen, he will see in larger characters the words, "Paris, so many kilometres; Rouen, so many;" thus giving him the exact distance from the stone he is looking at to the large cities at either end of the road.

Upon the side of the stone nearest him, as he travels on, he will find the name and distance to the next town of any importance, and on the further side the name and distance he has travelled from the last good sized town.

Not only are these kilometre stones uniform and always in place, but there are also ten smaller stones, about ten inches square, to each kilometre, making one every hundred meters or about three hundred feet

The First Cycles in the United States

The Largest Cycle Manufactory in the World

Roxbury, April 24, 1891.

To Singer & Co.,

Dear Sirs:—I have used your 1891 pattern wheel, with the one inch wired tire, and have no hesitation in stating that it gives more satisfaction than any cushion tire that I have ever tried, and as for hill climbing, it is unsurpassed.

Yours truly,
JAMES KELTIE,
Captain Roxbury Bi. Club.

SINGER & CO., 6 and 8 BERKELEY STREET and 2 WARREN AVENUE, BOSTON, MASS.

These are numbered from one to ten, and thus the traveller knows within a fraction of three hundred feet the exact distance he has journeyed.

Cyclometers, pedometers, and such automatic measuring machines, are thus rendered unnecessary, and their sale is almost nul.

A SUMMER VACATION AWHEEL IN THE HARZ MOUNTAINS.

BY WM. HEYNY, JR.

(CONTINUED.)

THE panorama of the plain, the very same which we saw last night, but how different does it appear this morning! Watch the sunbeams as they steal up to the steeples of the churches, gilding the weathercock, and, creeping lower, set the brick roofs and walls aglow, and finally putting high lights on the greens of the woods! The vicinity of the "Tanzplatz" is very romantic. Straying towards the "Laviere's Hoche," a viewing point one fine day, I discovered what I at first mistook for the ruins of a gigantic castle; on closer examination, however, it proved to be of natural rock. This is indeed surprising. Walls, hundreds of feet in height, hewn out by the hand of nature! But this is not all. While climbing about to obtain a good point of view I saw a slender stem of granite standing erect in the centre of the "Giant Castle," only a few feet in circumference, broadening out towards the top, and showing fully 25 feet above the tree tops. The "Giant King" slowly crumbling away, will no doubt tumble over ere long.

While engaged at sketching my attention was arrested by peals of merry laughter and, was it possible? yes,no doubt, English words greeted my ear like music. Coming down from my lofty position and bending the branches aside I suddenly found myself face to face with a handsome young miss. "Oh mama"—How I frightened her! She did not faint, however, for when I addressed "Mama" they all hovered about, three, four, fair, slender maidens, one prettier than the other, and a bright boy to turn over the pages of my sketchbook exclaiming, "Oh, isn't this lovely," and "Ah, where is this," and "what is that," and finally stopping at my last sketch a fair damsel asked me whether it was one of the rocks of the Brocken. "Oh no, that's right here," and I amused myself a little while to see them look around puzzled. Then I took the whole family through the bushes and in face of the "Giant Castle." Of course they all went into ecstasies over this wonder, and when I left them the elderly lady thanked me for having shown them one of the grandest sights, and had it not been for me they should have remained entirely ignorant of the existence of such. This little episode goes to show how some of the finest views are lost to the visitor.

I had not gone very far when the little boy came running after me: "Excuse me, sir, would you not partake of some nice English cheese cake with us?" The party had seated themselves in the green and spread their lunch a la picnic. I was really sorry to have to decline, but I was obliged to make haste in order to reach my destination before dark, and thus end what might have turned out a romantic little love story for my fair readers.

From the "Laviere's Hoche" we descend by a romantic and easy graded walk down to the "Koenigs Ruhe" (king's rest) inn. This pretty path through the "Hirschgrund" (deer ground), disclosing most lovely views, is shaded by tall trees and handsome shrubbery, and at almost every turn a bench invites to rest.

Reaching the Bode again we follow it upward on the left bank, and now come upon the "Teufelsbrucke" (devil's bridge), where the foaming and roaring stream dashing infuriated against the rocky wall has hollowed out a great basin, the "Bodekessel" (Bode kettle). We may extend our walk way up the valley, passing the great solid range of the "Gewitter klippen" (storm cliffs), to "Wilhelms blick" (Williams view), and return by the path along the opposite bank to the "Schurre" (slide) which leads up to the "Rosstrappe" rock. Here some 600 feet above the Bode we have a great view of the opposite "Hexentanzplatz" and all the other rocks.

On the flattened top of this tower-like rock, the form of a huge horse shoe is impressed, said to have been occasioned by the old Druids, who celebrated their rites and worshipped the "holy white horse" here. The legend says differently: Wild King Bode came here and fell in love with a giant princess. Brunhildis, frightened by his violent passion, fled on horseback, followed by the dissolute fellow. Arriving at the plateau where the witches hold their nightly orgies, the horse rears, but, pressed by her assailant, the young giantess spurs her animal, and dares the terrible leap over the yawning abyss, reaching the opposite ledge safely. But the imprint of the horse's hoof was left deep in the rock, and hereafter it was called "Rosstrappe." The king failed in his leap and tumbled down into the wild stream, which was named after him "Bode."

From the "Rassmannshoehe," near by, an old veteran shoots off pistols for the entertainment of visitors. The echo comes back, thundering through the valley like the report of hundreds of cannon in a battle.

A short ride through pretty scenery, and in a mould, where the valley opens, and the "Bode" and "Luppbode" unite, lies Treseburg, a pretty village, built on a rocky ledge. Opposite, on a precipitous rock, is the "Weisse Hirsch" (white deer) Hotel, from where we can overlook the village and its surroundings. The heights are bestrewn with great oaks and slender pines. Coming down from here and crossing over the bridge in the cool, quiet valley, at twilight, one can sometimes watch a herd of deer, as they come to drink. First, a stately buck steps forth from the dark of the forest, stops, sniffling the air, and, advancing to the water's edge, drinks. Then he will carefully step on the bowlder in the brook, and, with an elegant bound, clear it, posting himself on the opposite bank. Another deer appears beyond, two sentinels, pricking up their ears at the least sound, and keeping a sharp lookout, while presently the whole herd walk out to the brink of the water and quench their thirst. A pretty picture; who would disturb it? But some young tourists, on the other side, are enjoying the pleasant evening in their way. They "jodel," to wake the magnificent echo, and thus unawares, spoil our pretty scene. With one, two great bounds the whole herd plunge into the darkness of the forest, and have vanished from sight.

But let the merry have their fun,
And don't be angry, brother;
Remember: What gives joy to one,
Ofttimes chagrins the other.

TO BE CONTINUED.

DISTRICT AFFAIRS.

SUNDAY bicycle racing must be stopped. Why? ask some few. Well, for the pure and simple reason that it degrades the sport. Two clubs in this section called club road races for last week Sunday. Rain prevented their being held, but even so a howl has arisen from some persons through the daily press, protesting against the continuance of such contests upon the Sabbath. Now I see that one of the clubs in question has called their postponed races to be run this coming Sunday. Let us watch, and heed whether they will display their better qualities, and wisely conclude that these events can be just as well run off on other than Sundays. The people of Irvington have wisely concluded that any wheelmen found racing in scant costume through their town limits will be dismounted, and initiated into the mysteries of a county jail, providing a fine is not forthcoming. Should this custom be practised in other sections, it might eventually do the sport a world of good, insomuch as it would probably curb the racing propensities of our young riders on Sunday.

The Kings County Wheelmen have, I think, acted very unwisely in deciding to run no outside club races, as done heretofore on their programme this year. Their reason for omitting these races this year is unknown to me, but I should naturally surmise that the addition of club races would do much to add to the attendance at a meet. Most assuredly, club members not acquainted with the champions, Tom, Dick, or Harry, would much sooner attend a race meeting where their club members are competing than they would to see perfect strangers, and particularly so if they were new to cycling. At present clubs should always arrange their programmes with an eye to attractiveness for outsiders, as cycling is just at that stage when it is necessary to make race meetings popular. It is true that the Kings County Wheelmen's meeting last season was prolonged late into the evening, but by efficient management that could have been averted. While it is, no doubt, too late now to include either the Long Island or Brooklyn club races on the programme should these clubs even so desire, it might be well for tournament management to display some amount of discretion, and where it is possible add an outside club event or two, not too many, of course, as that might prove monotonous, to their meetings.

"TREE"

A WHEEL INTO THE INDIAN COUNTRY, NO. 5.

BY C. W NORTHROP.

OFF FOR PINE RIDGE.

AFTER dinner we bid good bye to our friends at the Agency, and with many hearty wishes for a safe journey to Pine Ridge, wheel away westward. Again we find the road a perfect one, and spin along up and down the grades, overhauling many wagons laden down with beef from the issue. For two hours we ride at a ten mile gait, for our stopping place to-night is a squaw man's, forty miles toward the setting sun; and failing to reach there, we can expect no covering other than that of the blue vault over head. Suddenly the road which has been running due West, turns sharply to the north, and a mile ride on a descending grade brings us to a river ford of considerable width. Our road plan—a rough map kindly made by the inspector—shows forty miles to the first crossing of the White river, which is marked "bridged." Clearly we are off the track, so retracing our way a short distance we take the first road to the right. This seems little travelled, but we follow it for a half hour until it becomes a path, and finally ends in a settlement close by the river. Had we been asked at that time as to the principal products of an Indian village we should have certainly answered "dogs and children," and of these the number is legion. The children follow us at a little distance shouting at the top of their voices, while the dogs, ugly, half-grown little curs, come to closer quarters in their endeavors to reach a portion of our anatomy. Among the older inmates of the village we notice one wearing the blue uniform of the Rosebud police, and from him try to obtain information as to our route, but without success. Either the fellow cannot understand what we wish to learn, or else, is unwilling to air his stock of English, for nothing can be got from him but a few grunts and shakes of the head. Even the offer of a little silver, that "open sesame" to the hearts of many savages, is without effect here, and finally, thoroughly disgusted with this blue coated know nothing, we turn and wheel back toward the agency.

The sun is low on the horizon as we dismount in front of the blacksmith's shop, and an invitation within to a seat close by the forge, is thankfully accepted, for truth to tell, a bicycling costume with knee breeches, long stockings and low shoes, is a trifle airy for this frigid climate. The blacksmith is one of many with whom we talk at the agency who has nothing but good words to say for the noble red man. He speaks especially of the Sioux as superior, both mentally and physically, to any of the other northwestern tribes. If slower to learn and adopt the ways of the whites, it is owing to an intense hatred of constraint rather than to any lack of brains. As an example of the strict rules in force at the agency, the blacksmith tells a little anecdote of two editors who had come up from Valentine the year before, to witness and write up an account of the "beef issue" for their papers. As no liquor is allowed at the agency these gentlemen were careful to bring their pocket flasks with them; and during the evening preceding the issue, started off to paint the agency red. Their hilarity was nipped in the bud, however, by the appearance of a squad of Indian police, who promptly arrested and placed them in confinement. And on the following morning, while the issue was in progress, they were taken South under guard of the same red men to the Nebraska line, and there dismissed with a warning to keep off the reservation hereafter, under penalty of fine and imprisonment. The story is hardly concluded when we are called outside by a half-breed who acts as interpreter for a wily old brave who has a handsome pony he wishes to trade for our bicycle. After considerable palaver another pony is added to the first, and to this price we agree, with the proviso that the buyer will ride his new horse a short distance before taking it away. We feel safe in making this offer and not without reason, for the old fellow is evidently actuated by the feeling common to novices of a lighter color, who prefer learning in secret the mysteries of the steed of steel. Even an offer to help him mount and start away is refused with a decided shake of the head. So the trade is declared off, to our satisfaction and the evident disappointment of many of the onlookers.

A few words here regarding our impression of the Sioux, gathered during three days spent on the reservation, may be of interest to the readers of the BICYCLING WORLD. They are not offered as authority, but only as the views of a careful observer. We found the red men even tempered and intelligent, quick and eager to learn, and evidently appreciating the advantages civilization would be to them. That they are dirty and lazy in a certain sense no one can deny; but living as they do in crowded teepees, cleanliness is the most difficult of the virtues to practice. Their laziness is a matter of education, and being brought up to believe manual labor a disgrace, they are only too ready to apply the epithet "squaw" to white men who marry their women and then go to work. It is the custom of some writers to speak of the Indians as "treacherous looking," but this is as fair as it would be to call all sheep black. We noted faces particularly, and hardly found one that impressed us as disagreeably as many seen among the Italians in our crowded cities. In repose the faces of a majority of the Sioux are dull and stolid, but they can brighten wonderfully under excitement, or when the owner is interested. Many have faces that show intelligence of a high order, and a few we saw, if a little lighter in color might easily have been called noble looking. We were as favorably impressed with the supplies issued by the government to the Indians here as we were with the character of the red men. In a storehouse full of goods we noticed barrels of extra flour and granulated sugar, chests of fragrant tea, and bags of Rio and Java coffee, bales of cotton cloth, with piles of heavy woolen blankets and comfortable clothing, besides many other articles, apparently all of the best that money could buy. We could not but think that many an Eastern man would consider himself fortunate if he could afford equally good food and clothing with that given to the Sioux at the Rosebud Aaency.

(TO BE CONTINUED.)

HANDICAPPING "CUSHIONS."

EDITOR BICYCLING WORLD: The Syracuse Cycling Club were somewhat worked up upon receiving their entry blanks for the Rome races on Memorial Day. It seems that cushions are required to give a handicap of 50 yards per mile, and pneumatics 100 yards per mile. We think that this is putting it on altogether too thick, especially on cushions. Every racing man in the Syracuse Cycling Club (including Fitts) rides a cushion, with the exception of Benjamin, who has a pneumatic, and it is reported that our Rome and Utica friends are somewhat backward, still sticking to their solid tires. Many moons will change, no doubt, before Penn, Hatt, and the rest of the Syracuse racers will give 1000 yards on the 20-mile handicap. As a consequence, unless things are changed somewhat, it is doubtful if the S. C. C. go to Rome in as large numbers as expected.

Your correspondent understands that "Jesse" Eccleston made the Parker House, Cicero, from "Pard" Orton's hotel, a distance of seven miles, in 29 1-2 minutes, and to South Bay in 46 minutes on May 10th, '91. This is good time for solid tires over this road, and in close proximity to Benjamin's pneumatic record.

"SALINA."

THE DETROIT WHEELMEN'S CANADIAN TOUR.

ARRANGEMENTS with the Custom's authorities have been completed whereby the wheels of those joining the Detroit Wheelmen tour through Canada will be checked in at Niagara and out again at Sarina. Bonds will be furnished by the club for the faithful performance of all the requirements of the Custom House, and the riders will be subject to no annoying delays generally experienced by wheelmen not familiar with the Custom's rules. Many riders who attempted to ride through Canada last year will appreciate these arrangements. All persons wishing to join this tour will do well to send in their names as soon as possible, as only a limited number can be accommodated. For full particulars address C. H. Smith, 211 Putnam avenue, Detroit, Mich.

"JASPER."

THE ATHLETIC MEETING IN BUFFALO, N. Y.

THE tournament of the Iroquois Athletic Club of Buffalo, June 15, 16, 17, will include a splendid programme of all branches of sport, and the prizes will be A1 in every respect.

The special committee, appointed to take charge of the 50-mile Road Race, which will be one of the features of the out-door championship games in June, met at the Ramblers' rooms and made final arrangements.

It was decided that the course be as follows: Start to be made on the 1-2 mile track at the driving park, and after one lap to take Humboldt Parkway to parade grounds; thence to Fillmore avenue; down Fillmore avenue to Best street; thence to city line; thence by Batavia Road to Corfu. The turn to be made at Corfu Hotel, and returning by the same route and finish on the mile track at the driving park. It will be a handi-

THOSE BEARINGS and . . . .

THAT SMALL FRONT WHEEL!

HOW THEY DO ASSERT THEMSELVES.

POUGHKEEPSIE, N. Y., April 15, 1891.

* * * My Rambler to-day ran away from a ——— , coasting as if someone had pushed my machine. Was it the cushioned tire or is it the bearings?

I find the Rambler easier to ride without hands than any safety I ever mounted; the steering is beautiful. It has almost destroyed my love for a high wheel.

Yours truly,

THEO. W. ROBERTS.

(L. A. W. member since 1883.)

cap race, and open to all recognized amateurs. Cushioned and solid tired wheels will be on an equal basis, but the penalty for pneumatic-tired wheels will not be decided upon until after the Pullman-Millburn races, which will take place on Decoration Day.

The entrance fee in the athletic and wheel events will be 50 cents for each entry, and for the base-ball, foot-ball, and lacrosse contests, and four-oared rowing races, the figure will be $2.50.

"JASPER."

THE PIKE COUNTY (MO.) TOUR.

THE downpour of rain on the day before the tour unfortunately kept many from attending the Pike County tour, May 3d. Had these men known that the rain was needed to put the roads in the very pink of condition, they would undoubtedly have attended. Sunday, May 3, opened clear and bright; after a 7 o'clock breakfast at Louisiana came the photograph. Then the ride to Clarksville, with 107 men in line, was started. Jacksonville had 37 men in line and St. Louis 23, the balance scattering. The total, 107, is the largest attendance on record. After the town was cleared the roads were found to be superb, and the riders gave vent to their joy by cheers.

A halt for refreshments was made at the Dover toll gate, and then 54 of the 107 started for a ride round the belt road. Clarksville was reached in due time without accident, and, after a most excellent lunch provided by the Clarksville riders, the return trip to Louisiana was commenced. Promptly at 3 P. M. the road race was started. Tom Graham was sent along at 3 P. M. Then followed Ray Tidd, handicap 1m. 25s.; J. H. Borgess, handicap 1m. 20s.; Geo. Tivy, handicap 50s.; Will Cox, handicap 45s.; R. M. Milford, handicap 30s.; O. L. Rule, handicap 15s.; and Bert Harding, the local champion, scratch. At the telephone station, three miles from the start, the order was Borgess, first; Tidd, second; Graham, third. Tidd took a bad header at this point and dropped out. Meantime the fast men were coming on with a rush, and three miles further Borgess was passed by Cox, Harding and Milford in the order named. Harding and Milford made every effort to head Cox, but the best they could do was not sufficient and they finished, Cox, first; Harding, second; Milford, third, not ten feet apart, the time being 33m. 22s. Actual time, Cox, 32m. 7s.; Harding, 31m. 50s.; Milford, 31m. 50s. The balance of the afternoon was spent in making short runs through the city and to points near by. The smoker occupied the early part of the evening and the prizes were presented by Mr. Fleming of Louisiana. The genial Dr. Birkhead then came forward with a proposition of the Louisiana Fair Directors to give several hundred dollars' worth of prizes for a track race meeting to be held at Louisiana later in the season. Messrs. Sheridan and Holm were appointed a committee on dates and arrangements. Three rousing cheers were then given for the citizens of Louisiana for their great liberality in providing prizes as well as entertainment for the tourists, and the meeting adjourned and the tour was ended.

"LINNEUS."

THE BOSTON ROAD RACING CLUB.

SIX clubs in the Boston riding district have formed a road racing association. The clubs are Charlestown Rovers, Cambridgeport, Hyde Park Ramblers, Waltham Cycle and Medford. The first race will be June 27, and the course will probably be the same as issued by the B. A. A. C. Clubs can enter as many men as they desire, and the club getting three men nearest the first will win the cup which will become its permanent property. Medals will also be awarded to first, second and third. For further information address Mr. Geo. H. Perry, Secretary Medford Cycle Club, Medford, Mass.

THE WHEELMEN'S RACING LEAGUE.

The new Wheelmen's Racing League, formed of clubs of the Metropolitan District, has elected H. C. Raymond, of the Brooklyn Bicycle Club, President, and G. M. Nisbett, Treasurer and Secretary of the association. The first race will be held over the Milburn course on June 6.

RACING AT SYRACUSE, N. Y.

THE 15-mile handicap road race of the Syracuse, (N. Y.) Cycling Club took place last week Thursday. Dr. G. E. Nearing with a handicap of ten minutes won the race in 1h. 8m. 30s. Geo. Penn, the scratch man, finished second in 1h. 10s.; Fred Penn third, handicap 7m. in 1h. 9m. 3s.

ROAD RACE AT ST. LOUIS.

EVERYTHING is in readiness for the holding of our first annual Forest Park road race on Saturday, (23), and it promises in time to become the classic event for this part of the country. The course covers the best gravel roads in the park, and is 3.56 miles long. Contestants will have to make the circuit five times to cover the requisite 17 1-2 miles. At a recent meeting it was decided to make the race open to all amateurs; to place cushion and solid tired machines on the same basis; to penalize pneumatics three minutes, and not to allow pace making. The Prize Committee have made the following selection of prizes: First, gold watch; second, diamond scarf pin; third, sterling silver watch; fourth, mantel clock; fifth, silver headed silk umbrella, and sixth, pair of riding shoes. The entry fee has been placed at $1, and all entries close with Geo. Wilder, 1724 Olive street at six P. M., May 18. No event that has been given here in the spring has claimed so much of the riders' attention as this, and at least twenty of our local cracks are in hard training for it. In addition to the prizes named, the Track Association will give a gold medal costing not less that $30 to the rider making the fastest time.

Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

The Renewal Season.

The renewal season is now open, and we are ready to receive the annual dues of members.

We have opened the books for 1891-2, and applicants for membership may now send $2 and they will be put upon the roll for the year ending April 30, 1892.

All memberships expire April 30, and must be renewed before July 1st.

We publish a renewal blank which we hope will be universally used. A blank of this kind is more satisfactory for filing than a notice of renewal written in letter form. If a member has no blank and does not care to mutilate his paper, he will oblige us by sending renewal on paper the size of the blank and made out after the same form. The same applies when two or more names are sent.

Every League club has been supplied with sheets to send renewals on, and also a renewal of the club. Since many non-League clubs send in lists of names, a list of names is no indication that a League club renews its membership, and we must have the regular certificate of renewal as per blank furnished every club before we can issue our certificate of membership.

Club Secretaries will be supplied with renewal sheets for club lists on application.

Consuls, Agents, Club Officers, etc., who desire renewal or application blanks should procure them of the Secretary-Treasurers of their respective Divisions. See addresses in BULLETIN.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniforms. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Connecticut.

A meeting of the Board of Officers of this Division was held in the parlors of the New Haven Bicycle Club, New Haven, Thursday evening, May 7, 1891.

Meeting was called to order by Chief Consul Dean at 8.30 o'clock, and the following members responded to roll call: Chief Consul A. A. Dean, Vice Consul A. G. Fisher, Secretary-Treasurer E. A. DeBlois, Representatives L. C. Graves, Joseph Goodman, Henry Goodman, D. J. Post, L. A. Miller, Fred Atwater, C. Latham, C. E. Remer, W. T. Eastwood, F. Thompson, G. F. Booth, H. W. Huke, F. H. Cryzier, H. H. Chapman, C. L. Burdett, J. Knous, A. L. Allen, A. L. Ulrich, C. W. King and P. W. Westlake.

Minutes of last meeting were read and accepted.

On motion it was voted to appropriate a sum not exceeding $250, to be expended in entertaining Division members at New Haven on the occasion of our spring meet, June 8th, and the Chief Consul was given power to appoint a committee of five, consisting of three members of the New Haven Bicycle Club, one Rover Club member, and one unattached League member, who should take charge of and disburse this amount to the best advantage of the members at large.

It was also voted to accept an invitation from the Hartford Wheel Club to hold the Fall meeting of the Division at Hartford, September 7 and 8th.

Mr. Calhoun Latham, Chairman of the Rules Committee, presented for discussion draft of a new Constitution which, with several amendments recommended by the Board, will be introduced for adoption at the next meeting of the Division.

The Chief Consul was then empowered to appoint a committee of three to make all arrangements for transporting Division members to the National meeting at Detroit July 16, 17 and 18 with power to expend a sum not exceeding $50.

Mr. Henry Goodman, Chairman of the Racing Board, reported that they had established the following State Championships: Quarter, half and one mile ordinary; quarter, half and one mile safety; and one mile tandem safety.

It was then voted that the Rights and Privileges Committee assisted by Division Attorney be instructed to present to Board of Officers a draft of a suitable offer stating conditions under which a reward will be paid for the detection of and bringing to justice of a thief who steals a member's wheel.

As no further business was presented the meeting adjourned at 10.30 o'clock.

EDWARD A. DEBLOIS, Sec.-Treas.

Connecticut.

The Division Board of Officers having made a suitable appropriation of money for entertainment of League members on the occasion of the Tournament of the New Haven Bicycle Club in New Haven, June 8, I hereby announce a spring meet of the Conn. Division in connection with the Annual Business Meeting of the Division at above place and date.

Members will find it to their advantage to be present on this occasion. Important business is to be transacted; and this means you are to transact business as a part of your right and duty in the government of the Division. Interesting reports will be read, and it is intended to so *hold* every one that none will care to "leave the building."

The interlinking and firmer welding of friendships; the zest which comes of increased knowledge of, and participancy in the affairs of the L. A. W. will more than pay any member, to say nothing of "good times" enjoyed by the individual, or of the polish in general wheeling matters which comes of this rubbing together of kindred loves. Get there on the early train.

ARTHUR ALLEN DEAN, Chief Consul.

Danielsonville, May 9, 1891.

Connecticut Division.

I hereby officially announce appointment of a special committee which will take charge of the Division's interest in the Spring Meet of the Div. at New Haven, June 8, this year.

The committee: Frank Thompson, chairman; A. G. Fisher, C. E. Larom, Geo. F. Booth, Wm. L. Cooper.

As instructed by Board of Officers.

ARTHUR ALLEN DEAN,
Danielsonville, May 9, 1891. Chief Consul.

Connecticut Will Be There.

The transportation committee of the Connecticut Division L. A. W. is arranging for special rates and accommodations for all Connecticut League members who wish to attend the National Meet of the L. A. W. at Detroit, Mich., July 16, 17, and 18, 1891.

Full particulars in regard to above will be announced in THE BULLETIN as soon as arrangements have been completed.

Respectfully yours, E. B. BEERS,
Chairman Comm. Conn. Div.

New Haven, Conn., April 24th, 1891.

Ohio Consul.

Toledo—H. L. Hahn, care of Spitzer & Co.

WILLIAM D. KEMPTON, Sec.-Treas.

Cincinnati O., May 8.

Ohio.

To the Members:

Seventy-eight new members during April is doing well, but forty-five new members during the first week in May is doing much better. That is the kind of work that tells. What we want to do is to keep up the good work. We want to make it so uncomfortable for every wheelman who is not a member of the L. A. W. that he will be compelled to join for the sake of peace.

Do not forget to renew! We want all the old members to renew so that we will have a "dead sure thing" on getting two thousand members before Christmas. Fraternally,

M. A. HIGH, Chief Consul.

Cincinnati, May 8, 1891.

Ohio Hotel.

Circleville, Pickaway House. Day, $1.50. Meals or lodging, 40 cents each.

Louisville, Lesh House. Day, $1.25. Meals or lodging, 35 cents. Fraternally,

WM. D. KEMPTON,
Cincinnati, May 6, 1891. Sec.-Treas.

Ohio Consul.

Winton Place—Prof. H. W. Males.

Fraternally, WM. D. KEMPTON,
Cincinnati, April 30, 1891. Sec.-Treas.

Missouri Wants 475 Renewals.

To Consuls and Members:]

There are still a number of people in the 19th century who have never heard of Julius Cæsar, Alexander the Great, and many other heroes of history, and this is also the case, no doubt, with a great many cyclists who have not heard of our organization. We have just issued a 10-page Recruiting Pamphlet replete with interesting matter for the benefit of these people. A copy will soon be mailed to every member of this Division, and if he will take the little trouble necessary to show it to one of his wheeling friends who is not a member, and thus secure his application, the mission of the little work will be most acceptably filled. In addition to the pamphlet the envelope will contain a renewal blank which every one of the Division's 475 members who have to renew should fill out promptly and mail to Secretary Bassett. We can't afford to again lose a large number of members on account of non-renewals as it will place grand old Missouri so far back in the procession of progress that she won't be in the race at all. Renewals can be left at D. Snitzer's 1118 Olive street, representative M. J. Gilbert, 205 N. 4th street, and with Representative W. P. Laing, 1924 Olive street. Don't fail to renew promptly.

Fraternally yours, RON'T. HOLM,
St. Louis, May 2, 1891. Chief Consul.

Missouri Division.

I have appointed the following hotels:

Marionville—Metropolitan. L. A. W. rate $1.00 per day; meals and lodging, 25 cents.

Chillicothe—The Henrietta. L. A. W. rate $1.70 per day; meals and lodging, 50 cents.

Macon City—The Palace Hotel. L. A. W. rate $2.00 per day; meals and lodging, 50 cents.

Fraternally yours, RON'T HOLM,
May 7, 1891. Chief Consul.

Wisconsin Division.

Members of this Division are requested to send in their renewals as soon as possible. Do not put off 'till the morrow what can be done to-day.

Members and all bicycle riders in the Michigan Peninsula are cordially invited to join the Wisconsin Division.

Such riders are practically cut off from their own State, as a look at the map will show, and can only enjoy advantages of membership by joining our Division. We have our annual meet at Green Bay in July, and would like to see every bicycle rider in Wisconsin and the upper peninsula present. Fraternally,

FRANK J. MORAWETZ,
Milwaukee, May 8, '91. Sec.-Treas.

Massachusetts Division L. A. W.

Spring Meet at Worcester on Decoration Day, May 30, 1891.

See programme in L. A. W. BULLETIN of May 1st, and notify Chairman of Committee if you propose to attend. Fraternally,

ARTHUR W. ROBINSON,
21 Milk street. Chief Consul.

Massachusetts Division L. A. W.

Special Notice to Lady Members:

I have appointed Mrs. N. W. Metcalf, No. 3053 Washington street, Boston, Mass., Division Tailoress for Massachusetts; and she has contracted to furnish Bicycle Suits to Lady Members of the L. A. W. only at the following prices.

1. Blouse waist, plain skirt, and knickerbockers, made of best quality of gray flannel or alpaca, for $8.00.

2. Norfolk waist, trimmed skirt, and knickerbockers, materials as above, $10.00.

3. Tight fitting basque, vest front, trimmed skirt, and knickerbockers, materials as above, $12 to $15.

Caps to match, 75 cents.

Work to be done in first-class manner, and lining and trimmings to be of good quality.

Fraternally yours, ARTHUR W. ROBINSON,
Chief Consul.

Massachusetts Division, L. A. W.

The following consuls have been appointed for localities mentioned.

Hatfield—Fred T. Craig, Shattuck's Gin Works.
Hopkinton—C. E. Claflin.
Winchester—Warner S. Doane, Walnut street.

Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Massachusetts Division L. A. W.

I have appointed the following staff for the morning parade at Worcester on Decoration Day.

Chief of staff—V. C. Geo. A. Perkins.

STAFF.

Ex-Chief Consul Herbert L. Hayes, Cambridge.
A. D. Peck, Boston.
Dr. W. G. Kendall, Boston.
J. S. Dean, Boston.
A. C. Copeland, Worcester.
J. Fred Adams, Haverhill.
C. G. Wells, Roxbury.
I. E. Moultrop, Roxbury.
W. L. Palmer, New Bedford.
W. L. Hathaway, New Bedford.
W. W. Griffin, Lynn.
J. W. Bean, Cambridgeport.
G. H. Kehew, Cambridgeport.
Fred I. Gorton, No. Attleboro.
P. L. Hassenforder, Taunton.
H. M. Farr, Holyoke.
J. S. Lowell, Roxbury.

B. A. Barber, Worcester.
J. L. Blackmer, Medford.
F. H. McKee, No. Adams.
W. J. Emerson, Somerville.
D. E. Miller, Springfield.
F. A. C. Adams, Waltham.
C. M. Platt, Pittsfield.

Fraternally, ARTHUR W. ROBINSON,
Chief Marshal.

Massachusetts Division.

The following committee has been appointed for the annual meet at Cottage City.

A. W. Robinson, Geo. A. Perkins, Abbot Bassett.

Fraternally, A. W. ROBINSON.

Illinois.

At the last regular meeting of the Quincy Bicycle Club, Mr. W. M. Brewster was elected representative to the meeting of board of officers of the Illinois Division, L. A. W. Mr. Frank W. Osborn of this club is an appointed representative. Fraternally, RON'T. B. WHITE,

Quincy, Ill., May 7, 1891. Secretary.

Wheelmen! You Can Reach Detroit.

From New York, Boston, Philadelphia, Baltimore, Albany, Utica, Syracuse, Rochester, Springfield, Lowell, Worcester, and all cities in New York and Massachusetts via Buffalo, take Grand Trunk or Michigan Central Railroad, the Lake Superior transportation line of boats, or the Detroit Wheelmen tour. All cities west of Baltimore and Washington via Pittsburg and Cleveland, thence by Detroit and Cleveland Co.'s boats. From Cincinnati and all points South via C. H. and D. R. R. All cities South and West of St. Louis, Mo., via Wabash and St. Louis or Pacific Railroad. All cities West and Northwest of Chicago via Michigan Central, Wabash, St Louis and Pacific; Chicago and Grand Trunk or the Lake Shore Railroad, also by boat. Canadian wheelmen via Grand Trunk and Canadian Pacific.

DETROIT WHEELMEN.

C. J. Appel.

C. J. Appel of Rochester, N. Y., is hereby suspended from the race track, pending investigation of charges preferred against him for violation of clause a and b of the amateur rule. Amateurs are warned against competing with C. J. Appel.

CHARLES E. RANDALL,
April 30, 1891. Chairman Racing Board.

Official Handicappers.

Mr. Henry Goodman, Drawer 9, Hartford, Conn., has been appointed official handicapper for the New England States.

Mr. F. P. Prial, Box 444, New York City, has been re-appointed official handicapper for New York and New Jersey.

Mr. S. A. Miles, Caxton Bld'g, Chicago, Ill., has been appointed official handicapper for Indiana, Illinois, Michigan, and Wisconsin.

Until further announcements handicappers now in office will continue to act.

CHARLES E. RANDALL,
April 30, 1891. Chairman Racing Board.

The Renewal Season.

The renewal season is now open and will continue till June 30.

We are about five days behind in issuing tickets, and members are asked to patiently await their reception.

Applicants are notified that the Secretary's receipt will pass for a ticket at the Decoration Day meets.

Rhode Island Consuls.

The following Consuls have been appointed:

Apponaug—J. T. Lockwood.

GEO. L. COOKE,
Providence, R. I., May 11, 1891. Chief Consul.

Rhode Island Division Road Maps.

Members are hereby notified that the supply of Road Books is exhausted. At the last meeting of the Division it was voted to issue Road Maps. A contract has been made for these, and each member will receive one as soon as issued; but it will take some time to complete them.

GEO. L. COOKE, Chief Consul.

Rhode Island Division Tailor.

I hereby appoint George Christopher, 379 Broad street, Providence, R. I., Division Tailor. Prices:
Coat, $8.25.
Breeches, $4.75.
Coat and breeches, $12.75.
Vest, $3.25.
Mr. Christopher will visit the following localities to take measurements, for six or more orders in each place: East Greenwich, Newport, Phenix, Wakefield, Warren, Westerly, and Woonsocket.

GEO. L. COOKE,
Providence, R.I., May 12, 1891. Chief Consul.

Tennessee Division L. A. W.

To the Officers of the Tennessee Division:
Walter F. Yates is hereby appointed State Representative, vice Thos. J. Deupree, Jr., resigned.

Tennessee Division L. A. W.

Thomas J. Deupree, Jr., is hereby appointed to fill the unexpired term of Secretary and Treasurer, vice B. A. Patch, resigned.
Mr. Deupree's post office address is 383 Fourth street, Memphis, Tenn. Fraternally yours,

CHARLES J. SCHERER,
May 9th, 1891. Chief Consul.

"Touring Party from Worcester to Boston May 31."

There will be a tour from Worcester to Boston on Sunday, May 31, under the auspices of the Touring Committee Massachusetts Division. It will be divided into two Divisions, one for the "hustlers" starting at 9.30 A. M., sharp, and one for those who wish to take an easy pace, starting at ten A. M., both from the Lincoln House. This will enable the party to be better accommodated at Bailey's, So Natick, for dinner. All intending to participate will please notify the committee on or before Thursday May 28.

H. W. ROBINSON, Chairman,
89 State street, Boston.
J. S. CARTWRIGHT,
239 Columbus avenue, Boston.
A. M. GOOCH,
Newton Centre.

New League Clubs

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:
327—Manchester Wheel Club, Manchester, N. H. H. L. Dodge, Secretary.
328—Columbia Cycle Club, Worcester, Mass. R. G. Smith, Secretary.
329—Rochester Bicycle Club, Rochester, N. Y. B. H. Punnett, Secretary.
330—Vineland Wheelmen, Vineland, N. J. Fred Barnes, Secretary.

Michigan Consul.

Mr. H. J. Ostrander is hereby appointed Local Consul for Calumet, Mich.

A. B. RICHMOND, C. C.
Grand Rapids, Mich., May 2, '91.

Pennsylvania Division.

The Summit Grove House at Bryn Mawr is the League hotel at that place. Rates—meals, 50 cents each; lodging, 50 cents each. Light refreshments may also be had at all times.
The above rates are reduced for League men only, and can be procured only upon presentation of League ticket. SAMUEL A. BOYLE,
Philadelphia, 4 May, 1891. Chief Consul.

Nebraska Local Consul.

Avoca—C. E. Teft. Fraternally,
C. B. NICODEMUS, Sec.-Treas.
Fremont, Neb., May 5, '91.

To Members Touring In Europe—Customs Regulations.

No customs charges are made on machines ridden by cycle tourists in the following countries of Europe, provided the tourists enter these countries awheel, and declare that they intend taking their machines out of the country again with them.
Great Britain, i.e., England, Scotland, Ireland, Wales, and the Channel Islands, etc.
The German Empire, Norway, Denmark, Holland, Belgium, Austria; provided the tourist is riding a cycle, or wearing club uniform if in a railroad train. Otherwise (i.e. in ordinary dress) a duty of $12.50 is levied, returnable on leaving the country, provided the tourist states that he intends taking his machine away with him, and the receipt given him is produced, and the leaden seals attached to his machine are in position.
Sweden: a duty of 15 per cent. is chargeable, but is never exacted.
France: the duty is $24.00 per 200 pounds (100 kilo's), about $10.00 per machine. It is rarely exacted at Dieppe, Boulogne, Havre, Cherbourg, and some other ports of entry. It is always charged at Calais. The cycle, however, must be accompanied by its owner, and must not be expressed beyond the frontier town of entry. If the duty is exacted it will be returned on leaving the country.
If the tourist is leaving France for a short time and intends to again return with his machine, he should apply at the frontier customs house for a *Passavant Descriptif*, which will enable him to return without again paying, on presenting this paper at the frontier station where he may again enter.
Switzerland: The duty is 10 per cent., returnable on leaving the country with wheel.
Portugal: 27 per cent. on entry, returnable on taking the machine away from that country.
Spain: The duty is about $1.00, which the tourist is advised to pay. It is returnable on leaving the country, but it is not worth the trouble entailed.
Italy: Duty about $15.00, returnable, but only after much trouble and delay.
Russia, Greece, and Turkey, no definite information.
No baggage should ever be expressed over a frontier.
Riders taking back with them to the United States English wheels must pay duty on them, unless they can prove that they have been used abroad for one year or more.
Tourists are requested to comply with all customs regulations in force on the Continent of Europe, both for their own convenience and that of all others who may follow them.
Many things may appear strange, and even absurd, in the methods adopted by officials, but these methods must be respected by the tourist if he wishes to travel freely and unrestrictedly.
Passports are most desirable. They are frequently necessary to obtain letters, and are indispensable for artists and photographers.
Finally join the Cyclists Touring Club before leaving the United States by applying to F. W. Weston, Savin Hill, Boston, Mass.

JOSEPH PENNELL,
Foreign Marshal.

Correspondents are reminded that American stamps are of no use to me.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:
"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an intiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."
Tickets will be issued fourteen days after the publication of names.
Candidates will please notice if their names and addresses are correct.
Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.
The application list is closed at 10 A. M. on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100.

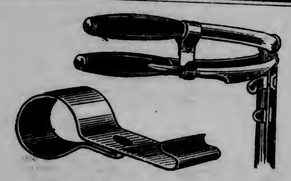
RICH & SAGER, 210 West Main Street, Rochester, N. Y.

SPECIAL NOTICE TO THE TRADE.

The Manchester Cycle Company, Limited,

OF MANCHESTER, ENGLAND.

Have much pleasure in announcing that they have a large stock of the celebrated **"Irwell Safety"** on hand, ready for immediate delivery. Material and workmanship of the best. Guaranteed for twelve months against imperfections of any kind. The **"Irwell"** is the machine so popular in England for touring, on account of its strength, combined with lightness.



The Manchester Cycle Co., Ltd., are very desirous of introducing these wheels into every section of the country, and to do this quickly, and save correspondence, this announcement is made:

The price of the **"Irwell" is *$100*,** the discount to the trade is **25 per cent.** The Company want to sell through the trade only, and therefore will not supply any at retail in any town after an agent is appointed. *However*, until an agent is appointed, sample wheels will be furnished to any applicant at *$75* net, this being the lowest wholesale price. The machines will be crated, and are fitted with Garford saddle, tool-bag, oiler, wrench and bell. Built of Credenda steel tube, drop forgings and ball bearings all over.

After an Agent is appointed in any town, *no more* wheels will be *Retailed* at *Wholesale* prices.

Wheels sent C. O. D., with privilege of examination, on receipt of $10. Guaranteed Superior to most, and equal to any in material, workmanship and finish. Address,

The Manchester Cycle Co., Ltd., of Manchester, England. || American Office, 101 NORTH SEVENTH ST., Philadelphia, Pa., U. S. A.

(Patent Applied For.)

USE THE ACME BRAKE GRIP

And rest your wheel any where without danger of falling. It pays for itself in a day. Over 10,000 in use. In ordering state size of handle bar.

Price, Nickeled, 25c.

S. R. WHITWELL, Great Barrington, Mass.

Liberal Discount to Agents.

$3.00 Per Pair.

$3.00 Per Pair.

It is just like this, we have a good Shoe and guarantee it Kangaroo. We are not afraid to say this, because it is true. There is plenty of higher priced Shoes you can buy, but the above guarantee is generally nix. Send for Catalogue and rules for self measurement. Liberal terms to Agents. Address,

W. B. TOULMIN, 285 Main St., Buffalo, N. Y.

Learn to Ride
BY USING OUR
INSTRUCTION BELT

Price, with instructions for use, $1.25.
ST. LOUIS WHEEL COMPANY,
311 N. 14th St., St. Louis, Mo.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

A high-grade, moderate-priced boy's wheel.

PRICE, $55.00.

The regular bicycle has not yet gone out of use. A good many riders still prefer it to the Safety. They consider it more speedy, more exhilarating, and more delightful in every way. Perhaps you are one of this number. If so, we advise you to ride an Ordinary and ride a good one. And where can you find better than COLUMBIAS? They are the original American wheels, and have won for themselves an unequalled reputation on race track and on roads, across prairies, over mountains, around the world.

Grand Rapids, Mich., March 24, 1891.

Gentlemen—I have ridden my Columbia Expert since May, 1885, with a mileage of nearly 13,000 miles. * * * With new take up sleeves put in the little wheel, and a new tire on the little wheel, it would be fit to start on a tour across the continent or around the world. It is a great satisfaction on a hard tour to ride a wheel that I know won't break down, and that I have so thoroughly proved CAN'T break down.

Yours respectfully,
L. J. BATES,
("President Bates.")

A QUESTION

Has come to us from a source which we are bound to respect. It is this: "Why will you persist in saying damaging things about wire wheels?" Then the writer proceeds to say: "We acknowledge your right to praise your own product to any extent, but it is unfair to cast reflections on the goods turned out by others." This is certainly one of the encouraging "signs of the times," and indicates, as does plenty of other evidence, that the time is not far off when it *would* be improper for us to say naughty things about wire wheels. And when that time comes it would also be *unnecessary*.

Occasionally some imitative individual bobs up and says he is the Messiah. Who cares? No one. Why? You tell.

When Mr. Keely said he could spit in a little cast iron skillet and generate enough "vapor" to run a steamship across the ocean did the makers of steam engines lose any sleep? Certainly not. It isn't what any man *says* that counts, not in the line of machinery at least. When Mr. Carey said a few years ago that he had discovered an antidote for magnetism, people said "let us see it," failing in which, he was laughed at.

When butter was first made from the relatives of the cow on her father's side, it was regarded as a good joke, but when the *quality* of it was improved until it affected the sale of the orthodox article, then the "farmer's alliance" asked to be protected. Who ever heard of a setting hen protesting against an incubator? No more does Jack Frost care how much artificial ice is made. Why? Because the original industry is safe.

Now to the gentleman who asked the above question, for he *is* a gentleman and a friend. You smiled complacently one day in '87, as you said of the writer to a mutual friend, "Oh, he's harmless." I remember trying to argue with you one day at that time, and you said, "No! talk is too cheap, wait and see." Talk is as cheap now as then, possibly cheaper, and if those first wheels *had* gone to pieces, you wouldn't care *how* much we had to say about other kinds.

Bye and bye you will hear of other makers of wooden bicycles. There are always enough people who are willing to stand back and let some one else club the tree (and even express grave doubts as to the result) and who will make a very undignified rush to help pick up the Hickory nuts after they have fallen.

Elliott Hickory Cycle Co.,

Newton, Mass.

P. S—Orders are now being filled promptly for Hickory Wheels, also for catalogues. We make a special discount to those who always believed in the superiority of Hickory and *never* thought metal wheels were best. We also make a discount to men who still think a wire wheel the proper thing, the only condition being that they *prove* it.

SPRINGFIELD ROADSTERS Retailed at 40 per cent. off.

AMERICAN IDEALS at 50 per cent. off.

LIBERAL DISCOUNTS TO THE TRADE.

Having had a large lot of Springfield Roadsters made to our order by the Union Cycle Co. this spring, and having purchased of G. & J. their entire remaining stock of these ever popular American Ideals, we are now selling them at the following prices:

	REGULAR PRICE.	OUR PRICE.		REGULAR PRICE.	OUR PRICE.
30-inch IDEAL, -	$20.00	$10.00	46-inch IDEAL, -	$45.00	$25.00
34 " " - -	25.00	12.00	48 " " - -	50.00	30.00
38 " " - -	30.00	13.50	50 " " -	55.00	35.00
42 " " - -	35.00	17.00			

We carry an immense line of all makes, and sell on easy payments with no extra charge. Catalogue free.

Gentlemen—"For several seasons I have used your Lactart and found it very satisfactory, as a quencher of thirst." Respectfully,

A. P. BENSON, Newton Club.

Union Cycles Win the Race.

Jack and Bill went up the hill,
To try their wheels at coasting;
Bill had said he'd get ahead,
But Bill, you'll see, was boasting.

Jack and Bill came down the hill
Amid derisive laughter.
Jack came down and beat the town;
And Bill, —— came trundling after.

And this is how it occurred:

In my opinion the UNIONS are the easiest running machines on the market. I tested the quality of the spring frame for coasting on my sister's No. 13, with Mr. Johnson on the ——. The little ladies' machine with only 28-in. wheels, 3 4-in. tire on rear wheel and 5-8-in. tire on front wheel, beat the —— fairly. The —— having 30-in. wheels and 1 1-4 in. cushioned tires. I exchanged wheels with him, he taking the UNION and I the ——, and the UNION beat again.

FALL RIVER, MASS., May 6, 1891.

UNION CYCLE MFG. CO.,

Highlandville, Mass.,

Gentlemen—At a coasting contest open to members of the F. R. C. C., in which about fifteen wheels participated last evening, May 5, the result was as follows: L. R. Darling, Secretary of the Club, first on Union No. 10, with cushion tires; second, Mr. Norman Johnson, on Cushion tired——; third, Mr. Samuel Wood, on Cushion tired——. The Union No. 10 won by a good distance.

Yours very truly,

(Signed) F. C. NICHOLS,

The wheels designated by a dash were not UNIONS and not "in it." Great Scott! How they coast.

HANDSOMEST SAFETY MADE.

WHY is the NEW MAIL at $100

The Best Value in the Market at the Price or Anywhere Near It?

BECAUSE IT HAS Cushion Tires which annul jar and vibration, giving life and elasticity to whole wheel, and are to be the Favorite Tires for 1891, and we Warrant Them. Our Cushion Tires are Right and the Best.

BECAUSE IT HAS Tangent Spokes strongly tied and Nickelled to intersections. Stronger and handsomer than direct spokes as used on cheaper wheels. Select Tangent Spokes Always!

BECAUSE IT HAS a Brazed Frame at all joints. Look our and get a Brazed Frame always to stand road wear, and at *every point* of the frame!

BECAUSE IT HAS a Standard Easy Saddle, the Garford, which is a Favorite.

BECAUSE IT HAS the Popular New Mail Shape Handle Bars, low and well back to rider.

Study all these points on examining the wheels in the market and see if you find them in Any Other. The BEST YET!!! If your dealer has not got it ask him to show one before you decide.

EDITORS:

C. W. FOURDRINIER. J. S. DEAN.

BOSTON, 22 MAY, 1891.

THE Chicago *Referee* is amusingly fond of calling attention to our supposed disloyalty to the League, when it cannot find anything else in our columns to criticise. The latest cause for complaint by our worthy Chicago contemporary is our suggestion and hope that now the A. A. U. clubs could not take in members outside its own district, we hoped to see certain New England flyers ride under the colors of the B. A. A. And by the way, while speaking of this new rule of the A. A. U., our attention has been called to the fact which we had overlooked, that the new rule only applies to those who were not already members prior to April 1st. All riders who were members of A. A. U. clubs prior to April 1st, no matter from what district they hailed, can continue to ride under the colors of the club to which they belonged prior to that date.

THE Chicago *Referee* claims to see the handiwork of "at least one member of the Rights and Privileges Committee" in our editorial notes of two weeks ago on the constitutionality of Rule G, but the editor of the *Referee* rather questions the soundness of the conclusions reached by the supposed author of our editorial. The mentioning of the Rights and Privileges Committee in connection with this matter, puts us in mind to respectfully inquire why Chairman Randall of the Racing Board has not referred this matter to the Committee of Rights and Privileges instead of to a lawyer who is not officially connected with the L. A. W.? The Committee of Rights and Privileges is, we should think, the proper one for the Racing Board to appeal to where a question like the present one comes up. It would seem to us to be more in the line of good taste had the Racing Board submitted the question of the constitutionality of Rule G to one of the L. A. W. Committees, and not gone outside to get an opinion. Of course, we cannot deny the right of Mr. Randall or any other member of that Board to get advice from any source he or they may see fit, but we do most respectfully suggest that legal advice is at the service of League members on all matters appertaining to the League and its government, and that to ignore same is liable to be construed as discourteous, though we are free to admit that we believe Mr. Randall and his fellow-members of the Board did not mean any slight.

OUR Chicago contemporary says that the Racing Board in framing Rule G has not made a rule which is "forbidden" by the Constitution. "Forbidden" is not the word to use, Mr. Miles. The words you should have used were "not provided for" or "not authorized." Rule G is not authorized or provided for by the Constitution; it is not in harmony with same, hence it should not stand. The Racing Board met in Chicago May 14th, and amended this Rule G to read:

"A competitor in amateur events shall not accept or receive in any way from his own club or any other club, or from any club promoting sports at which he competes, the amount of his entrance fees, his expenses while in training, his travelling expenses, or expenses of any kind incurred by him as such competitor, unless such club shall first have the special sanction in writing of this Board to make such payments. A violation of this rule shall work a suspension from the track for such time as this Board may determine."

The only difference we can discern in this amended rule and the one printed two weeks ago seems to be that the special naming of the Athletic Clubs is omitted, and the specification of the kind of expenses which clubs are not allowed to pay without sanction of the Racing Board. The rule as amended is practically the same as the original one; and our objections to the first rule as presented, hold good in their application to the rule as amended and as printed above.

ABUSE and personalities are never good arguments, hence we regret exceedingly to notice that some of our contemporaries are pitching into each other in a way not quite in line with the dignity of true and proper argument. It would be strange if our opinion on things always met with universal approval, and to meet our contemporaries in good fair argument is to a certain extent a pleasure, but preserve us from a wordy war in which downright personal abuse forms the chief burden of the song. Strong arguments cannot be carried on without treading on some one's toes, but there is no reason why one should lose his temper. One of the chief points of strength in a boxer is to keep cool. The same rule can be applied to those who enter the arena of argument.

AMONG the papers that come to us complaining of the "price paid" for the Alliance with the A. A. U. is the Providence *Journal*. Let us if we can make perfectly clear the ground on which the suspensions were made and raised.

The Racing Board of 1890 suspended the men on the ground that they had forfeited their amateur status as defined under Article II., section 9 of the Constitution. The Racing Board of 1891 removed the suspensions on the ground that the said Article II., section 9 had *not* been violated by any of the seventeen men. The "price paid," therefore, was simply the "price paid" in justice to the suspended men according to the Constitution of the L. A. W. In the Constitution we find the fundamental reason for our objection to Rule G. This rule is based on the amateur status of a member as defined by the Constitution, if it is based on anything. Its enforcement would deprive a member of certain of his rights on the race track because of his receiving expenses from a club which the Constitution does not forbid. The rule cannot be said to be a "Track Rule," it must be based on the question of the member's standing as an amateur. This being the case the Constitution and the Constitution only, *must* be the only guide. Hence as the amateur status, under the Constitution, of the seventeen men was not effected by the acceptance of expenses from the A. A. U. clubs, the Racing Board in attempting to interfere with the amateur standing of members by making Rule G, is adopting a rule not in harmony with the Constitution.

AN effort is being made to readjust the freight rates on cycles so that in cases when these goods are crated or boxed and knocked down they will be rated as "first class" goods instead of "double first class" as at present. We hope to see the attempt to readjust the rate successful.

THE body of Baron Drais, who invented the original of the bicycle, "the hobby horse," was removed the other day from an obscure resting-place, and given burial among the tombs of illustrious Germans at Carlsruhe. A funeral cortege of about four hundred persons of both sexes, mounted on bicycles of all classes, and wearing the uniform of their respective clubs, followed the body to the grave.

SCAN our fixture column for a list of events to come off May 30.

THE Woonsocket, (R. I.) Wheelmen will hold their second annual tournament on June 6th at Agricultural Park.

THE third annual meet of the Central Pennsylvania Wheelmen will be held at Lewisburgh, May 30. The programme will consist of a hill climbing contest, ten-mile road race over a perfect course, novice races, both ordinary and safety open events, ordinary and safety championships of Central Pennsylvania, championship of Union county, boys' races, fancy riding, street parades, lantern parade, evening sociable, etc.

BUFFALO, N. Y., has a cycle repair firm which has a novel way of advertising by placing the wrecked wheels in parts in the shop window, and upon them a placard bearing this legend, "We fix 'em."

THE Washington Cycle Club of Chicago, Ill., is one of the most wide awake clubs of the country, and in the issuance of its '91 Road Book is an evidence of praiseworthy enterprise. Not only does it contain exhaustive information in relation to the roads of Chicago and vicinity, but it contains many special articles from the pens of such writers as S. Elliott, Hawkshaw and others; hints on touring, repairs, care of wheels, lists of hotels, and a lot of other valuable information. The work is worthy of the Washington Club, and that is the best praise we can give it.

MR. E. C. HODGES of Boston was married last week Tuesday to Ethel Adams Kohler. The wedding took place at the Walnut Avenue Church, Roxbury, Mass. We tender Mr. Hodges our most hearty congratulations.

FOR the 50-mile road race, Buffalo, N. Y., in June there will be three time prizes, and the handicap will be limited to twenty minutes. Several first class prizes will also be disposed of in this race.

WHERE, oh where, shall we go on the 30th of May? A look at the fixtures makes one dizzy in trying to make up one's mind. We take this occasion to thank the many who have so kindly and urgently invited us to be present, but not being ubiquitous we shall have to forego the pleasure of "being everywhere" on Decoration Day.

THE St. Paul (Minn.) Cycle Club elected officers last week Tuesday. After the meeting adjourned the members made a vigorous attack on a fine lunch. Then the members made the air blue with the smoke from "fragrant Havanas."

THE Twin City Wheelmen of St. Paul, Minn., will hold their first annual tournament on May 30. The programme includes a day parade, photograph, banquet, races, lantern parade, and dance. Just think of that for one day's fun. Those Westerners must be made of sterner stuff than we of the effete East. A day's frolic like that would lay out an average man. By the way, we notice among the racing events a one-mile race for girls and boys under 13 years of age. We do not approve of having girls appear on the race track, and especially putting them to the strain of riding a mile as hard as they can.

THE Grand Rapids (Mich.) Wheelmen will hold a 20-miles road race on Decoration Day. Address Perkins & Richmond, Grand Rapids, Mich. The course will be to Plainfield and return.

F. M. BRINKER AND JOHN MILLEY, "two scorchers," have resigned from the Buffalo Bicycle Club. The resignation of Brinker was accepted, while that of Milley was held over for one month.

THE Evansville (Ind.) Cyclers are arranging for a 10-mile road race, to run parallel with the driving track, and a special observation train will be run for the accommodation of those who wish to see the race from start to finish. The date of race was not furnished us.

ON April 14th John Faust of Norristown, Pa., was run into by a "funeral hack," and his machine was demolished and he himself seriously hurt. The driver's name is McCoy, and the hack is owned by livery-man Wilson. The driver is charged with criminal carelessness, and the affair is in the hands of the Pennsylvania Division, which will bring suit for damages.

THE decision of the road officers of the Kings County Wheelmen to the effect that their team in the Wheelmen's Racing League shall be made up from the six men making the best time in the Decoration Day handicap, has had the effect of waking up the members, many of whom would have otherwise remained idle. Owing to the rule of the Racing League, which bars athletic club men from the contests, some of the clubs will, perhaps, be at a temporary disadvantage, but, however, the ruling will have the effect of bringing out new material, of which there is always plenty, and from among whom may come the leader of them all.

THE Orange Wheelmen will give a gold medal to the member attending the greatest number of regular club runs this season, also one to the member riding the greatest number of miles, cyclometer measure.

THE annual tour of the Yonkers (N. Y.) Bicycle Club will start August 1st. The party will train it to Philadelphia, and from thence by wheel on through Coatsville, York, Gettysburg, Hagerstown, Winchester, Newmarket, Staunton, National Bridge, Richmond and Old Point Comfort, returning by boat to New York. The average riding will be sixty miles a day.

THE Brooklyn (N. Y.) Bicycle Club were the guests of the New Haven Bicycle Club last Sunday.

A LARGE party of the Hudson Co. (N. J.) Wheelmen will take a two days' trip in July to Greenwood Lake.

A NEW club has been formed at Vincennes, Ind., with 30 members. The new club will be a League club.

THE Buffalo Bicycle Club will have their sixth annual century run on Decoration Day. Many of the members have signified their intention of making the run.

The Milwaukee (Wis.) Bicycle Club held its annual banquet last week at the Plankington House. The Hon. John Johnstone acted as toastmaster. In one of the speeches it was suggested that the Zouave costume be used by lady cyclists. The speaker thought that anything which would induce women to escape from pianos, fancy work, and close rooms, and spin about on wheels, should be encouraged, even if it did shock the shockable part of the community to see rosy cheeked, bright eyed, stout limbed, healthy women clad in a Zouave uniform a thousand per cent. more modest than many that are worn in society by those who esteem themselves the thick, rich, yellow cream of the highest type of our best circles.

THE Ansonia (Ct.) Wheel Club will hold a "Field Day" June 6, at the Derby driving park. There are 16 events on the programme, covering every branch of athletics. Eight of the events are for the bicycle.

THE official programme of the Massachusetts Division L. A. W. meet at Worcester, May 30th, is out, and members of the Division have no doubt received copies ere this.

THE Wanderers Bicycle Club of Buffalo will on the 20th inaugurate a series of bicycle races for club members only. There are three prizes offered. The distance for this first race will be a little over six miles.

THE Wheelman's Hand Book" of Essex, Co., Mass., has reached its fifth edition. The last edition was issued in 1887, and it has proved one of the most successful books of the kind ever published. It is issued by G. Chinn, 15 Vanderwater street, New York.

WE are in receipt of a fine sample of medalion work by S. D. Childs & Co. of Chicago. The sample sent is an aluminum medal with an exquisitely cut copy of the Grant statue in Chicago. It is one of the finest pieces of work of this class we ever saw.

FRANK E. KLIPPEL of Buffalo, N. Y., on the 10th added another century run to his already long list of long runs, making the eleventh century for him by wheeling from Buffalo to Le Roy (50 miles) and return.

W. J. PACKWOOD AND GUS G. BUSE of the Wanderers of Buffalo, N. Y., on the 15th, made a century run, by wheeling from Buffalo to Le Roy and return. Their actual riding time was eight hours and twenty minutes.

IN all this trouble and discussion about the whys and wherefores of "Rule G" there is no necessity of becoming personal.

THE Manchester (N. H.) Wheel Club organized with charter membership of 26 members. The club voted to join the League.

RECENTLY Mr. J. Deane and F. P. Hines of the Fall Ramblers and A. W. Swan of the New Bedford Cycle Club made long runs. Deane's and Swan's mileage for the day was 135 1-8 miles and Hines' 100 1-8. On the 70th mile Hines fell and broke his machine and hurt his hand. He took train to Providence and met Swan and Deane, then continuing on with them to the finish.

MESSRS. Starr, Mead, Bradley and Macteer will probably represent the Brooklyn, N. Y., Bicycle Club in the inter-club race, June 6.

TO-MORROW, May 23, there will take place the Harvard Cycling Association second annual race meeting. The event promises to be one of the most exciting, and local wheelmen should give the Association a good send off by being present in goodly numbers.

THE Cleveland Wheel Club is having a phenomenal boom this season. Its membership has already increased three hundred per cent. since March 1st, twenty-two new applicants having been elected to membership at the last regular meeting of the club and a number of applications are now on file. As the directors have secured desirable quarters in the Case Building, which they are now furnishing in a neat and comfortable manner, the club will soon have a home of which it may well be proud. A membership of a hundred or more is confidently expected within a short time. The Cleveland Wheel Club intends to become the "banner League club" of Ohio, and the vim and vigor of its members promise to place it pretty close to the head of the procession.

WE are sorry to learn that the grip which attacked our Chicago correspondent, "Wayne Scott," has developed into a case of typhoid fever. We hope to be able to chronicle soon that he is "up and at it" again.

LADIES! look at this. Mr. C. H. Smith writes: "I don't think it is generally understood that ladies are specially invited on the Smith European Tour. This is, however, the case and several are already booked. Our tour is going to be a big success and we are looking forward with pleasure to July 29th, the day we start from New York."

A RECENT estimate of the value of cycling property in the United States places it at $15,000,000.

THE wheelmen of Council Bluffs, Ia., have organized a cycle club and start off with a membership of 30.

THE members of the various committees having charge of the tournament of the Denver Cyclists' Union, to take place May 30 and 31, are hard at work, and the affair promises to be a great success.

THE bicycle races to be given by the Waltham, Mass., Bicycle Club on Decoration Day, promise to be very interesting contests.

MR. GEORGE D. GIDEON has been appointed Official L. A. W. handicapper for Pennsylvania.

THE team race between the Orange Wheelmen and the Business Men's Cycle League will probably occur June 6—distance 25 miles; each club puts up $25, the winner to withdraw its money, expending the balance for medals for the winning team, and also a banner.

THE Pequot Wheelmen is the name of a new cycling club recently formed at New London, Conn.

THE spring meet of the Maine Division of the L. A. W. will be held at Belfast on Memorial Day. The meet was originally to have been here, but the railroad accommodations were so poor it was decided to hold it in Bangor instead. Belfast people, however, took the matter in hand, and have got a special train for the occasion, and now they are O. K., and the wheelmen are making every arrangement to receive visiting wheelmen in a manner befitting the occasion.

BICYCLE riders are forbidden the sidewalk running from Girard avenue bridge to Pennsylvania club house (Phila.) on account of the careless riding.

HENRY T. SWEETING of the Sweeting Cycle Co. has resigned his position as President of the Philadelphia Outing Club.

THE alterations on the New York club house of the Hudson County Wheelmen, at 111 Belmont avenue, Jersey City Heights, will be completed by June 1.

THE ladies' run of the Pennsylvania Bicycle Club on Saturday afternoon was the largest of the season, numbering fourteen ladies and gentlemen. The run was to Ardmore.

MR. W. W. Galey, Secretary of the Columbia Cyclers of Philadelphia, has resigned from the club. He leaves here for Chester where he expects to start in the cycle business.

J. L. KIMBALL won the five-mile road race given by the Eagle Wheelmen of Philadelphia. Time was sixteen minutes. Second, R. P. Rich; time, 17.01.

THE committee having in charge the race meet of the South End Wheelmen of Philadelphia is as follows: C. A. Dimon, Chairman; Gordon Chambers, H. M. Green, W. J. Green, George Caryl and H. S. Pratt.

THE Wissahickon Wheelmen of Germantown, Pa., will hold their second annual century run on Memorial Day from Harrisburg to Germantown, a distance of 104 miles.

THE Brooklyn Bicycle Club will enter a strong team in the inter-club contest of June 6.

THE Poughkeepsie Bicycle Club propose to ride from Poughkeepsie to Rhinebeck and return, a distance of 75 miles, on Decoration Day.

SCHIMMELL of Detroit will enter the Cleveland road race Decoration Day, and Osborn and some of the other Detroit members will go into the Grand Rapids race, the Detroit Wheelmen having postponed their club race till June 6th for that purpose.

THE tour proposed for the members of the Yonkers Bicycle Club for the summer is through the Shenandoah Valley. It is proposed to leave for Philadelphia on August 1, and then wheel by easy stages through the valley to Old Point Comfort, Va., and return by steamer to New York; the trip to take two weeks.

THE Long Island Wheelmen of Brooklyn, N. Y., expect to be well represented at the Hagerstown meet, and will probably make the trip awheel.

THE Harlem Wheelmen are working hard to place an invincible team in the first race of the Wheelmen's Racing League; they have four men in active training now, upon whom they pin their faith, Johnson, Macy, Bryan and Olmsted.

ONE of the races in the schedule of the Columbia club tournament at Charter Oak Park on July 4 will be a one mile race exclusively for reporters. A gold medal will be given to the winner.

A RACE meet will be held at Forepaugh's Park (Phila.) by the South End Wheelmen on the 27th of June.

THE Utica, N. Y., Cycling Club offers a prize to the member who is present at the greatest number of runs during the season.

THE New Orleans Bicycle Club expect to break ground for their new club house about June 1.

THE Hartford, Conn., Wheel Club has a membership of nearly 200.

NINE wheelmen and one lady cyclist were under arrest at Washington, D. C., on the night of May 13 for violation of an ordinance of the District which requires cyclists to carry a light after nightfall.

THE Wanderers Bicycle Club of Buffalo, N. Y., will have a series of road races, including both city and country roads, this season, the first taking place May 23.

THE regular meeting of the Outing Wheelmen (Phila.) was held last week.

A NEW cycling club has been formed at Carbon lale, Pa.

THE cyclists of Attleboro, Mass., are talking up a lantern parade, and if the plan meets with sufficient encouragement will take place soon.

W. WINDLE is the proud owner of the first pneumatic tired ordinary.

THE New York Athletic Club's bicycle team will compete in the Harvard University Cycling Association's race to-morrow.

THE Wissahickon Wheelmen will have a century run from Harrisburg to Philadelphia, arriving there about eight P. M. A lunch will be prepared for them on their arrival in that city.

LAST Sunday the roads in the vicinity of New York, Brooklyn, and Jersey City were filled with cyclers. The New York Bicycle Club took a run to Staten Island. The Riverside Wheelmen went to Dobbs Ferry. Captain Weiner of the Gotham Wheelmen took a large party down to Coney Island. The members of the Harlem Wheelmen rode to Millburn, N. J. Many Brooklyn riders took runs to Coney Island. The Brooklyn club went to Stillwell's. A party of the Long Island Wheelmen took a trip to Plainfield. The Kings County Wheelmen rode to Millburn, N. J., and the Bedford Cycling Club to Hempstead, L. I. In Jersey there was great activity. The Hudson County Wheelmen scorched it to Caldwell, while members of the Orange, Plainfield and Atalanta Wheelmen rode to Milburn.

A NEW club called the Providence (R.I.) Cycling Club has been formed. The club will probably include both sexes in its membership. The club will be devoted exclusively to the increase of interest in cycling and eschew all allurements of the ordinary cycling club house, such as pool, etc.

THE Boston (Mass.) Rovers enjoyed a run to Riverside, Mass., last Sunday. Arriving at 12 o'clock, boating parties were made up, and a row up river was indulged in. Returning to the boat house, lunch was served, when boats were again in order, after which a run home finished a good day's outing. The Rovers will be represented at Worcester, May 30th.

THE Chester and Darby (Pa.) Road Company have started to macadamize the bad stretch of the road between Chester and Darby.

ONE rider who enters in the Irvington-Milburn race has sent in his entry for solid, cushion, and pneumatic wheels, proposing to ride under whichever application may be acted upon most favorably.

WE notice our exchanges are teeming with complaints against the sidewalk riders. It seems a hopeless task to ever be able to impress the riders that this practice does more harm to the cause of cycling than any other one thing.

THE club house of the Hudson County (N.J.) Wheelmen is not yet in condition to hold an entertainment in, but as soon as the repairing is completed, which will be in a few weeks, arrangements will be made for an old-fashioned house warming. Liquor is not sold in, nor allowed to enter the club house of the H. C. W.

THE "lamp ordinance" is being rigidly enforced in Washington, D.C.

THE Secretary is on a regular record-breaking crusade. Up to the beginning of the present year the largest list ever published was 454. The last three lists number 489, 506, 508. The largest single State list was 99. Massachusetts has broken the record three weeks running, 105, 169, 129.

THE Riverside Wheelmen of New York city have perfected arrangements by which in early June they will take possession of a house on W. 104th and the Boulevard. Their new home will be nicely fitted up, and a house warming will take place when all is in readiness.

A FIVE-MILE handicap road race, under the auspices of the Zig Zag Cycling Club of Indianapolis, Ind., will be run on Decoration Day. Three gold medals are offered as prizes, and wheelmen from all over the State are expected to attend. The club hopes by this method to revive the old-time interest in the sport which has lagged somewhat the last few years.

THE Atlantic City Wheelmen will hold their meet on Decoration Day, all rumors to the contrary, notwithstanding.

A NEW cycle club has been formed at Norwich, N. Y., to be known as the Norwich Wheel Club, and starts out with twenty-seven active members.

"SETAGEC," who now claims Detroit as his abiding place, compares Buffalo and Detroit as follows: "Detroit has not the fine asphalt pavements of Buffalo, but will have in time, as there is now nearly ten miles of asphalt laid, while the rest of the pavements here are better than those of Buffalo. There is but little stone pavement in Detroit, the prevailing paving being like Chicago, of creosoted cedar blocks well laid and quite well taken care of. The streets are mostly avenues, (pardon the Hibernianism) that is to say, they are lined with shady trees, and in many cases two hundred feet wide. We have not the beautiful surrounding park systems of Buffalo and Chicago, but we have got a boulevard on three sides of the city, though the city has grown well beyond it."

A. C. BATCHELDER started on the 10th inst. to ride from Boston to Denver, Col. Mr. Batchelder is an experienced wheelman and expects to enjoy a pleasant trip.

THE Columbia Cycle Club and the Washington Jockey Club have made arrangements to give a series of bicycle and trotting races on May 30 at Benning's track. A great deal of interest is being shown by the wheelmen of the district in regard to the bicycle races, and a large number of entries are expected. Prizes to the value of $500 will be given.

THE Brooklyn Bicycle Club will, on Sunday, May 24, pay a visit to the New Haven Club, and both clubs participate in a run to Mansfield's Point, where a banquet will be held.

WE take pleasure in acknowledging receipt of cards for the marriage of Mr. C. H. Sieg, of the C. F. Stokes Co., to Miss Edna M. Bates, also of Chicago. The ceremony will take place June 2d.

IN a description of Detroit "Setagec" says: "The club house of the Detroit Wheelmen is on Washington avenue, which was laid out by the government for the residence of the governor and State judges. The Capital has gone away from the city, but three blocks of this grand boulevard remains, though the business portion which has absorbed part is reaching out for the rest. At one end of Washington avenue is Grand Circus Park, with its fountains and green, a roomy breathing spot for the busy marts of trade to the south and east of it. At the business end of this wide avenue is the Cadillac Hotel, a grand building and a fit monument to the French pioneer of The City of the Straits."

THE Tioga Athletic Association will have a race meet on their grounds at Westmoreland Station (Pa.) on June 9th.

DUTY ON ENGLISH WHEELS.

WE noticed the fact some time ago that unless a foreign made wheel had been used by its owner for a year or more, it could not be passed into this country free of duty. We now have our attention called to the case of a gentleman who took his English wheel to Bermuda from this country and returned a month after with the same wheel. The Custom House authorities in New York charged full duty before they would allow the wheel to pass in. An appeal was made to the Treasury Department, and the Secretary referred the complainant to the National Board of General Appraisers. Appeal was made to the Board, and it sustained the action of the New York Collector.

This seems rather unjust, as the bicycle had already been entered and the duty paid on same by the importer. It seems to us that the Government ought to afford relief in such cases as this providing the traveller registers the number and description of his wheel when leaving the country, so that when he returns the wheel can be entered free as already having paid duty.

HAWKSHAW'S COLUMN.

"CAN I come in?" asked a spirit who had knocked at the gates, to Saint Peter who replied to the summons. "Yes, I suppose so, but you can't bring that racing wheel in here, we don't want any amateur-professional argument started here," answered he of the keys, as he discovered that the applicant carried a racing wheel under his nigh wing.

I had a man argue an hour with me the other evening trying to prove to me that a unicycle ought to beat any other form of wheel on the track because it could never be as long on it as they, and I was such a mutton head I couldn't see the logic of his arguments.

I never ask a young lady the way when I am touring. And why not pray? Because if I do I am sure to be miss-directed.

Now if you hadn't bought that wheel of mine you would not have been able to enjoy the ride we are taking. True! and if you hadn't sold it to me you would still own the worst old bone shaker in this country. True! How fortunate we have been in meeting each other.

Askem—What ever became of Slobsy who started to ride from New York to San Francisco?

Tellyer—When last we heard from him he was somewhere in South Dakota, and it is feared that he may have been killed by hostile Indians.

Askem—Oh, there's no danger of that, Indians never molest an imbecile you know, and even an Indian is aware that no one but an idiot ever undertakes such trips and calls them pleasure tours.

What a balm it must be to the souls of the wind baggers to see the United States Government set aside $300,000 for the purchase of two pneumatic gun carriages.

The expense of cycling, the topic most thought of and least talked of, is in reality the chiefest obstacle in the way of its rapid development in public favor. Non-riders are apt to look at the outlay of money for a bicycle as a total loss, as they fail to consider the compensation of pleasure, the economy of time and labor, and the compound interest of health. And they are apt to underestimate its pecuniary value because they cannot understand the difficulties of mechanical construction in the machine. Their estimate of its value depends in most cases upon some preconceived ideal—anything from a horse to a wheelbarrow—with which they compare it, and if it falls short in this test they do not think it worthy of any other. Whenever a man can be led to comprehend that the worth of a wheel depends not upon its practicability for road travel, its strengthening and invigorating qualities, or its inexhaustible fund of pleasure—not upon any of these alone, but upon all of them—that it combines within itself a variety and abundance of such resource nowhere else to be found, its true worth will dawn upon him.

Care should be taken in the forming of a club that it is not organized, as many are, simply to gratify the ambition of one or two individuals who want to hold office. Such a club at the best can seldom be more than a small clique, and can never be expected to occupy a high position in the wheel world. There is already more than enough of such organizations endeavoring to keep life into their shrunken frames, for any need of additions to the number thereof being made. Important, though, as it is, that a club should be formed upon a sound basis, yet the good management thereof, when formed, is perhaps not less necessary, and this must rest upon the officers. In order that they may do their duty to the satisfaction of the members and for the well-being of the club, they should as far as possible, at club meetings as well as in other ways, consult the feelings and views of the whole body of members. The work and intentions of the officers should not always be kept entirely to themselves. Election to an office does not make a Solomon of a member, despite the belief some club members hold to the contrary; hence, a discussion when occasion offers, on any particular subject, may often assist in coming to a satisfactory decision. Too often it happens that a real good club member is ruined through being elected to office; the position seems to swell his head while it shrinks his brain; he forgets that he is the servant, not the master of the club, and like a pea in a tin pan rattles around, making considerable noise, but doing little else of value to the organization. Verily, it is difficult to warn clubs, and their promoters or supporters, of the many varied and hidden dangers that beset the path of these organizations from their inception to their death or success.

The association of literature with so rigorous an out-of-door sport as cycling, is less inharmonious than might be supposed. Not only are a large number of riders, professional journalists, or possessed of considerable literary taste, but there is a stimulus in the sport itself which must bear fruit. In no other sport, nor in all of the others combined, is there the number of professional men, artists, doctors, lawyers, ministers, professors, etc., that there is in cycling, and these elements demand, and create by their demand, a literature of a higher grade than ever a pastime before secured. In consequence, cycling has had born to it a distinctive literature; this has passed through the primary stages of development, and to-day occupies and fills a position of its own. Whether it will preserve its present character, and whether it will take a more recognized status, are questions that only the future can decide; but there is no doubt that up to the present its growth has been marked by a rapid and creditable progress, and that no writers have a more enthusiastic and appreciative audience than those who are now giving cycling literature the product of their pens. It has often been said: "Show me the friends of a man and I will tell you what he himself is;" so, if you read the journals devoted to a sport, business, profession, or trade, can you at a glance determine the grade of those who are interested in it. Judged by such a standard, and it is a true one, where is there a sport in all the world that compares with cycling? "HAWKSHAW."

THE POLICY OF THE FITCHBURG R. R. COMPARED WITH THE BOSTON & ALBANY.

EDITOR BICYCLING WORLD: A thing that has been ever unintelligible to me is that the New England wheelmen are always ready to favor the railroads that snub them, at the expense of those that favor them. I see that this year the Massachusetts Division meet is to be held on the line of the Boston and Albany road, which is willing enough to carry wheels free at such a time, but charges an exorbitant rate for them on all other occasions. Indeed, at one time its rate was higher than that of any other road in the country. On the other hand the Fitchburg, which gets little recognition from wheelmen, always carries wheels free. I believe if the New England wheelmen had shown a little spirit in this matter and had given evidence that they were able to remember their friends over night, they would now be as well situated as the Buffalo wheelmen, who are not obliged to pay for the carriage of their wheels on any railroad that runs out of their city. Respectfully, FRED. J. SHEPARD.

A WHEEL INTO THE INDIAN COUNTRY, NO. 6.

BY C. W. NORTHROP.

ACROSS THE FRONTIER.

OUR evening is spent in the smaller of the agency stores talking with one of the proprietors, a young man about our own age, who has been at Rosebud two or three years. He is much interested in our bicycle and, as is natural with wheelmen when they have a good listener, we enlarge upon the possibilities of speed and endurance contained in the steel horse. We quote accounts of many century rides, and even tell of our own experience in wheeling 68 miles between Glens Falls, N. Y., and Williamstown, Mass., in seven hours. All this is listened to with attention, but when we have finished our companion tells of an incident so remarkable that we willingly give him the seat of honor and turn listener for the balance of the evening. The feat is that of a young Brule who, on a half broken broncho, rode from Rosebud to Pine Ridge, 125 miles, a portion of the way over an indifferent road between sunrise and sunset of an August day. The story seems hardly credible, but as it is vouched for twice afterwards, and evidently believed by many of the auditors, we see no good reason to doubt its truth. A question asked as to the number of Indians attending the issue, brings out the fact that we have witnessed the largest gathering seen at the agency for more than a year. By actual count 7800 of the Sioux, men, women and children have been in Rosebud to-day. No wonder the whites were invisible in such a crowd, as there is less than a score of them here, and probably not more than half a dozen attended the issue. How easy it would have been on such an occasion for the Indians by concerted action to have wiped out every one not of their own blood as completely as at the Custer massacre, where none were left to tell the story. Before leaving for the hotel it is a comfort to learn we shall have company to-morrow for 20 miles on our way, in the person of a half-breed, in fact the very one who acted as interpreter but a few hours before. The following morning is a cold one even for this altitude. Ice has formed an inch thick, and the sky so intensely blue yesterday is now of the even dull gray tint that betokens an approaching storm. At breakfast we are told that our promised companion has postponed his trip because of the uncertain weather, and we are advised to follow his example. It seems that a week earlier than the present time two years ago Rosebud had been visited by a blizzard that blocked the roads and left the agency snow-bound for a fortnight. To ride 125 miles through an unknown and almost uninhabited country in the face of such chances appears foolhardy. Equally impossible is it to risk being snowed under here for an indefinite period. What can we do? Our bicycle is neither a snow plow nor a sleigh, and if there is one thing we dread encountering more than another it is a fall of snow. Half the morning is spent waiting for a brighter outlook, but to no purpose, and then with a feeling of keen disappointment at the failure to accomplish the last lap of our tour, we turn and start towards home. All day the weather is threatening but it grows warmer slowly, and late in the afternoon a smart shower wets us through and through but clears the atmosphere.

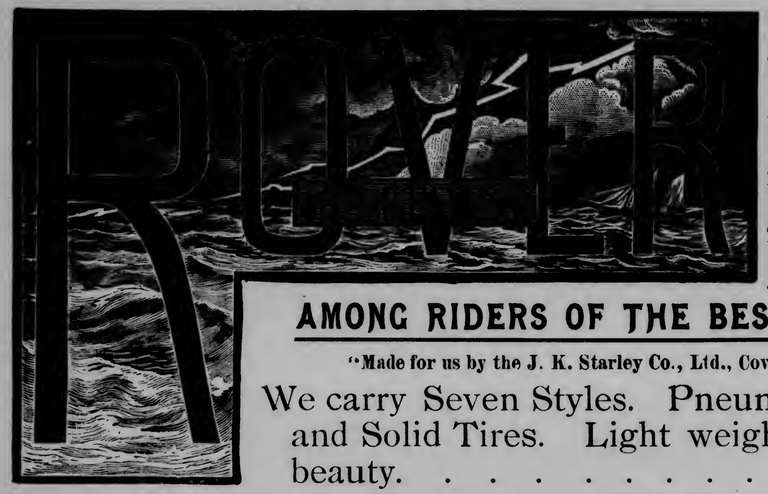
At nightfall we are again on the "old government trail" ten miles east of Fort Niobrara, and nearly 50 from Rosebud. For three days we wheel through the ever narrowing strip of country between the Keya Paha and Niobrara rivers. It is literally a ride through the frontier, for less than a year ago there we not half a dozen settlers in a radius of a hundred miles. To-day we find the country fairly well peopled by a majority of Americans and a few foreigners. One night is passed at Springview, a typical frontier town of only one hundred inhabitatants, yet boasting three hotels, a half dozen saloons and an equal number of eating houses. We had thought the name of the place a pretty one until obliged to draw a bucket from a 130 foot well to get a drink of very poor water. This was nothing, however, to a well at Norden, a few miles further on where we handled 190 feet of rope for the same purpose. After this second experience we no longer wonder that the favorite beverage of the people is "whisky straight." Springview is spoken of as a thriving business "center," but from personal observation we should say the principal business is gambling, and the combined hotels and grog shops the "centers." At the —— house where we stop, all bills appeared to be settled by a throw of the dice. The landlord holds the cup and the dice decide whether the enstomer is to pay a dime for a poor five cent cigar, a dollar for a 50-cent lodging or get them free of cost. In such a crowd a "tenderfoot" is regarded with ill-concealed contempt, and as in our wheeling costume we appear a rather tender specimen of this tender class, we are fortunate in getting away without other damage than a few slashes in the rubber tire of our bicycle.

Early on the fourth day after leaving Rosebud we approach the point of land formed by the junction of the Keya Paha and Niobrara rivers. All the morning we have been hesitating between two possible routes, one over the Indian reservation in South Dakota to Niobrara city, the other through the newly settled country south of the Niobrara river to the town of Running Water. At the last house on "the point" we stop to have a lunch put up against possible need, and at the same time ask a few deciding questions: Which of the two roads is the better and which the shorter route? Is there any place on the reservation to spend the night? Are we liable to encounter any wild animals? All the answers favor the northern route. We can secure a night's lodging 40 miles east, and as to any danger: "Nothing worse than wild cats on the reservation, young man, and they won't hurt you unless you try to run over them with that new fangled machine." This last is said half quizzically, as though our courage is doubted, and we decide at once that it will take something worse than wild cats to frighten us into choosing a poor road, even though it does lead through a civilized country. If we could have looked ahead but a few hours, how different might have been our decision. But we are anticipating. Following directions we ford the Keya Paha, which is 100 yards wide and waist deep here, and then climb the winding path to the "ridge road" on the reservation. We find this of hard clay, and although often rough, furnishing tolerably good wheeling. For the balance of the morning and until the middle of the afternoon we ride along at a fair pace, and then the

THERE ARE SOME THINGS . . .

THAT ARE CONVINCING. . .

The Eagle is one of these things, and it is daily convincing wheelmen that it is the wheel for speed.



What is more convincing than to see a wheel glide past you when you are doing your best in a road race? This has convinced hundreds. There must be speed in a wheel that took the first five and the first ten places in two of the best contested 25 mile races of last season, and that also holds the American road records for 5, 25 and 100 miles. That it is the wheel for touring is F. E. Weaver's tour last season from New Haven to San Francisco, and Mr. Nelson A. Bradt's record this spring of 800 miles in ten days from New York to Chicago.

Our Catalogue costs you nothing and tells you all about the "Bird." You will find it readable and convincing. Send for it.

Sixteenth Year in America.

1876 1891

The First Cycles in the United States

Roxbury, April 24, 1891.

To Singer & Co.,

Dear Sirs:—I have used your 1891 pattern wheel, with the one inch wired tire, and have no hesitation in stating that it gives more satisfaction than any cushion tire that I have ever tried, and as for hill climbing, it is unsurpassed.

Yours truly,
JAMES KELTIE,
Captain Roxbury Bi. Club.

The Largest Cycle Manufactory in the World

SINGER & CO., 6 and 8 BERKELEY STREET and 2 WARREN AVENUE, BOSTON, MASS.

road, which for sometime has shown little travel, comes to an end at a roofless and deserted log cabin. A faint trail leads off to the right, and we follow this down the ridge to an Indian village close by the river. The settlement is of considerable size, and fenced pastures and fields of grain and corn stubble show the owners are becoming partly civilized. A log stable here and there suggests the family cow, so at one of the cabins we stop and ask for a glass of our favorite beverage. This is not forthcoming, but we are invited in and offered a plate of biscuits yellow with saleratus, and a dark looking liquid supposed to be coffee. Too hungry to be fastidious we sit down on a rough bench, and with three of the red men smoking a few feet away and watching our every motion we manage to make out a tolerable lunch. The inquiry as to "how much" there is to pay is replied to by one of the Indians with a nickel shown in the right hand and three fingers of the left.

(TO BE CONTINUED.)

FRENCH HIGHROADS—THEIR CONSTRUCTION AND MAINTENANCE.

BY A. G. COLLINS.

(CONTINUED.)

At every cross road solidly built signboards in metal, painted blue with white lettering, give names and distances to the nearest towns. Whenever the road passes from one department to another a large stone over a yard high gives all the information as to names and distances in each direction. Arrows are always used to indicate the direction upon the signboard, the indicator of which, lettering, arrows, and all, is of one solid metallic casting, so that time and weather cannot efface the directions.

More than this, there are other stones which give distance to frontier of the department, and there are stones to indicate the grade of hills, and to show where the duty of the tow-horses (which are maintained for hire at the foot of steep hills or much travelled roads) may legally end.

On arriving at a village one will always find a regulation blue and white metallic sign upon the first house as he enters the village, upon the last one as he leaves it, and if in the town there is any turning or cross-road likely to lead the travellers astray, the signboard is always on hand and in abundance.

Indeed, I have noticed villages where there were five signboards on the same road within a distance of five hundred yards, although there seemed no possible means of any one getting off the main road by accident.

These village signboards give the name and number of the road; then the name of the village in larger letters, followed by the names of the towns in each direction with arrows and the distance in kilometres and fractions!

In France the signboards don't deceive you, even in parts of a kilometre.

As our suppositious traveller wends his way, he meets every mile or two a man in a blue blouse and a sort of uniform cap with a number on it, at work on the road.

If it be spring time or late winter, the man may be breaking the broken stone still smaller which one sees stacked in mathematically exact piles all along the roads at all seasons of the year. Or he may be sweeping the surface with his enormous broom of twigs, or gathering up the very rare loose pebbles, the droppings, scraps of papers, or anything which may have scattered from passing vehicles. If he be breaking stone, and the day be very hot or very windy, he will probably have up his screen or fence of osiers to shelter him as he works away. An iron rod with a small metallic sign bearing his number, is stuck in the grassy plot near by. He trims the edges of the grass plots with the aid of a line staked down as carefully as any private gardener would do. If he be working at a distance from any town he will have his little sentry-box of a house on wheels near at hand. This is pulled along the road as his work progresses, and in it he sleeps and eats.

Infact, this humble but very competent workman or "cantonnier," as he is called, lives on and belongs to his mile or two of road. His is a life office so long as he does his duty and keeps his road up to the mark. The inspectors who go the rounds continually may visit him at any moment and call him to account. Thus the care of the roads being in the hands of competent men who do nothing else the year round, and who have been specially trained for their work, is in good hands, and the results are what we have shown them to be.

The second class or Departmental Roads connect the large towns of each department with each other and with the national roads. They are somewhat narrower than the first class, but the surface will average almost as good; the kilometre stones and signboards are the same, and in most cases, but not all, they are bordered by the same rows of tall poplars. They are more sinuous than the great roads as they condescend to make a detour in order to pass through the larger towns, even though off their direct line.

We have nothing in America any better than they and few roads as good; the road upon the east bank of the Hudson from Hudson to Poughkeepsie may in good weather serve to give an idea of them, but does not by any means equal them.

The third class, that of "Routes Communales," is the least important, but by far the largest class of French roads.

This class comprises all the smaller town and village roads, except those streets under the municipal direction of towns.

They connect village with village, farm with farm, lead to mills on the river banks, form short cuts from one larger road to another, and in fact run wherever there is a public need for a public road.

They are maintained by and at the expense of the townships or communes in which they lie, under the supervision of government inspectors and engineers.

They traverse forests, climb hills, and wind in and out to accommodate scattered farm houses. They are usually of the width of American country roads, which is to say, they permit two vehicles to pass, without one turning out into the ditch.

They are macadamized and not dirt roads, properly constructed and drained, promptly repaired when necessary, and in surface are usually good, and in many cases excellent.

That their construction is thorough and scientific I can vouch for, as I have more than once seen them made.

Last October, while stopping in a village near Fontainbleau, the road which formed the main street of the village was transformed from a paved to a macadamized way. During the six or eight weeks that the work was under way I was enabled to study and admire the systematic method pursued.

A section of about one thousand feet of this pave was pulled up. The great blocks measuring eight inches square on their top surfaces and implanted in the soil to a depth of about sixteen inches, had been in place since when it is difficult to say. Probably three hundred or more years, perchance twice that time. As they were dislodged by the first party of workmen, a second party set to work to break them into pieces as large as a man's fist. A third squad came after, breaking the stones still smaller to about the size of a hen's egg. This occupied some days, and at the end the road-bed was covered with two feet of this broken stone and was a foot higher than its ancient level.

The curve of the surface was carefully looked to, being high in the middle and low at the sides when paved gutters, cesspools, and curbstones were laid as the work went on.

These ancient paving blocks seemed very soft, and were easily broken (much of them into powder) except on the top, which seemed to have hardened with exposure to the elements.

(TO BE CONTINUED.)

NEW EDITION OF "CYCLING FOR HEALTH AND PLEASURE."

THERE have been four notable contributions to cycling literature made by American wheelmen, each volume unique in its way, and each one in its own peculiar and individual field unapproached by any foreign work. In fact, these works have no rivals in scope, completeness, or practical treatment of their respective subjects. We refer to Pratt's "American Bicycler," published prior to 1880, which was the pioneer handbook and most valuable in its day; to Karl Kron's "Ten Thousand Miles on a Bicycle," a curious and monumental compilation up to about 1886; to Scott's "Cycling Art," a valuable mechanical treatise; and to Porter's "Cycling for Health and Pleasure," the new and revised edition of which is before us.

We noticed this book at some length when it was published last summer, and spoke then in high terms of both the matter and manner of the author. Our favorable opinion of it has been increased by longer acquaintance, and our good opinion has been endorsed by the hundreds of veteran riders who have read it. We would now repeat and emphasize the fact that it is full, intelligible, and thoroughly practical on every subject connected with the use and care of the wheel; that it has many interesting and profitable special discussions; and brings into relief many important points which old riders confess to have overlooked. It also contains a most valuable chapter on "Cycling for Health."

The revisions in this edition are not very numerous. The lady's bicycle is illustrated. Some minor points are noted, and an explanatory note is appended to one chapter. The most important additions are the new articles on tires and vibration in the last chapter. These articles deal carefully and somewhat conservatively with two subjects which have received much attention of late and sum up the matter.

We cannot urge our readers too strongly to read the volume carefully. It is advertised in our columns.

Copyrighted, 1891.

A SUMMER VACATION AWHEEL IN THE HARZ MOUNTAINS.

BY WM. HEYNY, JR.

(CONTINUED.)

LEAVING Treseburg for Blankenburg our road, partly hewn into the solid rock, leads past the "Withelmsblick," then slightly ascending and afterwards affording some excellent coasting through the villages of Wienrode and Kattenstedt.

From afar the ragged range of the "Teufelsmauer" (devil's wall) rocks now looms up; they assume the shape of battling giants, and other curious groups as we draw nearer. One high rock, the last in the row, is said to have resembled King Louis XVIII. of France in profile, and therefore called "Ludwigsfelsen." Observe the sharp outlines while we are leisurely bowling towards it. Passing along the great long line of heavy blocks, packed on top of each other, we dismount at the first and highest cliff, the "Grossvater" (grandfather.) It has an observation platform and flagstaff on the top, and from here we can view the picturesque surroundings, the pretty town crowned by the castle, and in the distance the ruins of Regenstein Castle. Looking back over the top of the Teufelsmauer rocks we have the "Gegensteine" in line with them, also Quedlinburg, Halberstadt, and other towns and villages more to the north. The "Loebbeckenstieg" (L.'s path) affords a very pleasant stroll over the top of the Teufelsmauer, winding through the high cliffs. Wild shrubbery and huckleberry bushes are growing all over the dry and rocky height. On one of the huge rocks we find an inscription in memory of Loebbecke, who built this lovely promenade. Our path continues way down to the "Sautrog" (sow's trough), a deep, dark hollow, at one time the scene of secret tribunals of criminal justice. Then we return to the "Grossvater."

The height below the "Teufelsmaur" cliffs is the wooded "Heidelberg" (from "Heidelbeere," Huckleberry, and not to be confounded with the famous old University.) Here we rest in a charming spot, the hotel "Zum Heidelberg," in midst of the three interesting groups, the "Teufelsmauer" to the left, the "Regenstein" to the right, while ahead and in front of us lies the town and castle of Blankenburg. A stroll through the town is very interesting on account of the many old historical buildings and the military barracks of "Kaserne." The castle is famous as the birthplace of Empress Maria Theresia.

The "Regenstein" is reached after a ride of fifteen minutes over a highway lined on both sides by fine plum trees (oh, what a feast!) Through a little forest we finally ascend to the outer wall, which hides the ruins from view; but on passing under the arched gateway, over which the coat of arms of the Count of Regenstein is chiseled into the keystone, we suddenly have the whole complex of the old battered stronghold before us. Here

are the ruins of the chapel, a few arched windows; there the massive, rocky fortress or castle with its dilapidated tower, and between both a little "Wirthshaus" squatted, with four or five green trees in front of it, a vivid contrast. From the innkeeper we obtain an old, big, rusty key to enter the castle and get a view from the tower.

The "Regenstein" or "Reinstein" is one of the most interesting natural fortifications of early mediæval times. Its traditional founders either made use of existing caverns in the high rock or had them chiseled out, thus rendering a great number of the apartments of this extensive castle indestructible. It was built in 1160 by the Counts of Blankenburg, and, later on, passed over to a collateral lineage. The Counts of Reinstein are prominent in all mediæval battles and feuds, and the legends often mentioned the old tower, the dark apartments and prisons of the rock, in connection with the martial knights of those days. One Count Albert of Reinstein especially was forever fighting and quarrelling with the citizens of Quedlinburg. In 1336 he was captured and kept imprisoned in a strong wooden cage in Quedlinburg for eighteen months. This cage is still shown at the City Hall in Quedlinburg. In the seven-years-war the fortifications were destroyed so far as possible by the Prussians.

At the entrance to a subterranean passage way (to the Blankenburg Castle) an inscription of the year 1090 was discovered recently. Adjoining is a dungeon over 70 feet deep, but the most curious is a well bored through the live rock so deep that you cannot see to the bottom of it. To demonstrate the great depth the guide takes a glass of water. "Listen," he says, then he throws the water into the well. Nearly four seconds elapse before the clashing informs us that the contents of the glass have reached the surface of the water below.

(TO BE CONTINUED.)

MR. WOODCOCK, OF D. RUDGE & CO., DEAD.

THROUGH the courtesy of the Overman Wheel Co., we are advised that they have received a cablegram from England announcing the death, on May 18th, of Mr. Woodcock, the proprietor of D. Rudge & Co.'s works, Coventry. The cable gives the cause as "influenza pneumonia," probably the influenza terminating in pneumonia. Mr. Woodcock was one of the most prominent cycle manufacturers of Coventry, has for many years been connected with the Rudge Co., and has for the past few years been sole proprietor of the company. This company was at one time one of the largest of importers of cycles to this country; but since Messrs. Stoddard, Lovering, & Co. went out of the bicycle business, the Rudge Co.'s business in this country has been practically nothing.

DETROIT LEAGUE MEET NOTES.

"THE Judge," who has so ably discharged the duty of correspondent for the WORLD from this city, has asked me to take up the work he has had to lay down, on account of business and lack of time.

The club's genial treasure of a Treasurer W. T. Watson, who has taken upon himself the correspondence work for several weeks past, has also asked me to act as the BICYCLING WORLD'S correspondent. With much pleasure I will again take my place in the WORLD'S columns.

We want lots of things for the coming League meet, and we want all wheelmen, whether members of the League or not, to come.

We want Bassett, poetry, fife, and wife, his cousins, sisters, and friends.

We want all the editors, yea, even Sam Miles and anti-ring rule *Sporting Review* Robbins.

We want Pendragon covered with ribbon badges, and "Hawkshaw" in tights.

We want Brinker, "Zimmy," 'Quilla, Gassler, and by all means both the Vans.

We want Banker Brothers, Murphy Brothers, Wilhelm Brothers, Thorne Brothers, and all other brothers.

In fact we want the earth, and as much else as we can buy, beg, borrow, or steal, for we are going to break the record in League meets.

A number of new ideas will be brought out. Among these will be electric timing of the races.

No programmes of the League meet will be sent out, as has been the case in the past, but instead, each League member coming to the meet will be given a finely gotten up souvenir of the meet, illustrated with sketches of Detroit past and present, with bits from the city's strange history, for Detroit is much older than Boston or Plymouth; in fact, with the exception of one city, Detroit is the oldest in the country, and has been possessed by the French, English and Indians, time and again, and has witnessed many bloody scenes.

"SETAGEC."

THIS IS CORDIAL!!

AT a City Council meeting of Elizabeth, N. J., the following resolution, which was offered by Mr. Campbell, was unanimously adopted:

Resolved, That the City of Elizabeth, through its representatives in Council, desires to extend to the New Jersey Division of the League of American Wheelmen a hearty welcome upon the occasion of the annual meet on the 29th and 30th of May, and

Resolved, That his Honor the Mayor, the President of the Council and the City officials be requested to offer to the members of the New Jersey Division such courtesies as may lie within their power during their stay within the city's limits, and

Resolved, That a copy of these resolutions be transmitted to the New Jersey Division through Messrs. G. Carleton Brown and D. B. Bonnett, committee.

THE RHODE ISLANDERS' VISIT TO BOSTON.

THE next time the Rhode Island Cyclists come to Massachusetts and invite you to join them don't fail to accept if you wish to enjoy a first class time. Especially if you are a lady cyclist you will be shown every attention, and you need not remain at home for lack of an escort. The two Massachusetts ladies who joined the party of May 18th at Mt. Bowdoin for a 17-mile run to Auburndale can testify that the Rhode Island cyclists are gentlemen, and I want to tell you also that they understand the art of being friendly without being familiar.

Capt. Smith and his staff attended us from the time we mounted at Mt. Bowdoin until they saw us safely on the home-bound train.

The roads, the hotel, the dinner all were first class, and we enjoyed the honor of being taken in to dinner by the "Captain."

But don't attempt a "run" with the Rhode Island ladies unless you can *ride*; they know how, and they are in excellent training. They ride up hills by the dozen without dismounting, and they talk about their trips from Providence to Brockton as if the latter was a neighboring town.

This is my first trip since joining the L. A. W., and I enjoyed every bit of it (except when facing the wind), and I hope to enjoy many more.

ONE OF THE MASSACHUSETTS LADIES WHO WAS THERE.

ROUTES.

I NOTICE in the WORLD the route from Washington to Staunton is wanted; having been over this stretch I send it gladly. From Washington to Mechanicsville 22 miles, Damascus 13 miles, New Market 11 miles; where you strike Baltimore pike 8 miles to Frederick; next stop Middletown after crossing Catoctin Mt. 8 miles from Frederick; 4 miles farther is top of South Mountain; from there Hagerstown is 12 miles; next stop Williamsport 6 miles; crossed Potomac River; to Martinsburg next, 14 miles; from there to Winchester 22 miles; Middletown, 12 1-4 miles; Strasburg, 5 miles; Woodstock 11 miles; Mt. Jackson, 13 miles; New Market, 7 miles; Harrisonburg, 18 miles; Willow Spring, 17 miles; Staunton, 8 miles. Road all the way from Washington to Staunton is excellent. I rode from Washington to Winchester in one day. Bike was in good condition.

No. 14073.

Wheelmen in Northeastern Indiana and Northwestern Ohio, will find below a good route to Detroit.

Fort Wayne and Auburn, Ind., via Hicksville, Bryan, West Unity, and Fayette, Ohio, and Morenci, Adrian, Tecumsah, Macon, Saline, Ypsilanti, and Wayne, Mich. Distance from Hicksville, Ohio, 144 miles; via Ann Arbor, Mich., about 155 miles; Defiance, Ohio, via Bryan and above route, about 165 miles.

Will leave Hicksville, Ohio, July 11th, and join Hunt's tour at Ann Arbor, Mich., and tour with them to Detroit.

I want company on the above tour, and will be pleased to hear from any one near here, who contemplates touring to Detroit. W. F. Horton, Hicksville, Ohio.

A CORDIAL INVITATION

Is given to wheelmen in general to partake of the hospitalities of the Grand Rapids, Mich., Bicycle Club on Decoration Day. Chief Consul A. B. Richmond gives a twenty mile road race on that day, and the Grand Rapids Bicycle Club have decided to make it a general Wheel Day, escorting the visitors through the places of interest in the afternoon of Saturday, winding up with a grand ball and supper in the evening. Sunday will be devoted to short runs out of the city to places of interest.

P. S. HUNT, Chairman Entertainment Committee.

PROPOSED BIG PARADE IN BROOKLYN, N. Y.

THE clubs of Brooklyn met last Wednesday night to make arrangements for a big bicycle parade to take place about the 13th of June in Prospect Park. President Dunn has given his support, and the lady riders are enthusiastic. The Park Commissioners have given their promise to do all in their power to make the affair a success. The New York papers have taken up the matter and will keep up the interest. Wheelmen from New York, Jersey, and vicinity, will be on hand in large numbers, and it is expected that at least 1000 wheels will be in line, and from assurances already received there will be not less than 100 ladies in line.

KENTUCKY DIVISION MEET.

THE programme for the meet of Kentucky Division at Louisville, June 26 and 27, is out at last, after many unavoidable delays. It contains thirty-two pages, and is as neatly gotten up as any programme yet seen. There are to be seven races on the first day and ten on the second. Of these, three are for ordinaries and one mixed on the first day, while on the second day three ordinary races and one club mixed race.

No mention is made of tires, but it is understood the Race Committee will penalize pneumatics 80 yards in a mile. Racing wheels will be admitted.

The races will be run by electric light at night, on the new auditorium bicycle track.

THE PROPER THROW FOR LADIES' CYCLES.

EDITOR BICYCLING WORLD: Referring to the article on "Proper Throw for Ladies' Cycles," April 14th, I fail to see Mr. Lewis' *tremendous mechanical mistake*. The short crank and low geared wheel is just as effective as a long crank and high gear It also enables the rider to ascend a hill slower, consequently with less fatigue, as the crank revolves faster and passes the dead centres more quickly. I don't admire long cranks on any wheel.

L. A. W. 9977. ED. WHITTEMORE.
Grand Rapids, Mich.

AT HARTFORD, SEPTEMBER 7TH AND 8TH.

THE Hartford Wheel Club's dates are September 7 (Labor Day) and 8th.

The Wheel Club proposes to have the great Hartford fall event what it always has been—THE tournament of the season.

At Hartford on the same dates will be held the annual fall meet of the Connecticut Division L. A. W.

Tournament Committee: Joseph Goodwin, chairman; L. A. Tracy, treasurer, J. J. Grace, secretary.

THOSE BEARINGS!

"G. & J. BEARINGS ARE NO GOOD"

Writes a gentleman from Colorado, and then he hastens to add, "as muscle producers," and as he rides a Light Champion he ought to know.

"What do you put in them that makes 'em run so easily," writes another (who rides a Rambler,) from Snow Hill, Md.

And these are but two of many. The G. & J. Bearings made a name for themselves at the very beginning, and have remained an easy first ever since. Given a wheel with the G. & J. Automatic aligning bearings, G. & J. spring frame, long steering-head and small front wheel, and it is not to be wondered that to-day the RAMBLER is above the top notch.

Something New in Oils!

Premier Lantern Oil. The Finest Compound for Cycle Lamps ever offered. Brilliant, Clean and Safe. Pint Cans, patent screw top. Price, 50 cents.

Premier Cycle Oil. Especially designed for Cycle Bearings. Pure, smooth, lasting. The best lubricating oil made. Every cycler should use it. 4 oz. cans, with screw nozzle and spring bottom. Price, 25 cts. The trade supplied by the case. Send for quotations.

PREMIER CYCLE COMPANY, 846 Eighth Avenue, New York.

PROGRAMME OF HAGERSTOWN RACES.

JULY 3.

ONE mile novice, ordinary; one mile safety, District of Columbia Division championship; one mile ordinary, Maryland Division championship; half-mile heat race, open, first heat; (first, second and third men to qualify for final.) Half-mile heat race, second heat; one mile ordinary or safety 3.20 class; one mile safety, open; fancy riding; two mile handicap, open, ordinary; one mile ordinary, Third District; one mile team race, bicycle clubs; one mile Virginia Division championship; half-mile safety, Pennsylvania Division championship.

JULY 4.

One mile ordinary, Pennsylvania Division championship; one mile ordinary, District of Columbia Division championship; one mile safety, Maryland Division championship; one mile tandem safety, open; one mile Hagerstown Bicycle Club championship; half-mile heat race, final; trick riding; one mile ordinary championship Hagerstown meet; fatmen's race, Harry Hodgson's race; half-mile ordinary, Pennsylvania Division championship; one mile ordinary, Delaware Division championship; one mile team race, open; one mile safety, Third District.

DETROIT WHEELMEN'S ROAD RACE.

THE handicap fifteen mile road race of the Detroit Wheelmen will be run on Saturday, June 6th, instead of Decoration Day as first announced.

The start will be at Birmingham, an adjoining town fifteen miles away, and the finish will be at the corner of Woodward and Baltimore avenues. It will be open to members of the Detroit Wheelmen only. Those who desire to see the start will go out by train to Birmingham. They can also get back by train in time to see the finish. There will be three or more prizes, besides a time medal. The time medal and first prize will be of gold. Some of the probable starters are Metzger and Schimmel on pneumatic-tired wheels, Osborn on a rational ordinary, Jones, Mackay, Marks and several others on ordinaries, and a number on safeties, both solid and cushion tired. It is almost impossible to pick the winner, as most of the riders are in splendid condition and keep in training.

"SETAGEC."

CENTURY RUN—NEWARK TO PHILADELPHIA.

THE "Century Run" committee had a meeting last Tuesday evening at the club house of the Elizabeth Wheelmen, at which time Capt. Martin of Plainfield and myself reported having ridden over the course, finding the roads in splendid condition; the only bad spots being a stretch of about 1 1-2 miles between New Market and Bound Brook, and the first two miles on Bristol Pike after leaving Trenton. A little rain will make them O. K.

For those returning to New York, the following special rates have been made with the Philadelphia & Reading R. R. for parties of ten or more. Trenton, 68 cents; Elizabeth, $1.52; Newark, $1.64; and New York, $1.80 These tickets will be good only on train specified on ticket, and will be sold by the committee only, and cannot be purchased at railroad ticket offices. Any member of the run having purchased one of these tickets and unable to use it, can have money refunded upon application.

We have secured the entire Continental Hotel in Newark (where all will please report), also the United States and the American House.

The Park Avenue Wheelmen of Philadelphia have secured the Park House, and the New York Bicycle Club will sleep in Orange; the Orange Wheelmen, Cranford Wheelmen, and Atalantas of Newark, will all remain at their own homes, and also take some friends with them.

The Atalanta and Orange Wheelmen both think they have a good chance to secure the prize offered for the largest club represented, while the Brooklyn's, Kings County, and Long Island Wheelmen are all working quietly and confidently.

Capt. Haynes of the Manhattan Athletic Club is sure the "cherry diamond" men will win one prize, while all the New York clubs are sanguine of securing some prize.

This is not a race! and any member or members riding ahead of the pace makers or main body will be considered out of the run, and will not be checked on route. We guarantee to take all who stick by the schedule through to Philadelphia on what will prove to have been the biggest thing of its kind ever gotten up.

There will be twenty lady riders on the run.

The committee adopted a design for a souvenir (silver medal), somewhat similar to those issued last year. They will only be given to those riding the entire distance and will cost $1.25 each.

WALDO E. FULLER, Chairman Committee.

THE COLUMBIA'S TOURNAMENT.

THE chief topic among Hartford Wheelmen is the Columbia Club's big event at Charter Oak Park, July 4, which promises to be one of the most important race meets of the year. Following is the list of races:

One mile safety, 3.20 class, pneumatic barred; one mile safety, City Reporters, pneumatic barred; one mile ordinary, State Championship; one mile safety, handicap; one mile ordinary, handicap; fancy riding; one mile safety, open; one-half mile safety, State championship; one mile ordinary, open; one mile safety, championship of Hartford, pneumatic barred; fancy riding, amateurs; two mile safety, handicap.

THE CLEVELAND WHEEL CLUB'S DECORATION DAY RACE.

FROM present indications the Cleveland Wheel Club's Decoration Day handicap road race will be a pronounced success. Within a week after the announcing of the race some twenty of the racers have entered, while as many more have signified their intention of riding.

The race is open to all amateurs, and as a dozen handsome prizes are offered, the race is bound to be a big one and hotly contested. The limit men will be started at nine o'clok sharp from the new Y. M. C. A. Building corner of Prospect and Erie streets. Don't forget the date, Decoration Day, May 30th, and make your entry promply to J. P. Petty, Box R, Cleveland, Ohio.

TRADE NOTES.

WHO'LL GET IT?

MESSRS. GORMULLY & JEFFERY of Chicago, manufacturers, have written through their manager at Washington, Mr. L. B. Graves, that they have decided to donate a Standard Light American Rambler safety bicycle, value $135, to be contested for in the meet races in this city in July. The liberality of this firm attests their thorough cycling spirit as well as their good feeling for Hagerstown.—*Hagerstown Globe.*

WHAT'S up? A Baltimore correspondent sends us the following: "The movements of business men prominently connected with the cycle industry are full of suggestions at times. One of the best known of this class dropped into the Reinert Hotel at Baltimore last week. A few telegrams were handed out as he registered a little later, and one by one dealers from various parts of the South were ushered up to his room. A popular league official was amongst their number. A quiet talk in vigorous English, a thorough knowledge of the trade and the men in it, a good cigar, make up a combination which, intelligently applied, produce good results. I am looking for something to drop. The name on the register was A. Kennedy-Child, and oh, how quiet he was."

ROUSE, HAZARD & Co., Peoria, Ill., enjoy an immense trade on cycles and sundries, both as retailers and jobbers. They have a large local trade in their own city which is very enthusiastic over the wheel, while their out-of-town trade extends to every State, Territory and Canada.

MR. W. F. DURYEA of the Duryea Jewelry Co. of New York, has been making a business trip through New England in the interests of his firm. Mr. Duryea showed us a fine line of samples of L. A. W. pins and emblems, and he reported having done an excellent business with the trade. He was in Boston for several days.

G. W. SHAMP, a Buffalo, N. Y., mechanic and inventor, has just produced another style of wheel. He has already gotten out two styles of a light convertible tandem, a splendid spring fork, four styles of saddles, new form of solid tire, claimed equal to a cushion tire, a self-oiling chain, and many other bright practical wheel inventions. This last wheel of his is a true diamond frame with 30-inch tangent spoke wheels, Shamp self-oiling chain, Shamp saddle, Shamp bearings, Shamp tires, Shamp hubs, and connecting parts of Shamp castings, which he claims is stronger and better than drop forgings or cast steel. This wheel, all ready for the road, will weigh under 35 pounds and is very strong.

12th Annual Meet of the L. A. W.

DETROIT, MICH., JULY 16, 17, 18, 1891.

Address Chairmen as below at Detroit for information relating to the work of the committees:

Chairmen of Committees:

Reception—C. H. Smith, 211 Putnam avenue; B. J. Holcombe, 222 Woodward ave
Races and Transportation—Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

The Renewal Season.

The renewal season is now open, and we are ready to receive the annual dues of members.

We have opened the books for 1891-2, and applicants for membership may now send $2 and they will be put upon the roll for the year ending April 30, 1892.

All memberships expire April 30, and must be renewed before July 1st.

We publish a renewal blank which we hope will be universally used. A blank of this kind is more satisfactory for filing than a notice of renewal written in letter form. If a member has no blank and does not care to mutilate his paper, he will oblige us by sending renewal on paper the size of the blank and made out after the same form. The same applies when two or more names are sent.

Every League club has been supplied with sheets to send renewals on, and also a renewal of the club. Since many non-League clubs send in lists of names, a list of names is no indication that a League club renews its membership, and we must have the regular certificate of renewal as per blank furnished every club before we can issue our certificate of membership.

Club Secretaries will be supplied with renewal sheets for club lists on application.

Consuls, Agents, Club Officers, etc., who desire renewal or application blanks should procure them of the Secretary-Treasurers of their respective Divisions. See addresses in BULLETIN.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Amendment to General Racing Rules.

At a meeting of the Board held in Chicago May 14th, '91, Messrs. Atwater, Collister, and Randall present, Rule G was amended to read as follows:

Rule G. A competitor in amateur events shall not accept or receive in any way from his own club or any other club, or from any club promoting sports at which he competes, the amount of his entrance fees, his expenses while in training, his travelling expenses, or expenses of any kind incurred by him as such competitor, unless such club shall first have the special sanction in writing of this Board to make such payments.

A violation of this rule shall work a suspension from the track for such time as this Board may determine.

CHARLES E. RANDALL,
May 16, 1891. Chairman Racing Board.

Massachusetts Division.

The annual meet of the Massachusetts Division will be held at Cottage City August 13, 14, 15. A full programme of events will be published later. We hope to welcome friends from all the New England States this year, and we extend an especial invitation to our New York friends to sail across the Sound and revel with us.

A. W. ROBINSON, Chief Consul.

Spring Meet Massachusetts Division, L. A. W.

IMPORTANT.

Wheelmen going to Worcester on the 8.30 train from the B. & A. depot, must notify me *at once*, in order that proper arrangements may be made for the transportation of *wheels*.

Captains of clubs will please notify for their club.

Wheels must be returned (free) on the 6 P. M. train from Worcester.

Tickets are good on any regular train on the 30th and 31st, but wheels will be subject to extra charge except on above specified train.

Applicants for membership in the L. A. W. on or before May 30th, will be furnished with credentials in order that they may enjoy the privileges of accepted members.

Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Massachusetts Division L. A. W.

The following Consuls have been appointed for the localities mentioned:

Milford—Clinton L. Barnard.
Maynard—Crawford Letham.
Bridgewater—Albert Cushman.
Foxboro—F. H. Alden.
Leominster—F. W. Gray.
Arlington—Geo. Freeman.
Winchester—Warren S. Davis.
Middleboro—E. T. P. Jenks.

Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Official Handicappers.

The following official handicappers have been appointed:

District No. 3.—Pennsylvania, Maryland, Delaware, District of Columbia, Virginia, North Carolina and South Carolina.

1. Geo. D. Gideon, 17 North Seventh street, Philadelphia, Pa.

District No. 4.—Tennessee, Alabama, Georgia and Florida.

1. Charles J. Scherer, 211 Main street, Memphis, Tenn.
2. T. L. Ingram, 141-2 Eleventh street, Columbus, Ga.

District No. 5.—Mississippi, Louisiana, Texas and Arkansas.

1. A. M. Hill, 115 Canal street, New Orleans, La.

District No. 6.—Missouri, Kansas and Indian Territory.

1. C. H. Stone, 3129 Franklin avenue, St. Louis, Mo.
2. Geo. M. Wilder, 1724 Olive street, St. Louis, Mo.

1. John T. Huntington, Brush Electric Co., Cleveland, Ohio.
2. M. J. Fleck, No. 332 East Walnut street, Louisville, Ky.

District No. 13.—California and Nevada.

1. Fred Russ Cook, 415 Market street, San Francisco, Cal.
2. H. C. F. Smith, Los Angeles, Cal.

CHARLES E. RANDALL,
May 16, 1891. Chairman Racing Board.

New League Clubs

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:

331—The Bloomington Cycling Association, Bloomington, Ill. L. G. Whitmer, Secretary.
332—Roanoke Cycling Club, Roanoke, Va. Chas. R. Evans, Secretary.
333—Morris County Wheelmen, Rockaway, N. J. H. J. Herbert, Secretary.
334—Roselle Ramblers, Roselle, N. J. Oscar F. Peck, Secretary.

Ohio.

To the Members:

Eighty applications from Ohio in the second week in May. That shows that there is still some spurt left in Ohio. Let some of the localities which have been dormant wake up and do their part. What we want is a general and concerted spurt on the part of every locality in the state. Local Consuls! on you depends a great deal. You are in a position to help us. Go right to work now and get a list of all the wheelmen in your locality, and send it to Dr. Wm. D. Kempton, 53 W. 9th street, Cincinnati. We have some printed matter that ought to be in the hands of every wheelman in the State who is not a League member.

Fraternally, M. A. HIGH,
May 12, 1891. Chief Consul.

Ohio.

T. J. Kirkpatrick has been added to the committee having in charge the amendment of the constitution and by-laws of the Ohio Division.

The Secretary-Treasurer of the Ohio Division still has a few copies of the handbook of the Ohio Division of the edition of 1886 (the last edition issued) which, with the map of Ohio and "addenda," will be sent postpaid to the address of any L. A. W. member on the receipt of fifty cents.

Fraternally, WILLIAM D. KEMPTON,
Cincinnati, May 16, 1891. Sec.-Treas.

Racing Board.

By unanimous vote of the Racing Board Mr. George F. Waldron of Omaha, Neb., has been reinstated as an amateur.

CHARLES E. RANDALL,
Chairman Racing Board.
Chicago, May 12, 1891.

By unanimous vote of the Racing Board Mr. E. M. Mooar of Grand Rapids, Mich., has been reinstated as an amateur.

CHARLES E. RANDALL,
Chairman Racing Board.
Chicago, May 12, 1891.

Maryland Division Racing Board.

Messrs. S. T. Clark, chairman; C. L. Mitchell and H. B. Irwin have been appointed members of the Maryland Division Racing Board.

CHARLES E. RANDALL,
Chairman Racing Board.
Chicago, May 12, 1891.

Rhode Island Division Tailor.

I hereby appoint George Christoph, 379 Broad street, Providence, R. I., Division Tailor. Prices:

Coat, $8.25.
Breeches, $4.75.
Coat and breeches, $12.75.
Vest, $3.25.

Mr. Christoph will visit the following localities to take measurements, for six or more orders in each place: East Greenwich, Newport, Phenix, Wakefield, Warren, Westerly, and Woonsocket.

For cap, shirt and stockings apply to A. G. Spalding & Bros., 241 Broadway, N. Y., L. A. W. outfitters.

GEO. L. COOKE,
Providence, R.I., May 12, 1891. Chief Consul.

Wisconsin Division—Notice.

Following committees are hereby appointed:

Rights and Privileges—Wm. Foster, chairman, Loan and Trust Building; C. H. Keeney, Dr. E. W. Beebe, all of Milwaukee.

Transportation—Chas. Gorton, chairman, Racine Basket Co.; E. D. Wright, H. Van Arsdale, all of Racine.

Road Improvement—G. M. Linderman, chairman; W. F. Grunewald, J. G. Morris, all of Oshkosh.

League Hotel—Commercial House, Plymouth, Wis., $1.20 per day.

All members intending to go to meet at Detroit, or meet at Green Bay, should address Chas. Gorton, Racine, without delay, so that names may be listed in time to secure transportation for self and wheel.

Membership renewals should be in. Local Consuls can secure needed stationery of sec'y-treas., or use bulletin blanks.

Local Consuls will find much new timber to work on for applications for membership. We want 500 Wisconsin League members at the Green Bay meet. Spring oratory is now in order.

Fraternally, W. L. SIMONDS,
May 13, 1891. Chief Consul.

Minnesota Hotels.

I have appointed the following League hotels:

At Anoka—The Commercial Hotel; regular rates, $2.00; L. A. W., $1.50; breakfast or supper, 35 cents; dinner or lodging, 40 cents.

At Hastings—The Bailey House; regular rates, $2.00 and $2.50; L. A. W., $1.50; single meals or lodging, 40 cents.

T. M. STOSSON,
Minneapolis, May 14, 1891. Chief Consul.

Kansas Consuls and Hotels.

The following new Local Consuls have been appointed by me: Harry Johnson, Garnett; M. L. Andrews, Arkansas City; Chas. H. Raltzell, Parsons.

I have also appointed the following League hotels, and issued certificates for same: Interstate Hotel, F. N. Scott; and Mathewson House, Parsons. Regular rate of each $2.50 and $3.00 per day; rate to L. A. W. members, $2.00 each.

CHAS. S. DAVIS,
May 11, '91. Chief Consul.

Kentucky Division Racing Board.

Messrs. Phil. E. Allison, 448 Main street, Louisville, Ky.; Wm. E. Castle, Second and Jefferson streets, Louisville, Ky.; and Chas. M. Hanauer, 163 West Fourth street, Covington, Ky., are appointed members of the Kentucky Division Racing Board, Mr. Allison, Chairman.

CHARLES E. RANDALL,
May 16, 1891. Chairman Racing Board.

Texas Division.

The following Local Consuls have been appointed to date for Districts designated:

No. 1—S. J. VonKoenneritz, Austin.
No. 2.—F. W. Dumble, Houston.
No. 3.—George Bound, Fort Worth.
No. 4. W. B. Truslow, Tyler.
No. 5.—Ed V. Hughes, Greenville.
No. 6.—W. A. Parker, Waco.
No. 7.—C. L. Reierson, San Antonio.

I want a local consul in every place in Texas where there are one or more League members, and in the latter instance would like to have the expression of each member as to his choice of man for the position. We want no drones, but enthusiastic and energetic workers, who will do persistent work in the recruiting line. The increase in membership for this Division has been 150 per cent. since last September, and every week now brings new names.

A great many of those who joined lately came in on the $1.50 rate, and were renewed for another year without any cost to them, as were in fact all who held membership at the close of the League year just passed; each one of you should show your appreciation of this by securing at least one new member during the present year. We can easily have at least 300 members before the first of January next if every man does his duty. Out of thirteen eligible wheelmen Sherman has twelve League members; what is the matter with every other place doing as well? Fraternally,

E. W. HOPE, Chief Consul.
Sherman, Texas, May 13th, 1891.

Renew!—Missouri—Renew!

Renewals are coming in entirely too slow from this Division. Local Consuls are again requested to call on all their resident members *at once* and secure their renewals. We cannot afford to lose a single member. St. Louis members can leave their renewals at the following places, and receipt will be given: Local Consul Wainwright, 1118 Olive street; Representative Laing, 1724 Olive street; Representative M. J. Gilbert, 209 North 4th street. Aid us by renewing promptly.

Fraternally yours, ROHT. HOLM, C. C.
May 16, 1891.

Missouri Appointments.

J. M. Becker, City Hall, St. Louis, is hereby appointed Representative, vice A. C. Woodruff resigned.

F. E. Ives, care Consol. Coal Co., Laclede Bldg., is hereby appointed Chairman of the Touring Committee, vice H. G. Wolzendorf resigned.

A. J. Gregory is appointed Local Consul for Louisiana, Missouri, and vicinity.

Fraternally yours, ROB'T. HOLM,
Chief Consul.

Massachusetts Division, L. A. W.

I hereby appoint the Mellen House the L. A. W. hotel for Fall River. Rates $2.50 to $3 per day; 75 cents for dinner.

Previous appointments are hereby revoked.

Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Missouri's Need is Hustlers.

To Consuls and Members:

In looking over our membership list I find that compared to last year we are falling behind in our recruiting work. In April, 1890, we had 31 ap-

plications; this year we had but 26. You can easily perceive that this will not do, and in order to place our Division inside of the 600 mark by July 1, an average of ten applications per week or forty per month is necessary.

You must be aware of the fact that a good, live, hustling, local consul holds the most important position in the Division as far as recruiting is concerned, and you must realize that if you yourself are inactive it only adds to the general recruiting stagnation. Every local Consul is part of the cog wheel which keeps the Division machinery in running order, and if only one fails to do the duty required of him, the whole Division is thrown out of gear.

Two thousand recruiting pamphlets have been mailed to all riders in the State, and I am sure that personal solicitation will gain us many new members. I therefore make an earnest appeal to every member and officer of this Division to start in and aid in the good work with all the energy you are capable of. If proper support is given us the figures 600 should be left far in the background.

"Act well your part. There all the honor lies."

Fraternally yours, ROB'T. HOLM,
St. Louis, May 16, 1891. Chief Consul.

New York State Division Racing Board.

The State L. A. W. Championships shall be as follows:

1-4 mile, 1-2 mile, and 1 mile, ordinary bicycle.
1-4 mile, 1-2 mile, and 1 mile, safety bicycle, and 1 mile tandem safety bicycle,
to conform with the National L. A. W. Championships.

In addition to the above there will be a 2 mile ordinary, and a 2 mile safety State championship.

The 1-4 mile and the 1-2 mile ordinary, and the 2 mile safety championships have been awarded to the Rome Cyclists' race meet, to be contested at Rome, N. Y., May 30, 1891.

Bicycle clubs and promoters of race meets desiring any of the remaining championships assigned to them should apply as soon as possible to A. B. Barkman, chairman, 241 Broadway, New York. A. B. BARKMAN,
New York, May 18th, 1891. Chairman.

From Foreign Marshal.

In answer to several queries as to European road books and maps, I would like to state, for the benefit of tourists, that the first volume of the Cyclists' Touring Club road books for Great Britain is published to-day. It contains the whole of England south of London, covering about seven thousand miles of riding. The remaining volumes will not be issued for some time. This work is the most thorough and complete that has been issued in England. It is sold to members of the C. T. C. at five shillings. Americans can join the C. T. C. and then obtain this book by applying to F. W. Weston, Savin Hill, Boston, Mass.

Other books are Paterson's—very good (but not originally prepared by or for cyclists); Spencer's, etc., which are on sale in book stores and can be obtained on landing.

Maps.—The best road maps are to be had from Edward Stanford, Cockspur Street, Charing Cross, London, but small local country maps obtainable everywhere, price six pence, are the most useful. These are published by Smith, Letts, Iliffe & Son, *Wheeling*, 152 Fleet Street, etc.

The C. T. C. map for the whole of England is not yet ready.

Guide books, for the whole of Europe, Baedeker & Murray are the best—in fact the only complete ones.

The C. T. C. has published a three-volume road book—The Continental—which covers the whole continent. It contains all the main routes one can want. Many books have been brought out in France. The best is the Guide Itenerarie de France by A. Jacquot, published by the *Velocé Sport* of Bordeaux. But only one volume, that for the Pyrenees, has appeared. This, however, is almost perfect. Price, 5 francs—$1.00.

The most complete yet issued, and very good, is Baroncelli's *Guide Routier du Velocéman* which covers the whole country. His *Guide des Environs de Paris* is most useful, as it gives in an abridged form the information in the former, including direct routes from Calise Dieppe, etc., to Paris, thence to Geneva, etc., just what the tourist wishes. It is published by the author, 18 Rue Roquepine, Paris. Price, 5 francs, $1.00.

The German Cyclists Union publishes a road book which I believe is very good.

There are many road books published by private individuals of more or less importance. The most useful of which is the *Belgian*, published by G. H. Bossut, 30 Rue de Pelican, Blussello. Price, 2 francs, 50 cents.

Government maps are the best in the continent of Europe, but their users are sometimes looked upon by the authorities with suspicion, although they can be freely bought. The best are those of the *Etat Migem*, to be supplemented by the local ones—in France those of the Geographic Joanne are excellent and cost but 10 cents. With membership in the C. T. C., and its road book, good maps, the hand-book of that club and Baedeker's guide book, one should be able to travel as cheaply and much more comfortably and independently than on any personally conducted party.

I cannot help saying that the attractions, both of the roads and scenery of the Black Forest, have been over-rated in some late numbers of the BULLETIN.

JOSEPH PENNELL, Foreign Marshal.
May 9, 1891.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an intiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names and addresses are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M. on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100.

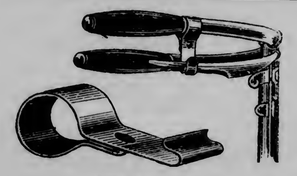
SPECIAL NOTICE TO THE TRADE.

The Manchester Cycle Company, Limited,

OF MANCHESTER, ENGLAND.

Have much pleasure in announcing that they have a large stock of the celebrated **"Irwell Safety"** on hand, ready for immediate delivery. Material and workmanship of the best. Guaranteed for twelve months against imperfections of any kind. The **"Irwell"** is the machine so popular in England for touring, on account of its strength, combined with lightness.



The Manchester Cycle Co., Ltd., are very desirous of introducing these wheels into every section of the country, and to do this quickly, and save correspondence, this announcement is made:

The price of the **"Irwell" is *$100*,** the discount to the trade is **25 per cent.** The Company want to sell through the trade only, and therefore will not supply any at retail in any town after an agent is appointed. *However*, until an agent is appointed, sample wheels will be furnished to any applicant at ***$75*** net, this being the lowest wholesale price. The machines will be crated, and are fitted with Garford saddle, tool-bag, oiler, wrench and bell. Built of Credenda steel tube, drop forgings and ball bearings all over.

After an Agent is appointed in any town, *no more* wheels will be *Retailed* at *Wholesale* prices.

Wheels sent C. O. D., with privilege of examination, on receipt of $10. Guaranteed Superior to most, and equal to any in material, workmanship and finish. Address,

The Manchester Cycle Co., Ltd, of Manchester, England. || American Office, 101 NORTH SEVENTH ST., Philadelphia, Pa., U. S. A.

(Patent Applied For.)

USE THE ACME BRAKE GRIP

And rest your wheel any where without danger of falling. It pays for itself in a day. Over 10,000 in use. In ordering state size of handle bar.

Price, Nickeled, 25c.

Erie Knitting Mills,
Erie, Pa.

Are still making the very best goods for cyclers. We know this, and others are finding it out.

This is a copy of a letter just received from the champion road rider of the United States:

ERIE KNITTING MILLS—
I cheerfully recommend your knit goods for the use of bicyclers, especially hard road-riders, as from my experience with them I have found them well-fitting, elastic and durable as iron.
Yours very truly,
WM. VAN WAGONER.

FRANK FAIRBAIRN, 513 WEST 11TH ST., ERIE, PA.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE
ANTI-STIFF
To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comfortin and stimulating effect on all weak or stiff muscles an sinews. Quick in action, cleanly and pleasant in use Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

OVERMAN WHEEL CO., CHICOPEE FALLS, MASS.

BOSTON. WASHINGTON. DENVER. SAN FRANCISCO.

CONCERNING THE LENGTH (AND THICKNESS) OF "CRANKS."

Did you ever see a person "with a twenty inch arm trying to eat with a thirty inch spoon?" No? But you *have* seen people who were "geared up" about right for a five inch crank trying to use one that was seven inches long.

What would you say of a man who had a number five head (of course a man with a larger head wou'dn't do it) and who should buy a number eight hat and draw it in with a band until he could wear it, and all because he though that *some time* some one with a larger head *might* want to "adjust" it to his size. Of course this is a hypothetical case, for no man with a number eight head would want an adjustable hat.

It doesn't seem to be generally known that the "gear" of a machine (i. e., the distance it will move for each revolution of the cranks) has anything to do with the *length* of the cranks, while it is a fact that these two things depend on each other wholly. There is some particular length of crank that is best adapted to a person having a given length of joints. Just what that length is, even the rider "its self" cannot always tell without some experimenting.

About two years ago there was quite a craze for long cranks and it was a common thing to see riders holding their knees apart to prevent hitting their chins. Excessive knee action is not only tiresome, it is not simply ungraceful, but (especially in the case of ladies) it is *abominable*, and should be prohibited by law. That, and the wearing of a "Mother Hubbard" on the street, ought to be punishable with instant death, and for the second offence something worse, as for instance, being obliged to see themselves as others see them.

No lady should be granted a permit to ride on the streets with cranks longer than five and three quarters inches, and then if she will keep her knees down by using her ankles, (riding of course a Hickory Wheel) much good might result both to herself and to the cause of cycling.

Some one has said "A woman has every right that a man has and one more, viz., the right to be protected." If she wants to insure this right, so far as the remarks of the small boy are concerned, let her sit erect, have her saddle high enough, learn the full benefits of ankle motion, avoid "conspicuosities" in dress and by that strongest defence, modesty, she will go through life, *even on a bicycle*, without exciting other than favorable comment. Remember that when anything outlandish appears, it strikes all about alike. The small boy and the older loafer remark aloud, because of their respective innocence and ignorance, while the gentleman, by a sort of polite hypocrisy, keeps his *real* thoughts to himself, but (don't forget it) he *thinks* them just the same. Lower gear (within reasonable limits) accomplishes precisely what the use of longer cranks does, except that the former tends to comeliness and comfort and the latter to aching and awkwardness.

The cranks on Hickory Bicycles are *not* adjustable, but they are the best average lengths gotten from observing and testing a large number of riders. They (the cranks) are stronger, handsomer, lighter, and better every way than any adjustable crank can be.

We have frequent letters from people who want to exchange their present metal wheel for a Hickory. We are compelled to decline these offers as our conscience would not allow us to offer the wire wheels for sale even on our bargain counter.

Elliott Hickory Cycle Co.,
Newton, Mass.

P. S.—Be wise in time and invest now in that which you would not be tired of next year.

P. S. No. 2.—*HICKORY.*

WHY IS THE PNEUMATIC FAST?

This was asked us some time since, and we replied that it was not, but that it permitted its rider to be fast. Our questioner thought this was a distinction, but could not see any difference. We explained as follows: "Any soft tire requires muscle to compress it, and a portion of the rider's energy is expended in compressing the tire against the road, or in other words the rider of a soft tire is constantly climbing a small hill. Part of the energy so used is stored in the rubber and given out in the form of push against the road just back of the point of contact. At a standstill the amount used in compression and the amount given back are equal, but in motion the amount given back is much less, and if the speed of the cycle be such that the rim leaves the ground as fast as the tire tends to resume its shape, there will be no energy given back. Therefore, the amount of loss depends on the amount of compression, the speed of the cycle, and the liveliness of the rubber, but there is always a loss even at the slowest speed and with the most lively tire, and this loss is what tends to make the pneumatic slow. On the other hand it effectually destroys the paralyzing vibrations found on the smoothest tracks when very small tires are used and permits the rider to use his muscles to the best advantage. His gain in the saving of nervous energy and the consequent better use of his muscles is what enables him to make better time on the pneumatic."

We offer this solution as the correct one of the time made on pneumatic tired bicycles, and simply suggest that a properly constructed spring frame is a better vibration destroyer than any soft tire, and is free from loss through compression. We also offer the Sylph three-part spring frame as perfectly filling the above requirements.

UNION CYCLES WIN THE RACE.

We remember how the Spanish adventurer of bygone days sought in vain for the well spring of perpetual youth, at which he might drink and rise rejuvenated from the ashes of an old mortality. How in this late day an Elixir of Life was supposed to have been discovered. Neither venture proved successful. The Spainard departed this life when his time came, and, less fortunate, the Elixir proved in some cases fatal. Neither venture was successful in its object, although, like the problem of Perpetual Motion, it bore deceptive evidence of being capable of solution. What then? Since we cannot, when once old, become young, let us put off old age until the latest possible moment, by seizing every opportunity for healthful open air recreation.

The best tonic for a broken down constitution is Bicycling. The best style of bicycle for pleasure and speed is the anti-vibratory, with either spring frame or cushion tires. The best spring frame or cushion tired bicycles are UNIONS.

DOCTORS RIDE THEM. **PROFESSORS RIDE THEM.**

MINISTERS RIDE THEM. **EDITORS RIDE THEM.**

They everlastingly "get there" at the races, and are unhesitatingly recommended by Brain, Muscle and the

BOSTON, 29 MAY, 1891.

AN EXPRESSION OF CONFIDENCE.

GEO. P. ROWELL & Co. of New York, the publishers of the American Newspaper Directory, undertake to rate the newspaper circulations very much as the mercantile agencies report the capital and credit of the business community. About one publisher in ten tells his exact issue with truthful precision. Some of the other nine decline to tell the facts because they assert that those who do tell are in the habit of misrepresenting. Rowell & Co., after an experience of more than twenty years, have come to the conclusion that this view cannot be sustained. In the twenty-third annual issue of their book issued in April they designate every paper that is rated in accordance with a detailed statement from the publisher; and offer to pay a hundred dollars for every instance which can be pointed out of a misstatement for which a publisher is responsible. The BICYCLING WORLD AND L. A. W. BULLETIN is one of the papers that is willing to have it known how many it prints and whose good faith the Directory publishers will guarantee.

MUCH comment has been caused by the action of Chief Consul Brown of New Jersey in discouraging the Milburn-Irvington road race, and the gentleman has been rather roundly rated for his attitude. Dr. Brown as a member of the League and a dual official in the organization is consistent in his opposition because the League as a body must discourage road racing as a principle. It is, however, to be said on the other hand that circumstances alter cases, and that there are exceptions to rule which governs one in the opposition to road racing as a general thing. The circumstances and exceptions in this case are the facts that the people and authorities who live on and control the roads over which the race is to take place are heartily in favor of the event. We have always held that wheelmen must be careful and not indulge in this branch of the sport when the consent of the inhabitants along the route of proposed race and the officials who controlled same were withheld. The least opposition shown should be scrupulously regarded by wheelmen, as defiance of the wishes of the public at large, is very likely to result disastrously to the welfare of cycling and impede the progress of the League in its efforts to procure better roads. We do not fear that in consequence of the violation of local laws in using the highways for racing purposes will result in legislation restricting or forbidding the use of the highways to cyclers other than the laws which govern the users of other vehicles. That cannot be done, and the most that can be done is to arrest and fine cyclers for racing and reckless riding precisely the same as though the cycler were a horseman.

THE right to use the highways in common and under the same restrictions as govern other users cannot be taken away from the wheelmen. The danger lies in the fact that prejudice may be aroused by the improper or forbidden use of the highways for racing purposes to the extent of awakening opposition to the efforts wheelmen are making towards Roads Improvement Legislation. There is the danger, and it must not be ignored or belittled.

ONE of the points which is made against Roads Improvement schemes in the Legislatures of the different States is to have some Solon object to the proposed bill on the ground that the scheme is one which comes from "those bicycle fellows who want good roads for the purpose of racing over them." A very foolish and unfounded objection, no doubt, but it is one that carries unreasonable weight with it among those who are willing to see a nuisance in the use of the bicycle, anyway. We cannot afford to put trump cards into the hands of our opponents, as we are playing this game of Roads Improvement for all it is worth, and the time will come when the country at large will acknowledge that the wheelmen are to be thanked for their determined efforts in the direction of getting better roads. The League's attitude therefore must be against road racing as a rule, and which, in such cases as the Irvington-Milburn race, they can afford to ignore it, as the people and the officials want it. The officers of the League cannot officially afford to encourage even such events as the one under discussion, and be consistent and in line with the best interest of the L. A. W.

OF the two, the man who devotes his life to getting the greatest possible enjoyment out of it is wiser than the one who adopts the reverse rule. Some men work because they love it and hate play. They do not shine in society; they have no conversation; the earth and nature are not passing fair to their distorted vision; the frescoed ceiling of their office and its fittings devoted to the mighty dollar, are more attractive to them than the fairest landscapes or bluest skies. They are under the agreeable thrall of no diverting hobbies. In heaven's name, let such men work all through the day, if they like it. They accumulate money, and even though they may be miserly in their lifetime, when they die some one benefits by it. A man of this kind on an enforced holiday is a very compassionable object. We have been told of one such, whose doctor ordered him to take up riding as a means of exercise, and for the freeing of his mind from business cares. He honestly told him that if he did not do so that he would die. The patient obeyed the letter of the injunction but not the spirit. He used to mount his wheel and ride to the nearest road-house where there was a stock "ticker," and there remain absorbed in calculations of what he made or lost as the ever unfolding tape passed through his nerveless hands, with its story of the gambling that it recorded, lettered upon it. The sequel! Oh, yes, he died a little while after, of paralysis of the brain, or something of the kind, due to too much work and too little play.

THE improper filching of the *nom de plume* of well known writers is decidedly bad taste to say the least, and we apply our criticisms to the correspondent in the *Referee* who has taken unto himself the name of the "Stroller." We have it on the best of authority that the "Stroller" of the *Referee* and the "Stroller" of the BICYCLING WORLD are entirely different people, and we hasten to make the *amende honorable* to the gentleman who so ably contributed Chicago notes for this paper under the well known *nom de plume*. The *Referee* contributor can scarcely plead ignorance of the fact that the name had been adopted by another, and we hope in justice to the original "Stroller" and to the WORLD that he will see fit to adopt a *nom de plume* not already selected by another.

RECORD BREAKING has already begun in England on the road and track, and before the season closes we expect to see nearly every, if not every, record stand to the credit of the air tire.

DECORATION DAY opens the racing season in good earnest in this country, and we are a little sorry to find the season open with every indication of trouble ahead caused by the now celebrated Rule G. While we know not for certain we opine muchly that many of the racing men who attended the race meet at Harvard last Saturday had their expenses paid by the athletic clubs they represented, and with the almost certain fact before us that the athletic clubs did not obtain sanction of the L. A. W. Racing Board to pay same we do not see but that the *casus belli* is right

here, in that the L. A. W. Racing Board will have to suspend the athletic club men. So here we are at the very outset of the racing season with a heap o' trouble on our hands.

GREAT BRITAIN has had its little row between the race controlling associations. The N. C. U. of England and the Scottish Cyclists' Union have been having it hot and heavy for the past two years. The N. C. U. objected to the later comer (the S. C. U.) having control over racing in the Land of the Thistle, but after due consideration the N. C. U. has decided to recognize the Scotch organization in its jurisdiction over the Scotch races and cycling matters. Each organization will recognize suspensions as made by the other, and so all is happy and joyous, and the two Unions will pull together. Alas, we wish we could look forward to a like permanent and peacefull solution of our own little difficulty.

THE effects of coca as a sustainer of prolonged physical exertion comes up for discussion again in England, and *Wheeling* has this to say in regard to the matter. Quoting Dr. Mantegazza:

"It stimulates the stomach and assists digestion (an organ frequently deranged by prolonged exertion); in large doses it may produce fever and slight constipation, while in medium doses, which he states at one to four drachms, it stimulates the nervous system, increasing muscular power, rendering it independent of external influences, and inducing a happy state of tranquility, which it confers without any impairment of strength. He further states that he used it himself for two years without any injurious effects; that under its influence he remained for forty hours without requiring food or experiencing any inconvenience or weakness. In short, he recommends it as an antispasmodic for colic, flatulence, diarrhœa, and impaired digestion, etc. He considers that in sustaining nervous forces it is superior to all other known agents. Dr. Weddell also writes of its power of sustaining the strength without other food, questions the accounts given by some writers of its injurious effects, states as the result of daily observation that it did not impair the appetites of the Indians who accompanied him in his travels, chewing it incessantly; but in the evening, if provided with food, they would eat ravenously. Its action on himself he described as confined to producing a slight excitement, and of a character quite different from that produced by all other stimulants, especially alcohol, which is temporary though powerful, while the effect of coca is gentle and sustained—characters which depend much on the form in which it is taken, an infusion of the leaves acting very differently from chewing them. He considers that in moderate doses it has no action on the brain, as tea and coffee have, but its effect is diffused over the nervous system, and affords a support without possessing any true nutritive properties, but quite different from all ordinary stimulants—not injurious, not transient, nor followed by the reaction which attends all other known forms imparting a 'diffused stimulus.'"

ISN'T it pretty strange kind of patriotism which carps at the League management for joining forces with outside influences, and aiding same to bring about any improvement or advantage that the L. A. W. are working for? In union there is strength, and if the League as the King Pin of the movement can strengthen its hand by working in harmony with any outside influences, or aiding same in the cause of Roads Improvement, why in the name of that same "patriotism" should it not do so?

If our "patriotism" is so over-weaningly strong and pompous that it cannot brook the idea of outside influence, then we ought to stop preaching to the farmers, the manufacturers, and the general citizen to use their influence in the matter of procuring beneficial road improvement legislation. It is arrant nonsense to assume that we can do this thing all alone. We must induce outside influences by argument, and money if necessary, to join forces with us. "There are more flies caught with molasses than with vinegar," as the homely phrase goes, and much more good can be done by securing the good-will and co-operation of every possible outside influence by aiding same, whether for racing or Road Improvements, than by antagonizing with vinegary independence.

The League is too large and strong to be belittled by invoking and soliciting outside aid or extending same, but it would become ridiculous by assuming that we are not dependant to a very large degree on whatever co-operation we can secure from outside sources. The League as a nucleus for a powerful joint combination will be a power indeed, but single handed, ignoring and flouting the attempt to secure such combination, it will be comparatively impotent.

"CIRCULATION DON'T COUNT."

HERE is another specimen letter which came to hand the other day:

"WHEELMEN COMPANY:

Gentlemen—For heaven's sake stop my ad. I am flooded with letters. Sold the wheels long ago and supposed the ad. was out. Received 60 letters about this ad. yesterday and several hundred last week. Yours, —"

This isn't a bogus letter, but can be seen together with others which we have on file all "singing the same song."

AN "Entertainment Unique," complimentary to Mr. Charles Hopkins, will take place at Meinaon Hall, Boston, June 16. We are pleased to notice that on this occasion "Mrs. O'Grady" will appear at great expense to the management. It is unnecessary for us to introduce Mrs. Charles F. Hopkins to Boston cyclists as being one of the cleverest amateurs in character sketches in these parts, and the entertainment is bound to be a success artistically and also in point of attendance. We will "enlarge" on the programme to be offered in a later issue.

MESSRS. VAN NOSTRAND of the Queens County (N.Y.) Wheelmen, and Andrews of the Bohemians, start on their White Mountain tour on June 6.

HAY, Hunter, and Koerner of the Zig-zags of Indianapolis, Ind., have been doing some good preparatory riding for the road race on Decoration Day. They have done 34 miles in 2h. 15m. Not bad riding, considering the roads.

SAN JOSE, Cal., has a new club called "The Cyclers." It is a League club.

THE Crescent Cycle Club of Rochester, N.Y., celebrated its first anniversary on the evening of May 22 with a banquet at the Whitcomb House. About 75 persons including invited guests sat down to the tables, and the affair was voted a grand success by all who were present; the club has on its first birthday a membership of 75 and a handsomely furnished club house at 114 Savannah street.

W. S. MALTBY has been engaged to give an exhibition of fancy riding at the Columbia Cycle Club races at Hartford on July 4.

RECENT heavy rains in St. Louis County have done material damage to the roads. Last Wednesday night the large culvert under the Manchester road just east of the town of Manchester gave way under the heavy strain placed upon it, and caused considerable damage to surrounding property.

THE picnic given by the St. Louis Cycling Club was such a pronounced success last year it has been decided to repeat it on May 31 at the romantic Indian Cave. A large number of the lady friends will go down by train, via Cliff Cave station, while the road riders will reach the picnic grounds awheel via the Telegraph road.

M. A. HOLBEIN broke the twelve-hour tricycle road record over the North Road, England, May 7. He made 174 1-2 miles, and he rode a pneumatic tire trike. The best previous, also on a pneumatic, was 164 miles, by G. R. White, September, 1890, also an English record.

CYCLING round the world is getting to be a very common fad. The latest tourist to start around the world on a bicycle is Jacob Bauer, of Louisville, Ky. None of the tourists now started on this trip will stick to the cycle as religiously as did Tom Stevens. They will utilize other means of transportation when the country affords very bad riding or is dangerous. They will not cycle through Persia or Afghanistan, as did the great Stevens.

THE Kentucky Division Racing Board will penalize pneumatics 50 yards in the mile.

J. W. ENGLAND and G. B. Pulver rode from New York to Albany and back in three and a half days.

SUNDAY, May 24, a few members of the Onondaga Cycling Club of Syracuse, N. Y., made a run to Auburn, going by way of Elbridge, and returning through Port Byron, Weedsport and other places, making a distance of about 70 miles.

AT a special meeting of the Missouri Bicycle Club of St. Louis, held last Thursday, 50 of the Missouri Amateur Athletic Club members were admitted to membership in the bicycle club, and at the June meeting a committee will revise the Constitution and By-Laws, and change the name of the organization to the Missouri Bicycle and Athletic Club. The consummation of this deal makes the early establishment of fine athletic grounds within easy distance of the central portion of the city very probable, equipped with a fine quarter-mile track, dressing rooms, grand stand and base ball grounds. The membership limit will be raised. The Missouri Bicycle Club has secured the very cream of the local athletes, the bicycle feature remains just as prominent as before, and all, including the use of the proposed grounds, will be given to riders for half of the present dues of the club. The magnificent quarters of the Missouris are still in the hands of the painters, but will soon be finished.

MOONLIGHT RUNS seem to be "all the rage" among wheeling clubs in New Jersey. The fine nights of this month and the good roads both tended toward large attendances, long runs and lots of fun. As most of the riders in this State go to New York every day to business and do not get much daylight at home, these moonlight runs are becoming very popular.

A COMPANY is being organized in Buffalo for the protection of wheels from damage, theft and fire. There is very little doubt of its success, the field covered by the idea is so broad and liberal that it will be "a go" from the start.

IT is stated on good authority that two of the officers of the Bergen Co. (N. J.) Wheelmen will offer a gold medal to members making largest mileage during season of '91, also one to member attending largest number of club runs. This should be an incentive to members to attend.

ON Wednesday, May 20, Mrs. C. W. Dalsen, Captain of the Fairmount Lady Cyclers of Philadelphia, accompanied by Messrs. A. H. Allen, M. N. Keim, Jr., J. W. Maull and C. F. Feurer of the Century Wheelmen made a run of 124 miles. The route, a very rough and hilly one, was through Gulf Mills, Norristown, Collegeville, Trappe, Black Rock, Roger's Ford, Phœnixville, Valley Forge, Centreville, Berwyn, and returning on Lancaster Pike and making 36 miles in Fairmount Park, climbing Strawberry Hill three times in the last 25 miles. Will this 124 miles stand as the American one day record for a lady? We do not know of anything that equals it.

SAYS "Treb": "Billy Murphy of the New York Athletic Club is riding in splendid form, but some believe there is a possibility of his going wrong before the summer is closely settled. His rapid development of speed after a winter of inactivity is regarded by many as a bad sign, and doubts are expressed of his continued good condition. Murphy has always been able to get in fairly good condition at short notice, and I don't believe his surprising speed shown at this early stage of the racing season is any prediction that he will go stale from over training."

DURING the brief month in which St. Louis Wheelmen enjoyed a cessation of the 4-hourly "sloppings," cyclists could be seen tearing down the asphaltum at a fearful rate, and last Thursday evening Secretary Bowman of the Missouris, while scorching on the Cardinal avenue asphaltum ran into a vehicle while crossing Pine street. His wheel was badly wrecked and he was considerably bruised by the vehicle passing over him. This should be a warning to all cyclists to abstain from racing on the asphaltum

THE managers of the Kings County Wheelmen race meet on June 27 have decreed that no bicycles shall be offered as prizes.

THE Troy, N. Y., Bicycle Club was presented on the evening of the 19th inst. with an elegant silk banner as a trophy of its victory in the bowling contests of last winter.

THE century run of the Hartford Wheel Club is set down for some time in August.

THE L. A. W. club of Lockport, N. Y., are talking of constructing by-paths all over the county for the use of wheelmen. These paths will, if made, follow the main road and will be made in good shape so as to make riding a luxury. The expense is to be borne by the wheelmen and others interested in cycling.

THE Portland, Me., Wheel Club will hold a tournament at Presumpscott Park on Labor Day; arrangements are at present under way, and a successful affair is assured.

A NEW cycle club has been recently organized at Moncelona, Mich.

CAPT. HINNERS, Frank Keyes, Frank Bennett and George Hinners of the Bergen Co. (N. J.) Wheelmen each have one century run placed to their credit this season. They each expect to make many more before close of season.

MESSRS. MAGEE and COWLESHAW of the Queens County Wheelmen will start on a tour of the White Mountains on June 13.

THE first race between members of the Citizens Bicycle Club for their elegant challenge cup will take place on June 6.

A CYCLING CLUB has been formed in Winthrop, Me., and starts off with an excellent membership.

A CYCLING organization has been recently formed at Clyde, N. Y.

THE Scranton, Pa., Bicycle Club celebrates its tenth anniversary on June 21.

THE Crescent Cycle Club of Rochester, N. Y., held a ladies' night on the evening of the 19th. A large number were in attendance, and an enjoyable time was passed by all.

THE Harrisburg Wheel Club held a smoker on the evening of the 20th.

THE Norristown, Pa., Wheelmen desire to state that the announcement in some papers that there would be a meet at Oakview Park on Decoration Day under their auspices is untrue, and that the announcement was made without consulting them.

THE Kings County Wheelmen will hold their meet on June 27 at Washington Park instead of Eastern Park as previously announced. The Washington Park track will be put in good condition for record breaking.

W. J. KUNTZSCH won the gold medal offered as first prize by the Onondaga Cycling Club in their ten miles road race; time, 35m. 20s.

THE initial steps toward holding a mammoth cycling parade through Prospect Park, Brooklyn, have been made, and the date has been fixed, June 20. Invitations are to be sent to all clubs within a radius of fifty miles, and it is expected that the affair will be a grand success.

AT the Catford Cycle Club meet held at Paddington, Eng., on May 9, the 1-4 mile record flying was broken by P. Scheltema Beduin, who made the distance in 31 1-5s. against 31 4-5s by Jones on August 18, 1890.

AT the races of the Ulster, Ire., Cycling Club the half-mile championship of Ireland was won by A. DuCros, he defeating Mecredy and Lester; time 1.16 4-5. The 5-mile open handicap race was captured by DuCros also, Mecredy and McGladery also starting; time, 15m.

THE Buffalo Rambler Bi. Club is going to change its uniform. This club is very much dissatified at the large number of wheeling clubs who have adopted the black cheviot since they did.

THE "Porkopolis" Wheelmen of Cincinnati are talking of running a race meet on July 4th. If they conclude to run it, they will spare no pains to make it a success. "Whole hog or none" is their motto.

ZANESVILLE, Ohio, is having a bicycle boom. A new club, the Muskingum County Wheelmen, which is a League club, elected officers last week. The Y. M. C. A. of same place, also organized a club on May 18th and elected officers. While this is not a League club nearly all the members belong to the L. A. W. Zanesville will be well represented at the Detroit meet. The local wheelmen will make a bid for the State meet in '92. The city is being splendidly paved.

TENNESSEE members should remember the dates of the annual races and meet at Nashville, July 10 and 11.

A LADIES' bicycle club of ten members has been formed at Sandusky, Ohio, of which Mrs. Pierre Van Alstyne is captain, Miss Everett is president, and Miss Mary Lockwood is lieutenant.

THE Sandusky (Ohio) Cycling Club will soon take action on some plan for entertaining any visiting L. A. W. on their way to the Detroit meet.

A CHURCH PARADE is being talked of in Buffalo, N. Y., the intention being to invite all the wheelmen, organized and unattached, to unite in a monster parade from a certain point to a church of some one of the prominent clergyman, and have him preach a sermon to the wheelmen. The idea is meeting with much favorable comment, and the first run will take place at no very distant day.

ARRANGEMENTS have been made whereby a cheap rate may be from Sandusky to Detroit via water. The "Kirby," whose run this the fastest boat on the lakes. This and the beautiful ride make it a enjoyable trip.

THE Juniata Wheelmen of Huntington, Pa., is a live League club of some 40 members. The annual election took place lately. The club expects to have a parade of wheels on July 4th, and will do their utmost to make it interesting for any visitors who will join their ranks.

ON Saturday, June 20th, 1891, the Century Wheelmen of Philadelphia propose holding their first annual race meet on the grounds of the Tioga Athletic Association, 22d and Westmoreland streets. There will be fourteen events, including the quarter and one mile safety and two mile ordinary State Championships. There will also be run a two mile handicap club race. The track has been put in excellent condition and fast time should be made.

THE Poorman handicap road race at Cincinnati will be run, rain or shine, on the morning of the Fourth of July as sure as that day arrives. Mr. Poorman is very much put out at a report that has been circulated to the effect that the race was off. There will be two high grade safeties offered. One will be given to the first ordinary, and one to the first safety and a gold medal will be given to the one making the best time.

TOURISTS and cyclists of Pennsylvania with their cameras will be pleased to know that the proprietor of the Peters House, Bushkill, Pike Co., Pa., has recently fitted up a convenient and well appointed dark room for the use of amateur photographers, to which all are welcome.

AT the international road race, May 23, from Bordeaux to Paris, distance 358 miles, G. P. Mills won easily in 26h. 35m. The Frenchmen were badly beaten.

THE Columbia Bicycle Club of Buffalo will have a ten mile road race on Decoration Day.

THE first race of the Interclub Racing Association of Boston and vicinity will take place June 27. The start will be from the Faneuil House, Brighton, and the route will be from that point practically the same as that used by the B. A. A.

THE Central City Wheelmen is the name of a cycling club recently organized at Jackson, Michigan.

THE Pequot Wheelmen of New London, Conn., expect to have 45 names on the charter list, which is to be closed at the next meeting of the organization.

THE lady cyclists of Geneva, N.Y., are considering the advisability of organizing into a cycling club.

THE Montclair (N.J.) Bicycle Club held its first annual picnic at the opera house on the evening of May 19. A large number of out of town wheelmen were present.

THE Wheelmen of Attleboro, Mass., are talking up the matter of a bicycle club. There are upwards of 100 riders in the town, many of whom are enthusiasts on wheeling.

A CLUB of cyclers is to be formed at Johnston, R. I. About 25 have already signified their intention of becoming members of the organization.

THE Ladies Cycle Club of Hartford, Conn., is in a flourishing condition. During the winter season the membership has increased largely, and meetings of the organization are held monthly in the parlor of the Hartford Cycle Club.

ONEIDA (N. Y.) has a curious looking bicycle. It was built for a one-legged man. It is steered with one hand and propelled with one foot and the other hand.

ON invitation of Mr. Martin, the Cambridgeport Cycle Club wheeled to Millis on Sunday last and took dinner at Oak Grove Farm.

THE Rovers Wheel Club of New Haven, Conn., is rapidly coming to the front as one of the largest, and has at present 119 members.

Minneapolis, Minn., is to have a cycle club composed of business and professional men. About 30 persons have thus far signified their intentions of becoming members.

ABOUT 50 members of the Rhode Island Wheelmen made the annual May run to Boston on the 18th instant. The party wheeled from Mt. Pleasant to Highlandville, where the Union Cycle Works were thoroughly inspected, after which Auburndale was visited and dinner partaken of. The party then headed for Boston, and many of the members visited the theatre in the evening, returning on the midnight train to Providence

JAMES T. POWERS, the well-known comedian, is an enthusiastic cyclist and rides through Central Park daily.

THERE are 226 entries for the Pullman road race to be run on Decoration Day.

THE Illinois Club, of Chicago, has a run in the middle of June that covers 103 miles. All the members who finish will receive a bronze or gilded silver medal.

WESTFIELD, Mass., has a new cycle club known as Westfield Wheelmen. The club starts off with 20 members.

THE Detroit Wheelmen will hold their first '91 handicap club road race on June 6, distance 15 miles. The time and first prizes will be gold medals.

THE Fall River Cycle Club will hold an athletic tournament some time in June. The organization expects to occupy its new quarters in July.

THE Park Avenue Wheelmen of Philadelphia will have a heavy weight tandem team this season. Simpson Hoffman, 210 pounds, and Wm. C. [illegible], 230 pounds. They are desirous of making a race with any team of their weight.

THE Y. M. C. A. of Medina, N. Y., has organized a cycle club, with 25 members to begin with.

FOND DU LAC, Wis., has a newly organized cycling club with an initial membership of 19.

THE Press Cycle Club of Buffalo, N. Y., will hold a 50 mile road race for the club championship on June 7.

THE Fall River Ramblers are to hold a handicap road race in the near future.

THERE is considerable talk of reorganizing the old Saragota, N. Y., Bicycle Club, one of the oldest clubs in the U. S.

A NEW cycling club has been organized at Plattsburgh, N. Y.

THE Norwalk, Ct., Wheel Club held a successful lantern parade on the evening of May 20, and afterwards entertained the visiting wheelmen with a tempting spread and choice musical selections at their rooms.

CHESAPEAKE WHEELMEN'S ANNIVERSARY.

THE Chesapeake Wheelmen, of Baltimore, celebrated their third anniversary Thursday night with a torchlight bicycle procession on Fulton avenue, and a smoker at the club-house. There were sixty-five wheels in the parade, decorated with Chinese lanterns and lamps, in command of E. S. Merriam, and headed by Prof. Knight's Cornet Band of 22 pieces. The procession moved from the club-house, on the corner of Lafayette and Fulton avenues, and proceeded to the corner of Baltimore street, where they met a delegation of the Columbia Wheelmen from Washington.

At the club-house addresses were made by J. B. Reed and Albert Mott. Harry Park performed some tricks on his bicycle on a small stage. The following programme was carried out: Banjo selection and song, C. P. Musgrave; singing, John Upton Jones; humorous remarks, Joseph Thompson; singing, T. F. McNulty; cornet solo, Prof. Chester A. Sedenberg; whistling exhibition, William Schaum; banjo selections, Howard A. Burt; humorous readings, Mr. Williamson; sparring exhibition; the "Virginia Rosebud" and the New York Star" musical selections by the Mandolin Quartet. A banquet followed.

Every club in the city was represented. The Maryland, Baltimore and Centaur clubs riding from their headquarters in a body.

The Alpha Ladies' Cycle Club presented a very handsome vase to the Chesapeake Club in commemoration of the event.

HAWKSHAW'S COLUMN.

PERHAPS we are not worse in morals in our day and generation than in the time of our fathers, but we are certainly not so good, however, but there is room for improvement. In our business relations, for one thing, there is a chance and bushels of grave errors to eradicate. Many fail to attain success in business, because they do not hold to sterling principles of conduct. Sell what you have for what it is. Let a fifty-pound wheel, for example, be catalogued as such; do not try to masquerade it as weighing but forty pounds. People will find their way to the manufacturer from whom they get what they purchase *always*, and pay a good price willingly. When a manufacturer performs his obligations to the buying public conscientiously and honestly, he need have no fear but that they will learn and remember that fact to his ultimate profit.

We take too much medicine, employ too many doctors, seek too much outside help. Half of our diseases are preventable or dissipated by attention to the common-sense rules of health and exercise. There is no earthly blessing so great as health, no way so sure to secure and preserve it as to exercise, and no method of exercising so perfect as cycling.

A RACING TIP.—A header in a handicap.

"JOHNNIE GREEN."—In reply to your inquiry as to what is the difference between a modern safety and a velocipede, I should say about one hundred and twenty-five dollars, though it may be more, as I am not posted as to the price of velocipedes.

No plan for constructing good country roads will ever be a success that does not take as a foundation for concrete the head of every old farmer, whether in the legislature or out of it, who has not sense enough to see that farmers are more interested in good country roads than anybody else.

"There goes another one of them dod-blasted fools on a bysickle. A man what will waste his time riding one of them things, when he can sit in the shade and play poker, is a fool sure 'nuff! Ain't he Bill?" "Yep." And the game was resumed the critics concentrating their mental faculties upon a ten-cent jack-pot.

The fascination of cycling is hard to define, even to one who has felt it, and utterly impossible to describe to one who has never sought it. The fascination—at least that portion of it which prefers to take its exercise without enjoyment, and chooses a way of traveling neither healthy or restful—cannot understand why men become enthusiasts on cycling. There is nothing, however, unreasonable in our finding in this inspiring vehicle exercise a source of pleasure; but the "shuffler" who tramps back and forth between home and business place, and on Sunday trudges a short distance in the park to get a breath of fresh air, will not believe it. He realizes that it would bring him an equal amount of restorative muscular employment, with a far greater recompense of enjoyment; but pictures of bruised heads and broken bones are conjured up by his ever active imagination, and, overcome with a terror that is the product of his ignorance, he resolves never to attempt to ride. Poor imbecile.

Two dusky champions of the wheel sat upon their machines in the square at Timbuctoo, where they were to race for the pleasure of the Lord High Muggy-Mug. While the band played anything it wanted to, one leaned over to his fellow contestant and said:

"Yaller! it's an awful hot day, and I was out late last night. There ain't any use in you and I riding each other to death for his Royal Nibs, what do you say to putting up a "barney" race on him, like we used to on far-off Senegambia?"

"Right yer are, pard. I ain't stuck on this here sort of thing myself, either go easy, and we will give the old man a finish that will take the right out of his wool."

The band stopped playing, silence fell upon the assembled multitude, and the king gave the signal for the race to start by cracking a neighbor-ing slave on the head with a croquet mallet. Round the racers swept, dodging as they came past his majesty, but loafing till all was blue when the back-stretch was gained. First one would lead, and then the other would spurt past him as though he meant to win the event in a canter. Looking at the sun-dial by which the race was timed, the king saw that full one hour had elapsed since the race began and yet the mile had not been ridden.

"Death and fury! molasses and smokes!" shouted his Royal Nibs. "What manner of faking is this? Take out this pair of duffers and do away with them. I'll have no League Championship performances here. Look to it, slaves!" And at this command the two riders were led forth to their doom, and a couple of sluggers received into the ring to restore His Majesty to a good humor. In the various positions of life it is well to ascertain just what is expected of us. Racing men are expected to ride fast,—in Timbuctoo.

"HAWKSHAW."

A WHEEL INTO THE INDIAN COUNTRY, NO. 7.

BY C. W NORTHROP.

A NIGHT ON THE RESERVATION.

MOUNTING again we ride for a mile along the river bottom, passing many tepees and rude cabins. The last house in the village is a large frame one with commodious outbuildings, evidently the property of a squaw man. In the door-yard two children, a brother and sister, are playing; the girl, a lovely little creature, with great black eyes and rosy cheeks, runs and hides as we approach, but the boy only keeps at a little distance, as though with him curiosity is stronger than fear. In answer to our knock, a fine looking half breed woman, the first we have seen, comes to the door, and this time our request for milk brings an immense bowl full of the creamy liquid. To this we do full justice, but not a penny will the kindly giver take in return. As we are about to leave, however, a bright thought strikes us. We capture the boy after a little chase, and perching him on the saddle of our bicycle trundle him around the yard a few times. How proud the little fellow seems, as he sits so straight on the lofty seat, his dark eyes sparkling with delight at the ability to ride this strange horse. In the doorway mother and sister watch the performance with almost equal pleasure, and when at last we lean the wheel against the house and lift the rider down, a pressing invitation to spend the night shows that a little attention to her boy has won the heart of the mother. It is with regret we decline, but it is still early in the afternoon, and ten miles beyond we have knowledge of another good stopping place, so decide to push on. When we again reach the ridge the wind is blowing a gale from the northwest, and with a smoother road under our wheel we seem fairly to fly over the ground. For miles we follow closely the edge of the ridge or bluff with the broad but shallow Niobrara flowing almost at our feet a hundred yards below. Across the river and a little above its level are the smooth prairies of northern Nebraska. Although settled only a few years hardly a quarter section but has its house and barn, while here and there a collection of buildings mark the site of what soon may be a busy Western town. For many miles to the west, and an equal distance eastward, we can trace in a narrow brown ribbon of soil the road that might have been our choice this morning.

Lost in viewing the broad expanse of country, we give little heed to time, or distance travelled; until finally, beginning to watch for the night's stopping place at the foot of the ridge, we fail to find it. Still on we go, driven by a gale it would be impossible to ride against, and always hoping to see just ahead the house we seek. Finally, as the sun goes down in a bank of clouds close to the horizon, we slacken pace and dismount. We have been riding two hours and a half since the last halt, and have wheeled, probably, 25 miles. We cannot go back, even though the wind is dying down, with the gathering twilight, for darkness would overtake us in half an hour. Equally useless it is to travel on, for there is no shelter this side of Niobrara city so far as we know. Water is a prime necessity now, and in search of it we climb down the side of a canyon close by and start toward the river. It looks an easy matter to reach it at first, but the way is rough, and we flounder along through the reed grass which in places is over our head, only to find at last that a quarter mile of swampy land still shuts us away from the river. In looking for a sleeping place, however, we are so fortunate as to step into a small brook, and from this brackish water and a biscuit or two left over from the morning's lunch, we make a frugal supper. With the long blade of a hunting knife we then cut enough of the reed grass to make an easy couch, and with some extra clothing taken from our pack for a covering, and our bicycle for a bedfellow, soon fall asleep. An hour later we are awakened by the discordant squaking of a flock of wild geese in the swamp by the river. The wind has arisen again and is whistling through the canyon in cutting blasts. Heavy masses of dark clouds are drifting across the sky, shutting out the light of the stars and making the night a dismal and threatening one. We are chilled to the bone, for the wind has blown our impromptu bed covering away, and makes a long search and the use of innumerable matches necessary before it is found. We think of kindling a fire, for fuel is plenty, but on second thought dare not, for fear of starting a conflagration in the long grass. There seems but one way to keep warm, and that, to find our road and walk or ride through the long night. But how to find it is the question. A rough and difficult path to travel by daylight appears impossible at night, when one can hardly see a dozen yards in any direction, and then there is a bicycle to carry. For the first time since starting we wish the machine sunk to the bottom of the river. But it is only for a minute, and then we shoulder our wheel and start up the canyon. For what seems an age we struggle along, now up to our knees in mud or water, again slipping on the steep sides of the ravine, and once tripped by a bunch of twisted grass, bicycle and rider roll together into the miry brook at the bottom of the canyon. It is a wretched experience, and at the time seemed unreal. Even now after the lapse of years the events that then occurred appear more like a vivid nightmare than reality.

But worse is to come; when the road is found it is very difficult to keep, at best, but a trail through the short grass; by night it is often invisible, and yet it must be followed, for in many places a rod to the right would mean a sheer fall of two hundred feet into the river below. In spite of this we are so desperately tired and drowsy that every mile or two we drop down on the prairie and fall asleep instantly, only to awaken in a few minutes chilled through and through. And so alternately we walk and nap until nearly midnight, when an incident occurs that drives even the thought of sleep away for the rest of the night. We have left the ridge and are tramping along through the river bottom. Off to the right can be plainly heard the splashing of the Niobrara as it whirls and eddies round the rocks and stones in its shallow bed. It is a pleasant sound, bringing back the memory of a moonlight ride along the beautiful Hoosick two

EAGLES TO THE FRONT

IN THE

First Road Race of the Season.

FIRST AND SECOND

In the N. Y. A. C. Five-Mile Handicap, New Rochelle Course, May 23d,

WM. VAN WAGONER (from scratch), - - - - - FIRST

T. J. HALL, Jr. (40 sec. handicap), - - - - - SECOND

Van Wagoner rode a CUSHION TIRE.
Hall rode a SOLID TIRE.

Four Pneumatic Tired Safeties raced, but THEY WERE NOT IN IT.

THE EAGLES WILL FLY
Faster than ever this Year.

Sixteenth Year in America.

1876 1891

The First Cycles in the United States

The Largest Cycle Manufactory in the World

Roxbury, April 24, 1891.

To Singer & Co.,

Dear Sirs:—I have used your 1891 pattern wheel, with the one inch wired tire, and have no hesitation in stating that it gives more satisfaction than any cushion tire that I have ever tried, and as for hill climbing, it is unsurpassed.

Yours truly,
JAMES KELTIE,
Captain Roxbury Bi. Club

SINGER & CO., 6 and 8 BERKELEY STREET and 2 WARREN AVENUE, BOSTON, MASS.

'ears before. How much we would give for the moonlight now, to drive darkness away. The wish almost seems to bring reality, for in the east the reflection from the silvery orb is already brightening the clouds that lie close to the horizon. As we follow the road it drops occasionally a few feet to the bed of some old water course, and here the reed grass, which on the level is but waist high, grows far above our head and dense as thickly sown grain. It is in such a place as we plod slowly along, more asleep than awake, that we are startled by the rustling of reeds a rod in front of us, and look ahead just in time to see a long lithe animal swing into the road and crouch as if to spring. It is not too dark at such close quarters to notice form and action plainly, and even without the caution conveyed in the last words heard at "the point" this morning, we should have known we were facing a wild cat. Quicker almost than thought the bicycle is turned across the road, and stooping behind it we draw our hunting knife and snap open the six inch blade. For defence we believe it a better weapon than a revolver, yet would gladly exchange for the latter and take the chances. It is our first encounter of the kind, but truth compels us to say that imagination is not strong enough to see "fiery eye-balls glaring out of the darkness." We do notice, however, now and then, as the animal slightly shifts its position, a glint of light from the glassy surface of the eyes, just as in the darkest part of night we have sometimes caught a gleam from the nickel backbone or forks of our bicycle.

(TO BE CONTINUED.)

FRENCH HIGHROADS—THEIR CONSTRUCTION AND MAINTENANCE.

BY A. G. COLLINS.

(CONCLUDED.)

NEXT (and always under the direction of three road engineers) loads of small broken flinty stones were scattered six or more inches deep upon the broken pave. Then came a mixture of gravel and clay and limestone earth. The whole was then watered copiously and rolled and watered and rolled for more than two weeks, the workmen being busy correcting any inequality in the surface or in the curve of the surface. At the end of the labor, which seemed unreasonably slow to me, the former paved road had assumed the character of the neighboring routes and was absolutely impervious to water, wheel or horse tracks.

The village street had lost much of its old picturesqueness, but it now possessed a passable road, which was better in every way.

That it is better was proved by the fact that the market wagons, farmers' teams, etc., formerly made a detour to escape the pave now took the direct route between Marlotte and Nemous on market day, and consequently the hotel keepers entertain more guests than formerly and the village people are better served by the influx of merchant vans from Fontainbleau and Nemous.

This taking up of the pavement is going on in most of the villages in France, where the inhabitants realize that it is mediæval in spirit, and injures their best interests.

In isolated cases throughout the country (and in many cases north of Paris) the pavement still exists, but only for short stretches and usually upon hill sides.

Formerly it was thought that a paved road was the only good one on hillsides—hence their occurrence.

In many cases we find the pavement removed from one half of the road surface, and the uniformity with which the peasants in their heavy carts keep off the paved side is proof that they no longer admire the joltings and bouncings of the olden days.

A curious fact has struck me more than once, which is that while in America the only decent roads are to be found in the neighborhood of great cities, in France and all over Europe the case is exactly opposite. It is only in the suburbs of Paris and large cities that one finds bad roads in France. The roads throughout the country districts are infinitely better.

The enormous traffic of market wagons and vehicles of all kinds which carry provisions from the surrounding country to feed the city, renders it quite impossible to keep macadamized roads in good order.

It is for this reason that with one or two exceptions all the "Grandes Routes" leading out of Paris (and there are over twenty of them) are paved for twenty or more miles from the fortifications.

Near Havre, Rouen, Orleans and other cities when the suburban roads are unpaved, the condition of the roadway invariably degenerates as one approaches the city.

I have said nothing of the traffic which passes over the various highways nor of the weight which one horse is enabled by the perfect road surface to draw with ease.

The towns and villages are so much more numerous per square mile in France than in the United States, and the number of populous districts unserved by railroads is so much greater that a larger percentage of merchandise is conveyed on the highways than at home. Carriers' wagons still make weekly or semi-weekly trips to the cities from towns thirty and even sixty miles distant.

Much of the market produce, which in America comes to town per railroad, in Europe is trucked in heavy two wheeled carts or huge four wheeled covered vans. The tires of these vehicles are usually wider than at home. Three to four inches is the average width, and there is a law forbidding tires being made too narrow. Thus the great cause of road degeneration is avoided.

One horse generally pulls what would be considered a good load for two in America. The French drivers have little pity for their beast, and the only limit to the load is reached when there is no space or corner left to stow any more burden.

Not only do they load down the roofs of their wagons but also hang huge bundles to hooks upon the sides and beneath the cart between the wheels swing as many big baskets and boxes as they can stow in.

The cart loaded, the good man with his wife and one or two others climb in, then crack, crack goes the everlasting whip in a succession of rifle-like reports, and "Cocotte" trots away with her gigantic load as merrily as you please.

The cart alone usually weighs as much as an American market wagon and its load, and I should say that two or three tons is not an immoderate estimate of the weight often drawn by single horses in France over the country roads.

Of course the horses are heavier and more powerful than the farmer's nag at home, still there is a vast difference in favor of France after making this allowance.

In conclusion it may be said that no American who has never travelled in Europe has ever seen a really good road. I do not consider as good roads the isolated bits of few miles length (leading nowhere in particular) to be found in various parts of the United States, as for instance about Boston, the Oranges, New Jersey, or the Chicago-Pullman boulevard. I *do* mean by a good road, one which continues an unbroken and perfectly smooth surface one hundred miles or more, and which connects important centres of population.

It is safe to say that few Americans when in Europe have failed to notice with admiration and envy those highways which I have endeavored to describe above.

The movement in favor of remodelling or rather creating the American roads can count these travellers among its partisans, and fortunately this vast body of tourists grows with each succeeding year.

We have Art Scholarships, Architectural Scholarships, Medical and other Scholarships in Europe—then why not have Road Engineering Scholarships as well?

We seek to learn from the experience of the Old World in all that pertains to science, art and literature, why not also seek to learn the art of building and maintaining one of mankind's primeval and greatest necessities in a state of civilization—viz: GOOD ROADS.

THE END.

TO WHEELMEN OF BROOKLYN, NEW YORK CITY AND NEW JERSEY, ATTENTION.

IT may be possible in the multiplicity of invitations sent out that some club has been omitted through ignorance of its existence or by an oversight. In order that no one may feel slighted I take occasion to state here that it is the desire of the Board of Managers of the monster parade of the wheelmen through Prospect Park to be held on June 20th, to have every club of Brooklyn, New York and New Jersey represented in line.

If any club or body of wheelmen who have not as yet received an invitation to attend will kindly communicate with the undersigned they will receive the formal invitation at once. The strength of the wheelmen both numerically and as regards appearance are to be demonstrated by this parade. Thousands will be along the route to witness the sight, and we ask the co-operation of our sister clubs in making this a huge success. Club captains are requested to aid us by scheduling Saturday, June 20th, on their run cards, and by making an effort to have the largest number out possible. Prizes will be awarded for various points of excellence to be determined by the Prize Committee, who will no doubt make an announcement later.

I assure the captains of the various clubs that it will repay them to make our city the objective point on this date, aside from the fact that a competitive parade is in progress, it is expected that this effort will eclipse any previous undertaking of the Brooklyn Clubs.

While I cannot speak authoritatively I believe all the clubs will keep open house and welcome the visiting wheelmen at the conclusion of the parade. Fraternally,

H. E. RAYMOND,
245 Flatbush avenue, Brooklyn, N. Y.

KENTUCKY DIVISION MEET.

AT Louisville, Ky., June 26, 27, will be held the annual meet of the Kentucky Division. The programme is before us, and, undoubtedly, every member has received a copy ere this.

The business meeting will take place Saturday, June 27, at 9.

The Blue Grass state is famous for a trinity of attractions. Fair women, grand horses, and most excellent—grass! The fair sex will vie with her brother cyclists in giving welcome to visitors.

The famous stock farms of the blue grass region will be visited, the birthplaces of such horses as Nutwood, Earl Ten Broeck, Proctor Knott, etc. A good list of bicycle races is on the programme. A banquet at the Willard will close the attractions. If you have not already received a programme, send at once to P. E. Allison, 448 W. Main street, Louisville, Kentucky.

NEW HAVEN MEET.

THE arrangements for the Connecticut annual L. A. W. meet at New Haven, June 8th, 1891, are now completed, and everything indicates that all who are so fortunate as to attend will have a royal good time.

The tournament is held Monday afternoon, June 8th, but the meet covers the time from Saturday the 6th to the following Tuesday.

Commencing Saturday evening with a reception at the New Haven Bicycle Club house, 173 Oliver street, wheelmen will be as thick as fleas on a dog for the next three days.

Four different runs are called for Sunday to the shore and other interesting places in the vicinity. Perhaps the most enjoyable will be to the Pequot Club House at Morris Cove, five miles from the city. The Pequot Club is the largest cycle, yacht and canoe association in New England, and their house contains everything desirable in an institution of this kind. An excellent shore dinner will be served here Sunday noon.

A concert will be given at the New Haven Bicycle Club house Sunday, commencing at four thirty (4.30) P. M.

The street parade takes place Monday morning, and handsome prizes will be awarded to the visiting clubs making the best appearances, having the largest number of club numbers, and having the largest number of League members in line.

The races will be held at the Elm City Driving Park, Whalley avenue, Monday, commencing at two (2) P. M.; a band concert will be given before the races.

These races embrace all the desirable features, and no race will be over a mile long.

The prizes to be awarded to winners at this tournament are valued at over $1200, among which are a Victor safety, model B, a Columbia safety, an Eagle light roadster, gold watch, diamond pin, French clocks, travelling bags, an elegant silk flag, ornamental shield in addition to the gold and silver medals appropriate to the occasion. In addition to the above a silver trophy standing over two feet high and valued at $100 will go to the man making the fastest time at the tournament.

All wheelmen who made application to the L. A. W. officials at the Tremont Hotel on Monday will receive a badge which will enable the applicants to participate in this entertainment.

The steamer Sunshine, rated for 1000 people, has been chartered for the occasion, and will leave Belle Dock at 8 P. M., Monday June 8th, and make a trip around Faulkner's Island. A full band concert will be given on board, and everything necessary for enjoyment will be provided.

The L. A. W. annual meeting will be held on board the steamer, and it is hoped that every League member will attend who can do so.

Full information in regard to this meet will be given in the catalogue published by the New Haven Bicycle Club, and copies will be mailed to every wheelman in the State as far as possible.

Should any one fail to receive a copy our Secretary, Mr. E. J. Perkins, will gladly mail one upon receipt of address.

Come one, come all, and bring your wheels.

KINGS COUNTY WHEELMEN RACE MEET.

COMING entirely unexpected, the announcement from the managers of the Eastern Park ball grounds in Brooklyn that they have determined not to construct a bicycle track on their gounds this season, has caused consternation in the ranks of the Kings County Wheelmen. Upon the promise that a track would be laid there this spring they had arranged to hold their race meeting at that place on June 27, and it is only natural that they should be chagrined at the determination of the managers of the park to defer the laying of the track, as they will be compelled to make hasty arrangements for a new track, and change many of their plans. The races will be held at Washington Park. "TREB."

HILL CLIMBING CONTEST ON SON-OF-A-GUN HILL.

THE entry blanks for the hill climbing contest on Son-of-a-Gun Hill, near Manchester, on Saturday, June 6, will be ready on Tuesday, and can be obtained from Geo. Wilder, 1724 Olive street. Inquiries are coming in from several cities outside of St. Louis, asking if non-residents will be allowed to enter, and these are being answered in the affirmative. The hill is reported to be in much better condition than it was last year. Subscription lists to defray the expenses of the medals are in the hands of Treasurer Silverburg of the Cycling Club, and Jno. Hurck of the Missouri's, and the amount already subscribed will insure the winner the costliest gold medal ever given for a similar contest. Entry fee, 50 cents, and all the money derived therefrom will be utilized to purchase prizes. Entries will positively close on Thursday, June 4, at 6 P.M. The contest will be started at 4 P.M., and immediately thereafter all the cyclists present will adjourn to the Ballwin Hotel, where the prizes will be presented after supper. Runs will leave both the Missouri and Cycling Club's houses at 1 P.M. Saturday, June 6, for the hill. The contest is open only to League members who have renewed their memberships for 1891 or joined this year. "LINNEUS."

WHEELMEN'S RACING LEAGUE.

ON Saturday, June 6th, the first race of the Wheelmen's Racing League Series will be held. It is virtually a resurrection of the old Alphabetical Association, and should the interest be displayed in this new organization that characterized the opening contests of the old association, a genuinely exciting race will be seen. There is secret exultation among some of the clubs over their supposed clinch on the race, but considering the number of teams entered for the race it is impossible to determine the winning club for the first contest. "TREB."

THE BIG MEET AT BUFFALO, N. Y.

THE entry blanks for the first annual three days' athletic, wheeling and aquatic meeting, are now out, and may be obtained of Chas. J. Griffiths, No. 512 Main street, Buffalo, N. Y. The blank is a model in its way, embracing spaces for all of the 53 events.

All of the events are open to all recognized amateurs in good standing. It will be under the auspices of the City League of Amateur Athletic Union clubs (not the Iroquois, as stated the in WORLD) composed of 16 athletic and wheeling clubs of Buffalo, N.Y.

The first prizes are silver cups; the second prizes are silver cups; the third prizes are "handsome medals."

Nearly all the bicycle clubs are making entries, and the games are being discussed in all athletic circles.

An enthusiastic meeting was held at the Ramblers', of Buffalo, N. Y., club rooms, on the 22d, to arrange for a monster lantern parade of all the bicycle clubs and unattached wheelmen, for Monday evening, the 15th of June.

It is intended by this means and the bicycle races on the second day to bring the wheelmen's branch of sport into special prominence.

Representatives were present from every cycling club in the city.

Dr. W. J. Packwood was chosen chairman and O. H. Sauerwein secretary.

The Women's Wheel and Athletic Club will be invited to head the line, and Chief Consul W. S. Bull will act as grand marshal of the parade.

Officers of the Day were chosen, Louis Bruch as adjutant, and Messrs. Frick and Hearne as aides.

Some very fine prizes will be offered to the individuals making the best or finest displays on ordinary bicycle, safety, tandem safety, tandem tricycle; competition to be open to all wheelmen.

This will be one of the finest lantern parades ever attempted, as this city has so many unexcelled facilities for an elaborate display of this kind, with its many miles of asphalted streets and its thousands of wheelmen.

Residents along the line of march will be asked to decorate; and the procession will be headed by one of the finest bands of music that the city affords.

The line of march will be decided upon at a future meeting.

"JASPER."

THE HARVARD U. C. A. RACE MEET.

THE climatic conditions were favorable for a big attendance at the second annual race meet of the H. U. C. A. on Holmes Field, Cambridge, last Saturday, but the counter attractions of base ball on Jarvis Field evidently drew a good many spectators to the latter spot. The events were:

One mile ordinary, open. First heat—Scott Sydenham, A. A., 1st; A. A. Zimmermann, N. Y. A. C., 2d. Time 3.00 1-5 sec.

Second heat—Murphy, N. Y. A. C., 1st; J. Clark, 2d. Time 2.54.

Final heat—Murphy, 1st; A. A. Zimmerman, 2d; Taylor, H. U. C. A., 3d. Time 3.39 4-5.

One mile safety, open (solid tires)—Tyler, Highlandville Bi. Club, 1st; Pratt, H. U. C. A., 2nd; Olmstead, H. U. C. A., 3d. Time 2.56 3-5.

One mile open (pneumatic tires)—Davis, H. U. C. A., first; Murphy, N. Y. A. C., second; Bache, Highlandville Bi. Club, third. Time, 3 m.

One mile interscolastic, ordinary—Kimball, Roxbury Latin School, first; Townsend, Andover academy, second. Time, 3.07 3-5.

Half-mile handicap, ordinary. First heat—Connolly (60) H. U. C. A., first; Howes, (35) H. U. C. A., second; Scott Sydenham, A. A., third. Time, 1.21.

Second heat—J. Clark, Crescent Bi. C., (30) first; E. J. Clark, (75) second; Barron, H. U. C. A., (40) third. Time, 1.19 2-5.

Final heat—Howes, (35) H. U. C. A., first; E. Clark, Crescent C. C., (30) second; E. J. Clark, Crescent C. C., (75) third. Time, 1.18 1-5.

One mile safety, H. U. C. A., 3.20 class—Macallister, first; Keller, second; Hutchinson, third. Time 3.14.

One mile, open handicap—Tyler, (140) first; Davis. H. U. C. A., (30) second; A. B. Rich, N. Y. A. C. (scratch) third. Time 2.34 2-5. Davis, 2.40 3-5. Rich, 2.40 3-5.

THE CENTURY RUN.

THE starters on the century run between New York and Philadelphia this year from all indications will far outnumber that of last season. The run is scheduled to start rain or shine, but should the weather prove unpropitious as it did last season it will be utter folly for any persons to start without endangering their health. To ride some ninety-six miles (although the run is termed a *century* run, it is seldom if ever more than 94 or 96 miles are covered on the trip) on a pleasant day is not an altogether simple task although considerable time is allotted for the completion of the trip, but to ride the distance on a day like the 1890 century run was made on is downright foolishness, and it is to be hoped that the sensible riders will see the folly of starting if the day is unpleasant. "TREB."

RACING AT BUFFALO, N. Y.

THE Wanderers of Buffalo held their first of a series of country road races on Saturday evening, the 23d. The roads were rough and somewhat muddy, and in many places full of ruts. There were ten entries and five starters. The distance was some over six miles. There were three prizes offered; the first a bicycle bell; second, a ticket to the three day's athletic and wheeling meeting; third prize, a bicycle stand; open to club members only. Positions as follows:

First—Gus. G. Buse; time, 30 minutes.
Second—John H. Christian, 30 1-2m.
Third—Joseph J. Scheffler, 31m.

"JASPER."

RACING AT PHILADELPHIA.

THERE were no less than three tracks over whose surface the flying wheels spun last Saturday; and although the weather was threatening, large audiences attended each of the games.

At Stenton the A. C. S. N. gave a ladies' day, and the grounds were formally opened for the season of '91. The one cycling event on the programme was a two-mile safety, which was a very pretty race between Taxis and Draper, in which the former won. Result—first, W. W. Taxis; second, J. H. Draper. Time, 6.06 2-5.

On the 'Varsity grounds the sixth annual field meeting of the Intercollegiate Athletic Association, of Pennsylvania, included a two-mile bicycle race, which was one of the features of the day, being closely and excitingly contested. Following were the starters: Coaks, U. of P.; McLaughlin, Lafayette; Henlings, Swathmore; and Hellner, U. of P. Coaks won, riding with excellent judgment; McLaughlin, second; Hellner, third. Time, 6.24 3-4.

The West Philadelphia Branch of the Y. M. C. A. gave a one-mile bicycle race among their other events at the grounds, Belmont and Elm avenues, which resulted as follows: C. L. Allison, first; I. R. Joyce, second. Time, 4.15.

All of the tracks were muddy and heavy after the recent rains, which accounts for the slow time.

The races which were to have been run by the electric light at Brotherhood Park, Broad and Dauphin streets, on Saturday evening, were postponed until this week, owing to the rain.

Among the rest of Saturday's attractions was the "Field Day" of the Philadelphia Cycle and Field Club, who presented a varied programme at their country house at Ardmore, consisting of sack and potato races, running, jumping, tennis tournaments and safety races on the Lancaster pike which fronts their property. There were a large number of the members and their friends present who, after the conclusion of the sports, enjoyed a delightful supper, followed by a dance. "ARIEL."

Philadelphia, May 25, '91.

FOREST PARK ROAD RACE.

A FAIR day, no wind and good roads contributed greatly towards making the Forest Park at St. Louis road race an unqualified success. All the men who entered were in fine shape, and all but Van Sicklen faced the starter. The distance was 17 1-2 miles over a circular course which had to be covered five times, and when it is taken into consideration that the steep grade known as "Nigger Hill" had to be climbed five times, the time made was very creditable. Promptly at 4.30 P. M. the limit man, Wm. M. Morrison, Jr., handicap 8m., was given the word and started fast amidst a general hurrah. Then followed R. M. Tidd, T. B. Graham and Ed. Kreidler, handicap 7m.; Geo. E. Tivy, Jno. R. Pomarede, and Arthur Madden, handicap, 6m.; R. M. Milford and O. L. Rule, handicap 2 1-3m.; E. N. Sanders and Will Cox, handicap 2m.; Geo. Hubbard, Nashville, Tenn., handicap 1m.; Bert Harding, scratch, and Geo. K Barrett and C. S. Merrill of Chicago paid the penalty for riding pneumatics by starting 3m. after the scratch man. The race was a pretty one, and all the men got away nicely with exception of our local champion, Bert Harding, who had the misfortune to break his chain 150 feet from the start, and after another attempt and like catastrophe he dropped out, much to the regret of his many friends. The first lap was ridden in pretty good time, W. M. Morrison, Jr., first; R. M. Tidd, second; E. A. Kreidler, third. Time, 14m. On the second lap the positions of the first two men were the same, Tivy capturing third place. Time, 14 1-2m. On the third lap R. M. Tidd finished first, W. M. Morrison, Jr., 2d, and was closely followed by Milford 3d, and Rule 4th; time, 13 1-2m. On the fourth lap Morrison was taken with cramps and R. M. Tidd's tire came off, they were passed, and the order of the finish was O. L. Rule, first; R. M. Milford, second; E. N. Sanders, third. Time, 13m. 50s. The fifth lap brought out the staying powers of the fast men, and R. M. Milford (Cycling Club) after a terrific struggle with Rule finished first in 71m. 5 1-2s.; O. L. Rule, second, time, 71m. 6 1-2s.; E. N. Sanders, third, time, 71m. 33s.; Will Cox, fourth; Geo. K. Barrett, sixth; W. M. Morrison, Jr., fifth; Arthur Madden, seventh; R. M. Tidd, eighth; E. A. Kreidler, ninth; J. R. Pomarede, tenth. The first four men wore the Cycling Club's colors. The actual riding time was R. M. Milford, 1h. 5m. 65s.; O. L. Rule, 1h. 5m. 66s.; E. N.

Ponce De Leon was a Dizzy Old Chap,

But dizzy as was he, and giddy as were the times in which he lived, already had the merit of springs been proclaimed.

Ponce was old, but he had learned to wink the other eye, and longed to be young again. He had heard of the spring of perpetual youth, a spring so wonderful that but to dip one's fingers into it would be to tranform him into a bright, blithesome boy again. Like that apple of emerald hue, the idea grew, and grew, until it finally possessed him entirely. He decided to locate the wonderful spring. Gathering a few trusty followers and an assortment of banners, battle axes, spears "and et cetera," he hired a yacht and set sail for this country where the spring was supposed to bubble.

When he landed he found the roads poor and the country teeming with Americans—real, genuine, original Americans, but this, of course, was before the time of Castle Gardens, police forces, city councils and the like. He won many of them (the Americans, not the police, for they are above accepting "gifts") over by the gift of beads and trinkets, and drew enough beads on other to make a large sized cemetery, but, after all, he failed to find the spring and died "full of years, wrinkles and grey hairs," and is now generally supposed to be fingering a golden harp tuned in H—— or some other equally high pitch.

Times and a few of the roads have changed since then. The "Injuns," who were great ramblers, have been scattered to the four winds, but other and greater Ramblers--Ramblers that are spelled with a fine, large capital R and which are, each and every one of them "Americans" and all distinctly great—have come to the top. True, the latter are not of flesh and blood, but of drop forging and weldless steel tubing but they have *the* spring of perpetual comfort and ease, which contribute much to health and happiness, and these, they say, are amongst the most desirable factors of youth.

Bicycle makers, like Ponce De Leon, early realized the necessity and merit of "spring" or elasticity of some nature, and rubber tires were brought into service; but they did not go far enough, and to-day the bicycle which has not a spring frame of some sort is behind the times.

The Rambler was the original spring frame machine, and has been an easy first ever since, and those who seek and appreciate perpetual comfort never fail to find it in the Rambler.

You may think you know what luxurious cycling means, but you don't and won't until you have ridden a Rambler.

MAKERS OF

"The American Cycles."

222-228 N. FRANKLIN STREET, - - CHICAGO, ILL.

Chicago Retail Store, 85 MADISON STREET.

1325 14th STREET, N. W., Washington, D. C.

174 and 178 COLUMBUS AVENUE, Boston, Mass.

Something New in Oils!

Premier Lantern Oil. The Finest Compound for Cycle Lamps ever offered. Brilliant, Clean and Safe. Pint Cans, patent screw top. Price, 50 cents.

Premier Cycle Oil. Especially designed for Cycle Bearings. Pure, smooth, lasting. The best lubricating oil made. Every cycler should use it. 4-oz. cans, with screw nozzle and spring bottom. Price, 25 cts. The trade supplied by the case. Send for quotations.

PREMIER CYCLE COMPANY, 846 Eighth Avenue, New York.

Sanders, 1h. 5m. 38s.; Will Cox, 1h. 7m. 11s.; W. M. Morrison, Jr., 1h. 6m. 32 1-2s.; Geo. K. Barrett, 1h. 4m. 48s., plus the penalty 1h. 7m. 48s.

After the race about sixty of the wheelmen repaired to Bartold's Grove where supper was served, and after the same had been disposed of the following prizes were presented: first, gold watch to R. M. Milford, who also won the timemedal, a very elegant affair; second, diamond pin to O. L. Rule; third, sterling silver watch to E. N. Sanders; fourth, shot gun to Will Cox; fifth, silver cup to W. M. Morrison, Jr.; sixth,, pair bicycle breeches to Geo. K. Barrett; seventh, cyclometer to A. J. Madden; eighth, silver headed umbrella (to R. M. Tidd; ninth, pair bicycle shoes to E. A. Kreidler. After the presentation Toastmaster Robert announced the following toasts: "Our Visitors," Geo. K. Barrett; the "L. A. W.," Robert Holm; "An old ex-racing man," L. M. Wainwright; "Our riders," Geo. H. Lucas.

The awarding of the time medal to Milford caused some discussion, as Barrett's friends seemed to think that he should have gotten it, as he really did make the fastest time of the day, viz: 6im. 48s; but the Track Association had decided to also make the penalty of 3m on the pneumatic tire stand in the contest for the time medal, and the medal was awarded as above. [We think the decision wrong.—Ed.] Many of the gentlemen present stated that this was not the rule at Pullman or at the Irvington-Milburn road races, and the rider making the fastest time got the time medal, irrespective of the tire. If this is correct it is an outright gift to riders of pneumatics. "LINNEUS."

TRADE NOTES.

AMONG those that have joined the Grand Rapids-Detroit Tour are President Escott, Grand Rapids Bicycle Club, Chief Consul Richmond and their wives, Mr. and Mrs. John Taylor, and many other prominent wheelmen and ladies. Send in your names early to Phin. S. Hunt, 646 S. Division street, Grand Rapids, or you will get left.

ALLAN W. SWAN, a member of the New Bedford Cycle Club, started last Sunday on a trip across the continent. He will "train it" over the sandy plains of Nevada. He expects to arrive in San Francisco in about 100 days from the date of starting.

HOLBEIN made his recent twelve hours' tricycle record on a Marlboro Club of the Coventry Machinists' Co.

THE five mile road race of the Ansonia Wheel Club, and the field events to be given by the same organization on June 6, are creating considerable stir not only in wheeling circles but in many of the towns in the vicinity. The committees having the matter in hand are hard at work on the details of the affair and hope to have everything in first-class shape. A large attendance is assured and the organization will net a large sum to swell their treasury.

IT seems strange to think that only fourteen years ago there was no bicycle factory of any description in the United States, and the "wheel" was unknown to our roads. The first bicycles made here were "Columbias" in 1878.

IF the pessimist who delights in declaring that club runs are no longer popular, could have attended the run of the "Porkopolis" Wheelmen of Cincinnati to Independence, Ky., on Sunday, May 17, and had heard the witty sallies of Tutty, and the sage remarks of the humorous Kobmann, he would certainly have changed his mind. Even those of us who had gone over these roads every summer for the past nine seasons, found new delights and new enjoyments. Oh! no, the club run in Cincinnati is by no means a thing of the past.

MITCHELL'S ART OF BOXING: A treatise on the manly art of self-defence by Prof. Charley Mitchell. Every one should take great interest in this healthy exercise, which calls forth those two great national qualities—pluck and endurance. Natures which are inclined to be timid and weak have been completely changed by some little act of pluck and heroism. It is quite possible to become a first-class amateur boxer without the aid of a professional instructor, and the writer of this book describes and illustrates the positions when boxing, how to strike a blow, guarding and slipping, cross-countering, feinting, in-fighting, upper-cut, and cross-buttock, as well as how to protect yourself against street ruffians, training exercises, etc. S. and S. Manual Library, No. 22. Price 10 cents. Street and Smith, publishers, 25 to 31 Rose street, New York.

THE Overman Wheel Company are obliged to give notice that they cannot appoint more agents for some time to come. The great popularity of the Victor bicycles is such that nearly every new bicycle dealer is anxious to represent the Overman Wheel Company. In justice to their old agents, however, the company will make no more agents until they can supply the present enormous demand. The branch houses at Boston, Washington, Denver, and San Francisco report orders much beyond the present capacity to fill, but it is said that the large double force of a thousand or more workmen at the factories in Chicopee Falls, Mass., will enable them to fill orders more promptly a few weeks hence.

A CARD. Wednesday, May 20th, I opened a store at 1187 Bedford avenue, Brooklyn, for the sale of the world renowned Singer high grade safety bicycles. Our specialities for 1891 include the Singer ball steering, the Singer detachable bearing, Singer's patent wired cushion tire, and the Singer steering lock. I shall give customers an ample opportunity to try our wheels, and shall rent only 1891 pattern machines. Purchasers taught free. Special attention given to lady customers. Samples of all our mrchines kept at the New York Office, 2 Astor House, Broadway. F. W. Aymar.

THE new bicycle horn, "The Newark," beats anything on the road for clearing the way. It is neat, simple, durable, ornamental and effective, and gives better satisfaction than anything in use. Manufactured by Howard A. Smith & Co., Newark, N. J., and for sale by all dealers.

J. A. HUNT & Co. of Westboro, Mass., who make the balancing toe clip write us: "Your paper is doing us much good. We are every day receiving orders from all over the States, from wheelmen as well as dealers. Dealers in cycles and sundries ought not to complain if wheelmen do obtain them from us, for wherever our clips are kept in stock the wheelmen do not send us the orders. Letters come to us every day saying: "We cannot find your clips at our agents and want a pair." In many cases they have ordered two or three pair for as many riders. Our advice is for all agents to keep them in stock. A large discount is offered to the trade."

IN a day's ride of fifty miles the wheels of a safety bicycle revolve about 35,000 times, and under constantly varying conditions, smooth road, rough road, sand, gravel pavements etc. Now consider that a bicycle to be called strictly "high grade" must be able to stand this usage every riding day in the year, and for a good many years. In all parts of the country there are Columbias which have stood just this test, and are yet good for a great deal of service.

FIXTURES.

JUNE.

6—Woonsocket (R. I.) Wheelmen's second Annual Tournament.
6—Ansonia (Conn.) Wheel Club's "First Annual Field Day."

12th Annual Meet of the L. A. W.

DETROIT, MICH., JULY 16, 17, 18, 1891.

Address Chairmen as below at Detroit for information relating to the work of the committees:

Chairmen of Committees:

Reception—C. H. Smith, 211 Putnam avenue; B. J. Holcombe, 222 Woodward ave
Races and Transportation—Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

The Renewal Season.

The renewal season is now open, and we are ready to receive the annual dues of members.

We have opened the books for 1891-2, and applicants for membership may now send $2 and they will be put upon the roll for the year ending April 30, 1892.

All memberships expire April 30, and must be renewed before July 1st.

We publish a renewal blank which we hope will be universally used. A blank of this kind is more satisfactory for filing than a notice of renewal written in letter form. If a member has no blank and does not care to mutilate his paper, he will oblige us by sending renewal on paper the size of the blank and made out after the same form. The same applies when two or more names are sent.

Every League club has been supplied with sheets to send renewals on, and also a renewal of the club. Since many non-League clubs send in lists of names, a list of names is no indication that a League club renews its membership, and we must have the regular certificate of renewal as per blank furnished every club before we can issue our certificate of membership.

Club Secretaries will be supplied with renewal sheets for club lists on application.

Consuls, Agents, Club Officers, etc., who desire renewal or application blanks should procure them of the Secretary-Treasurers of their respective Divisions. See addresses in BULLETIN.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Racing Board.

By unanimous vote of the Racing Board Messrs. E. S. Bamburger of Chicago, Ill., and Owen T. Morgan of Swansea, G. B., have been reinstated as amateurs.

CHARLES E. RANDALL,
Chairman Racing Board.

Chicago, May 21, 1891.

Massachusetts Division, L. A. W.

The following Consuls have been appointed for the localities mentioned:

New Bedford—A. A. Wood, 21 No. Water st.
Concord—H. J. Walcott, Jr.
Whitins and Northboro—Geo. Trowbridge.
Uxbridge—Joseph Preston.

Fraternally, ARTHUR W. ROBINSON,
Chief Consul.

Vermont.

F. A. Roberts' resignation as Secretary and Treasurer of Vermont Division L. A. W. is accepted, and I have this day appointed E. D. Whitney of Brattleboro as his successor for the current year.

I have this day appointed John F. Morrell & Co., of 12 Bromfield street, Boston, the official tailors for the Vermont Division L. A. W. for the current year, at the following prices:

Coat, $5.75.
Pants, $3.75.
Caps, $.85

F. A. HUBBARD,
Chief Consul.

Brattleboro, May 19, 1891.

Pennsylvania Division.

I have to day secured from the Pennsylvania Railroad the concession of one fare for an excursion ticket to Hagerstown, Md., and return to attend the meet. The fare from Philadelphia to Hagerstown is $5.30 for one way, but this amount will be sufficient to secure an excursion ticket if obtained through me. The tickets will be good on and after the 30th of June until the 3rd of July to go and may be used to return at any time up to and including the 7th of July. Tickets from Philadelphia and the immediate vicinity must be obtained through me. An announcement will be made later concerning the manner in which those in the interior part of the State may secure their tickets. If a sufficient number should go from Philadelphia a special train will be run, and in order to ascertain whether this can be done, it is necessary that I should be notified as early as possible by those who propose going. I request each wheelman to send me his name and address, and that of his friends who propose taking this excursion. The extension of the date upon which we may return is a liberal one and will give the wheelmen an excellent chance to take advantage of the beautiful roads that surround Hagerstown after the meet shall have ended. Please communicate with me as early as possible.

Yours fraternally, SAMUEL A. BOYLE,
Chief Consul.

Philadelphia, May 21st, 1891.

Kentucky Division.

Plans for the meet at Louisville are about completed, and a pleasant time is assured all who may attend. Programmes were mailed all Division members last week. Entry blanks for races should be filled out and returned at the earliest moment.

Wheelmen who contemplate attending will confer a favor by dropping a postal card to the Secretary of the Division, or to the Chairman of the Reception Committee. Information not contained in the programme will be furnished by the chairmen of committees.

The Secretary-Treasurer is preparing a circular showing the actual cost of the trip, which will be mailed to all Kentucky League members in a few days. Fraternally, G. E. JOHNSON,
Sec.-Treas.

Ohio Membership.

Twenty-nine new members the third week in May gives us nearly fifteen hundred members, provided all the old ones renew. We will only need 500 more to give us the two thousand, or a little over twice as many as we have received since April 1st. We can get these easily but each member of the Division must remember that it will require united effort and that shirking "don't go now." Fraternally,

M. A. HION, Chief Consul.

Cincinnati, O., May 23, 1891.

Ohio Hotel.

Franklin—New Coleman Hotel (in place of Coleman House, defunct); day, $1.40; meals or lodging, 35 cents each. WM. D. KEMPTON,
Cincinnati, O., May 23, 1891. Sec.-Treas.

Ohio Consul.

Pomeroy—Eugene Long.
Fraternally, WM. D. KEMPTON,
Cincinnati, May 20, 1891. Sec.-Treas.

To Iowa Wheelmen.

We wish to impress upon the mind of every member of the Iowa Division, L. A. W., the importance of booming the Division Meet at Newton, June 16 and 17. Every one who attends will be well entertained, as Newton has a reputation for hospitality that is too well known to need special mention here. The city is lighted by electric lights, and has several miles of good streets, and the surrounding country has good roads, giving the opportunity to take pleasant runs.

There will be attractions that we have never had at our meets in the past, and everything will be done to make the visiting wheelman enjoy themselves. Below is a list of the races which will be run at the meet:

Programme of the races for the Eighth Annual Meet of the Iowa Division, L. A. W., to be held at Newton, June 16 and 17, 1891.

1—One-Mile safety, novice.
2—One-Mile ordinary, novice.
3—Half-Mile safety, State championship.
4—Two-Mile ordinary, State championship.
5—One-Mile safety, open.
6—One-Mile ordinary, handicap.
7—Half-Mile safety, boys under 16 years.
8—One-Mile ordinary, open.
9—One hundred yards, slow race.
10—Fancy riding.

SECOND DAY.

1—Two-Mile safety.
2—Quarter-Mile ordinary.
3—Quarter-Mile safety.
4—Half-Mile ordinary, State championship.
5—One-Mile safety, handicap.
6—Five-Mile team race.
7—One-Mile safety, State championship.
8—Half-Mile consolation race (safety and ordinary.) Yours fraternally,

CHARLES H. CURLEY, Sec.-Treas.

Illinois.

Local Consuls are appointed for
Elburn—Gordon A. Bowdish.
Ipava—J. R. Wood.
Joliet—Frank H. Keith.
Leroy—Wilmer Brindley, Box 115.
Mount Carroll—J. W. Squires.
Normal—Edw. Manley.
Ohio—H. S. Pomeroy.
Sparland—A. T. Athay.
Wenona—Jacob Farnsworth.

The following Local Consuls are appointed vice those resigned in their respective towns:

La Salle—Oscar Eliel.
Maroa—Frank Cooper.
Paris—Frank Cook.

Fraternally yours, W. A. DAVIS,
May 22, 1891. Chief Consul.

Rhode Island Consuls.

I have appointed additional Consuls as follows:
Arlington—Henry N. Francis.
Cumberland Hill—Henry F. Adams.
Providence—Thomas S. Hammond.

GEO. L. COOKE,
Providence, R.I., May 25, 1891. Chief Consul.

Connecticut.

Parade officers spring meet, New Haven, June 8th. F. M. Bailey, adjutant.

Aides—A. G. Fisher, E. A. DeBlois, David J. Post, Chas. L. Burdett, Chas. S. Davol, E. P. Prial, Jos. Goodman, Calhoun Latham.

ARTHUR ALLEN DEAN, Chief Consul.

League Club Renewals.

The following clubs have renewed membership in the League for 1891-2 by filing renewal certificate with the Secretary:

25—Alleghany County Wheelmen, Friendship, N. Y.
32—Meriden Wheel Club, Connecticut.
34—Plainfield Bi. Club, New Jersey.
35—Elizabeth Wheelmen, New Jersey.
40—Canton Bicycle Club, Ohio.
89—Tioga Cycling Club, Pennsylvania.
93—Los Angeles Wheelmen, California.
126—Hyde Park Ramblers, Massachusetts.
141—Illinois Cycling Club, Illinois.
153—Rhode Island Wheelmen, Rhode Island.
191—St. Paul Cycle Club, Minnesota.
211—Steubenville Cyclers, Ohio.
217—Lansing Bi. Club, Michigan.
230—Whitinsville Bi. Club, Massachusetts.
235—Columbia Cycle Club, Massachusetts.
240—New Bedford Cycle Club, Massachusetts.
257—Trojan Cycling Club, Ohio.
262—Pine Tree Wheelmen, Maine.
271—American Bi. Club, California.
274—Bohemian Wheelmen, New York.
277—Chillicothe Wheelmen, Ohio.
278—Columbus Safety Cycling Club, Ohio.
279—Hartford Wheel Club, Connecticut.
285—Joliet Cycle Club, Illinois.
287—League Cyclers, Chambersburg, Penn.
290—Memphis Cycle Club, Tennessee.
291—Tonawanda Bicycle Club, New York.
299—Asbury Park Wheelmen, New York.
300—Erie Wanderers, Pennsylvania.
307—Rovers Wheel Club, New Haven, Conn.

New League Clubs

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:

335—Muskingum County Wheelmen, Zanesville, Ohio. S. M. Culbertson, Secretary.
336—Union County Roadsters, Linden, N. J. C. S. Lippincott, Secretary.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an intiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names and addresses are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

Long Graceful Handle Bars. Large Comfortable Saddle. Lightest and Best Wheel Made.

WARWICK CYCLE MFG. COMPANY,

SPRINGFIELD, MASS.

"MOST AUTHORS STEAL THEIR WORK OR BUY."

—*Pope.*

AS an illustration, turn to the different machines advertised in the different papers, you will see a very *marked* resemblance, *one* to *another*, with a few exceptions. The most conspicuous of these exceptions is the PARAGON. You will notice that it is *original* from tyre to handle bar, and we assure you that it is as "good as it is beautiful."

FOR SALE BY

THE LEADING DEALERS

From Maine to California.

The Incomparable, Noiseless, **"BRONCHO"** Chainless, Safety Bicycle.

"Just Five Years Ahead of Time."

What, "BRONCHO!" That's what one of the largest and best builders of cycles in America says of "Broncho." Why did "Broncho" come *too soon*? Did said maker think "Broncho" would interfere with the quick and easy filling of his bushel basket with golden eagles? We leave it for *the riding public* to determine. Meantime, the BEST is *never too soon*. Every rider wants the *best*, therefore write for full particulars, prices, discount to Agents, etc. Send for Cat. Ask all the questions you can think of, the more the better, and *do it at once*.

Explanations of all seeming discrepancies, irrelevancies, and Ads. of "Broncho" at *"ruinously low rates,"* given to all interested parties on application.

Meanwhile, "Broncho" Light Roadster continues to be sold at the same old price, $135, and we cannot keep up with our orders.

CHOICE OF THE EXPERTS.

"U. S." Gallery Ammunition.

Manufactured by the

United States Cartridge Co., - Lowell, Mass.

WHAT IS HIGH WATER MARK?

We started in this year with an idea of making **12,000** GIANT SAFETY BICYCLES. We have already actually sold over **10,000** and have so increased our facilities that we shall turn out **16,000.** Is that the figure above referred to? We think so, and it behooves any agent or dealer who desires quotations on these goods to be somewhat lively in his movements. Catalogue cheerfully mailed on application.

H. A. LOZIER & CO., - - Cleveland, Ohio.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100.

TO BICYCLE AGENTS

WAITING

THROUGHOUT NEW ENGLAND:

You ordered a —— Safety three weeks ago, and you are WAITING.

You were promised it two weeks ago, and you are WAITING.

You would get it last week SURE, and YOU are STILL WAITING, but are your customers Waiting, and will they continue waiting until you can supply? Did it ever occur to you that there were other wheels on the market that were, to say the least, EQUALLY AS GOOD as the wheel that you have been WAITING for, and you can get them AT ONCE? Order a PARAGON, if the sample wheel is not satisfactory you won't want another, if it is you will wonder why you have waited.

Address Wm. Heyny, Jr., 301 Sixth St., N. Y. City.

"QUADRANT" CYCLES

ARE RENOWNED FOR

ORIGINALITY.

We make our own designs and work our own patents, constantly incorporating in our machines about 12 or 14 of our own inventions.

EXCELLENCE.

In these days when the commonest rubbish is advertised as "the best, the lightest, the swiftest," etc., and even sold as such, we can only ask intending buyers to send for our 1891 catalogue, and read the 16 pages of unsolicited testimonials received during the past season.

TRUSTWORTHINESS.

"A prominent feature of their exhit (Philadelphia Exhibition) is a 'Quadrant' which was caught between two cable cars on Columbia Ave. This machine is bent and twisted in every direction. but not a thing is broken."—*Bicycling World*, 6 March, 1891

"The machine is twisted out. of all resemblance to a bicycle, but so far as can be seen not a single break occurred."—*Referee*, 6 March, 1891.

SAFETIES No. 17 and No. 20, with Tangent Spokes and Solid Cushion, and Pneumatic Tyres, are the leading lines of the season.

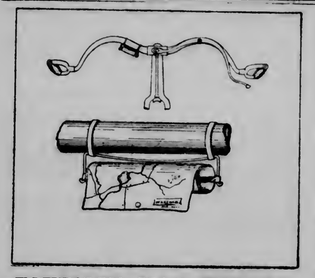
SPECIAL NOTICE TO THE TRADE.

The Manchester Cycle Company, Limited,

OF MANCHESTER, ENGLAND.

Have much pleasure in announcing that they have a large stock of the celebrated **"Irwell Safety"** on hand, ready for immediate delivery. Material and workmanship of the best. Guaranteed for twelve months against imperfections of any kind. The **"Irwell"** is the machine so popular in England for touring, on account of its strength, combined with lightness.



The Manchester Cycle Co., Ltd., are very desirous of introducing these wheels into every section of the country, and to do this quickly, and save correspondence, this announcement is made:

The price of the **"Irwell" is *$100,*** the discount to the trade is **25 per cent.** The Company want to sell through the trade only, and therefore will not supply any at retail in any town after an agent is appointed. *However*, until an agent is appointed, sample wheels will be furnished to any applicant at ***$75*** net, this being the lowest wholesale price. The machines will be crated, and are fitted with Garford saddle, tool-bag, oiler, wrench and bell. Built of Credenda steel tube, drop forgings and ball bearings all over.

After an Agent is appointed in any town, *no more* wheels will be *Retailed* at *Wholesale* prices.

Wheels sent C. O. D., with privilege of examination, on receipt of $10. Guaranteed Superior to most, and equal to any in material, workmanship and finish. Address,

The Manchester Cycle Co., Ltd., of Manchester, England. || American Office, 101 NORTH SEVENTH ST., Philadelphia, Pa., U. S. A.

TOURISTS' MAP HOLDER.

No dismounts necessary to examine your map. Rolls up like a spring curtain. Lay a strip of transfer paper over a map of your route for the day and mark route on paper, which you pin on to the ribbon. This holder is suspended on rubber and cannot rattle. Patent applied for. Sent by return mail for **$1.00.** Address

D H. SMITH, 235 High Street, Holyoke, Mass.

PATENTS Procured in the United States and Foreign Countries. Trade-marks, designs, labels and copyrights. Send description, with model, photograph or sketch, and I will let you know whether you can obtain a patent. All information free. **W. E. AUGHINBAUGH,** Baltic Building Washington, D. C.

A. H. JUNOD, 707 N. Main St., Pueblo, Colo.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them.

The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced Send for descriptive circular.

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.

Made in sizes suited to different machines.

AS CARRIED WHILE RIDING

Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c.
With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere. [Mention this paper.

THE UNIVERSAL WHISTLE.

Patented Dec. 11, '88.
The Best Whistle for Cyclists, Hunters, Horse-car Conductors, and every one who use Mouth Whistles. The Patent Mouth-Piece enables one to hold it in mouth without use of hands. Price, by mail, 25c. or $2.00 a dozen. A chance for any smart boy to make money. WHITTEN, GODDING & CO., Providence, R. I.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen, when you want to ride, run, walk, row, skate or swim a long distance, USE
ANTI-STIFF
To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

KIRKPATRICK SADDLES.

"Here take thine ease, 'tis well
That steel and leather can so much of comfort give."

"Its popularity is the best evidence of its merit." The words are true of many things, and surely so of the Kirkpatrick Saddle.

We commenced using it in 1886, and have used it ever since. It is more generally used to-day than any other saddle on the market.

Study the construction as applied to our 1891 Safety. A broad, flat spring for the base, with adjustment for tilting saddle to any angle. Strong, coiled steel wire fore and aft springs, each a single piece, and so attached to the bottom spring that the tension of the saddle is easily adjusted. Front hook firmly riveted to saddle. Steel forged cantle also riveted, at the back instead of on top. Seat of the best procurable leather, selected hides, and selected from the best part of the hide (only three, or at the most four of these saddles can be made from one hide), and formed to admit of shaping itself to every movement of the rider.

A perfectly adjustable frameless or hammock pattern seat, suspended between springs, and absorbing all vibration.

It is one of the many points which put Columbias in the lead.

IRVINGTON-MILBURN.

The great race of the East, competed for by machines of all principal makes.

FIRST—Fastest time is made on a Victor by A. W. Porter of Boston. This on a regular road machine. 25 miles, 1h. 27m. 11s.

SECOND—The prize for fastest time on solid tire won by A. W. Porter on Victor as above.

THIRD—The prize for fastest time on a cushion tire won by A. P. Craig on a Victor. Time, 1 hour 28 minutes 07 2-5 seconds.

FOURTH—The fastest time made on a Safety Bicycle was made by Chas. E. Kluge on a Victor Model B, with cushion tires. Time, 1h. 28m. 29 1-5s.

The Victor took all time prizes where entered. Anybody is welcome to whatever else they can find in the Irvington-Milburn race. No effort was made by the makers of Victor Bicycles to win this race—it snowed in as hundreds of others have done, being won by riders of regular road machines.

Victor Bicycles are fast. They are well made. They run easily. And are favorites with winners.

LOOKING BACKWARD. THE DETROIT PRESBYTERIAN ASSEMBLY.

Heresy is a crime that cannot be too violently dealt with. When a man becomes so depraved as to believe only that which looks reasonable to him, and honest enough to say what that is, he should be taken out and blown from the mouth of a cannon (now that burning at the stake is no longer considered the proper thing.)

Men who think *real* thoughts should not be permitted to run at large lest they teach others, and "the fruit of the tree of knowledge" should never be put on the free list. Now that truth has gotten so weak that when crushed to earth it might not be able to rise again, great care should be taken to prevent the sun shining on it.

When that estimable gentleman dropped dead in Detroit the other day while defending orthodoxy, the cause was understood to be an abnormal condition of the heart; but had it been some profane man who died while saying naughty words, we fear that some of our clerical friends might have misconstrued the cause and the motive.

When civilization gets to be worthy the name, society (i. e., the people) will have at least a profound sympathy for the man who thinks, and will blame him *only* when he *refuses* to give the world the benefit of his thought. Truth cannot suffer, but must ultimately stand at the mast head when error is not even on deck. When it is learned that facts cannot be rubbed out, and that nothing else can be forever bolstered up by no matter who; when honesty and brotherly love shall stand above cant and formality; when man shall know that his highest duty to God is to use, to the best advantage, such gifts as God has given him; and that there can be no heresy or sectarianism in relation to anything of which the world has positive knowledge; when manliness and love of humanity shall take the place of selfish fear and unreasoning faith in unsupported dogmas, then we will not be nauseated by the spectacle of five hundred able bodied men (for the sustenance of whom somebody has to saw wood) spending their time haggling over the question of whether an honest brother shall be allowed to *progress*. When it is understood that there is more religion in avoiding these contentions than there can possibly be in any thing which, by its obscurity, could be the *subject* of contention; when men cease to allow their anxiety about the unknown and unknowable to seriously interfere with their enjoyment of the known; when children are taught only such things as are known to their instructors, and allowed to do their own guessing; when parents are honest enough to admit their ignorance of matters about which they have no right to know; when a man shall not be cast out of a religious organization because he shows symptoms of having brains and a desire to use them; when dying capitalists who leave money to found institutions of learning shall not insist that they be anchored to their own tomb stones, and that their beneficiaries shall agree not to learn more than they themselves knew; when the *truth* shall stand above any man's *conception* of the truth, then will the world be brighter, better, purer and more fit for human occupancy, and its people may die in the full knowledge that they have done their best as to what they *knew*, unhampered by needless worry over what they couldn't find out.

Elliott Hickory Cycle Co.,
Newton, Mass.

P. S.—The above may seem rather a novel advertisement for Hickory Bicycles, but the fact is our advertising man has read so much in the newspapers about heresy during the last week that this was all we could get out of him.

DO YOU WANT SUNDRIES?

IF so, we can supply them at prices as low as the lowest. Besides the sundries listed in our catalogue we can supply any others on the market at lowest prices. Being manufacturers as well as importers and jobbers of these goods we can name as low prices as can be obtained in the United States. We make a specialty of supplying the

WHOLESALE TRADE,

Such as agents and dealers, and fill orders on the same day received. Polish, Lubricant, Enamel, Locks, Oil Cans, Wrenches, Trouser Guards, etc., are all very essential to a wheelmen, while for long rides and racing bicycle clothing, such as Hose, Pants, Sweaters, etc., are indispensible. Send for Catalogue and discount sheet.

LACTART

ACID OF MILK.

A REFRESHING DRINK WITH WATER and SUGAR

Call for Orange or Raspberry Lactart at the Soda Fountains.

Benson, of Corey Hill fame, says:

AVERY LACTART CO., Boston.

Gentlemen—"For several seasons I have used your Lactart and found it very satisfactory, as a quencher of thirst." Respectfully,

A. P. BENSON, Newton Club.

[CONTINUED FROM PAGE 175.]

rider of an ordinary, who rode like a demon considering the condition of the roads. Every man entered started.

Great excitement prevailed as the men got well under way, and much speculation was indulged in as to who would be first in.

At exactly 1h. 10m. 45s. after starting, W. C. Rands, of Detroit, sailed in on his pneumatic, capturing both the first prize and time medal; he was immediately followed by L. W. Schimmel on a pneumatic, and F. A. Richmond on a 51-inch ordinary, and G. E. Mitchell on a cushion tired safety. The excitement at the finish was intense as the riders came down the course in groups of two, three or four, each man using his utmost exertion to win. The position at finish was:

W. C. Rands, scratch, time 1h. 10m. 45s.; L. W. Schimmel, scratch, time 1h. 15m. 30s.; F. A. Richmond, handicap 7m., time 1h. 23m. 25s.; G. E. Mitchell, handicap 4m., time 1h. 21m. 20s.; F. N. Heyman, handicap 3m., time 1h. 20m. 52s.; G. E. Lane, scratch, time 1h. 17m. 53s.; Dennis Marshall, scratch, time 1h. 18m. 10s.; C. E. Richmond, handicap 4m., time 1h. 22m. 11s.; Burt Hulett, scratch, time 1h. 22m. 12s.; W. L. Marr, handicap 1m., time 1h. 19m. 13s.; H. D. Osburn, handicap 1m., time 1h. 20m. 5s.

They were winners of the prizes in the order named: First prize, one American Light Rambler, (donated by Gormully & Jeffery Mfg. Co., Chicago, Ill.,) $135; second prize, one Clipper (donated by Grand Rapids Cycle Co., Grand Rapids, Mich.,) $90; third prize, one No. 2 Kodak, $32.50; fourth prize, one pair opera glasses, $18; fifth prize, one clock, $12; sixth prize, one L. A. W. pin, $7.50; seventh prize, one full nickeled bicycle lantern, $5.50; eighth prize, one pair bicycle shoes, $4; ninth prize, one L. A. W. pin, $3.50; tenth prize, one perfection bicycle alarm, $2.50; eleventh prize, one Lamson luggage carrier, $1.25; one time medal, $25. "R."

THE COLUMBIA'S TOURNAMENT.

THE New York Athletic Club's team and other crack riders will take part in the Columbia Club's race meeting at Hartford, July 4. Entries close June 27, with C. F. Tucker, P. O. box 54, Hartford. W. S. Maltby has been engaged to exhibit his marvels of fancy riding. Following is full list of races and prizes:

One mile safety, 3.20 class. Pneumatics barred. First prize, angling outfit; second prize, silver berry dish; third prize, silver cracker jar.

One mile safety, city reporters. Pneumatics barred. First prize, gold medal.

One mile ordinary, L. A. W. State Championship. First prize, gold medal; second prize, silver medal.

One mile safety handicap. First prize, 14 karat gold stop watch; value $100; second prize, hand engraved Colt revolver in case; third prize, steel engraving.

One mile ordinary handicap. First prize, Kodak camera; second prize, silk umbrella; third prize, hand made fly rod.

One mile safety team race, open to Connecticut clubs only. Pneumatics barred. First prize, steel engraving; second prize, bronze statuary.

One mile safety, open. First prize, alligator travelling bag, filled; second prize, silk umbrella; third prize, silver toilet set.

Half mile safety, L. A. W. State Championship. First prize, gold medal; second prize, silver medal.

One mile ordinary, open. First prize, Colt magazine rifle; second prize, dress suit case; third prize, diamond scarf pin.

One mile safety, championship of Hartford. Pneumatics barred. First prize, gold medal; second prize, Lakin cyclometer; third prize, steel engraving.

Two mile safety handicap. First prize, silver tilting ice water pitcher; second prize, elegant parlor lamp; third prize, silver carving set.

MILBURN-IRVINGTON—THE RECORD GOES.

THERE was a very small crowd at the great Milburn road race in comparison to those at previous races run on that course. This was due to the threatening weather as there is no doubt but that, had the weather been at all promising on Saturday morning last, one of the greatest crowds ever assembled on the course would have gathered. As it was, the road was thronged with people on foot, on bicycles, and in all sorts of vehicles, to the number of some ten hundred. The starting point is also the finishing point, and there the crowd jammed one another into such a compact body that it was marvellous that in the scattering which ensued, when the marshals would clear the course for the riders, that no accidents occurred. The course was muddy. There was an idea that the record would go, but calculations were all shattered when two men, A. W. Porter, Newton, Mass., in 1.27.11, and A. B. Craig in 1.28.7 2-5, succeeded in lowering the record of 1 hour, 28 minutes, and 29 seconds, made by W. Murphy, and some half dozen riders made some very fast time.

The race was started at 11.40, sixty-seven starting. Great interest was centred in Charley Kluge and W. Van Wagoner at the start; it continued all during the contest for the former, but Van was "not in it" after five miles. The riders set up a nice pace from the start, all riding the first five miles in good time. Kluge finished the first five in 17m. 38s.; T. Hall in 18m. 6s.; and W. Van Wagoner in 17m. 39s. When ten miles had been rolled off, the sun had displayed itself, and its strong rays were rapidly drying up the course, making a big improvement in the road as well as the times. Dampman clung right on Kluge in great style for twenty miles, and some enthusiastic supporters of the Schuylkill navy man were anxious to wager money that he would beat the Jerseyite on the sprint. He failed to do so. The Kings County Wheelmen had few men in the race. Their hopes were centered in "Billy" Finn, but to my own surprise he did nothing to speak off. Last season he was rated as their dark horse, and was looked to to win; he finished fifteenth, in 1.32.53, but it was asserted he was on a strange mount. This year he finishes one position better in slower time. Finn is a strong rider, but I think an over-rated one.

F. C. Graves was a stranger, got a stranger's handicap and start, and it might be said that he accomplished a strange thing, viz., defeating E. D. McLean, whom it was thought had the race.

Charley Kluge surprised a great many by his failure to lower the record. He came pretty close to it, but then, with his preparatory work, he should have done better. The pneumatic tired wheels were penalized too much, the cushions just about enough. It was regretted that the Murphy boys were not in the race.

The following table will show the positions of the men, their penalty handicap, times, and prizes:

Order finish	Name	Club	Handicap m	Actual time h.m.s.	Net time h.m.s.	Wheel penalty m
1	F. C. Graves		9	1.34.35	1.30.35	1—safety
2	D. McLean, K. C. W.		7	1.34.44 1-5	1.28.41 1-5	1—gold watch
3	A. W. Porter, Newton		3	1.36.11	1.27.11	0—marble clock
4	G. Collin		10	1.36.50	1.33.56	1—camera
5	L. Geyler, C. W.		9	1.36.51	1.32.51	1—gold watch
6	C. Swain, A. W.		8	1.36.52	1.31.52	1—camera
7	C. Coggeshall, O. W.		8	1.37.15 1-5	1.33.15 1-5	0—banquet lamp
8	A. P. Craig, Brooklyn		3	1.38.07 2-5	1.28.07 2-5	1—fishing outfit
9	W. Peck, B.M.C.L.		10	1.38.54 1-5	1.35.54	1—easel [graph
10	F. Mastin, G. W.		4	1.39.40	1.30.40	1—fly-back chrono-
11	G. Holland, B. R.		6	1.40.19	1.34.19	0—mantel clock
12	H. Blakeman, K. C. W.		9	1.40.38 2-5	1.37.38 2-5	0—camera
13	A. Boiseman, N. Y.B.C.		9	1.40.43	1.37.43	0—pair vases
14	W. Finn, K. C. W.		4	1.41.01 1-5	1.33.01 1-5	1—bicycle lamp
15	C. Quimby, B. B. C.		9	1.41.05	1.37.05	1—jersey suit
16	W. Seeds, W. W. C.		1	1.41.13	1.29.13	1—cyclometer
17	C. Kluge, J. C. A. C.		0	1.41.29	1.28.29 1-5	1—jersey suit
18	W. Steves, K. C. W.		5	1.41.29	1.34.29	0—sweater
19	F. Dampman, A.C.S.N.		3	1.41.29 2-5	1.28.29 2-5	4—bicycle lamp

A. W. Porter receives the prial cup for the best time on a solid tire, F. M. Dampman the cup purchased from fees for best time on a pneumatic, and A. P. Craig the Warwick cup for best time on the cushion tired wheel.

PROGRAMME OF RACES AT DETROIT.

First day, July 17.—25-mile road race; an observation train will follow the racers; one-mile novice, safety; one-mile novice, ordinary; one-mile club handicap, D. W., safety; one-half mile L. A. W. championship, ordinary; one-mile open, safety; one-half mile open, ordinary; one-mile L. A. W. championship, safety; one-mile handicap, ordinary; one-quarter mile L. A. W. championship, safety; one-mile, three-minute class, ordinary; three-mile lap, safety.

Second day, July 18.—One-mile open, ordinary; one-half mile L. A. W. championship, safety; one-mile club handicap, D. W., ordinary; one-mile three-minute class, safety; one-mile L. A. W. championship, ordinary; one-half mile open, safety; one-quarter mile L. A. W. championship, ordinary; one-mile handicap, safety; three-mile lap, ordinary; one-mile L. A. W. championship, tandem; one-mile consolation, ordinary; one-mile consolation, safety. There will be seven national championships in all.

RACING AND MEET NEWS AND GOSSIP.

AT ATLANTIC CITY, N. J.—Saturday was held the first annual tournament of the Atlantic City Wheelmen and the affair was a success from a financial point of view and as a race meet. Nearly 3,000 people witnessed the sport. The events:

One-mile safety, 3.30 class—Rolan Hewitt, A. C. W., first; C. E. Clemens, M. A. C., second. Time 3m. 10 1-2s. Hewitt won easily.

Half-mile safety, scratch—Samuel H. Crawford, A. D. Y. M. C. A., first; J. C. Donnelly, Oxford W., second. Time 1m. 26 3-4s. Crawford got away first and was never caught.

One-mile ordinary, handicap—M. J. Bailey, Century W., first; E. Stiger, Manhattan A. C., second. Time 3m. 3 4-5s. (Handicaps not given.) Bailey pedalled in splendid style, and was among his men in the second lap, winning by four yards.

One-mile safety, handicap, open—Willie Owens, Columbia C., first; C. E. Clemens, M. A. C., second. Time 2m. 57 3-5s. This was the best race of the day. Owens rode well for a boy of fifteen years and won by ten yards.

One-mile novice safety—Harry Boyer, Columbia C., first; Charles Cramer, A. C. W., second. Time 3m. 16 1-5s. Cramer was no match for Boyer, who won as he pleased.

Two-mile safety handicap—Rolan Hewitt, A. C. W., first; J. C. Donnelly, Oxford W., second. Time 6m. 37 1-2s. (Handicaps not given.) Hewitt put on full steam from the crack of the pistol, and riding without a mistake, made the best of his way home. Donnelly chased him very close, and was only beaten by inches.

Half-mile safety, boys under sixteen years—Willie Owens, Columbia C., first; Thomas Sheen, A. C. W., second; Harry Gormly, Victor W., third. Time 1m. 42 3-5s.

One-mile tandem, scratch—Garriques and Bailey, C.W., first; Gray and Steigler, M. A. C., second. Time 3m. 9 4-5s. A ding-dong race all the way, the Century boys just getting home by a few inches.

Quarter-mile safety, scratch—S. H. Crawford, A. D. Y. M. C. A., first; J. C. Donnelly, Oxford W., second. Time 1m. 42 2-5s.

Five-mile safety handicap, open to Atlantic City only—C. Cramer, first; S. T. Jones, second; W. H. Edwards, third. Time 17m. 15s. (Handicaps not given.)

AT SYRACUSE, N. Y.—The following is the result of the Syracuse Cycling Club's membership contest:

Half mile ordinary—George B. Penn, first, time 1.37; R. P. Judd, second.

One mile safety club championship, first heat.—R. A. Bonta, first, time 3.41; W. H. Johnson, second. Second heat—R. A. Bonta, first, time 4.03 1-2; W. H. Johnson, second; George B. Penn, third, time 4.04 1-5.

Two mile ordinary handicap—R. P. Judd, 100 yards, first, time 6.51 1-2; H. R. Schell, 150 yards, second; G. H. Avery, 200 yards, third.

Half mile safety—George B. Penn, first, time 1.29 1-4; C. A. Benjamin, second; J. J. Laas, third.

Two mile safety handicap—Fred Penn, 100 yards, first, time 6.50 3-4; Dr. George E. Nearing, 200 yards, second; J. J. Laas, 200 yards, third.

J. W. Sheerwood, runner, half mile, 280 yards, first; time 1.21 1-2; C. A. Benjamin, bicyclist, half mile, scratch, second; time 1.33.

It will be seen from the above that George B. Penn has at last relinquished his claim to the club championship for the present, at least, in favor of R. A. Bonta, whose splendid riding entitled him to every laurel won. It will be necessary, however, for him to win the championship badge twice more before he can hold it. "SALINA."

THE RUTHERFORD, (N. J.) wheelmen held a 100 mile road race yesterday over a three-mile course between Avondale and Belleville, N. J. There were five starters. Ed. Burgess was sent away at eight o'clock A. M., with 45 minutes handicap; J. T. Holden at 8.15, with 30 minutes, and G.

De W. Brown, R. R. Leeds and L. M. Mier, the scratch men, at 8.45. The roads were in very bad condition. Holden had covered 32 miles when his stomach began to trouble him, and he was forced to stop. He had then gained five minutes. Burgess quit at 38 miles, but the others rode the full distance. Leeds finally won the race from Brown by two feet in 9h. 15m. 1s.

At the finish the spectators crowded so closely that Leeds' wheel was thrown into Brown's, and both came down with a crash. Leeds escaped with a few bruises and a shaking up, but Brown injured his arm severely.

AT PHILADELPHIA.—On Thursday afternoon, May 28th, at the annual spring games of the Manual Training School, held on the Stenton grounds of the A. C. S. N., the following were the cycling events:

One-mile ordinary—J. McLennan, 40 yards, first; G. H. Johnston, scratch, second. Time, 3m. 29 2-5s.

One-mile safety, open—J. H. Draper, A. C. S. N., 30 yards, first; W. W. Taxis, A. C. S. N., scratch, second; J. C. Donnelly, O. W., 60 yards, third. Time 2m. 58 2-5s.

One-mile safety—J. Good, 50 yards, first; J. Graham, scratch, second. Time, 3.23 2-5.

One-mile ordinary, open—V. J. Kelley, A. C. S. N., 60 yards, first; W. W. Taxis, A. C. S. N., scratch, second. Time, 2m. 57 3-5s.

AT GRAND RAPIDS, MICH.—The Detroit Wheelmen sent over six men to compete in the Grand Rapids Decoration Day road race. They secured five prizes and the time medal, not slow for a bicycle club, especially when all but one were comparatively new riders and had had no experience in racing. W. C. Rands and S. W. Schimmel won first and second respectively. They rode pneumatic tired safeties weighing over forty-five pounds, and started at the scratch with the best riders in the State, all the rest of the 24 starters with three exceptions, having handicaps from one to eight minutes. Detroit Wheelmen naturally feel proud of their club members.

AT WALTHAM, MASS.—Saturday last the Waltham Cycle Club gave two races. The first event, 16 mile handicap open to Waltham riders only, and resulted: B. Bullock (8m. 30s.), first; C. W. Bowles (8m. 30s.), second; F. Robinson (6m.), third; A. P. Benson scratch, best time 1h. 1m. 27s; Bullock's time, 1h. 7m. 38s.; Bowles' time, 1h. 7m. 39 1-2s.

The next event was a 4-mile handicap for club members only.

Harry Ogden, with a start of one minute came in first, time 15m. 56s.; W. Pride, second in 16m. 34s., and S. Searles, third, in 16m. 57s. Frank Swan, the scratch man, was looked upon as a sure winner in this event, but as he took part in the 16-mile race he was not able to do his best.

AT PHILADELPHIA.—The sixth annual field meeting of the A. C. S. N., at Stenton, on Decoration Day, attracted a large audience, and the meet was a very successful one. The bicycle races: One-mile safety—J. H. Draper, A. C. S. N., 30 yards, won; W. W. Taxis, A. C. S. N., scratch, second; V. J. Kelley, 10 yards, third. Time, 3m. 1 2-5s. Taxis on a pneumatic had to retire 100 yards back of scratch, and as Draper rode in fine form he was never caught.

Two-mile ordinary, handicap—W. W. Taxis, A. C. S. N., scratch, won; V. J. Kelley, A. C. S. N., 90 yards, second. Time 7m. 19 1-5s

AT INDIANAPOLIS, IND.—The Indianapolis Zig Zag's five-mile handicap road race, Decoration Day, was won by Edwin Igleman, a "dark horse" limit man, actual time, 18.52. The time medal was won by Captain Hunter, scratch, actual time, 17.58. Two days' continual rain previous to the race made the road heavy and slow. Pneumatics were penalized 45 seconds, and cushions the same. The race was a hot one, four starters being confident and determined. Koerner and Fletcher fell from their wheels at the finish and required medical attendance. Summary: Igleman, (handicap 2 min.), actual time, 18.52; Hunter (scratch), 17.58; Hay (scratch), 18.34; Fletcher (2 min.), 20.36; Ribble (30 sec.), 19.11; Koerner (15 sec.) 19.07; Willitts (1 min.), 20.17; Schultz (2 min.), 20.59.

AT SYRACUSE, N. Y.—The Onondaga Cycling Club of Syracuse, N. Y., held their first annual 10 mile road race for the club championship Wednesday, May 20th, on the plank road to Centreville and return. There were eleven entries. Wm. J. Kuntzsch mounted on an ordinary won first prize, a gold medal, in 35.20; Captain Bex, second, a silver medal, 36.10; G. R. French, Jr., third, silver medal, 37.00; fourth prize silver medal, J. Scharonn, time 37 20; fifth prize, silver medal, A. Milley, Jr., time 40.10.

French and Bex rode cushion tired safeties. Kuntzsch rode the only ordinary in the race, and was apparently as fresh at the finish as when he started. French had a clear lead for second place, but fell off his wheel twice within 50 feet of the home stretch, and Bex pushed by him, securing second place.

AT LOUISVILLE, KY.—The road race of the Independent Cyclers of Louisville, Ky., took place last week. Result: T. E. Jefferis, 1; W. Ruby, 2; G. Laib, 3. Threemiles on a rough road for a silver cup. Time, 11 minutes.

The next race will be a handicap race over the same course, 3 miles for gold medal and five other prizes June 20th. It will be open only to I. C. members; 3-minute limit handicap.

The I. C. have on file 19 applications, which will give them a membership of 54. The meet on June 26-27 is booming cycling here. The electric lights are an assured success for racing, as the last ten nights have brought out all our local riders, who pronounce it first class.

W. E. CASTLE, Pres.

AT MEMPHIS, TENN.—At last the ten (10) mile handicap road race has been run, and won by Thos. Deupree, Jr.

This race has been on the go since 1889 for a gold medal given by the racing association of the city, to become the property of the one winning it (3) three times. Until yesterday it had been won by seven or eight riders once, and by three, Deupree, Woods, and Whitehead, each twice; it was decided to let the three last named run it off, as the one winning this time was the owner of the medal.

The course was on the Poplar Boulevard and the time set for 4 P.M.; but being a little warm, it was not started until 5 sharp. All three were sure of winning.

A start was made by sending Deupree out 20 seconds ahead of Woods, and he (Woods) going out about 58 seconds ahead of Whitehead. It was a nice start, Woods almost catching Deupree before going out of sight. At the turn of five (5) miles Woods and Deupree were within speaking distance, Whitehead holding his own. On the return five miles Deupree put on steam and finished first, and at the wind up found he had gained ten (10) seconds on the whole race over Woods. Whitehead also gained on Woods. The road was very rough, and the time was fair, best time being 40.38 made by Deupree. This was a surprise to all wheelmen. Every one thought Deupree would win, but that Wood would make the time.

"ANCHOR."

AT SYRACUSE, N. Y.—At the field day of the Syracuse, N. Y., University held at Kirkwood Park, May 16, W. J. Kuntzsh won first prize and R. A. Bonta second. Time, 3.43, owing to rough track and strong wind. Kuntzsch was scratch man on a solid tired safety, and Bonta was handicapped 100 yards with a pneumatic tire.

AT LEWISBURG, PA.—The third annual meet of the Central Pennsylvania Wheelmen took place at Lewisburg, Pa., May 30. Fifty wheelmen from different parts of the State participated in the ten events.

The first event was a hill climbing contest. There were three entries, and the event was won by Zimmerman, who rode clean to the top of the hill.

A ten mile road race out the Lewisburg pike followed, which was won by R. Wilson. Time, 44 minutes, 22 2-5 seconds.

The remaining eight events took place on the fair ground, and were as follows:

One-mile safety, won by Wagner of Williamsport. Time, 3m. 29s.

One mile ordinary was won by R. Widon by three inches, Anderson second. Time, 3m. 22 1-5s.

One mile safety, open, was won by W. Wilson. Time, 3m. 15s.

One mile safety championship, won by W. Wilson. Time, 3m. 25s.

One-half mile safety for boys, won by Howard Rombach, Watsontown.

One mile ordinary championship, won by R. J. Wilson, followed closely by V. S. Anderson of Bucknell.

One mile safety championship of Union County was won by Aug. Meixell.

One mile consolation safety had two entries, was won by Bowman, Williamsport, followed by Weldon.

TRADE NOTES.

FAIRBANKS & SANBORN of Boston have got out a splendid air pump for use on pneumatic tires. Those who have used it speak in the highest terms of its efficiency.

THE Victors took the usual goodly share of "pie" at the Irvington-Milburn race last Saturday. Fastest record time made by a Victor solid tire with A. W. Porter riding. Fastest record time on Victor cushion tire by A. W. Craig. Fastest time on safety Victor model B cushion tires by C. E. Kluge.

MISS LANE came through with the tourists from Worcester to Boston last Sunday mounted on a Featherstone pneumatic in a way that demonstrated the excellent riding qualities of this wheel. Many of the men on other wheels had to scrabble to keep up with the lady.

G. M. WORDEN rode a Featherstone pneumatic *road machine* when he won the Massachusetts Division championship at Worcester last Saturday. He also rode the same machine in the handicap race. In both events he had full racing wheels pitted against him.

THE Warwick safety got there first in the great Milburn-Irvington race. F. C. Graves, the winner, rode one of those sterling wheels fitted with the cushion tire. We congratulate the Warwick people on securing first place in that great event.

THE Premier Cycle Co. are selling great numbers of their popular "Cushioned Universal" safety which retails at $100 fitted with 1 1-8 and 1 1-4 cushion tires, all balls, and either Garford or Fish Saddle as riders prefer. Their well-known reliability makes them largely ordered by the trade, who are finding an increasing demand for a good low-priced wheel like the Universal Premier.

CORRECTION.—In our trade notes and description of the Buffalo cycles we should have spoken of the firm making same as the "Buffalo Cycling Works." We are also requested to state that the machine we illustrated weighed 36 4 pounds all on. The wheel as represented in cut would weigh 35 pounds.

FIXTURES.

JUNE.

8—Annual Spring Meet Connecticut Division L. A. W. and New Haven Bicycle Club Tournament at New Haven, Conn.

8—The New Haven (Ct.) Bicycle Club Tournament. Address E. J. Perkins, 173 Olive street, New Haven, Ct.

10 and 11—Tennessee Division Meet and races at Nashville, Tenn.

13—Fourth annual century run Newark, N. J., to Philadelphia, Pa. W.

13—20-mile handicap road race Duquesne Cyclers, Pittsburg, Pa.

E. Fuller, 52 Wall street, New York.

15-17—Three days' Athletic Meet at Buffalo, N. Y.

16, 17—Annual Meet of the Iowa Division L. A. W. at Newton, Ia.

17—Norfolk County (Mass.) Wheelmen's race meet, Hyde Park, Mass.

18—New Hampshire Division Meet, Concord, N. H.

20—Century Wheelmen (of Philadelphia) annual Race Meet at grounds of Tioga A. A. C. W. Dalsen, 1507 Columbia avenue, Philadelphia.

20—Independent Cyclers, Louisville, Ky., 3-mile road race.

26 and 27—Kentucky Division Meet at Louisville, Ky.

27—Cycling and Athletic Meet of Kings County Wheelmen at Washington Park, Brooklyn. John Bensinger, 1255 Bedford avenue, Brooklyn.

27—South End Wheelmen's Race Meet at Philadelphia. C. A. Dimon, 1726 S. Broad street, Philadelphia.

27—First Race of the Boston Road Racing Association. George H. Perry, Medford, Mass.

JULY.

2, 3 and 4—Race Meet of the Hagerstown Bicycle Club and 3d Racing District, Hagerstown, Md.

3, 4—Annual Meet of the Illinois Division L. A. W. at Rockford, Ill.

3 and 4—Missouri Division Meet at Carthage, Mo.

4—Second annual Poorman handicap Road Race at Cincinnati. J. E. Poorman, Cincinnati.

4—Tournament at Charter Oak Park, Hartford, Conn., under the auspices of the Columbia Cycle Club.

4—California Division Meet at Stockton.

4 and 5—Postponed races of the Denver Cyclist's Union tournament.

10 and 11—Tennessee Division meet at Nashville, Tenn.

13, 14, 15—Annual Meet of the Ohio Division L. A. W. at Columbus, Ohio.

16, 17 and 18—Annual League Meet and National Championships, Detroit, Mich.

July 24 and 25—Annual Bicycle Meet of Chicago Cricket Club at Parkside. J. G. Davis, Parkside, Chicago, Ill.

22 and 23—Wisconsin Division Annual Meet and Green Bay Cycle Tournament at Green Bay.

Division Officers.

Consuls and agents should draw upon Division Officers for supplies of Application and Renewal Blanks, and for League literature of all kinds. Post Office addresses will be found below:

CALIFORNIA—Chief Consul, Thos. L. Hill, Odd Fellows' Bldg, San Francisco. Secretary-Treasuer, Oswald Granicher, 15 So. First street, San Jose.

COLORADO—Chief Consul, Edward S. Hartwell, 125 West Twelfth avenue, Denver.

CONNECTICUT—Chief Consul, Arthur Allen Dean, Danielsonville. Secretary-Treasurer, Edward A. De Blois, Drawer 11, Hartford.

DELAWARE—Chief Consul, S. Wallis Merrihew, 906 Jackson street, Wilmington. Secretary-Treasurer, Chas. S. Wilson, 813 Franklin street, Wilmington.

DISTRICT OF COLUMBIA—Chief Consul, George S. Atwater, 1424 Pennsylvania avenue, Washington. Secretary-Treasurer, W. H. Stearns, 1421 G street, N. W., Washington.

ILLINOIS—Chief Consul, Wm. A. Davis, 340 South Leavitt street, Chicago. Secretary-Treasurer, Thomas F. Sheridan, 1411 North Fourth street, Springfield.

INDIANA—Chief Consul, Harry T. Hearsey, 116 No. Penn street, Indianapolis. Secretary-Treasurer, Arthur C. Newby, 507 No. Alabama street, Indianapolis.

IOWA—Chief Consul, H. L. Chase, Cedar Falls. Secretary-Treasurer, C. H. Curley, Prairie City.

KANSAS—Chief Consul, C. S. Davis, Junction City. Secretary-Treasurer, W. S Lydecker, Junction City.

KENTUCKY—Chief Consul, Andrew J. Lamb, 803 6S, Louisville. Secretary-Treasurer, G. E. Johnson 1919 Floyd street, Louisville.

LOUISIANA—Chief Consul, Frank B. Born, 214 Louisiana avenue, New Orleans. Secretary-Treasurer, C. P. Chapman, 847 Carondelet street, New Orleans.

MAINE—Chief Consul, Howard M. Breen, 199 Franklin street, Portland. Secretary-Treasurer, Bates Torrey, 190 High street, Portland.

MARYLAND—Chief Consul, Albert Mott, 203 Lenox street, Baltimore. Secretary-Treasurer, Wm. J. Unvetzagt, 27 South Charles street, Baltimore.

MASSACHUSETTS—Chief Consul, A. W. Robinson, 21 Milk street, Boston. Secretary-Treasurer, Chas. S. Howard, Globe office Boston.

MICHIGAN—Chief Consul, A. B. Richmond, 370 So Lafayette street, Grand Rapids. Secretary-Treasurer C. A. Conover, Coldwater.

MINNESOTA—Chief Consul, T. M. Slosson, Box 388, Minneapolis. Secretary-Treasurer, E. S. Gregory, Winona.

MISSOURI—Chief Consul, Robert Holta, 908 La Salle street, St. Louis. Secretary-Treasurer, J. H. Kelley, Smith Hardware Co., Sedalia.

NEBRASKA—Chief Consul, A. H. Perrigo, 1315 Dodge street, Omaha. Sec.-Treas, C. B. Nicodemus, Fremont.

NEW HAMPSHIRE—Chief Consul, Frank A. Mc Master, 101 Ash street, Nashua. Secretary-Treasurer, R. H. Scott, People's Ins. Co., Manchester.

NEW JERSEY—Chief Consul, Dr. G. Carleton Brown 116 Broad street, Elizabeth. Secretary-Treasurer Geo. C. Pennell, 414 South Broad street, Elizabeth.

NEW YORK—Chief Consul, W. S. Bull, 75 Main street, Buffalo, N. Y. Secretary-Treasurer George M. Nisbett, 50 Wall street, New York City.

OHIO—Chief Consul, M. A. High, 165 Vine street, Cincinnati. Secretary-Treasurer, Dr. W. D. Kempton, 53 West Ninth, Cincinnati.

PENNSYLVANIA—Chief Consul, Samuel A. Boyle, Ass't Dist. Atty, Philadelphia. Secretary-Treasurer, John J. Van Nort, Scranton.

RHODE ISLAND—Chief Consul, Geo. L. Cooke, Box 1101, Providence. Secretary-Treasurer, Nelson H. Gibbs, 218 Westminster street, Providence.

TENNESSEE—Chief Consul, Chas. J. Sherer, 211 Main st., Memphis. Secretary Treasurer, Thomas J. Dupree, 338 Front street, Memphis.

TEXAS—Chief Consul, E. W. Hope, Sherman.

UTAH—Chief Consul, Harry C. Creary, Box 281 Salt Lake City.

VERMONT—Chief Consul, F. A. Hubbard, Brattleboro. Secretary-Treasurer, E. D. Whitney, Brattleboro

VIRGINIA—Chief Consul, Law: L. Waring, Norfolk.

WEST VIRGINIA—Chief Consul, J. M. Belleville, 42 No. Front street, Wheeling.

WISCONSIN—Chief Consul, W. L. Simonds, 382 East Water street, Milwaukee. Secretary, F. J. Morawetz 537 Milwaukee street, Milwaukee.

FOREIGN MARSHAL—Joseph Pennell, care J. S. Morgan & Co., 22 Old Broad street, London, E. C. England.

L. A. W. Renewal Blank, 1891.

Fill out this blank, enclose $1 to pay your dues to April 30, 1892, and send to ABBOT BASSETT, Box 5267, Boston, Mass.

Don't send soiled bills. New bills are safer in the mails. A dollar bill is as safe as a postal note.

Don't Forget to send your Number.

Don't send checks for $1.

Write very plainly—PRINTING PREFERRED.

Stamps of a denomination above two cents will not be received.

If you live in one State and have your mail sent to another, state the fact that you may be located with the Division in which your home is.

If you desire your address changed, you must make the request on another sheet than this. Put new address on blank.

Ticket holders, 25 cts.; with name stamped, 50 cts.

Write nothing above this line.

*Number*_____

Name,_____

Street and Number or P. O. Box,_____

City,_____

State,_____

*Club*_____

Application for Membership in the L. A. W.

ABBOT BASSETT, Secretary, Box 5267, Boston:—*Enclosed you will find $ . . . . . for initiation fee and dues in the League of American Wheelmen to April 30, 1892. I hereby certify that I am over 18 years of age, and that I am an amateur within the meaning of the League definition. I refer to the persons named below.*

Date..... *Name*,.....

Club,..... *St. and Number, or Box*,.....

References:..... *City*,.....

State,.....

Enclosed ..... *for Holder*

(Each Applicant must give as references the names of two L. A. W. members or three reputable persons.)

MEMBERSHIP FEE.—The initiation Fee is $1.00; the Annual dues are $1 during the first half year, May 1 to Oct. 30, and 50 cents during the second half, Nov. 1 to April 30. Enclose $2.00 with this blank on any date between date of paper and April 1, 1892. Write plainly—Printing preferred.

☞ If you want a waterproof ticket holder, made of the best calf skin, with a receptacle for ticket, where it can easily be exposed to view, and pocket for personal cards, send 25 cents extra. If you want your name in gold, stamped on the holder, send 50 cents xtra. *Leave the margin in using this blank.*

Union Cycles Win the Race.

"DID IT EVER OCCUR TO YOU?"

If not, read this:

The one-mile scratch at Harvard, May 23.
The one-mile handicap at Harvard, May 23.
The half-mile scratch race at Worcester, May 30.
The Pullman Road Race, May 30.
The Waltham four-mile handicap race, May 30.

Longest runs ever made by Roodhouse, Ill. Wheelmen in one and same day were made on UNION WHEELS.

This is the pure, unadulterated, simple, irreproachable, unquestionable, incontrovertible, irrefragible, immutable, untarnished TRUTH.

Witness our signature,

UNION CYCLE MANUFACTURING CO., Highlandville, Mass.

HANDSOMEST SAFETY MADE.

WHY is the NEW MAIL at $100

The Best Value in the Market at the Price or Anywhere Near It?

BECAUSE IT HAS Cushion Tires which annul jar and vibration, giving life and elasticity to whole wheel, and are to be the Favorite Tires for 1891, and we Warrant Them. Our Cushion Tires are Right and the Best.

BECAUSE IT HAS Tangent Spokes strongly tied and Nickelled to intersections. Stronger and handsomer than direct spokes as used on cheaper wheels. Select Tangent Spokes Always!

BECAUSE IT HAS a Brazed Frame at all joints. Look our and get a Brazed Frame always to stand road wear, and at *every point* of the frame!

BECAUSE IT HAS a Standard Easy Saddle, the Garford, which is a Favorite.

BECAUSE IT HAS the Popular New Mail Shape Handle Bars, low and well back to rider.

Study all these points on examining the wheels in the market and see if you find them in Any Other. The BEST YET!!! If your dealer has not got it ask him to show one before you decide.

Editorial Contributor, F. A. EGAN.

BOSTON, 5 JUNE, 1891.

"NOT constitutional." That is what the Rights and Privileges Committee have decided in regard to Rule G in the new Racing Rules; and as we have already expressed our opinion and given the reasons for the same, we have nothing further to say just at this time except Amen!

THERE is no doubt but that the air valve of the pneumatic tire needs improving. In its present form much of the annoyance, if not all of it, comes from leakage at that point. The riders are not careful enough in keeping the plug in, and when using the air pump they do not look to it th at the dust or grit does not fall down into the tube and prevent close and tight connection of the valve itself. We notice that the inventors are paying attention to this detail of the air tire, and the sooner the proper air tube and valve is applied to the pneumatic the sooner one of the causes of complaint will be removed. The device must embody simplicity and effectiveness, for as we have before pointed out, the average human being is averse to taking trouble, and as cyclers are human beings, the moral is obvious. It has been suggested by others that a release valve be put in the rim, so that when the wheel has been put away for a day or more the pressure could be released, and the tire rested. This is an excellent suggestion, and one that will be endorsed by common sense. The wheel, however, in the "released" condition should not be allowed to rest on the tire. It should be suspended by the frame and handles. Whether riders would be willing to take this trouble remains to be seen. The presence of the release valve, however, would in no way interfere with the usefulness of the tires, and it could be used or not according to the temperament of the owner.

HOW long it took to make the railway companies see the mistaken idea that they had formerly, that the growth of wheeling meant a danger to their passenger traffic? Now they have learned, thanks to educating powers of the L. A. W., that not only does the spread of cycling not bring injury to the passenger traffic of the railways, but, to the contrary, actually tends to an appreciable increase thereof. Thousands of wheelmen throughout the land, during the long riding season, make pilgrimages by rail to places famous for their good roads, avoiding the poorer ones between their homes and the favored locality by making use of railway transportation; many again plan runs into the surrounding country, coming back by rail, thus saving time or avoiding a return over the same route. Of all these thousands of passengers, not one per cent. of them would ever make these trips from any other cause than their wheeling interests. Race meets and tournaments bring thousands of dollars into the coffers of the railways that would never reach there if it were not for cycling. Think of the money that the National Meet each year, or the great road races like the Pullman and Irvington-Milburn, turn into the railroad managers. In return for all of this expenditure, the wheelmen asks from the magnates of our trunk lines but little. He would have them transport, free of charge, the cause of all this money making—his wheel. He does not seek special rates for enormous amounts of baggage, as do the drummers and theatrical people; he does not demand free passes for himself like those who ship goods over the road; he desires no favors of any kind, simply justice, and yet it took many days of laborious education on the part of the brightest minds in the L. A. W. to convince the railway people of the truth of all of this. To these educators, we of to-day owe a debt, the magnitude of which very few of us, I fear, fully appreciate, and the payment of which is more often made by abuse of the good old League, than the praise thereof.

THE field of usefulness of the cycle as a practical vehicle is rapidly widening, and the latest evidence of this is the fact that the Houston (Tex.) Fire Department has formed a cycle corps. A trial was made the other day, and the corps consisted of two tandems and several singles. Tandem No. 1 was fitted with two axes, two hooks, and a length of knotted rope with hook attachment. Tandem No. 2 carried a small reel and 100 feet of 1 1-4 inch hose, two nozzles, fire plug key and reducer. Each single safety carried 40 feet of 1 1-4 inch hose and connections. A good many worthy citizens of Houston looked on the idea as a huge joke, but the laugh was on the other side when the trial came off one day last week. The *Post* thus describes the trial on a morning at the scene of the supposed fire:

"'Dismount!' 'To the roof!' Quick and sharp came the orders. Cook mounted on Ellis' shoulders, from thence to the balcony; Roessler followed, climbed to Cook, Lott to Roessler, Dunlor and Hoffman scaled the living ladder to the roof, each with a nozzle in his hand, and in two minutes two streams of water were playing on the roof. Three minutes more hose carriages and trucks were on hand. All praise to Captain Hoffman for the idea and Chief Martin for carrying it out and showing to the world the adaptability of the bicycle to firemen's use. The Houston Fire Department is a volunteer one, and as this annex has proven such a perfect success the Houston Bicycle Club have been asked to join."

This is really more than a bit of news, as it conveys a lesson of the wonderful strides the cycle is making in the estimation of practical men as a practical machine. It is pleasant to note these matters, and we shall not be surprised to see the example of the Houston Fire Department largely followed in places where the pavements permit of it.

WE are rather in accord with the *Scottish Cyclist* in a recent article headed "Rational Dress." Among the good things said:

"Nothing so quickly shows that a rider is behind the times, or lacking in good taste, as having his riding costume covered with braid, lace, ribbons, or similar ornamentation. Amongst boys such might be condoned, but when men appear so bedecked their fault is unpardonable in our eyes. For ordinary riding a costume consisting of a shooting jacket and loose knickerbockers of a grey or brown shade, with stockings to match, will be found most tasteful, economical, and comfortable. * * * The nether garments must not clasp the leg tightly either above or below the knee, nor must garters be worn, as they interfere with the play of the muscles and the circulation of the blood, causing leg weariness long before such would naturally set in, and even cramp. There are several devices on the market intended to take the place of garters, but we have never adopted any of them, having found that by merely doubling the end of our stockings so that covering the knee is avoided, and then neatly fastening the doubled portion to the inside of the knickerbockers with a couple of small safety pins, we enjoy perfect immunity from trouble and discomfort, the device being completely undiscoverable to the onlooker."

REMEMBER that Mr. Phin. S. Hunt of Grand Rapids has in charge the Grand Rapids-Detroit wheelmen and women tour. Yes, the ladies are expressly invited. The start will be made at 1 P.M. Saturday, July 11th; Lowell first night, 20 miles; Sunday, July 12, Mulliken at noon, 31 miles; Lansing at night, 17 1-2 miles; total 48 1-2 miles; Monday, July 13, Williamston at noon, 15 miles; Howell at night, 21 miles; total 36 miles; Tuesday, July 14, Ann Arbor at noon, 29 miles; Wednesday, July 15, Wayne at noon, 27 1-2 miles; Detroit, 18 miles; total 39 1-2 miles; total run, 173 miles. The cost will be eight and one-half dollars ($8.50) for the four and one-half days. This will pay your hotel bills and other necessary expenses that the manager may deem advisable. Address Mr. Hunt for particulars, etc.

WELL done, Porter!

WHAT a day for races was last Saturday.

THE only records to go was that at Milburn-Irvington, A. W. Porter cutting the record down to 1h., 27m., 1s., and A. P. Craig 1h., 28m., 07 2-5s.

ALTHOUGH the new course of the Pullman race was considerably longer, the time made over it was some eight seconds faster than last year.

A CLUB called the Keokuk Cycling Club has been formed at Keokuk, Iowa. The charter members number 20.

WE desire to get up and shout our congratulations to the St. Louis *Spectator* on the magnificent issue of May 30. It is splendid, gorgeous, sumptuous, and the publishers ought to be proud of it.

NEW HAVEN meet to-morrow, June 6.

THE Wissahickon Wheelmen of Philadelphia, Pa., have appointed a committee to look for larger quarters for the club; the membership is increasing so rapidly that the present quarters are entirely inadequate.

F. H. WELCH is piling up the miles for the city of Philadelphia mileage record; he has ridden over 3000 miles since January 1.

JACOB BAUER, a member of the Louisville Bycle Club, bade his friends good bye Saturday night, May 23, and at daylight the next morning mounted his wheel and started on a little warming up trip previous to his tour around the world. Mr. B. wheels from Louisville to Dayton, O., his old home, where he will spend a week or two visiting old friends. He then returns to Louisville to attend the Division Meet, June 26 and 27, and he hopes to take away with him a Division championship. From Louisville he wheels to Columbus, O., to attend the meet there, and from that place he pedals to the National meet at Detroit. He really starts on his globe-encircling journey from Detroit, going to Chicago, St. Louis, Denver, and on to San Francisco. Mr. Bauer does not expect to run "Citizen Train" a race, nor will he even attempt to beat Nelly Bly's time. He will take things slow, and if he puts the belt on old Mother Earth in three years, he will be satisfied. Mr. Bauer is not a novice, but is an old rider, who has made many century runs on rough and hilly roads. He is a practical machinist and an expert electrician, and he expects these two professions to help him out when he gets in a tight place. He calls his contemplated trip a "A Tramp Awheel," but he will not write a book about it.

THE Kentucky Division officers have decided to run races at the meet June 26 and 27 by electric light Friday night, and to have the Saturday programme carried out on the afternoon of that day. Saturday afternoon is a half holiday in Louisville during the summer months, and it is believed a larger crowd will come out at that time than after dark. A great many ladies and children will be able to see the races who could not get out after dark.

Kentucky Division race promoters have adopted a novel scheme to sell tickets to the races, June 26 and 27. A number of bicycle lanterns have been secured, and one of these is to be given to every boy who disposes of fifty tickets at twenty-five cents each. Twenty or thirty boys went to work as soon as the tickets came from the printer, last Thursday, and Saturday several of them were within a few pegs of a lantern.

The handicap of fifty yards put on pneumatics by the Racing Committee of Kentucky Division is giving general satisfaction. On the magnificent track the solid tire riders think they will be able to hold their own. The track is being cemented on the turns. The stretches are in fine condition.

ONE of the recent novelties in the attire of the wheelman, comes to us in guise of a garter. A Buffalo cyclist was observed the other day with bright yellow garters clasped with silver buckles worn above the knee, the two lower buttons on the side of the trousers left unfastened, offering a rather suggestive glimpse of the brilliant yellow. Can this be a "bond" of sympathy between the wearer and some fair young girl?

THE new law against allowing dogs to run at large was enforced at 10 A.M. June 1st, in Buffalo, N.Y.

BUFFALO has a model captain in the person of Captain Allen, of the Pressites, who is very much esteemed and commands the respect of his associates.

TO-MORROW, June 6, the Detroit club road race will be from Birmingham over a good road about fifteen miles in length. There are about a dozen entries. The race will show up the superiority of tires as there will be three pneumatics, and several cushion in the race, besides solid tired safeties, and ordinaries. It will be a time handicap.

THE Americus Club is the name of the latest addition to Philadelphia's fast growing family of cycling organizations.

PARTIES of wheelmen rode into Detroit from Pontiac, Birmingham, and Port Huron last Sunday, and were piloted about the City of the Straits by the members of the Detroit Wheelmen.

F. G. KLIPFEL, the man of many centuries, and Mike Brunner, of the Ramblers, on the 24th inst. made 150 miles, on pneumatics; starting at 12 A M. and finishing at 7 P.M., wheeling from Buffalo to Lima an t return, with four additional miles after reaching Buffalo; actual riding time, 14 hours and 15 minutes.

THE Detroit Wheelmen have about 150 members. The club hopes to build a club house after the League meet.

At the last meeting of the chairmen of the various committees and the Board of Directors of the L. A. W. meet at Detroit, the following amounts were voted to the meet: Prizes $800; track, $500; rink, $400; decoration, $100; souvenir, $300.

THE Detroit club will issue and handle the score card itself. All League members will be admitted to the races free.

CHARLES DORNTGE of the Iroquois, A. C. and W. Penseyres of the Press Cycle Club, both of Buffalo, won the two-mile tandem race at the bicycle races at Woodstock, Ont., on the 25th.

THE Detroit men who went over to Grand Rapids to the race and meet had a splendid time and speak highly of their hosts.

MR. H. A. DITSON, of Wright & Ditson, sailed for Europe yesterday (Thursday). He goes to Germany, France, and England.

SAYS "Star:" "From present indications the Poorman Handicap Road Race will be even a greater success than last year. Judging from the opinions expressed there will be at least fifty entries. The question of cushions, solids and pneumatics is being generally discussed in connection with this race, and the result is a subject for considerable speculation. The general opinion seems to be that solids will have no show at all. When the race is finished some of these Solomons may find that the solid is not such a bad tire after all.

THE name of a new club formed in Providence, R. I., is the Narragansett Wheelmen. The club started with a charter membership of sixteen, and in less than four weeks increased to 35. The interest of the club is concentrated on cycling and that alone. A two weeks' trip to the White Mountains by the members is on the tapis.

THE Syracuse (N.Y.) Cycle Club will hold a race meet August 18, 19.

THE South End Wheelmen of Philadelphia will hold a race meeting June 27, on the Keystone cycle track.

THE Elwell European bicycle party of 1890 will hold a re-union on June 9th, at Delmonico's, New York City. Fifteen out of the twenty members of the party expect to be present.

POSTPONED. The Denver Cyclists' Union tournament has been postponed until July 4 and 5, on account of bad weather.

THE first annual road race (handicap, 20 mile) of the Duquesne Cyclers, of Pittsburg, Pa., will take place, rain or shine, June 13th over the Butler plank road. Two medals, gold and silver, to the winners.

GREEN BAY, Wis., has 60 lady cyclers, and the ranks of the fair riders are daily receiving recruits.

THE Montreal (P. Q.) Bicycle Club intend holding their annual meet on the M. A. A. grounds, Cote St. Antoine, on Saturday afternoon, 29th August, 1891.

THE members of the "Porkopolis" Wheelmen, Cincinnati, are working diligently and unceasingly to make their race meet on the Fourth of July a success. They have already several fine gold medals and other valuable prizes. Will Windish is chairman of the racing committee, and what he does not know about racing—well, the others will tell him.

THE Norfolk County Wheelmen, of Hyde Park, Mass., are to hold a tournament at the Readville Trotting Park, June 17. The committee in charge have decided to offer the following prizes for a "safety team race:" The first prize, gold medal; second, gold and silver; third, silver; the club prize, to be the winning "team" photographed and framed. Captains Herbert White, of Hyde Park Ramblers, and Robert W. Walker of Norfolk County Wheelmen, will meet visiting wheelmen at Everett Square, Hyde Park, and escort them to the park at 9.30 A. M. The races to begin at 10 A. M. The Hyde Park Ramblers and Norfolk County Wheelmen have called "run" to Houghton's Pond after the "races," and would be pleased to have all visiting clubs and wheelmen attend. Dinner can be had at the pond for 50 cents a plate.

LAST Sunday week Fred Horn and Eugene Weber of the "Boston Rovers" started at 4.10 A. M. for a century run to Newburyport and return, from Boston. Horn rode a 48-inch ordinary and Weber a safety, and neither of the lads are over 18 years. They reached Newburyport at 8.50, and after stopping about two hours, started for home and got in Boston a few minutes before five o'clock. Their riding time for the hundred miles was 10 hours 38 minutes. The time they made was very good, considering the age of the riders.

MR. JOHN A. LAMONT, of Fargo, N. Dakota, wants to know route between St. Paul and Chicago, Chicago and Detroit, Detroit and Montreal. He also asks for information as to probable expenses. The latter would be pure guess work, but we should think that from $2 to $2.50 per day about the figure for a man who is economical. Can any one give Mr. Lamont information as to route, etc.?

THE Cincinnati Bicycle Club will run their club championship road race on June 14.

THE following from Nelson Bradt, dated Denver, Colo., May 24: "Arrived in this city yesterday afternoon after a hard trip of about 12 days from Kansas City, Mo. Struck many hard sections of country through Kansas and eastern Colorado. Will leave here the 24th for Salt Lake City, Utah, which city is about 850 miles by wheel from here, and with good luck I expect to reach there in ten or twelve days. Have experienced more hard riding from Kansas City here than from New York to Kansas City. Hope to reach the coast by June 9, which will be just two months on the trip. Last Thursday I rode through 3 inches of snow for 12 miles, being then near the Rocky Mountains."

THE Misses and Mr. Kirkwood of Maplewood, Mass., started Decoration Day, 8 A. M., for Portsmouth. The Newburyport Turnpike was taken to Danvers; Wenham was reached 10:20, Ipswich 11:05, Newburyport 12:40. After dinner, in company with three members of the Ocean Side Cycle Club of Gloucester, the start for Portsmouth was was made at 2:45, and the ride there completed at 6 P. M. Considering the fearful condition of roads, especially between Hampton and Portsmouth, it having rained all day and night Friday, the performance of Miss Jennie Kirkwood, as the youngest member of the party, is worthy of mention. A most pleasant

evening was spent at the Rockingham, and the next morning at 9:30, with the party augmented by Messrs. Norris and Carney of Cambridge, the return trip was accomplished leisurely, and the road conditions were found much changed from the previous day, and as the day wore on the riding was superb. Dinner was taken in Newburyport, and rests were indulged in at Rowley Well, Ipswich Creamery and John Woods, Beverly.

A CORRESPONDENT sends in the following, and we commend it to the notice of the "ambitious" wheelman, who by his impecuniosity is unable to procure a wheel by the usual and honest way of paying for same. If the cycle thief would only take this hint he would greatly oblige his anxious pursuers:" "Whenever a wheelman sees the tracks of another wheel (or wheels) he always wishes to kown which way said wheel (or wheels) are going. Now, would it not be a good idea for a rider, every time he dismounts, to take a stick or stone and mark thus,

```

  | |
WHEEL TRACK.
```

Making the arrow point in the direction he is going."

POSTPONEMENT: The dates of the Tennessee State Division Meet have been changed from the 3d and 4th of July to the 10th and 11th of July.

A NEW club has been formed in Amsterdam, N. Y. The name selected is the Amsterdam Cycling Club. Two local merchants have put up a $50 cup to be ridden for by riders of Montgomery and Fulton Counties, N. Y.

Wheeling gives us this tip. "If you value the appearance of your enamel do not wipe mud off the machine while wet, for the wet mud being rubbed along the surface of the enamel has something of the effect of sand paper, and hurts the surface afterwards. * * * It is better to let it dry on, and rub it off bit by bit, not a long, sweeping rub. It will possibly leave a few obstinate marks even then; but a soft rag dipped in paraffine will remove these and revive the surface again. Be careful to remove the paraffine with a dry soft cloth or some clean cotton waste."

THE New England tandem record for lady and gentleman must go to Mr. and Mrs. G. J. McArthur of Malden, Mass. After a tremendously hard ride to Portsmouth, N. H., on Saturday, when the roads were soft and very heavy, Mr. and Mrs. McArthur started on Sunday at 5.40 to ride 100 miles. They stopped at Newburyport and Salem, in all about four hours; thence on to Malden, at which place they arrived at 5.30. Leaving there at 6 P. M., they continued to the reservoir, Big Sign Boards, to Auburndale, thence via back road to Waltham, Arlington, and Malden. Having six miles to cover, Mr. and Mrs. McArthur rode round Maplewood and Malden, and at 10.30 the century had been finished. Considering the hard ride of Saturday the performance is most creditable.

THE wheelmen of Fargo, N. Dak., will give a tournament June 17.

EAST ORANGE, N. J., has a new cycling club called the Watsessing Bicycle Club.

HONESDALE, Pa., joins the long list of cycle clubs with an organization to be known as the Maple City Wheelmen.

A BICYCLE club has been formed at Towanda, Pa., with 23 members for a starter.

SOME 40 members of the Prospect Bicycle Club of Springfield, Mass., and about 100 other wheelmen held a parade in Springfield, Mass., on the evening of the 27th. The parade was followed by a banquet at the rooms of the club.

MR. C. A. SHEEHAN of the Manhattan Bicycle Club has been presented with a set of handsomely engrossed resolutions in recognition of his valuable services as secretary of the organization for the past three years.

IT is claimed that the average high grade safety bicycle contains over 700 separate pieces, including spokes, nipples, chains, and balls.

THE Americus Wheelmen is the name of a new bicycle club organized in Philadelphia, with a club house on Broad street. It begins life with a membership of 25. The first run of the club will be to Norristown on June 14.

THE Union County Roadsters will have 40 men in the Century run on June 13.

MR. A. C. BATCHELDER, who left Boston about two weeks ago to wheel to San Francisco, arrived at Ashtabula, Ohio, on May 25. Mr. Batchelder is riding on an average 100 miles a day.

TWENTY-THREE members of the Newburyport Bicycle Club made a trip to Exeter, N.H., on May 24.

THE committee having charge of the tournament of the Woonsocket Wheelmen's Association, which takes place on June 6, have put in some good work in the matter, and it is hoped their labors will be successfully rewarded. There are ten races on the programme, the prizes being gold and silver medals.

THE Rambling Wheelmen of Bridgeport, Conn., are making extensive alterations in their quarters, and when finished the club expects to have as cosy a suite as any in Bridgeport. The club has a present membership of 60, and is enjoying a large share of prosperity.

A BICYCLE club has been formed at Hot Springs, Ark.

THE Manhattan Bicycle Club have drafted a set of resolutions of thanks which they will present to Mayor Trout, the Board of Aldermen, Commissioner Gilroy, and the New York State Road Improvement Association in recognition of their good work in securing better roads and asphalt paving.

THE Buffalo Ramblers will hold an athletic meeting on June 16.

IN one section of Brooklyn, N. Y., some of the messenger boys are mounted on bicycles, and the trial has been such a success and a great saving of time that the management hope to have all the boys similarly equipped before long.

THE Oak Park Cycling club of Chicago, Ill., laid the corner stone of their new club house on the evening of May 23; after the ceremony the club banqueted at Hoard's Hall. The Oak Parks have a membership of 100 and the new house which they expect to be ready September 1st will cost $12,000.

A CYCLE club has been recently formed at Whitehall, N. Y., with 24 members.

THE Mt. Vernon Wheelmen of Philadelphia, Pa., are rapidly coming to the front in point of numbers, the present membership of the organization being nearly 150.

A LADIES' Cycling Club was organized at New Haven, Conn., on May 26, and is named after "Hygeia," the goddess of health. The organization starts off with an excellent outlook.

THERE is a cycling club at Bucharest, Roumania, consisting of 35 members, who ride machines of English, German and French manufacture. The name of the organization is the Chubal Velocipedistilon Bucuresci.

MR. A. J. RUFF of Richmond, Kentucky, who is over sixty years of age, and who is the oldest active wheelman in Kentucky, makes the run from Richmond to Louisville, a distance of over 100 miles, in a day. Considering Mr. Ruff's age this feat is remarkable and is a performance which would do credit to many a younger man.

THE Ladies Cycling Club in Washington, D. C., has a membership of over 200.

BRIDGEPORT, CONN., has caught the fever, and a ladies' cycling club is soon to be formed there.

A CYCLE CLUB has been organized at Hillsboro, N. H., to be known as the Hillsboro Bicycle Club.

THE Prospect Wheelmen of Brooklyn, N. Y., held a reception at the residence of Chas. Kane, 304 President street, on the evening of May 20, and a very enjoyable evening was passed by the large number present; during the evening Mr. Geo. W. Shannon was presented with an elegant gold stop watch for a perfect attendance at club runs.

A NUMBER of the Philadelphia cycling clubs will this year make a century run from Harrisburgh to Philadelphia.

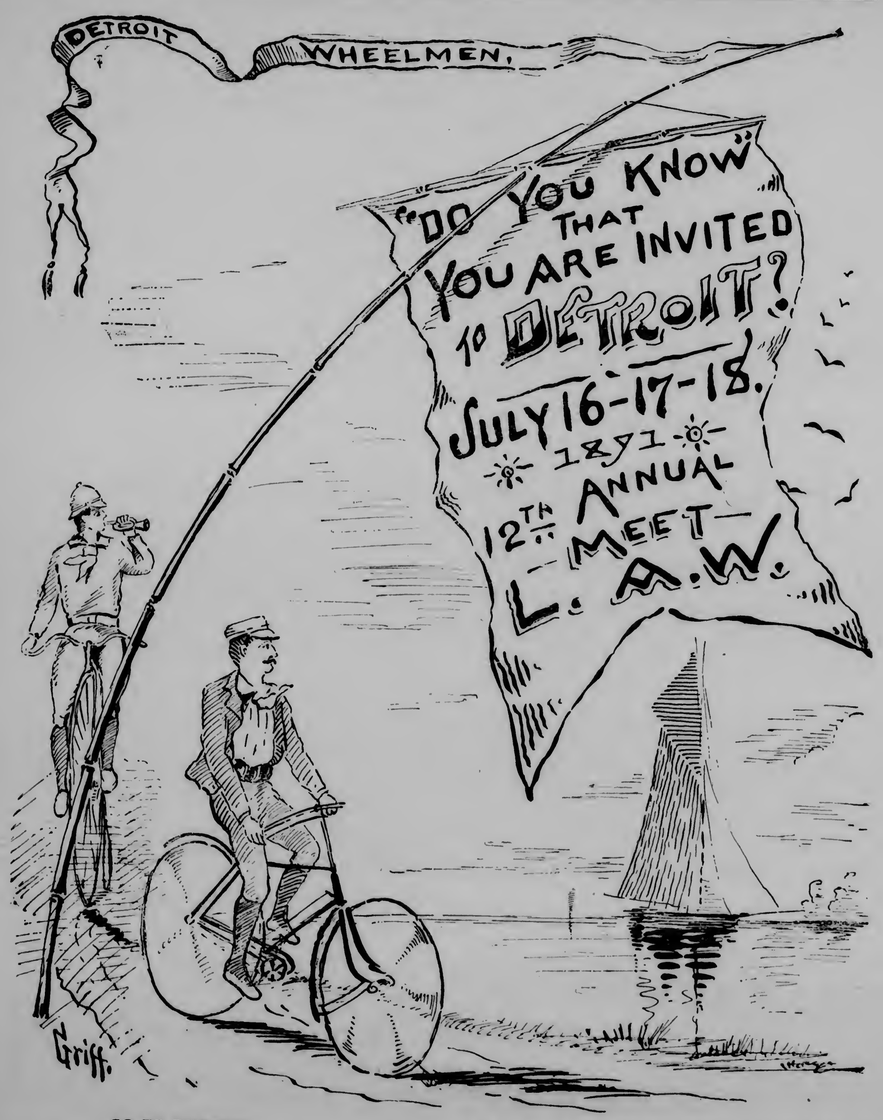
HAWKSHAW'S COLUMN.

McRIDER: "Why do you have such horrid pavements in this village?"

McKnowit: You see, sir, our mayor is a shoemaker, and he won't have any other kind but this one made of sharp stones: he says it helps his business.

The man of energy, who loves every manifestation of power and muscular vigor, and who loves that great stimulus to health, a rapid motion in fresh air, finds a partial gratification for his tastes in driving a speedy horse; but it is *only* a partial gratification, as he himself must remain inert often to the disadvantage of his own health and strength. He sees infinite possibilities of exciting speed and physical enjoyment in the steed of steel but he over estimates the labor of propelling it, and believing his strength inadequate, or his dignity perhaps too great, he does not usually attempt to master it. Occasionally, however, one of these men is induced by his own common sense, or more often by that of some friend who has become a wheelman, to give the bicycle a trial. He approaches his first experiments with great caution, but conducts them with commendable persistency. For a time after the initial lessons he does not understand the fascination, but some bright summer morning, when the sun waking up in the best of humor, seems to infect all the world with a contagion of fine spirits, when the air is like some cool and refreshing drink, tamed with a delicate fragrance from spring flowers, when the silent wheel seems to glide "through byways green," without even the effort of direction from him—he becomes conscious of a pleasure that embodies all others, along with its own peculiar, lasting charm. The days that follow bring a renewal of such pleasure, along with many others that develop as his wheeling experience broadens, but from the time that he first feels the subtle attraction so well known to all riders, he needs very little to spur his interest. The poor plodding pedestrian may, from the depths of his own experience, be sneeringly incredulous of the existence of any unusual fascination, but the wheelman, content in the consciousness of his own pleasure, is impervious alike to reasonable incredulity or unreasonable sneers.

I think I see a day not so very far distant in the future, when the mothers, made athletic by wheeling, having given an inheritance of physical beauty to athletic daughters, and they in turn have transmitted it to the granddaughters, that there will need be a change in the marriage ceremony, and the "obeying" will be incorporated in the husband's vow rather than that of the wife's, unless the youth of to-day follow her example and take more to cycling and less to cigarette smoking and cane swallowing than he seems inclined to do at present.



Man as regards cycling may be classed into four divisions:

He who knows it not, and knows not that he knows it not.
He who knows it not, and knows that he knows it not.
He who knows it, and knows not he knows it.
He who knows it, and knows he knows it.

I thought at one time that I had made a discovery which, while it might not bring me fame, might at least lead on to fortune——I would write advertisements for the manufacturers: I would lure on the customer to purchase the particular make of wheel that I would in glowing words depict as the only perfect one in existence. I wrote to a well known manufacturer, and asked him to allow me to submit to him an example of my ability in this direction, and received from him permission to do so. I chose my best pen, whitest paper and blackest ink, and after a severe struggle, submitted the following for his approval:

"He saw her standing in front of a druggist's window, looking longingly at a lot of bottles labeled "Purdy's Painless Pink." He saw that she was pale, and approaching her said: 'Dearest, will you——will you try Blank's bicycles, for the cure of your paleness? They will put the roses on those cheeks that they need.' Hesitating a moment, she turned on him with a radiant smile and replied: 'Why, our doctor has already advised my using Blank's bicycles for that purpose, and papa is going to bring one of them home to-night for me.' A month later her cheeks wore the roses, if you would be beautiful, beloved and bridel, buy Blank's bicycles." I expected to get a check for at least $100 for this, but instead I got the old old story, "returned with thanks."

"HAWKSHAW."

GO TO DETROIT.

WHAT city that ever entertained the L. A. W. ever presented so many attractions, combining the advantages of the metropolis with the pure air of river, lake, and island?

Miles of fine roads, beautiful streets, and wide avenues.

Look at the array of good things crowded into three days.

First day, July 16th, morning: Reception of the wheelmen who will come from every point of the compass. In the afternoon it is go as you please, get acquainted with your landlord or landlady, and find out who you are going to bunk with, and get the lay of the town. Evening, go to the rink, see who is there, get your name on the book so that your friend will know where to find you when he comes.

Second day, July 17th, morning: 25-mile road race from Pontiac to Detroit, with an excursion train that will be a moving grand stand with the racers near by always in sight, the railroad running for miles beside the road. This will give the excursionists a chance to see the start and the finish. Afternoon, championship races at the driving park. Finest one-mile track in the West, and a grand stand that will seat 10,000 people and to which the L. A. W. members will be admitted without extra charge. You can go to this park on your wheel, on the street cars, or on the boats by way of the river. Evening: Lantern parade, out Jefferson avenue, over the long bridge to the park, where a grand display of fireworks will take place, all the vessels in the river taking part in the illumination.

EAGLES TO THE FRONT

IN THE

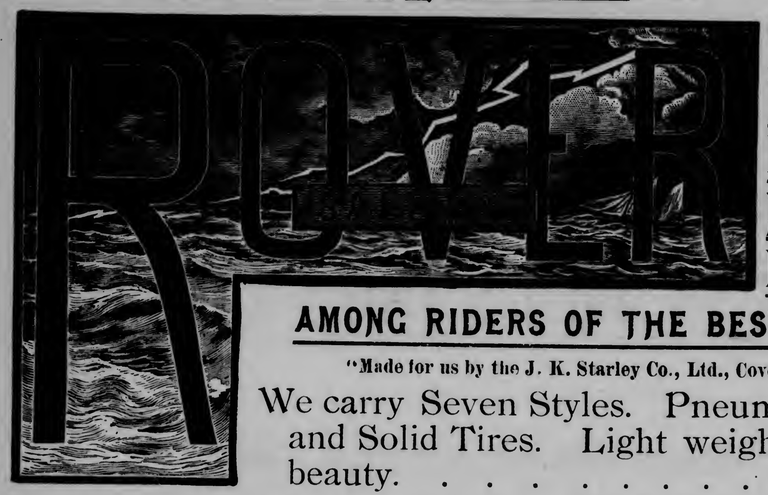
First Road Race of the Season.

FIRST AND SECOND

In the N. Y. A. C. Five-Mile Handicap, New Rochelle Course, May 23d,

WM. VAN WAGONER (from scratch), - - - - - FIRST
T. J. HALL, Jr. (40 sec. handicap), - - - - - SECOND

Van Wagoner rode a CUSHION TIRE.
Hall rode a SOLID TIRE.



Four Pneumatic Tired Safeties raced, but THEY WERE NOT IN IT.

THE EAGLES WILL FLY

1876 1891

The First Cycles in the United States

The Largest Cycle Manufactory in the World

Roxbury, April 24, 1891.

To Singer & Co.,

Dear Sirs:—I have used your 1891 pattern wheel, with the one inch wired tire, and have no hesitation in stating that it gives more satisfaction than any cushion tire that I have ever tried, and as for hill climbing, it is unsurpassed.

Yours truly,
JAMES KELTIE,
Captain Roxbury Bi. Club.

SINGER & CO., 6 and 8 BERKELEY STREET and 2 WARREN AVENUE, BOSTON, MASS.

Third day, July 18, morning, will be devoted to visiting the different points of interest and short runs. Afternoon: Finish the championships, the open, and club events at the driving park. Evening: Grand concert at the rink by the military band; a moonlight ride on the river, two steamers being lashed together, giving accommodations to 3000 wheelmen.

The rink will be headquarters, and you will find here one of the finest cycle exhibits ever attempted in the West. Our hotels give ample room to all and all sorts of prices to suit any purse. You will come. You will have a good time. You will go away happy. DETROIT WHEELMEN.

A WHEEL INTO THE INDIAN COUNTRY, NO. 8.

BY C. W. NORTHROP.

OUT OF RED MAN'S LAND.

So for a few minutes we stay almost motionless while coming to decision. It is risky to go ahead, yet we dread equally turning to either side, for an encounter in the tall reeds would be far worse than on the road. We can turn back to higher ground and find another way, but this entails much work, and as an alternative with the hope of frightening the cat—nto retreating, we move our wheel a foot or two forward. But it is "no go" with the animal, so we turn back, and making a wide detour, strike the road again a hundred yards to the east. We are thoroughly awake now and warm to our very finger tips. Nothing like a little scare to promote the circulation on a cold night. An hour later we have another experience of the same kind, only this time "the boot is on the other leg." The moon—three-quarters full—has risen, and is fast dispersing the clouds, making sufficient light to ride by, and as the road is smooth we mount and wheel slowly along. The rubber tread of a well-kept bicycle is almost noiseless, and with every clip tight and not a spoke to rattle we glide along as silently as a big bird. Suddenly the stillness is broken by a yell that would have done credit to a Sioux Indian. It comes from our own lungs and is launched at another wild cat seen some distance ahead. This method of attack is a grand success, for the animal turns and bounds away along the road until out of sight. Twice afterwards we catch a glimpse of the cat, but always at a distane, giving us reason to believe that the spectre-like appearance of wheel and rider by moonlight is too much even for this fearless denizen of the prairie.

It is but little after four o'clock when we ride into an Indian village and dismount in front of a small frame house. Several vigorous knocks bring the blanketed owner to the door, but we are refused admittance and directed to the next house a short distance away. Fearing a second rebuff we circle round the building and find shelter in a log stable at the rear. A cow is the only occupant, and upon a pile of straw, no doubt used for bedding, we lie down and try to sleep. But the cold is everywhere, and too uncomfortable to keep still long, as the day preceptibly brightens, we go out to watch the sun rise. How fresh and lovely the lanscape is in the early morning. A little below and so close we could easily toss a stone into it, is the Niobrara, so aptly and musically called by the Sioux the "Running Water." Although broader now than we have ever seen it before it is still the same clear, rapid river, whose course we have followed for so many miles. As the first rays of the sun touch its surface the waters flash and glitter in the shallows and among the shifting sand banks as though impatient at these impediments to its progress. A pleasant "Good morning" breaks our reverie, and turning we meet a half-breed with milk pail in hand. Breakfast will be ready in fifteen minutes, and the interval is spent in improving personal appearances. If the events of the night had seemed a dream before, they appear real enough now after a glance in a pocket mirror. Pale and haggard from loss of sleep and hard travelling, our costume covered with mud and rent in a half dozen places, we are painfully conscious that it only needed the absence of the bicycle and the possession of ordinary clothing to furnish a perfect specimen of trampdom just rescued from a night spent in the gutter. A wash in the river, the vigorous application of a house broom, and a few stitches improve matters somewhat, and we go into breakfast feeling, if not looking, much better. This meal, the only one of its kind ever eaten, deserves special mention. There are four of us seated cross-legged around a none too clean blanket spread on the floor: The host, a half-breed boy, a toothless squaw of uncertain age but ugly enough to be a hundred, and the writer. The staples are fried bacon and potatoes, both tasting much as stale grease smells. These are flanked by the usual saleratus biscuit and coffee, but such coffee, not a particle of the original flavor or fragrance remains, and we can easily believe that a decoction of burnt leaves might have been as palatable.

A ride of ten miles after breakfast brings us to the bridged crossing of the Niobrara, close to where it mingles its bright waters with those of the "Big Muddy," the Missouri, and five minutes later we are wheeling slowly through the streets of Niobrara city. At the hotel we beg for something to eat, and receive the comforting assurance that dinner will be ready in two hours. This is an impossible fast, so we raid the only bakery in the place and—but we will draw the curtain here. The touring wheelman is generally supposed to divide the day into three equal parts, devoted respectively to riding, sleeping, and eating. Already we have given too much expert testimony to the truth of the latter supposition, so will draw the pen through the few lines devoted to the balance of our stay in Niobrara city. And now to the reader who has kindly followed us in a journey of 350 miles through the Indian country and across the frontier, we ask your indulgence a little longer while we say a good word for the trusty wheel that has brought us safely so far. It is a perfect morning, when after a day's rest we leave Niobrara city and ride away eastward. Three miles bring us to the ferry crossing of the Missouri, and a few minutes later we are aboard the boat and breasting the rapid current of the river. Fares are being collected on every side, but as no one comes near us we finally step over to the captain, a big, gruff spoken man, and ask what there is to pay. The answer is not given until both wheel and rider had undergone a somewhat critical examination, and then, with a twinkle in his eye, the captain replied: "Young man, I ferried one of you bicycle boys over last spring. I told him I hadn't got a tariff yet for that new kind of horse, and I think I shall have to say the same to you." After that we have a pleasant chat, and tell the captain considerable about our tour, and in return are given some information as to the best route to Yankton, 50 miles ahead. The interest the captain shows in us is so genuine and kindly that, after a few minutes' conversation, we feel as though we had known him for years, and yet without the wheel we might never even have learned his name. Genial, big hearted Captain Leech—" his last words to us were: "My boy, if you ever write up this trip for the benefit of your friends, don't forget that Captain Leech is one of them." We have not forgotten, and almost before the ink is dry on this page, a package of papers will be speeding westward 2300 miles to Running Water. This is but one of a hundred equally pleasant incidents we could write about did time and space permit, but all could only prove the same fact, that in a chance acquaintance—and these are many—the touring wheelman is almost sure to find a friend, one ready to listen to any amount of enthusiastic talk on the wheelman's hobby, the bicycle; ready to furnish gratis a glass of milk or a hearty meal, or to take him in and make him one of the family during a night's stay. While on the tour we met scores of people who had never seen a bicycle, and many more who had even never heard of one. With some, it required a practical demonstration to show that a machine could be ridden that was incapable of standing alone; but when the feat was proven possible, and the speed and grace of the wheel shown, their admiration for the rider was unbounded.

(TO BE CONTINUED.)

FOR MAMMOTH CAVE.

DOZENS of letters are being received daily by the officers of Kentucky Division, inquiring about the proposed trip to Mammoth Cave in connection with the League Meet in Louisville, June 26 and 27. In the first place, it is impossible to reach the cave awheel, at least, without an immense loss of time. The roads are practically impassable, within twenty miles of the big "hole in the ground." The Division officers have arranged with the Louisville and Nashville Railroad Company to run a special car and a special train, if necessary, to the cave Saturday night, June 27, the excursion to be conducted by the railroad people assisted by the League Committees. Special rates have been arranged for at the cave, in the way of hotel bills, guide fees, etc. It is believed the entire expense for the trip can be kept inside of $10, but it may go a little over this. This will include a day in the cave and the railroad fare. The train will leave at midnight Saturday, and will return about 12 o'clock Monday. No wheels will be taken, but it will be a sensible thing to wear bicycle uniforms.

This trip to the cave will not interfere in any way with the races or the other entertainment to be furnished in Louisville. The business meeting and the races will all be over before the trip to the cave is made. After the return from the cave, it is the intention of some of the Kentucky riders to make a tour of the Blue Grass region, occupying about one week, and they will make welcome all who may desire to join them. The more the merrier.

G. E. JOHNSON.

THE CENTURY RUN.

Everything looks favorable for the Century run from Newark to Philadelphia, June 13, and all that is needed is clear weather. The returns that have been made thus far are as follows, which includes but six of Philadelphia's 33 clubs: Century Wheelmen, 50; Park Avenue, 50; Quaker City, 30; Columbia Cyclers, 15; Referee, 20; Alpha, 5; York (Pa.) B. C., 8; Cranford (N. J.) Cyclers, 5; Union County Roadsters, 40; Elizabeth Wheelmen, 15; Orange Wheelmen, 28; N. Y. Bi. Club, 9; Manhattan A. C., 15; Brooklyn Bi. Club, 13; Long Island Wheelmen, 15; Poughkeepsie Bi. Club, 15. Total, 313. There are over a dozen clubs yet to be heard from, and at a conservative estimate the number of participants will be over 400.

A bugle code has been arranged as follows: Whenever a general dismount is made for rest or refreshments, the "assembly" will be sounded by bugle followed by "mount." When in the saddle the code is: —— Single file. —— —— Double file. —— —— —— Dismount. —— Caution.

The Westfield Wheelmen have kindly offered, as heretofore, to have coffee and rolls ready on the arrival at Westfield. A light lunch will also be ready at Plainfield and another at Somerville.

On arriving at Philadelphia all bands must be checked at the club-house of the Century Wheelmen, 1606 North Broad Street, where wheels will be stored, otherwise they will not be credited, and Philadelphia men on the run should take notice of this point. The Century Wheelmen will have refreshments ready and also bathing accommodations for those who desire.

Sunday, June 14, the Century runners will assemble at the Century Wheelmen's club-house at 10 A. M. for a ride to Fairmount Park, where a photograph will be taken and refreshments served. The route will then be to the railroad depot, when the wheels will be placed on baggage cars. After this the riders will disband for dinner. Mr. W. E. Fuller says that the start will be made on schedule time and that the run is not a race. All starters are cautioned against riding ahead of the pacemakers.

"THE ENTERTAINMENT UNIQUE."

WE noticed last week that a complimentary was to be tendered Mrs. Charles Hopkins at Meionaon Hall, Boston, June 16th, and we also remarked that any entertainment in which Mrs. Hopkins took part personally and managed was sure to be a success. This fact will be borne out by all those who have had the pleasure of seeing Mrs. Hopkins in her very clever character sketches. The great beauty of Mrs. Hopkins' impersonations is that they are original. We hear rumors of lots of new features, and we know that the rumors will materialize as the "Hopkins family" are in it. Remember the date, June 16.

THE BROOKLYN PARADE.

ON June 20 Brooklyn will have a parade which will eclipse anything of the kind ever seen in the Metropolitan District. Riders of New York and vicinity, and in fact from all over the country are expected to be out in full force. Clubs and cyclers who have not received a special invitation it is hoped will communicate with H. E. Raymond, 245 Flatbush avenue, Brooklyn. All are invite l!

THE CENTURY WHEELMEN MEET.

THE Century Wheelmen of Philadelphia will hold a race meet June 20 on the grounds of the Tioga Athletic Association, Philadelphia. A complete list of events appears on page 189 of this issue. Address C.W. Dalsen, 1507 Columbia avenue, Philadelphia.

THE OHIO DIVISION MEET.

AT a meeting of the Dayton Bicycle Club, held on the evening of May 27th, it was unanimously decided to invite the Ohio Division L. A. W. to hold their annual meet in 1892 in Dayton, Ohio, and the secretary was instructed to notify the Ohio League officials and the WORLD of such intention.

ELMER H. HOUCK,
Sec'y Dayton Bicycle Club.

WISCONSIN DIVISION MEET.

GREEN BAY, Wis., the city selected for the '91 State meet, is a booming little bicycle headquarters; from 13 wheelmen in 1890 they have increased to over 75, and the 100 mark will be reached before the time for the tournament. The citizens are all putting their shoulders to the wheel and intend to help the club to make this, their second annual race meet, the biggest event held in the State. Prizes worth $2000, together with the finest one-half mile track in the United States, will tend to bring the best racing talent.

The dates are July 22d and 23d, next week after Detroit. We've got the money and we've got the "go" in us to make our promises good. Look to July 22 and 23 for your summer vacation.

The roads in and about Green Bay are the best macadamized roads in the State, and we promise to those who attend our meet some very fine runs. We can give you five miles to De Pere; ten miles along the picturesque shores of old Green Bay, where you can stop and cool yourself by a swim in the bay. Also several good runs into the country. Remember July 22 and 23.

G. W. F.

THE EIGHTH ANNUAL MEET OF THE NEW JERSEY DIVISION.

THE heavy fall of rain the Thursday night previous and all Friday kept a great many wheelmen from attending the New Jersey Division meet at Elizabeth last week who otherwise would have been present.

The hosts were the Elizabeth wheelmen, one of the strongest League clubs in the State, being only four members behind the largest, and a club that has always been one of the League's firmest supporters, and many of whose members have been officers of the Division and League for many years.

Notwithstanding the rain, a goodly number of the Board of Officers and Local Consuls were present at the joint meeting held in the Elizabeth Wheelmen's club house at five o'clock on Friday. A meeting of this character was held for the first time at the Plainfield meet last year, in order to give the Local Consuls an opportunity to become better acquainted with the Board of Officers, and to confer with them on matters of interest to the Division in their sections.

At the meeting of Friday there were present Chief Consul G. Carleton Brown, who presided; Vice-Consul H. A. Benedict of Jersey City; Secretary-Treasurer George C. Pennell of Elizabeth; State Representatives W. H. Stauffer of Asbury Park and Amzi T. Dodd of Newark; Club Representatives A. F. Bellinger, Elizabeth, and J. F. Edge, Asbury Park; and Local Consuls A. C. Alkins, Asbury Park, Dr. F. A. Kinch, Jr., Westfield, O. T. Peck, Roselle, Dr. William P. Richards, Orange, Dr. Lyman Clark, Rahway, and J. C. Tattersall of Trenton.

After the reading of the minutes of the last meeting, Chief Consul Brown explained the objects of the meeting. Dr. Richards gave an interesting account of the progress of the League in the Orange district, and Dr. Kinch asked for information regarding the rebate on renewals which had been allowed at a recent meeting of the Board. Chief Consul Brown explained that in order to secure the greatest number of renewals and new members possible the Board had decided to grant a reduction of 33 1-3 per cent. in the renewal fee of every League member renewing, and that any club becoming a League club, or sending in twenty new applications would receive a rebate of 50 per cent. on each application fee. The meeting was informal, and the consuls present told of the work they were doing on non-League clubs, and the success they were meeting with. Chief Consul Brown, in speaking of the article that appeared in the special wheelmen's edition of *Town Tattle* on "Our New Roads: How we got them and how you may get them," by C. C. McBride, stated that the Division had been presented with 4000 copies of the article in pamphlet form for distribution through the State and country, and upon motion the Board of Officers were instructed to send a copy to the mayors of cities and members of the various Boards of Freeholders through the State.

In the evening the annual theatre party was given at the Temple Opera House and was largely attended by the wheelmen and their friends. The attraction was the Nellie McHenry Company in their new play, "A Night at the Circus." After the play the wheelmen assembled at the club house of the Elizabeth Wheelmen and enjoyed a "smoker."

By Saturday morning the rain had ceased, but the bad condition of the Elizabeth streets necessitated a change in the program as follows: Annual meeting 10.30, followed by run over the new county roads to Westfield and return to Roselle, where the Division photograph was taken, and lunch given by the Elizabeth Wheelmen was served.

The annual meeting was called to order promptly by the Chief Consul, who, after the minutes of the last meeting had been read and approved, read his annual report which opened with an allusion to the great work accomplished by the New Jersey Division in the completion of the new system of macadam roads in Union County. In fact, the entire meet was largely a celebration of this event, and nearly every speaker alluded to it in some way.

Dr. Brown paid a high and deserved compliment to the ability of the present Board of Officers. Continuing, he denounced in no measured terms the action of certain parties in New York State who, having organized a monster road race, such as they dare not hold in their own State, were holding it while he spoke on the Irvington-Millburn course. "A year ago they were requested to refrain from holding these races in New Jersey, and promised that they would be discontinued. This promise has amounted to nothing, and they have said that it makes no difference to them as to our laws, or what is the result of their law breaking. They can do what riding they wish in their own State, and, if restrictive laws are put upon us, why they are sorry, but can't help it. The New York men have gone so far as to form an association for the purpose of holding road races throughout the year, to be run on the Irvington-Millburn course, and have made rules governing the roads of New Jersey. They say when and how wheelmen can ride on certain roads and prescribe certain methods of dress for certain days. In other words they own, or think they own, New Jersey. Do you as loyal Jerseymen propose to submit to this? I do not; and would like to hear a free discussion of the matter by the members of the Division, so that the Board of Officers will know how to meet the crisis which is at hand."

Secretary-Treasurer George C. Pennell reported the membership of the Division to have been 650 at the beginning of the year. Of these 594 or 85 per cent renewed their membership, placing the Division at the head of the list of renewals. Four hundred and six new members have joined since then, making a total membership at the beginning of the renewal season of this year April 1st, 1060. Since that date 140 applications have been received, and renewals are coming in rapidly. Eight new clubs have joined. He also alluded to the road improvement accomplished and the honor conferred upon the Division by the election of its Chief Consul to the office of Second Vice President.

Reports from the different committees were also read.

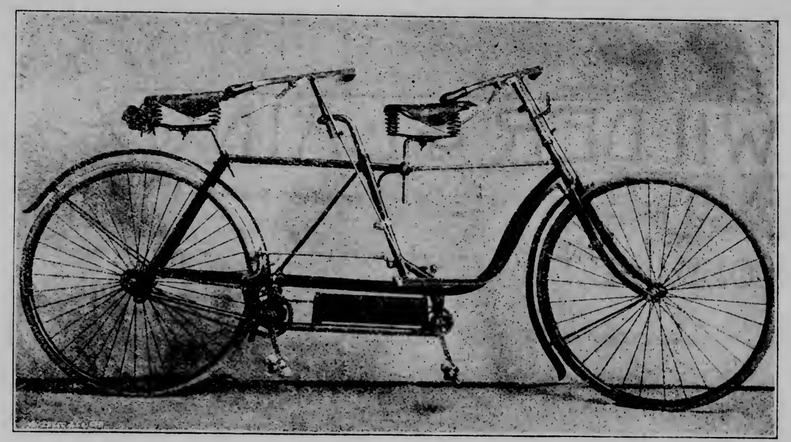
Under unfinished business, that part of the Chief Consul's report relating to road racing was taken up, and Dr. Brown explained the matter more fully and read the correspondence that had passed between him and George R. Bidwell on the subject. After the subject had been thoroughly discussed and numerous resolutions offered, Mr. Joseph McDermott, Chairman of the Rights and Privileges Committee, offered the following substitute which was accepted and carried without an opposing vote. "Resolved, That the New Jersey Division hereby protests against and discountenances all infractions of the Laws of New Jersey relative to racing upon the public highways of the State."

The question of the alliance with the A. A. U. was brought up, and President James R. Dunn, who was present, explained under what circumstances the alliance had been formed, the advantages that would accrue to both organizations, and how the alliance had prevented a long and bitter fight. The following resolution was unanimously adopted. Resolved, That the New Jersey Division hereby approve of the action of the joint special committee appointed by the L. A. W. with power to form an alliance with the A. A. U. and favor such alliance as has been formed, as promoting the settlement of long disputed questions relating to cycling racing. Vice Consul C. W. Wood of New York was present and made a short address.

Immediatly after the meeting the line was formed in front of the club house and a run made to Westfield and return to Roselle, a distance of about 15 miles. At half-past three line was again formed, and the return made to Elizabeth, where the wheelmen paraded through the principal streets. The clubs represented were Elizabeth Wheelmen, Owl Bicycle Club of Bordentown, Plainfield Bi. Club, Westfield Wheelmen, Trenton Wheelmen, Englewood Wheelmen, Bergen County, Asbury Park Wheelmen, Cranford Cyclers, Roselle Ramblers, Old Citizens Club of New York, Mercer County Wheelmen, Flemington Wheelmen, Outing Cycle Club and Tourists Club of Paterson, East Orange Cyclers, Orange Wheelmen and Westfield Wheelmen, numbering altogether about two hundred wheelmen.

At five o'clock the annual banquest was given at the Zouave Armory, which was prettily decorated for the occasion. Chief Consul Brown presided, and with him at the officer's table were Mayor John C. Rankin, Jr., President Dunn, First Vice President Burdette, Secretary-Treasurer Pennell, Vice Consul H. A. Benedict of the New Jersey Division, Vice Consul Wood of the New York Division, ex-President Charles H. Luscomb, State Senator F. C. Marsh, Freeholder West, and Engineer Dunham, who had charge of building the new roads. The menu was elaborate, and the occasion most enjoyable. Appel's orchestra of Newark played throughout. The speeches were informal, and nearly all were on the subject of road improvement, the speakers from other States all bearing testimony to the perfection of the Union County system over anything they had seen before, and congratulating the Division and especially the Elizabeth Wheelmen who started the agitation, upon their successful completion.

After the banquet many of the wheelmen returned to the Elizabeth Wheelmen club house where they remained until a late hour, talking over the meet and swapping experiences.



The Elizabeth Wheelmen have every reason to be proud of the success of the meet, notwitstanding the bad weather of the first day. The club giving the meet next year will have hard work to excel this. ART PEN.

MASSACHUSETTS DIVISION MEET.

LOWERING skies, muggy weather, and muddy roads did not make things look very auspicious for the Massachusetts Division Meet, but as the trains began to arrive and the hundreds of wheelmen flocked to the city of Worcester last Saturday, the local wheelmen smiled a smole, and as the day wore apace and the rain did not fall, sorrow was turned to jubilation, and the meet proved a thumping success.

At 10 A. M. the Boston delegation, augmented to nearly 400 wheelmen from along the route, rolled out of the depot. The Rhode Islanders had arrived an hour or two earlier and all the morning trains brought men from all over the State.

Just about the time set for the parade Old Sol peeped out and winked at the happy cyclers and put them in the best of spirits. The prize for the best appearing club went to the Rhode Island Wheelmen. The awarding the prize to that club seemed to be a popular one judging from the applause that Rhody's representatives captured. The Cambridgeport, Somerville, and Charlestown Rovers also looked very chic and smart, but the Providence men won the prize fairly. There were 590 men in line. The local club (the Bay States) having 75 men in line. The Somerville Club had 35 [illegible] the largest representation, Charlestown Rovers 20, Roxbury 25, Island Wheelmen 30, Massacusetts Club 12, and others footing up

Premier Cycle Co.
New York.

Gentlemen-

R. M. Milford (as we telegraphed you) won first place and the time medal in the seventeen mile road race held here Saturday; his mount was a Catford semi-racer and Geo. Barrett of Chicago started on a pneumatic Rover but wasn't in it with Milford.

With Harding and Milford on Premiers we can win everything in sight.

Yours truly,
Wilder & Laing

STOP THAT JAR BY USING

CARTER'S SAFETY HANDLE SPRING.

The above cut illustrates a very simple device which can be attached to any straight handle of a bicycle for the purpose of taking up the sudden jar and vibration of the front wheel of safeties.

It also prevents the hands from cramping and takes all jar from the hands, arms and shoulders and makes riding easy and pleasant. By its use riders are not obliged to grip the handles except in climbing grades, the steering being easily done at other times by a gentle pressure with the hand on the shield. S.T.8

It consists of a clip that will fit any handle bar, attached to which is a spring of very finely tempered sheet steel and a shield over and conforming to the usual handle It is nicely finished and nickel-plated, adding to the good looks of the wheel.

Price, $2.00 per Pair.

Liberal Discount to Trade.

SIDWELL & SABEN. - - 243 Columbus Ave., Boston, Mass.

atotal club representation 340. The unattached numbered 250. Then the "fotograff." Some 5,000 people wended their way to the track, while the same was so sticky and heavy as to prevent fast time. The defeat of the New York men seemed very popular with the audience. The results were as follows:

One-mile novice safety. Sixteen men started, but three of them ran away from the other thirteen and the finish showed as follows: McDuffee, first, by 40 yards; Wheelock, second; Hines, third; time 3.10 1-5.

Two-mile Worcester County Championship. This was somewhat of a snap for the favorite, C. A. Fenner, who won as he pleased with J. F. Cronin second; J. Wilson, Jr., third; time 7.3 3-4.

One-mile tandem safety. This was a close and exciting race and was nip and tuck from start to finish. There were only two teams and they finished with only inches to spare. H. Sherveee and F. J. Johnson, first; J. Wilson and T. J. Kern, second; time 3.26 1-5.

One-mile ordinary; time limit 3m. Monte Scott, first; A. K. Pressy, second; B. P. Hedges, third; time 3.03. (No race.)

Half-mile open safety. Thirteen men faced the starter for the event and a pretty race they made of it. Tyler, Highlandville, first; McDuffee, second; Harvey, New Haven, third. Time 1.23 1 5.

One-mile State championship. C.A. Fenner, first; T.J. Connelly, second; A. K. Pressy, third. Time 3.17 1-5.

One-mile safety championship, Worcester County. J. Marten, Milbury, first; C. A. Fenner, Worcester, second; James B. Dunn, Millbury, third. Time 3.02.

One-mile handicap. A. A. Zimmerman started from scratch, but failed to get a place. Hedges, Foxboro, 100 yards, first; T. J. Connelly, 125 yards, second; J. F. Cronin, 100 yards, third. Time 2.42 3-5.

One-mile safety State championship was the best race of the day and most stubbornly contested. Considering the heavy track, the pace was good all through. G. M. Worden, who had been riding fourth, cut out the pace after the first lap, and although the others did their level best to head him off, he wouldn't have it, but kept pegging away handsomely. G. M. Worden, first; W. A. Nichols, second; Olmstead, third. Time 3.01. (Fastest time of the meet.)

Two-mile safety lap. W. A. Class, first; Tyler. second; Skedman, Brooklyn, third. Time not given.

One-mile safety handicap. This was another good race and the work done by Worden, (65 yards), and Tyler (75 yards), showed them to be good men, although they could not cut down the limit men. Catlin, 200 yards, first; T. J. Connelly, 190 yards, second; Deane, 175 yards, third. Time 2.44 3-5.

In the evening "smokers" were held at the club houses of the Bay State and Worcester clubs; in the evening a ball was held at Horticultural Hall. The award of prizes preceded the dancing. The Somerville Club captured the prize for having the largest number of League members in line. Dancing was kept at until a late hour.

On Sunday some two hundred and fifty of the wheelmen rode into Boston, stopping for dinner at South Natick. S. T.

THE PULLMAN ROAD RACE.

BETTER weather could not have been asked for than was granted the one hundred and fifty or more contestants in the great Pullman road race at Chicago on Decoration Day.

The road was in perfect condition and a gentle wind blewton the backs of the racers. The new course, although a mile longer, proved eight seconds faster than the old course. Fully ten thousand spectators viewed the race.

At the starting point thousands had gathered, and it was with difficulty the policemen could keep a path open for the riders. The South end of the Exposition building was thrown open for the accomodation of the contestants. The Lincoln Cycling Club and Cook Co. Wheelmen were each represented at the finish by Tally-Ho parties, who cheered lustily for the members of their club. The fact that Lumsden did not start elicited general surprise, but sickness was the cause. Paige of Waukesha and Crocker of Milwaukee were also on scratch but did not start. Van Sicklen, Barrett, Thorne and Ehlert were penalized four minutes, starting four minutes back of scratch. Theirs was a hot race from beginning to end. At the starting of this great race all was the best of order; A. W. Street, the starter, performed his work well, and the men were sent off without confusion. At the finish the crowd was immense and the riders were often forced to run into the spectators. R. M. Barwise, a 10 minute man, was first, as many expected. The prize winners finished in the following order:

The record of the twenty-five prize winners follows:

1—R. M. Barwise, Chicago, handicap, 10m., time 56m. 35s.
2—J. C. Starr, Englewood, 8m. 30s., 54m. 55s.
3—E. C. Bode, Chicago, 7m., 54m.
4—R. T. Hoagland, Kenwood, 4m., 55m. 1s.
5—J. P. Bliss, Chicago, 8m. 45s., 57m. 17s.
6—F. S. McMahon, Jr., Lincoln, 7m. 30s., 55m. 13s.
7—M. E. Loescher, Lincoln, 8m., 55m. 51s.
8—J. I. Brandenburg, Chicago, 7m. 45s., 56m. 2s.
9—G. D. Moffat, Illinois, 9m., 56m. 55s.
10—H. R. Howell, Englewood, 8m. 45s., 57m. 17s.
11—J. F. Stillwell, Lincoln, 10m., 58m. 33s.
12—J. W. McCulloh, Kenwood, 8m., 56m. 49s.
13—O. R. Barnett, Cook County, 7m. 30s., 56m. 20s.
14—J. R. Pollock, Lincoln, 7m., 55m. 52s.
15—A. R. March, Columbia, 8m. 30s., 57m. 27s.
16—C. D. Cutting, Cook County, 5m. 30s., 54m. 48s.
17—F. H. Brown, Cook County, 5m. 30s., 54m. 49s.
18—L. Bodach, Æolus, 7m. 30s., 57m. 9s.
19—C. W. Gray, Illinois, 6m. 30s., 56m. 11s.
20—J. J. Young, Lincoln, 8m. 30s., 58 m. 12s.
21—E. W. Ballard, Chicago, 9m., 59m. 4s.
22—H. L. Barnum, Illinois, 10m., 60m. 58s.
23—F. J. Fanning, Illinois, 7m., 57m. 10s.
24—F. J. Peale, Illinois, 8m. 30s., 58m. 40s.
25—E. D. Bamberger, Illinois, 7m. 45s., 57m. 57s.

These men won positions, but the penalized pneumatic tires brought their riders through in good time. N. H. Van Sicklen won the time prize in 50.17. He was closely followed by C. S. Merrill in 50.17 1-5. F. T. Andrae of Milwaukee rode an ordinary tire and made the best time in that class, 53.12. He was followed by F. H. Tuttle in 53.17.

C. S. Merrill refused a two minute handicap and started back with Van Sicklen, Barrett, Thorne and Ehlert. He finished close up with Van Sicklen.

Chas. Hageman of the Illinois Cycling Club fractured his shoulder when the race was almost finished. A woman started across the road by the Pullman Co.'s works and a rider struck her. He went down as did several others following him. Hageman took a header over the head, striking his shoulder and fracturing the bone. He went home on the train.

Frank Wing, the Ottawa representative, rode in splendid form. Although he had ridden over the course but once, and was not well acquainted with the road his performance was excellent, considering circumstances.

Geo. W. Dennison of the Englewood Club ran into a team at almost the starting of the race and his wheel was badly smashed. He threw it over into a yard and ran back and took the train to view the finish.

Geo. K. Barrett took a tumble on Stony Island avenue, and W. C. Thorne's handle bars struck a tree on the sand hill and threw him. Though hurt he continued the ride.

Marr, the hope of the Lincolns, had his rear tire off before he was half way there, and then the tire knotting broke several spokes out of his rear wheel and he had to stop.

Pollock, another Lincoln dark horse, was affected with cramps and came in 14th.

Keator, the unicycle rider, bragged too much before the race and consequently received only 5m. 30s. handicap. He was snowed under.

Barwise rode a safety. This is the first time a safety has come anywhere near winning. Funny that handicap of 10m. was given Barwise, but then why kick the poor handicapper.

Some claim that pneumatics were too heavily penalized by half.

Five of the Chicagos among the prize winners.

McMahon, fifth man, and Loesher, sixth man, both are Lincoln Cycling Club members. Loesher will use his prize wheel on the Elwell tour.

Thirty in the C. C. W. and twenty-four in the L. C. C. coaching parties. After the race and until 10 o'clock at night the C. C. W. took in visiting all the clubs.

Now for a finish race between Van Sicklen and Merrill. It ought to be, as the difference was very small.

At Thirty-fifth street and Michigan avenue as the first turn was made, J. F. Stillwell of the Lincolns broke the tire of his small wheel and rode along with his machine rattling like castinets. Just as he wheeled into Stony Island avenue from the Midway Plaisance the tire curled up, breaking half a dozen spokes and collapsing the little wheel. He pushed his machine up Stony Island avenue for half a block to where a spectator stood holding a new safety. Without waiting to make any explanations—in fact the broken wheel was explanation enough—Stillwell vaulted into the saddle. Passing those who had gained an advantage through his mishap he finished eleventh.

Although Geo. K. Barrett got no prize in the race he managed to capture a mile race at the athletic games in the afternoon; Bode second; time 3.51.

So many "possibilities" and they're never heard from yet. But when you want them there's that ever lasting excuse they always have.

No prize list has yet been issued. It is understood though that there are thirty prizes, including nine high grade wheels, medals, etc.

At the conclusion of the Pullman road race the State Board of the National League of American Wheelmen met Saturday at the Grand Pacific hotel. The chief business was the division of the coming year's work among the various committees and the appropriation of $220 for the entertainment of the State Division during the racing tournament at Peoria next fall.

RACING UNDER ELECTRIC LIGHTS.

AT Athletic Ball Park, Broad and Dauphin streets, Philadelphia, was witnessed on Wednesday evening of last week the experiment of outdoor racing by electric light, or to speak accurately, by electric and calcium lights, for the track was lighted by both. The meeting was given by the Third Regiment Athletic Association, and although everything passed off very successfully, there being no accident of any kind, yet it could scarcely be termed an unqualified success. In the first place, the lights should be central and elevated, so as to deflect the rays downward and outward, and in the second place there were not enough to light the track properly, and it is a wonder that there were no spills.

The audience, which began by being small at the start of the first race, showed an alarming tendency to increase, proportioned to the height of the fences and the darkness of the night. The experiment, however, was really as a whole a very successful one, and under proper management there is little doubt but that night race meets could be successfully carried out here.

The summary follows: One-mile safety—William W. Taxis, A. C. S. N., scratch, first; Frank B. Marriott, Y. M. C. A., 70 yards, second Time, 3m. 6s., Marriott rode a pneumatic, and as Handicapper Gideon thought that 100 yards to the mile was about the proper penalty, he went 30 yards back of scratch and rode an excellent second to Taxis, who was on a solid tired racer. Fifteen started.

One-mile ordinary—William W. Taxis, A. C. S. N., scratch, first; John H. Draper, A. C. S. N., 35 yards, second. Time, 3m. 17s.

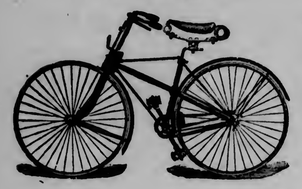
Two-mile tandem—Kelley and Draper, A. C. S. N., scratch, first; Crawford and Behring, Y. M. C. A., 150 yards, second. Time, 6m. 19s.

Two-mile ordinary—William W. Taxis, A. C. S. N., scratch, first; Vincent J. Kelley, A. C. S. N., 90 yards, second. Time, 6m. 37 3 5s.

Two-mile safety—William W. Taxis, A. C. S. N., scratch, first; Frank B. Marriott, Y. M. C. A., 120 yards, second. Time, 6m. 45s. "ARIEL."

20-MILE ROAD RACE AT GRAND RAPIDS, MICH.

THE race is over and excuses plentiful why each man did not win first prize. The day opened beautifully, with a large attendance of wheelmen from all parts of the State, and the entries, 24 in number, comprised all the fast men within its borders.



The course was to Plainfield and return—20 miles. The first half was rendered almost unrideable in consequence of fresh application of gravel, but the latter part of the course was in excellent condition and some very fast time was made on the home stretch. The condition of the road rendered it a picnic for the pneumatic, the riders of the "balloon," W. C. Rands and L. W. Schimmel, securing the two first prizes.

The third man in, was a boy yet in his teens, young F. A. Richmond,

The Rights and Privileges Committee having declared Rule G unconstitutional the Executive Committee have declared said rule void.

JAMES R. DUNN, President.

Improvement of Highways.

Mr. W. M. P. Bowen of Providence, R. I., and Mr. Charles W. Wood of Syracuse, N. Y., have been appointed members of the Committee on Improvement of the highways.

JAMES R. DUNN, President, L. A. W.

June 1st, 1891.

Improvement of Highways.

W. M. P. Bowen of Providence, Rhode Island is appointed a member of the Committee on Improvement of Highways. Fraternally,

JAMES R. DUNN, President.

Reinstatement.

By unanimous vote of the Racing Board Messrs. A. H. Brown, F. M. Coleman, Austin Banks, Herbert Shaw, E. R. Pynchon, G. D. Peabody, Lewis Block, F. L. Shepard and J. L. Sutton of Denver, Col., have been reinstated as amateurs.

C. E. RANDALL, Chairman.

May 27, 1891.

Expulsion.

C. G. Kilpatrick of Milwaukee, Wis., having failed to make answer to the charges preferred against him for violation of amateur rule, is hereby declared to have forfeited his amateur status. This declaration carries with it expulsion from the League. Amateurs are warned not to compete with Mr. Kilpatrick.

C. E. RANDALL, Chairman.

May 29, 1891.

New Hampshire Division Racing Board.

Messrs. F. A. McMaster, Chairman Nashua, N. H., Moses Sheriff, Manchester, N. H., and Geo. A. Place of Concord, N. H., are appointed members of the New Hampshire Division Racing Board.

C. E. RANDALL, Chairman.

May 27, 1891.

Racing Rules.

A printed copy of the '91 Racing Rules may be had of any member of the Racing Board by enclosing a stamp for return postage.

C. E. RANDALL, Chairman.

May 29, 1891.

Clubs applying for permission to pay expenses under Rule G will give names of men they desire to send, also place where and when their representatives are to compete.

C. E. RANDALL, Chairman.

May 28, 1881.

Kentucky Consuls.

The following members of Kentucky Division L. A. W. have been appointed Local Consuls for cities named:

Bloomfield—Arch Thomas.
Bank Lick—B. F. Metcalf.
Poindexter—John Wiglesworth.
Perryville—Frank K. Green.
Millersburg—Joseph W. Mock.
Union—H. F. Norman.

These gentlemen will take pleasure in posting tourists passing their way about roads, etc.

All Kentucky consuls are requested to recommend a League hotel in their towns, getting the best rates possible. Write the fact to the Secretary-Treasurer at Louisville, and he will see that the selection is appointed officially. We want a first class hotel in every town. Fraternally,

G. E. JOHNSON,
Sec.-Treas. Kentucky Division.

Ohio Delinquents.

To the 735 who have not renewed:

Surely you do not intend to desert us when we are so anxious that our good old State should get back once more to the place where she belongs? If we expect to get two thousand members by December 1st, every last mother's son in the Ohio Division must renew! This means you! Now do not waste any more time, but fill out the blank that has been sent you and forward it to Abbot

Bassett at once. Then you will have a clear conscience and can sleep well. Fraternally,
M. A. HIGH,
Cincinnati, May 30, 1891. Chief Consul.

Ohio Hotel.

Monroeville, Commercial Hotel, day $1.00; meals or lodging 25 cents each. Fraternally,
WM. D. KEMPTON, Sec.-Treas.

Ohio Consuls.

Monroeville, F. W. Adams.
Lakewood, Rocky River, and Dover, Frank F. Andrews of Lakewood.
Fraternally, WM. D. KEMPTON, Sec.-Treas.
Cincinnati, May 26, 1891.

Ohio Tailors.

Wabley & Carew, corner 5th and Vine streets, Cincinnati, have been appointed Division Tailors for Ohio. Associate tailors will be announced in your next issue. Fraternally, M. A. HIGH,
Cincinnati, May 26, 1891. Chief Oonsul.

Kansas Consuls, Attention.

Every Local Consul in Kansas is requested to make arrangements with some home newspaper to publish articles on the subject of the improvement of roads and highways. Plenty of matter already prepared may be found in the various numbers of the "Kansas Wheelmen's Library" and in different bicycle papers. It will not require much work on the part of the editor, and the public good thereby attainable is beyond calculation.
CHAS. S. DAVIS,
Chief Consul Kansas Division L. A. W.
Junction City, Kansas, May 26, 1891.

Pennsylvania Division.

The 1891 Division Championships have been assigned as follows:
To Century Wheelmen's race meet, Philadelphia, June 20th.
One-quarter mile safety.
One mile safety.
Two mile ordinary.
To South End Wheelmen's race meet, Philadelphia, June 27th.
One-quarter mile ordinary.
Two mile safety.
One mile tandem.
To Hagerstown race meet, July 3, 4.
One-half mile safety.
One-half mile ordinary.
One mile ordinary. H. CROWTHER,
Chairman State Racing Board.
Philadelphia, June 1, 1891.

District of Columbia.

The one-mile safety and one-mile ordinary championship of the District of Columbia (open only to League members) will be run at Hagerstown during the meet of the Hagerstown Bicycle Club, July 2, 3, and 4. Elegant gold and silver medals will be offered as first and second prizes.
GEO. S. ATWATER,
Chief Consul.

Missouri Division Uniforms.

To Members:
The Plymouth Rock Pants Co. of Boston, Mass., is hereby appointed the Official Tailors for this Division. The agreement is in the form recommended by the Uniform Committee, and special attention is called to the third article of same, which reads as follows:
"The party of the second part (Plymouth Rock Pants Co.) agrees to forward the entire uniform, or any part thereof, at the contract price (see below) at his expense, to any member of said Division of the L. A. W. that shall have ordered said uniform, within two weeks after the receipt of any order therefor, and to any place within the said Division accessible by mail or express."
The contract prices are as follows:
For the coat, $7.50.
For the breeches, $4.75.
For the cap, $1.25.
For the stockings, $1.00.
For the vest, $3.00.
For the belt, $.40.
Article IX—"It is agreed hereby by the Plymouth Rock Pants Co. that a branch office where members of the Missouri Division, L. A. W., can receive and examine the uniforms, shall be established in the city of St. Louis."
The company already has an agency at 606 Main street, Kansas City.
Blanks for self measurement as well as samples of cloth will be furnished to all who apply, by the Plymouth Rock Pants Co., Boston.
This agreement terminates on December 1, 1891.
All the uniforms made under this contract are guaranteed to be made of the regulation League cloth in a workman like manner, and exactly in conformity with the measures sent.
The undersigned desires to be informed of any violations of this contract.
Fraternally yours, RON'T. HOLM,
St. Louis, May 23, 1891. Chief Consul.

92—Missouri Renewals—475.

To Members:
Up to May 16 but 92 out of the 475 members have renewed their membership for 1891. This is less than one-quarter of the number whose memberships were renewed by this time last year, and I therefore again request all delinquents to give this matter prompt attention as soon as you read this notice. There are but three more short weeks to renew in, and unless the renewals average over 125 per week Missouri will have lost her position as twelfth in point of League membership. Every dollar that is sent on is spent for the benefit of the member sending it. There are no paid officers in the Division, and it is the least that you can do to aid in this matter by quickly contributing your yearly contribution towards paying for the many benefits which League membership insures to you. Therefore send on your renewal at once. Fraternally yours,
RON'T. HOLM, Chief Consul.

Missouri Appointments.

Mr. C. A. Burkhart, California, Mo., is hereby appointed chairman of the Highways Improvement Committee of this Division. F. J. Rowland, Springfield, and C. M. Ellis, Sedalia, are appointed as members of the Committee, vice W. A. Rothwell and T. H. McNeil resigned.
Ernest Hayslet, Clinton, is hereby appointed Local Consul for Clinton, Mo., and vicinity. G. H. Pallen is appointed Local Consul for West St. Louis.
League hotel, Aurora, Mo., Merchants hotel, L. A. W. rate $1.50 per day, meals 35 cents, lodging 50 cents. Regular rate $2.00.
Fraternally yours, RONT. HOLM, C. C.

Maine.

The Pine Tree Wheelmen of Portland, Me., have nominated Mr. E. H. Corson of that city for Chief Consul of the Maine Division L. A. W. Mr. Corson is a very popular wheelman, and will no doubt be well sustained at the coming election.

Michigan.

I have this day appointed Jno. R. Bishop consul for Buchanan. Yours fraternally,
A. B. RICHMOND, C. C.
Grand Rapids, Mich., May 27, 1891.

Massachusetts Road Books.

The present supply of Massachusetts Road Books is exhausted. A revised edition is now in press and will shortly be ready for delivery.
CHAS. S. HOWARD,
Sec'y-Treas.

New League Clubs.

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:
337—Century Cycling Club, Syracuse, N. Y.
338—Tourist Cycle Club, Paterson, N. J.

Connecticut.

No.
66. Bethlehem—C. H. Bird.
67. Burnside—Marcus A. Potter.
68. Collinsville—L. A. Case.
69. Deep River—Ralph G. Bushnell.
70. Essex—H. S. Morgan.
71. East Norwalk—Frank F. Hanford.
72. East Berlin—W. W. Mildrum.
73. Groton—F. H. Johnson.
74. Litchfield—M. L. Cummings.
75. Lyons Plains—Glivia B. Kellog.
76. Mystic—Chas. H. Denison.
77. Milford—Albert L. House.
78. North Haven—Willard L. Munson.
79. North Grosvenordale—Chas. A. Tucker.
38. Newtown—Frank Wright.
80. Norfolk—Harry E. Stevens.
30. New Britain—Lucius B. Norton.
81. Northford—J. L. Nott.
82. Stepney—Miles Eastwood.
83. South Windsor—Harry S. Powers.
84. South Norwalk—Homer B. Holt.
85. Southport—E. L. Gregory.

94. West Simsbury—George S. Harger.
95. Wethersfield—T. E. Damery.
96. Windsor Locks—A. H. Parmelee.
Local Consuls have been appointed as above.
ARTHUR ALLEN DEAN, Chief Consul.

Connecticut.

At the spring meet at New Haven, League members who have not renewed can secure League membership privileges by presenting their old ticket or 1890 number and one dollar. The renewal will be properly forwarded.
All who apply for membership at the meet will receive a special tournament ticket which will be recognized at the League Hotel and will secure all regular L. A. W. membership privileges to the holder. ARTHUR ALLEN DEAN, Chief Consul.

Minnesota Hotel.

The Elliott House is hereby appointed League hotel at Stillwater. Regular rates, $2.00. L.A.W. rate, $1.50.
Breakfast, dinner, or supper, 35 cents, lodging 50 cents. T. M. SLOSSON,
Minneapolis, May 28, 1891. Chief Consul.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:
"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an initiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."
Tickets will be issued fourteen days after the publication of names.
Candidates will please notice if their names are correct.
Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.
The application list is closed at 10 A. M on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

"Some, to the fascination of the name, surrender judgment hoodwinked."—COWPER

THE other "some" will run the risk of bursted or cut tires, or will churn themselves into the semblance of ancient tomatoes on rigid bicycles, because, forsooth, they bear a name of some ancient maker.

Why not, as a matter of good judgment, buy a high grade bicycle with a properly constructed spring frame, thereby saving much discomfort and annoyance and securing the enjoyment of pleasant transportation? Such a bicycle is the **PARAGON**, and we guarantee every one.

FOR SALE BY

THE LEADING DEALERS

From Maine to California.

WE DIDN'T DO IT!

And we won't promise to refrain from a repetition of said delinquencies. 'CAUSE WHY? WE are NOT GUILTY.

And we wish it understood, once for all, in full reply to many letters of inquiry, that we DID NOT build the Leaning Tower of Pisa, we had no finger in the erection of the old Mill at Newport; Bunker Hill Monument was finished without our trying to spring any information or plans of previous designs on the Commissioners.

The established receipe for English Plum Pudding is no infringement on any formula of ours. We do not license makers of German sausage to use any confined styles of overcoatings, which are exclusively our property. The grass hopper weathervane on Faneuil Hall is NOT a BASE IMITATION of any particular style of hoppergrasses we were building 'steenty years ago.

We simply rise to explain that WE BUILD 'BRONCHO" SAFETY BIKES. That we shall continue to build and sell them as long as the present demand continues, the assertions of the N.B. class of worshipers to the contrary, nothwithstanding.

If you want to know all the inside facts, write for CAT. and Testimonial book, AT ONCE.

First Cabin Passage. Sail July 4th
At 5 A. M., by the new steamer "DANIA."
Address Wm. Heyny, Jr., 301 Sixth St., N. Y. City.

"QUADRANT" CYCLES

ARE RENOWNED FOR

ORIGINALITY.

We make our own designs and work our own patents, constantly incorporating in our machines about 12 or 14 of our own inventions.

EXCELLENCE.

In these days when the commonest rubbish is advertised as "the best, the lightest, the swiftest," etc., and even sold as such, we can only ask intending buyers to send for our 1891 catalogue, and read the 16 pages of unsolicited testimonials received during the past season.

TRUSTWORTHINESS.

"A prominent feature of their exhit (Philadelphia Exhibition) is a 'Quadrant' which was caught between two cable cars on Columbia Ave. This machine is bent and twisted in every direction. but not a thing is broken."—*Bicycling World*, 6 March, 1891

"The machine is twisted out of all resemblance to a bicycle, but so far as can be seen not a single break occurred."—*Referee*, 6 March, 1891.

SAFETIES No. 17 and No. 20, with Tangent Spokes and Solid Cushion, and Pneumatic Tyres, are the leading lines of the season.

SPECIAL NOTICE TO THE TRADE.

The Manchester Cycle Company, Limited,

OF MANCHESTER, ENGLAND.

Have much pleasure in announcing that they have a large stock of the celebrated **"Irwell Safety"** on hand, ready for immediate delivery. Material and workmanship of the best. Guaranteed for twelve months against imperfections of any kind. The **"Irwell"** is the machine so popular in England for touring, on account of its strength, combined with lightness.

The Manchester Cycle Co., Ltd., are very desirous of introducing these wheels into every section of the country, and to do this quickly, and save correspondence, this announcement is made:

The price of the **"Irwell" is *$100*,** the discount to the trade is **25 per cent.** The Company want to sell through the trade only, and therefore will not supply any at retail in any town after an agent is appointed. *However*, until an agent is appointed, sample wheels will be furnished to any applicant at ***$75*** net, this being the lowest wholesale price. The machines will be crated, and are fitted with Garford saddle, tool-bag, oiler, wrench and bell. Built of Credenda steel tube, drop forgings and ball bearings all over.

After an Agent is appointed in any town, *no more* wheels will be *Retailed* at *Wholesale* prices.

Wheels sent C. O. D., with privilege of examination, on receipt of $10. Guaranteed Superior to most, and equal to any in material, workmanship and finish. Address.

BROWNING KING & CO., - New York.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them.

The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced Send for descriptive circular.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.

Made in sizes suited to different machines.

Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c.
With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy; adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere. [Mention this paper.

THE UNIVERSAL WHISTLE.

The Best Whistle for Cyclists, Hunters, Horse-car Conductors, and every one who use Mouth Whistles. The Patent Mouth-Piece enables one to hold it in mouth without use of hands. Price, by mail, 25c. or $2 00 a dozen. A chance for any smart boy to make money. WHITTEN, GODDING & CO., Providence, R. I.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE
ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

"THE DOUBLE DIAMOND."

We speak again of frames for two reasons, which may be briefly given as follows:—

First—We have found, as we hoped and expected, that the "Double Diamond" frame has met with the greatest appreciation from wheelmen and purchasers (as our order book shows), and has won the highest encomiums from all unprejudiced observers. A critical public has set its seal of unqualified approval on this frame.

Second—We wish to impress it upon you that this frame is the outcome of careful study and deliberation, of research and observation, of experiment and invention, and that it is offered as the best on the market.

Whether or not it is the best we leave you to judge, asking only a careful investigation.

Call at stores or agencies and see this frame, note its details, and learn its possibilities. Failing this, send for our Catalogue.

Volume XXIII. Number 7. BOSTON, 12 JUNE, 1891 $1.00 a Year. 5 cents a copy.

IRVINGTON-MILBURN.

The great race of the East, competed for by machines of all principal makes.

FIRST—Fastest time is made on a Victor by A. W. Porter of Boston. This on a regular road machine. 25 miles, 1h. 27m. 11s.

SECOND—The prize for fastest time on solid tire won by A. W. Porter on Victor as above.

THIRD—The prize for fastest time on a cushion tire won by A. P. Craig on a Victor. Time, 1 hour 28 minutes 07 2-5 seconds.

FOURTH—The fastest time made on a Safety Bicycle was made by Chas. E. Kluge on a Victor Model B, with cushion tires. Time, 1h. 28m. 29 1-5s.

The Victor took all time prizes where entered. Anybody is welcome to whatever else they can find in the Irvington-Milburn race. No effort was made by the makers of Victor Bicycles to win this race—it snowed in as hundreds of others have done, being won by riders of regular road machines.

Victor Bicycles are fast. They are well made. They run easily. And are favorites with winners.

OVERMAN WHEEL COMPANY, - - Chicopee Falls, Mass.

Boston. Washington. Denver. San Francisco.

Some criticisms on our last week's remarks have been indulged in by friends who seem to have the good of the Hickory Bicycle at heart, and would for our own sake have us do the right thing, i. e., the thing that *they* would do under the same circumstances.

Oh! dear reader, if you *only* knew how anxious we are to please you, but at times it seems so hard. Oh! *so* hard.

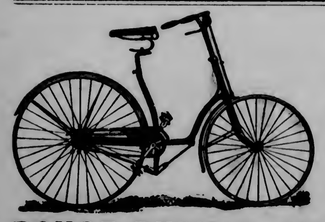
But hold! a happy thought! How would this do? Suppose each of our friends were to send, in properly indexed form, a full list of their opinions and beliefs on every conceivable subject, so that we might act in accordance with every one of them and not be led into these indiscretions.

Seriously, now, don't you think that Hickory *is* the proper stuff for wheels? Oh! you don't? Well, then, we must stop saying it lest your feelings might be hurt.

If you want to be on the safe side and not take any chances, just do as your grandfather did and then people won't laugh at you (well bred people won't) though they may want to sometimes. Bicycles were not much used in our "grandfather's days," but Hickory *was*, and still longer ago it got a reputation that can't be rubbed out, not even with a rubber tire; and speaking of tires, did you ever wish you had one that would stay on your wheel? Some tires do and some don't. Those used on the Hickory wheels

STAY ON.

"Ask (Hickory) riders." Oh!



We back 'em up; anything that gives out within a year, if the fault was ours, we make it good. But you mustn't try to work any of those *old* schemes on us. A man came in the other day and had a broken (metal) part of a Hickory machine. He claimed a new part, on the ground that the machine was warranted for a year and he had it only ten months. We found, on examining our books, that this machine had been in constant use for nearly three years, though the present owner had bought it second hand ten months before.

Another writes us to claim certain things on our guarantee of one year which, he said, would not expire "for at least two weeks longer," and one of his most important claims was for a new brake shoe (spoon) as he said the first one "was nearly worn out."

We have a paralyzer which works well on unjust dogs, but so far there is no satisfactory defence against unjust claims. Do you know of any? If you do, you can sell shop rights to every concern in the cycle trade, including the

ELLIOTT HICKORY CYCLE CO.,

P. S.—The projected entertainment which was to have been held in Hickory Hall, and was literally crowded out by new Hickory, has its atonement in the fact that we may still see and hear one of the strongest of the "Hickory Hall Team" at the Melonaon in Boston on the 16th inst. **Mrs. Hopkins** is a trump, and this will be the first opportunity that has been offered the public to hear her.

PARALYSIS!

WHAT we don't know about paralysis would fill a large measure, but we know that you know that a rapidly broken current of electricity will so effect your nerves that you cannot work your muscles at all. We also know that if you were to stand on a rapidly vibrating platform or hold to a rapidly vibrating handle, your muscles would be likewise affected. Then don't it stand to reason that if you ride a cycle that transmits every jolt to your legs, they will grow tired sooner than if they were not jolted at all? Don't you prefer the machine that tires you least? Don't you pronounce it the easiest riding? Don't you make better time on it? Don't you get more fun out of it? And last and not least, don't it make you have "a mighty tired feeling" to see other riders getting along easier than you? Verily it is even so. Then ride a Sylph three-part frame and find your ills completely cured. Live agents wanted everywhere.

EDITORS:

C. W. FOURDRINIER. J. S. DEAN.

Editorial Contributor, F. A. EGAN.

BOSTON, 12 JUNE, 1891.

HERE IS ANOTHER.

"* * * * We desire to say that we hear from your paper as much as from *all the other* papers put together. We are using four other papers. * * *." How's that? According to this OUR SPACE IS WORTH FOUR TIMES AS MUCH as any other paper used, but we do not charge any such rate at present.

CHAIRMAN RANDALL publishes in the official department of this issue a document purporting to be a reply of the Racing Board to the reports on Rule G of the Rights and Privileges Committee and the Executive Committee endorsing same.

The document is remarkable in several respects. First, the statement, "Therefore the Racing Board gives notice that the said declaration is unauthorized, null and void." By the shades of all the departed autocrats this is coming it strong! Do we understand that the Executive Committee, and the Rights and Privileges Committee have no "authority" to make any "declaration" which, according to their light and knowledge is in accordance with the Constitution and By-laws? Do we understand that Mr. Randall (and not the Racing Board by the way, as the Board has *not* passed any resolution on the "unauthorized" action of the Executive Committee and Rights and Privileges Committee) claims the supreme power of declaring what is and what is not authorized? We opine he does, as the following sentence will show. "* * Does the President claim that he or the Executive Committee or the Committee on Rights and Privileges created the Racing Board?"

Our reply to that query is this: The Constitution creates the Racing Board fundamentally, but the President creates and controls the Board individually, as Section 5, article VI. of the Constitution will demonstrate, and it further gives the President absolute power to appoint and remove any member of any Committee he may see fit.

"Section 5. All National Committees shall be appointed by the President who shall have the power to suspend or remove any member of such committees, and to fill vacancies therein arising from suspensions, removals, or from any other cause."

Further, By-laws, article I, section 1: "The President * * shall have a general supervision over the affairs of the League * *." Again article IV., section 1: "The Executive and Finance Committee shall have general management and control of the affairs of the League, while the National Assembly is not in session * * *." Is this sufficient to show Mr. Randall the extent of the power and control by those he questions?

IF Chairman Randall is so jealous of the rights of the committees and presumably the individual members thereof, will he kindly explain how it comes about that he officially declares that the "Racing Board gives notice that said declaration is unauthorized, null and void?" The facts are that the Racing Board have *not* met and passed any such resolution or "declaration." This is Chairman Randall's own opinion and declaration, and was not "authorized" by his Board. The other members of the Racing Board may have just cause for indignation that Mr. Randall has presumed to voice their opinions without "authority." The fact is Mr. Chairman Randall is a wee bit beyond his depth, and if he had read his copy of the Constitution more carefully he never would have made the stupendous blunder of questioning the "authority" of the President and the Executive Committee in doing what they have done, and in the same breath almost, quoting the Racing Board as taking action which it had not taken. Mr. Randall in his "declaration" has thrown down the gauntlet of defiance, and now we shall see what we shall see.

THE above article deals with the question at issue from a Constitutional point, and we wish for all concerned that we could close the discussion right here, because the differences are based on an opposite view as to the intent of the Constitution and By-laws, which are proper, business-like and without outrageous personality. But we cannot stop without condemning in unmeasured terms the clause which closes this, the most remarkable "official" document that has ever appeared in these pages. "* * * Such claim must come from that mental intoxication resulting from an excess of exuberance in a condition of self importance." The sentence is a trifle involved, but it is sufficiently clear to convey the intended unwarrantable insult to President Dunn and his confreres.

A FEW years ago, and the columns of the daily papers teemed with editorials upon the fact that the young men of the day did not promise vigorous manhood. The country was full of effete, sickly looking fellows, who could have starved the doctors and cheated the grave, had cycling but then been as popular as it is now. While wheeling in its wide, sweeping popularity has undoubtedly done much to correct this unfortunate state of circumstances, it would be foolish to deny that the many it has thus saved are not an atom compared with the thousands upon thousands of pale, limp, narrow chested youths; dyspeptic, enervated, careworn, broken down, middle aged men, that are to be seen upon the streets of our cities and towns. There are too few old men nowadays, and those that we have possess not one-half the vigor that they ought to have, a state of things due primarily to the comforts and conveniences of modern civilization, and its attendent curse of the absence of enough bodily exertion in the ordinary routine of our daily lives, which absence must be made up by some rational exercise in the open air, like cycling affords. There's salvation in the sunny, out-of-door, invigorating cycling which calls for positive exercise of will and muscle, which excites the faculties and stimulates the functions of body and mind into cheerful activity. It not only cheats the grave, but feeds the busy hive of human industry, and pays heavy tribute to every other good cause in the world.

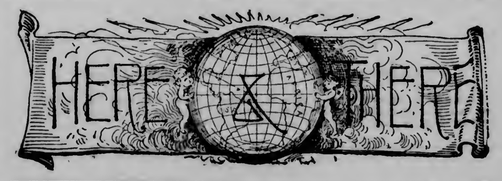
THE Michigan Division will have to do a little missionary work, as the following postal received from Local Consul R. D. Merrill will show.

"The village council of Burlington, Calhoun County, Mich., have passed a law prohibiting cycles on the streets of said village."

There is only one way to prove to the puissant members of the Honorable Council that it has made a mistake unless it listens to reason, and that is for some local rider to "immolate himself on the altar of his country" so to speak, get arrested for riding a bicycle on the streets of the village, and have the courts point out to the Honorable Council the error of its ways. To us it of course seems strange that these mistakes are constantly being made by intelligent men who do not seem to realize the unlawfulness of attempting to prohibit the use of the highways to cycles or any other form of vehicle. To "regulate" the use thereof does not give them the power to prohibit, as they would find out if they only took the trouble to consult a good lawyer. Scores of times similar ordinances have been passed by different city and village authorities, and as many times the ordinance has been revoked having been shown to be unlawful.

MR. HENRY GEORGE has become a thorough convert to cycling, and desiring to publicly make profession of his conversion, he very properly joined the League last month. It is such recruits as this which help the cause up towards the plane of dignity which we so earnestly desire to see cycling achieve. It is this desire which has prompted us to be rather emphatic in our opposition to the element which can see no harm in referring to each other as "boys." Mr. George is but one in the 20,000 odd League members, but he represents an element which it behooves us to encourage and interest in the sport.

WE have many enquiries for routes and these vary for long and short tours, and we think it would be an interesting feature to print in early issues, say that of June 26 and July 3, routes and tours of long and short duration. Will our readers send in such information and points on the subject as would be of value and interest? We would like the articles to be brief, giving distances, condition of roads, hotels, expenses, general character of scenery, and any especial points of interest on the road. We have several requests of this kind, and if we can get the material, we will devote most of the issues of June 26 and July 3 to this matter. We print in our "Here and There" several requests for routes, which can be sent to parties direct, or to us for publication.



OUR correspondent Dr. Darling, in his article on dress, takes the rather radical view that wheelmen do not require a special dress, and he cites as an argument that riders in carriages and on horseback do not require any peculiar dress. He also says that our ordinary every-day dress is *not* in the way. We are not in accord with our worthy correspondent's views. We believe that there is a "fitness in dress." The swallow tailed coat would be out of place on a yacht, and the sweater would not look appropriate in the ball room. Nothing gives cycling such a black eye as uncouth appearance, and certainly nothing can be imagined more uncouth than a rider with flapping trouser's legs skimming along the highways. As to trousers not being in the way, we have seen many a case when the legs of those same trousers have been ripped clear from the body. Of course if a man will use a chain guard the danger is obviated, but if he does not, then the practice of riding in long trousers unsecured by clips is downright dangerous. True it is that riders in buggies do not affect any special dress, but equestrians do, and in the majority of cases the neat and "fit" appearance is enhanced. There are extremes in this matter of dress for cycling, and we ask to be saved from either. The *outre* ribbon bedecked, bebraided and gold laced "uniform" and the long tailed coat and trousers flapping style. There is a rational dress which appeals to reason, good taste, and satifies the laws of health and cleanliness. In cases where a rider only uses his wheel to convey him for short distances then a special dress may not be absolutely necessary, but in such cases the bottoms of the trousers should be secured and the coat snugly buttoned. But for riding in the country or for any length of time an appropriate dress would not minimize the dignity of the Justice of the Supreme Court himself.

THE letter from Mr. Palmedo giving information in relation to the monster parade to be held in Brooklyn, June 20, contains one or two requests and suggestions that are significant. The first is a request that all wheelmen abtain from decorating their wheels, and that the ladies are requested to decorate same. The suggestion is that this be made a "wheel*men's*" parade. Brooklyn is in advance of many in practical attempt to strip cycling of its boyish butterfly flavor. Do not let us be understood as being down on "the boys," the real boys, the lads who by the practice of cycling and other outdoor sports are building a physical foundation which cannot but help be a great aid in after life. Let "boys" be "boys;" that is as it should be; but while all boys are properly striving to be manly, it is not fitting that men should be too juvenile or effeminate in their actions or appearance. We all know the high authority which says, "When I was a child I thought as a child and did as a child," etc.

IT is not often, we are thankful to say, necessary to record facts of a fatal accident to a cyclist; but the sad case of Mr. William A. Usher, of Brooklyn, N.Y., is one that will appeal to the sympathy of every one of our readers. It seems from the reports that Mr. Usher was riding through Prospect Park, Brooklyn, on his bicycle, at about three o'clock last week Monday, when he was run into and instantly killed by a team driven by Mr. Geo. E. Bartlett. He was literally trampled to death, and his skull and body were fearfully mutilated. The reports that come to us, we are happy to say, state that Mr. Usher carried a light, and we are sorry to notice that the same report says the carriage did not. The accident happened on a slope, and the theory is that the cyclist did not see the carriage until it was almost upon him, and then he turned the wrong way in a moment of fatal confusion. Mr. Bartlett states that he neither saw nor heard the bicycle approach; and while we do not find that he denies that the lamp was lighted on the cycle, yet his assertion that he did not see the rider points to that conclusion.

It is just on this point that we desire to say a few earnest words to riders and to beg of them never to ride after sunset without a lighted lamp. Investigation will show whether Mr. Usher's lamp was positively lighted, and if so, then the efforts of the authorities must be directed towards proving whether Mr. Bartlett was criminally careless or blameless. Much will depend on the evidence of a friend of Mr. Usher's who was with him at the time. The "trouble and bother" of taking care of a lamp is nothing in comparison to the fearful risks a rider runs in cycling after dark without one. In England the laws are very stringent in regard to these matters, and for the safety of cyclists and the general public we should like to see a little more stringency in this matter on this side the Atlantic.

CUTTING rates and selling in another territory are things that should be discouraged by all manufactures and dealers, and we are always glad to notice and print any official stand taken by the trade to correct these abuses indulged in by agents. Agents' rights must be protected in their own territory, and prices must be maintained if the business is to continue in the healthy condition that the cycle trade has enjoyed up to the present time. In this connection we are pleased to print in another part of the paper an agreement made between the Western Wheel Works of Chicago, and Messrs. R. I. Coleman & Co. of New York, bearing on this subject.

HAGERSTOWN! Hagerstown! Just as we go to press we received the list of events to be held at Hagerstown, July 3, 4. There are 29 events for the two days. Send to H. B. Irwin, P. O. Box 111, Hagerstown, Md. We shall print programme next week.

THE Brattleboro, Vt., wheelmen are making preparations to entertain a party of thirty Newton, Mass., cyclists next month, when the latter stop there on their way to the White Mountains.

COL. D. E. AUSTIN of the 13th Regiment, N. Y. S. N. G., has made application for permission to organize a bicycle company in the regiment. Although a comparative novelty in the United States, these companies are quite common in the armies of Europe and Canada, and do very effective and more rapid work in signalling and reconnoitering than it would be otherwise possible to do.

THE Century run of the Wissahickon Wheelmen on Decoration Day was such a success that another run is under consideration, and will probably take place in the near future.

MESSRS. GRAY AND SINGER of the Manhattan Athletic Club who were dissatified with the decision of the judges in the one mile tandem at the recent race at Atlantic City, have challenged Messrs. Bailey and Garrigues, the winners of that contest to a match race. Capt. Dalsen of the Century teamphas accepted the challenge, and the race will take place on June 20 on the Tioga track.

THE Oxford Wheelmen of Philadelphia, Pa., organized in the spring of '89 with six members; at present the membership is 93.

THE Somerville, Mass., Cycle Club will hold its annual outing and ladies' day on June 17.

VAL. A. FATH, a St. Louis League member, was assaulted and shamefully beaten by a party of hoodlums on Sixth and Hickory streets last Sunday while returning from Ballwin. The assault was entirely unprovoked, and was caused simply because Fath objected to having rocks thrown at his wheel. The public have the culprits behind the bars, and they will doubtless get their just deserts.

MR. A. M. BOROTHY who left Fremont, Ohio, on May 9 on his 25000 mile tour, arrived at Stamford, Conn., on June 3, making the run in 24 days; his best run for one day was 105 miles, which was accomplished in Western Pennsylvania. From Stamford he proceeds to New York by wheel and sails for Hamburg; his trip which he has laid out will cover 25000 miles. Mr. Borothy expects to return to this country this fall.

LEXINGTON, KY., has fallen into line, and has a new cycling club of eighteen members.

THE Cleveland, Ohio, Bicycle Club will make a trip to Ashtabula on July 4, where they will be met by members of the Erie Club, and the two clubs will join forces in a celebration of the day.

THE two days' trip to Washington on May 30 and 31 under the auspices of the Pennsylvania Bicycle Club was a success in every particular, over 200 wheelmen participating in the excursion.

THE novelty of attending a cycling picnic induced some thirty-one members and the friends of the Cycling Club of St. Louis numbering fully twenty more, to go down to Indian Cave last Sunday where a joyous day was spent. The lady members of the club provided lunch, and the tables which were set underneath the trees were tastefully decorated with flowers. All present rated the affair a huge success, and it will be repeated next year.

THE South End Wheelmen of Philadelphia will hold their 4th annual championship race meet at the Keystone track on June 27. Arrangements are being made with several other Quaker City clubs to hold their meets at the same time and place.

THE eight letter carriers in Owosso, Michigan, are mounted on safety bicycles.

A new cycling club has been formed at Rockland, Me., with a membership of 20. The club proposes joining the L. A. W.

MR. S. A. MILES of the *Referee* and Mr. Geo. Collister of the Racing Board spent Sunday last in Detroit.

SON-OF-A-GUN HILL climbing contest was postponed to June 13 on account of rain which fell heavily last Saturday.

THE Poorman Road Race, Hamilton to Cincinnati, July 4. Send for entry blank to J. E. Poorman, corner 8th and Race Sts., Cincinnati, Ohio. Entries close June 25.

MAINE tourists would do well to procure one of the new road books of that State. Not only does the book contain the usual information about the roads, distances, etc., but it has three excellent maps, which cannot help but be of vast assistance. See page 222.

THE rapid strides made by the Columbia Cycle Club, of New York, is worthy of mention. Organized a little over seven months ago, Oct. 14, '90, at the residence of one of the members, with fifteen charter members, it has steadily increased its membership till to-day seventy wheelmen are enrolled as members of this energetic club. Two months after it was organized the club began to look for a suitable location for a club house, and the house 262 West 37th street was finally taken and has since been in their possession, where all the joys and pleasures of a club can be found. Club runs are held every Thursday evening to different points of interest. Messrs. A. K. Fox and Henry Gledhill, Jr., compose the club's racing team.

SAYS our N. J. correspondent: "The annual State meet of the N. J. Division of the L. A. W. for 1891 is a thing of the past. The retrospection to those that were there is pleasant. The hospitality of the Elizabeth Wheelmen was noticeable from our arrival to our departure; they left nothing undone that ought to be done, unless possibly they should have prevented the storm; the Union County roads, that we had heard so much of, proved to be even better than we anticipated and showed what can be done by an enthusiastic, cautious and persevering body of wheelmen when they put their shoulders to the wheel and, with one object in view, work to accomplish that object. The parade was pleasant and a success; the banquet was "immense" and the theatre party ditto. In fact, in all ways except numerically and financially the meet was probably the best and finest ever given by the N. J. Division. Mayor Rankin in his speech at the banquet welcomed the wheelmen to Elizabeth and offered them the freedom of the city, and as head of the police department he told us (confidentially of course), that the police had instructions not to "take in" any wheelmen during the meet. President Dunn in his short, bright and interesting speech, congratulated the mayor, the Elizabeth Wheelmen, Union County, and almost every one on the many pleasant features he had noticed during his short short stay at the meet.

The Englewood Wheelmen and Bergen County Wheelmen, N. J., will have a lantern parade on the evening of June 18th.

THE postponed team road race between the Fall River and New Bedford Cycle Clubs will probably take place on July 4.

IN consequence of the Fourth of July coming on Saturday this year many organizations are laying out plans for a two days' outing.

THE Referee Wheelmen of Philadelphia, Pa., are no more. The organization is now known as the Penn City Wheelmen.

AN exchange says, "it is estimated that there are 10,000 people engaged in the cycle trade in Coventry, England.

THE date of the formal opening of the new club house of the Hudson County Wheelmen has been changed to June 25, instead of June 13, as previously announced.

THE Toledo, O., Cycling Club will have a house warming on the evening of June 13, for the members and lady friends. The Toledo Press Club and Detroit Wheel Club have been invited to be present.

CHAS. MORSE, JR., of the Bergen County (N. J.) Wheelmen, met with a serious accident while coasting down hill on an "anti-header" bicycle, being thrown over the handle bars and sustaining a severe fracture of the arm.

THE ladies of Geneva, N. Y., are talking of organizing a wheeling club.

A BICYCLE club is to be formed at Middleboro, Mass.; it is to be a League club.

THE Centaur Cycling Club of Brooklyn, N. Y., have secured new quarters at 702 Manhattan avenue, Brooklyn.

THE Kings County Wheelmen have decided to postpone their five-mile handicap club race to July 11, on account of the bicycle parade coming off on June 20, the day originally set for the event.

OLEON, N. Y., has a new cycling organization known as the Olean Cycle Club; it starts off with a membership of 24.

FIRST Vice-President Burdette was in Boston on legal business last Tuesday.

QUITE a number of the Detroit postmen have adopted the safety bicycle to reach the farther districts, and say they are much quicker and practical than to use the street cars.

THE Watertown (N. Y.) Cycling Club will hold an International Meet at Riverside Park on July 4th. H. P. Cooke, secretary, Watertown, N. Y.

COL. A. A. POPE sailed for Europe last Saturday and will be absent for a few weeks.

THE Indiana Division Meet will be held at Indianapolis, Ind., July 11.

SECRETARY-TREASURER SCOTT of New Hampshire sends us this note in relation to the scorch from Worcester to Natick May 31. I nearly "kilt" myself trying to keep up with the first party, and did not succeed very well after all. Came in about 15th with Cartwright. Geo. Place of Concord came in 2d and McMaster 3d.

RANKIN & BRUCE of Providence have had the misfortune to have stolen from them Swift Safety Model, 1890 D, No. 91206. Look out for it.

BEST route wanted by C. J. Kenah of New Brighton, Pa., for a wheel from Pittsburg, Pa., to Hagerstown, Md.

KEOKUK, Iowa, has a newly organized cycling club, to be known as the Keokuk Cycling Club.

A NEW cycling club is on the tapis at Augusta, Ga.

THE Y. M. C. A. Bicycling Club, recently organized at Rochester, N.Y., has a membership of 40, and bids fair to become one of the strongest organizations in that city.

A CONSERVATIVE estimate places the number of participants in the great century run on June 13th at 450.

THE Holyoke (Mass.) Bicycling Club is arranging for a tournament to be given the latter part of the month for local riders only.

A NEW cycling club to be known as the Methuen Wheelmen has recently been formed in that town.

THE favorite resorts of the wheelmen of Gotham are either the prettily shaded, picturesque roads in Westchester County, and especially those that follow the Hudson in the neighborhood of Yonkers and Irvington, or the long level runs in New Jersey, which stretch out in every direction within a radius of 25 miles from the city. A few go to Staten Island; but although fairly good roads are found there, it is not a popular resort because of the difficulty in reaching it.

JOHN H. SIMPSON, one of Brooklyn's oldest and most enthusiastic wheelmen, although well advanced in years, can be seen daily in Prospect Park.

THE Bridgeport (Conn.) Wheel Club has appointed a committee to complete arrangements for the ten-mile handicap road race to be given by the organization on July 4.

A WHEEL club has been formed in connection with the Amity Athletic Association of Brooklyn, N. Y.

THE Fall River Ramblers will hold a six and one-quarter mile handicap road race on Tuesday evening, June 30, at 7 P.M. Open to all local wheelmen.

BRIDGEPORT (Conn.) cyclers expect soon to be the proud possessors of a race track at Seaside Park.

Brandon, Vt., expects to soon have a cycling club, too. The matter is under consideration at present.

THE lately organized Knickerbocker Wheelmen are making rapid progress in point of numerical strength.

SUBURBAN wheelmen of Boston who ride to the city daily, and wish a convenient place to store their wheels during business hours, are invited to join the Union Bicycle Club of Boston. It is the only active cycle organization in the city with quarters on the ground floor for wheels. Membership application blanks can be secured of President H. L. Coburn, No. 7 Exchange Place, or C. Clark Orcutt, Secretary, No. 24 Winter street.

SAYS "Jasper" of Buffalo, N. Y.: "The interest in cycling in Buffalo is daily on the increase at a very rapid rate, which is made manifest in various ways. On the street, a few years ago, the ordinary was most often observed, at such times as would lead one to infer that the rider was having a half holiday, or was on the way to business. But with the advent of the rover type of wheel, we now see old, young, and all sorts of men, both black and white; ladies and young girls, children who look just old enough to walk, all having adopted the favorite means of locomotion. The dealers declare that, of the favorite styles, they cannot keep up with the demand, yet their shops are full of wheels. A few years ago, two dealers in Buffalo represented the entire cycle interest in combination with other forms of business, whereas now we have any number of shops, whose only business is with the wheelmen; we also have the cyclist furnisher who combines his gents' furnishings with sporting goods, a very necessary adjunct and most welcome. The cycling clubs have taken on new life, some having reached their membership limit, with a large list upon the bulletin board, from which to select the next fortunate member; other clubs are taking members in by the half dozens, and new clubs are constantly being formed. Who shall say that we are not a sporting centre, with our monster athletic clubs, well organized cycle clubs, clubs for lawn tennis, base ball, foot ball, la crosse, swimming, boating, riding, fishing, hunting, and shooting? It seems a rather long list of sports, but they all have their devotees here, and the dealers will give the inquirer a surprise upon many of these sports.

D. W. ROBERTS, of the Missouris of St. Louis, is hard at work on a handbook which will contain photo-engravings of the interior and exterior of the pretty club house and grounds, a short historical sketch of the organization, and a copy of the constitution and by-laws. The little volume will be one of the neatest cycling works ever published, and will be mailed to all wheelmen on applications.

A PARTY of Hudson County Wheelmen will visit Greenwood Lake for a two days' outing in the latter part of July.

THE entire team of the New York Athletic Club has been entered for the races of the Columbia Cycle Club at Charter Oak Park on July 4.

THE explosion in the Worth factory at Chicago used up A. L. Jordan pretty badly, and when he arrived in St. Louis last Thursday, his best friends would not have recognized him. He is now doing fairly well, but it will be weeks before he can venture out.

THE lady cyclists of Ansonia, Conn., have organized a wheel club and have adopted the very mysterious name of the "K. K.'s;" the members of the Ansonia Wheel Club have had their curiosity aroused to such an extent by the queer title of the ladies' club that they have offered a gold medal to the person who will find out the full name of the organization.

THERE is always a charm about the De Soto run which induces it to be generally the best attended run of the season. The Missouris of St. Louis,

held their "annual pilgrimage over the mountains" on May 31, and the participants speak of having a great time. The road was found to be in excellent condition, better than ever before. The start was made from the club house at 5.30 A.M. Breakfast was taken at Point Breeze, dinner at Bulltown, and lunch at Hillsboro. The party arrived at De Soto at 3.30 P.M., well pleased with their day's outing. Ed Grath and Will Daugherty climbed all the hills, a feat which must be accomplished to be appreciated.

CARTHAGE MO., has fairly gone wild over the meet. Everybody is workin hard for its success, and it cannot be otherwise as it is backed by the most influential business and professional men in that city, most of whom are devotees to the wheel.

LAST Sunday's run of Detroit Wheelmen was out to Wayne while one party scorched out to Dearborn. But the rank and file of local riders went to and from Belle Isle. Sam Miles was rather surprised to see over fifty riders in the party.

SINCE the asphalt paving was laid on 8th avenue, New York city, this street has been the Mecca of cyclists after nightfall for riding purposes; many accidents have occurred, and the protection of the police is now asked in the matter.

EVERYTHING is in good shape for the lantern parade at Buffalo, N. Y., on June 15. Fully 2?00 wheels are expected to be in line. Weather permitting, it will be a great success.

THE regular monthly meeting of the Cook County Wheelmen of Chicago was held last Wednesday night, at which an amendment to the constitution was voted, changing the meeting night to the second Tuesday night of each month. Mr. G. H. Cornell resigned the office of secretary, and Mr. Sam Barr was elected in his place. Forty-two new members were taken in at this meeting; the club's membership is now 330.

THE results of the Poorman Handicap Road Race, to be run on July 4th, are being looked forward to with a great deal of interest by local wheelmen. It is hard to find a group of wheelmen in Cincinnati who are not discussing, pro and con, the merits of this race and the probable winners. The pneumatic question and the speculation as to its effect on the time, etc., have put our knowalls all at sea. The entries will, in all probability, be double in number those of last year. The prizes, two safety bicycles, will be given to the first and second men finishing, regardless of the kind of wheels they ride. The entry blanks are now ready. There will also be a handsome time medal.

THE Tally-ho party to Pullman, of the Cook County Wheelmen, Decoration Day, was a success. On the return trip the party visited three of the principal clubs. Lack of time prevented calling at the Æolus, Englewoods, and others.

MR. W. P. FAUST of 1712 Diamond street, Philadelphia, writes us: "I would like to get a particular route that would make an easy and agreeable tour for July ond August, suitable for a party of ladies and gentlemen. Would like it to extend two months in time at a not more than 40 miles a day pace at the utmost." [See editorial on this subject.—ED.]

THE Quincy (Ill.) Bicycle Club issues a very neat handbook of runs. The dates, destinations, distances, etc., are printed. Then spaces are left blank for total distance in miles travelled, weather, condition of roads, number of men, expenses, and general remarks. Thus a member is able to keep an epitomized record of every run taken in which he participates.

THE Boston *Herald* has the following item in its issue of June 6. "A bicycle rider named Harrington, while riding through Quincy, Mass., on his wheel yesterday afternoon, met with a singular mishap. As he was passing the team of Dr. Sheahan the bicycle met an obstruction, and Harrington took a flyer and alighted astride of the doctor's horse. Before the doctor could rein in the animal he had run over the machine, completely wrecking it."

THE race meet of the Porkopolis Wheelmen of Cincinnati at Chester Park on July 4th is the theme of conversation among wheelmen in Cincinnati at present. The members are hard at work, and if energy and enthusiasm are any indication they will make the meet the most successful ever held in this section of the country. They believe something ought to be done to keep alive the interest in racing, and propose to do their part. They have the sympathy and support of all the local wheelmen. Since the Central Wheelmen gave their race meet at Chester Park some four years ago no club has had the courage to undertake anything of the kind. Although the "Porks" are a new club comparatively speaking, yet those who have charge of the event are old riders, and have had considerable experience in such matters.

WILL some one who knows the route from Chicago, Ill., to Albion, Ind., kindly communicate same to Vernon Matlack, 744 West Jackson street, Chicago, Ill.

WANTED—A route from Hamilton to Toronto, Ontario, by Charles B. Hill, 23,115, Greenville, Mich.

SATURDAY evening, June 6th, a special stag party was given at the Cook County Wheelmen's (Chicago) club house, in honor of the club's riders in the recent Pullman road race. This includes the members who won places and also those who made the effort and finished. It is notable, however, that not one of the 19 members entered in this race and started, failed to cross the tape at Pullman. Ice cream and cake was the chief feature of the stag, and a musical programme rendered.

THE performance of W. Murphy at New Haven, one mile in 2.26 4-5, is the best ever made in competition, and equals Mecredy's great effort against time last summer.

G. M. WORDEN looks like a man moving up towards the top notch of the racing talent. It will be well to watch G. M. the coming season.

To Kluge and Van Wagoner—Sirs: You were not in it.

WHERE, Oh where is that challenge from the Palisade Wheelmen (N.J.) for a team road race that we heard so much about? Several clubs stand ready to accept, and are only waiting.

A SILVER cup valued at $50 has been offered by two Amsterdam, N. Y., merchants for the best half-mile bicycle rider in Fulton or Montgomery Counties; the contest to take place July 4.

DRESS.

EDITOR BICYCLING WORLD: I really do not want you to flay me artistically in response to the following because I herein express a few ideas (probably crude and novel and cranky) of the dress of L. A. W. Before I joined the increasing rank and file of safety riders, I thought the idea of doctors, lawyers, clergymen and business men donning knee breeches, yellow shoes, ribbed stocking, petite caps and short coats was irresistably funny, if not more so.

Since I became an amateur wheelman, a green novice and an immature rider, I am not a whit more persuaded that we should make a show of ourselves or that there is any necessity of changing clothes when we take a spin for business or recreation upon our safeties.

The League dress is not dressy. It reduces the appearance of professional and business men to the minimum of dignity and to the maximum of *proletaire*. I write not of the ordinary bicycles for it is *above* me, or of "professionals" or of those riders who desire athletic notoriety, or of those whose thoughts and aims are on the line of a scorcher.

The dress separates us into a class, and every effort made by us for improvement of roads, or for other privileges is regarded by the dear Public as an effort for *class* privileges, when in reality it is no such thing. Our professional and business men might as well uniform for buggy or horseback riding. True horses and buggies are universal now, so should bicycles be, but as long as there is "specialty" kept around the safety so long will people think it requires special talent to ride the bicycle, whereas any and all of our people—male and female—can become riders. The convenience and the celerity and the ease astride a safety beckons every one to their use.

Our ordinary every day dress is *not* in the way, and professional and business men should eschew the uniform. The advantages in favor of so doing are that we are not remarked or relegated to a class, but are the same humanity astride as afoot. Our efforts too will have the force of being the efforts of the people for improvement of roads, etc. We will avoid being regarded as an exclusive class, and will be considered just what we are the same individuals riding our safeties as riding other vehicles or going afoot, a healthy active part of the community, no more and no less, striving in common with all others for no class rights and privileges, but for the improvement and advancement of all rights and privileges common to all.

HORACE M. DARLING, M. D., LL. D., etc., 233:2.

HAWKSHAW'S COLUMN.

FOR certain temperaments, there is a pleasure not only in overcoming the difficulties of riding, but also in acquiring a skill or speed that shall make them pre-eminent among wheelmen. There are no bounds to this part of the fascination of cycling. The possibilities of the bicycle, as hinted at in the marvellous riding done by some of the professional trick riders, seem almost infinite. Any one who has watched an adept spinning along the road with no apparent care or exertion can form a vague idea of this. The possibilities of the bicycle as hinted at in the continued decreasing time of record performances, makes it a possibility of the future that the supremacy of even the trotting horse, in the time consumed to cover a mile, will have to give way to the wheel. But after all, one of the chiefest fascinations for racer and roadster alike is the "jolly fellowship." It is the sympathy of tastes among those who love the open air, the sensation of perfect health, and the recreative exercise of mind and muscle, that give rise to such a freemasonry among wheelmen. With them it is the wheel that "makes all the world akin."

MR. WILDWEST: "You didn't show up at the club run yesterday."

MR. DOWNEAST: "I did not display at an elevation you mean."

With the approach of summer comes essays upon the science of taking a vacation, on the science of taking a rest, in other words. There is naturally a good deal of humbug and not a little cant in what is said and written on this topic. Even when the average man or woman nominally "take their vacation," and go to some stuffy boarding house in the mountains, or cheap hotel at the seaside, they do not know how to find rest when they get where rest is. They lug their worries with them like burdens upon their backs, or they mistake for rest a more or less wild raid into forbidden fields, involving late hours with all that late hours imply. Serious people, who really want to get out of their working machinery all the work there is in it, should make the study of how to rest and repair the machine as serious a study as the study of how to drive it at the highest pressure. This is just the time to begin that study, and as there is nothing so restful as order, this is the time to form an orderly, well thought-out plan of how to put in to the best advantage the few days or weeks that you will have allotted to you for repairs. It is a tolerably simple study. It only requires a clear understanding of what repairs are most needed, of where the strain of toil has been the heaviest. An overdraft on the nerves needs one thing and an overdraft on the muscles needs another. Yet for both there is, after all, the same general medicine—the wheel. Don't say that you cannot take your vacation upon it; don't try and imagine that you cannot leave home without a trunk and all of your belongings with you. Life was perhaps more healthful, longer, and more pleasant before ever man had a trunk or anything to put in one. At any rate, whether this be true or not, leave your trunk home, lock up in it all of your petty ills and troubles, and if you fear that it will prove to you another Pandora's box, then throw the key away, mount a wheel, and flee from the surroundings of your every day life. Don't map out a schedule of time and distances and try to adhere thereto, regardless of all comfort, pleasure, and rest. It is well enough, perhaps, to have some general form of itinerary of the journey, but let it be a skeleton, and clothe it afterwards with the places, routes, and stops that may best suit your convenience. Laze along where roads are pleasant, loaf when time and opportunity render it agreeable, don't worry, and don't hurry; and when night arrives you will find that there will come to you that deep, sweet, death-of-each-day's-life sleep, that beats all of the medicines that doctors had ever thought of; and when the day is reached that marks the end of your vacation, and the labor of another year has to be taken up again, you will find that not only have all of the overdrafts been met and paid, but that you have stored up a balance of health and rest that makes your account in the bank of life greater than any and all of the other deposits you have ever made there. Try it and see if it does not.

The JOHN WILKINSON COMPANY, 269-271 STATE STREET, CHICAGO.

Sixteenth Year in America.

1876 1891

The First Cycles in the United States

The Largest Cycle Manufactory in the World

Roxbury, April 24, 1891.

To Singer & Co.,

Dear Sirs:—I have used your 1891 pattern wheel, with the one inch wired tire, and have no hesitation in stating that it gives more satisfaction than any cushion tire that I have ever tried, and as for hill climbing, it is unsurpassed.

Yours truly,
JAMES KELTIE,
Captain Roxbury Bi. Club.

SINGER & CO., 6 and 8 BERKELEY STREET and 2 WARREN AVENUE, BOSTON, MASS.

How short a time it seems since women have emancipated themselves from the idea that Mrs. Grundy delighted to teach that exercise was only fit for tomboys and had a tendency to give to women an appearance of robust health, which she declared was incompatible with refinement. More rational notions are now beginning to prevail, thank goodness, and the limp anemic maiden with uncomfortable prominences is rapidly giving place to a type more like the Greek ideal of healthy womanhood. The ruddy-cheeched, full limbed wheel woman of to-day is not afraid of the health giving kisses of the god of day, and is a living illustration of the value of exercising possibilities of the wheel. She is healthier, stronger, more lissom, and withal, more intellectual, more energetic and self-reliant, as well as more amiable and better tempered, than her wasp-waisted, beringleted great grandmother, with her languid elegance and her Draconian code of feminine decorum. In the physical "betterment" which cycling more than any other agent has made so conspicuous in the girls of the period lies the best hope for the future of our race.

"HAWKSHAW."

A WHEEL INTO THE INDIAN COUNTRY, NO. 9

BY C. W NORTHROP.

THE TRIP CONCLUDED.

EVERYWHERE our wheel was the centre of attraction, and if one question was answered regarding it, we answered a thousand. After the bicycle had been thoroughly discussed, other subjects were always in order, and in this way we picked up an endless amount of interesting information that could not have been obtained if travelling in any other way. But we must hasten on—from Running Water we wheel directly north for several miles to escape the "gumbo" of the Missouri "bottom," which although fertile to a remarkable degree, is the meanest and most sticky road material we have yet encountered. Soon this is left behind, and then the highway is as perfect as the day is beautiful. Up and down the grades and along the level we spin with so slight an effort that it almost seems as the pedals rise and fall as though we were treading air. With all its ease how swift is the flight of the bicycle! A little ahead is a team jogging along at a fair pace, yet how fast we overhaul them. Now wheel and wagon are even, and the inevitable "brush" follows. It is a good horse, however, that can show his heels to a veteran wheelmen, and with quicker stroke of pedals and firmer grasp of handles we forge ahead, and soon a turn in the road leaves our opponent out of sight. Here is a long hill; the first grades are not hard to climb, but it grows steeper as we near the summit. Gradually the rider's weight is shifted from the saddle to the pedals, and soon every muscle is taut under the increasing strain. Now the wheel slips and progress almost ceases. Shall we dismount? Not yet, for one supreme effort carries us up the last grade and over the summit—out of breath, but victorious. We have had the work, now comes the play. Ahead is the long down grade with several water bars or "thank you ma'ms" across the road. The first of these are taken slowly, but as the machine gains momentum the quick rise and fall gives a rocking motion to the bicycle that is truly delightful. Now we are half way down the hill and spinning along at railroad speed with two more water bars to clear. On the first we say "thank you," as the machine soars into the air, but the "ma'am" is jounced from us, for with a clear jump of two yards, we alight with a jar that fairly sets our teeth on edge. We are travelling a trifle fast for pleasure now, but it is dangerous to apply the brake, so laying well back in the saddle we take the last bar. The jump is longer here, and for several yards after landing we have the curious sensation of rushing along on one wheel with the back bone swinging from side to side behind like a heavy tail. But the grade is easier now, and as the pace slackens a tride the motion becomes both smooth and exhilarating. Under us we can plainly hear our 55 inch wheel humming a tune as the slender spokes cleave the crisp air, while the wheel itself resembles a disc of polished glass revolving rapidly in the sunlight.

But again we must hasten on. We have enjoyed a spin on the level—a hard pull up a long ascent, and a glorious coast down the opposite grade. There remains but one thing to make this morning's ride a memorable one, and even that is not denied us. It is after wheeling two hours, and while about three miles from Scotland that we notice some distance ahead two horsemen jogging slowly along. One, a full blood Ponca, is mounted on a wiry pony, the other, a tall half-breed, is riding a larger horse of good form and action. The natural result follows: In a moment we are pedaling away with might and main, bent on catching up and getting ahead of the Indians. But we have counted without our host, for while still fifty rods behind one of the horsemen turns in his saddle, and evidently divining our intention, speaks to his companion and both gallop away at a rapid pace. The challenge is too plain to be unheeded. A stern chase is proverbially a long one, but we feel equal to it. Tough and long-winded from many day's hard riding, and reckless enough to dare much to win, we care little whether the finish is two miles to the front or ten, so long as our bicycle comes out ahead. Again we hear the "whirr" of the wheel as it revolves under us while the road flows backward like a rapid river. On either side we see nothing, and ahead only the narrow road and the two galloping horsemen enveloped in a cloud of dust. Now they breast a short hill —are over the top and out of sight—but the grade is an easy one, and our pace is hardly slackened as we follow them to the summit. Here we have a decided advantage. Ahead is a long coast, and with "legs over handles" we rush down the grade, gaining rapidly on the pony, who plainly lacks the "bottom" of his companion. A quarter-mile from the foot of the hill we are but a dozen yards behind the Ponca, and seeing this he pulls out to one side, while the slender wheel flashes past. Is the delicate mechanism of the bicycle feeling the exitement of the chase? It almost seems so, for the pace, always a hot one, is faster now than ever, yet do our best we hardly gain a rod. The horse of our opponent is a noble one, and his master, a hard rider, with whip and spur is urging him to the utmost. So for a mile we ride without gainining material advantage, then a turn in the road shows a long steep hill ahead—a second edition to the one we had climbed an hour before. This is more than we have bargained for. Already our wheel is running heavy as if needing oil, but we know only too well it is the first sign that shows the rider is getting tired. The sight of the hard driven animal ahead laboring up the ascent at a slower gait, however, acts like a tonic, and we take the grade with a rush that carries us half-way to the top. We are gaining rapidly now, and as we pull over the summit hardly a hundred yards separate horse and bicycle. Could we have selected an ideal track for the last lap of the race, it could hardly have been finer than the course before us. A hard, straight road on slightly descending grade ending a half-mile beyond in the town of Scotland. Now for it! Every particle of reserve energy is put into this last effort. Bent double over the handle bars we drive the machine ever faster and faster, as the down grade helps us. But we are going fast enough, for half way of the course the two steeds, one of flesh and one of steel, are together; and so side by side we stay a moment, and then as the bicycle forges ahead, the half-breed, with accourtesy worthy of imitation pulls up his horse while we ride into Scotland, winner by a dozen rods. It has been a hard race, and an hour's stop is little enough in which to rest and cool down.

The lesson taught here is not unheeded. All through the tour we had made it a point never to take any man's dust, but afterwards we are content sometimes to occupy second place, especially if the horse seems as speedy as the one we had encountered to-day. But we must end this record here, for we are fairly out of red man's land now. The same evening we reach Yankton, and four days later arrive at home brown as an indian, and tough and wiry as one of the ponies with which we have measured paces often. A word before we close as to time and distance ridden, may be of interest. The tour occupied 20 days and covered 890 miles, an average, dropping one day for stops, of nearly 47 miles. In the three weeks of riding over roads, many of which were difficult and some even dangerous, we had but two slight falls, both taken in a careless moment. Our machine, a light roadster weighing 37 pounds, came through almost without a scatch, and was sold six months later within five dollars of the price it cost us. And now in conclusion, let us say to the wheelman who wishes to see something new and strange, who longs for other roads to conquer, and would welcome a spice of adventure if not too exciting, follow our example and try a wheel into the Indian country.

THE END.

Copyrighted, 1891.

A SUMMER VACATION AWHEEL IN THE HARZ MOUNTAINS.

BY WM. HEYNY, JR.

(CONTINUED.)

FROM Blankenburg to Wernigerode we get in half a day, including the stops at Michaelstein, Heimburg, Benzingerode, etc. Down the road we take a last look back at the great group of the Regenstein, Teufelsmauer, and Blankenburg, a strikingly beautiful and effective picture. Continuing, our road lies through shaded forest mostly, and affording startling pretty views. What a beautiful ride! At Michaelstein, a little village, we pass under an odd, steeple-crowned gateway, and see some remnants of an old abbey. Near by are the picturesque sceneries of the "Moenchsmuehlenteich," (monks' millpond), with grand old oaks and little waterfalls, a sketching place for numerous artists. Further on, the "Waldmuehle" inn looks too inviting, as that we could pass by, without stopping. At Heimburg we visit the ruins of Heimburg castle, of the eleventh century, and ride over the plain, through Benzingerode, another village, to Wernigerode. The steeples of Wernigerode Castle now appear to the right above the forest; soon it will be in full view. Elegant villas on both sides of the road announce the suburbs of a great summer resort. This is Noeschenrode.

Our road branches off towards the left; a little climb, and we dismount at Hotel Lindenberg, the best of the many well appointed houses of this town. From the hotel-plaza we can study the lines of the castle, one of the finest in the world, as one would enjoy a great painting in an art gallery. The general view from the Lindenberg is by far the most attractive of any point in the vicinity. Situated in midst of a mountain-forest, along the valley of the Holtemma, Wernigerode, with the adjacent villages Noeschenrode and Friedrichsthal-Hasserode, is one of the loveliest towns of the Harz. We have it all before us; the plain, the wo'ded hills, the town, the mill valley, the Brocken and all the other moun- : but the eye is forever drawn back to admire the magnificent castle, ... its many-hued roofs and glittering steeples, embedded like a jewel in the green foliage of the mountain forest.

After our meal we may ascend to the "Lindenkopf," just above the hotel, where we have a somewhat different view. Then we will walk down, and take a stroll through town. The pretty city hall, and the Gerlitz house with carvings and inscription: "I know that my Redeemer liveth," and the year 1522, are the oldest houses. Besides there is the "Schumacher Mauer" (shoemaker's wall) and an old tower, part of the ancient fortifications.

The castle road runs up, beeween the grand park and castle-hill, to the "Marstall" (counts' stables), and thence to the castle, about 400 feet above the town. The reigning count of Stolberg-Wernigerode resides here. We are shown through some of the apartments of the castle, and also look around the charming park. Herds of deer are seen at all times. The view from here includes our handsome hotel opposite, and all the mountains above it, crowned by the Brocken.

Many different excursions are made from Wernigerode, but the most romantic place to visit in the environs is the "Steinerne Renne" (stony clove), with numerous pretty waterfalls of the Holtemme. Below we pass a great quartz-rock, the "Silberne Mann" (man of silver), where a fine echo is had. Way up the "Renne" is a restaurant, where they serve on rocks instead of tables, and above this place the "Wodansboehe" affords a grand view of the town of Wernigerode.

After we have enjoyed the many points of interest about Wernigerode, we mount our machines for the grand ride to the Brocken, the piece de resistance of the Harz. At the foot of the Lindenberg we take the highway for Schierke, a small town, 15 kilometers distant. Our road at first runs along the valley of the Holtemme. The houses of Friedrichsthal and Hasserode are built on both sides of the highway; thus we ride along a street, some three or four miles long.

(TO BE CONTINUED.)

THE BROOKLYN PARADE.

THE committee in charge of the Brooklyn parade, June 20, wish to urge an immediate answer from all clubs to which invitations have been sent. Clubs, as well as unattached riders, are requested to notify Mr. H. E. Raymond, 245 Flatbush avenue, Brooklyn, N. Y., of their intention to participate, blanks and notices for which may be found at the stores of dealers in bicycles, etc. Ladies intending to join in the parade will please communicate with Miss L. Paige, 168 Seventh avenue, Brooklyn, N.Y., who has charge of this division, which promises to be a very large one and a prominent feature of the parade. It is desirable that participants should appear in club uniform as far as possible, and without decorations to their wheels, excepting ladies, who are requested to decorate them.

Several prizes have been obtained, regarding which details will be published later on.

As this is to be a wheelmen's parade, and to impress the public with the fact that cycling has ceased to be only a boy's sport, it has been decided to exclude boys under 18 years of age, and also boys' wheels.

The assembly will be on Eastern Parkway, east of Bedford avenue at 3.30 P.M., the start at 4 P.M. over the following route:

To Prospect Park, then by the West Drive to the South Gate, and on Boulevard a short distance, and return over about the same route.

The Brooklyn wheeling clubs will keep "open house" on that day, and all out of town wheelmen are welcome.

How to reach the place of assembly:

23d street ferry to foot of Broadway to Bedford avenue, to Eastern Parkway.

Brooklyn bridge to Henry street, to Pierrepont street, to Clinton street, to Schermerhorn street, to Flatbush avenue, to Sixth avenue, to Lincoln place, to Plaza, to Eastern Parkway.

Fulton ferry and Pennsylvania annex boat: foot of Fulton street to Henry street, then same as previous route.

From present appearances this will be a big affair, in fact the biggest of its kind ever held here; and to prevent confusion and insure a prompt start, it is desirable to have as soon as possible a complete list of participants, so that positions in line can be assigned.

U. PALMEDO,
Chairman Committee on Detail.

THE ELWELL TOURISTS.

THE itinerary of the European tour is out, and to read it makes us poor stay at homes weep and gnash our teeth. The party consists of Baker, W. W., Winchester, Va.; Collins, A. G., Paris, France; Cutler, Chas. G., Boston, Mass.; Eldridge, A. G., Knoxville, Tenn.; Elwell, F. A., Portland, Me.; Goodrich, F. R., Girard, Ohio; Gilbert, E. J., Mansfield, Ohio; Higgins, H. S., Portland, Me.; Hoffman, Rev. C. B., Hook, N. Y.; Higgins, F. M., Mansfield, Ohio; Linn, Geo. R., Chicago, Ill.; Marquardt, H. S., Des Moines, Ia.; Miller, Chas. M., Providence, R. I.; McCutcheon, F. M., Boston, Mass.; Requa, S. F., Chicago, Ill.; Rupe, H. G. G., Philadelphia, Pa.; Shockley, W. A., Candelaria, Nev.; Swan, F. N., Springfield, Mass., Spielman, F. A., Fairfield, Ia.; Tuttle, L. J., Des Moines, Ia.

They sailed June 6th on Steamship LaGascogne, and will arrive in Havre, France, June 14. Great Britain will not be included in the tour this year. France, Switzerland, Germany and Holland. The party will reach London from Roterdam via steamer about August 18, and will then disband.

LEAGUE MEET NOTES.

PREPARATIONS for the League meet at Detroit are going on nicely, and all the space for the cycle exhibit in the rink has been taken.

The lantern parade will be the largest ever held anywhere.

One of the most attractive things during the 12th annual meet will be the twenty-five mile handicap road race. It will be run over the Pontiac course, the start being from Pontiac with the finish here. Nearly two-thirds of the road is in sight of the railroad, so that the special train run in after the start will be able to keep the contestants in view most of the way and get in in time to see the finish.

MISSOURI DIVISION MEET.

CARTHAGE has been quietly at work the past few months arranging for the sixth annual meet of the Division, and when Chief Consul Holm visited that city on last Sunday to perfect the arrangements he found but little work left undone. The programme is in the printer's hands and will be out next week. It will be a "daisy" and a marked departure from the old style of things. The actual cash value of the prizes will be over $800, and among them are gold medals costing $25 each for the championship events, two bicycles, a diamond scarf pin and others equally valuable and useful. Work will be begun on the track on June 15, and it will be in the finest possible shape. The parade on the morning of the Fourth will be short and will cover the principal down-town streets. Fine prizes are offered for the parade, which should induce every wheelman to take part in it. The Carthage Cycle Club, which has lately been organized as a League club, will take a prominent hand in the entertainment, and will do it royally.

They have fitted up several elegant rooms near the Harrington Hotel, where they will keep open house during the meet. Cyclists from Kansas are especially invited to attend. The Harrington Hotel will be the official headquarters, and in addition to subscribing a good sum to the entertainment fund, have made the wheelmen a reduced rate of $1.50 per day on presentation of League ticket. This ticket and the badge will be the open sesame for the banquet, smoker, parade, and possibly the races, and as the wheelmen arrive they are requested to proceed immediately to headquarters, register and receive the badge. Intending participants should be sure to take their tickets, as without them half of the enjoyment of the meet will be lost. The transportation arrangements will be carefully looked after. The full list of prizes will be printed in programme and will be published next week. Entries for the races close June 29. Entry blanks from A. W. Garner, Carthage, Mo. Chief Consul Holm states that Carthage is without a peer in its facilities for entertaining a large crowd of wheelmen. With twenty-five miles of splendid streets, her elegant riding district stretching for miles on every side, and her half-mile track, which must be seen to be appreciated. It is eighty feet wide, and level as a floor, corners are very easy and banked high. It has a stone foundation and on account of the sub-drainage can be ridden on within an hour after rain. The grand stand seats 3,500 people, and is a model of its kind.

LINNEUS.

THE BIG MEETING AT BUFFALO, N. Y.

THERE is no doubt of the success of the three days' tournament to be held here on the 15th, 16th and 17th of this month. That it will assist in developing added interest to all classes of athletics, legitimate sports and all forms of exercise, there can be no question. Undoubtedly the day is not far away when the work of the gymnasium will receive as much attention as that of the class room.

One of the results of these games, to be given under the A. A. U. League of this place is the controversy over the advisability of allowing "unattached" men to compete. There are a great many arguments for both sides, but the negative seems to have the best of it though at this time, for the benefit of all concerned the subject had better be dismissed; but when one considers the question from all points there is everything in favor of having it settled soon.

Three special wheel events have been added to the programme for the second day to secure attractive "flyers." The distance will probably be one mile, and for ordinary, safety and tandem. The unicycle race will be made a scratch event and will be open.

The committee in charge of the 50-mile road race decided that pneumatics be penalized ten minutes and cushions two minutes. The limit for the handicap will be 45 minutes.

The Ramblers Bicycle Club and Iroquois Athletic Club will have a gymnastic entertainment at Concert Hall on the night of June the 16th.

"JASPER."

INDIANA DIVISION MEET.

THERE will be a meet of the Indiana Division at Indianapolis Saturday July 11, under the management of the Zig Zag Cycling Club. Live committees have been appointed, and the preliminaries are progressing finely. The State championships and a varied programme of other races, 15 events in all, will be run on the half-mile track at the Exposition Grounds at two P. M. Besides the championship medals a well filled prize list including some wheels is being made up. For entry blanks address L. J. Keck, Chairman Race Committee, 118 North Penna. street.

R. M. FLETCHER,
Secretary Zig Zags'.

SUNDAY RACING IN ST. LOUIS.

THE Sunday games question is at present stirring up the local athletic world to the very bottom. The Belleville A. C. advertised its games for Sunday, June 14, and as the holding of Sunday games is against the rules of the A. A. U., the club was promptly expelled from the Union. Now to add fuel to the flame, the Pastime A. C. of this city, which represents the A. A. U. in the West, issued a circular in which expulsion is threatened to any club that allows its members to compete in the games. Looking at it from the standpoint of a disinterested spectator, it is a pretty mess, and schemes are being concocted by the dozen to get around this peculiar law. Without Sunday games, local athletic managers might as well quit, as the gate will not even pay advertising expenses on week days. Nearly all of our local cycling cracks will take part in the games mentioned.

LINNEUS.

ANNUAL SPRING TOURNAMENT OF THE TIOGA ATHLETIC ASSOCIATION.

THE Tioga Athletic Association gave a very successful race meet on their grounds at Westmoreland Station on Saturday afternoon, before an audience of fifteen hundred people, a large number of whom were ladies. The track which has been widened, and banked more heavily at the turns, was in fairly good condition, although the surface was a trifle loose, which was distinctly in favor of the pneumatic and large cushioned wheels.

Taxis of course took the cream of the prizes, although Draper and young Marriott did some good work. Draper is riding in better shape this year than ever before, but is doing a little too much work; on Saturday having completely run himself out. The rain which threatened all day fortunately held off until night, thereby enabling the races to be finished. Cushions were penalized ten yards and pneumatics one hundred to the mile. Summary: One-mile safety novice—J. A. Mead, Q. C. W., first; R. H. Smith, C. W., second; H. N. Schwank, unattached, third. Time 4.03. A loafing race until the last lap, when Mead took the lead with a rush, winning easily.

Two-mile tandem handicap—V. J. Kelley and J. H. Draper, A. C. S. N., scratch, first; J. C. Donnelly and S. H. Crawford, Y. M. C. A., 120 yards, second; F. H. Garrigues and M. J. Baily, C. W., 100 yards, third. Time 6.13 1-5. Draper and Kelley lit out from the start and caught their men at the first mile and a quarter, thence going easily to the finish.

One-mile ordinary, open—W. W. Taxis, A. C. S. N., first; J. H. Draper, A. C. S. N., second. Time 2.56 2-5. S. W. Merrihew started, but Taxis and Draper cut a hot pace from the crack of the pistol and he dropped out on the second lap, Taxis winning by ten yards.

One-mile safety, 3.30 class—First heat, W. W. Owens, C. C., first; T. M. Jones, second. Time 3.31 1-5. Second heat, J. J. Diver, D. A. C., first; H. T. Wonder, T. A. A., second. Time 3.32. Final heat won by W. W. Owens; T. M. Jones, second. Time 3.38 4-5.

One-mile safety, three minute class—V. J. Kelley, A. C. S. N., first; J. C.

(SEE SUPPLEMENT.)

Are you riding a wheel for the comfort and pleasure there is in it, or simply for the sake of riding something?

Did you ever ride in a lumber wagon? Did you ever ride in a spring buggy? Do you know the difference in the comfort and pleasure that is experienced? Do you ride a rigid wheel? Have you ever ridden a RAMBLER? Have you ever felt the positive luxuriousness of its spring frame? Do you take the hint?

EXTRACT OF HICKORY

CATALOGUE.

PRICE, $100.00. Weight, 45 pounds.

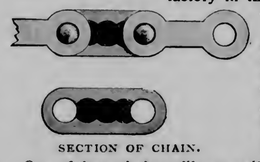
THE USE OF HICKORY FOR VEHICLES

Is Sanctioned by all the Experience of all the World to Date.

WHOEVER tells you he has a better material for the purpose, should expect to be called upon for proof. The use of rubber tire makes a steel vehicle possible. Without it, steel wheels cannot endure. Hickory wheels without the rubber cushion, pounding over stone pavements, supporting loads always excessive as compared with bicycles, running more hours per day, more days in the year, often lasting from ten to twenty years.

These are what the world depends on for business, and these only. Attempts to supersede timber for wheel construction have been as futile as they are numerous. Ninety-nine per cent. of the timber used for vehicle wheels is inferior to that used in the Hickory Cycles. No builder of carriage wheels (not excepting the best of them) builds as good a wheel as we do. Call this egotism, if you like, but we are old enough to know better than to say it, if we couldn't make it obvious to the average mind. ETC.

We use the best workmanship, the highest quality of timber, the greatest amount of care as to selection, seasoning, etc. And on top of this we put a rubber tire.



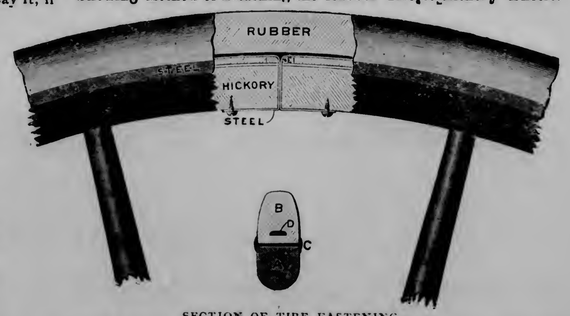
BEARINGS.

IN the *Bicycling World* of Jan. 31, '90, we had considerable to say on the subject of bearings, and the fact that several makers of ball-bearings blamed the editor of that paper for allowing us to publish those remarks, shows that we hit somebody in a sore spot, for, as a rule, a man never "hollers" unless he is hurt. We claimed that a well made parallel bearing was better than anything yet discovered; that statement was not made hastily, but was based on an experience of some extent, and also on the experience of many others.

We still use in our $100 machine a parallel axle of hard ened steel, ground true and straight after being hardened. Running upon this axle is a phosphor bronze tube which is a (detachable) part of the wheel. The only objection that can be raised to this form of bearing is that it needs oiling more often than does a ball-bearing, but being properly oiled it is the best bearing you can have.

A Hardened Steel Self-Oiling Chain

This Chain Has Been Adopted by the Largest Cycle Manufactory in the World.



SECTION OF CHAIN.

THE lower part of cut shows the section of the solid steel link. The three dark circles show the shape of the holes which are drilled clear through the link, and *which make a slot that is filled with felt.* This felt is saturated with oil, and is constantly feeding to the link pins the oil contained therein.

One of these chains will run well for 500 miles with once oiling. To oil, lay machine on its side, drop two or three drops of good oil on each link, and repeat as long as it will absorb. Each link will take from eight to fifteen drops.

Showing Method of Attaching the Rubber Tire to Hickory Wheels.

SECTION OF TIRE FASTENING.

THE wheel is turned true and flat on its periphery, and is fitted with a peculiar steel tire having flanges which project inwardly on either side of the rim, and outwardly to protect the sides of the rubber, as clearly shown by the small sectional view. The rubber has a small oval aperture throughout its length, and in this opening is placed a ribbon of tough steel. The ends of steel ribbon pass inwardly through the rubber and felloe, and are drawn taut by means of a special fixture, after which the ends are bent from each other and secured by small screws into the felloe.

SPECIFICATION.

Driving wheel, 31 inches, geared to 54 1-2 inches. Steering wheel, 25 inches. Rubber tire to both wheels, 3-4 of an inch in diameter.

THE BACKBONE

Is so shaped as to make mounting and dismounting a very easy matter, and also admits of the machine being ridden by ladies.

THE SADDLE

Has an adjustable tension for riders of different weights, a long fore-and-aft adjustment, and the most perfect tilting device in existence.

THE WHEELS.

Well, don't worry about the wheels; for strength, lightness and durability, they have never been equalled. As you may have suspected, these wheels are made of HICKORY.

THE BRAKE

Is applied to rim of rear wheel through the medium of a steel chain passing entirely inside the tubular frame, leaving the outside of frame smooth and free from objectionable levers, rods, etc.

HANDLE BAR.

Now hold on a minute, you have been accustomed to seeing a handle bar made of large tubing, this is done to "make it rigid," and you like it for that, then to take the jar off you at once look for some sort of jointed or pneumatic antidote. We don't believe in any vicarious anti-vibration attachments. Prevention is better than cure and in the solid spring steel handle bar you have it.

FRONT FORKS

Are of spring steel, tough, elastic, strong, hard to break and easy to fix.

REAR FORKS.

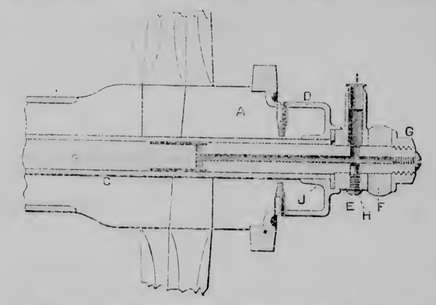
These are made of Hickory and that settles THAT.

THE PEDALS

Are of a new design. Easy and safe. They retain the oil, and are fully protected against dirt. This is the only pedal which looks much smaller than it is.

SPRING FRAME,

(Not springs in a frame) but a frame which is elastic because it is made of elastic material, and without working joints. How does this strike your common sense?



CRANKS

(Those we use on the machine) are oval in section and offset at an angle so as to give plenty of clearance to the foot. Men who earn their living by making other kinds of cranks have admitted that ours was the neatest crank on the market.

SECTION OF REAR HUB AND AXLE

USED IN THE

Hickory Bicycles.

A is the hub, made of rock elm, into which are driven the hickory spokes (14 in number). On one end of this hub is tightly fitted the steel sprocket wheel D, which also covers the end of the hub and projects inwardly around the bronze tube C, which forms the "box" or bearing. The axle B is of hardened steel, ground to size (9-16 of an inch). It fits the tube, except for an inch of its middle, which is made smaller as shown. Driven up to a shoulder on the end of the axle is the steel connection E, into which the supporting braces of hickory frame are screwed, and through which is the oil hole, closed by a cap I. Outside of this last-named part is the hickory fork F, held in place by a nut G, the fork being screw riveted on each side of hole through which the axle passes. The oil hole at I is of 22 calibre and one inch deep. The axle is bored with three holes, the two through its diameter being intersected by the longer hole, the outer end of which is tightly closed by a screw, which may be removed should it be necessary to clean out the oil hole. The part E has a set screw H, which holds the axle against turning while tightening the nuts, and by its removal a wire may be passed entirely through the oil hole. By loosening the nut G, and the corresponding nut at opposite end of axle, and removing set screw H, the axle may be revolved one-half turn, thus bringing in use a new bearing surface. The combined sprocket wheel and hub band has at its outer end a projecting flange covering a portion of the connection E, and acting as a shield to prevent dirt from entering the joint. The end wear is taken by two leather washers. The opposite end of hub is the same, except the oil holes and sprocket wheel.

12th Annual Meet of the L. A. W.

DETROIT, MICH., JULY 16, 17, 18, 1891.

Address Chairmen as below at Detroit for information relating to the work of the committees:

Chairmen of Committees:

Reception—C. H. Smith, 211 Putnam avenue; B. J. Holcombe, 222 Woodward ave
Races and Transportation—Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Don'ts for the Renewal Season.

Don't forget that you are in the last days of the season.

Don't forget to send number.

Don't say a word if you can't give number. We will look it up and put it on the blank. We don't care if you have lost it, mislaid it, or forgotten it, but we do care for the space to write the number in. Leave it vacant.

Don't ask for a lower number. Numbers will be changed in the year 1900. Not before.

Don't write us concerning road-books, maps, etc. These are issued by the divisions. Write your Sec.-Treas. See his address in BULLETIN.

Don't forget to give us your home address, if you are temporarily out of the State. We have to locate you with division where your home is.

Don't put questions, or requests for a change of address on the renewal blank. These blanks go to clerks who do not answer questions nor change addresses.

Don't put your name and number in the body of a letter. We want only name, number and address. All else is superiluous.

Don't be surprised if you get a circular from your division secretary telling you that you have not renewed, since many of these will go out from checkings made several days previous to sending.

It is possible that many who have renewed will be dunned. If you have your ticket, take no notice of the circular, and don't get indignant in any event.

Don't write us for recruiting circulars or application blanks. Your Division Secretary will supply these. It is important that division officers should know the workers, and where blanks and literature are being used. Every division officer has or should have a full stock of blanks.

ABBOT BASSETT, Sec. L. A. W.

Racing Board.

June 6, 1891.

ABBOT BASSETT:

Dear Sir—Enclosed I send you important matter for immediate publication. Please see that it is inserted in the next issue, June 12.

Respectfully yours, CHARLES E. RANDALL, Chairman.

Whereas, James R. Dunn, president of the L. A. W., declares that the Rights and Privileges Committee have declared Rule G of the Racing Board unconstitutional, and that the Executive Committee have declared said rule void:

Therefore the Racing Board gives notice that said declaration is unauthorized, null, and void. The rule referred to is authorized by the by-laws of the League and is not unconstitutional; but even if it were, neither the president nor said committees have any power or authority officially to sit in judgment, to either condemn or approve the rules of the Racing Board. That can only be done by the League and amendment of the by-laws. All these committees are independent of each other, and creatures of the constitution. As well might the Racing Board declare the actions or proceedings of the Executive Committee or Rights and Privileges Committee on matters within their province, void. No committee can intrench upon the powers and rights of another committee. If any of these committees do exceed their power, then the power that created the committee can hold them responsible. Does the president claim that he, or the Executive Committee, or the Committee on Rights and Privileges created the Racing Board? If so, such claim finds no sanction in the constitution or by-laws of the League, or in parliamentary usages; but such claim must come from that mental intoxication resulting from an excess of exuberance in a condition of self-importance.

Rule G is in full force and effect.

CHARLES E. RANDALL,
Chicago, June 6, '91. Chairman Racing Board.

The above is published at the request of the Chairman of the Racing Board. It purports to come from the Racing Board. As a member of the Racing Board I desire to say that I have not been called upon to vote upon any such resolution, nor do I know that any other member has voted upon it. I cannot connect myself with the false reasoning of the resolution nor with the disrespectful and insulting conclusion.

ABBOT BASSETT,
Member of Racing Board,

Handicappers.

Mr. E. P. Burnham of Newton, Mass., has been appointed an official handicapper for the New England States in conjunction with Henry Goodman, Esq., of Hartford, Conn.

Walstein Seymour, Esq., of Des Moines, Ia., has been appointed an official handicapper for District No. 10, comprising the Nebraska, Iowa and New Mexico Divisions.

J. L. Blackadore, Esq., of Denver, Colorado, has been appointed an official handicapper for District No. 11 comprising Idaho, Utah, Arizona and Colorado.

CHARLES E. RANDALL,
Chairman Racing Board.
Chicago, June 1st, 1891.

Nebraska Division Meet.

The annual meet of the Nebraska Division of the L. A. W. will be held at York, Neb., July 4th, and every League wheelman throughout the West is cordially invited.

The programme for the day will be, first—morning reception at League headquarters and distribution of badges.

Second—A short parade through the principal streets of the city for which appropriate prizes will be given for the club having the largest number of members in line. After the parade all wheelmen will be photographed.

Third—In the afternoon there will be a grand bicycle tournament at the driving park, and L. A. W. members will be provided (free) with tickets to the grand stand. This will be the most interesting event of the day. Valuable prizes will be offered, and all the prominent racers of the West will compete.

Fourth—In the evening an entertainment will be given, in which bicycle suits will be full dress.

POINTERS.

Tell your acquaintances and urge them to join the League on or before that date. An official will be at the headquarters in the morning to receive applications for membership and issue certificates. Entries for the races will close June 25th.

Per order of the committee,
A. H. PERRIGO, Chairman.

Nebraska Tailor.

Nicoll, the tailor, has been this day appointed official tailor for the Nebraska Division of the L. A. W. at the following prices: pants, $4.50; coat, $10.50; vest, $2.50. Fraternally,

A. H. PERRIGO, Chief Consul.
Omaha, Neb., June 3, 1891.

Indiana.

I hereby appoint Mr. W. M. Dunham, Evansville, Ind., as Local Consul, vice O. T. Logan resigned.

Yours fraternally, H. T. HEARSEY.
Indianapolis, June 6, 1891.

Nebraska.

R. A. Powell is hereby appointed Local Consul for Grand Island, Neb. Fraternally,

C. B. NICODEMUS, Secretary-Treasurer.
Fremont, Neb., June 2, 1891.

League Clubs.

The following League Clubs have renewed membership.

13—Keystone Bicycle Club, Pa.
49—Frankford Bi. Club, Pa.
125—Central Cycling Club, Kan.
190—McKeesport Cyclers, Pa.
197—Kankakee Ramblers, Ill.
204—North Easton Wheel Club, Utah.
215—Warren Cycle Club, Pa.
224—York Cycle Club, Pa.
228—Queens County Wheelmen, N, Y.
243—Auphenwalk Wheel Club, Conn.
246—Englewood Wheelmen, N. J.
260—Bergen County Wheelmen, N. J.
273—St. Louis Cycling Club, Mo.
278—Columbus Safety Cycling Club, O.
282—West End Bi. Club, N. Y.
292—Wanderers Cycle Club, O.
294—Jacksonville Wheelmen, Ill.
295—Columbia College Cycling Club, N. Y.
301—Geneva Ramblers, N. Y.
306—Oshkosh Wheelmen, Wis.

New League Clubs.

The following clubs have qualified as League clubs and filed the certificate required in the office of the Secretary:

339—Norfolk Club, So. Weymouth, Mass.
340—Union Bicycle Club, Boston.
341—Owosso Wheelmen, Mich.
342—Maple City Wheelmen, Honesdale, Pa.
343—Carbondale Cycle Club, Penn.
344—Zinc City Cycling Club, Pittsburg, Kan.

Indiana Division Meet.

The Annual Meet of the Indiana Division L. A. W. will be held at Indianapolis, Saturday July 11th, 1891, under the auspices of the Indianapolis Zig Zag Cycling Club, at which time the State championships will be contested.

The business meeting of the Division will be held at the rooms of the Indianapolis Zig Zag cycling club at 9.30 A. M. Fraternally,

H. T. HEARSEY, C. C.
Indianapolis, June 6, 1891.

Renew—Indiana—Renew.

At the close of the League year, April 1st, our membership roll showed 275 members. If we wish to keep abreast of the other Divisions we must increase this number to 500 this year. We cannot attain this result unless every member renews. Renewals have been coming in entirely too slow. The renewal season is rapidly drawing to a close, hence it is to your interest to give this immediate attention. Do you want to participate in the State championships and the good time promised by the Indianapolis Zig Zag Cycling Club, July 11? If you do, send in your renewal now.

Fraternally. H. T. HEARSEY, C. C.
Indianapolis, July 6, 1891.

Handicapper.

S. F. Heath, Esq., of Minneapolis (No. 60 Fourth street, South) has been appointed an official handicapper for District No. 9 comprising the States of Minnesota, North Dakota, South Dakota, Montana and Wyoming. CHARLES E. RANDALL,
Chairman Racing Board.
Chicago, June 6, 1891.

Ohio 2000?

To each individual member:

Seventy-eight new members during April, 212 during May, and 37 for the first week in June gives 1528 or within 462 of the desired 2000, provided each and every old member renews. There are however just 563 who have neglected to discharge this important duty and are still delinquent. Are you one of the procrastinators? If you are, do not waste any time, but fill out the blank that has been sent to you, and forward it with the requisite dollar without delay! If you are not, and happen to know of some one who is, do not give him any peace till he discharges this important duty. If you have any pride in your State, or any desire to see her pre-eminent, go to work and help us. You certainly know one or more wheelmen that can be induced to join us. The success of the Division depends on the united efforts of each and every member.

Fraternally, M. A. HIGH,
Cincinnati, June 6, 1891. Chief Consul.

Ohio Hotel.

Cambridge: The Berwick, day $1.50; meals or lodging, 40 cents each. WM. D. KEMPTON,
Cincinnati, June 6, 1891. Sec.-Treas.

Pennsylvania Division.

To the Pennsylvania Division:

The Pennsylvania Railroad Company has agreed to carry wheelmen from all points in Pennsylvania to Hagerstown, Md., covering the time for the meet at the rate of one fare for both ways. The tickets may be bought on and after the 30th of June, up to and including the 3d of July, to go, and will be good to return at any time up to and including the 7th of July. The price of the tickets will be the full rate for one way for the excursion ticket to go and return. The indications are that this will be the most successful meet that has ever been held anywhere in point of numbers, enthusiasm, and fun. SAMUEL A. BOYLE,
Philadelphia, June, 1891. Chief Consul.

Rhode Island Division Two Mile Championship.

The Woonsocket Wheelmen have been granted the Two-mile, Bicycle, State Championship race, to be run at Woonsocket, June 6, '91.

E. M. BIXBY,
Chairman R. I. Div. Racing Board.

Rhode Island Championships.

Notice is hereby given that permission must be obtained from the Division Racing Board to run Rhode Island Championship races, if run under L. A. W. rules, whether of Town, County, or State. E. M. BIXBY,
Chairman R.I. Div. Racing Board.
61 Westminster street, Providence.

Notice to New Jersey Members.

The price of the photograph of the New Jersey Division parade, taken at Van Court Inn, Roselle, will be $1.50 unmounted, and $2.00 mounted.

Address Mr. Chas. M. Hiller, No. 96 Broad street, Elizabeth, N. J. The picture is a great success. GEORGE R PENNELL,
Elizabeth, N. J., June 2, 1891. Sec.-Treas.

Maine Division.

The Maine Wheelmen's Road Book is now ready for delivery, and copies will be placed with the Local Consuls for distribution.

Price to Maine Division members fifty cents. Every Maine bicyclist ought to have the book, not only for the information it gives, but to reimburse the Division for its outlay.

For wheeling routes, trout brooks, pleasure resorts, and a general look into the scenery of Maine, it is a valuable handbook to have.

BATES TORREY, Sec.-Treas.

Missouri Division Meet.

The annual meet of this Division takes place at Carthage on July 3, 4, and 5, and we must make it a big success. To attain that end a large attendance is necessary, and Local Consuls are therefore requested to have the lists which have been mailed to them signed by all intending participants. These lists should be forwarded to R. W. Garner, chairman of the arrangements committee, Carthage, Mo., by June 28, so that proper accommodations can be provided for each and every participant. Wheelmen from North-east Missouri should correspond with W. H. Hall, care

M. K. and T. Railway, Hannibal, relative to forming a large party to attend. Kansas members should notify C. W. Penniman, Ft. Scott. Kansas City members should notify Vice Consul W. M. Jaccard or C. B. Ellis. St. Louis members should affix their names to the lists hanging at all the agencies. Special attention is called to the racing events advertised in another column, and to the prizes offered for the parade. Fraternally yours,

ROB'T. HOLM, Chief Consul.

Missouri Appointments.

H. S. Waterman, Local Consul for Lockwood and vicinity.

Chapel Thomas, Local Consul for Granby and vicinity. Fraternally yours,

ROBERT HOLM, C. C.

Missouri Division Meet.

To Members:

At the annual meeting of this Division to be held at Carthage on July 4, nominations must be made for officers to serve during the year beginning December 1. The officers to be elected are: A Chief Consul, Vice Consul, Secretary-Treasurer, four Representatives, Chairmen for Touring, Racing, Highways Improvement and Rights and Privileges Committees. The election will be held by mail vote between October 15 and November 15. This meeting is, therefore, of the greatest importance, and every member should make it his business to be present and see that none but good men are nominated. Notice is hereby given that at this meeting the present Constitution and By-Laws of this Division will be amended to conform with the National Constitution.

Fraternally yours,
St. Louis, June 3, 1891.

ROBT. HOLM,
Chief Consul.

New Hampshire Division.

The following have been appointed League hotels by Chief Consul F. A. McMaster and should be patronized as such:

Rochester—Dodge's Hotel, L. A. W. rate $2.00.
Derry—Hildreth Hall, L. A. W. rate $2.00.
Lancaster—Lancaster House, L. A. W. rate $1.50.
Hampton—Hotel Whittier, L. A. W. rate $1.50.
Portsmouth—The Rockingham, L. A. W. rate $3.00.
Concord—New Eagle, L. A. W. rate, $2.50.
Wakefield—Elmwood Inn, L. A. W. rate $1.50.
Manchester—New Manchester House, L. A. W. rate, $2.50.
Wilton, Everett House, L. A. W. rate $1.25.
Exeter—The Squamscott, L. A. W. rate $2.00.
Milford—Howison House, L. A. W. rate $1.50.
Nashua—Laton House, L. A. W. rate $1.50.
Claremont—Belmont House, L. A. W. rate $1.50.

The following Local Consuls have been appointed by the Chief Consul:

F. A. McMaster, Wm. P. Frink, Greenland; Geo. K. Burleigh, Tilton, A. F. Rowell, Lancaster; W. H. Campbell, Reed's Ferry; Dr. F. H. Lunt, Rochester; Fred W. Bradford, Claremont; Sam D. Lewis, Newport. Yours fraternally,

R. HARRY SCOTT, Secretary-Treasurer.

New Hampshire Wheelmen.

Your attention is called to the Annual Meet of this Division, which will be held at Concord, Thursday, June 18th.

The programme will be substantially as follows, viz.:

Parade at 11 o'clock, at the close of which a group picture will be taken. At 2 o'clock a special train will be boarded for Tilton, where the races will be held. The Tilton track is the finest in the State, and will be in first-class condition on the 18th. As soon after the races as possible, the return will be made to Concord. At 7 o'clock a business meeting will be held in the Knights of Pythias Hall, which is in the same building as the State Capital Wheelmen's room, and has been engaged by them, and will be open all day for the accommodation of visitors. At 9 o'clock a banquet will be served, and it is earnestly hoped that every wheelman will make arrangements to stay over.

The State Capital Wheelmen are sparing no pains to make this the most enjoyable meet in the history of this Division, and it lies with you to make it the largest. Wheels will be transported free, when accompanied by owners, to and from Concord, on all lines of the C. & M. and B. & M. on the 18th and 19th.

Let every member make arrangements to be in Concord the 18th, and if possible come the night before and stay over until the 19th.

Be sure and bring your League tickets.

Yours fraternally, R. HARRY SCOTT, Sec.-Treas.

New Hampshire Division.

The following State Committees have been appointed by Chief Consul F. A. McMaster:

Road Improvement—W. V. Gilman (Chairman Nashua; A. N. Dow, Exeter; C. H. Sanders, Penacook.

Touring—R. H. Scott (Chairman), Manchester; H. B. Glover, Concord; M. H. Purrington, Portsmouth.

Rules—C. A. Hazlett (Chairman), Portsmouth; C. E. Temple, Manchester: H. H. Dwight, Concord.

Racing—F. A. McMaster (Chairman), Nashua; Moses Sherriff, Manchester; George A. Place, Concord.

Transportation—C.B. Randlett (Chairman), Concord; James H. Weston, Manchester; H. G. Sawyer, Wolfboro' Junction.

Yours fraternally R. H. SCOTT, Sec.-Treas.

Illinois Division L. A. W.

Board of Officers' meeting, Chicago, May 3d, Grand Pacific Hotel, Chief Consul Davis presiding, meeting called to order 3 P.M.

Roll call showed the following officers present: W. A. Davis, C. C., Fred Patee, V. C., Thos. F. Sheridan, Sec.-Treas., and Representatives W. J. Nichols, J. C. Wachter, H. C. Knisely, B. F. White, of Chicago; F. W. Osborn, W. M. Brewster, of Quincy; A. A. Billingsley of Springfield; and J. S. Bagby of Rushville.

The minutes of the meeting of Sept. 27, 1890, were read and approved.

The Chief Consul stated that the Secretary's report showed the condition of our Division so well that a report from him would be unnecessary. The Secretary's report was read as follows:

SECRETARY'S REPORT.

Gentlemen—This is our first meeting under the new Constitution, and I must congratulate the Division on their splendid Constitution and By-Laws, believing that the Committee which drafted it worked hard and conscientiously to perform the task allotted them. It sub-divides our work very judiciously, and our Division now being one of the largest, it is absolutely necessary that this be done. It is impossible for one or two officers to do all of the work and keep up with the progress that wheeling is making. Each Representative should be given charge of the District which he represents and act as the Deputy of the C. C. in that district. He should keep a list of names of L. A. W. members and Local Consuls in his district, also a list of the wheelmen who are not members, and have a complete census of everything pertaining to the welfare of our Division, the Division to stand the necessary expenditures. The Sec.-Treas. will keep each Representative posted as to official happening and directions of all kind that they may work in better harmony. They should keep in close touch with all wheelmen in their respective districts, thus proving that our organization is alive to the wants and necessities of its members.

With the risk of being called monotonous I again call your attention to the magnificent increase of the past season over the previous one, an increase of 66 per cent. with a total of 1531 members.

The work which the recruiting committee has done and is doing at present, in a systematic manner, should certainly give us a membership at the end of the present year of at least 2,500, and with the energetic co-operation of all our officials should reach 3000.

The Hand-book for our Division has been compiled and its publication arranged for; at least 2000 copies will be printed and distributed, and we hope that its effect on our numerical strength will be all we anticipate for it. The committee has been hard at work on it since last September, and much has been written only to be rejected, until the present articles were selected as being the most suitable to the largest number of our members.

In the matter of legislation, there are three bills before the assembly in the interests of improved highways, one of which the Division committee is the sponsor of, known as the "Paddock bill," etc. It is hoped that even if none of these bills pass the present assembly that a start has been made in this direction which will be kept up until Illinois is gridironed with a system of highways second to none in the world. A bill was introduced in the present House of Representatives by one, "Representative White of Stark County," aimed at the welfare of cycling on our country roads, or imposing such restrictions and penalties while riding on such roads as would entirely wipe out our pleasure in touring. The daily papers, trade journals, and the literature disseminated by your recruiting committee, have made you aware of the text of the bill, and we have only to add now that the bill is practically dead, if it ever had any more life than its author gave it in its first feeble peep. This should be a good argument to use in impressing the great army of riders outside of our organization, of its utility, for undoubtedly, had there been no L. A. W., with the strength the F. M. B. A. has shown in the election of last summer and fall, the bill referred to would have passed.

Our State meet will be held this year at Rockford July 3 and 4th, and it is hoped that every member of our Division and most especially every officer, will arrange to attend that we may show its citizens how we appreciate their hospitality, also to make it the banner meet of the year. The citizens and the committee are putting forth every endeavor to make it a success, and every officer of the Division should constitute himself a committee, to see that his particular locality is represented.

It has long been customary with the Connecticut Division to appropriate a sum of money to entertain L. A. W. members attending the Hartford tournament, and the results attained have always justified the expenditures. The entertainment feature of the meet was always turned over to the Division, and none but members and those applying for membership were admitted, consequently they made great gains in the way of recruiting. I would therefore recommend that this Board appropriate a sum of money not to exceed $250 to entertain L. A. W. members at the Peoria tournament, provided the entertainment portion be turned over to a committee of the Board, and I feel certain that the work we do will more than pay us in its fruition.

The expenses of the Secretary's office has been greater this year than ever before, and I draw attention to it in this manner that a proper explanation be given. Your Secretary has been chairman of two committees, the Recruiting and Handbook Committees, which with the regular expenses of the office, have made a large total.

The growth of the Division having been so great in one year, the amount of correspondence in the Secretary's office is consequently enormous, but every letter was answered or referred in due time, and if any were overlooked or mislaid I must ask the parties indulgence.

To the Local Consuls I tender my sincere thanks for their prompt replies to circulars sent them, and take this method of acknowledging same, as saving considerable time.

The year before us is fraught with great responsibilities for the officers of our Division, and if our work is done well and quickly, the end of the year will see Illinois racing with New York and Massachusetts for the rank of first place.

Yours fraternally, THOS. F. SHERIDAN, Sec.-Treas.

Motion made and seconded that the report be asproved andspread on the minutes of this meeting—carried.

The Committee on Annual Meeting reported through the secretary, that Rockford had been chosen as the place and July 3d and 4th as the time for holding our Annual Meeting of the division this year.

The Chairman of the Recruiting Committee, Mr. Sheridan stated that the report of the Secretary embraced all the suggestions of the committee and no report would be made at their meeting.

The Hand-book Committee reported verbally to the effect that the first hand-book of our division was compiled and in the hands of the printer, that an edition of 2,000 would be printed and distributed to members of our Division gratis; that they would be issued in about three weeks, and that they thought the division should immediately arrange for the compilation of a reliable Road-book for our division and that they believed the results would justify the outlay.

The report was approved according to the new Division By-Laws. The following committees had to be elected by the Board of Officers: Executive and Finance Committee—W. A. Davis, Fred Patee, W. M. Brewster.

Recruiting Committee—Thos. F. Sheridan, M. P. Reed, A. A. Billingsley.

Rules and Regulations—F. W. Osborn, Quincy; C. B. Gibson, Chicago; C. F. Vail, Peoria.

Road Improvement—F. H. Holmes, Kankakee; J. C. Wachter, Chicago; J. S. Bagby, Rushville.

Hand-book Committee—B. F. White, Chicago; J. M. Irwin, Chicago; L. J. Berger, Chicago.

Racing Board—Fred Patee, Peoria; S. A. Miles, Chicago; A. J. Street, Chicago.

In accordance with the suggestions of the Secretary, it was moved and seconded that the sum of $250 be appropriated to entertain Division L. A. W. members at Peoria during the Peoria Bi Club's Tournament, and that a committee of three be appointed to take charge of the entertainment features during the tournament, to which none but L. A. W. members or those applying for membership be admitted—carried.

W. M. Brewster, of Quincy; John Misner, of Peoria, and R. G. Betts, of Chicago, were appointed to act as that committee.

The Executive Committee were delegated as a special committee to take charge of the coming Annual Meeting of the division.

It was resolved that any member of this Division, who shall secure in any twelve consecutive calendar months, dating back to Feb. 1st, 1891, one hundred or more applications for membership in the L. A. W., residing in Illinois, shall have his choice of any bicycle, the list price of which not to exceed $135, the same to be paid out of the funds of division treasury. Provided, that all such as try for the prize, send their applications through the Division Secretary-Treasurer.

Representative Billingsley presented the following resolution for the action of the Board.

Resolved, that the Racing Board act as a committee to gather and compile estimates, maps, etc., of bicycle tracks, together with the costs of equipments, etc., and that the same be given free to any League Club in our Division, or any other League Club, at the discretion of the Racing Board. The resolution after considerable debate was adopted as read.

The sum of $50 was appropriated to get up suitable souvenirs, to be competed for in the Division Championships at Rockford.

Attest: THOMAS F. SHERIDAN, Sec.-Treasurer.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an intiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M. on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

L. A. W. Renewal Blank, 1891.

Fill out this blank, enclose $1 to pay your dues to April 30, 1892, and send to ABBOT BASSETT, Box 5267, Boston, Mass.

Don't send soiled bills. New bills are safer in the mails. A dollar bill is as safe as a postal note.

Don't Forget to send your Number.

Don't send checks for $1.

Write very plainly—PRINTING PREFERRED.

Stamps of a denomination above two cents will not be received.

If you live in one State and have your mail sent to another, state the fact that you may be located with the Division in which your home is.

If you desire your address changed, you must make the request on another sheet than this. Put new address on blank.

Ticket holders, 25 cts.; with name stamped, 50 cts.

Write nothing above this line.

*Number*_____

*Name,*_____

*Street and Number or P. O. Box,*_____

*City,*_____

*State,*_____

*Club*_____

Applicants for Agencies can save time by applying direct to our general agent in whose territory they are. We have established general distributing agencies for our goods in various parts of the country to facilitate the transaction of our enormous business, and we can assure every one who desires to handle the IROQUOIS and PARAGON courteous treatment, fair terms and prompt shipment will be the results of an application made to any of our branch offices. We control the entire South and much of the West ourselves from the home office, and extend our thanks to our numerous Agents and correspondents for their intelligent and hearty co-operation and support, and promise them in the future, as in the past, the BEST bicycles in the market.

THE IROQUOIS AND THE PARAGON

Are sold by ALL of our Agents, and our principal branch offices are:

THOMAS KANE & CO, Chicago, Ill.—Ohio, Indiana, Northern Illinois, Michigan, Wisconsin and Minnesota.

SIDWELL & SABEN, Boston, Mass —New England

MARTIN & STEVENS, Buffalo.—Western New York.

G. A. LITCHHULT.—Eastern New York.

SWEETING CYCLE CO., Philadelphia.—Pennsylvania.

ST. LOUIS WHEEL CO, St. Louis, Mo.—Southern Illinois, Arkansas and Missouri

PRINCE WELLS, Louisville, Ky.—Kentucky.

F. R. W. REH, Washington.—District of Columbia.

EDWIN MOHRIG, San Francisco.—Pacific Coast.

F. T. MERRILL, Portland, Ore.—Washington and Oregon.

We would like to publish the names of our army of lesser agents, but this paper is not large enough.
We would like to send our beautiful Catalog to every one, and a postal addressed to us will bring one. Send for it.

WE DIDN'T DO IT!

And we won't promise to refrain from a repetition of said delinquencies. 'CAUSE WHY? WE are NOT GUILTY.

And we wish it understood, once for all, in full reply to many letters of inquiry, that we DID NOT build the Leaning Tower of Pisa, we had no finger in the erection of the old Mill at Newport; Bunker Hill Monument was finished without our trying to spring any information or plans of previous designs on the Commissioners.

The established receipe for English Plum Pudding is no infringement on any formula of ours. We do not license makers of German sausage to use any confined styles of overcoatings, which are exclusively our property. The grass hopper weathervane on Faneuil Hall is NOT a BASE IMITATION of any particular style of hoppergrasses we were building 'steenty years ago.

We simply rise to explain that WE BUILD "BRONCHO" SAFETY BIKES. That we shall continue to build and sell them as long as the present demand continues, the assertions of the N.B. class of worshipers to the contrary, nothwithstanding.

If you want to know all the inside facts, write for CAT. and Testimonial book, AT ONCE.

WHAT IS HIGH WATER MARK?

Actual shipments of the **Giant Safety Bicycles** so far this year have been as follows: January, 793; February 852; March, 1112; April, 2001; May, 2256; Total, **7014.** Above are facts and demonstrate conclusively to the practical mind the widespread popularity of these wheels. We are now working overtime and producing about 450 wheels per week. Pretty good for a factory not yet two years old, is it not?

New edition of Catalogue now being mailed.

H. A. LOZIER & CO., - - Cleveland, Ohio.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100.

Address **Wm. Heyny, Jr.,** 301 Sixth St., N. Y. City.

"QUADRANT" CYCLES

ARE RENOWNED FOR

ORIGINALITY.

We make our own designs and work our own patents, constantly incorporating in our machines about 12 or 14 of our own inventions.

EXCELLENCE.

In these days when the commonest rubbish is advertised as "the best, the lightest, the swiftest," etc., and even sold as such, we can only ask intending buyers to send for our 1891 catalogue, and read the 16 pages of unsolicited testimonials received during the past season.

TRUSTWORTHINESS.

"A prominent feature of their exhit (Philadelphia Exhibition) is a 'Quadrant' which was caught between two cable cars on Columbia Avg. This machine is bent and twisted in every direction, but not a thing is broken."—*Bicycling World*, 6 March, 1891

"The machine is twisted out of all resemblance to a bicycle, but so far as can be seen not a single break occurred."—*Referee*, 6 March, 1891.

SAFETIES No. 17 and No. 20, with Tangent Spokes and Solid Cushion, and Pneumatic Tyres, are the leading lines of the season.

SPECIAL NOTICE TO THE TRADE.

The Manchester Cycle Company, Limited,

OF MANCHESTER, ENGLAND.

Have much pleasure in announcing that they have a large stock of the celebrated **"Irwell Safety"** on hand, ready for immediate delivery. Material and workmanship of the best. Guaranteed for twelve months against imperfections of any kind. The **"Irwell"** is the machine so popular in England for touring, on account of its strength, combined with lightness.

The Manchester Cycle Co., Ltd., are very desirous of introducing these wheels into every section of the country, and to do this quickly, and save correspondence, this announcement is made:

The price of the **"Irwell" is *$100,*** the discount to the trade is **25 per cent.** The Company want to sell through the trade only, and therefore will not supply any at retail in any town after an agent is appointed. *However*, until an agent is appointed, sample wheels will be furnished to any applicant at *$75* net, this being the lowest wholesale price. The machines will be crated, and are fitted with Garford saddle, tool-bag, oiler, wrench and bell. Built of Credenda steel tube, drop forgings and ball bearings all over.

After an Agent is appointed in any town, *no more* wheels will be *Retailed* at *Wholesale* prices.

Wheels sent C. O. D., with privilege of examination, on receipt of $10. Guaranteed Superior to most, and equal to any in material, workmanship and finish. Address.

BROWNING KING & CO., - New York.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them.

The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced. Send for descriptive circular.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.

Made in sizes suited to different machines.

Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c.
With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

COLUMBIA CUSHION TIRES.

It is an open question whether, on a smooth road, the solid or the cushion tire is the best. It has come to be the opinion of many wheelmen of experience that on a soft, sandy road or on a rough road, the cushion tire makes a safety run easier and with less vibration.

The Columbia Cushion Tires as perfected, are the best on the market. They are meeting with high favor, and the testimony of practical wheelmen is to the effect that they will, with the same care, last as long as, if not longer than, the solid tires.

The Columbia Cushion Tires are made from the best gray Para Rubber; size, one and one-eighth inch, with five-sixteenths inch hole, for front wheel, one and one-fourth inch, with five-sixteenths hole, for rear wheel. For a safety thus tired, no spring fork is used. We also equip the safety, if desired, with cushion tire for rear wheel, and spring fork and solid tire front.

Every tire is thoroughly tested before being used.

Our unqualified guarantee goes with all our Cushion Tires.

Gus Jones says the header into a ditch broke him all up, while the club tumbler fell all over the road.

AT WOONSOCKET, R. I.—Last Saturday at Agricultural Park, Woonsocket, R. I., the following races were run:

One mile novice safety, nine starters—Napoleon Bedard of Providence, first; A. S. Noyes of Whitinsville, second; time 3m. 35s.

One mile novice ordinary, four starters—M. C. Schiffle of Providence, first; B. Franklin of Providence, second; time 3m. 30s.

Two mile safety handicap, nine starters—A. P. Martin of Millbury, 150 yards, first; James B. Dunn of Millbury, 175 yards, second; time 6m. 3s.

Half-mile dash, six starters—Mont Scott, first; B. P. Hedges of Foxboro, second; time 1m. 27s.

Five mile Woonsocket championship race, three starters—Thomas A. Hackett, first; Fred J. Batchelor, second; time 18m. 52s.

One mile safety, three minute class, five starters—James B. Dunn, first; Napoleon Bedard, second; time 3m. 18s.

One mile ordinary, three minute class, ten starters—A. K. Pressy of Newton, Mass., first; B. P. Hedges of Foxboro, second; time 3m. 14s.

One mile tandem safety—Mont Scott and H. B. Scott, first; B. P. Hedges and H. S. Greene of Foxboro, second; time 3m. 35s.

Two mile championship, two starters—Mont Scott, first; M. C. Schiffle, second; time 6m. 43 1-2s.

Boys' half-mile race for safeties, two starters—James Gaskill, Woonsocket, first; Harry E. Arnold of Providence, second; time 1m. 40s.

AT MORRIS PARK, L. I.—The Queens Co. Wheelmen's five mile club handicap road race on the Broadway course, Morris Park, L. I., resulted as follows: J. Magee, scratch, first, 19.10 1-2; C. E. Berton, 2m.; second, 21.40. On the course with sand and loose stone the time is considered fast.

AT SAN LEANDRO, CAL., May 30.—In the 25-mile road race at San Leandro, Cal., Decoration Day, there were 18 entries. The attendance was very large and the enthusiasm ran high. The roads were very muddy but the race was very close and exciting. The result was as follows:

W. F. Foster, (3m. handicap), first; time, 1.25.25. George Osen, (3m.) second; time, 1.25.30. Frank Waller, (2 1-2), third; time, 1.24.57. F. G. White, (4 1-2), fourth; time, 1.32.30. A. Alcayaga, (5), fifth; time, 1.33.30. O. L. Pickard (3 1-2), sixth; time, 1.30.50. J. F. Ives, (scratch), seventh; time, 1.26.55. E. E. Stoddard, (scratch), eighth; time, 1.27.00. D. Marshall, (3), ninth; 1.30.45. W. E. Lee, (3 1-2), tenth; time, 1.31.30.1

SPRINGFIED, ILL., May 30th—The race meet held here to-day under the auspices of the Capital City Cycling Club was a grand success. About twenty Jacksonville wheelmen rode over and were our guests for the day. In the evening a banquet was given to the visiting wheelmen. The following is a list of the races.

One mile novice, safety—John Fogarty, first, time, 3.16 1-2; Fred Grant second. First prize, gold medal; second, Newark horn.

One mile ordinary—A. H. Woods, Jacksonville, first; time, 3.26. Chas. Banman, second. First prize, gold medal; second, bicycle coat.

C. C. C. C. Championship, one mile—Jay Price first, time 3.10; John Fogarty, second. First prize, gold medal; second, five pound box of candy.

One mile open, safety—Jerome Leland, first; time 3.15 1-2. Mortimer Reed, second. First prize, gold medal; second, fountain pen.

One half mile dash—Hal Smith, first; time, 1.33. Roy Donaldson, second. First prize, silver medal; second, pair cycle shoes.

Three mile open—Jerome Leland, first; time, 10.25. Hal Smith, second. First prize, gold medal; second, etching.

Fred Grant made the most points in the three mile race, and won a pair of bicycle shoes.

Mortimer Reed made best time for a mile and received a gold medal and a dozen photographs.

L. A. W. 14020.

THE Syracuse (N.Y.) mile safety championship badge, held by R. A. Bonta, Jr., is admired by every one. George expects to secure it in August. May the best man win.

THE usual 4th of July city races will be held on the Chelsea Park oval, under the auspices of the Chelsea (Mass.) Ramblers Bicycle Club. There will be four events for Chelsea riders only, and two open events of two and one miles for safety machines. Suitable prizes will be offered. Entries may now be made at rooms of the Ramblers, 270 Broadway, Chelsea, Mass.

THE Syracuse (N.Y.) Cycling Club's road riding record for May finds Geo. Westfall in the lead with 942 miles. H. W. Chapin, second, 678. H. R. Hall, third, 600. C. E. Wood, fourth, 310. R. A. Bonta, fifth, 285. Many reached the two hundred mark.

ON June 28th, '91, the Syracuse (N.Y.) Cycling Club hold a century run from Geneva to Buffalo, a distance of 104 miles. All are invited to attend.

TRADE NOTES.

NOTICE TO THE TRADE.

MESSRS. R. L. COLEMAN & Co. of New York City, agents for the Western Wheel Work's goods in the following States: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Alabama, Georgia, Mississippi, Florida and District of Columbia have been annoyed by the fact that certain dealers, under the impression they had a right to do so, have been selling the Western Wheel Work's cycles in the terriotry which, by Messrs. Coleman's contract, is exclusively their own. In order that an understanding might be arrived at and their rights defined, the following agreement has been made between the parties at interest:

"This agreement made this first day of June, 1891, by and between the Western Wheel Works, a corporation doing business in Chicago, Ill., and R. L. Coleman & Co. of New York City.

Witnesseth: That whereas certain jobbers, customers of the said Western Wheel Works, have lately been selling goods manufactured in the territory reserved to the said R. L. Coleman & Co., in a certain contract made and entered into by and between the Western Toy Company and the said R. L. Coleman & Co., dated March 6, 1889, which said contract has been assumed by the Western Wheel Works as successors to the said Western Toy Company, and is now in full force and effect, controlling the business relations of the two parties to this agreement, and said invasion of R. L. Coleman & Co.'s territory being contrary to the intentions of the two parties to said contract of March 6, 1889. Now, in consideration of the premises and of the agreement hereinafter entered into by said R. L. Coleman & Co. the said Western Wheel Works hereby agree that in case any of its customers shall hereafter sell any goods of its manufacture i territory so reserved to R. L. Coleman & Co., in said contract, that it when notified of such invasion of their territory by R. L. Coleman & refuse to sell any more goods of its manufacture to its customer or tomers who are known to have sold its goods in the territory so rese to said R. L. Coleman & Co. until said customer or customers of said W tern Wheel Works shall stop selling said goods in the said territory o L. Coleman & Co., and enter into an agreement to refrain from such vasion in the future.

And R. L. Coleman & Co. hereby agree not to sell any goods manu tured by said Western Wheel Works outside of the territory deser and reserved to them in said contract. And in case the said Wes Wheel Works shall be sued by jobbers or others for non-delivery of g to them by the Western Wheel Works by reason of this agreement, R. L. Coleman & Co. agree to pay one-half the expenses of said suits one-half of any judgments that may be obtained against said West Wheel Works in said suits.

Signed { WESTERN WHEEL WORKS, L. A. SCHOENINGER, Sec. R. L. COLEMAN & Co.

THE cushion tired ladies' Premier safety, fitted with the front wh hand brake, has proved a great success with our lady riders, and the P mier Cycle Co. are kept busy filling orders for this elegant little machi A number of ladies have written to the company, testifying their appr ciation of this change in the matter of brake, the total absence of dust mud-throwing being apparent on a short ride in the condition of t rider's skirt.

ON the Pacific coast in the 25-mile road race at San Leandro, Cal Decoration Day, Victor, model B, took positions one, two, three, four. Certainly, sufficient glory for one race, we should say.

OF all nuisances to cycle riders, the slowly slipping of the stockings from their moorings is the most annoying, though easily corrected if the rider would wear the "Z. & S. Stocking Supporter" for shoulder, hip, or belt, manufactured by Messrs. Howard A. Smith & Co., Newark, N. J. They have the Warren clasp, are easily adjusted. All our readers are cautioned against the many imitations, and advised to buy none but the best.

THE Massachusetts Medical Association is now holding its 110th annua meet at Mechanics fair building, Boston. Prominent among the displays there was one by the Pope Mfg. Co. of hygienic appliances in the shape of bicycles. This show by the Pope Mfg. Co. was made at the direct solicita tion of the association, this being the second time that company has been requested to make such an exhibition. The exhibition of bicycles attracted a great deal of attention, and the exercise of cycling was commended by most of those who noticed the machines.

STERLING ELLIOTT (need we add he of the Hickory fame) holds forth on pages 206 and 207 of this issue. W. W. Stall, "The only Stall," also has his little say on page 214, look 'em both up.

THE Eagle got first place at the 100 miles road race of the Rutherford Wheelmen. It got first and second in the Columbia Cycle Club races at Washington, D. C. Also first place in the one mile championship race of the Central Penna. Wheelmen, also the one mile handicap at Orange, N. J., June 6. Quite a creditable list to prove the going qualities of the Eagle!

THE following telegram from the John Wilkinson Co. reached us Friday last, too late for the last issue: "Decoration Day victories for the Rover Cycles; two of the first three in the Pullman race; first in two events at Washington, D. C.; first in ten mile race at Danville, Ills." All of which is a pretty good showing for the wheel, and perhaps our friend Merrill won't smile, eh?

THE Century Brace advertised on page 215 of this Issue is par excellence in the line of suspenders. They are light, cool and durable, especially suited for warm weather, no elastic web, so that heat of body or perspiration does not destroy them, and still they yield to every motion of the body. Send price mentioned in ad and get a pair of the "finest" made.

[CONTINUED FROM PAGE 204.]

melly, O. W., second. Time 3.02 1-5. These two were the only starters. Donnelly led until the back stretch on last lap, when Kelley took the d and won in a canter.

Two-mile ordinary, handicap—J. H. Draper, A. C. S. N., 80 yards, first; V. Merrihew, A. C. S. N., 155 yards, second; J. B. Fontaine, C. C., 170 ds, third. Time 6.05. Seven started, but Draper cut down his men in style, Kelley dropping out on the first lap, leaving the finish to be con- ted between Draper, Merrihew, and Fontaine, who finished in the order ned, Fontaine pushing Merrihew hard.

Half-mile safety, open—W. W. Taxis, A. C. S. N., first; S. H. Crawford, M. C. A., second. Time 1.23 2-5. Raced all the way out; Crawford rting from the start, but it was no go, Taxis winning with ease. Don- ly started but dropped out.

One-mile safety, 3.15 class—F. B. Marriott, Y. M. C. A., first; F. H. Gar- gues, C. W., second. Time 3.19 2-5. Garrigues got a long lead on Marriott, it the latter held on, mounted on a cushion tire, and distanced his man a the last lap; Garrigues' racing tire cutting in the cinders.

Quarter-mile ordinary, open—W. W. Taxis, A. C. S. N., first; J. H. raper, A. C. S. N., second; M. J. Bailey, C. W., third. Time .39 3-5. The ree men made a pretty race, finishing in order named.

One-mile safety, handicap—F. B. Marriott, Y. M. C. A., 65 yards, first; H. Draper, A. C. S. N., 45 yards, second; J. C. Donnelly, O. W., 85 yards, ird. Time 2.48 2-5. Nine men started, but Draper and Marriott speedily vertook them one by one, the former doing all he knew, but tired by the ireulous race he could not pass Marriott, and after a desperate struggle e was beaten on the tape by six inches.

One-mile ordinary, three-minute class—V. J. Kelley, A. C. S. N., first; J. B. Fontaine, C. C., second; M. J. Bailey, C. W., third. Time 3.11 4-5. A limit of 3.05 was put on this race, but the men rode well and Referee Bracher decided it a race.

One-mile safety, open—W. W. Taxis, A. C. S. N., first; J. C. Donnelly, O. W., second. Time 3.04 1-5. Taxis won by ninety yards as he pleased, just getting inside the referee's limit of 3.05. ARIEL.

Philadelphia, June 8, 1891.

CONNECTICUT DIVISION AND NEW HAVEN BICYCLE CLUB TOURNAMENT.—RECORD GOES.

THE much talked of meet and tournament of the above mentioned organizations was a success. The track records were successfully as- saulted this season for the first time, and the mile record in competition has fallen captive to the superior work of W. F. Murphy who, notwith- standing the fact of slipping his pedal twice, put the record at 2.26 4 5, a remarkable performance in every way.

The day's festivities opened with a parade of the cyclists under the auspices of the New Haven Bicycle Club, and was a decided success; there were fully 1000 wheelmen in line, and at ten o'clock the column, headed by the 2d Regiment band, moved through the principal streets of the city. A feature of the parade was the appearance of the Vera club, composed entirely of ladies; after the parade the wheelmen were photo- graphed on the steps of the Centre church.

The races were run at Elm City Park in the afternoon. The club had the clerk of the weather with it, and as a result 3000 or more people were in attendance. Preceding the races which were to be started at 2.45 P. M., the 2d Regiment band gave a concert which lasted an hour; and the scene at this time was beautiful to look upon, as the grand stand was bright with the variegated costumes of the ladies and the different uniforms of the cyclers. The events were:

One-mile novice, safety—This event was captured by J. M. Grant of Hartford; Geo. Tonkin, Brooklyn, N. Y., second; H. S. Wolcott, New Haven, third. Time 2.56 1-5.

One-mile novice, ordinary—H. P. Greene, New Haven, first; W. H. Ballou, New Haven, second; E. C. Borst, Meriden, Conn., third. Time 2.57 1-5.

The one-mile safety, handicap, can safely be called the event of the day. Twenty-nine men were entered for this event, among whom were some of the best riders in America; 15 men paced the starter; the handi- caps ranged from 25 yds. (R. H. Davis) to 200 yds. (F. J. Catlin). At the start Catlin increased his lead and passed the 1-2 mile 30 yds. ahead of his nearest competitor, with Herman of Hartford after him; W. F. Murphy, who was scratch man, had been gradually mowing down those ahead of him until, reaching the home stretch, he pressed H. Herman hard for second place, finishing third in the wonderful record time of 2.26 4-5. The winner Catlin took first prize in 2.25 2-5, including handicap.

G. M. Worden (75 yds.) of the M. A. C., who finished fourth in this event was unfortunate in having been interfered with by a collision between two of the riders, and might possibly have done better had not such been the case.

One-mile open was won by A. A. Zimmerman, who ran away from his competitors, making the mile in 2.47 3-5; W. W. Taxis, second; Mont Scott, third.

One-mile safety L. A. W. State championship—H. B. Hewitt, New Haven, first; Fred Herman, Hartford, second; C. E. Larom, New Haven, third. Time 2.42.

One-mile ordinary, 2.50 class—This event was captured by G. F. Taylor of Harvard University. Time 2.47 1-5. M. Scott of Providence, second; H. B. Green, third.

The one half mile safety, open, was taken by R. H. Davis of Harvard, who cut a comical figure in a white cotton suit with red trimmings, and a straw hat of enormous proportions. G. M. Worden, M. A. C., was second in this event. Time, 1.16 2-5.

One-mile ordinary team race—In this event the N. Y. A. C. team, A. Zimmerman, W. Van Wagoner, and W. F. Murphy, had things all their own way, finishing in the order named. Time 2.49 1-5.

One-mile safety for members of New Haven Bicycle Club—E. F. Cat- lin, first; T. J. Abell, second. Time 2.49 3-5.

The one-mile safety, open, which came next in order, had a number of good men for starters; but W. F. Murphy outclassed them all and, with scarcely an effort, won in 2.39 2-5. W. W. Taxis, second; R. H. Davis, third.

Half-mile ordinary, L. A. W. State Championship was taken by C. L. Sage, Hartford; time 1.26 1-3. W. H. Ballou, second.

One mile ordinary handicap was looked forward to with much interest as it was thought that A. A. Zimmerman at scratch might exert himself and endeavor to lower the record. He was not in form, however, how- ever, and W. W. Taxis of Philadelphia (25 yards) won in a close race with M. Scott (70 yds.) a close second, and G. F. Taylor (35 yards) of Harvard, third. Time, 2.35 2-5.

One mile tandem safety—Won by W. F. Murphy and W. Van Wagoner, N. Y. W. S. Campbell and A. J. Hall, Jr., N. Y., second. Time 3m. 4-5s.

Two mile ordinary for Yale University—Won by J. W. Allen: H. P. Green, second; time 6.35 1-5.

I understand that there is some doubt about the length of the track, which I hear will be resurveyed.

In the evening about 200 of the wheelmen enjoyed a moonlight sail down the harbor as guests of the New Haven and Rover Bicycle Clubs, and thus wound up the biggest event yet recorded in the annals of the New Haven Bicycle Club. S.

SPLENDID WORK OVER IRVINGTON-MILBURN COURSE AND A RECORD.

THE first race of the Inter-Club Racing League took place over the Irvington-Milburn course last Saturday, and the results were all that could have been expected from a sporting standpoint. Nearly 500 wheelmen rode to the course and swarms of people lined the course from start to finish.

The clubs in the League number eight, but six of these showed up at the start as follows:

Brooklyn Bicycle Club (C. K. Starr, C. S. Quimby, F. Coningsby and R. Coningsby); Kings County Wheelmen (J. Bensinger, W. Finn, F. Mc- Donald and D. McLean); Harlem Wheelmen (R. Morrison, F. Olmsted, H. Bryan and M. Macy); Gotham Wheelmen (D. Levy, F. Mastin, J. Gerhart and T. Powers); Brooklyn Ramblers (G. Holland, A. Feldmier, J. McCue and R. Pedlar), and Bedford Cycle Club (C. Hoppe, P. Bartel, U. Page and W. Hovenden).

When the wheelmen arrived on the course it was found that certain "repairs" had been instituted, which materially dampened the ardor of the contestants and spectators, but notwithstanding the apparent in- tentional desire to block the way, the time made and the results were most remarkable.

Cushion tires were penalized thirty seconds and two minutes for pneu matics. It was 4.48 when Mr. Barkman sent the solid tires away, and thirty seconds after the cushion tires, and then one minute thirty seconds later still, John Bensinger and C. K. Starr, on pneumatics, were sent along. Five miles out the first men to show up was F. W. Mastin, who had a good lead, with Finn and McLean in close attendance. F. Coningsby and J. Bensinger were about tenth and eleventh. Mastin did the first five miles in 16.40. At the ten mile mark Mastin also led and McLean well up. On the circuit Starr's pneumatic had given out and he had to finish on a heavy roadster. The best time for the ten miles was made by John Ben- singer, in 33.33. Great interest and excitement was shown at the finish line, and when Mastin and McLean appeared close up, spurting for the finish, the enthusiasm mounted high. Down they came and McLean gradually drew away and finished first by a good twenty yards, Mastin second and John Bensinger third, in the record time of 50.35 for the course of 15 miles. The order of finish was as follows:

First, D. McLean, K. C. W., time 51m. 25s.; second, Fred W. Mastin, G. W., 51m. 25 3-5s.; third, John Bensinger, K. C. W., 50m. 35s.; fourth, W. J. Finn, K. C. W., 50m. 23s.; fifth, George Holland, B. R. 53m. 50s.; sixth, Charles Hoppe, B. C. C., 53m. 47s.; seventh, A. H. Feldmier, B. R., 54m. 31s.; eighth, U. S. Paige, B. C. C., 55m. 49s.; ninth, Phelps Bartel, B. C. C., 55m. 51s.; tenth, Robert Coningsby, B. B. C., 55m. 23s.; eleventh, J. McCue, B. R., 56m. 2s.; twelfth, F. G. McDonald, K. C. W., 54m. 17s.; thir- teenth, C. F. Quimby, B. B. C., 57m. 33s.; fourteenth, Fred Coningsby, B. B. C., 58m. 43.; fifteenth, R. B. Morrison, H. W., 57m. 36s.; sixteenth, R. Pedlar, B. R., 58m. 19s.; seventeenth, C. K. Starr, B. B. C., 57m. 25s.; eighteenth, Thomas Powers, G. W., 59m.; nineteenth, A. C. Bryan, H. W., 59m. 26s.; twentieth, Wm. Hovenden, B. C. C., 60m. 20s.

The Kings County Wheelmen won with a total of 80 points, having taken the first, third, fourth and twelfth places. The Brooklyn Ramblers were second, with 61 points; the Bedford Cycle Club were third, with 57; the Brooklyn Bicycle Club fourth, with 46; the Gotham Wheelmen fifth, with 33, and the Harlem Wheelmen last, with 20 points.

RACING AND MEET NEWS AND GOSSIP.

AT MADISON, WIS.—The first road race of the Madison (Wis.) Cycling Club was run May 30th at nine o'clock, over a hilly course of 6 1-8 miles.

There were thirteen entries. B. D. Paine was first, in 23m. H. J. Warner, second in 23 1-2m. Dick Stone, third, in 24 1-2m., and the rest nowhere.

Their next race will be July 4th, and will be 12 miles.

AT BUFFALO, N. Y.—The Wanderers Bicycle Club held their semi- monthly road races on Saturday evening, June 6th. For the first race there were six entries, distance one mile. Won by William Buse. Time 3m. 15s.

For the second race there were five entries, distance 3 miles. Won by William Buse. Time 12m.

For the third race there were four entries, distance two miles. Won by Clarence Keyser. Time 7m. 45s. Trophies were given to the first man in each race.

The club will on the 20th inst. hold a 20-mile road race, open to mem- bers only. "JASPER."

AT DETROIT, MICH.—The 15-mile handicap road race of the Detroit Wheelmen came off last Satuaday. The weather was fair, but a good strong head wind made the going rather stiff, though the surface was good.

Promptly at 3.25 P.M. the first man was sent on his way, and from then on, at the proper intervals, the others were started. At 4.30.45 Geo. Thorne (6m.) shot over the line, and then others followed in quick succession. Results:

Geo. Thorne, (6m.), first; riding time 1.45.00. H. Putnam, (5 1-2), second; riding time 1.00.40. J. Hoffner (11m.), penalized 4m., third; riding time 1.03.00. W. Marks, (6m.), fourth; riding time 1.02.05. B. Hulett, (1 1-2), fifth; riding time 58.00. W. C. Rand, (scratch), penalized 4m., sixth; riding time 52.35. R. T. Deacon, (11m.), penalized 4m., seventh; riding time 1.02.15. J. Keenan, (6m.), penalized 1m., eighth; riding time 1.02.00.

Will Rands well deserves the honor of being the best rider in Michigan for the Grand Rapids race, and then our own of Saturday makes him such.

The handicapping for our road race turned out to be very near perfect, bringing the men in close as a finish in a one lap track race. Will Metzger, B. J. Holcomb, and "The Judge" arranged the handicaps.

Keenan had his tire come off on the first half mile, and rode the rest of the way with the rear tire loose all the way around, yet did the 15 miles in 62 minutes.

Victor Cushion Tires Penalized!

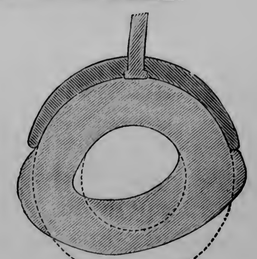
THE CAT OUT OF THE BAG.

HANDICAPPER'S ARE "ONTO IT."

And—THE VICTOR IS "IN IT."

Riders over this broad land have learned that VICTORS are the fastest bicycles going on wheels. Both riders and handicappers have learned also that there is a difference, with a large D, be- tween Victor Cushion Tires and "hose pipes."

The records recently made by the Victor in the big races have alarmed riders of "hose pipes," and they now demand that Victor Cushions be handicapped. Agents and dealers are kicking, but those who don't own Victors want some show—and why not?



If you want to ride the best, book your order for a Victor; you will have to wait a few days and pay the highest price, but it will be a Victor.

THE DEADLY PARALLEL.

Victor Cushion Tire—PENALIZED

20 yards in a mile over Solid Tires.
10 yards in a mile over "Hose Pipe" Tires.
(There's but one real Cushion Tire, and the VICTOR is that one.

"Hose Pipe" Tire—PENALIZED

10 yards in a mile over Solid Tires.
(And that's ten times too much when A. W. Porter mounts his old VICTOR with Solid Tires.

OVERMAN WHEEL CO., Chicopee Falls, Mass. { BOSTON, WASHINGTON, DENVER, SAN FRANCISCO.

Hickory TRADE MARK

DID you notice those two pages we occupied last week? (206 and 207). We don't do that very often, but we thought that some League members might like to see a *part* of our catalogue and yet not care for *all* of it.

Did you see *Stall's* ad. on page 214? Stall is a good one. Perhaps you don't know Stall. He may be a little mite too angelic in his disposition perhaps, for every day work, but when you take Stall up one side and down the other he averages first-rate. He now delivers an illustrated lecture on Hickory that is said to be very touching. We have just sent him some more illustrations.

It wont cost you anything to go in and hear this lecture, but it may cost you $100 to get out. You will never regret it, however.

There was at one time considerable prejudice against Hickory Wheels, but now we find it only among the rural members, and particularly those who don't know that Lee has surrendered.

If you meet a man who is posted on wheels he will tell you that the Hickory Wheels are

TOUGH, LIGHT, ELASTIC,
STRONG, DURABLE,

Hickory TRADE MARK

Some objection has been raised against the use of Hickory by the repairers who don't get much work out of it. Of course we can't expect to please everybody, much as we would like to.

The question of looks which was so often raised at first, though mostly by people who hadn't seen it, doesn't trouble us much now since the introduction by others of the empty tire.

Few people can strain at a (Hickory) gnat after having swallowed a (pneumatic) camel.

The Hickory wheels are moving,

Those who last year bought them
Now only buy the more,
While many this year take them
Who never did before.

Or, how would this do?

"Millions have reached that blest abode,
And millions more are on the road."

Of course "millions" is only figurative, but we are hopeful that it will not be always so.

We are turning out over three times the whee's this season that we did in '90, while last year we sold more than double the output of '89, and we shall make for the '92 trade about two and one-half times the number that we are turning out this year. Having now what we never had before, viz. capital enough so that we can run our plant full force through the dull season we shall have '92 wheels ready for delivery when agents want them. To be an agent for the Hickory in '92 will mean something, and we want good men. No matter how good a man is he will be still better for having a little previous experience with the Hickory. A dozen new agents who only take one wheel each are better for us this year than one agent who takes a dozen wheels. We want agents in places where the Hickory has *not yet been seen*. The more prejudice there is in your town the more we want an agent *right there*.

The Hickory Bicycle is *born*, but it is not yet *dead*, and if you think it is you just come down and have a talk with our office boy.

The Hickory Bicycle has embodied in it, an eternal truth that you *can't get over*, and when the survival of the fittest is accomplished in bicycles and you then want to find where the Hickory stands, don't begin looking at the bottom of the heap unless you have time to go through the whole "bloomin' " pile.

We have stood a large amount of chaff first and last and have worked harder at times for less money than would have been necessary had we been willing to follow the popular lead. We never believed that anything was right simply because it happened to be popular. We believe thoroughly in Hickory, and believe that it will have a comfortable future. We have never been disheartened by the fact that the majority was against us, for at the beginning of all reforms, great and small, history shows that the majority has *always* been wrong. So this much was to be expected.

As we stand now and look back over the few years of our Hickory experience we have seen no moment of uneasiness as to the result. If you, as an agent, have any such doubts, you had better get acquainted with us and let us send you a new backbone.

"If you are not for us you are agin us."

"Now is the accepted time."

EXTRAORDINARY BARGAINS IN SPRINGFIELD ROADSTERS

TO BE HAD NOW.

Having had a large lot of Springfield Roadsters made to our special order, and, owing to the size of the order, we are able to offer this most excellent machine at

40 PER CENT. OFF FORMER LIST.

This is without doubt the best bargain ever offered in the bicycle line. These machines are by far the best combination of the safety and ordinary on the market, and are particularly desirable, as in material, construction and finish they are fully equal to any bicycle made. They are well adapted to rough and hilly roads, and are easier learned than any other high machine. We have sold the Springfield Roadster all over the United States for use by all sorts of riders over all sorts of roads, and it has given the best of satisfaction. Send for full description and catalogue, free.

EDITORS:

C. W. FOURDRINIER. J. S. DEAN.

Editorial Contributor, F. A. EGAN.

BOSTON, 19 JUNE, 1891.

WHY we are late this week: Generals Warren and Prescott in their little dispute with Generals Howe, Clinton, and Burgoyne, on Bunker Hill, June 17, 1775, are responsible for our lateness this week. Patriotic Bostonians have set aside June 17 as a legal holiday, and a day of rejoicing, though why we cannot quite reason out, as that little affair did not result in a decided victory for the patriots. However, Boston patriotism doesn't stop at a little thing like that; they see in this the first of the serious battles for Independence, the beginning of that which has resulted in one of the greatest of the great nations of the earth. In view of these facts, all patriotic readers will rejoice in the remote cause (116 years ago) which makes us late this week.

ERRATUM—In speaking of the fatal accident in Brooklyn to Mr. Usher the types made the time read "three o'clock." This was an absurd mistake; it should have been eight o'clock.

THE fourth act of the "Rule G Comedy" has closed, and the curtain has been rung down previous to the fifth, and we hope final act. In act first we had as a climax the incorporating of the famous rule G in the racing rules, and the minority report of Mr. Bassett. In the second act the culminating point of interest was found in the joint report of the Rights and Privileges and Executive Committees declaring Rule G unconstitutional. The curtain on this act rang down amid suppressed excitement and expectancy, which was warranted by the climax in act three, which was the "defi" of the Chairman of the Racing Board to the Executive Committee and the Rights and Privileges Committee, together with complimentary allusion to President Dunn. Now the interest waxed warm, and went up with the thermometer to about 100 in the shade, and the next move was looked for with bated breath. By referring to our official columns the particulars of act four will be found in the announcement that Mr. Charles E. Randall has been removed. Act five will probably be the final act and contain particulars and results of a joint meeting to be held in New York to-morrow, June 20, by the Executive Committee and the Racing Board, at which time we believe the vexed question as to disposition of Rule G will be settled then and there.

IN the days agone when America was a young country and the aborgine were in a vast majority, an old Indian besought a settler to give him some beef; the request was generously granted, and beef enough to last the Indian family a week was handed over. Next day the Indian again appeared and asked for "more beef." "Why," said the settler, "What have you done with the large quantity I gave you yesterday?" "Ugh!!" grunted the Indian, "want more; that you gave me yesterday lasted quick!"

So it can be said of the policy and chairmanship of the '91 Racing Board; "it lasted quick." We are sorry for this for more reasons than one, and we believe that had Mr. Randall been let alone by "his friends" "the independence of the Board" and its action would never have taken the form of rule G. We believe this because Mr. Randall and those members of the Racing Board who were present at the joint meeting in New York were apparently heartily in favor of the alliance with the A. A. U., an alliance which they must have known was impossible with such a rule. If it was in the minds of those members of the Racing Board at the time of the joint meeting to incoporate rule G in the new rules it was not acting in good faith toward the Executive Committee and the A. A. U. to suppress the fact; the matter would then and there been fought out with much less friction and resultant soreness than now exists. We, however, are constrained to believe that rule G was not thought of until Mr. Randall returned West and and listened to the counsels of his friends. If Mr Randall and the members of the Racing Board did not know at the joint meeting that such a rule would be in direct violation with the understanding and arrangement made with the A. A. U., then they must have been woefully ignorant of facts, with which they should have been familiar. If they did know it, then it was bad faith not to bring the subject up at the meeting and avow their intention, if their intention was formed at that meeting. Take it which way we can, the Racing Board has placed itself in an ambiguous light. We have expressed our opinion, and printed the decision of the Rights and Privileges Committee and Executive Committee as to the constitutionality of the rule, and we think there is nothing further to add on that point. We are sorry that the culmination of the affair has been unpleasant, but in view of the circumstances nothing could come out of the incident except the resignation or dismissal of Mr. Randall.

THE question will probably arise: Why are not the other members of the Racing Board also removed? Our reply to this is that Mr. Randall's official declaration which appeared in last week's issue was not the declaration of the Racing Board as he stated, but it was the work of Mr. Randall alone and unauthorized by his Board. The Racing Board, as a Board has not yet had the chance to pass on the action of the Rights and Privileges and Executive Committees. In justice to the other members, therefore, we must await their formal action.

THE New York police are getting very much exercised over the manner in which the New York City Wheelmen are using the asphalt on 8th avenue. The police claim that cyclists rush along at a speed which would not be allowed by horsemen, and they cite a number of cases of reckless riding and utter disregard for the safety of the other passengers and users of the avenue. They report a number of cases of collision and consequent breaking of limbs and a fractured skull. If all these charges are correct and complaints well founded, it does seem strange that riders will be so blind to their own interests as to violate reasonable city ordinances. The police claim they will stop cycling on 8th avenue. This they cannot do, but there is lots of room for "regulating" same if the half that is told is true.

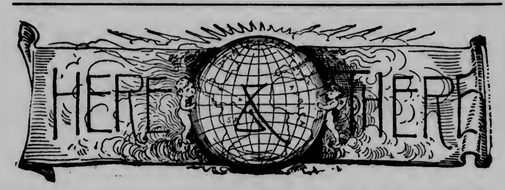
NEW YORK Division members seem to be suffering from apathy, and especially does this appear so when we are told that they do not seem to appreciate the vast benefits to accrue from helping themselves by helping the League to capture cycle thieves. A reference to the official columns will show that the New York Division has offered a reward of $25 00 for the recovery of a stolen wheel. The Division will do its part if the members will only wake up and give it help in the form of information. Chief Consul Bull has issued over 9000 circulars, stating that if information is given the executive committee, a reward will be offered and all expenses necessary to prosecution will be paid. The circular urges all dealers to post conspicuously all announcements of stolen wheels. Members of the New York Division must be very dead if they don't take advantage of the generous offer of the State Executive Committee.

WE expect from our Western contemporary bitter complaints of disloyalty to the League at the hands of 1st Vice President Burdette, because of his ardent efforts to enlist the co-operation of the Grangers of Counecticut to secure better roads. At the meeting of the State Division he said:

"I have been in consultation with leading members of the Grange throughout this State, and I find them in hearty accord with our road improvement plans. The Grangers, and they are 8000 strong, have promised us their support in our efforts to get better roads. This Grange is yet in its infancy, but growing rapidly year by year. Hand in hand with the farmers we can soon hope to accomplish the object we have been endeavoring to secure so long—the passage of a law regulating the construction of highways in this State."

Get the farmers interested and in earnest, and good roads will come sooner or later. It is an awfully hard task to convince the average granger that it will be cash in his pocket if he will only spend his hard earned money. In the first place the farmer is very apt to look with distrust on any movement made by cyclists. They are apt to discern no other motive than that of selfish advantage. When it comes to that there is comparatively very little in this world but that has the mainspring of selfishness as the motive power. The great enterprises of the world and those that have proven of inestimable value to the masses. Railroads are not built purely because of the projectors' overwhelming desire to benefit mankind, yet none will dispute the great public advantage of railroads, the chief incentive to build same being selfish (?) gain.

THERE is no class of people so fearful of being outwitted as the farmer. He is naturally cautious, and as his money, as a rule, comes hard, he wants to be dead sure of positive material return before he invests his dollars. The principle of caution is the true one, but it becomes a difficult one to overcome when arguments fail to convince, and prejudice takes the place of reason. We must be patient but persistent, we must face the question as it is. The building of good roads will be of vast advantage to cycling as a sport and trade, but it will be also of incalculable financial value to the farmer, the village tradesman, and the ruralist generally. The wheelmen may be selfish, but the time is not far distant when they will be acknowledged to be blessings in disguise, and posterity will thank wheelmen and the League for being chiefly instrumental in bringing about a condition of highways which the present generation in this country is ignorant of.



IT is the custom for town authorities to make exceptions in the cases of small boys riding velocipedes and bicycles on the sidewalks, and while we have never been in favor of sidewalk riding, we must confess that we have suffered mortal fear of damage and maiming from the small boy or girl and the velocipede, more fear than we ever did from the grown-up rider. The small boy is prone to dash round corners and come after you yelling like a Comanche, and his powers to control his "wheel" so as to run in a steady and direct line are limited. In fact, his erratic course minimizes your chances of escape to an infinitessimal fraction, unless you incontinently flee to the middle of the road and wait until the youthful cyclones have swept and rattled past. The reckless devil-may-care shavers do not mean any harm, but a blow from their machines, while not usually attended with the serious results of collision with the bigger fellows on the bigger wheels, is still sufficiently serious to make it unpleasant to say the least.

It has been absurdly claimed by some extremists that "if bicycles be prohibited from using the sidewalks baby-carriages also be forbidden." This is silly nonsense. A baby carriage is not, as a rule, rushed along the sidewalk at helter-skelter speed by a nurse-maid. Give the babies a chance, but we do draw the line at the small, irrepressible boy, dashing along, mounted on his diminutive but dangerous velocipede.

THE EVOLUTION OF THE CYCLIST.

THE present generation of cyclists are almost all men and women who learned to ride after reaching adult age; the recruits have come and do still come from the non-riding people. But the cyclist of the future will come into his heritage with superior advantages—he will be a born cyclist. This thought is suggested by the great number of young riders from thirteen to sixteen years of age, of both sexes, that one meets at every turn. These are the cyclists of the future who will be veterans by the time they are grown, who are familiar with the wheel from childhood. And what a race of men and women they will be! Strong limbed, deep chested, with the brawn of sun and wind on their faces, and the full tide of health in their pulses. What an argument they will be of the power of the wheel for good, and a protest against effeminency and weakness. The wheel is an educator, and they will have a stronger love for all that is beautiful in nature. But what of the succeeding generation? These boys and girls will, of course, rear their children on a wheel; that is, they will simply graduate from the baby-carriage to the wheel; they will ride as naturally as they walk. Will not some Spencer or Huxley tell us what sort of a being will be this product of natural selection seventy-five or a hundred years hence? Will he possess abnormal legs and prodigious muscles? Will the racing man of the future be bred as the racing horse is now? Perhaps; why not?

And if the evolution of the wheel is to keep pace with the evolution of the riders, will not some Bellamy tell us what sort of a looking thing it will be and what it will be made of? Will it have but one wheel and be made of paper, and travel thirty or forty miles per hour on roads constructed expressly for its use? *Quien sabe?* L. A. W. 3320.

THE Athletic Cycle Club of Cincinnati now start out on their club runs from their club rooms on West Court street, which are furnished in the latest style and have all conveniences wheelmen desire. All visiting and local riders are cordially invited to call. This season promises to be the most successful in the history of the club.

The Athletic Cycle Club of Cincinnati are making arrangements for a run from Maysville to Lexington, Ky., on July 4th. Any riders who desire to make this trip West will be welcome. For information address M. L. Kleeman, Captain, 237 5th street.

THE picture of the New Haven meet is now ready; it is an exceptionally good one; for copies address I. H. Stoddard, photographer, 844 Chapel street, New Haven, Ct., or Frank Thompson, Chairman L. A. W. Meet Committee, 51 Broadway, New Haven, Ct.; pictures $1.50 each.

THE wheelmen of Elkhart and Goshen, Ind., are well wrought up at the prospect, and probable outcome of the ten mile road race between those two cities. The course will be along the road beside the railway tracks.

THE first number of volume II. of the *Outing Weekly Tennis Record* for the season of 1891 was published on June 13th, and it should be read by every devotee of the delightful game. It is the official organ and bulletin of the United States National Lawn Tennis Association, and bears the indorsement of Chas. E. Stickney, Secretary of that organization. The *Weekly Record* is tastefully gotten up, and in addition to all official records up to date contains portraits of noted players, a department of "Club Gossip," Current Chat," "The Referee," and editorial paragraphs from the pens of prominent tennis players, while club matters, personals, etc., lend additional interest. The principal editorials refer to the new committee and amended rules of U. S. N. L. T. A. The "English Letter," an article on "Mixed Doubles," and "Tennis in the South," are special features of a most attractive number.

THE races given by the Waltham Bicycle Club on Memorial Day have caused considerable comment as to who are really the crack riders in the vicinity, and as a result no less than four races are on to take place in the near future. The Waltham Club contains many good road riders, and they expect to give a good account of themselves in the 25-mile inter club road race which takes place June 27.

THE Utica Cycling Club has been presented with a handsome silver water pitcher and goblet by their lady friends.

THE Palisade Wheelmen will hold a handicap road race early in July, open to members only.

W. D. PECK has won the first thousand miles medal of the Business Men's Cycling League, and has 800 miles to his credit toward another.

FIFTY or more members of the Business Men's Cycling League will attend the cycling carnival at Prospect Park, Brooklyn, on June 20.

ORANGE, N. J., has a cycling club recently organized and known as the Essex Co. Wheelmen; thirty members were present at the organization of same.

THE Waltham, Mass., Wheel Club to the number of twenty-eight, made a run to Crescent Beach on Sunday June 7, and dined at the Strathmore.

THE Utica, N. Y. Cycling Club will hold a road race on July 4th.

THE Syracuse Cycling Club, after a heated discussion over the matter, have decided not to join hands with the Syracuse Athletic Club at present.

CAPT. V. M. HONNECKER of the Norwalk, Conn., Wheel Club, has issued a neat folder, giving the official runs of the club for June and July. A gold club badge is offered for best attendance at club runs during the season.

GOSHEN, IND., cyclists are getting up a series of races to be given during the summer for local riders only, for the purpose of creating a rivalry among them and to fit them for the tournament to be given there this fall.

TWENTY members of the Newburyport Bicycle Club made a run to Magnolia on Sunday, June 7, and it proved to be without exception the pleasantest outing the club has enjoyed. Dinner was served at the Hesperus, and the members of the organization are loud in their praise of the manner in which they were treated by the proprietor, and cordially recommend the house to any cyclers who happen that way.

THE Manhattan Bicycle Club has established a cafe in its new headquarters.

ENGLISH riders are to be barred in the great French bicycle race from Paris to Brest in September next; the French riders claim to have no show if the English riders are allowed to compete.

A LARGE party of the Century Wheelmen will take part in the summer tour of the club which leaves here on Sunday, June 28th. The course of the trip, which will consume twelve days, is laid through Lancaster, Gettysburg, Hagerstown (stopping in that city for the meet on July 3d and 4th), Winchester, Staunton, Natural Bridge and Luray. The distance to be covered is 420 miles.

THE lady cyclists' of Mitchell, So. Dakota, are talking up the matter of forming a ladies' cycling club.

THE Bedford Wheelmen of Brooklyn, N. Y., gave a successful entertainment at their club rooms in Brooklyn on the evening of June 10.

THE Columbia Bicycle Club of North Attleboro, Mass., held a lantern parade last week, and though the numbers were below one hundred the effect was very pretty, and the decorations fine. Colored fire and rockets added to the beauty of the scene, and the spectators were very hearty in their expressions of approval. Arriving in front of the club room before the parade was dismissed, the band gave several nice selections, among them a triple tongue cornet solo by L. E. Morse and a selection by a quintet, Messrs, Manter, Stanley, Bent, Bens and Blackwell. All then repaired to the vacant store in Anawan block, where the lady cyclists of the town had prepared a bountiful collation, consisting of sandwiches, coffee, cheese, doughnuts, lemonade, pickles and other good things. The ladies who waited on the members were Misses Peck, Capron, Jones, Schmadi, Rohrbach, Mrs. Wm. Swift and Mrs. C. S. Joslin.

SEVERAL members of the Irvington (N. J.) Cycle club expect to start on the morning of July 4th for a ten-day wheeling trip through Connecticut and Massachusetts. They expect to reach Bridgeport the first day. The rest of the route is undecided.

THE industrious beaver, the provident ant and the busy bee are the veriest sloths as compared to the members of the Porkopolis Wheelmen of Cincinnati, Ohio, at the present time. The cause of all this bustle is their bicycle tournament which is to be held on the afternoon of the Fourth of July, and which they propose to make worthy of the Queen City of the West. When it is considered that perseverance, pluck and Porkopolis Wheelmen all begin with the same letter no doubts as to their success will be entertained.

THE Columbia Bicycle Club, of North Attleboro, Mass., gave a successful lantern parade on the evening of June 8.

ELLEN TERRY, the great English actress, president of the ladies' cycling club of London, is very ill with congestion of the lungs.

THE Alpha Wheemen, of Philadelphia, have removed to their new quarters at 1507 Columbia avenue. The Alpha is a young club but is pushing rapidly to the front, and is in a very prosperous condition.

THE Winnipeg, Manitoba, Bicycle Club will hold three road races on the evenings of June 16, 23, 30.

ABINGTON, Mass., has a ladies' cycling club.

REV. R. A. GEORGE, of Cleveland, Ohio, accompanied by his brother, Prof. W. J. George, of Lawrenceville, N. J., will leave on June 25 for a two months' tour through Europe on bicycles.

IT is rumored that Windle may have a go at the records at Hartford on July 4.

THE first four high wheels to finish in the century run (Newark-Philadelphia) were ridden by four members of the Bergen County Wheelmen.

THE Scranton, Penn., Bicycle Club will observe the 10th anniversary of the organization on Saturday evening, June 20.

A CYCLING club with a membership of fourteen has been organized at Fair Haven, Vermont.

THE Cook County Wheelmen have arranged for a road race to take place July 11.

IT is estimated that at least fifty cycling organizations will take part in the wheelmens' parade to be held in Brooklyn, on Saturday, June 20.

THE Roamers Bicycle Club, of Buffalo, N. Y., will hold a twenty-mile road race in Buffalo on June 25.

AN English bicyclist was coming at great speed down one of the steepest streets in Edinburgh, when his machine capsized and landed him in the middle of the road. Two carters were passing, and they promptly came to his assistance.

"Maun, hoo did ye fa?" kindly inquired one of the carters, to which he received this answer:

"I was coming down that declivity with such velocity that I lost my gravity and fell on the macadamized road."

The carter turned from the unfortunate rider with true insular contempt.

"C'wa, Jock," he said to his mate. "If I'd kent the cratur' wis a forriner he would bae lain in the gutter lang eneuch for me."

A WHEEL club was formed at Chicopee, Mass., to be known as the Chicopee Wheel Club.

Two young bicyclers, evidently novices,, were riding along Main street, Norristown, one night last week, when one of the pair ran into ex-Postmaster Iredell. The old gentleman was on the east crossing at the time, and the rider had abundant opportunity to have avoided the collision. Mr. Iredell was indignant and demanded the rider's name, but with an oath for an answer the cyclist rode away.

THE Bergen County (N. J.) Wheelmen are having a hard time trying to decide on a site for their new club house. Several sites are offered to them free for building purposes in Ridgefield and Leonia, and the residents of both places are striving to have their site selected.

W. F. GASSLER, Jr., has decided to do no racing this season.

A NEW cycling club has been formed at Chicopee, Mass., and starts off with a membership of sixteen.

THE Westfield, N. J., wheelmen will hold a five-mile handicap race on June 27.

We are glad to welcome our Southern California correspondent "Hexamater" back again: "Well, we're on deck once more, or to use the Kate Fieldian style, I am on deck. Eight months ago I went to the mountains with only the hope of six or eight weeks more to enjoy this mundane. But careful living, best and purest of mountain water, and abundance of such climate as only Southern California knows has restored me to a long suffering public! Handicapped in matters bicycular, we are still hammering away on the same idea, a division for Southern California. Knocked out last year by the action of our League club we are trying to take time by the forelock this year. Although we have to lose many members who will not renew, they want a division, but say that we can't sing the song we did last year, still we hope this year to win. My words of last year are proving true, that if the League and League membership is to make any showing in this part of the State, we must have a division with headquarters nearer than five hundred miles, etc., etc., *ad lib.* but I trust not *ad nausea*."

THE New York and Brooklyn Suburban Investment Company has bought a thousand acres of land, stretching from Long Island Sound to the Great South bay in a direct line, and there is a plan to construct a bicycle railroad, on which passengers will be conveyed from the Connecticut shore to the ocean. The sound terminus will be at Rock Point.

THE Springfield (Mass.) Bicycle Club is talking of running a race meet to follow immediately after the Hartford meet, September 7 and 8.

A DISPATCH from Paris, France, says: "The great bicycle race from Paris to Brest and back, a distance of about 750 miles, will occur in September. The prizes range from $100 to $500, but none of them will fall to the share of English competitors, the French riders paying them the compliment of explicitly stating that they will stand no chance if their British cousins are allowed to compete."

The Ramblers' Bicycle Club, of Rochester, N. Y., will have a 25 mile road race on the afternoon of July 4th, a mile handicap ladies' race and several minor events. A reception will be afterwards given at the club house, 664 North St. Paul street. Wheelmen desiring to enter in the races should apply to P. J. Dukelow, 47 Clifford street.

THE Texas Division meet will be held at Houston, Texas, July 3 and 4. Address F. P. Dumble, Houston, Texas.

IT will, no doubt, be pleasing to many wheelmen to hear that the roads all through the Delaware valley have been judiciously worked with shale, and are in a better condition than they have been for many years.

THE Worcester (Mass.) Wheel Club was oaganized last week with six charter members. We hope to see a "big oak" grow from this "little acorn."

WE are in receipt from Mr. N. H. Van Sicklen, of Chicago, the finest lithographic cut of a cycle race we have ever seen. It is a work of art, and as such is worthy of criticism. The coloring is rich and the picture is worthy of a place on the walls of any one. The two faults we find are that the spokes of the cycle show as though the wheels were standing still, and the shadows of the men are carried into the shadows of the trees and buildings. For general artistic effect the picture is not equalled in cycling cuts. We notice that Mr. Poorman uses this splendid lithograph to advertise his road race, July 4th.

THE committee having in charge the arranging of the summer races for the Mercer County (N. J.) Wheelmen contemplate having the best bicycle races this country has ever witnessed. Nothing definite has yet been decided upon, but that the committee will make a great success of them is assured.

Star Sayings, of St. Louis, announces that A. H. Overman has sued the Meacham Arms Co., of St. Louis, for alleged infringement of the Bown ball bearing patent.

AN exchange heads an article "The Bicycle Business," and then gives details of how a certain machine was stolen!

THE Wilmington, Del., Wheel Club will be well represented at the Hagerstown Meet.

A CYCLING club with a membership of twenty-five has been organized at Skeneateles, N. Y.

THERE is a possibility that the Vineland Wheelmen will hold a race meeting on July 4.

THE Mt. Vernon Wheelmen, of Philadelphia, will hold open house on June 29.

IT is said that the Gotham Wheelmen have their eyes on a house on 70th street, near Lexington avenue, for club purposes.

IT will be remembered that about a year ago the authorities of Elmira, N. Y., granted permits to cyclers to ride on certain sidewalks of that city. It seems that cyclers are using the prohibited sidewalks and the authorities threaten to revoke all permits unless the riders refrain from using the prohibited sidewalks.

"HEXAMETER" writes: "The Los Angeles Wheelmen have been resuscitated; we are thirty-five strong. The dues have been cut to fifty cents per month and officers are elected semi-yearly. Club runs have begun. The other morning thirteen of us started from the club house going out the old mission road to Alhambra, Ramona, San Gabriel, E. San Gabriel, past the old mission, Sunny Slope, (L. J. Rose's famous horse ranch), taking dinner at Pasadena. The gait going was nine miles per hour, the roads being in good condition; the average pace back was fifteen miles per hour. [Pretty good for a man who has had a bout with consumption.—Ed.] Going out we sampled the oranges at E. San Gabriel, and struck a piece of deceptive road. It looked a down grade, but the up grade was 300 feet to the mile and over two miles long. We came back via the Arroyo Seco, stopping at Sycamore Grove to take in the French picnic. We had three ordinaries in the crowd; one man took a bad header at Alhambra, breaking handle bar short off on one side, but he rode right through with the rest of the crowd just the same. By the two cyclometers on the trip we made just thirty miles from the club house and back. We're going to have a race meet on Thanksgiving Day, if? ? ? And a lantern parade very soon."

IT is said that James T. Powers, the well-known comedian, has made application, and will be elected to membership in the Riverside Wheelmen.

THE Hudson County Wheelmen will hold a lantern parade on June 25.

THE Union Wheel Club has been formed at Highlandville, Mass., and comprises twenty-five members.

THE Clyde Cycle Club with a membership of thirteen has been recently organized at Clyde, Ohio.

THE Utica N. Y., Cycling Club tendered an informal reception to its friends at its club house, 341 Genesee street, on the evening of June 12; a large number of persons were present and an enjoyable time was passed by all. This organization, although but a little over one year old, has a membership of 85, and is in very prosperous circumstances.

TOURING through Europe on bicycles is becoming very popular. On the steamer La Champagne there sailed June 13 three wheelmen, Edward Fisher, W. Hughes, and Edward Sweeney, of Nashville, Tenn., who will make a four months' cycle tour. They will land at Havre, and, starting from there, go to Paris, Marseilles, Florence, Rome, Naples, Venice, Switzerland, Frankfort, through Holland, thence to London by steamer. From there they will ride through England and Scotland. At the expiration of four months they will take the steamer from Liverpool for home.

THE Riverside Wheelmen will give a stag house warming on June 25, to which all N. Y. City, Brooklyn, and New Jersey Clubs are to be invited.

MOBILE, ALA., was the scene of a disgraceful riot June 6th, on the occasion of a race meet held at Frascati Park. A New Orleans paper thus describes the affair: "The four events were won by Julius Mehlig of New Orleans, Frank Mehlig of Mobile and L. B. Auner of Mobile. After the last race a crowd of 200 men and boys surrounded the two Mehlig brothers and began cursing and hooting at them, and also threw rocks and sticks, one of which struck Frank in the back. He immediately picked up a 3-foot plank and hurled it into the crowd. It struck George Flynn, twelve years old, in the ribs and knocked the breath out of him for a while. He fell to the ground, and the crowd shouted that he was dead. The mob then chased Mehlig out of the grounds, and he sought refuge in a room in the rear of the barroom. The mob by this time had increased to five hundred men and boys, who stood outside and yelled "hang them; get me a rope; cut their throats." * * * Mehlig was placed in an ice box until ten policemen, a patrol wagon and Chief Felder arrived, when Mehlig and J. J. Moody and Ed O'Conner, the two reporters, entered the wagon and were driven out of the reach of the crowd.

SAYS Setagee: "A party of the Detroit Wheelmen went down to Toledo last Saturday evening to the opening of the Toledo Cycling Club's house, and on Sunday were taken out on a splendid run along the quiet, beautiful Miami, and no prince or potentate could have entertained us more royally than were the visitors. All the Detroit men join in wishing the Toledos constant joy. The new club house is one of the finest equipped and arranged that I have ever seen, and that's saying considerable."

MR. ALLAN (?) SWAN, who is making a tour from New Bedford, Mass., to San Francisco, was one of the spectators at the Columbus (Ohio) road race last Saturday. He had travelled that far in 19 1-2 days, and his cyclometer registered 870 miles. He left next morning for Dayton, accompanied by three of the cyclers from that place. Mr. Swan is bearing up wonderfully; he says he hasn't lost a pound.

THE chairmen on the various committees of the Ohio Division meet are very busy getting everything ready for the meet one month hence. The programme was put to press last week.

THE Columbus Safety Cycle Club will run to Springfield on the 4th, and there meet the Dayton riders, and will consume two days on the trip.

DETROIT Wheelmen's tour will surely be one of the events of the season. The bicycle clubs in the Canadian towns are making big preparations to receive the tourists. A big steamboat excursion on the bay at Hamilton will be a feature of the tour. It is important that all who intend to go should book their name early, so as to receive all information and allow the management time to make all arrangements. Address C. H. Smith, Detroit, Mich.

AT a recent meeting of the New Jersey Division Board of Officers, the different members of the board were talking about sidewalk riding, when a certain captain chimed in "Yes, five of us were jugged at Plainfield last Saturday!" The laughter that followed was loud and long.

HAWKSHAW'S COLUMN.

FARMER HEY REUB, was sitting on the rail fence which kept the cows out of his corn-field, thinking about crops, the price of potatoes, whether it was going to be a good summer for city boarders, and other like thinks that at about this season of the year always take possession of the rural brain, when he was startled by a cry from the front of the house, which faced the main road between Podunkville and nowheres. Carefully letting his rheumatic limbs straighten themselves out till they caused his feet to touch the ground, he slowly shuffled around the corner of the house, and came in sight of his excited wife who, standing in the door, looking in wild-eyed astonishment at a wheelman who was endeavoring to push his machine through six or eight inches of stone and sand, and at the same time looking as though he enjoyed the riding it afforded. "For the Lord's sake, Reuben! what is that there thing? she said. Before Reuben could reply, the object of all of this excitement took an old time, full regular, double-jointed header, and proceeded to travel along on the top of his head for a distance. "Wall, I dunno," answered Reuben, "but I guess it must be one of them there road-skullers that the post-master was reading about in one of them New York papers, that them city boarders over to Sloan's gits every day. Mandy, that's what them city chaps call 'great sport,' but I'm hanged if I can see any in it."

"The general effects of cycling are produced mainly through the agency of the heart and lungs. The stress of exertion makes the breathing more rapid, and the beat of the heart quicker and stronger. The greater rapidity of respiration means that more oxygen is taken into the lungs, and therefore more blood is cleansed of the physiological sewage thrown into it by the tissues through which it has passed in its circulation through the body; while by the increased activity of the heart this purified blood is distributed in greater abundance to every part of the economy. The lungs and the heart themselves share in the good effects of cycling, and thus become still more elastic, the heart firmer in structure and more vigorous in action. The smaller muscles which encircle the stomach and intestinal tubes are quickened into greater activity, while their contractile power is increased, a matter which, trifling as it may seem, any doctor will tell you, is of incalculable importance for the health of the mind as well as of the body. The other internal organs, those secret laboratories where nature performs feats of chemical transmutation, beyond the dreams of those old enthusiasts who wasted their lives in a vain search after the philosopher's stone. Any derangement of these functions may give rise to seas of trouble against which medicine takes arms in vain. Cycling aids these organs to work to better advantage by supplying them with better raw material in the shape of more generous blood. The body is at once better nourished and kept more free from the burdensome accumulation of superfluous tissue by the more rapid and complete removal of waste matters. The nerves, too, and the brain—which is, as it were, the sun of the nervous system—are maintained in the highest state of efficiency. The general effects of cycling are therefore, briefly, a more abundant supply of better blood to all tissues and organs: hence, all the component elements of the body are better nourished, so that each is able to play its allotted part to the best possible advantage. In fact, the effects of cycling may be summed up in half a dozen words: Better fuel and more of it for the vital engine."

The foregoing explains in not too scientific language, and with but few alterations from me, the whole reasons why cycling is to-day the greatest exercise, and hence the greatest remedy for weakened and diseased humanity that there is. It is not only like a patent medicine, a cure-all, but it is likewise a preventive agent against disease of equal power to its curative ones. It makes the strong and healthy yet stronger and healthier; but, like all agents given to mankind for their benefit and good, it is capable of grave injury to those who misuse and abuse its possibilities, and by so doing pervert good and transform it into evil. Be content, then, to use the wheel in moderation, and remember that it is like a medicine which, taken as it should be, in moderation, and in doses suited to the cause it is prescribed for, will not fail to do wonders, but if taken in doses too large or too frequent cannot benefit, and may injure the patient.

"HAWKSHAW."

THE LADIES.

To many of the ladies who have become interested in cycling, the question has arisen, What shall we wear? or rather, what weight of cloth is necessary to keep the dress well down over the ankles, and defy the creeping tendency caused by the movement of the feet on the pedals?

My own experience has been first, a rather light weight flannel, which proved utterly impracticable. Next a divided skirt which was all right while on the machine, but awfully annoying if I wished to walk any distance. Then a very heavy cloth that resisted wind and pedal motion, but became so wearying to the limbs after a short time on the machine that it was almost impossible to carry it, not to speak of the extreme warmth. Then I thought by what means can I contrive to wear a light weight dress, and still keep it down, and at last a very simple method came into my head, which I will try to explain for the benefit of all lady riders.

First I bought a yard of wide flat elastic, and after cutting it to the length needed, made a loop at one end to just fit over the instep of the foot; after leaving a space of about two inches, sewed the other end to the side of the light weight flannel dress opposite the outside of the foot, thus forming a sort of elastic stirrup for the foot; and by means of the short space left between the loop and the dress, not binding the dress into the foot so as to be noticeable. Then I started on my machine, and found that I could ride with perfect freedom, setting at defiance all the heavy winds and fast riding in the world to move that dress one little inch above where I had intended it to be. Oh! what a relief to the female mind. And so I write this, hoping that my sister riders will take as much comfort from this simple little device as I do.

"MAG-PIE."

A New Haven, Conn., exchange has this sensible comment to make on the prejudice of some people against lady riders. "* * * The trouble is we are too ready to denounce the novel as the naughty, and for that reason new customs always have to fight their way into popular favor. We all have an innate something which looks askance at innovations and in ignorance singles out some disparaging feature which becomes the foundation for the most unpardonable prejudice. We may as well get used to the idea as soon as possible that our lives must differ from those of our grandmothers, and that whatever conduces to health and broadens the mind is likely to be adopted, and that the present generation are going to wheel right through all prophesies of broken necks and a coming race of hoydens. * * *"

Another exchange gives the following points to be remembered in making the costumes. "First—perfectly plain round skirt, just reaching to the ankle. Second—have the hem turned up on the outside to prevent catching on the pedals. Third—use the sailor hat unless the cap becomes you."

A SUMMER VACATION AWHEEL IN THE HARZ MOUNTAINS.

BY WM. HEYNY, JR.

(CONTINUED.)

JUST out of Hasserode we take left fork through the "Drange" valley The fine, smooth highway, with its white kilometre-stones, showing the distances between points, winds, slowly ascending, through pretty and wild scenery.

If we choose to pay a visit to the "Hohneklippen," the most romantic cliffs of the Harz, and in their rugged beauty rivalling those of Switzerland, our way lies further above, through the "Dumkuhlen" valley. After passing the "Knaupholz" rocks, the road makes several turns, we see the "Teuerstein klippen" (flintstone cliffs) and the "Schnarcher klippen" (snorer cliffs) in the distance, and take a rest at Schierke, 1800 feet high. The small, low frame houses of this village are mostly covered with shingles. And here we meet our old friend, the "Bode," again, but the "Cold Bode" and the wild, narrow valley, filled with rocky debris, present only a cold and uninteresting appearance. The peculiar character of the

CHICAGO: THORSEN & CASSADY, 60 and 62 Wabash Ave.

Brocken here begins to show itself. Green-clad and mossy fragments of rock abound in forest and plain, and are scattered about the meadows, where herds of fine cattle are pasturing; the harmonious chimes of their bells greeting our ears from afar. The road rises only 550 meters in the 8000 to the "Brockenhaus" on the top of the Brocken. Presently we come up with the two isolated peaks of the "Schnarcherklippen" to the left (so named because of a like sound they occasion when a southeast wind is blowing); they are furthermore interesting on account of the needle of the compass declining on their heights. This is probably due to certain metallic compositions in their substance. Behind them are the "Schenthorsklippen," and later on half an hour below the "Brockenhaus" we shall see the "Feuersteinklippen" again. They represent the most effective and picturesque episodes of the Brocken region. The three most prominent mountains westerly are the "Grosse Winterberg" (great Winter mountains) quite bald and about 2800 feet high; the "Kline Winterberg" (little W.), 2600 feet, and "Wurmberg" (worm m.), 3000 feet. Here the waters of innumerable and invisible little springs are heard rushing under the granite rocks, which are piled about in gigantic blocks. It is the scene Goethe describes in his great "Faust."

Not far above Schierke we find the name of the builder of this magnificent road: "Count Otto Wernigerode" chiseled into stone, and soon afterwards a sign informs us that the "Brockenhaus" is still two hours' distant. To the right the old road forks off, the new, broader and easier graded "Chaussee," to the left is our road. If clear weather attends us we shall have some grand panoramic views of points below; they appear and vanish like pictures in a magic lantern. Arrived at the "Brockenbett" (bed of the Brocken) we stop at the cast iron road sighn, whose three arms point to Schierke, Ilsenburg and the Brockenhaus. We have now reached a considerable height, and this is particularly noticeable by the great change in the temperature. It is really cool up here and we had better not rest too long. Before we remount for the last climb, however, let us take a hurried glance at the charcoal burners on the "Hamberg," the cliffs below, the "Steinerne Renne" and Wernigerode whence we came. The castle seems to be within a stone's throw from here.

The summit road turns off at right angles from the Ilsenburg-Schierke Chaussee, and winds around the "Heinrichshoehe," (Henry's height) in a great curve to the right through pine forest. After awhile the road turns to the left, the woods lighten and soon we have a clear view. No more trees are seen above 1000 meters rise, which make a surprisingly low boundary line of trees for the Harz. In the Alps pines are still found at a height of 2000 meters. A sharp turn to the left around the "Brocken kulm" and the dusky tower and "Brockenhaus" rise up before us.

THE NEW YORK STATE DIVISION MEET.

THE Rochester Wheelmen's League are already well organized and work well along for the State Division meet, to be held August 19 and 20. The Committees appointed are as follows:

Track—P. J. Dukelow, Rambler; J. C. McNab, Genesee; E. A. Carpenter, Lake View.

Privileges—Robert Thomson, Genesee; Robert Leadly, West End; E. H. Chamberlain, Crescent.

Prizes—Fred Morgan, Lake View; W. N. Barry, Genesee; W. E. Williams, Lake View.

Races—G. S. Montgomery, Genesee; John H. Graham, Flower City; Frank Crouch, Lake View.

Entertainment—Frank Talling, Crescent; Fred Shedd, Lake View; F. J. McCall, Genesee.

Parade and Photographs—M. F. Shafer, Genesee; J. S. Groh, Rambler; C. H. Crouch, Lake View.

Programme—J. H. Brown, Flower City; M. B. Fox, Lake View; G. S. Montgomery, Genesee.

Transportation—F. B. Weeks, Flower City; E. G. Lane, Lake View; E. H. Craig, Genesee.

Press—T. W. Shannon, West End; J. H. Wilborn, R. T. Olcott, West End; J. H. Brown, Flower City; C. J. Iven, Lake View and Genesee; F. B. Weeks, Flower City.

Advertisement—James Barnes, Crescent; W. R. Pollock, Flower City; H. F. Nisbet, Genesee; W. N. Williams, Crescent; F. M. Talling, Crescent.

Reception—W. N. Love, West End; S. S. Braman, Crescent; Bert Anthony, West End.

Finance—H. Dolbier, Rambler; C. F. Garfield, Flower City; L. B. Vincent, West End.

Tours and Runs—C. A. Rockwell, Lake View; C. J. Conolly, West End; C. C. Newton, Flower City; G. E. Montgomery, Genesee; Henry Marks, Lake View.

Rochester has twelve live, active clubs with an aggregate membership of 800, of which about 80 are lady riders. The Lake View club leads with a membership of 150 and the Genesee next, 80 members. There will be 24 races in the two days' programme. The Rochester Wheelmen are well known for their hustling proclivities, and they will hustle to make the '91 meet of the New York State Division a banner event.

MISSOURI DIVISION MEET.

THE programme for the sixth annual meet of this Division is out, and it is in all respects far ahead of anything in this line published here. The programme consists of fifty stereotyped pages, and is replete with original matter and also contains a photo-engraving of the fine half-mile track on which the races will be run. The racing events number twelve and the prizes include a bicycle, gold watch, gold medals for all the championship events, parlor lamp, shot gun, and other articles equally valuable and useful. See advertisement on page 259. Carthage possesses advantages which no other city boasts of. It has an elevation of 1,200 feet above sea level, and this fact alone makes the summers extremely pleasant and the nights cool. It has a population of 10,000 people, who are all taking the liviest interest in the success of the meet. The town is well built, healthy, beautifully situated on the hills of the southern branch of Spring River, a most lovely spot nestling in the forest shade. It has splendid parks, shady groves, and her streets cannot be surpassed for cycling. The Fair Grounds are among the most complete in the State, ranking with Kansas City and St Louis, improved at an expense of $30,000, and having a fine grand stand and a seating capacity of 5,000, and the finest half-mile track in the West. The hotel accommodations are excellent, and the cycling visitors will find all the conveniences of a metropolitan city. The Harrington will be the official headquarters, and has made a special rate of $1.50 per day, *on presentation of League ticket only.*

During the meet runs will be taken to Oronogo, Webb City, and Joplin, to inspect the famous lead and zinc mines. People who have never visited this section of the State have an idea that it is the most secluded region on earth; bad roads, no bridges, and no street improvements. A visit to Carthage will disprove this idea. The riding district embraces 190 miles of road, and all are uniform in their excellence. Carthage has the reputation for royally entertaining her guests, and she will not lose her popularity in this instance. St. Louis wheelmen are urgently requested to sign their names on the lists hanging at all the cycle agencies, so that a special car can be provided. A rate of $9.40, one fare, for the round trip has been conceded by both the Mo. Pacific and 'Frisco Railway. The smoker on the night of July 3 will be a "corker," and at the banquet which will be served on the evening of the Fourth a valuable souvenir will be presented to each participant. This is part of what Carthage offers to her cycling visitors who will attend the meet. The racing promises to be very fine and every inducement will be made to have the fastest men of the States present. *Don't forget your League ticket.* Bring your wheel. Sign that list at agencies at once. *This is necessary.* St. Louis wheelmen should provide themselves with the special badge to be had of Geo. Wilder. LINNEUS.

FIRST STATE MEET TEXAS, DIVISION, L. A. W.

THE first annual meet of the Texas Division will take place at Houston on the third and fourth days of July. The Houston Bicycle Club, the only League club in the State, are making great preparations for this event, the meet being given under their auspices. At the same time and place the Division Championships will be contested on one of the finest tracks in the world. This is a broad claim, but from all accounts it can be substantiated. The material composing the track is concreted shell, hard and smooth as a floor, and we look for some of the "flyers" to make fast time and establish some records. The track is located in Magnolia Park, an elegant site with beautiful surroundings, and will be a six-lap one. On the first day the time will be taken up as follows: A.M., reception of wheelmen, and business meeting of the Division. P.M., excursion on wheels to Magnolia Park, and scorching on the track. At night, lantern parade, with prizes to best decorated wheel.

July 4, second day: A.M., parade of the wheelmen, followed by refreshments and taking of photographs. P.M., races; contesting of Division Championships, interspersed with local races for prizes donated by the Houston Bicycle Club. At night, fireworks, smoker, and a general good time. The citizens of Houston are giving substantial aid towards insuring the success of the meet, and the members of the Houston Bicycle Club are putting in much time and labor in the same direction.

Houston is the "Hub" of wheeling in Texas. The Houston Bicycle Club do nothing by halves, and the wheelman who absents himself from the coming meet and Division Championships will miss a rare treat. All of the railroads will give a one fare rate for the round trip at that time, because of the national holiday. Houston is a railroad centre, easy of access, and the Texas Division extends a cordial invitation to every wheelman to participate in the festivities, and help us make a grand success of our meet.

Fraternally, E. W. HOPE.
C. C. Texas Division L. A. W.

THE WISCONSIN DIVISION MEET.

THE programme for the Wisconsin State meet at Green Bay, July 22 and 23, will be varied enough to suit all; with a grand procession, run to De Pere (5 miles), photograph, races in afternoon, meeting of State Division in the evening; second day, steamer excursion on beautiful Green Bay, races again in the afternoon, and a banquet at the Beaumont House in the evening.

The park of the Fair and Park Association has been secured for the two days; it not only has the best half-mile clay track, but the zoological garden, club house and exposition building are the finest in the West. The exposition building will be fitted up for the use of the wheelmen.

At the regular weekly meeting of the club the other night the regulation League uniform was selected, and we will all be as pretty as pictures in three weeks.

The necessary funds to defray all the expenses of the meet have been loaned by eight of the members of the club, who will have entire charge of the arrangements and management of this tournament.

The citizens will offer two diamond medals, valued at $200 each for two one mile races, open to the United States, ordinary and safety. A valuable prize will also be given to the largest club in the procession.

G. W. F.

OHIO DIVISION MEET.

ON July 13, 14 and 15 the Ohio Division will hold its meet at Columbus, Ohio. The official programme of each day's events has not yet reached us, but we are promised it so that we can print same in our next issue without fail. On page 251 of this issue will be found a complete list of races and prizes as given. The aggregate value of prizes is $1000. We call attention to the fact that a cheap excursion will be run to Detroit on the 15th for those who desire to attend the National meet. Look out for the official programme of the Ohio State Division meet.

TRANSPORTATION TO HAGERSTOWN.

THE Baltimore and Ohio Railroad advertise special rates from all points east and west to the Hagerstown meet. For particulars see page 251. The B. and O. has always been generous in its treatment of the wheelmen. We hope to see wheelmen patronize the B. and O.

BICYCLE SONG.

(Air, "A wet sheet and a flowing sea.")

Join in this sprightly versicle,
Ye lads and lasses bright!
As we astride the bicycle,
Pursue our gladsome flight!
Nor scorn this blithesome canticle,
But sing it, as we play
The treadles of the vehicle
We ride with spirits gay!
CHORUS—Enchanting, in sooth, to the auricle,
As we rattle through the glade,
Sound the notes of the cornicle,
Blown by some sweet-mouthed maid!

From cuticle to ossicle
We feel the welcome glow.
Oh! who our joy can chronicle,
As swiftly on we go?
It is a pleasant spectacle
To see one coasting down
The hills, avoiding obstacle,
And winning fair renown.
CHORUS—Enchanting, etc.

Now scaling some hill's pinnacle
The wheelman dares to boast,
While urging still his bicycle
O'er deserts to sea—coast,
There heathen greet as miracle
The curious sight revealed,
Of man on such strange article
Astride, instead of steed.
CHORUS—Enchanting, etc.

Start not as touched by icicle
Ye men of learning grave,
To see one in a tunicle
The cycle's dangers brave.
Throughout its every particle,
From tire to sprocket wheel,
The cycle is the article
On which life's joys we feel.
CHORUS—Enchanting, etc.

Within the heart's close follicle
The secret each one keeps
Of how it strains the clavicle,
To climb the rugged steeps.
The hill top gained, the canticle
Renew, with eager voice;
No paean of conventicle
Was ever framed more choice!
CHORUS—Enchanting, etc.

UMGARARTHERUM.

LEAGUE MEET NOTES.

THE sums mentioned in a former issue as being appropriated by the directors of the Detroit Wheelmen for the coming League meet were not the limit but simply starters.

The space for cycleries at the rink has all been taken and the exhibit alone will well repay agents for coming to the City of the Straits.

The rink will be the headquarters and there will be no bother about hotel service, as there was last year at Niagara, for Detroit has scores of good hotels and with rates to suit all.

The Cadillac is one of the finest hotels in the whole world, while the Russell House is nearly as good, then comes the Normandie, Griswold, Gies, Goodman, and a number of other first class hotels with a host of others on both the European and American plan, with some distinctive German, French and theatrical caravansaries. There is plenty of room for all.

Another matter I wish to call the attention of the readers of the WORLD to. The wheelmen who visit Detroit will have a grand good time, and while the Detroit Wheelmen will throw wide open their doors they will not be able to admit wheelmen to races free as the types made me say a week ago. What should have been stated was that all L. A. W. members will be admitted to the grand stands free of charge; and by the way, our grand stand and tracks are the finest in the West. "SETAGEC."

SYRACUSE, N. Y. TOURNAMENT—CHANGE IN DATE.

THE Syracuse, (N. Y.) Cycling Club tournament will be held on the Kirkwood Track, Syracuse, on July 10th, instead of August, as previously announced.

We already have the entries of A. B. Rich, Hoyland Smith, Zimmerman, Taxis, Murphy Bros. W. S. Campbell, H. J. Hall, Jr., and many others. The track which is very fast will be put in the best of condition and we have every reason to believe there will be a number of records broken. A special prize will be given for every record broken.

There will be sixteen events, and the five remaining New York State championships will in all probability be included in this list. The Racing Committee give us their decision on Friday morning next.

This will be one of the leading race meets of the season. An extra grand stand seating 10,000 people will be erected and every effort used to make this *the* race day of the year. We are guaranteed an attendance of ten thousand people by the National Cantonment of Odd Fellows, who hold their encampnent in our city at that time. Entries to Carl G. White, 338 So. Salina street, Syracuse, N. Y. Truly yours,

(CAPT.) R. P. JUDD,
CARL G. WHITE,
Committee S. C. C.

THE MASSACHUSETTS ROAD BOOK

WILL probably be ready for mailing this week. The new road maps are fast nearing completion, and will be ready for distribution by the last of the month.

DETROIT—RACING MEN, ATTENTION.

THE Detroit wheelmen print their entry blank in this week's issue on page 250, so that it may get in the hands of every member of the L. A. W. Should any desire a special copy please send to Jos. Bressler, Chairman of the Race Committee. See page 250.

THE CENTURY RUN.

NEW YORK END.

SOME four hundred and fifty bicyclists assembled in Newark on last Friday evening, preparatory to starting on a hundred-mile run to Philadelphia the following day. The Continental Hotel, which was the wheelmen's headquarters, was filled to overflowing. It was there that ex-captain Waldo Fuller of the Brooklyn Bicycle Club, the manager of the run, was located. In spite of the fact that the wheelmen had a big run in prospect for Saturday, the strangers in the city remained up until a late hour.

This was the fourth annual century run. To Larry Clarke is due the credit of being the originator of the trip, but for the last two years he has had nothing to do with the affair.

At four o'clock Saturday morning, after a hasty breakfast, Broad street was filled with close on to five hundred wheels.

The start was made from Newark shortly after four o'clock, and an easy pace taken into Plainfield, the roads to this point being macadam made splendid riding. After a brief rest, refreshments were taken here, and then the riders pushed on again. The pace was quickened here a bit, and getting out into the country, nasty, dusty roads were encountered, up to Somerville and on to Trenton. At the latter place dinner was eaten.

Trenton was reached at two o'clock, and upon entering the town the tourists received quite an ovation. The men were now pretty well strung out and riders continued pouring into Trenton until three o'clock.

After leaving Trenton very good roads were encountered, and the leaders pushed steadily on to the Quaker City. The first detachment arrived in Philadelphia shortly after seven o'clock. At the termination of the route, Broad street, was roped in and great crowds of people lined the sidewalks. A short distance outside of Philadelphia a number of men scratched ahead of the leaders and pushed on to the city, to be the first in. This was against the rules, and Manager Fuller says they will not be counted in the run. Three hundred and ninety-one riders finished.

Plucky Mrs. Dalsen, the captain of the Fairmount Lady Cyclers, and Miss Powell, of the Philadelphias, rode the entire distance.

There were any number of break downs during the trip. Graham, of the Kings County Wheelmen, Harrop, a Philadelphia man, and Bullard of the Poughkeepsie Club, all met with slight accidents. There were many others too. The Century Wheelmen brought the largest number of men through. They will secure the first banner.

The run was the most successful ever held. The managers of the affair will get up small souvenir medals and all survivors may purchase the same for a small sum. "TREE."

PHILADELPHIA END.

OWING to a satisfactory and previously arranged understanding with the clerk of the weather, the rain and mud which have heretofore attended the annual century runs of the New York, New Jersey and Philadelphia clubs, were dispensed with on the run which took place on Saturday, and which was the fourth of its kind. It was due to this fact that the main body reached this city on schedule time, although a few of the advance guard came in at six o'clock, while Mr. A. W. Evans, N. Y. A. C., registered at 4.30 P. M., having left Trenton about one o'clock.

The number of survivors was unusually large, 378 finishing out of 465, who started promptly at four o'clock from Newark, and so well planned was the pace that schedule time was maintained all along the route, Elizabeth being reached at 4.30; Westfield, 5.30; Plainfield, 7; and Bound Brook, 8 (rest); Hopewell, 11; thence to Trenton, where dinner was had, leaving at 3.15. Bristol was passed at 4 P. M. and the pace makers registered at the Century Club at 7.15.

Red lights and fireworks welcomed the weary cyclers, who were enabled to finish their journey peaceably, without being crowded upon each other by the assembled throngs on Broad street, the municipal authorities having roped off the street from Oxford to Montgomery, and having a large squad of policemen on hand. In the wheel room of the Century Club house the indefatigable Centurions had provided coffee and sandwiches with lemonade and cake, of which the most substantial appreciation was shown by the riders.

Philadelphia again captured the first prize offered to the Century Club, bringing the greatest number through and the silk banner of '91 keeps its companion of '90 in countenance on the walls of the club house. Sixty-three out of the sixty-four who started with Captain Dalsen finished, and this not only gave them the prize but is also record for a club run for a single day. Nor does the first prize only come here.

The second was captured by the Park Avenue Wheelmen, under Captain Bilyeu and President Bunnell, who brought thirty men through out of the thirty-five starting. President Bunnell, by the way, started from Boston on Wednesday morning and covering a century each day, had four hundred miles to his credit oe Saturday night.

Mrs. Dalsen, Captain of the Fairmount Lady Cyclers, and Miss Powell of the Philadelphia Club (daughter of the old veteran, A. G. Powell) are the two ladies who are entitled to the distinction of having made the run this year, and they finished with the leaders, receiving hearty cheers from the assembled crowd. The following is a list of the number of men brought

They tell you that

The Day of the Boneshaker

is over, but don't you believe 'em. The boneshakers of to-day are of somewhat different pattern, and considerably handsomer than those of years ago, but they are here just the same. Like as not you may be riding one. You may not know what luxury is to be found in a spring frame, and possibly you're a clam, and wouldn't if you could. But where ignorance is bliss it is not *always* folly to be wise, and first chance you get, try a RAMBLER, "just for the fun of the thing," if nothing else. It has a spring frame, and a good one, too---practical, effectual, simple---the spring is in the right place, nothing complicated about it, no forcing of feet off pedals, the steering isn't affected in the slightest, and when the spring "gives" there is no dangerous change in the distance between saddle and pedals---in a word, it is thoroughly practical. With it every jolt is a delightfully easy one.

If you desire to have your bones shaken,

Steer Clear of the Rambler.

GORMULLY & JEFFERY MFG. CO.,

MAKERS OF

"The American Cycles."

222-228 N. FRANKLIN STREET, - CHICAGO, ILL.

through by each Philadelphia club: Century Wheelmen, 63; Park Avenue Wheelmen, 29; Quaker City Wheelmen, 16; Columbia Cyclers, 8; Mt. Vernon, 7; South End Wheelmen, 7; Oxford Wheelmen, 4; Pennsylvania Bi. Club, 3; Philadelphia, 3; Frankfort, 3; Jefferson, 3; Penn City, 4; Alpha, 4; Americus, 2; Bryn Mawr, 1; Lehigh, 1; Northwest, 1; Camden Wheelmen, 4. Out of town clubs were checked: Elizabeth, 23; East Orange 'Cyclers, 21: Orange Wheelmen, 21; Atalanta, 14; Business Men's 'Cycle League, Newark, 11; Kings County, 5; N. Y. A. C., 1; Manhattan A. C., 1; New York Bicycle Club, 4; Union County Wheelmen, 9; Westfield, 4; Crawford, 4; Asbury Park, 1; Mercer County, 8; York, 6; Merion, 5; Hudson County, 2; Collingswood, 1; Outing Wheelmen, 3; Amsterdam, 3; Atlantic City, 1; Knickerbocker, 2; Royersford, 1; Montclair, 3; Harlem, 2; Yonkers, 1; Gotham, 1; Binghamton, 1; Mercury, 1; N. Y. Y. M. C. A., 1; Long Island, 1; Staten Island, 1; Morristown, 1; Rhode Island, 1; Ansonia, 1; Palisade, 2; West Jersey, 2; Poughkeepsie, 4; Brooklyn, 5; Prospect, 4; unattached, 24.

The visitors on Sunday, which was a perfect June day, were taken on a short run through the park, assembling at Strawberry Mansion, where refreshments were served and a photograph taken. The New York and New Jersey visitors returned home by a special train Sunday afternoon.

If the run continues to increase proportionately in the future as in the past, it will be a burning question as to where Philadelphia shall entertain her visitors. The Century Wheelmen, with their wonted hospitality, have been the hosts for three successive years, but it is more than unfair to expect them to handle so large a body of men unassisted. Will the Associated Cycling Clubs step in, or shall the thing be allowed to go by default?

"ARIEL."

Philadelphia, June 15, 1891.

PROGRAMME OF HAGERSTOWN MEET.

FIRST DAY'S RACES, JULY 3d.

1. One-mile novice, ordinary—First prize, gold medal; second prize silver medal.
2. Half-mile, heat race, ordinary—First, second and third men to qualify for final; first heat.
3. Second heat—First prize, handsome silver cup, presented by the Pope Mfg. Co.; second prize, timing watch.
4. One-mile safety, District of Columbia Division championship—First prize, gold medal; second prize, silver medal.
5. One-mile ordinary, Maryland Division championship—Prize, gold medal.
6. One-mile safety, open—First prize, fine gold watch, presented by Crawford Bicycle Mfg. Co.; second prize, leather travelling bag.
7. Fancy riding.
8. Two-mile handicap, ordinary—First prize, "The Hedgson" gold medal, presented by Harry H. Hodgson, New Orleans; second prize, silver medal.
9. Half-mile safety, Pennsylvania Division championship—First prize, gold medal; second prize, silver medal.
10. Half-mile, ordinary, Hagerstown Bi. Club championship—Prize, gold medal.
11. One-mile safety, team race, bicycle clubs—Prize, handsome silk banner.
12. One-mile ordinary, Third District riders—First prize, "The Hotel Hamilton" gold medal, presented by Chas. Webb of J.; second prize, silk umbrella.
13. One-mile safety, heat race, 3.10 class—First, second and third men to qualify for final; first heat.
14. Second heat—First prize, gold medal presented by the professional men of Hagerstown; second prize, silver medal.

SECOND DAY'S RACES, JULY 4.

1. One-mile ordinary, Pennsylvania Division championship—First prize, gold medal; second prize, silver medal.
2. One-mile ordinary, District of Columbia Division championship—First prize, gold medal; second prize, silver medal.
3. Half-mile ordinary, Pennsylvania Division championship—First prize, gold medal; second prize, silver medal.
4. Half-mile safety, Hagerstown Bicycle Club championship—Prize, gold medal.
5. One-mile ordinary, open, championship of the meet—First prize, standard Light Rambler Safety bicycle, presented by Gormully & Jeffery Mfg. Co., Chicago; second prize, handsome silver cup presented by the citizens of Hagerstown.
6. One-mile safety, Maryland Division championship—Prize, gold medal.
7. One-mile tandem safety, open—Prize, two gold medals.
8. Trick riding.
9. Half-mile heat race, final.
10. One-mile safety, 3.10 class, final heat.
11. One-mile ordinary, team race, open—Prize, handsome silver cup, presented by Crawford Mfg. Co., Hagerstown, Md.
12. One-mile ordinary, 3.10 class—First prize, gold medal, presented by the Hagerstown merchants; second prize, silver medal.
13. One-mile, Delaware Division championship—Prize, gold medal.
14. One-mile safety, Third District rider—First prize, "The Baldwin House" gold medal, presented by J. E. Thomas; second prize, silver medal.
15. Two-mile safety handicap—First prize, a handsome silver cup, presented by the Overman Wheel Co.; second prize, medal.

NOTES.

Two time prizes will be given. For the fastest mile a gold watch. For the fastest half mile a diamond pin, presented by the Crawford Mfg. Co., (Tandems excluded). $1560 in valuable prizes.

Be careful to give particulars for handicap and class races. If not a member of L. A. W., give proof of amateur standing. L. A. W. Division championships open to L. A. W. members only. L. A. W. rules to govern. The order in which events will be run off will be determined after entries are all in. Entries close June 25. Entrance fee returnable to starters. All open events, unless otherwise specified. Pneumatic and cushion tires will be penalized on basis of solid tires according to the most approved tables. No athletic clubs will be allowed to enter race No. 11, July 3. No second prizes where there are less than three starters. A class race is open only to those who up to date of closing entries have not won one of the first two positions in a track race in the same or better time than the class under consideration.

H. B. IRVIN,
P. O. Box 111, Hagerstown, Md.

FAST TIME IN CALIFORNIA.

WE omitted to make note of the remarkable time for 25 miles credited to J. F. Ives, 1.26.55, and to E. E. Stoddard, 1.27.00, for the same distance. If these records were made over a course, the measurement of which is as authentic as the Irvington-Milburn course, we must credit the record to Mr. Ives. We wish the parties at interest would send us the full particulars, etc.

RACING AT THE FOURTH ANNUAL SPRING GAMES OF THE Y. M. C. A., PHILADELPHIA.

ON last Saturday afternoon at their grounds at Belmont and Elm avenues the following cycling events were run off at the spring games of the Y. M. C. A. Summary of the events: One mile safety—C. L. Allison, Y. M. C. A., 165 yards, won; J. C. Donnelly, Y. M. C. A., 80 yards, second. Time, 3m. 7 2-5s.

Three mile ordinary—J. H. Draper, A. C. S. N., 140 yards, won; J. C. Donnelly, Y. M. C. A., 220 yards, second. Time, 9m. 55s

"ARIEL."

Philadelphia, June 15, 1891.

RACING AND MEET NEWS AND GOSSIP.

CAMBRIDGEPORT, MASS.—The fifth annual 25-mile road race, and fourth for the Sanborn gold medal, was run on Thursday, June 11, by the Cambridgeport Cycle Club. Cottage Farm was the starting point, and the route was through Newton and Wellesley, and back via Chestnut Hill reservoir. There were four entries: John S. Carmen, Geo. F. Kehew, J. W. Bean, and H. C. Spear, and all but Spear finished. The result and time is as follows:

Geo. F. Kehew, 1st; 1.44.22; J. W. Bean, 2d; 1.53.22; J. S. Carmen, 3d; 1.58.00.

The judges were Fred Ball and Geo. Fogg, and the timers were M. Nowell and F. S. Sanborn.

AT DANBURY, CT.—The 10-mile handicap race of the Danbury Wheel club was run on the afternoon of June 12. Arthur W. Ballard was the winner. Time, 46m. The time prize went to Orville W. Swift, scratch man, who rode a pneumatic tired wheel. Time, 39m.

AT MADISON, WIS.—The first race of the Madison Cycling Club was run on Memorial Day. The course was six miles, and the race was won by Byron Paine. Time 23m. Mr. Paine thus becomes possessor of the beautiful gold medal which he must hold against all members of the club.

AT WILMINGTON, DEL., June 13.—The postponed races of the Wilmington (Del.) Wheel Club came off last Saturday, and resulted as follows:

One-mile novice, safety—Albert Beggs, W. W. C., won. Time, 3m. 11 1-2s. S. H. Benson, Wilmington, second.

Two-mile ordinary, scratch—W. C. Seeds, W. W. C., won. Time, 6m. 20s.; F. M. Dampman, A. C. S. N., second.

Half-mile safety—For boys under 17 years, S. H. Benson won. Time, 1m. 32 4-5s.

Half-mile safety, (hands off)—W. C. Seeds, W. W. C., won. Time, 1m. 37s.; B. F. McDaniel, W. W. C., second.

One-mile safety, 3.30 class—J. L. Hanley, W. W. C., won. Time, 3m. 4s. Albert Beggs, W. W. C., second.

Half-mile ordinary, scratch—W. C. Seeds won. Time, 1m. 27 3-4s.; S. W. Merrihew, W. W. C., second.

100-yards ordinary, slow race—S. D. Wilson, W. W. C., won. Time, 3m. 17 1-2s.

Two-mile safety, handicap—W. C. Seeds, scratch, won. Time, 6m. 22 1-4 seconds; F. M. Dampman, A. C. S. N., 100 yards, second.

One-mile, married men's race, 4m. class—H. Jackson, Wilmington, won. Time, 3m. 26s.; George C. Smith, W. W. C. second.

One-mile ordinary, handicap—W. C. Seeds, W. W. C., scratch, won. Time 3m. 3 3-5 s.; S. W. Merrihew, 25 yards, second.

Half-mile, ordinary, 1.45 class—J. L. Hanley, W. W. C., won. Time, 1m. 32s.; H. B. Donaldson, W. W. C., second.

Five-mile safety, handicap—J. L. Hanley, W. W. C., 200 yards, won. Time, 15m., 43 3-5s.; F. M. Dampman, 100 yards, A. C. S. N., second.

AT COLUMBUS, OHIO.—Last Friday, June 12, the Columbus (Ohio) Safety Cycling Club held its first road race for this season. The roads were fine and the weather excellent, hence the good records made. The contestants were started consecutively every three minutes. T. C. Cosner made the best time (5 miles) in 16.13; E. H. Severly, second, 16.57; J. L. Gordon, third. J. L. Shobe, the ex-champion, was thrown from his wheel, bending the pedal, thus depriving him from getting a place.

The Los Angelos (Cal.) Athletic Club had a fine Field Day on May 30 at the Agricultural park. There were three bicycle races: one-half mile ordinary, one-half mile safety, and one-mile ordinary. The time was very slow, although Burke broke the one-half mile ordinary record for Pacific coast. D. L. Burke won both one-half mile races, and D. L. Shrode won the mile in 3.14. This was the first time Shrode has ever ridden in a race. The slow time was attributable to "headwork tactics."

TRADE NOTES.

A. W. GUMP & Co., Dayton, Ohio, are this year selling on favorable instalment terms, as will be seen by reference to their advertisement on page 257. They report trade better than ever before.

WE can confidently state that after having given the Century Brace, advertised on page 251, a fair trial, that they are undoubtedly the best thing in a suspender on the market to-day, and we can recommend them to all readers of the paper.

IT speaks volumes for the speed of the new Warwick cushion tire that the following paragraph has gone the rounds of the sporting journals: "A number of the participants in the Irvington-Milburn race have announced their intention of entering a protest against the awarding of the first prize to the rider who captured first place in Saturday's contest. It is claimed that while he entered as riding a cushion-tired wheel, the rear wheel was in reality fitted with a pneumatic tire, the valve of which had been removed." The tire objected to in the above paragraph, we are advised, is nothing but a cushion tire, but is made on somewhat peculiar principles by the Warwick Cycle Mfg. Co., and so far the experiments have shown that it embraces all the good qualities of the pneumatic, with none of its drawbacks.

MR. BERT MORRISSON, the celebrated trick rider, has accepted a position with A. W. Gump & Co., of Dayton, Ohio. His arrival has stirred up considerable excitement among local riders.

FIXTURES.

JUNE.

26 and 27—Kentucky Division Meet at Louisville, Ky.
27—Cycling and Athletic Meet of Kings County Wheelmen at Washington Park, Brooklyn. John Bensinger, 1255 Bedford avenue, Brooklyn.

12th Annual Meet of the L. A. W.

DETROIT, MICH., JULY 16, 17, 18, 1891.

Address Chairmen as below at Detroit for information relating to the work of the committees:

Chairmen of Committees:

Reception—C. H. Smith, 211 Putnam avenue; B. J. Holcombe, 222 Woodward ave
Races and Transportation—Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Mr. Randall Removed.

Acting under authority conferred by Section 5 of Article VI. of the Constitution of the League of American Wheelmen, I have this day removed Mr. Charles E. Randall from the office of Chairman of and from membership on the Racing Board, League of American Wheelmen.

Mr. Randall has been notified to send to the Secretary of the League all books, papers, memoranda, and other effects of his office.

Yours sincerely, JAMES R. DUNN,
June 15, 1891 President L. A. W.

Warning.

The names of all those who do not renew before July 1st will be taken from the mail list in order to complete the work in time to send out the paper of July 3 from the new list. We must commence to take names off several days before that date. The mail list for that paper must be in printer's hands June 30th; this is to give notice that we cannot guarantee to send a paper of July 3 to those whose renewals reach us after June 26.

Racing Board.

I desire to place myself on record as being fully in accord with the sentiments expressed in Mr. Bassett's letter in reply to Chairman Randall's resolution as contained in the BULLETIN of the 12th inst. No such resolution was ever submitted to me for my vote, and had it been I should never have voted "aye" to a resolution containing such disrespectful and insulting language. As a member of the Racing Board I disclaim my connection with the resolution.

GEO. S. ATWATER, Member Racing Board

Proclamation.

Ye men of Massachusetts, listen to the words of your committee, and it will be well if ye profit thereby.

Be it known that on the 13th, 14th, and 15th of August ye must needs hie to Cottage City, there to give the hours to innocent amusement. By the dancing sea waves ye may revel, on the wave-kissed sands ye may woo the gentle breezes, and eat clams, ye may lay your gentle hands upon old ocean's mdiae and bid him to caress you, and ye may make the welkin ring with your glad voices. If the island has no welkin to ring the committee will provide one. And here follows the programme:

Thursday, August 13, 10 A.M.: Meeting of Consuls at Town Hall to discuss ways and means, whatever that may mean. 3 P.M.: Base ball game. It was thought well to abandon this feature, but we can't afford to do that till we have scored one victory. Committee in charge, J. W. Bean. 8 P.M., band concert and bluffing. We do not reveal the awful significance of the latter, but we who shall go will attend to it.

August 14, 10 A.M.: Run around the island in charge of Capt. H. W. Robinson. The men are not expected to run, they will wheel; we use the term only in its conventional form. Sailing on the bay wherein the toothsome bluefish doth sport himself, and wherefrom many are taken, though the big ones escape. Note, a lemon is good for sea-sickness. 3 P.M.: coasting match on Hebron avenue, to see whom gravitation most doth favor, to be followed by a five-mile race, around by the New York pier and skyward, past the lighthouse. Committee, Abbot Bassett, Paul Hassenfader, C. E. Whitten. 8 P.M., ball at the Casino. Here young men and glad maidens will thread the mazes of the merry dance, always provided they pay the small admission fee charged for this event only. Committee, Carle P. Cubberly, Geo. W. Smith.

August 15, 10 A.M.: Parade, followed as usual by the picture. The committee has picked your place for the view. There will be a band of music at the head and many divisions to follow. Chief Marshal, Chief Consul Robinson. 3 P.M., races which will be announced later. We shall have no long races but a good many short ones. Committee, Geo. A. Perkins, Will S. Atwell, Frank L. Wing. 8 P.M., a grand torchlight procession. We have tried lantern parades and found them to be a snare and a delusion. We want to illumine the island and have not our lights extinguished. We hope to see the wheelmen in gay costumes, in white dominoes, or in such respectable dress as their fancy may dictate, and we shall look for a display such as was never seen before. Committee in charge, Sterling Elliott, W. W. Griffin, A. C. Copeland.

Transportation and hotel rates announced later. Committee on Transportation, J. B. Seward; committee on hotels, Geo. W. Smith.

Provost Marshal to woo the graces of sweet peace and to wage bitter war against hoodlumism, Sterling Elliott. He will be armed with a club of wood to be selected by himself, and will have power to appoint deputies. The Provost Marshal and his guard will be backed by all the power possessed by the League, and woe be to him who regardeth not their command. This guard we have never had before, but this year we expect visitors from New York. The guard will precede, as doth the burly policeman, every thing in the way of a procession.

Prizes will be given for every event. These will be announced later.

The General committee appoints its members ex-officiis members of every committee.

The committee will be glad to receive hints regarding other sports. We can crowd in a few more.

ARTHUR W. ROBINSON, Chairman.
GEO. A. PERKINS,
ABBOT BASSETT,
Subordinate members.

Racing Board.

The charges against P. J. Berlo of South Boston, Mass., are hereby dismissed and the suspension removed.

C. J. Appel of Rochester, New York, is hereby declared to have forfeited his amateur status by violation of clause "a" and "b" of the amateur rule. Amateurs are warned against competing with C. J. Appel. This declaration carries with it expulsion from the League.

CHARLES E. RANDALL,
Chicago, June 12, 1891. Chairman Racing Board.

Missouri Division.

To St. Louis members:

We have tried hard to have the bridge rate of fifteen cents reduced to five cents to wheelmen going to and from business in East St. Louis, and on pleasure trips to the country beyond. The following letter from Manager Jennings explains itself and it is another case of a few imbecile wheelmen doing the damage which affects the pleasurable riding of hundreds.

Fraternally yours, ROBT. HOLM, C. C.
St. Louis, June 12, 1891.

Mr. Robert Holm, 908 LaSalle St., St. Louis, Mo.:

Dear Sir: I have your favor of the 9th, regarding rates to wheelmen using the bridge between St. Louis and East St. Louis. You are correct in saying that the tariff was formerly five cents; it is now fifteen cents. We were compelled about two years ago to make this change in order to stop serious abuses to which we were subjected by wheelmen. They used to come in sets of from six to ten towards evening, paid five cents each, and made the smooth roadway of the bridge a race course, turning around when approaching the end, 250 for five cents each practically monopolizing the bridge for about an hour or more. We had accidents from horses taking fright, and I recall two which cost us a good deal of money. The fifteen cent rate was therefore adopted, not as a matter of revenue, but to protect us against this nuisance.

Wheelmen who have regular business between St. Louis and East St. Louis, and go and come daily, can get monthly tickets for $3.00, which is practically five cents per trip. There may be isolated cases of wheelmen making single trips on business for which they have to pay fifteen cents, but as we are unable to discriminate between those who go on business and those who go for pleasure, we feel compelled to maintain this rate. Yours truly,

WM. JENNINGS, President.

Missouri Division Championships.

The following State championships will be run at the Missouri Division meet, Carthage, Mo., July 3d and 4th:

One-mile ordinary.
Ten-mile ordinary.
One-mile safety.
Three-mile safety.

GEO. M. WILDER,
June 10, 1891. Chairman State Racing Board.

Renew—Missouri Division—Renew.

To Members:

The renewal season will soon close, and up to date but a scant third of the members of this Division have renewed their membership. This is not as it should be, and I therefore urgently request members who have not renewed to date to give this matter *immediate attention*. Never has the League worked so hard for the cause as this year and never were the advantages of L. A. W. members more apparent than now. Have you not received in your weekly paper alone more than you ever paid for membership in the League? Don't let that paltry dollar stand in the way of your renewal. He who fails to renew will sorely regret it. Every dollar that is paid is spent for your benefit, and no member can afford *not* to renew. Fraternally yours,

ROBT. HOLM, C. C.
St Louis, June 12, 1891.

Pennsylvania Division.

To the Pennsylvania Division:

The temporary restriction placed upon our use of the north side of Girard avenue between the Pennsylvania railroad bridge and Elm avenue, has been removed. I earnestly urge members of this Division and all wheelmen, to respect to the letter the rule which requires wheelmen to ride singly and slowly upon this part of the park. Our right to its use has been jeopardized by the foolish and almost criminal carelessness on the part of some riders.

SAMUEL A. BOYLE,
Philadelphia, June 9, 1891. Chief Consul.

Pennsylvania Division.

To the Pennsylvania Division:

Numerous complaints have been made to me of the ungentlemanly and in some cases ruffianly conduct of wheelmen in Fairmount Park. I desire to give notice that if this state of affairs should continue, I shall request the Park Commission to permit only those wheelmen to enter the park who are members of the League, and who may in that way to some extent be controlled by our organization. As it is, the League members share the onus and dishonor which attach to this kind of conduct and I propose to protect, if I shall be able to persuade the Commission to accede to my views, the Pennsylvania Division in the generous and ample use of the park which we now enjoy.

SAMUEL A. BOYLE, Chief Consul.
Philadelphia, June 9, 1891.

Pennsylvania Division.

The meeting of the Division authorized by our constitution to be held in June, is hereby postponed to a day during the meet at Hagerstown, Md., to be determined by the Chief Consul or Vice Consul at that place. Notice will be given during the meet at League headquarters in Hagerstown, Md. SAMUEL A. BOYLE,
Philadelphia, June 13, 1891. Chief Consul.

Ohio Division, Attention!

Your Committee on Constitution and By-Laws will meet at Park Hotel, Columbus, Ohio, on Sunday, July 12th, for the purpose of revising the By-Laws. Any member having alterations or additions to suggest will confer a favor by forwarding them to the committee as early as possible. The work of the committee will be greatly facilitated by so doing as well as the work of the convention.

A. E. MERGENTHALER,
Fostoria, June 4, 1891. Chairman.

Ohio Hotel.

Pomeroy, Grand Dilcher. Day, $2.00; meals or lodging, 50 cents each. Fraternally,

WM. D. KEMPTON,
Cincinnati, June 8, 1891. Sec.-Treas.

Ohio Membership.

Thirty-four new members during the second week in June gives us 1572 provided all the old ones renew. We will only need 428 more to reach the coveted 2000. Can't we get that many by the time of the State meet? That number may seem large to some, but it is only 67 more than we have received since April 1. Suppose you make a little extra effort. Fraternally,

M. A. HIGH, Chief Consul.

Ohio Consuls.

Newark—H. J. Hoover in place of A. E. Turner, resigned.
Wellsville—E. S. Kelley.

WILLIAM D. KEMPTON, Sec.-Treas.

Kentucky Division.

At the regular meeting of the Independent Cyclers of Louisville, held Monday night, June 8th, Mr. W. E. Castle, president of the club, was indorsed for Chief Consul for the coming year. Mr. Castle, we believe, is fully able and competent to fulfill the duttes of the office in an intelligent and business-like manner, and if elected will undoubtedly make a good presiding officer. Your favorable consideration is most respectfully solicited.

INDEPENDENT CYCLERS,
B. Humphreys, Secretary.

Kentucky Division Tailors.

The Plymouth Rock Pants Company, Fourth avenue near Market, Louisville, has been selected as the official uniform tailors for Kentucky Division. This company has exclusive control of the L. A. W. cloth in this State, and members desiring uniforms will do well to communicate with them. The Company will shortly establish a branch in Lexington where Central Kentucky riders may be accommodated. A special man to take measures will be sent out where parties of eight or ten order together. For single orders, self-measurement blanks will be mailed. The cost of the uniform is to be as follows: coat, $7.50, knickerbocker breeches, $4.75; cap, $1.25; stockings, $1.00; coat and breeches together, $12.25. The company has signed the contract as printed in the BULLETIN four weeks ago.

A. J. LAMB, Chief Consul.
G. E. JOHNSON, Sec.-Treas.

June 26—Kentucky Division—June 27.

The Executive Committee has matters well arranged now for the meet in Louisville, June 26 and 27, and wheelmen who contemplate being present can rest assured that they will be well taken care of.

The programme may be altered slightly, so as to have the parade Friday afternoon. The races Friday night will begin at 8 o'clock. Saturday morning the business meeting of the Division will be held at the club house of the Louisville Cycle Club, 716 Second street, where all visitors are requested to report on arrival in town. The order of business will be Roll Call, Report of Chief Consul, Report of Secretary-Treasurer, Report of Committees, Unfinished Business, Miscellaneous and New Business, Nominations, Adjournment. This order may be changed at the discretion of the presiding officer.

After the business meeting, a short run about town will be made, then dinner, and then the races at 2 o'clock.

Saturday night, the Committee on Entertainment will have a supper or banquet for the visitors. At midnight, those who desire to go to Mammoth Cave will leave over the Louisville and Nashville Railroad. The return will be Monday morning about 12 o'clock. A tour through the Blue Grass country will follow.

From present indications the attendance of outside wheelmen will not be less than 500, but all can be taken care of.

As stated, the Division headquarters will be at the Louisville Cycle Club house, this club having extended the invitation at the Richmond meet last year, but both the clubs will keep open house, and wheelmen will be made welcome by the Independent Cyclers, Walnut, near Fourth street, as well as by their older brethren of the Louisville Club.

G. E. JOHNSON, Sec.-Treas.

Connecticut.

Detroit transportation, Special committee:
Frank H. Crygier, chairman; Henry Goodman, Lewis C. Grover, all of Hartford.

ARTHUR ALLEN DEAN,
Chief Consul.

Connecticut to Detroit.

The special committee on transportation have made the following arrangements for those wishing to attend the National L. A. W. Meet, at Detroit, July 16, 17, and 18. The party will leave Springfield at 9.43 P. M., on Tuesday, July 13th, via B. & A., N. Y. C. & H. R. R. R., and Michigan Central, arriving at Detroit the following day at 8.45 P. M. Round trip tickets will be sold at the following rates: From Bridgeport, $22.40; from New Haven, $21.90; from Meriden, $21.35; from Hartford, $20.80; from Springfield, $20.00. The N. Y. N. H. & H. R. R. will carry the wheels of holders of excursion tickets to and from Springfield free, and the B. & A. R. R. will provide a special baggage car from Springfield to Detroit and and return for the free transportation of wheels. A special Wagner sleeping car has been chartered by the committee, the charges for which will be $3.50 per person for round trip. At a meeting of the Board of Officers held May 7, an appropriation of $50 was made for the purpose of procuring badges and defraying other necessary expenses of the trip. As a large number have already signified their intention of attending the meet, the committee requests all persons who intend going to send their names to the chairman as soon as possible in order to secure sleeping-car accommodations, Further information regarding hotel rates, etc., will be given later.

FRANK H. CRYGIER,
48 State St., Hartford, Conn.
Chairman Special Transportation Com.
June 13, 1891.

Connecticut.

To the Connecticut Division League of American Wheelmen:

In conformity to vote of annual meeting of the Division held in New Haven, June 8th, I herewith present in the soul of wit my report, in lieu of the more highly garnished and lengthy document, which perhaps lacked the soul, was escaped by the meeting and is now escaped by the printer.

Features:

1—Board of Officers vote $200 for special work in recruiting.

2—Prizes of gold L. A. W. badges offered. Plan great success. Copied by other Divisions; "Imitation is flattery." Great increase in membership.

2—Board of Officers vote $75 to help out L. A. W. Highway Improvement Committee and the organization treasury in capturing photographs of mud holes. Plan success. L. A. W. treasury saved.

4—Division Highway Improvement Committee work as reported.

5—Rules Committee frame new Constitution.

6—Rights and Privileges Committee sit on lantern act in Bridgeport. Conclude cyclists must obey law.

7—Racing Committee establish championships.

8—Conference to report on reward for capture of thief of Connecticut members' wheels appointed. Will report at next B. O. meeting, July 3d. Hope you will be pleased.

9—Contract for uniforms made with P. R. P. Co. of Boston. If not lived up to, let me know.

10—Directory of Connecticut Division issued; 36 pages, said to contain much useful information; 2,500 copies. Send for one. Cost $75.

11—Local Consuls very important; doing good work. Congratulations; 92 now on list.

12—Harmony prevails, prosperity perches on our nutmeg and the temple of Janus has its gates ajar.

Recommendations:

1—Larger inducements to L. A. W. clubs.

2—Distribution of work among representatives.

3—Compilation of book of local cycling districts which shall deal in narrative style concerning objects of interest, routes, etc.

4—Taking of census as recommended by President Dunn at Washington.

5—All hands hustle in new members.

With many and my most profound thank yous for the hearty co-operation in Division work to me extended by the general membership, by local consuls, and by the more immediately executive body—the Board of Officers, I submit above report. ARTHUR ALLEN DEAN, Chief Consul.

Minnesota Division Tailor.

A contract has been made with Mr. H. S. Kelsey, No. 40 Fourth St., South Minneapolis, to furnish suits of the League cloth and regulation pattern at the following prices: Coat $8.00, pants $5.00. He will also sell the cloth at $2.25 per yard, and buttons at 5 cents for large, 3 cents for small. Transportation to points outside of Minneapolis to be paid by the purchaser. T. M. SLOSSON,
Chief Consul.

Minneapolis, June 10, 1891.

New York State Division.—Stop Thief.—$25.00 Reward.

Stolen from in front of the club house of the Lockport Wheelmen, Lockport, N. Y., about eight o'clock in the evening of June 4th, a full nickelled, American Light Rambler, 1890 pattern, No. 1605; short mud guard over rear wheel; machine used very little. Owner, Harry Van Horn, No. 67 Main st., Lockport, N. Y. A reward of $25.00 is hereby offered for evidence that will lead to the conviction of the thief and the recovery of the above described wheel.

Consuls are requested to have copies of the above notice posted conspicuously in every Bicycle Agency and Police Station throughout the State.

Members are requested to keep a careful lookout for this machine, and upon discovery to communicate at once with the undersigned, and Mr. Walter Q. Jenkins, Division attorney, No. 14 East Eagle street, Buffalo, N. Y. Executive committee, New York State Division. W. S. BULL,
Buffalo, June 13, 1891. Chief Consul.

Transportation.

Albert Mott, Esq., Chairman:

Dear Sir—Free transportation of wheels over Atlantic Coast Line Railroad.

Find inclosed letter from "Atlantic Coast Line Railroad regarding transportation of wheels. Please add this road to your list. Yours truly,

Savannah, Ga., June 5th, 1891. T. S. CLAY.

Mr. Thomas Savage Clay, P. O. Box "B," Savannah, Ga.

Dear Sir—Replying to yours of the 4th. Below I beg to give you rule in regard to transportation of bicycles over this line:

"Bicyeles at owner's risk may be checked if plainly tagged with the address and destination corresponding with the ticket. When these conditions are not complied with bicycles must be turned over to the freight department or express company for shipment." Yours truly,

H. M. EMERSON, A. G. P. A.

Wilmington, N. C., May 11th, 1891.

New League Clubs.

The following club has qualified as League club and filed the certificate required in the office of the Secretary:

345—Mt. Washington Bicycle Club, So. Boston, Mass.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an Initiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M. on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

L. A. W. Renewal Blank, 1891.

Fill out this blank, enclose $1 to pay your dues to April 30, 1892, and send to ABBOT BASSETT, Box 5267, Boston, Mass.

Don't send soiled bills. New bills are safer in the mails. A dollar bill is as safe as a postal note.

Don't Forget to send your Number.

Don't send checks for $1.

Write very plainly—PRINTING PREFERRED.

Stamps of a denomination above two cents will not be received.

If you live in one State and have your mail sent to another, state the fact that you may be located with the Division in which your home is.

If you desire your address changed, you must make the request on another sheet than this. Put new address on blank.

Ticket holders, 25 cts.; with name stamped, 50 cts.

Write nothing above this line.

*Number*_____

Name,_____

Street and Number or P. O. Box,_____

City,_____

State,_____

FOR SALE BY

THE LEADING DEALERS

From Maine to California.

WE DIDN'T DO IT!

And we won't promise to refrain from a repetition of said delinquencies. 'CAUSE WHY? WE are NOT GUILTY.

And we wish it understood, once for all, in full reply to many letters of inquiry, that we DID NOT build the Leaning Tower of Pisa, we had no finger in the erection of the old Mill at Newport; Bunker Hill Monument was finished without our trying to spring any information or plans of previous designs on the Commissioners.

The established receipe for English Plum Pudding is no infringement on any formula of ours. We do not license makers of German sausage to use any confined styles of overcoatings, which are exclusively our property. The grass hopper weathervane on Faneuil Hall is NOT a BASE IMITATION of any particular style of hoppergrasses we were building 'steenty years ago.

We simply rise to explain that WE BUILD "BRONCHO" SAFETY BIKES. That we shall continue to build and sell them as long as the present demand continues, the assertions of the N.B. class of worshipers to the contrary, nothwithstanding.

If you want to know all the inside facts, write for CAT. and Testimonial book, AT ONCE.

ADDRESS ALWAYS,

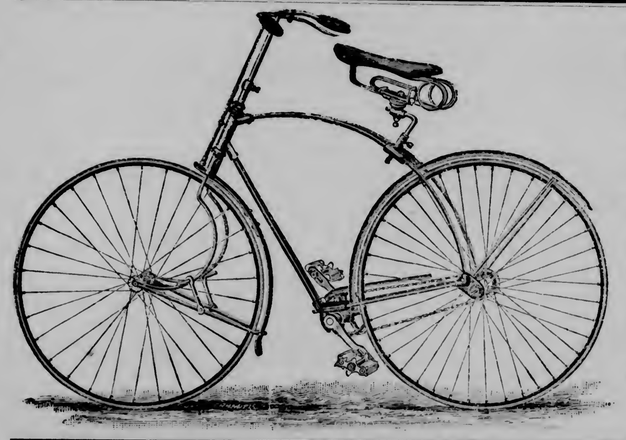
The Billings & Spencer Co., Hartford, Conn., U. S. A.

Manufacturers of the Wheelman's Favorite, Billings' Patent Bicycle Wrenches, 4 and 5 inches long when closed. Well and favorably known on two continents.

Drop forged o bar steel and finished in a thorough manner and case hardened. Small in size but giants in strength. Warranted a first-class tool in every respect.

For sale y a Cycle manufacturers and dealers.



WHAT IS HIGH WATER MARK?

Actual shipments of the **Giant Safety Bicycles** so far this year have been as follows: January, 793; February 852; March, 1112; April, 2001; May, 2256; Total, **7014.** Above are facts and demonstrate conclusively to the practical mind the widespread popularity of these wheels. We are now working overtime and producing about 450 wheels per week. Pretty good for a factory not yet two years old, is it not?

New edition of Catalogue now being mailed.

H. A. LOZIER & CO., - - Cleveland, Ohio.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100.

Address **Wm. Heyny, Jr.,** 301 Sixth St., N. Y. City.

"QUADRANT" CYCLES

ARE RENOWNED FOR

ORIGINALITY.

We make our own designs and work our own patents, constantly incorporating in our machines about 12 or 14 of our own inventions.

EXCELLENCE.

In these days when the commonest rubbish is advertised as "the best, the lightest, the swiftest," etc., and even sold as such, we can only ask intending buyers to send for our 1891 catalogue, and read the 16 pages of unsolicited testimonials received during the past season.

TRUSTWORTHINESS.

"A prominent feature of their exhit (Philadelphia Exhibition) is a 'Quadrant' which was caught between two cable cars on Columbia Ave. This machine is bent and twisted in every direction, but not a thing is broken."—*Bicycling World*, 6 March, 1891

"The machine is twisted out of all resemblance to a bicycle, but so far as can be seen not a single break occurred."—*Referee*, 6 March, 1891.

SAFETIES No. 17 and No. 20, with Tangent Spokes and Solid Cushion, and Pneumatic Tyres, are the leading lines of the season.

SPECIAL NOTICE TO THE TRADE.

The Manchester Cycle Company, Limited,

OF MANCHESTER, ENGLAND.

Have much pleasure in announcing that they have a large stock of the celebrated **"Irwell Safety"** on hand, ready for immediate delivery. Material and workmanship of the best. Guaranteed for twelve months against imperfections of any kind. The **"Irwell"** is the machine so popular in England for touring, on account of its strength, combined with lightness.

The Manchester Cycle Co., Ltd., are very desirous of introducing these wheels into every section of the country, and to do this quickly, and save correspondence, this announcement is made:

The price of the **"Irwell" is *$100*,** the discount to the trade is **25 per cent.** The Company want to sell through the trade only, and therefore will not supply any at retail in any town after an agent is appointed. *However*, until an agent is appointed, sample wheels will be furnished to any applicant at ***$75*** net, this being the lowest wholesale price. The machines will be crated, and are fitted with Garford saddle, tool-bag, oiler, wrench and bell. Built of Credenda steel tube, drop forgings and ball bearings all over.

After an Agent is appointed in any town, *no more* wheels will be *Retailed* at *Wholesale* prices.

Wheels sent C. O. D., with privilege of examination, on receipt of $10. Guaranteed Superior to most, and equal to any in material, workmanship and finish. Address,

The Manchester Cycle Co., Ltd., of Manchester, England. || American Office, 101 NORTH SEVENTH ST., Philadelphia, Pa., U. S. A.

THE NEW COLOR LEAGUE CLOTH IS NOW READY.

Samples of same can be obtained on application to

BROWNING, KING & CO., - New York.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them.

The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced. Send for descriptive circular.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.

Made in sizes suited to different machines.

Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c. With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere. [Mention this paper.

Descriptive circular free.

Erie Knitting Mills,

Erie, Pa.

Are still making the very best goods for cyclers. We know this, and others are finding it out.

This is a copy of a letter just received from the champion road rider of the United States:

ERIE KNITTING MILLS—
I cheerfully recommend your knit goods for the use of bicyclers, especially hard road-riders, as from my experience with them I have found them well-fitting, elastic and durable as iron.
Yours very truly,
WM. VAN WAGONER.

FRANK FAIRBAIRN, 513 WEST 11TH ST., ERIE, PA.

To Athletes, Cyclists, Baseballists, Horse-back Riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use, Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

CUSHIONS AGAIN.

We stated last week that the Columbia Cushion Tire is the best on the market. Additional testimony and endorsements of that statement lead us to repeat it.

The call for cushion tired machines is steadily growing, and no better has yet been found than the Columbia.

The reason is apparent. The utmost care is exercised in their construction, and all known means are used to obviate the imperfections possible in tire manufacture Then every tire is thoroughly inspected and tested not once, or twice, but several times, before it is allowed to be cemented to the wheel.

Step in and inspect these tires, and satisfy yourself as to "look and feel," and you will not regret it.

Volume XXIII. Number 9. BOSTON, 26 JUNE, 1891 $1.00 a Year. 5 cents a copy.

THE GREAT CENTURY RUN.

102 Miles—Newark to Philadelphia. 525 Riders Started, 460 Came Through. 160 Victors Finished Without a Mishap.

The great Century Run is over, and another feather has been added to our cap. This was not a race, but a hard road test that is of really more importance to the ordinary buyer of wheels than a dozen races. Victors win a great many races. But the rank and file are not racers; they want a bicycle that not only runs easily, but stands the test of hard, every-day usage as well—and Victors never fail on this test.

The thoughtless observer may marvel that out of 460 wheels to finish in the Century Run, more than one-third were Victors, when probably over fifty makers were represented. There are many reasons for so many Victors. The stragglers and smashes were of other makes. Victors are the most popular wheels, and with our Victor (penalized) Cushion Tire and Victor Spring Fork a combination is formed which challenges the world.

Our latest success has caused another stampede for Victors. Riders of other makes are offering their new '91 machines and from twenty to fifty dollars in cash for Victors. Our Philadelphia representatives, especially, are over-run with exchange offers. A small fraction only of the requests can be attended to.

The lesson of the Century Run carries its own moral: Buy Victors first and avoid the necessity of a change. You can't afford to buy a cheap bicycle if you want to enjoy sport. You must ride a Victor.

OVERMAN WHEEL CO.,

CHICOPEE FALLS, MASS.

BOSTON. WASHINGTON. DENVER. SAN FRANCISCO.

SOME INFORMATION.

We are sometimes asked why we presume to charge $100 for a small "two-wheeled bicycle," when for the same money they can buy "an elegant large four-wheeled buggy weighing several times as much."

It is an unfortunate thing that it should be necessary for us to answer such a question. With the establishment of so many technical schools and the general broadening tendency of mankind, there will come a time when these simple everyday truths will be more contagious.

Of course you can buy a buggy with five wheels (it seems not to be generally known that every buggy has also a "fifth wheel.") You can get a very good (no top) buggy for a hundred dollars, but you will notice that the men who are credited with having the most sagacity in other matters invariably buy buggies that cost more money.

A few years ago there were top buggies made that were sold to whoever would buy them at forty dollars each, or three for a hundred dollars, and at the same time there were plenty of buyers who were paying $300, $400, and even more, for buggies with the same number of wheels, the same number of other parts, and at a distance, the same thing. Why is this? We don't ask the question to have you answer it, because if you can answer it this is not for you, and the fellows we are driving at can't answer it.

You can buy two hundred loads of gravel, delivered, for $100. You can get 100 loads of loam, and in some localities you can even get 100 acres of land for the same money. We have known an instance where a member of a state legislature was bought for $100, though this was a small specimen and couldn't have changed hands again for fifty cents.

Hickory TRADE MARK

Imagine a man who should complain of a dealer's charging him $100 for a little gold watch and he should say, "Why, that is exorbitant, I can buy one of those

ELLIOTT HICKORY BICYCLES

for $100, and it is much larger and contains more parts." How would such an argument strike you?

We have just received a letter from a party who, judging by the post mark, lives in Olean, N. Y. He says: "I have got your catalogue and don't know but your wheel is all right, except the price—I think that to be highway robbery. I have just bought a milk wagon, all complete, for $85; I would like the job of making your bicycle for $25."

When this enterprising Oleander has to tumble out of bed at two o'clock A. M. and drive all over Cataraugus County with a load of cream made of corn starch and skim milk, that he must sell at 32 cents a pint before it is light enough for people to see the difference, there can be no doubt that he would like to build Hickory Bicycles or anything else that could be done after sunrise. We admire both his frankness in saying that he would *like to* build them and the modesty that prevents his claiming that he *could* do it.

Another man writes "that he is a carriage maker and he *knows* that hickory wheels can be made very much cheaper than steel ones." *We* hardly know whether this is true or not; either one *might* be made so cheaply that a chattel mortgage wouldn't hold it.

Now, gentle reader, please incline your ear for one moment and hear a statement which we make for the purpose of proving it, and not merely to juggle with words. We want you to understand it as meaning something *definite*.

There is no carriage maker, or carriage wheel maker on the earth, who, with his present facilities, or his present knowledge of the art, can make for you, at *any* price, one single wheel equal to those used on our $100 safety. The best workmanship used in the finest carriages would not do for the Hickory Safety, and the best carriage wheel workmen are of no use to us, even with *our* facilities, until they have learned our methods.

Compare the thickness of the spokes, rim and hub used in the lightest racing sulkey with those in the Hickory and see what you think.

You will notice that the different members of our wheels are not one-half as large as those used in "track wagons."

In the making of such wheels something beside whiskers is required. We hear rumors that others are getting ready to manufacture bicycle wheels of wood. We already know of three such attempts. Other machines than ours will, no doubt, be offered on the market. When that time comes we sincerely hope they may be *well made* and sold for what they *are, strictly on their* own *merits*.

We guarantee the wheels *we* make, and we hardly need say that you should not hold us responsible for the work of others.

You will find our trade mark (as above) in gold leaf on the rear guard of each machine made by us after this date.

Elliott Hickory Cycle Co.,
Newton, Mass.

P. S.—We are appointing new agents for the Hickory all the time. Are you in the line?

THE STRONGEST AND LIGHTEST IS THE BEST.

THE SYLPH SPRING FRAME SAFETY.

EVERY wheelman knows the lighter a wheel is built, the better, provided it carries the load all right and is easy running. The SYLPH combines these features and yet has the advantages of the Spring Frame which differs widely from all other Spring Frames, in being trussed, and consisting of three separate and distinct parts; one part carrying the front wheel, another the rear, and the third the rider. Other Spring Frames consist of two parts, thus leaving the saddle rigidly connected with either the front or rear wheel. The arrangement of the springs is such on the Sylph that they are less liable to breakage, as they are held firmly to place in casings, and cannot spread out or throw sideways. It is graceful in appearance, while the workmanship and material used cannot be excelled. If you want the best buy the SYLPH and not be disappointed. Full descriptive catalogue sent free on application. Liberal discounts to dealers and agents

Rouse-Duryea Cycle Co., 9 G St., Peoria, Ill.

NEW ENGLAND BICYCLE DEALERS.

LACTART

ACID OF MILK.

A REFRESHING DRINK WITH WATER and SUGAR.

Call for Orange or Raspberry Lactart at the Soda Fountains.

Benson, of Corey Hill fame, says:

AVERY LACTART CO., Boston.

Gentlemen—"For several seasons I have used your Lactart and found it very satisfactory, as a quencher of thirst." Respectfully,

A. P. BENSON, Newton Club.

THE UNION WINS

THE PULLMAN.

The editor of the "Howling Witness" has again gone into hysterics over his success as a "Union" agent. He says: "The 'Union' has pulled me through when all seemed dark as blueberry pie. Our miserable contemporary, the 'Deadhead Dagger,' went under last week; he posed as agent for the —— & ——, and also sold fly papers to his customers; we have it on good authority that his sales for the season amount to one spoke.. We reprint his valedictory and trust that his end may be painless. It is as follows: 'We are pleased to inform our few and long suffering readers that we decide to vamoose, and that by the time this edition of 20 copies reaches their hands the 'Deadhead Dagger' will have ceased to exist. We attribute failure firstly to the lack of brains, and secondly to the want of money. During the period through which the 'Dagger' has passed, our sanctum has been the scene of continual disorder, and our skull, which was once sound as a prize-fighters, now consists chiefly of two kinds of court plaster. It has been the aim of public ambition and the corrugated ruffianism of unpaid contributors. We consequently decide to vamoose, and to-night rejoicing in the rich faith which has kept our printer from presenting his bill, under a cloud be-blotched firmanent, while the frogs in Bogg's Marsh trill their midnight carol, we shall sneak along the shadow of the fence to the crossroads and lay lightning tracks for a greener community." The "Witness" continues: "He has got a good start of his creditors, and as he 'borrowed' a 'Union' bicycle on the way it is pretty certain that they won't catch him."

This is a true story; our veracity is never questioned. On track or road, for strength, beauty and speed, they are unsurpassed

EDITORS:

C. W. FOURDRINIER. J. S. DEAN.

Editorial Contributor, F. A. EGAN.

BOSTON, 26 JUNE, 1891.

THE amount and quality of dense ignorance usually shown by the general press on cycling matters, is amusingly illustrated by the following comment made by the Chicago *Tribune* on the Randall affair. The italics are ours and indicate the points so laughably misstated:

* * * "When the original rule G was made, declaring that a man who accepted training expenses forfeited his amateur standing, Mr. Dunn and the committees he acted as chairman of were silent, but the president, nevertheless, paid little regard to the rule *and all members expelled for its violation were by him reinstated.*" * * *

"By him reinstated." Here's richness! Mr. Randall will, no doubt, be extremely edified to learn that it was President Dunn and not the Racing Board which reinstated the racing men.

Here's another and from the same well-posted (?) source:

* * * "By the action of President Dunn in declaring rule G void the controlling power of the L. A. W. was broken, and *Pullman, Irvington-Milburn and other great road races* and track meets were held under any and all rules except the L. A. W."

More succulent richness! ! We have searched the Racing Rules through and through, but cannot find that the L. A. W. ever pretended to control road races, and as for track races we would like the *Tribune* man to cite a single important (or unimportant for that matter) track event this year that has not been run under League rules.

THE New York *World* also makes a botch of it by putting the following words in to the mouth of Mr. Collister:

* * * "He (Collister) was a member of the Racing Board last year under Chairman Davol, and he will fight if any attempt is made to oust him now. He contends that as he was appointed to serve one year he will do it, no matter what President Dunn thinks to the contrary."

Now Mr. Collister is a well-posted League man, and we most sincerely doubt the correctness of the New York *World's* report. As we have before pointed out, the members of committees appointed by the President can also be removed by the President, and further the appointment does not carry with it the impossibility of removal for one year; that's nonsense. In justice to Mr. Collister, we therefore respectfully express our doubts as to his ever having made such a statement as the New York *World* credits him with.

THE New York *World* also knocks its head against the apparent inconsistency of the Constitution, which gives the powers of the President to appoint and remove members of the National Committees and the By-Laws which provide for the bringing of charges against, the hearing and removal of members or officials other than those of the National Committees. In the one case, the Constitution distinctly gives the President power to appoint and remove any member of the committees specified in the Constitution, while the By-Laws apply to the rank and file of the League and officials not under the direct control and appointment of the President.

THE *Sun* of New York joins the great army of blunderers this week in dealing with League matters. Speaking of the road race to be run at Detroit during the National League Meet in July, it says:

* * * "In the face of the attitude the L. A. W. takes toward road racing this announcement (the road race) sounds very strange. In fact, if a road race is permitted to be run off at the national meeting of the League of American Wheelmen, which is the most important gathering of the bicyclists, the prohibitory rule may as well be rescinded at once."

We never knew there was a League rule "prohibiting road racing!" Where is it please, Mr. *Sun* man?

DURING the late famous baccarat trial in London Sir Charles Russell with many a mysterious nod and gesture, remarked to the jury that there was much in the case that did not appear on the surface, and he requested the jury to look beneath and discover what they could not see on the surface. This underhand piece of sharp practice was promptly and peremtorily rebuked by the Chief Justice in his summing up, who charged the jury that all they had to attend to was what had been presented to them on the surface, and they were to confine themselves strictly to facts presented, and not to suppositions and vague matters beneath.

A parallel case is that which we find in the Baltimore *Herald*, which with many portentious nods and winks flings the following on the unsuspecting public:

"The suspicion is gaining ground daily that there are private reasons why the Eastern 'cycling papers refuse to see anything but peace and pleasantness in the ranks of the League, and faith in the statements of those papers is proportionately on the decrease, while the mass of the League members are beginning to awaken to the fact that there is something about the League which is decidedly in need of correction. * *."

Well perhaps there is something about the League that needs "correction." Who knows? Whether it's the kind of correction meant by the author of the above, time only will tell, and perhaps he may be surprised at the direction the correction takes. It is a bit risky to dive *too* deep below the surface for fear of sticking in the mud. "Suspicions" sometimes have a boomerang tendency unless they have foundations. They are also likely to be very similar to a two edged sword and dangerous to daily with. Finally we would suggest that our Baltimore friend does not allow his "suspicions" to carry him too high in the air, because when he falls it might hurt someone. Stick to "surface" facts and don't delve for imaginary mares' nests beneath, for they might turn out to be hornets' nests instead.

THERE is a lull in the excitement over the Racing Board episode. The Board was to have met in New York last Saturday, but owing to the lack of a quorum by the absence of Messrs. Collister and Atwater, it was impossible to do anything. Mr. Atwater, we are sorry to say, was detained by the serious illness of his daughter. Action on Rule G and the permanent reorganization of the Board will have to be deferred for a time therefore. In the mean time we notice that one of our Western contemporaries does not seem to be able to discern the difference between an honorable agreement between the L. A. W. and A. A. U., and a surrender of all rights of the former body to the latter. There are none so blind as those who will not see.

"WHAT will you have to drink?" is perhaps the most common form of greeting between men in America. We do not propose to go into any temperance discussion, because this is not the place for it, and then perhaps the writer is not competent.. With the thermometer doing high kicking away up among the nineties, however, the question of what to drink becomes to wheelmen one of much prominence and worthy of some attention. Of the many ways to become cool, perhaps none is so much adopted as the drenching of our stomach with ice-cold beverages. It is beyond the power of any writer to stop this, no matter how much he may do to prove its danger to health and even life, so we will take an easier course, and write a few words as to the best and least injurious kinds of cold drenchings to use. The name of so-called summer beverages is legion, but they are roughly divisible into three classes. Those that con-

tain alcohol in however small a quantity should be avoided; they may afford temporary relief to the overheated rider, but only by increasing the amount of discomfort later on. Those that contain milk, coffee, or chocolate, are not liable to the same objection as those having alcohol in them; but they, too, have a baneful effect upon the liver, and are therefore under ordinary circumstances to be discarded. The third class of summer beverages is prepared by mixing some acid with aerated water. Druggists give these mixtures all sorts of fancy names, just as they do the commonest kind of an article when it enters into a prescription. That is a part, and a large part, too, of their business; but, laying these names aside, we find that the beverages generally have citric or phosphoric acid as a base. As citric acid is naturally found in lemons and limes, the juice of these fruits, fresh or prepared, is often taken, with the happiest effects, instead of the pure acid, which is comparatively without flavor. Some lime juice, a little syrup, and plenty of aerated water will be found to be as near the perfect summer drink as any that wheelmen can use. A few drops of elixir of vitriol in aerated water is also refreshing, particularly if any tendency to dysentery exists, as is often the case when touring.

IF the foregoing treatise on what to drink does not keep the rider cool, let him follow out the following list of things not to do, and if he does not succeed in being comfortable then, the best thing he can do is to go and secure board in an ice house until winter sets in. Don't scorch. Don't wear linen collars, cuffs, and shirts, while riding. Don't over-eat. Don't debilitate your system with warm baths, but take them as invigoratingly cold as you can. Don't swelter in gas-lit club houses when you can go out for a ride. Don't be afraid of taking cold from draughts, or from thin clothes, provided they are woolen. Don't imagine that riding even in the sun is detrimental. The rider who is active, out of doors, and without hurry, suffers less from the heat than he who is inert.

EXERCISE is the physical duty of every man, woman and child. That a certain amount of exercise is needful for health is one of the few things about which all doctors are agreed, and one of the still fewer things as to which medical teaching is submissively accepted by the non-professional public. Unfortunately, though, intellectual assent no more implies practical performance in the domain of hygiene than in that of morals. It is by those "in populous cities pent," by professional and business men chained to the desk or consulting room, and by women, that exercise is most apt to be neglected. Having seen that doctors agree upon the absolute need of exercise on the part of all those who have, or would secure, health, perhaps it may be well to note also that a larger proportion of them agree upon cycling as the most correct method of securing this needed exercise, and more physicians prove their sincerity in this belief in bicycles by riding them, than they do in all the other forms of exercise combined. The moral of all of this is evident.

WE are in receipt of the official programme of the ninth annual meet of the Canadian Wheelmen's Association. The pamphlet is an exceedingly neat one, and the cover is ornamented with a likeness of the Countess of Aberdeen, patroness of the Hamilton Bicycle Club, the entertainers this year of the Canadian Wheelmen's Association. Glancing through the pages devoted to the good things that are made ready for the entertainment and amusement of those attending the meet, our eye was attracted by the following notice:

"TO SAFETY RIDERS—We desire to call attention to the fact that our programme includes more safety races than has been the custom heretofore, and hope the large and rapidly increasing number of safety riders will appreciate our action."

Turning to the list of events, we find that of the twelve races to be run, just exactly six of them are for the good old ordinary. From this, and the fact that the word "pneumatic" does not once occur in the entire pamphlet, we are inclined to think that our Canadian friends are not as great leaders in matters cycling, as one would think them to be, when their close affiliation to England and things English is considered. We do not want to cast any cold water on the meet, though, for when a club can point to a $15,000 race track and grounds as belonging to it, as the Hamilton Club does, I am convinced that to be entertained by such progressive and possessive hosts as these would indeed be a pleasure.

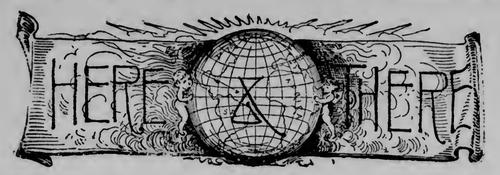
IT is with regret that we notice that the Rt. Rev. Bishop Coxe of Western New York took occasion at the commencement exercises of St. Magaret's School, Buffalo, June 17, to speak directly against cycling as an exercise for women. The report that we have at hand on the subject is brief, and is as follows:

"After telling the girls that their aim in life was not to meet men on an equal footing at the polls he gave bicycles a shaking down. He hoped that none of the graduates present would ever be seen astride a wheel, and said the girls he had seen riding on Delaware avenue looked like old women on a broomstick."

The saving clause in this assault on cycling for ladies is that the objections seemed based on the appearance that ladies cut on the wheel, and is not founded on any hygienic reason. This being so, the opposition is based on so flimsy and correctible grounds that were it not for the fact of the high position of the Rev. Bishop it would not be worth noticing. Utterances and opinions from such a high source, even on trivial subjects, carries more weight with it than had it emanated from a less distinguished person. We therefore protest against the words of condemnation uttered by Bishop Coxe, whose opposition comes from the fact that his sense of the æsthetic has received a shock, and we are of the opinion that his words will have no other effect than to make the subjects of his criticisms affect better form in riding, and encourage the teachers of cycling to be more careful in correcting the bad and awkward habits of riding that many ladies seem to contract.

NOT only have we editorially from time to time called attention to the evident tendency of lady cyclers to ride with the saddle too low, the handle bars too high and the use of the hollow of the foot instead of the ball on the pedals, but many of our correspondents have ably seconded our efforts to correct these evils. We can call to mind many ladies who ride in perfect form, saddle well up so that the toe is slightly pointed down at the lowest point of pedals, handle bar adjusted so that the hands come a little below the hips, cranks not too long and body erect. We imagine the Rev. Bishop in likening a lady on a bicycle to an "old woman on a broom stick" must have seen those who persist in riding with low saddle, high handle bars and long cranks, and we do not blame him for being a trifle shocked at the effect. Lack of knowledge in the "arts" of riding no doubt led Bishop Coxe to express his wholesale condemnation of cycling for women; he did not appreciate the fact that the fault he saw was correctible, and that a woman riding in "proper form" was a thing of beauty and a veritable joy forever. If some of our lady riders could only see how terribly awkward they look all doubled up, they would take our own outspoken advice and Bishop Coxe's criticisms as a suggestion to learn to ride in good form. If Bishop Coxe had said "learn to ride in good form and gracefully, *or give it up*," he would have struck nearer the keynote.

THE Buffalo *Commercial Advertiser* has this to say on Bishop Coxe's fulminations against women riding the cycle:



The women who use bicycles have in almost every case shrunk from the experiment for a long time time in fear of the comments of conservative folk like the Bishop. It is a question for him to decide whether it is entirely Christian-like to make the daily toil of hard-working women more burdensome by robbing them of a wholesome, cheering, and entirely innocent recreation, by assuming that a form of locomotion is necessarily unwomanly because it was not familiar to him in his boyhood and has not yet very generally been adopted among the more fashionable persons of his acquaintance, who have at their command less economical methods of enjoying their pleasure.

THE "cycling authority" comes forth and announces (on "authority" we suppose) that a meeting of the national assembly will be called for at the Detroit meeting next month. We have before suggested that the "authority" better post itself before making statements not founded on possibility and thus avoid making blunders. If the "authority" will consult Article V., Section 2, it will observe that thirty days' notice is required to call a special meeting of the national assembly. Hence the impossibility of holding such a meeting at Detroit, July 16, 17, 18. "The anthority" is not a safe one to rely on.

WE are glad to notice that the idea of admitting ladies as club members is growing in popularity. The Fort Madison (Wis.) Cycle Club admitted twelve lady members the other day. The admission of ladies to clubs cannot but act as a balance wheel to the sometimes over exuberance of the frisky youths, an exuberance really harmless; but at the same time a little toning down in many cases would do no injury to the sport.

THE announcement that Springfield is to have a tournament, September 10 and 11, on the same grand scale of yore, will be hailed with delight by all. The famous track is to be put in its old record breaking shape, and the value of prizes to be offered will aggregate $3500. We print in another column full particulars to date.

"Two of Bridgeport's (Ct.) lady bicyclists, Mrs. T. F. Hall and Miss Nellie Fox, accompanied by T. F. Hall, accomplished, Wednesday, that which might be called a wonderful test of endurance. They rode from Bridgeport to South Norwalk and return. During the trip they witnessed a horse race, a runaway, a railroad accident, and the Buckley-Jennings wedding at Southport. The ladies arrived home at 8 o'clock P.M., none the worse for their long ride."—*Exchange.*

NASHVILLE, TENN., is to have an eighteen mile road race on July 10.

JOHN W. OVERSTREET holds the State record for Kentucky. He rode 117 miles in 12 hours recently.

ON Bunker Hill day, June 17, the Rover Cycling Club of Charlestown kept open house, and a large number of visiting wheelmen enjoyed their hospitality.

MR. POORMAN of Cincinnati has quite a number of entries for his road race in July 4th. Van Sicklen is one of them, but that does not seem to frighten Al Arnot.

BUFFALO has a cycling physician who has a druggist's poison label with skull and cross bones pasted on the rear mud guard. When asked why he replied: "To keep it from being taken."

GEO. S. MACKEY and J. Huffner, Detroit, and of the hotel committee, left on the tour to Buffalo with pneumatic tired safeties, they will return via Erie, Cleveland, and Toledo, and expect to have a very pleasant tour all around. Trudell, another member of the D. W., accompanies them.

THE premium list of the Porkopolis tournament to be held in Cincinnati on July 4th, is much more extensive and elaborate than the one at the State meet held last year. Entries are coming in rapidly, and those who fail to witness these races deserve to die in oblivion.

THE Boston Interclub Road Racing Association will hold its first road race, starting from the Faneuil House, Brighton, to-morrow, June 27, at three P. M. The entries are coming in fast, and a good field is expected to start.

THE Houston (Tex.) bicycle track is built of concreted shells and on scientific principles. It is claimed that it is "the finest and fastest track in the world." Whether investigation would make good the rather broad claim we cannot say, but we do know that shells make the finest surface for traction known. We therefore think there may be "something" in the Houston Cyclers' claim.

INDIANA wheelmen will look towards Elkhart on July 4, and they will also journey thence if they desire to enjoy a good day's sport. It is expected that 1000 wheelmen will be present, and the ladies, "bless them," are especially invited to be present.

NEXT Friday and Saturday is the Texas Division meet at Houston. The first day will be spent in the business meeting, seeing Houston awheel and lantern parade. Second day, street parade, picnic lunch at Magnolia Park, and races in the afternoon.

HARTFORD—Our readers should not forget the midsummer tournament of the Columbia Cycle Club of Hartford on July 4. It will be one of the events of the summer season.

THE "forty-niners" of cycling will remember Harry Etherington in connection with cycling. He for years was the proprietor of *Wheeling*, and in the early days of cycling he brought over a party from England, which did much to rouse public interest in the sport here. Mr. Etherington has for the past few years been in Australia, and he has become the possessor of a tract of land which has turned out to contain rich gold deposits. We sincerely hope that the expectations of Mr. Etherington and the stockholders of the company he has formed will find the field as red in actual working as it indicates in the preliminary tests.

PRESIDENT GRIFFITH, of Detroit, has completed arrangements with the Canadian custom officers so that wheelmen coming to the annual meet will have little trouble to get their wheels through. Particular pains should be taken to report at both ends giving name and number of wheel ridden. Some of the questions asked by custom house officers may be thought impudent but their government requires it and by complying with the rules all trouble will be avoided. Remember that common courtesy is a coin that passes in any realm.

HELLO, doctors, where are you? The Doctors' Wheel Club of Buffalo is now quietly reposing in a Rip Van Winkle sleep, and perhaps dreaming of the once happy times they enjoyed last summer. It would be a good thing for their captain to administer to them a tonic stimulant. The question arises, are they tired of the wheel, or what? Can anyone tell?

B. J. HOLCOMBE, one of the most popular members of the Detroit Wheelmen, was married last Tuesday evening, the bride being Miss Sophie C. Orth, a very estimable young lady.

THE Roamers' Wheel Club of Buffalo having flourished like the proverbial green bay tree, and the family increased to such an extent that the present roof is not broad enough to protect it from the storms and sunshine, so they have very wisely decided to make a move in the right direction into more commodious quarters. The membership is now nearly forty-five, and the lawn in front of the club house has become altogether too small, or rather the members have become too numerous to be accommodated upon the aforesaid "lawn." If they take rooms, what will they do for a "lawn?" In the resignation of ex-Lieut. Frank, the Roamers lose a valuable officer, a model Director and a good comrade; may his office be as acceptably filled.

THE Phelps Cyclers is the name of a new cycling organization at Canandaigua, N. Y.

THE Utica, N. Y., Cycling Club will hold a 20-mile handicap road race on July 4, open to all. In the evening they will hold a lantern parade, for which event prizes will be given.

FREDERICK HOYT of New Haven, Conn., while coasting a hill in Derby, Conn., struck an obstruction and was thrown several feet; he was unconscious for some time and serious results were feared, but later developments indicated a better condition of things, and his recovery is looked for. The wheel was broken beyond repair.

A CYCLING club has been formed at East Syracuse, N. Y., with 25 members.

LILLIAN RUSSELL samples the drives of Central Park daily on a tricycle.

THE Park Avenue Wheelmen expect to have 100 men as their quota at the Hagerstown meet.

THE Highland Bicycle Club is the name of a new cycling organization at Lowell, Mass.

THE date of the Riverside Club's housewarming has been changed to June 30.

IT is estimated that the cyclists in France number 80,000.

ABOUT 40 of the Buffalo, N. Y., Ramblers went to Erie on Saturday night to make the "Erie run," but from the weather signs they did not get very far before the rain fell and then their fun was spoiled.

PARIS wheelmen lead the world in one respect. The Ligue Nationale de l'Education Physique own a public race path which all Paris wheelmen are free to use.

THE wheelmen of Greenpoint, L. I., have organized a cycling club to be known as the Sterling Bicycle Club.

C. W. DORNTGE, the phenomenal rider of the Buffalo, N. Y., Pressites, is developing speed, having done some excellent riding and making a local reputation for himself. He is the youngest fast rider in the city. On June 16th, 1890, he made his first mount, and it was just one year from that date when he established his reputation as fast man, perhaps the fastest in Buffalo. His first appearance before the Buffalo public, since the indoor games, was made June 16th, '91; on the former occasions he appeared on a 10-lap track, or board floor, at the State Arsenal on December 8th, '90; he won both five and ten mile races, in 16m. 17 sec. and 36m. 56 sec. respectively. He competed in all the indoor races and was never beaten, with the exception of once when he fell. He was formerly a member of the Iroquois A. C. of this city, but now the Press C. C. has him under its wing and will do all it can to assist in adding laurels to his budding crown by putting him under a trainer and sending him out upon other tracks, where he will meet flyers of reputation, and his powers as a speedy man will be severely tested. From all indications he will hold his own.

THE suit of Val. A. Fath against the hoodlum who assaulted him in St. Louis some weeks ago, has been continued in the Court of Criminal Correction of that city until next week. The outcome will be watched with interest.

THE advance party of the Heyny Harz Mountain tourists sailed from New York last Thursday, June 18th, on the steamship "Fuerst Bismarck." They were Messrs. Hassey, Kinzel and Dorer of New York City, and Mr. Busse of Hamburg, Germany. The rest of the party will follow in two weeks.

LATELY a party of ladies and gentlemen met at the residence of Miss Grace Keefer on Capitol Hill, Washington, D. C., and organizdd the Nomad Cycle Club, electing the following officers: Arthur H. Smith, President; Miss Mamie A. Douglas, Vice President; Cyrus C. Babb, Secretary; Miss Grace Keefer, Treasurer; T. H. Brooks, Captain; B. F. Larcombe, First Lieutenant, and Miss E. Hepburn, Second Lieutenant. It will probably become a League club, and visit Hagerstown during the bicycle meet, July 4, as a League club.

DO not forget the race meet of the Columbia Cycle Club of Hartford, July 4th.

THE Hamilton Wheelmen is the name of a cycling club recently organized at West Hoboken, N. J.

THE McKeesport Bicycle Club will make a three week's tour early in July to Niagara and Detroit and points in Canada. About twenty members have already signified their intention of making the trip, and it is thought that the number may be increased to 30 before July 6, the date set for starting.

THE Rover Bicycle Club was recently organized in Washington, D. C.

THE Century Wheelmen of Philadelphia, have been presented with a handsome silver cup by Messrs. Simon Bros. & Co., as a prize for bringing through the greatest number of men in the Century run.

THE following, which we clip from an exchange, shows conclusively that either the arresting officer had a very poor idea of the speed of a cyclist, or that English riders are scorching at a remarkable rate of speed: "A cyclist of Southport, England, was arrested recently for fast riding and fined 10 shillings and costs. The officer who made the arrest swore that the wheelman was riding along the road at the rate of forty miles an hour."

MR. HERBERT FOWLER of the Manhattan Bicycle Club appears to have a very brief memory, and at times presents a rather ludicrous appearance on account of the methods he practices to jog his recollection. Mr. Fowler's latest experience in this direction caused no end of amusement. When asked why so many knots appeared in his whiskers he leaped to his feet and rushed out to seek the nearest barber shop, replying "The knots were placed there to remind me that I want to get shaved, and this knot in my kerchief tells me to pay the barber before leaving the shop."—*N. Y. Recorder.*

"IT never rains but it pours," A. L. Jordan of St. Louis is the latest victim. He is just recovering from the effects of the horrible burns received at the Worth fire when his only child was taken ill with diphtheria and died on Friday. He has the sympathy of his friends in his bereavement.

THE challenge of the Press Club to any Buffalo club for a team race has been accepted by the Ramblers of that city, distance either 25 or 50 miles. The personnel of the teams not announced. The event will take place on the afternoon of July 4.

THE Cortland, N. Y., Wheel Club will hold their first annual tournament August 1st.

AS William S. Mills, a member of the Bridgeport Wheel Club, was crossing Marion street on his bicycle on Wednesday evening last, a team driven by James E. Cody ran him down and completely demolished his machine, Mills luckily escaping serious injury. Mr. Mills made a demand on Mr. Cody for the amount of damage he had sustained, claiming he was on the right side of the road at the time of the accident, and that the accident was due to reckless driving on Cody's part. Mr. Cody refused to settle, and Mr. Mills has placed the case in the hands of attorney Canfield, and he will be assisted by Lawyer Burdette, the L. A. W. Consul for the State, and of which organization Mr. Mills is a member.

THE lady cyclists of Milwaukee, Wis,, and there are a large number of them, are agitating the question of forming a ladies' cycling club.

THE Union County roadsters will hold a race meet on July 4.

THE New York Bicycle Club took a run to Fort Schuyler and return on Sunday last. The run was made by twelve members, many being deterred by the threatening weather.

THE Seaside Wheel Club, composed of ladies and gentlemen, has been formed at Bridgeport, Conn.

A CORRESPONDENT writes us: "I had the pleasure while in Lansing, Mich., of witnessing the finish of a century run made by H. B. Morgan, J. M. Hatch of the Lansing Bicycle Club, and H. J. Gute, of Detroit Wheelmen. The start was made at 5 A.M. and the finish at 11.45 P.M. They rode to Alma, 54 miles, and returned over the same route. All three deserve great credit, owing to the fact that the day was so hot that other people thought they could scarcely live and do nothing. H. B. Morgan rode a pneumatic, H. J. Gute a cushion, and J. M. Hatch rode a '91 solid tire. Hatch struck his pedal and bent a crank, which compelled him to walk six miles.

SAYS "HAWKSHAW": "I see that a Brooklyn racing man has taken the American agency for an English bicycle named the 'Roulette.' Now if that Brooklyn gentleman is smart, he will get the English manufacturers of the wheel to be appointed special purveyors to H. R. H. Prince of Wales, and the wheel, backed by his endorsement and its own gambling nature, will, I think, be regarded as a Cumming machine."

THE police of Riverside Park, New York, will enforce the ordinance prohibiting coasting in that Park. The New York *World* says that the restrictions arose from a letter written by Mr. F. D. Olmsted of the Harlem Wheelmen, complaining of the action of the members of the Riverside Wheelmen. The New York *World*, June 16th, says: "The Riverside and Harlem Wheelmen have taken up Olmsted's action. The latter deny his right to use the name of the club in uttering his views, and say he has put the club in the position of reflecting upon a friendly club. Last night (June 15) the officers of the two clubs met at the Harlem Wheelmen's rooms, One Hundred and Thirty-third street, and discussed the matter at some length."

THE Columbia Club of South Attleboro, Mass., are talking about a tournament sometime in the near future.

TO-MORROW (Saturday) will take place the much talked of road race between teams of the Orange (N. J.) Wheelmen and the Business Men's League of Newark; $50 has been put up by each club, and a handsome trophy will be bought with the $100 and presented to the winning team.

WILL some one suggest a two weeks' bicycle trip from Washington, west or south? A trip to Luray Cavern would be preferred.

THE Evansville (Ind.) Cycling Club has been organized with a membership of ten, which promises to triple before the season is over. The use of a cosy room has been given, rent free, for a club room by Messrs. Dunham and Paine. A novel feature of the club is that it does not recognize Sunday runs that continue longer than 7 A.M.,thus to preventing any annoyance to devotional services Sunday morning.

"ADJUTANT-GEN. PORTER, of New York State, has declined to grant the request of Col. Austen for authority to enlist a bicycle corps, on the ground that he has no legal right to do so. If Col. Austen wants to detail some of his men for a bicycle corps he may do so, provided they perform their duties to the State. This he will undoubtedly do."—*Exchange.*

A CONTEMPTIBLE trick was played by a couple of cyclists whose names and addresses we wish we knew. It seems that M. Moynihan was at the throttle of a "Royal Blue Flyer," and going at the rate of a mile a minute, when, beyond Bound Brook on the New Jersey Central, two red lights were flashed before him on the track, just as he was rounding a curve. The signals were less than a hundred yards away, and Moynihan turned on the air brakes and prepared to leap from his engine to escape the death he anticipated. As the engine sped by the lights Moynihan heard a mocking laugh, and discerned in the dim light of the lanterns two bicyclists, who mounted their wheels and rode away. The horrible joke completely prostrated the engineer, and his hair turned white with terror. Detectives are searching for the bicyclists for violation of a State law, in signaling a train without cause.

THE Columbia Cycle Club of North Attleboro, Mass., will entertain the members of the Somerville Cycle Club some time next month.

MR. MARTIN, the racing man of the Gotham Wheelmen, is willing to try conclusions with any member of the Riverside Wheelmen for a cup or medal in a ten, fifteen or twenty-five mile race on the Irvington-Millburn course.

LANSING, Michigan, is to have a ladies' cycling club in the near future.

A CYCLING club has been formed at Delhi, N. Y.

SYRACUSE, N. Y., has captured the remainder of the State championships, and they will be run at the tournament to be given there July 10.

JOHN CLAIRE, of 47 Adams street, Hoboken, was the victim of an unprovoked assault on Saturday last. It seems that Claire with several other members of the Palisade Wheelmen were riding along Newark street on their way to participate in the Brooklyn parade. Claire's wheel gave out and he stopped at a wheelwright's to have it fixed. Wm. Peterson, having a liquor saloon next door, came out and remonstrated with Claire on account of the crowd gathering around his place to see the wheel repaired. Claire took exception to his remarks and Peterson came out from his saloon with a great club and without a word of warning dealt Claire a terrible blow on the head, felling him to the ground. The prompt arrival of an officer was all that saved Peterson from getting his just dues. City Physician Simon dressed Claire's wound, and he was conveyed to his home in a coach.

THE annual outing and ladies' day of the Somerville Cycle Club took place on June 17, and was a very enjoyable affair in every respect.

A SPECIAL committee was appointed at the last meeting of the Missouri Bicycle and Athletic Club, of St. Louis, for the purpose of securing grounds. They will report at the July meeting. The membership is now 215, and it has decided to raise it to 250 at once by waiving the initiation fee on the first fifty men joining the club.

NEW Rapid Safety, No. 1749 was stolen from Mr. Jno. H. Schenkle, of Baltimore, Md., June 8. The handle bar had a deep cut on it. Keep a look out for it.

THE Readsville (N. C.) Bicycle Club is a new club, and the first one ever organized in that place.

ENTERTAINMENT UNIQUE.

THE complimentary to Mrs. Hopkins was as we have predicted a success from both points of view, artistically and in point of attendance. The Barker Concert Co. in their quaint dress and sweet old time songs captured the audience. The character song and dance of Miss Graydon as a Scotch lassie was acceptably done, and she received an encore. Master Fred Roberts' impersonations and recitations were a credit to him, and Little Willie Sheldon (four years old) in his sweet and charming recitations just won the house, and his efforts were applauded to the echo.

Mrs. Charles Hopkins in her recitations and impersonations showed a versatility that would have done credit to a professional. Whether in the sad story of the old blind veterans or the comic characters of Mrs. Puffy and Mrs. O'Grady she showed herself to be an adept in the art of acting and elocution. Mrs. Puffy is one of Neil Burgess' sketches, and though Mrs. Hopkins departed as far as possible from Mr. Burgess' conception, the old Yankee lady as depicted by Mrs. Hopkins did not suffer thereby. Mrs. O'Grady is original with Mrs. Hopkins, and though well known to many of us we found the old Irish woman with a daughter of high aspirations to be as amusing and delightful as ever. That Mrs. Hopkins has talent in this line none will gainsay who have seen her.

THE CYCLE EXHIBIT AT DETROIT.

THE exhibit at Detroit promises to be one of the best ever held in this country. The hall of exhibit will give twenty-four spaces ranging in size from 12x20 to 16x22, and every one of these spaces except No. 23 and No. 24, each 16x20, has been already taken. This floor also contains a large room for the headquarters of the L. A. W. and Detroit Wheelmen, ladies' and gentlemen's retiring rooms, check room, press room and lunch room. A fine gallery surrounds the hall, and the band stand is also located in the gallery, and a band will be in attendance toe entire time. The exhibition will be free to all wheelmen during the meet, and will be general headquarters. As we remarked above at the time of going to press all spaces except 23 and 24 have been taken. For further information address A. F. Peck, Chairman, 139 Jefferson avenue, Detroit, Mich.

OPENING OF THE TOLEDO CYCLING CLUB'S HOUSE.

THIRTEEN is said to be an unlucky number, but the thirteenth of June was not an unlucky day for the Toledo Cycling Club by any means. This enterprising club has set the pace for many older and more wealthy clubs. It is composed of two branches, the wheeling and the gymnasium divisions, though the wheeling division is never to be less than sixty per cent.

The Toledo Cyclers have occupied the same site on Ontario street as a club house for several years, but they have just had the building rebuilt and added a gymnasium 46 feet long, 30 feet wide, and 20 feet high, making the whole building 110 feet long with 30 feet frontage.

The club house is of handsome design ofbrick, and fronted by a wide veranda. In the basement is a bowling alley, which is the same size of the wheel room directly above it, taking up one-half of the basement. The other half of the basement is divided into lockers and bath rooms, and a small Turkish bath will be added to these, though the baths are very complete now. Doors open directly on to the gymnasium floor from both bowling alleys and locker rooms, while opening off from wheel room and cloak room above is a wide gallery overlooking the gymnasium, which is fitted up with modern apparatus.

The main entrance opens into the hall and parlor which are beautifully and harmoniously decorated and furnished. In the rear of the parlor is the cloak room, itself a charming lounging apartment. There is also a larder on the first floor which opens into the large wheel room. The latter can be cleared and used for a supper room, for the club has an occasional banquet, and in the winter regular balls and supper for its members and friends. There is a separate entrance to the wheel room.

A broad modern stairway from the parlor and hall takes one to the reading room, library, music, card and secretary's rooms on the second floor. There is also a large billiard and pool room on the second floor. The Toledo Cycling Club has everything to be desired in a bicycle club house, and in conveniences has more to offer its members than many athletic clubs.

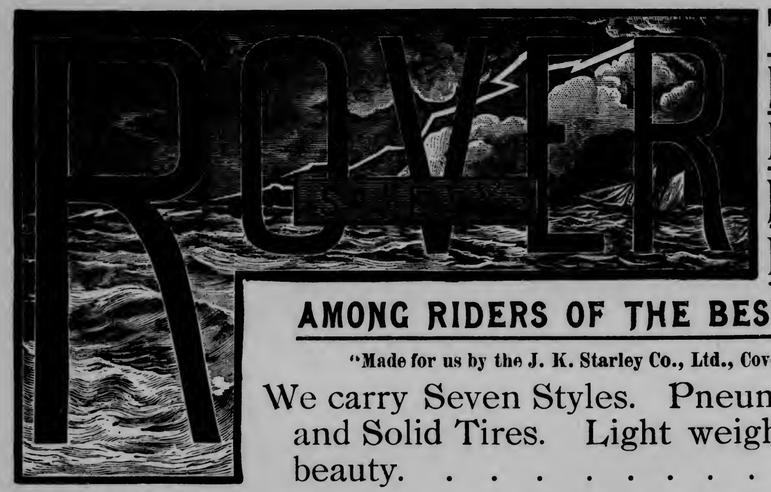
The club house is fitted with gas for light, natural gas for heat, hot and cold water for baths, and a complete kitchen equipped with range, etc. In fact I do not see what more they could desire.

There were at the time of the opening of the club house about 130 members, but I am informed that 50 members were added the following Monday night.

The Latest Success.

THE

Cushion Tired Eagle Light Roadster.



Thoroughly Tested on road and track it has proved its superiority.

The Cushion Tire adds one more to the many advantages of the EAGLE. It makes the EAGLE equal to the Pneumatic in comfort, while avoiding the many disadvantages of inflated tires. The CUSHION TIRED EAGLE only needs to be tried to be appreciated.

The First Cycles in the United States

The Largest Cycle Manufactory in the World

SINGER & CO., BOSTON, MASS.

6 AND 8 BERKELEY STREET. 2 WARREN AVENUE.

NEW YORK: F. W. AYMAR, 2 Astor House, Broadway.

PHILADELPHIA: WALL & BOYER, 1714 N. Broad St.

CHICAGO: THORSEN & CASSADY, 60 and 62 Wabash Ave.

Parties of wheelmen from Detroit, Monroe, and many other places, attended the opening. The club house was tastefully decoroted with palms and cut flowers, and tables loaded with fruit, orangeade, lemonade, and other delicacies in solids and liquids were placed in the wheel room, while the floor of the "gym" was cleared and an ebony hued orchestra furnished the mellowest of music for those who desired to

"Shake a friendly toe."

Many lady friends were shown through the club house during the evening, and all visitors spoke in the highest of all things connected with this cosiest of cosy club houses.

The Toledo Cycling Club was incorporated Feb. 13, 1891, though it was organized several years prior. "SETAGEC."

GRAND RAPIDS-DETROIT TOUR.

INTEREST is increasing every day in the tour, and letters of inquiry are coming in thick and fast.

C. A. Conover (Secretary-Treasurer of Michigan Division) and wife have joined the tour, which makes four ladies from out of town, with several others undecided yet.

W. H. McMullen and wife, Minneapolis, Minn., F. W. Osborn and wife, Quincy, Ill., are contemplating the trip.

The Wolverine Cyclers of Ann Arbor have appointed committees to arrange a grand banquet and other entertainment for the Hunt tourists. Ann Arbor wheelmen's abilities and hospitalities need no recommendation.

I have just ridden from Grand Rapids to Lansing over this part of the route and find the roads much better than I expected, to tell the truth, they are good roads. W. E. Beach of Howell rode over the route from Howell to Lansing and reported the roads in fine shape; a few of the Ann Arbor wheelmen rode to Howell the other day and made the same report.

Remember the time is near and the earlier you join the better.

Remember entertainment every night. P. S. H.

TO MAINE WHEELMEN.

THE only Fourth of July celebration held in Saco and Biddeford, Maine, for a number of years, will be furnished this year by the York County Wheelmen, who will make a day of it. In the morning will be given a big fantastic parade and a base ball game; in the afternoon a series of bicycle races for cups and medals, and in the evening an illuminated bicycle parade. The affair has been well advertised, and all the wheelmen in that part of the State are being interested. A band will furnish music ot the races and in the evening.

DETROIT WHEELMEN'S NIAGARA-DETROIT TOUR.

THIS tour is an assured success, as nearly 100 are already booked, about twenty ladies on the list. They will start from the Spencer House, Niagara Falls at 10 A.M. sharp, Thursday, July 9th. Some will get left because they have neglected to send in $1.00 deposit for a place. Particulars and time table will be sent only to those who book. It is important to have party filled by July 1st, so the management will know just how to act. There will be an excursion on the bay at Hamilton, some scrub races on the asphalt track at Woodstock, an evening entertainment at London, and a big reception at Port Huron. There will probably be 250 in the party from Port Huron to Detroit the last two days, as a large delegation from Michigan and Canada will join them there. Railroad tickets between Detroit and Niagara Falls will be furnished all who book for $5, good in either direction, over the Grand Trunk. These can be had by an order from the manager only. Regular fare $7.50. Let all who intend to go send in their $1 deposit at once to Clarence H. Smith, 211 Putnam avenue, Detroit. Ladies who think the day's run too long for them will have their railroad fare paid to next town.

LOG OF ILLINOIS CYCLING CLUB'S FIRST ANNUAL "CENTURY" RUN, JUNE 14, 1891.

ARRANGEMENTS were made to accommodate over night at the club house visitors and members who lived at a distance.

Lunch was served at 3.30 A.M. A start was made promptly at 4 o'clock, going by way of California avenue to Douglas Park, through the Park to Ogden avenue, out Ogden avenue, through Lyons, La Grange, Hinsdale, Downer's Grove and Naperville to Aurora, where breakfast was eaten. Then through Batavia, Geneva, St. Charles, to Elgin to dinner. Then by by State road through Ontarioville, Bloomingdale, Addison, Maywood and Oak Park, back to club house.

First stop made on way out was made at Naperville, distance twenty-eight miles. A halt of about twenty minutes was made here to rest and give the stragglers a chance to catch up.

Left Naperville at 7 o'clock, and arrived at the hotel at Aurora at 8 o'clock, making just four hours out from Chicago; time spent in Aurora was two hours. The next stop was made at St. Charles, twelve miles from Aurora; time of halt twenty minutes. Arrived at Elgin, next stop, at 12.30 P. M.; spent two hours there. First arrival at Chicago from Elgin, 6.08 P. M., or about fourteen hours for round trip, including stops. The actual riding time of pacemakers was about nine hours. No attempt was made for time, the idea being to set a pace and take the party around the circuit between the hours of 4 A. M. and 9 P. M.

The number of starters was ninety, many of whom had no intention of making the entire circuit. Sixty-five finished, divided among the different clubs as follows: Illinois Cycling Club, 55; Chicago Club, 4; Cook County, 4; unattached, 2.

The weather was very favorable, as were the roads, with the exception of that from Elgin to Chicago, which was undeniably bad, and which was the hardest part of the trip. From Aurora to St. Charles the sun was red hot, but from there on there was every indication of rain, and in fact it did rain slightly, and a nice cool breeze sprang up, which made the riding very pleasant.

While at dinner there was a little more rain and things looked dubious, but the sky cleared up again and left the breeze to help the party home.

The wheels used were as follows: Forty-one safeties (six pneumatics), 24 ordinaries.

Barrett broke an axle near Downer's Grove; he broke into a blacksmith shop and made another, catching the party at Aurora, only to have his tire burst at Batavia. He took a train home.

Staitman's tire popped just going into Aurora. He succeed in borrowing a solid tire and finished on it.

Collisions were numerous, occasioned by the party riding too close together on bad road.

At Hinsdale Mr. Harry Knisely met the party with his arms full of flowers, which he distributed as they passed by.

Harry Chisholm got into Aurora minus six spokes of the large wheel of his ordinary.

Moffatt buckled his wheel, but was equal to the occasion, and soon straightened it out and finished.

Pope got almost to Maywood when his backbone broke.

Castro's bearings tightened up, and he swears his performance was equal to 150 miles.

Tuttle says that "centuries" make him tired.

Mass rode into Aurora on his hat, having broken his saddle.

Kelly lost the champagne, even if the "Prince of Wales is King."

Simpson moans the loss of a watch.

Graham and his bugle were "in it."

Sloan must have forgotten to register.

Mr. G. W. Webb of Aurora was extremely kind to those who had met with accidents to their wheels, repairing them quickly without charge. Mr. F. E. McEwen of Elgin was also very good in this respect.

THE GREAT BROOKLYN PARADE.

THE growth and importance of bicycling was attested to in Brooklyn on Saturday last. The largest, and it could be appropriately added the grandest parade ever held by wheelmen, was held in that city.

Brooklyn is a lively cycling centre. It is probably this fact that was conducive of originating the idea of the parade. At all events, the city was virtually in the possession of wheel riders all the afternoon.

The Brooklyn, Kings County, Long Island and Bedford Clubs had been arranging for a monster parade of wheelmen for a month past. It was apparent early in the day that their project was going to be a huge success. Thirty-nine clubs responded to their invitations to participate in the event.

A ladies' division was formed and put in charge of Miss L. E. Paige.

The Park Commissioners offered their aid, and on Saturday last all arrangements for the bicycle pageant were consummated. It was arranged that all the clubs should assemble on Eastern Parkway at 4 o'clock. By 3.30 the boulevard was lined for miles with bicycles. The roads were filled with carriages and the sidewalks with spectators. It was judged that all Brooklyn had congregated at Prospect Park. It was withal a pretty sight.

It was none of your exclusive parades, where club's alone were allowed to participate. It was an open event to all riders over 18 years of age. The park drives, along which the parade passed, was lined on both sides, a dozen deep, by pretty girls. The people walked over the grass and lawns at will. It was a holiday crowd. Light clouds held the sunshine for a while, but just before the parade began they parted, and the sunlight brightened such a massing of brilliant colors as Prospect Park has rarely, if ever, seen before.

Precisely at 4 o'clock, President J. R. Dunn, as marshal, assisted by Vice Presidents Burdette and Brown, all three in new League uniforms, and Messrs. DeGraff, Luscomb, Smith and Potter, as aids, started the procession. In advance of President Dunn was a platoon of police.

The ladies' division, in charge of Miss L. Paige, followed the President and party. They made a pretty appearance, every woman having her wheel decorated. There were 45 women in line. A Mrs. E. Hoppock rode a wheel trimmed with daisies. It was very pretty. Mrs. A. Rankin's wheel was decorated with lillies and smilax. Miss K. Gorham had her machine enveloped with yellow roses and ferns. The machine ridden by Mrs. H. J. Hall was profusely trimmed with pinks, roses and smilax. Over Miss Carrie Hoppe's wheel towered a very pretty framework of roses and pinks. The ladies' wheels were all handsomely decorated.

The prize for the most beautifully decorated wheel was awarded to Miss Bornner of 254 Clinton street, Brooklyn. She rode a tandem with her sister.

After the ladies' division came the Long Island, King's County, Brooklyn, Bedford, South Brooklyn, and other city clubs. Then the New York and New Jersey clubs. The unattached men brought up the rear.

The men rode four abreast. There were any variety of wheels. The safeties were in front. They were also in the majority, although there were a goodly number of ordinary wheels.

The line of march was to Prospect Park by the Eastern Parkway; thence by West Drive to South Gate, along the Ocean Boulevard for a short distance, and return the same way.

The grand stand was erected just outside the park. On this were the judges. They consisted of Police Commissioner Henry I. Hayden, James F. Graham of the *Commercial Advertiser*, and F. P. Prial of New York.

Each club was immaculately attired, each striving to win the proffered prizes. The Brooklyns were *the* people. They turned out eighty-seven men all clad in their neat blue uniforms trimmed with heavy black braid, the word "Brooklyn" inscribed on their collars; they also wore white gloves. In the face of this natty make-up the judges could do nought else but award them the prize for the best appearance as well as that for the largest number in line. The appearance of the Brooklyn's, whom some term the "kid glove" boys, was the signal for applause all along the line. The Long Island Wheelmen made a very neat appearance.

The Bedford Cycling Club by a Chesterfieldian action made themselves prime favorites. Upon reaching the grand stand, the entire club with one accord simultaneously raised their caps. They were the only club to do this.

There were thirty-nine clubs in line and 1230 men.

The names of the clubs and the number of men is as follows:

Ladies, 45; Long Island Wheelmen, 62; Kings County Wheelmen, 58; Brooklyn Bicycle Club, 87; Bedford Cycling Club, 36; Bedford Wheelmen, 21; Prospect Wheelmen, 20; South Brooklyn Wheelmen, 22; Peerless Bicycle Club, 15; Bohemian Wheelmen, 9; Chelsea Bicycle Club, 10; Y. M. C. A., Brooklyn, 16; Amity A. C. Wheelmen, 20; Centaur Bicycling Club, 20; Queens County Wheelmed, 35; Hempstead Wheelmen, 2; New York Bicycle Club, 25; Harlem Wheelmen, 35; Riverside Wheelmen, 12; Manhattan Bicycle Club, 19; Gotham Wheelmen, 48; Manhattan A. C. Wheelmen, 24; Knickerbocker Wheelmen, 15; Hudson County Wheelmen, 37; Atalanta Wheelmen, 30; Plainfield Wheelmen, 7; Business Men's League, 18; Orange Wheelmen, 11; Rutherford Wheelmen, 10; Roselle Ramblers, 11; Cranford Cycling Club, 4; Passaic City Wheelmen, 10; Passaic Falls Wheelmen, 21; Jersey City A. C. Wheelmen, 7; Palisade Wheelmen, 1; Bergen County Wheelmen, 22; Englewood Wheelmen, 15; Columbia Cycle Club, 22; Unattached Wheelmen, 350.

The Harlem Wheelmen who were clad in green knickerbockers, white

sweaters and green caps were awarded the prize for the neatest appearing out of town club.

The parade disbanded at about 6 o'clock.

At the conclusion of the parade the visitors repaired to the club houses of the different city clubs where they were royally entertained.

The committee in charge of the parade which was such a big success were Messrs. C. C. Alden, L. I. W., chairman; N. Palmer, L. I. W.; I. B. Potter, B. B. C.; H. E. Raymond, B. B. C.; D. McLean, K. C. W.; H. S. Blakeman, K. C. W.; J. C. Ketchum, B. C. C.; and G. L. Titus, B. C. C.

It is likely the affair will be made an annual one.

A military bicycle equipped with the implements for scouting and courier duty was ridden by F. A. Aymar of the Kings County Wheelmen.

"SPEC."

BOSTON CITY RACES, JULY 4.

GAINING experience by last year, the city fathers of Boston have placed the entire arrangements for the races, July 4, in the hands of experienced wheelmen. Nine events are on the programme, and the prizes will aggregate $275 in value. Entries close to-morrow, June 27, with Clerk Hilliard at City Hall. The races will commence at 9 A. M. sharp; contestants are requested to report to the Clerk of the Course at Franklin Park not later than 8.30.

MEET OF THE OHIO DIVISION AT COLUMBUS.

THE meet of the Ohio Division at Columbus on July 13th, 14th, and 15th, will undoubtedly be the biggest affair in the cycling line that the Buckeye State has ever witnessed.

The races which take place on the 14th will be run on a fine half-mile track specially prepared, and some fast time may be expected. By references to the advertising columns of the BICYCLING WORLD, page 287, the full list of events and prizes offered may be seen.

Six championship races are open to members of the Ohio Division only, for which twelve elegant medals of special design are offered.

The attention of all members of the League is called to the six open events and to the character of the prizes given. These comprise four safety bicycles, an elegant gold watch, chain and pin, handsome clock, Kodak, opera glasses; etc., the value of all being over $1000.00.

A fine banner will be presented to the club having the largest number of uniformed men in line in the parade on the 14th.

Special rates have been secured over all railroads in the central traffic association, and on the 15th a grand excursion will be run to the national meet at Detroit for the remarkably low fare of $3.30 for the round trip.

This will land the visitor in Detroit in time for supper, and will enable him to take in both meets without loss of time, and save money.

The people of Columbus are most hospitable, and our streets are admitted to be the finest in the West.

Come and see us, and have a royal good time. For entry blanks to races write Geo. W. Smith, 38 1-2 E. Spring street. "BUCKEYE."

THE HAGERSTOWN MEET.

THE official programme is at hand, and a very neat little folder it is so far as appearances go, but it is the inside that will interest wheelmen. The macadam roads round Hagerstown are justly famed, and as a centre of historical point made famous by the late war it is wonderfully interesting. Formal runs will be made to the famous battle fields in the vicinity, an illustrated talk of a trip through Switzerland by J. E. McKenson will be given, fireworks, open air smoker and band concert will be some of the features. Everything will be done in the open handed hospitality and generous freedom that "My Maryland" is so justly celebrated for. In the matter of transportation the committee say: "We owe our success in transportation facilities to the interest manifested by the Baltimore and Ohio Railroad (see page 287—ED.) and your committee earnestly hope wherever it is possible patronage will be given to those who have won for us in transportation what we have so long fought for on the path; viz., recognition as a fraternity * *." The parade will be at ten A. M., July 4.

The races will take place on the afternoons of July 3d and 4th, full list of which appeared in our last issue. Go to Hagerstown, and you will have a royal time. If you have not a programme, send for one *at once* to J. T. Chism, Baltimore, Md.

A BIG TIME AT HARTFORD, JULY 4TH.

BOOMING cannon, a monster parade, great cycle racing, big fire works, and gorgeousness and "spread" generally, will go to make up Hartford's Fourth of July festivities.

The outlook for the Columbia's tournament at Charter Oak Park in the afternoon could not be more promising. The entries include most of the crack flyers; public interest is fully alive to the event and an immense attendance is assured. Hartford's City Council has appropriated a liberal sum towards a public celebration, and this will add to the attractiveness of the wheelman's visit. The cyclists will be given the right of the line in the big parade. The city fathers are working with the wheelmen to make the wheel turnout as large as possible. Hartford has 3500 wheelmen, and it is expected that 1000 of them will be in line. Visiting clubs parading will be awarded prizes for excellences of numbers, appearance, etc. Judges of the parade will be Messrs. F. P. Prial, Jos. Goodman and C. G. Huntington. Programme of the races has already been published. Full programme of the day at Hartford is as follows:

Beginning at 6 A. M., a salute of thirteen guns will be fired, and the church and school bells will be rung for an hour.

At 9 o'clock there will be a concert at Foot Guard Armory, by 1,000 children from the public schools, under the direction of Prof. Irving Emerson.

10.30 A. M., street parade, headed by Pope's Military Band and 1,000 wheelmen, followed by the military, fire department and other societies.

At 2.30 P. M., the Columbia Cycle Club's races at Charter Oak Park, where the fastest riders in the country will contest for supremacy.

At 6 o'clock P. M., regatta on the Connecticut River.

At 7.30 P. M., concert on public park by Pope and Colt's Military Bands.

9 o'clock P. M., same place, grandest display of fireworks even seen in Connecticut.

During the day the Columbia Cycle Club and Hartford Wheel Club will keep open house, where all visiting wheelmen are welcome.

Visiting clubs will be met at the depots by reception committees, and taken excellent care of.

All riders are urgently requested to take their wheels; they are wanted in the parade and will come handy in going out to the park and other points of interest.

Cyclists laying plans for the holiday will find it difficult to conceive of greater or more varied attractions than are offered at Hartford.

The club will give to the rider breaking the one mile record, in competition, a diamond medal.

MISSOURI DIVISION MEET.

A few epigrammatic words to wheelmen of this section. Boom! is the word to use for the meet at Carthage, July 3 and 4.

Bring your League ticket, otherwise you will get left. The absence of it will deprive you of lots of fun. *No ticket, no free entertainment.* Remember that. Arrangements are completed and Carthagenians await your coming and will swamp you with hospitality. Sign the lists at once that are in the hands of the local consuls and in the stores of the cycle dealers of St. Louis, as with a guarantee of fifty from St. Louis a special chair car free and a baggage car will be furnished by the Pacific Railway.

On the evening of the third, the smoker (with plenty to smoke), and refreshments, together with an athletic entertainment and music by the famous Light Guard band will be the features.

The races on the Fourth will bring the fastest Western flyers together. Entries close June 29; A. M. Garner, Carthage, Mo. See page 295 for particulars and prize list. The prizes are constantly being added to and as a list is the finest ever offered in Missouri.

The presence of the ladies is to be made a special feature of the meet, and the ladies of Carthage headed by Mrs. H. P. During and Mrs. C. J. Case will see that lady visitors are taken care of. A party of six ladies from St. Louis will be present, and others from that city and other places are expected.

The parade prizes are expensive etchings, and should call out a large attendance for this most prominent feature. Clubs are urgently requested to bring large representations. The parade will form at the Harrington Hotel with Chief Consul Holm, grand marshal, and R. W. Garner, R. N. Siebel, W. P. Lang, and W. M. Jaccard, aids. The captains of various clubs will act as lieutenants and H. P. During will have charge of the unattached. League clubs will have precedence.

Event No. 9 has been changed to a two-mile safety handicap, instead of ordinary, as first announced.

The St. Louis delegation will leave at 8.20 via the Missouri Pacific Railway and will travel in a brand new special chair car, which will be in charge of City Passenger Agent Griffin, who will see that everybody who signs the lists hanging at all agencies will be provided with a seat.

Badges for the delegation will be furnished on the train. Remember your League ticket is the "open sesame."

"LINNEUS."

THE BIG THREE-DAY TOURNAMENT IN BUFFALO.

ABOUT fifteen hundred people were present at Olympic Park on Monday afternoon, June 15th, to witness the athletic opening of the games. The weather was fine and very "hot," one of the athletes succumbing to the heat and falling prostrate on the track in the 5-mile run, many others being compelled to drop out of events on account of it.

Soon after eight o'clock P.M., from all quarters might be seen the wheelmen on gaily decorated wheels, plentifully covered with lanterns of all kinds. The line was formed as follows:

Mounted Police.

Acting Staff—Louis Bruch, adjutant; George R. Hearne and Fred F. Rick, adjutant's aides; club aides, W. C. Holland, Dal H. Lewis, Harry D. Gates, J. J. Scheffler, C. H. E. Frank, Dr. E. L. Gager, Will Pensyres, F. J. Steinbach, John Malcolm, J. J. Pauly, Thomas Quirk, Ulysses Dietzer.

Buglers—W. H. Butler, Walter Hearne, F. L. German, A. G. Richardson, Fred Blanchard.

Seventy-Fourth Regiment Band.

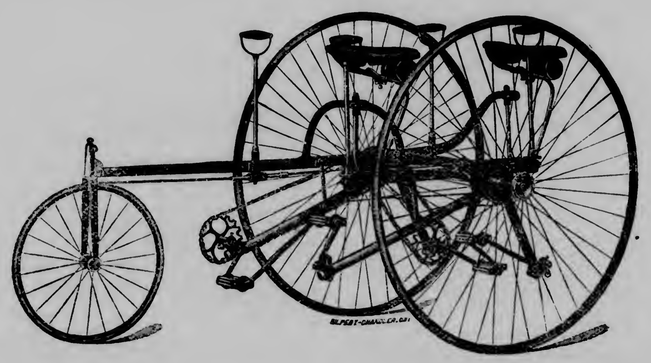
Honorary Staff—Grand Marshal, W. Sheldon Bull; aides, James R. Dunn, President L. A. W., and Charles W. Wood, Vice-Consul, L. A. W.; pioneer wheelmen of Western New York.

Women's Wheel and Athletic Club.

Unattached Wheelwomen.

Visiting clubs of Rochester, Batavia, Erie, Lockport, Niagara Falls, Tonawanda, Lancaster.

Buffalo Bicycle Club, Ramblers Bicycle Club, Zigzag Bicycle Club, Wanderers Bicycle Club, Roamers Wheel Club, Press Cycling Club, Doctors' Wheel Club, Columbia Bicycle Club, Fraternity Wheelmen, Meteor Bicycle Club, Iroquois A. C. Cycling Section, South Side A. C. Cycling Section, Delaware A. C. Cycling Section, Mohawk A. C. Cycling Section, Unattached Wheelmen.



All the houses along the line of march were covered with lanterns and flags, the people generally being quite generous in their displays. There were about 1000 wheelmen in line, and they made a very fine appearance. Here and there were riders dressed fantastically, some in crazy quilts, some in white, and some four or five were dressed like demons, in suits of fiery red, having wings and horns. There were several three masted, well rigged ships, which were well lighted, and were arranged on safeties. For a wonder the women were not in at all; there was no representative from the Woman's Wheel Club.

The Buffalo Bicycle Club made a good showing. The clubs having the best displays were the Wanderers and the Roamers, though the other clubs were in it. The Wanderers especially made a very good showing, having several neat and tasty devices and they were wrong in not showing up for competition. The Buffalo Athletic Club had uniform decorations and made a very fine appearance. The crowds in attendance were numerous and everywhere, creating a great amount of trouble and confusion amongst the wheelmen; the long waits in the procession were caused by them, and at one time it looked very much as though the parade would be broken up by their infringing into the parade. By the way, there were some policemen along the line of march and at the corners; but all the good they did might have been done by wooden men.

After the parade, prizes were awarded for the best decorated wheels as follows: for ordinary, Chas. Armbuster. Ladies safety, Miss Ella Vine. [Thought you said the ladies were "not in it."—ED.] Men's safety Mr. Snyder, and for tandem, Messrs. Trautman and Bamberg.

RACES.

The second day of the tourney brought out about 2500 people, many ladies being present. The weather was fine with a heavy wind, which prevented any attempt at record breaking, though there was considerable fast riding. The first event of the afternoon was the

Chicago Retail Store, 85 MADISON STREET.

1325 14th STREET, N. W.. Washington, D. C.

174 and 178 COLUMBUS AVENUE, Boston, Mass.

One-mile safety, novice—G. L. Prescott, Rome C. C., first; H. P. Werner, Zigzag B. C., second; J. R. Neumann, Press C. C., third.

One-mile ordinary, novice—S. H. Waterberry, Zigzag B. C., first; H. W. Nachbar, Buffalo A. C., second; H. A. Smith, unattached, third.

One-mile safety, handicap—C. W. Dorntge, Press C. C., 100 yds., first; E. C. Bald, Roamers W. C., 140 yds., second; G. B. Penn, Syracuse A. C., 130 yds., third. Dorntge rode a pneumatic; cutting his handicap down to 50 yds., he rode the mile in 2.35 3-4.

One-mile ordinary—A. A. Zimmerman, N. Y. A. C., scratch, first; W. H. Penseyres, Press C. C., 80 yds., second; W. S. Campbell, Manhattan A. C., scratch. Time 2.50.

Half-mile safety—E. C. Bald, Roamers W. C., 80 yards, first; G. L. Prescott, Rome C. C., 80 yards, second; H. J. Hall, Manhattan A. C., 35 yards, third. Time 1.12.

Three mile ordinary—W. H. Penseyres, Press C. C., 200 yds, first; A. A. Zimmerman, Manhattan, scratch, second. Time 9.15.

Three mile safety—F. M. Brinker, Buffalo A. C., 300 yds., first; J. Pauly, Iroquois A. C., 300 yds., second; G. B. Penn, Syracuse A. C., 300 yds., third. Time, 8.45.

One mile tandem—Dorntge and Penseyres, P. C. C., 100 yds., first; Slatestone and Gibson, R. B. C., 100 yds., second; Banker and Brinker, B. A. C., 40 yds., third. Time 2.38 1-2.

One mile ordinary—A. A. Zimmermann, M. A. C., scratch, first; W. H. Penseyres, Press C. C., 40 yds., second. Time 2.18 1-4.

Two mile tandem—Dorntge and Penseyres, Press C. C., 75 yds., first; Banker and Brinker, Buffalo A. C., 80 yds., second; Campbell and Hall, M. A. C., scratch, third. Time 5.32 1-2.

Five mile safety, lap—H. J. Hall, Manhattan, was the only competitor that showed up, and after riding once around the track he was called off and given the race.

Closed events—one mile tandem—Penseyres and Dorntge, Press C. C., first; Slatestone and Gibson, Ramblers B. C., second. Time 2.53 1-2.

Half-mile safety—C. W. Dorntge, Press C. C., first; W. D. Banker, Buffalo A. C., second; Charles Slatestone, unattached, third. Time 1.08 1-4.

One mile ordinary—F. C. Fuhrman, Ramblers B. C., first; H. W. Nachbar, Buffalo A. C., second; J. J. Kane, Ramblers B. C., third. Time 3.18 1-4.

One mile safety—C. W. Dorntge, Press C. C., first; F. M. Brinker, Buffalo A. C., second; E. C. Bald, Roamers W. C., third. Time 3.04.

Half-mile ordinary—N. H. Penseyres, Press C. C., first; H. W. Nachbar, Buffalo A. C., second; F. C. Fuhrman, Ramblers B. C., third. Time 1.32 1-2.

ROAD RACE.

There were fifteen starters out of the twenty-four entries for the 50-mile road race from Buffalo to Corfu. It was a handicap. The road has just been worked and was more or less in a bad shape. A. T. Crook, R. B. C. (15m.), first; riding time, 3h. 38m. Prizes—an Ormonde pneumatic and Iroquois safety. William Crane, Erie Wanderers (16m.), second; riding time 3h. 52m. W. Van Wagener, N. Y. A. C. (scratch), third; riding time 3h. 56m. E. F. Weining, R. B. C. (22m.), fourth; riding time 4h. 44m. 30s. R. W. Conn, Press C. C. (20m.), fifth; riding time 4h. 44m. 30s. C. F. Albard, Press C. C. (20m.), sixth; riding time 4h. 5m. 30s.

The other men were detained by break downs and exhaustions, and were compelled to give it up, some at 17 miles and others at the turn about 25 miles. Altogether it was a tough race. "JASPER."

BIG CENTURY'S FIRST ANNUAL RACE MEET.

TIOGA'S track at Westmoreland Station was thronged on Saturday afternoon by upwards of two thousand people who had come by train and a-wheel to witness the first tournament given by the Century Wheelmen. The weather was threatening, but fortunately the rain held off, reserving itself for the following day, when it spoiled the Pennsylvania Bicycle Club's century run over the "Pennsylvania" circuit.

The track was in much better shape than at the Tioga races a fortnight previous, and as Murphy's time in the one-mile safety handicap shows is by long odds the best path which this city has ever owned. Murphy's mile was also the fastest ever ridden here, and the crowd went wild over the fine performance. He is riding in record form and on a first-class track which, by the way, America does not possess, like Long Eaton, Paddington, or Herne Hill, could I believe cut under Jones' figures. Two or three pile-ups occurred on the lower turn of the back stretch during the afternoon races, fortunately without any serious results. Summary:

One-mile safety, open—W. F. Murphy, N. Y. A. C., won; W. C. Seeds, W. A. C., second. Time 2.41 2-5.

Taxis started but gave up on the first lap, and Murphy distanced Seeds, in what would have been second time for the track had it not been for his later race.

One-mile safety, 3.30 class, first heat—J. J. Gessleman, Wiss. W., won; R. C. Lops, C. W., second. Time 3.04 3-5. Second heat—J. R. Kendrick won; F. H. Campion, Wiss. W., second. Time 3.10 3-5. Third heat—G. B. Mendes won; W. H. Hall, N. Y. A. C., second. Time, 3.11 4-5. Final heat—H. Bilyeu won; G. B. Mendes, second. Time 2.59 1-5.

Hall took second place in final, but was declared not eligible. The heats were run all out from start to finish, the times being remarkable for 3.30 class.

One-mile ordinary, open—Won by A. A. Zimmerman. Time 2.56. W. C. Seeds, second; S. W. Merrihew, third.

Murphy and Taxis did not start in this race, and Zimmerman had things his own way.

Quarter-mile safety, State championship—W. W. Taxis, A. C. S. N., won; J. H. Draper, A. C. S. N., second. Time 39 1-5s.

J. C. Donnelly, Oxford Wheelmen, fell in this race, breaking his wheel, and I. Van Deusen took third place.

One-mile tandem handicap—Perkinpine and Donnelly, Y. M. C. A. (130 yards), won; N. J. Kelly and J. H. Draper, A. C. S. N. (scratch), second. Time 2.46 4-5.

One-mile safety, 3.29 class, first heat—J. W. Judge, M. A. C., won; E. A. Powers, M. A. C., second. Time 3.03. Second heat, H. Gill, P. A. W., won; J. Grant High, C. C., second. Time 3.01 3-5. Final heat—E. A. Powers, M. A. C., won; J. Grant High, C. C., second. Time 3.01.

The Manhattan men, together with High, rode pneumatics, and easily outclassed the solids.

Half-mile safety, open—W. F. Murphy, N. Y. A. C., won; W. W. Taxis, A. C. S. N., second. Time 1.17 1-5.

Murphy was on a pneumatic wheel. Taxis had a solid tire racer, and could not hold the New York man.

Two-mile ordinary, State championship—W. W. Taxis, A. C. S. N., won; J. H. Draper, A. C. S. N., second; F. M. Dampman, A. C. S. N., third. Time 6.11 3-5.

A limit of 6.10 was placed on this race, but the men rode well and it was awarded them.

One-mile safety, 3.10 class—F. B. Marriott, S. E. W., won; J. L. Hanley, W. A. C., second. Time 2.52 3-5.

Quarter-mile, ordinary, open—A. A. Zimmerman, N. Y. A. C., won; W. C. Seeds, W. A. C., second. Time 40s.

M. J. Bailey, C. W., finished third, having led until the lower turn.

Two-mile safety, handicap, open to Century Wheelmen only—Louis Geyler (scratch), won; M. N. Keim, 100 yards, second. Time 6.13.

Seven started and Geyler cut down his men easily, winning hands down.

Two-mile ordinary handicap—J. B. Pearson, C. C. (190 yards), won; A. E. Stilger, M. A. C. (190 yards), second. Time 5.39 4-5.

Ten men started giving a very pretty procession, Pearson beating Stilger out on the tape by but six inches; S. W. Merrihew, third.

One-mile safety handicap—W. F. Murphy, N. Y. A. C., 80 yards back of scratch, won; W. H. Hall, N. Y. A. C., 150 yards, second. Time 2.40 4-5. Murphy's actual time for mile, 2.32 4-5.

This was the event of the day, Murphy on his pneumatic starting 80 yards back, and cutting down his field in grand form. Seventeen men started, the limit being 180 yards, but he caught them up one by one going to the front on the last quarter amid deafening applause.

One-mile safety, State championship—W. W. Taxis, A. C. S. N., won; J. H. Draper, A. C. S. N., second. Time 3.04.

Draper led coming into the straight, and making a desperate effort, but he could not quite hold it, and Taxis crossed about a wheel to the good.

The annual spring sports of the Bank Clerk's Athletic Association were held at the University track on Saturday afternoon, the following cycling events being contested:

One-mile bicycle safety, novice, scratch—W. N. Emery, B. C. A. A., won; C. L. Allison, Y. M. C. A., second. Time 3 1-2m. E. B. Schuck, Y. M. C. A., took a header a short distance from the scratch and fell out.

Two-mile bicycle, ordinary—G. M. Coates, U. of P., 20 yards, won; E. W. Bair, P. A. W., 110 yards, second. Time 6m. 26 1-2.

One-mile bicycle safety, handicap—W. N. Emery, B. C. A. A., 110 yards, won; H. M. Stamford, 1st R. A. A., 90 yards, second. Time 2m. 58 1-2s. S. H. Crawford and George Crow collided on the track and fell out.

Philadelphia, June 22, 1891. "ARIEL."

SON-OF-A-GUN HILL CLIMBING CONTEST.

AFTER two postponements the much talked of hill climbing contest on Son-of-a-Gun Hill came off Saturday evening, June 20, at 8 P. M. On account of the late arrival of most of the officials, the contest was run by moonlight and this novelty cannot be said to be a success. A. G. Harding, St. Louis Cycling Club, was the first man, and he crossed the line in 1m. 35 1-2s. When the fast time was announced the crowd fairly went wild and eagerly looked for the second man, who was Richard Hurck of the M. B. and A. C. Hurck was the winner of last year's contest and great things were expected of him. But as he got a poor start and ran off the road and lost his pedals near the top, the hopes of his friends were not realized, as the best he could do was 1m. 41 3-4s. The third man was Will Cox, on whom the cycling club had pinned their faith to win, and they were not disappointed as he crossed the line in 1m. 35s., and amidst great enthusiasm, thus breaking Hurck's record by 8s. The hill was in fine condition, except near the top. Cox's riding of the hill was a magnificent exhibition. At no place did he waver and he now wears the proud title of hill climbing champion of St. Louis. The opinion is general that but for the poor start Hurck would have won. After the contest the wheelmen rode to Ballwin for supper and the prizes will be presented to the winners to-morrow. Costly gold and silver medals of special design were the prizes. It was a great day for the cycling club, and the majority of the members remained out at Ballwin celebrating the club's victory.

"LINNEUS."

RACING AND MEET NEWS AND GOSSIP.

AT HYDE PARK, MASS.—The Norfolk County Wheelmen gave an interesting series of races at the Norfolk Trotting Park on June 17. No records were made as the track was not in condition to warrant it, and the affair passed off with but one or two slight accidents. The following is a summary:

One mile ordinary, novice, nine starters—J. W. Arentzen, Hyde Park, first; Frank P. Munroe, Newton Centre, second; H. Dennis, Dorchester, third. Time, 3m. 15s.

One mile safety, novice, 11 starters—C. C. Orcutt, Boston, first; Charles Measure, Needham, second; George Quinn, Chelsea, third. Time, 3m. 8 4-5s.

One mile ordinary, open, six starters—James Clark, Dorchester, first; E. J. Clark, Dorchester, second; T. L. Connelly, Dorchester, third. Time, 3m. 15s.

One mile safety, open, six starters—H. C. Tyler, Needham, first; Daniel Connelly, Dorchester, second: Hugh Robson, Salem, third. Time, 3m. 1s.

One mile safety, championship of Norfolk County, five starters—H. C. Tyler, Needham, first; A. P. Benson, Newton, second; A. H. Rhodes, Hyde Park, third. Time, 3m. 8 1-5s.

One mile ordinary, handicap, open, 14 starters—H. Dennis, Dorchester (175 yards), first; E. J. Clark, Dorchester, (25 yds), second; B. P. Hedges, Foxboro (150 yds.), third; H. G. Andrews, Hyde Park (75 yds.), fourth. The scratch man, J. Clark, failed to get a place. Time, 3m. 2s.

One mile safety, handicap, 15 starters—G. Minturn Worden, Boston (scratch, pneumatic tire), first; H. C. Tyler, Needham, second; E. A. McDuffee, West Everett. Time, 2m. 52s.

One mile ordinary, championship of Norfolk County, four starters—B. F. Hedges Foxboro, first; H. G. Andrews, Hyde Park, second; P. M. Hussey, Hyde Park, fourth. Time, 3m. 13s.

Team race, three clubs of three men each, two miles—Rain interfered at the finish, but it is believed the Crescent Bicycle Club of Dorchester won. Time, 6m. 15 3-5s.

Half-mile boys' safety, three starters—F. Ovurish, Dorchester, first; James W. Wight, Dorchester, second; Edwin Thompson, Hyde Park, third.

Half-mile safety, pneumatic—G. M. Worden, Boston, first; E. A. McDuffee, West Everett, second; J. P. Clark, Dorchester. Time, 1m. 26 1-5s.

12th Annual Meet of the L. A. W.

DETROIT, MICH., JULY 16, 17, 18, 1891.

Address Chairmen as below at Detroit for information relating to the work of the committees:

Chairmen of Committees:

Reception—C. H. Smith, 211 Putnam avenue;
B. J. Holcombe, 222 Woodward ave
Races and Transportation—
Jos. Bresler, 22 Lafayette Avenue.
Exhibit—A. F. Peck, 143 Jefferson avenue.
Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

L. A. W. Uniform Cloth.

A contract has been made with the Burlington Mills for a cloth, steel gray in color, which will be used for the regulation League uniform. This cloth is now kept in stock by the Secretary, and will be supplied to League members only at $2.10 per yard, cash with order. The Regulation League button will be supplied by the Secretary at 5 cents for the large and 3 cents for the small size. The cloth is 54 inches wide.

ABBOT BASSETT, Secretary.

Rubber Buttons.

We are now ready to supply rubber buttons made from dies especially prepared for the L. A. W., and bearing the League emblem in bold relief. The buttons are made in two sizes, but will be retailed at the uniform price of three cents each. They can be had at this price from any of the League tailors to whom special discounts will be made, or will be supplied in any quantity by the Secretary.

From L. A. Miller.

Whereas in the BICYCLING WORLD issue of June 12th was published a notice signed by C. E. Randall, chairman, purporting to come from the Racing Board, I herewith wish to disclaim any connection whatever with said notice as it does not meet with my approval, and I have never been asked to vote on any such resolution.

Respectfully, LEWIS A. MILLER,
Member of Racing Board.

Racing Board.

By a unanimous vote of the Racing Board, D. Jay Spangler of Elkhart, Ind., has been reinstated an amateur. ABBOT BASSETT,
Chairman pro tem.

Highway Improvement—Photographic Prize Contest—Announcement.

Owing to the fact that the number of competitors for prizes offered in this contest has not reached the number required by the conditions of the offer, the award cannot now be made. To insure fairness it has been decided to extend the term of this contest till December 15, 1891. With the exception of dates, the original conditions will remain the same, and for the benefit of all wheelmen we add here a copy of the original offer, with extended date inserted:

PHOTOGRAPHERS, ATTENTION!

One hundred dollars in gold to be paid in prizes for photographs of bad roads.

To stimulate the collection of photographs to be used in showing the need of improved roads in the United States, the Connecticut Division joins the New York Division in offering three prizes aggregating to $100 in gold, as follows:

1. One prize of $50 (gold) for the best collection of not less than three photographs.
2. One prize of $30 (gold) for the second best collection of not less than three photographs.
3. One prize of $20 (gold) for the third best collection of not less than three photographs.

This offer is made subject to the following conditions and suggestions which should be observed:

All photographs must be accompanied by the negatives, unless the latter have been destroyed.

Competition will close on the 15th day of December, 1891, and all photographs must be submitted on or before that date.

Photographs must be confined to such subjects as most strongly illustrate the unfitness of the present public roads (especially the common "dirt" roads) used as public highways.

To aid you by a suggestion we will say we want:

Photographs showing the common spectacle of the farmer's team and wagon, hub-deep and knee-deep in the muddy road.

Photographs showing rough, rutty and muddy roads in their worst condition.

"Stuck in the mud" photographs, showing the farmer or merchant with his loaded wagon vainly trying to drive his patient team and load out of the inevitable mud hole.

Photographs showing the every-day breakdown caused by rough or muddy roads, or steep grades.

Photographs showing smooth, hard-surfaced roads and (if possible) teams hauling loads over the same.

And other pictures illustrating the goodness of good roads and the badness of bad roads. Your opportunities and observation will suggest the proper thing in this line.

Each photograph must be accompanied by a full statement of particulars, giving date, location, etc., by which the picture may be identified. Blanks for this purpose will be supplied on application.

All photographs and negatives submitted must be sent marked with a fictitious name pseudonym, by which the competitor is to be known until the date of award. Each competitor must also send a sealed envelope containing his or her real name and address, and marked upon the outside with the fictitious name of the competitor.

All photographs and negatives submitted in this competition are to remain the permanent joint property of the New York and Connecticut Divisions of the League of American Wheelmen. At least ten persons must compete in order to insure the reward here offered.

In deciding upon the respective merits of the work submitted, the following points will be considered:

1. The subject of the photograph and its force in illustrating the necessity for better roads.
2. Clearness and general excellence of photographic work.
3. Location (giving preference to those views which show bad roads in important counties, suburbs of large towns, etc.).
4. Size of photograph. The question of size will be considered least and last of all. Any competitor may send more than three photographs if desired. The committee will select the three best of those submitted by each competitor.

The prizes will be awarded before December 31, 1891, by a committee to be selected by the Chief Consuls of State Divisions of New York and Connecticut. All communications will be in every respect confidentially treated, and further information will be furnished on application to either of the undersigned, to whom all photographs and negatives should be sent.

ISAAC B. POTTER, Chairman Roads Imp. Com., N. Y. State Div., League of American Wheelmen, 278 Potter Building, New York, N. Y.

CHARLES L. BURDETT, Chairman, Roads Imp. Com., Connecticut State Div., League of American Wheelmen, Hartford, Conn.

Transportion of Wheels.

For the information of our members, and to anticipate replies to the many calls made upon me, please print one time in the official department of the BULLETIN, the matter contained on the reverse side of the letter head herewith.

Respectfully and truly yours,
ALBET MOTT.

June 19, 1891.

All railroads in the Trunk Line (except the N. E. members), Central Traffic, Western States, Trans-Missouri, and Trans-Continental Passenger Associations carry bicycles free, under slightly varying conditions, when accompanied by owner, with first class passage ticket; it being understood in all cases that the wheel is carried at owner's risk of damage or delay. Rules of carriage vary with different routes. With some simply placing wheel in baggage car and presenting passage ticket is sufficient; with others, a baggage check is required; with still others, a special permit is necessary, such permit to be obtained from the baggage or passenger department. Wheelmen travelling by train, therefore, should whenever possible, ascertain before commencing their journey the rules of the railway line with respect to carriage of wheels, and govern themselves accordingly. Avoid disputes with train baggagemen whenever possible; such disputes are always annoying and generally unprofitable. If payment is demanded, take receipt for amount paid and send it, with all the facts bearing on the case to the Chairman of the Transportation Committee who will make every effort to have the sum refunded and subsequent overcharges prevented.

Remember, this is not a wheelman's "right," but a favor granted them.

Wheelmen should patronize the routes given below exclusively, even on business trips, when not accompanied by wheels, and in that way reciprocate the favor extended when travelling with wheels.

Maryland.

Mr. Thomas W. Gurley is appointed consul at Frostburg, Md. ALBERT MOTT, C. C. Md. Div.
Baltimore, Md., June 18.

Maryland.

CHIEF Consul Mott presided at the regular quarterly meeting of the Board of Officers of the Maryland Division, held Saturday evening, June 20, 1891, at the Chesapeake Wheelmen's club house, 838 No. Fulton avenue. Messrs. Jackson, Cline, Willison, and Unverzagt were present. The minutes of the previous meeting were read and approved.

REPORT OF SECRETARY AND TREASURER.

Cash on hand Mar. 21, 1891	$747.16
Receipts for three months	29.00
Total	$776.16
Expenses for three months	58.00
Balance June 20, 1891	$718.16

This report was adopted, with the following amendment, that a bill of Mr. Chism be investigated and reported on at the next meeting. The committee appointed to co-operate with the Hagerstown Club, having succeeded in securing the co-operation of all the divisions of the late third racing district, was discharged.

There being neither standing committee reports nor unfinished business, the following letter was read.

BALTIMORE, JUNE 20, 1891.

Wm. J. Uberergagt, Secretary and Treasurer Maryland Division L. A. W. Dear Sir:—I beg to hand you herewith the sum of $26. This amount was collected by me some time since for the purpose of purchasing a medal to represent the championship of the Maryland Division. The amount originally aimed at was not obtained, and the matter hung fire. After consultation with a number of the contributors, I have concluded that the best way to wind the matter up is the one I now adopt.

Kindly devote the amount named above to the purchase of a medal under the direction of the proper officials, which medal offer as a prize in whichever of the races at the Hagerstown Meet, July 2, 3, and 4, 1891, may be thought best, and greatly oblige, Yours very truly,

GUY P. WILSON.

On Mr. Cline's motion which was carried, the above amount was appropriated for a medal to represent the safety championship of Maryland, to be run at Hagertown, July 2, 3, and 4.

Mr. Willison's motion to appropriate $25 for a medal to be given at Hagerstown, at the July meet, to represent the ordinary championship of Maryland was carried.

The following resolution was unanimously adopted.

Whereas, one of the main objects of the organization of the League of American Wheelmen is that of securing improved thoroughfares and pavements. Be it

Resolved, by the Board of Officers of the Maryland Division L. A. W., that in the nominations for municipal offices in the City of Baltimore, the wheelmen urge that such be made from among men who are known to be sympathy with such improvements and in their speedy accomplishments.

Mr. A. C. Willison's motion which is as follows was adopted. Be it

Resolved, That the present Division Racing Board be appointed a committee to consider the advisability of purchasing property opposite Halsteads, and fitting the same with suitable track, buildings, and other appliances for bicycle racing and general athletics, and that said committee take up the matter where it was left off by the committee formerly appointed by the Board.

Meeting adjourned at 10.40 P. M.

Yours fraternally,
WM. J. UNVERZAGT, Sec. and Treas.
Baltimore, June 20, 1891.

Michigan Division.

The annual meet of the Michigan Division will be held at Detroit July 16, 17 and 18th.

Fraternally, A. B. RICHMOND, Chief Consul.

Connecticut.

The ninth annual meeting of this Division was held on board Steamer Sunshine on Long Island Sound, June 8, 1891.

Meeting was called to order at 9.30 P. M. by Chief Consul Dean.

Reading minutes of last meeting was dispensed with. The report of the Chief Consul was ordered printed in the BULLETIN.

The following report was made by the Secretary-Treasurer:

	Balance deposited with Conn. River Banking Co.	583.36
		$1104.91

Mr. Chas. L. Burdett, Chairman of Improvement of Highways Committee, reported that by fall they expected to have some specific measure to bring before the Legislature. In the meantime they would busy themselves by working in making preparations for Road Improvement. He further stated that we have the support of seven thousand grangers who have agreed to help us push the good work as much as possible.

Mr. Calhoun Latham, Chairman of the Rules Committee, submitted a revised Constitution to agree with the National Constitution adopted at Niagara Falls in August last. It had previously been approved by the Division Board of Officers, and was accepted as a whole.

The rules of the Division were amended by striking out Section 6 of Article 6, and changing Article 2 to agree with the National By-Laws.

On motion of David J. Post, the following resolution was unanimously carried:

Resolved, That the Connecticut Division, L. A. W., hereby endorses the action of the Joint Special Committee on the matter of the A. A. U. alliance and approves it as tending to the more speedy settlement of the much disputed amateur question.

On motion of C. W. King a vote of thanks was extended to the New Haven Bicycle Club and the Ramblers Club for the pleasant manner in which they had entertained the Division.

A vote of thanks was also extended to Mr. Calhoun Latham for his services in revising the Division Constitution and By-Laws.

As no further business was presented the meeting was declared adjourned at 10.30 o'clock.

EDWARD A. DE BLOIS,
Secretary-Treasurer.

Pennsylvania Division.

I desire to notify the division that I shall sail for Europe on the 27th of June next, to be gone until about September 10th.

Persons desiring to secure information upon the business of the Division should address the Vice Consul, D. K. Trimmer, Esq., York, Pa., or the secretary-treasurer, Mr. John J. Van Nort, 610 Gibson street, Scranton, Pa.

I wish to urge the members and Local Consuls to continue the good work of securing members and renewals during my absence.

Fraternally, SAMUEL A. BOYLE,
Philadelphia, June 22, 1891. Chief Consul.

Pennsylvania Division L. A. W.

Reports for new road book have been coming in so slow that the committee cannot say when they will be able to get out the new edition therefore it has been decided to have a new supply of the 1890 edition printed, and we hope to be able to mail them to all new members about July 1.

Yours fraternally, JOHN J. VAN NORT,
Secretary-Treasurer.

Pennsylvania Division.

The members of the Division who live on the line of the Lehigh Valley Railroad between Sayre and Easton, are notified that that road will sell tickets to Hagerstown for the meet at the rate of one fare for a round trip ticket.

The official train, however, will run on the Pennsylvania Railroad from Broad street station at about 5 P.M. (exact time to be fixed hereafter), on the 1st of July next. Members are requested to use the official train where they can do so without extra expense. SAMUEL A. BOYLE,
Philadelphia, June 22, 1891. Chief Consul.

Pennsylvania Division.

The Pennsylvania Railroad Co. has agreed to carry wheelmen from all points in Pennsylvania to Hagerstown, Md., covering the time for the meet at the rate of one fare for both ways. The tickets may be bought at the offices mentioned below on and after the 30th of June, up to and including the 3d of July, to go and will be good to return at any time up to and including the 7th of July. The price of the tickets will be the full rate for one way for the excursion ticket to go and return. If there should be any wheelmen not living in the places named below, they can secure tickets from the office nearest to them. The indications are that this will be the most successful meet that has ever been held anywhere in point of numbers, enthusiasm and fun.

SAMUEL A. BOYLE, Chief Consul.

Philadelphia, June 16, 1891.

Jc., Altoona, Avondale, Atglen, Bald Eagle, Beavertown, Bedford, Beech Creek, Bellefonte, Bigler, Birmingham, Blairsville, Blairsville Int., Bloomsburg, Braddock, Bryn Mawr, Butler, Cameron, Canton, Catawissa, Centre Hall, Chester, Christiana, Clark's Ferry, Clearfield, Coatesville, Coburn, Cogan Valley, Columbia, Conewago, Corry, Creasy, Cresson, Curwensville, Dauphin, Dewart, Downingtown, Driftwood, Duncannon, East Liberty, Elgin, Elizabethtown, Elizabethville, Emigsville, Emporium, Emporium Junct., Erie, Frazer, Freeport, Gap, Germantown, Georgetown, Glen Lock, Glen Rock, Goldsboro, Greensburg, Halifax, Hanover, Hanover Junc., Herndon, Highspire, Hollidaysburg, Houtzdale, Howard, Huntingdon, Hyner, Indiana, Irvineton, Irwin, Jersey Shore, Johnstown, Julian, Kane, Keating, Kennett, Lancaster, Landisville, Latrobe, Laurelton, Lemman Place, Leechburgh, Lewisburg, Lewistown Boro, Lewistown Junc., Littlestown, Lock Haven, Lykens, McElhatten, McVeytown, Malvern, Manch'n, Marietta, Martha, Marysville, Middleburg, Middleto'n, Mifflin Mifflinburg, Milesburg, Millersburg, Millerstown, Mill Creek, Mill Hall, Millmont, Milroy, Milton, Mocanaqua, Montandon, Montgomery, Mt. Joy, Mt. Wolf, Mt. Union, Muncy, Nanticoke, Nescopec, New Freedom, New Hamilton, Newport, Norristown, North Bend, Northumberland, Nottingham, Oak Hall, Osceola, Oxford, Parkersburg, Petersburg, Philadelphia, Philipsburg, Phoenixville, Pittsburg, Pomeroy, Port Matilda, Port Royal, Pottstown, Radnor, Ralston, Renovo, Ridgway, Rising Springs, Riverside, Roaring Spring, Rosemont, St. Marys, Saltsburg, Sandy Ridge, Selinsgrove, Selinsgrove Junc., Shamokin, Sheffield, Sinnemahoning, Snydertown, Spring City, Spring Creek, Spring Grove, Spruce Creek, Steelton, Sunbury, Thompsontown, Tomhicken, Trout Run, Troy, Tyrone, Union City, Unionville, Villa Nova, Wallacetown, Wapwallopen, Warren, Waterford, Watsontown, Wayne, West Chester, West Grove, Westford, Whitford, Wilcox, Wilkes Barre, Wilkinsburg, Williamsburg, Williamsport, Williamstown, Wrightsville, York, Youngsville.

Virginia Division.

I have this day appointed the following local consuls and request them to advise me of their acceptance *at once*.

Richmond—Dr. Frank R. Steele.
Norfolk—H. C. Achiss.
Roanoke—H. B. Finch.
Lynchburg—F. D. Evans.
Harrisonburg—Dr. F. L. Harris.
Woodstock—N. B. Schmidt.
Portsmouth—W. N. White.
Hampton—R. J. Patrick.
Strasburg—C. L. Kneisley.
Luray—A. B. Crabill.
Christiansburg—Thos. L. Moore.
Lexington—Frank H. Campbell.
Rodford—W. W. Darnell.
Charlottesville—R. L. Mead.

With the co-operation of the members of this Division I expect to see FIVE HUNDRED members credited to the Old Dominion by the first of September, and to the consul securing the most new members by that date I will award a diamond League pin on any other article he may desire not exceeding $15 in value.

I would like to have the names of good men in the other cities of the State to act as local consuls, and would earnestly request members of the League in the cities and towns not above enumerated to make application either for themselves or some other person interested in wheeling, to all of whom the above prize is offered.

If the consuls above appointed cannot from any cause assume the duties of the position please advise me at once and suggest some suitable person who will act.

It is impossible for me to build up this Division without the assistance and influence of every individual member, and I trust that such may be accorded me. LAW. L. WARING, C. C.

Norfolk, June 21, 1891.

Virginia Division.

I have this day appointed J. Hugh Henry of Norfolk Secretary-Treasurer of this Division.

Mr. Henry will please enter upon the discharge of the duties of that position immediately.

Signed, LAW. L. WARING, C. C.

Norfolk, June 22, 1891.

Renew—Ohio—Renew.

There are still 450 who have failed to renew. Surely they are not all dead. Such a rate of mortality would be frightful. Wake up. Attend to this at once. You still have till June 30 to renew. If you do not renew before the sun sets on that day your name will be—scratched off of the list. Fraternally, M. A. HIGH,
Cincinnati, June 20, 1891. Chief Consul.

New League Clubs.

The following club has qualified as League club and filed the certificate required in the office of the Secretary:

346—Woman's Wheel and Athletic Club, Canton, O.

347—Vincennes Wheelmen's Club, Vincennes, Ind.

348—Waterbury Wheel Club, Waterbury, Conn.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an initiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the league, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M. on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

Total 444.

FOREIGN MARSHAL—Joseph Pennell, care J. S. Morgan & Co., 22 Old Broad street, London, E. C. England.

L. A. W. Renewal Blank, 1891.

Fill out this blank, enclose $1 to pay your dues to April 30, 1892, and send to ABBOT BASSETT, Box 5267, Boston, Mass.

Don't send soiled bills. New bills are safer in the mails. A dollar bill is as safe as a postal note.

Don't Forget to send your Number.

Don't send checks for $1.

Write very plainly—PRINTING PREFERRED.

Stamps of a denomination above two cents will not be received.

If you live in one State and have your mail sent to another, state the fact that you may be located with the Division in which your home is.

If you desire your address changed, you must make the request on another sheet than this. Put new address on blank.

Ticket holders, 25 cts.; with name stamped, 50 cts.

Write nothing above this line.

*Number*_____

*Name,*_____

*Street and Number or P. O. Box,*_____

*City,*_____

*State,*_____

*Club*_____

Application for Membership in the L. A. W.

ABBOT BASSETT, Secretary, Box 5267, Boston:—*Enclosed you will find $ . . . . . for initiation fee and dues in the League of American Wheelmen to April 30, 1892. I hereby certify that I am over 18 years of age, and that I am an amateur within the meaning of the League definition. I refer to the persons named below*

Date..... *Name,*.....

Club,..... *St. and Number, or Box,* .....

References:..... *City,*.....

State,.....

Enclosed..... *for Holder*

(Each Applicant must give as references the names of two L. A. W. members or three reputable persons.)

MEMBERSHIP FEE.—The initiation Fee is $1.00; the Annual dues are $1 during the first half year, May 1 to Oct. 30, and 50 cents during the second half, Nov. 1 to April 30. Enclose $2.00 with this blank on any date between date of paper and April 1, 1892. Write plainly—Printing preferred.

☞ If you want a waterproof ticket holder, made of the best calf skin, with a receptacle for ticket, where it can easily be exposed to view, and pocket for personal card, send 25 cents extra. If you want your name in gold, stamped on the holder, send 50 cents xtra. *Leave the margin in using this blank.*

CONTINUED FROM PAGE 278.

AT NEW ORLEANS, LA.—The second road race of the Lagman Cycling Club took place on the morning of June 14. The race was for junior wheelmen and was over a five-mile course. The starters were the following: W. Davis, 55 seconds handicap; E. Gonzales, 45 seconds; D. Houston, 45 seconds; L. Brown, 35 seconds; H. Newman, 35 seconds; E. Newman, scratch.

Houston and the Newman brother were the only three left at the finish. Although E. Newman rode gamely and well, he proved too severely handicapped, Houston winning in 18.48 3-5, E. Newman was second in 18.35, and H. Newman third in 19.13.

After the race the race medal was presented to Houston, and the time prize, also a handsome medal, to E. Newman. The prizes were donated by Mr. O. Lagman, and are elegant designs in gold and silver.

AT WALTHAM, MASS.—The sixteen-mile road race which was run on June 17, betwees Messrs. Perrault and Bullock was a very exciting contest and was finally won by Bullock, who covered the distance in 1 h., 1 m. and 40 s.

AT BELLEVILLE, MO.—A good crowd of local cyclists and athletes journeyed over to Belleville, June 14, to witness the spring games of the Belleville A. C. There were two bicycle events on the programme which resulted as follows:

Two-mile ordinary handicap—A. G. Harding, scratch, first; O. L. Rule, 50 yards, second. Time 6m. 36 2-5s. The race was a pretty one for three laps when the scratch man gradually forged ahead and won hands down. Rain started to fall after the race, and soon converted the track into a sea of mud.

Three-mile safety handicap—R. M. Milford, 50 yards, first; G. E. Tivy, 75 yards, second. Time 13m. Prizes, gold and silver medals. The race was run in the mud, four inches deep. Harding started on a pneumatic, but gave up in disgust

AT BUFFALO, N. Y.—The third of the series of road races given by the Wanderers Bicycle Club was held last Saturday night. Out of the eleven entries there were nine starters, and the competitors and handicaps were as follows: G. G. Buse, scratch; William Buse, scratch; J. J. Scheffler, 3 minutes; G. M. Bower, 3 minutes; E. F. Hermann, 3 minutes; W. F. Gentsch, 3 minutes; Frank Laabs, 8 minutes; George Brown, 8 minutes. The distance was 20 miles, to the terminus of the plank road of Lancaster and return. The 8 minute handicaps were started at 7.45; the 3 minute handicaps next 7.48; and the scratch were started at 7.53. The roads were fair until Lancaster was reached, when the mud was encountered and the boys had a hard time getting through the village. Scheffler took the sidewalk through the town, and when the plank road was reached he was a mile in the lead. G. Buse made a desperate effort to beat Scheffler out in the last mile, but Scheffler's lead was too much, and Buse finished a half length behind at the finish. Scheffler was protested for riding on the sidewalk and the referee allowed it, and Buse was given the first place. He reached the finish at 9.04. Scheffler was awarded second prize. W. B. Buse came third at 9.06. G. M. Bower at 9.09. W. F. Gentsch at 9.10. E. F. Hermann at 9.16. G. Brown at 9.23, and Frank Laabs, who lost his way, at 9.40. After the race a musical entertainment was given at the club house on Fillmore avenue. The prizes were distributed, and a luncheon was served. The next in the series will be a road race of fifty miles.

AT NASHVILLE, TENN.—A ten-mile handicap bicycle race between Ed Craig, W. Halliburton and Fred Dortch was run out the Harding Turnpike on the afternoon of June 16 under the auspices of the Vanderbilt Club. Dortch won in 39 minutes and 6 seconds. A gold medal was awarded the winner.

AT DENVER, COL.—The team race between the Denver Ramblers and Denver Socials was run on June 14, and proved a great victory for the Ramblers, who thus become owners of the magnificent Higgins' Challenge Cup, having won it twice out of three times; the score for this race being 118 goals, to the Socials' 50. The course was 33 1-2 miles, and Lyon of the Ramblers covered the distance in 2h. 3m. 1 1-2s., and wins the medal offered by the Overman Wheel Company.

TRADE NOTES.

"BALLOON Kittens" are not a variety of aeronautic animal as the name might imply, although their riders liken them to the smooth, swift flight of a carrier pigeon. They are creating a great sensation amongst the army of path and road racing men and the Premier Cycle Company are "litter"-ally snowed under with orders for this dainty little progeny of the famous Catford.

R. G. STOEHR, more commonly known as Professor Dick Alden, has acquired the interest of J. W. Chamberlain in the large cycle establishment located in Hotel Metropolitan, Cottage City, Mass., and has opened it under the name of Hickory Hall. He has placed a large order with W. W. Stall of Boston for Elliott Hickory safeties of latest design. It is hinted that Hickory Hall will be the finest establishment for letting purposes in the country, and all who know genial Dick will unite in best wishes for his success.

THROUGH the lack of proper hose supporters, wheelmen are constantly complaining of their stockings coming down. For a first-class supporter the "Z. & S." stocking supporters for shoulder, hip, or belt are leaders in the market. They do not let go their hold, chafe the leg, or tear the stocking. Howard A. Smith & Co., Newark, N. J., the manufacturers, have had an exceedingly large sale of them this season, and they are becoming very popular with all cyclers. See advertisement in this issue on page 297.

THOS. ROE, who was the first man to officially finish the great New York-Philadelphia century run, rode a Rambler safety, and they say the reckless way he drove that wheel up hill and down and over everything on the route was an everlasting testimonial to spring frames and small steering wheels. Roe came in about an hour ahead, comparatively fresh.

THE demand for the Singer wheels has from year to year steadily increased as is natural with any goods the sterling qualities of which recommend themselves to the riding public, and when we say that it requires a shipment from England of from 100 to 150 wheels per week, it will be appreciated to what extent the popularity of Singer's output has reached in this country. There has been an immense amount of hard work done and business ability shown in the American branch of Singer & Co., but to have attained the proportions the sales have attained, businesss ability and enterprise must be backed up by excellence of wheels, and there is no lack of this in Singer's output.

THE Misses Kirkwood on their recent run to Portsmouth both rode Ramblers, Miss Jennie, the younger, riding one of the new Ladies' Ramblers, which wheel, by the by, has caught the feminine fancy, and is taking amazingly.

W. W. STALL, who is sole N. E. agent for the Elliott Hickory, has placed an order in the factory for a large number of these celebrated machines to be built especially for the Hickory Hall at Cottage City, where Hickory will reign galore. This speaks well for the success of Hickory, and proves conclusively that it *is* the "best of wood."

THE LEADING DEALERS

From Maine to California.

WE DIDN'T DO IT!

And we won't promise to refrain from a repetition of said delinquencies. 'CAUSE WHY? WE are NOT GUILTY.

And we wish it understood, once for all, in full reply to many letters of inquiry, that we DID NOT build the Leaning Tower of Pisa, we had no finger in the erection of the old Mill at Newport; Bunker Hill Monument was finished without our trying to spring any information or plans of previous designs on the Commissioners.

The established receipe for English Plum Pudding is no infringement on any formula of ours. We do not license makers of German sausage to use any confined styles of overcoatings, which are exclusively our property. The grass hopper weathervane on Faneuil Hall is NOT a BASE IMITATION of any particular style of hoppergrasses we were building 'steenty years ago.

We simply rise to explain that WE BUILD "BRONCHO" SAFETY BIKES. That we shall continue to build and sell them as long as the present demand continues, the assertions of the N.B. class of worshipers to the contrary, nothwithstanding.

If you want to know all the inside facts, write for CAT. and Testimonial book, AT ONCE.

Address **Wm. Heyny, Jr.,** 301 Sixth St., N. Y. City.

"QUADRANT" CYCLES

ARE RENOWNED FOR

ORIGINALITY.

We make our own designs and work our own patents, constantly incorporating in our machines about 12 or 14 of our own inventions.

EXCELLENCE.

In these days when the commonest rubbish is advertised as "the best, the lightest, the swiftest," etc., and even sold as such, we can only ask intending buyers to send for our 1891 catalogue, and read the 16 pages of unsolicited testimonials received during the past season.

TRUSTWORTHINESS.

"A prominent feature of their exhit (Philadelphia Exhibition) is a 'Quadrant' which was caught between two cable cars on Columbia Ave. This machine is bent and twisted in every direction, but not a thing is broken."—*Bicycling World*, 6 March, 1891

"The machine is twisted out of all resemblance to a bicycle, but so far as can be seen not a single break occurred."—*Referee*, 6 March, 1891.

SAFETIES No. 17 and No. 20, with Tangent Spokes and Solid Cushion, and Pneumatic Tyres, are the leading lines of the season.

BROWNING KING & CO., - New York.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them.

The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced. Send for descriptive circular.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.

Made in sizes suited to different machines.

Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c. With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere. [Mention this paper.

Descriptive circular free.

L. R. HALL,

5 Manning St., Medford, MASS.

"Z & S" HOSE SUPPORTERS

For Shoulder, Belt and Hip.

For Shoulder—

An article that meets the popular demand from wheelmen, and the public generally. The Z. & S. Supporters have been greatly improved, being made lighter with a better clasp at the stocking, saving all wear on the pants, chafing the leg or tearing the stockings, and warranted not to "let go their hold" accidentally. These Supporters do away entirely with elastic bands, which bind upon the limbs and stop the circulation of blood, causing numbness or swollen veins. They are made so as to be worn beneath the flannel shirt, passing over the shoulders and down either leg. Adjustable for any sized person.

Price, 50 cents.

For Belt—

With belt around the waist that allows of ample adjustment over the hips. Arranged for short or tall riders. Fitted with our patent fastener for holding the stocking; being perfectly flat it is impossible to chafe the leg or cut the knee-breeches or wear out the stockings. They are exceedingly handy, universally adjustable, and, with our new patent catches for the stockings are found to be the best belt supporter on the market.

Price per pair, 50 cents.

For Hip—

The "Z. & S." Hip Stocking Supporters have undoubtedly had a more extended sale than all the other stocking supporters so far placed on the market, not because they are better than the belt or shoulder supporters, but because they are so exceedingly handy to put on and take off; can be worn under all circumstances, whether with a linen or flannel shirt, for a short ride where it is very desirable to make a quick change to long pants for social or business purposes, or vice versa.

These supporters are now made with the double safety pin, for attaching to the drawers or shirt above the hip, and extending down either leg, fastening to the stocking with the improved Warren Safety Catch.

Price, per pair, 35 cents.

The Safety Bundle Carrier

For Handle Bar or Mud Guard.

These Carriers have come into demand wherever the Safety is used. Owing to the patented principle of swinging plates, thereby allowing them to be placed at right angles under the package to be carried, and at the same time placed close together on the bar, for a short package, or further apart for a long bundle, canes, umbrellas, etc., and upon removing the package or bundle, these plates can be moved back horizontally with the bar entirely out of the way. These Carriers are very strong, nicely nickel-plated, compact, and an ornament to the machine. They are easily detachable if desired. In ordering, state what machine they are to fit.

Price, $1.25. By mail, $1.35.

Howard A. Smith & Co. 518 BROAD ST., Newark, N. J.

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

Speaking of Chains.

One important point in a good Safety is the Chain. It is the link between the power applied and the power transmitted. It must be strong, light, easily cleaned and oiled, and easily adjusted.

No Chain on the market so well answers to these qualifications, as the Elliott Self-Oiling Chain, with which '91 Columbias are equipped.

This is made by our improved processes and machinery, and of the very best material. In the centre of each block is an extra hole, carrying an absorbent capable of holding oil enough to run five hundred miles without renewal. Adjustment for slack is very easy.

As in all other details of our bicycles, the utmost care is taken in manufacture, and the most rigid inspection, and the severest tests are applied.

Our unqualified guarantee covers this chain.

OVERMAN WHEEL CO., CHICOPEE FALLS, MASS.

BOSTON. WASHINGTON. DENVER. SAN FRANCISCO.

"OUT OF THE MOUTHS OF BABES AND SUCKLINGS."

Two small boys of the kind that are liable to stand high some day in the "councils of state" (but who didn't look it) were sitting on a curbstone, A dignified and intelligent gentleman rode by on a Hickory Bicycle; the boys were "looking towards him" (as Bassett would say) else they would not have known he was passing; one of the boys put out the following feeler:

"Say. Danny, there goes one of them wooden Bysickles; what do you think of 'em?" "Danny" took on an air of superior wisdom and a rich North of Ireland brogue, and he said: "I'd ruther have it thun wan o' thim tin wans."

We have at times said some sarcastic things about metal wheels (for which of course we are sorry), but this little boy's remark must stand as "record." "Thim tin wans" is good.

While the Hickory Cycle Factory Engine was resting this "noon time" we were looking over an old book supposed to have been written about the time of the "Council of Nice," but of course not inspired. It treats of the general tendency to scepticism that was manifested when Noah gave it out to the neighbors that he intended to build an ark, and that it was to be set up on dry land, even at a distance from any navigable water, the more critical went so far as to say that they believed it would "dry up and rattle." But Noah couldn't be talked out of it. His father was 182 years old when he was born, and Noah "allowed" that he had ought to have *some* sense, and beside he (Noah) was over 500 years old before Shem was born, and he didn't begin figuring on the ark until Japhet was well through his whooping cough and measles, and was getting big enough to do chores around the house and even help the old man haul gopher wood for the new ark.

A few of the knowing ones around Eden Corners hinted to Mr. N. that wood was unfit for arks anyway. as it would surely shrink. But Noah told them that he intended to use dry timber, and "reckoned" that if he should "pitch it within and without with pitch" that it would probably go all right. (owing to the duty on tin plate he couldn't make "wan o' thim tin wans.") However Noah told the boys that it looked like rain, and they had better get to work and try and have the ark boarded in and shingled before it got wet. He had been awarded the contract, and he proposed to go ahead even if every old croaker in town should say that he didn't think "Gopher wood was the stuff." The old man kept on sawing wood, and as fast as he needed it the boys would gopher more, but he didn't hire any *outside* help, for there was already a good deal of jealousy all through Ararat County, and Noah feared that any outside carpenter might work in too many knot holes, for the ark-builder was a strong protectionist, and he didn't want anybody working on the ark except those who had been drawn to fill its vacancy. It was no uncommon thing, so this writer said, for Noah to hear many unpleasant remarks from the thoughtless unbelievers who infested his neighborhood. Many a night when he went home from his work with his dinner pail in one hand and his kit of tools in the other, the boys used to peek through the fence and sing out: "Hello, Noah, old man; how's the ark gettin' on, and when's the flood?"

Imagine his feelings when some sarcastic Ninevite would meet him on the street and say: "Good morning, Mr. Noah; have you used——I mean, when are you going to sail?" But the old gentleman knew *his* business (and as Senator Cullum would say, "you bet," he didn't propose to throw the honor over his shoulder.)

N.B. They laughed at Noah when Noah had "the greatest show on earth." It wasn't long before Noah had the *only* show on earth.

MORAL: "Don't prophesy unless you know."

CAVEAT EMPTOR.

When a man thinks he gets what he does not get, it is obvious to every unbiased person that he does not get what he thinks he gets.

The tear drop of the contrite cyclist is as refreshing as the shadow of a great rock in a weary land. Many of the buyers of wheels this season are shedding the repentant tears, because they have found that the big apples were all on top; the bicycle looked a beauty when new, but a few weeks' riding, a few falls, and it became:

"————————————————————A THING,
O'ER WHICH THE RAVEN FLAPS HER FUNERAL WING."

Or, to speak more correctly, it found a quiet rusting place in the junk store.

POOR WANDERING ONES,

EDITORS:

C. W. FOURDRINIER. J. S. DEAN.

Editorial Contributor, F. A. EGAN.

BOSTON, 3 JULY, 1891.

"THE facts in the case." Under this caption the Executive Committee exhaustively treats of the matter in the recent Chairman Randall and Rule G episode. We hope those of our readers who are interested in the matter will give the report a careful perusal, and while we do not purpose reviewing same at any length, we desire to call attention to one or two points.

In the first place Mr. Randall's Board removed the suspensions on the ground that such suspensions were "*unconstitutional.*" Now mark the fact that the suspensions were raised not because they were made in opposition to any *racing rules*, but because it was "*unconstitutional.*" Again, Mr. Randall was present at the joint meeting in New York, and it was discussed and agreed at the same meeting that "cyclists had a right to have expenses paid, provided they were not paid by certain persons." It seems that no vote was taken on the subject, but it was freely discussed and Mr. Randall did not then express any opposition to it. In view of Mr. Randall's Board officially announcing that the suspensions were *unconstitutional* and in view of the fact that Mr. Randall did not oppose the understanding that cyclists could have expenses paid, it would be in order for Mr. Randall (or his friends) to explain the apparent inconsistency of his actions. It would have been more in keeping with proper straightforward business-like methods had Mr. Randall then and there at the joint meeting combated the expense idea and announced his intention to have Rule G incorporated in the new rules. This, however, he did not do, but as soon as he returned to Chicago and got among his friends, he flopped over and the trouble began.

In regard to the personalities, we notice that an apology was sent President Dunn, May 11, while on May 13 a formal letter repeating the personalities was sent the Executive Committee and received by them on the 15th! Comment is unnecessary.

WE have received many inquiries in regard to the marvellous claims made by Editor Beranger of Worcester as to the speed of a cycle on which he has applied for patents. Mr. Beranger called on us about two weeks ago and showed us a sketch of the machine, giving a general idea of same, but not in detail. He claims that on his experimental machine *he had ridden* seventy-three miles within the hour (that there may be no mistake we repeat the number of miles as stated above, seventy-three.) We were naturally startled at this claim, but any amount of questioning did not shake Mr. Beranger's assertion that he had ridden that distance within the sixty minutes. We were promised ocular demonstration as to the ability of any man to drive the machine at the rate of 73 miles an hour and better.

We have been expecting a promised call by wire to Worcester to witness the public trial, and we have refrained from mentioning this machine until such time as we could examine it personally and see it work.

Mr. Beranger is a gentleman of standing, intelligence and refinement, and any claim he might make would carry with it weight, still we must place ourselves in a possible position of being obliged to acknowledge our error by expressing the idea that their must be some mistake. To travel at 73 miles an hour means a mile in about 49 1-2 seconds. The average rider approximately knows what this means so far as windage is concerned; that is he can guess, if he has ever ridden at a ten-mile gait against a 30-mile wind. Then comes the questions of friction and power, mechanical questions which up to the present time have seemed to be governed by laws as difficult to change as the laws which govern the course of the earth. But supposing that Mr. Beranger has discovered a new combination or principle in mechanics, how about the practicability of riding along the highway at the speed of 73 miles an hour?

It does not require a very vivid imagination to conjure up the difficulties and dangers of such a speed on a rough and crooked road. We all know that a train running on a smooth solid track at fifty miles an hour makes walking in the cars a difficult undertaking. Who has not passed from one car to another when a train has been running at speed that has not had great difficulty in steadying himself and keeping his hat on his head? Imagine tearing through the country at the pace claimed and the chances of accident and collision! The introduction of a machine capable of the speed that Mr. Beranger claims for his wheel would necessitate the building of special roads and no "grade crossings" either!

Finally, dear readers, imagine the results of taking a header from a machine travelling at the rate of 73 miles an hour!

Still we must give Mr. Beranger a chance to prove his claim, and we *may* have to correct our ideas as to the impossibility of any cycle travelling on the highway, or the track for that matter, at a speed equal to 73 miles per hour.

WE have been promised cuts in detail of this "record breaker," and until such time as we have seen the wheel in operation, successful or otherwise, and received cuts to illustrate, we refrain from a description other than to say that it is one large wheel with the rider sitting inside at a point where all the weight is brought below the centre. About one foot from the outer rim is another, the inner surface of which has spur gears cut. The frame on which the rider sits is a triangle, the three points of which are gears, which engage the inner rim. The steering is done by means of a two inch wheel at the end of a stiff spring trailey, which can be depressed so as to come in contact with the road or raised so as not to touch.

We prefer to wait and see before giving any more description. In the meantime, if Mr. Beranger demonstrates the soundness of his claim, we shall think that the days of miracles have come again.

WE begin to have a correct idea of the reasons why our esteemed Chicago contemporary, the *Referee*, has been so vigorously crying out that the L. A. W. has sold out to the A. A. U. We had other ideas on this subject, but the following sentence points out pretty strongly that the editor of that paper has not carefully read the terms of the Alliance. The sentence in our esteemed contemporary reads: "What chance of justice would a lone L. A. W. member have in the A. A. U. Governing Board?

Now the terms of the Alliance are these:

"3. Charges against any cyclist shall be tried by the L. A. W. except that a member of an A. A. U. club shall be tried by a committee of three, one of whom shall be named by the A. A. U., one by the L. A. W., and the third member by the two so chosen, providing the accused shall within twenty days after the receipt of a copy of such charges submit to the Racing Board proof of his A. A. U. membership and claim trial by such committee."

It will be observed that the "Governing Board" have nothing to do with trying a member charged with violation of the rules, and in the second place "a lone L. A. W. member" would not be tried by the A. A. U. or any members thereof unless he were an A. A. U. member also, and then he would be tried by one L. A. W. member, one A. A. U. member, and a third one to be chosen by these two. Of course if the editor of the *Referee* wants to own the earth and the terrestrial system, then the plan as above explained would not seem fair to him.

Now had the blunder been made by the "Cycling Authority" we should not have wondered, but that the really well posted editor of the *Referee* should make such a mistake fills our soul with dismay. If this is a sample of his knowledge of the terms of the Alliance we urge him to at once "read, learn and inwardly digest" that brief and very simple document, and who knows but that after mastering its intricacies he may be brought to a sense of its remarkable fairness. We would really like Mr. Miles to *read* the terms of the Alliance and *then* give us his candid opinion.

A LANSING (Mich.) correspondent writes us the following:

"My brother and I were riding along a very 'rocky' road, and had nearly finished a thirty-mile trip when we met an unloaded gravel wagon. On the right-hand side was a deep ditch, on the other plenty of room. I motioned the driver to turn out but he refused; and while attempting to dismount I struck a 'thank you, ma'am,' and was hurled into the ditch with great force, striking on my face. The doctors barely saved the left eye. Is there any redress for the unreasonable and foolish action of this farmer? Would it be wise to attempt to gain redress?"

In answer to the question we would say that if the driver of the wagon *refused to turn to the right*, and in consequence our correspondent was thrown in an attempt to avoid a collision while on the lawful side of the road, there is redress, and we hope that steps will be taken to secure same. We cannot quite make out by the letter whether the cycler was on the lawful side of the road or not. If not, then he can get no satisfaction, and the fault was clearly his, ditch or no ditch. In such cases the driver may show a disposition to be unaccommodating, but he could not be forced to take a position which in the first case was *unlawful and in addition, was dangerous*.

Our correspondent should have made himself a little plainer as to whether he was on the lawful side of the road or not.

Another question may arise: Was the road in such a condition and the deep ditch so unprotected as to make the passing of two teams at that point unnecessarily dangerous? If so, there may be a chance to obtain redress from the town where the accident happened.

THE Cleveland *Plain Dealer* has this to say:

"The action on the part of President Dunn of the L. A. W. in removing Chairman Charles E. Randall of the Racing Board may result in the dismemberment of the League. If its effect is not so sweeping, it will be little short of that. The removal of Randall is looked upon by some as the beginning of a war between the Eastern and Western wheelmen."

Our comment may be laconic, but it is to the point. Here it is. Nonsense!

WE notice a growing tendency, especially among the very callow cycling youth, to affect the racing man's form. It is a common sight to see this class of riders sitting very far back on low saddle, with body bent almost double, and a general aspect of having a very bad stomach ache. These youths generally desire to impress the spectator with the idea that they are scorchers and racing men; and were it not for the bad results which must accrue from riding in such form their appearance would excite our mirth. In a great many instances, which we have noticed lately, the age of the would-be scorcher is not over that when the parents have corrective powers, and we hope for the cause of cycling, and the prevention of a round-shouldered, curved-backed generation of young men, that the parents in such cases will exercise their powers and prevent their offspring from permanently deforming themselves by aping a style of riding which *may* be requisite to get speed out of a racing machine, but is ridiculous and out of place in an every-day road rider.

THE English Cycling press is fuming and fretting over the question of allowing cash prizes for amateur events. In Australia the amateurs are allowed to ride for cash prizes. We doubt very much whether this country or England is quite ready to accept this very radical change. The advocates of the cash prize idea in England are known as the "new blood section."

RACING by electric light seems to have had a decidedly successful trial at Louisville, Ky. It would be interesting to know just how the lights were placed, and what modifications if any were found necessary.

FOR the honor of Columbia's fair daughters will some one hasten to refute the following charge, taken from Violet Lorne's Column in *Bicycling News*, that the rider was "an American?"

"A valued correspondent writes to tell me that at last she has seen a lady safetiest in the West of England, the first specimen in those regions, though long and anxiously looked for. Says my correspondent: 'I must say the faults I find with her are—saddle much too low; dress, blue serge skirt trimmed with black braid, body brown velveteen, very tight, trimmed with gold braid. She rode fairly well, but very slowly. I was told she was an American. Her machine is a cushion-tyred "Psycho," lined with red and yellow. She jerks up and down very much in starting, and the saddle is so low the machine hardly tips a bit when she puts her foot flat on the ground.'"

WE present this week the first half of a valuable practical article from Sterling Elliott on the road building and maintenance question. We notice one thing in the article, and that is he lays great stress on the matter of the pressure width of tires, a phase that has heretofore been practically ignored. The article is worthy the source, and that is enough said.

IN a prize article written on "Cycling for Women" it is charged that cycling is harmful for people suffering with varicose veins. Says Violet Lorne on the subject:

"This seems to be a popular superstition, yet I personally know of more than one case where women have been cured of that distressing affliction by moderate cycling, and I can bring the testimony of the people themselves to prove it. The exercise is most beneficial for anything of the sort, since the weight of the body is taken from the legs, and the movement of the pedals supplies the gentle circulation which is required without undue fatigue."

ONE thing Bishop Coxe "fulmination" against lady riders has done, and that is, his remarks have been widely noticed, and in every instance, so far observed by us, severely condemned.

THE Irvington, N. Y. Cycle Club will have a ten day wheeling trip beginning July 4th.

W. F. MURPHY has recently added a pneumatic ordinary to his stock of racing wheels.

THE Jersey Clubs have completed the arrangements for their Inter-club Racing Association. The charter members are the Hudson County Wheelmen, Atlanta Wheelmen, Business Men's Cycle League and Union County Roadsters. The initiation fee for new members will be $5. The next meeting will be held July 1, when a committee which has been appointed will submit a Constitution and By-laws.

THE winner of the prize for the best ladies' wheel in line at the Brooklyn parade, and whose name could not be learned on the day, is Miss Bonner of No. 254 Clinton street, Brooklyn. The wheel was a tandem and Miss Bonner's sister occupied one of the seats. The decorations consisted of a very handsome floral piece, surmounted by a white dove, from the beak of which streamers of red, white and blue ribbons connected with the handle bars of the machine.

THE young lady riders of Rockford, Ill., recently organized a cycling club, and the club starts off with ten members.

THE increasing number of lady cyclists in Poughkeepsie, N.Y., makes a bicycle club for women a possibility of the future.

THE Watertown, N.Y., Cycling Club are making arrangements for a gala day, July 4th. They expect many visiting wheelmen and will have a grand parade in the afternoon, and a lantern bicycle parade in the evening. It will be the wheelmen's day in Watertown. A programme of nineteen races has been prepared and suitable prizes will be given in each event.

MESSRS. GOLDSMITH AND BRUCKHELMER of the Gotham Wheelmen will take a two weeks' tour awheel over Long Island about the 1st of July. Stops will be made at all the cities on the route.

A CYCLING club has recently been formed at Neenah, Wis.

HOLLEY, N. Y., falls into line with a cycling club, recently formed, with fifteen members.

THE Poughkeepsie, N. Y., Bicycle Club are making extensive arrangements for their moonlight excursion on the steamer Mary Powell on the evening of July 21st. The Newburg Bicycle Club is co-operating with the Poughkeepsie Club and there will be a large representation of Newburg's "400" in the party. There will also be a large number on the boat from Wappingers Falls.

SEVERAL members of the Riverside Wheelmen appear anxious to accommodate Mr. Mostin of the Gotham Wheelmen with a race.

THE Worcester, Mass., Bi. Club will hold a field day on July 4 at M. A. Wheeler's at the Summit. The events will be a 100 yard dash, hop, step and jump, 25-yard slow bicycle race, three-legged race, doughnut race, tug of war, running high jump, standing broad jump and base ball game.

JERSEY CITY, N. J., is to have a cycling club organized under the auspices of the Y. M. C. A. of that city.

JAMES CARPENTER of Providence visited Bullock's Point Sunday, June 22, on his bicycle, and in attempting to pass a carriage on the way home was knocked off, and his collar bone fractured. As he approached the carriage near the Pomham Club gate he blew his whistle, which, frightening the horse, caused it to shy and throw Mr. Carpenter to the ground, injuring him, as stated above. His wheel was somewhat damaged. The owner of the carriage took the injured man in and carried him to the city.

S. J. BLACK of Cleveland, Ohio, who is riding a wheel from Cleveland to San Francisco on a wager, arrived at Muscatine, Iowa, June 22, the provisо being that he pays the expenses of the trip with the money he realizes from exhibition of fancy riding in the cities through which he passes. He expects to be 57 days on the journey.

THE York (Pa.) Bicycle Club held a picnic at Springwood on the evening of June 23. A large number of guests were present and an enjoyable evening was passed by all.

TWELVE members of the New Haven Bicycle Club took a run to Bridgeport on Saturday, Jue 21, as the guests of the Bridgeport Wheel Club.

A LARGE delegation of the Hudson County Wheelmen under the lead of Capt. McAra are going to Greenwood Lake and vicinity on July 4, returning the next day. The members of the club expect to have a royal time.

THE Auburn (N. Y.) Cycling Club had an outing on June 19 on Owasco Lake, and it was a very pleasant affair. Refreshments were served on the steamboat, and a general good time followed.

THE one-mile safety race at Hartford, Conn., on July 4 for the championship of Hartford, will probably prove the most interesting event on the programme. There are at least twenty competitors for the event, and they are all hard at work in anticipation of carrying off the coveted honor.

"WE regret that the West Philadelphia Bicycle Club, which organized at Forty-first street and Girard avenue a few months ago, and opened a handsome new club house, which they furnished elaborately throughout, has been seized for rent by the sheriff, and their goods and chattels all put to the hammer. The club was a promising one, but some of the members had a dissension among themselves which caused the collapse."—*Exchange.*

CAPT. SEELEY, in company with several members of the Bridgeport Rambling Wheel Club, went to New York city on Saturday evening, June 20, and spent Sunday at Coney Island as the guests of the Gotham Wheel Club.

REV. CHAS. B. MITCHELL, pastor of the Plainfield Methodist Episcopal church, was seriously injured on June 20 while riding a bicycle. The reverend gentleman was coasting a steep hill near Fanwood on a new cycle which his parishioners had given him, when a dog run out in front of him. A collision occurred and Mr. Mitchell was thrown headlong to the ground. He was badly shaken up internally, and the machine was completely wrecked.

HAVE you lost a bicycle? Harry Moody has donned the uniform of the Salvation Army and under cover of this sheep's clothing has entered the sheep fold of the innocent dealer hiring and then stealing cycles wholesale by representing himself as desiring to distribute "War Cries." His field of operations seems to have been confined to Massachusetts, Maine and New Hampshire. Detective S. B. Reed of Haverhill, Mass., captured Mr. Moody, and in cases where dealers have been victimized it would be well for the parties in territory named to write Mr. Reed.

H. P. NICHOLS and F. W. Elliott of Plainfield while riding on the right side of the road on Park avenue, that city, June 1st, were deliberately run into by a team driven by F. Hand, and the cyclers were thrown and more or less injured. Proceedings were at once commenced, and Hand was compelled to pay all costs and damages.

MR. F. F. PEARD, late editor of *Cycling*, Toronto, and latterly of the Illinois Cycling Club, Chicago, has removed to Baltimore, assuming the management of the Remington Standard Typewriter Co. branch there.

THE Juniata Wheelmen of Huntingdon, Pa., hold their fourth annual meet to-morrow, July 4th.

IN the Boston Inter-club Association race last Saturday there was not a single pneumatic tire.

THE Cortland (N. Y.) Wheel Club will hold its first annual tournament, August 1st.

THE Phelps Cycling Club was recently organized at Phelps, N. Y.

TWENTY-FIVE young lady riders of Jersey City are to organize a cycling club to be annexed to the Hudson County Wheelmen.

THE Fall River Cycling Club will hold a tournament July 18.

THE New York Park Commissioners have passed an ordinance requiring wheelmen to carry two lighted lamps when riding at night, one in front and one at the rear wheel.

WE understand that the school committee of Dover, N. H., is considering a proposition to purchase bicycles for the use of scholars in outlying districts in view of the large outlay for transportation which is required under the new law. We venture to say that should the scheme be adopted a remarkable punctuality would be noticed on the part of these scholars.

MR. ARMSTRONG of the East Orange Cyclers who rode the full distance in the great century run recently held, broke his collar bone three days before the race took place. He certainly exhibited great pluck.

G. A. GILPATRICK and Henry Dahinicke left Helena, Montana, on June 26 a wheel for Chicago. They expect to make the distance in forty days.

THE newly organized Watsessing Wheelmen of Orange, N. J., will hold their first annual club race on July 4. The race will be a 5-mile handicap, and promises to be an interesting contest, and also it is expected that considerable speed will be shown by some members of the club.

THE Young Women's Christian Association of Worcester, Mass., have organized the Hickory Bicycle Club.

THE bicycle rage has reached China town of this city, and three of the Celestials now ride the popular steed, "Alle same Melican man. Too Lee rides in reverse curves with all the grace of a Boston dude. Fred T. Merrill of Portland is responsible for this excitement in this town."—*Hoquiam (Ore.) Washingtonian.*

THE Lockport, N. Y., Wheelmen had a club run to Harmony's on the evening of June 26; a large number of members were in line, and the affair was a grand success.

THE Valley Point, N. Y. Bicycle Club has received an invitation to be the guests of the Nevada Bicycle Club on July 4.

THE wheeling division of the Passaic Athletic Club made a moonlight run to Little Falls on the evening of June 24. Supper was partaken of at the the latter place, and the start for home was made at 10.30 P. M. The affair was much enjoyed by all who participated, and it will probably create an interest in club runs among the members.

THE Lincoln Cycling Club of Chicago, Ill., will camp at Nagowicku Lake the first two weeks in August.

MILLS, the winner of the recent French road race, secured eight medals in his race.

IT is said that Capt. Bensinger, of the Kings County Wheelmen, will make an attempt to lower the 25-mile road record this fall.

THE Haverhill Cycle Club enjoyed a moonlight run to Georgetown on the evening of June 24. Twenty-five members of the organization participated in the trip, and supper was served at the Pentucket House.

THE Canonsburg Wheelmen is the name of a new wheeling organization in that place.

WHILE Dr. H. F. Hicks and Horace H. Jarvis, prominent young men of Joliet, Ill., were enjoying a whirl on their bicycles the other evening, they accidentally came into collision when turning a sharp corner at the court-house square. Both riders were thrown violently to the pavement and seriously injured. Dr. Hick's injuries may prove fatal.

CAPT. FREDERIC, of the Crescent City Cycling Club, has challenged the New Orleans Bicycle Club to a team road race, any distance one to fifty miles, for a suitable trophy, same to occur within two months.

MONTGOMERY, Ala., has a new cycling club, to be known as the Riverside Wheelmen.

THIRTEEN members of the Somerville Cycle Club made a run to Salem Willows on Sunday, June 21, and took dinner at the Essex House in Salem.

THE Hudson County, N. J., Wheelmen dedicated their new club house on Thursday evening last, and Jersey City wore its holiday attire in honor of the organization and its visiting guests. The festivities of the evening opened with a lantern parade, in which about 500 cyclists participated; representatives from all the leading clubs being in the line. The decoration of many of the wheels was simply magnificent, and the club house of the Jersey City Athletic Club was elaborately decorated in honor of the event. After the parade, which was a grand success, the cyclers flocked into the new club house, and to say that they made the house warming a merry one is putting it mildly. The Hudson County Wheelmen sustained their reputation as royal entertainers, and an abundance of eatables were ready and promptly served, until the hungry cyclists were forced to cry "enough." After the ice cream had been disposed of, the entertainment was in order. There were numerous speeches of congratulation from the captains of various clubs present, and all gave the Hudson County Wheelmen great applause for their hospitality. The festivities of the occasion lasted long after midnight, and will be an occasion long remembered by all who were fortunate enough to participate.

STOLEN, from College House, Cambridge, Mass., Singer safety, 1889 pattern. At the time of theft the rear wheel had several spokes out, all the mud guards off, that of the rear wheel being broken; the saddle was the Brooks, (setting on their special springs.) Address G. W. Tower, No. 536 College House, Cambridge, Mass.

THE Waiontha Bicycle Club of Richfield Springs, N. Y., are making a big effort of their fifty mile handicap road race August 4th. The entries close July 18th at six P. M.

THE programmes and list of prizes of the Waiontha Bicycle Club's tournament are in press. The Waiontha's are noted for giving fine prizes at their tournaments, and this year they will be above the average. Racing men should put Richfield Springs, N. Y., down on their schedule for August 4th.

ON the 28th ult. H. Affleck, Percy Yoeger and T. C. Casner, members of the Columbus (Ohio) S. C. C., made a century run from Columbus to Springfield.

THE local wheelmen of Grand Rapids have been invited to celebrate the 4th of July at Muskegon; the invitation comes from the wheelmen and citizens of Muskegon, and includes dinner and supper.

EX-PRESIDENT HAROLD R. LEWIS, of the Philadelphia Bicycle Club, started on Saturday for Vancouver, whence he takes steamer for far-away Japan. Mr. Lewis will spend August in Japan, touring through the country on his bicycle, and returning home in the fall. Mr. E. W. Burt, president of the club, had expected to accompany him, but found himself unable to go at the last moment.

CHIEF CONSUL AND MRS. BOYLE, of Philadelphia, will spend the summer abroad. They sailed on Saturday and will be absent until September. During Mr. Boyle's trip the interests of the Division will be looked after by Vice-Consul Trimmer and Secretary-Treasurer Van Nort.

NOW that it is getting so near time for the Hunt's tour the expected participants are getting quite enthusiastic. The route of Hunt's tour has been ridden by several wheelmen, including Mr. H., and all report the roads in fine condition. Remember the tourists start next Saturday, July 11th. The time is near. Now make up your minds whether you go by tour or by rail and miss the fun, nice ride and banquet at Ann Arbor.

THE Press Cycle Club of Buffalo (N. Y.) has adopted the newest fad. It is a uniform of fine cloth, of a peculiar brown or tan shade. This club is the only one in Buffalo in other than black suits.

THE Cincinnati "Gym" will open their athletic grounds with a grand hurrah on July 4th. The handsome club house is almost complete; the boat house is also ready; the track quarter mile, fifteen feet, with a straightaway of 150 yards, 24 feet wide, curves as long as possible, with a raise of nearly ten inches, bids fair to be one of the finest in the country. The programme will comprise bicycle and sprint races, boat and swimming races, match game of base ball, match game of lawn tennis, etc. The prizes to be yearly membership cards to the gymnasium. Congratulating Superintendent Murphy on his success in at last supplying a long felt want, we bespeak the co-operation of Cincinnati wheelmen to make the bicycle races especially attractive.

SAYS "Jasper" of Buffalo: "There is now a good chance for some Buffalo inventor to make an everlasting monument of his name by inventing a chime of bells to be used as an alarm, and to be applied to the bicycle. A Buffalo alderman wants the law so amended that all wheelmen shall ring their bells at all crossings, and show a red light. Won't there be music in the air, and a procession of fire flies? The bells may be a go, and ring forth their silvery notes, till some other alderman will want the law so amended that the bell ringing may be declared a nuisance, but as for the red light, well never."

EIGHT members of the Lebanon (Pa.) Wheel Club took a spin to Harrisburg on Tuesday, June 23, to witness the "Siege of Sebastopol." While in the city they were handsomely entertained by the Harrisburg Wheel Club. They returned to Lebanon the same night by moonlight.

J. S. ARMSTRONG and W. T. Gaches of the Keystone Bicycle Club of Pittsburg, Pa., were the guests of the Wanderers' Bicycle Club of Buffalo, for two evenings last week; these gentlemen visiting friends in Tonawanda and will go to Rochester with the Wanderers on the 28th.

THE Wanderers will hold the fourth in their series of races in about two weeks, or as soon as they can get the use of the track; this race will include a 3-mile for ordinaries, a 3-mile for safeties, and a half-mile and mile contests for both wheels.

THE Toledo Cycling Club of Toledo, Ohio, will be pleased to consider as their guests all wheelmen who may choose to stop at Toledo en route to the Detroit national meet, and they extend to all such the use of their club house and all the privileges enjoyed by its members.

THE participants in the great Century run on June 13, who wish a photograph of the party taken near Plainfield, can secure same by applying to Frank L. C. Martin, Captain Plainfield Bicycle Club, 75 Park avenue, Plainfield, N. J., for $1 a copy. The photograph taken in Fairmount Park, Philadelphia, can be had by applying to C. W. Dalsen, Captain Century Wheelmen, 1507 Columbia avenue, Philadelphia, Pa., for $1.50 a copy. Both of the photographs are excellent, and every person who made the run, will, no doubt, be anxious for one. The souvenir medals can be had of Mr. W. E. Fuller, 50 Wall street, New York. Every applicant for one is requested to give his number in the run and the address to which it is to be mailed. The price of the medal is $1.25 each.

HAWKSHAW'S COLUMN.

MANY things that in themselves are actually beneficial, by excess and injudicious use and application, become in time so perverted from their original status as to be hardly discernible as blessings. When the trade first took hold of the bicycle as a means of advertising various wares, I was one of the first to note the fact, and to encourage the practice, thinking that the gospel of cycling was thereby being spread throughout the the land. Now, I am going to cry a halt; a positive nuisance has grown out of making children peddlers (in both senses of the word) by offering them bicycles to sell certain wares of the advertiser, or to boom the circulation of some moribund periodical. To a cross-grained old bachelor like myself, children are naturally a great enough nuisance; but when you offer them "a bicycle free" if they get so many subscribers to the *Washerwoman's Fashion Journal*, or the Never Cut Lawn Mower, life becomes positively unbearable in the neighborhood of any juvenile bent on getting one of these machines. Aside from this, the bicycle is put in an unpleasant and degrading position; it becomes part of a gift enterprise, and its association therewith does not tend to promote its elevation. Let us have a rest on this "bicycle free" game; it is pretty well worked out, and the public is pretty well worked up in regard to it, so that the ringing down of the curtain will be a benefit to both audience and performers.

Miss WHEELER—Does your wheel osculate?

SMART CLERK—No, but its owner does.

"Does he? Well, I should just like to see him do it."

(Kissing her) "With all my heart."

"Oh, you wretch!"

"You said you wanted to see me osculate, and that's what I did."

"But I meant oscillate."

"Well, it was a mistake then, but I thank you for it just the same."

It is an awful hard thing for the patent medicine men to keep their hands off the bicycle. They are fully cognizant of the fact that cycling is the greatest medicine in the world, and that thousands and thousands are seeking health by riding, that formerly purchased a large portion of these much advertised nostrums. Once a man forsakes medicine for cycling, he is lost forever to the pill vender, and well that individual knows it. I expect every day to see the columns of the press, and the dead walls and fences of the country at large, covered with display advertisements of some patent medicine claiming to be the extract of the health-giving properties of wheeling, bottled for family use, so that the world will no longer have to ride a wheel to enjoy the benefits of cycling. That this is not altogether a far-fetched idea may be seen by an advertisement now appearing in the papers. It is ornamented with a cut of a rider mounted upon a machine combining the features of a Star and an ordinary; that is, it has a backbone and a front one. When one is attracted by this peculiar and impossible machine, he finds beneath it the legend that "the greatest safety for bicycle riders lies in having a bottle of Perrine's Pink Pain Killer." Perhaps it does, but I am very much afraid that so long as wheelmen are as healthy a set as at present, that Perrine's Pink will not meet with any great boom from its sales among cyclers.

I want you to print the following extract from the *Sun* anent Bishop Coxe's attack upon the practice of wheel riding by women, as it is not often that the lay press speak at the same time favorably and correctly regarding cycling, and when, as in the present case, they do so it should be credited to them:

"It seems that many amiable but athletic women of Buffalo are much distressed because Bishop Coxe, in a public speech, has asserted that the girls he had seen riding on Delaware avenue looked like old women on a broomstick. How an old woman looks riding on a broomstick the average unsophisticated teetotaler does not know and cannot imagine, but doubtless this and many another strange vision, beatific or diabolic, may be perfectly familiar to the purged spiritual insight of a prelate. Yet even if a dainty woman speeding decorously and swiftly on a well wrought bicycle does suggest such a remote and other worldly pageant to the hyperæsthic Bishop, that is scarcely a sound reason for the women of Buffalo walking instead of cycling along their own beautiful avenues. A girl who looks an angel off a bicycle would to the average young man look an angel on one, and the ladies whom Bishop Coxe saw riding may have always seemed to him like witches from "Macbeth," but till now he did not dare to say so. What was the color of the Bishop's spectacles? the lover might inquire; or is the Bishop hard of hearing and was he nearly run over by a flying siren?"

The effects of cycling as an exercise are twofold—first, local, on the muscles themselves, and secondly, general, on the body as a whole. The former produces muscular strength, the latter a state of functional perfection of the vital organs and their several activities which constitutes health. Muscular strength and vigor of constitution are not all the same thing, though most riders confound one with the other. A first rate rider may have within him the germs of consumption or be otherwise unsound, and muscular power may even be developed at the expense of the rest of the system, just as the memory may be cultivated to the detriment of the mental faculties. Care should then be taken to ride in accordance with the rider's conditions and needs, so that the benefits he seeks, and certainly can secure from the wheel, be not replaced by injuries that a little study would enable him to avoid.

"HAWKSHAW."

SOME POINTS ON ROADS.

REMARKS OF MR. STERLING ELLIOTT AT THE JUNE MEETING OF THE YOUNG MEN'S ASSEMBLY.

THERE has been some speculation as to what constitutes civilization. Religion, science, art, literature, all come in for their share, but there is one visible sign more clearly distinguishable than all the rest, more obvious to the wayfaring man and more widely recognized because more easily and universally appreciated than any other evidence of man's advancement, and that one thing is the condition of the highway.

The original and only true American (the Indian) wandered through the unchopped forest, dodged the trees and rocks rather than to remove them, used a path, not a road, he let his hair grow, said what he thought, allowed his wife to do most of the work, didn't smoke cigarettes, and in various other ways built up a reputation for being uncivilized.

Where is he to-day? He is practically crowded out by his pale-faced avaricious brother who builds roads, doesn't always say what he thinks, and unfortunately doesn't think any too much, but by acting quite differently from his copper colored ancestor he passes into history as "civilized man."

Suppose you didn't live anywhere, and you were driving through the country looking for a place to locate, you come into a totally strange place, remember, now, you have no sympathy for the location, it has no purely sentimental attraction for you, it wasn't the home of your childhood, it isn't the home of any of your friends, you never heard anything about it but it is to you just simply one of a thousand places and you are without prejudice. What would you be most likely to be influenced by in your choice of this place as a location in which to build a home? You might see an elegant residence, shade trees, lawn, etc., but it isn't for sale so you can't live there, and even if you could you wouldn't stay in the house all the time. Then the only part of the town that is all yours, as far as you care to use it, is the road, and if that is in a bad condition you are bound to believe that there is something wrong with the management of that town.

Even though it may have natural advantages and beauties, the stranger is not apt to stay long enough to find them out if the roads show lack of care on the part of the corporation.

The actual saving in dollars by having good roads, and when we say dollars that puts it on a basis we can all understand, the saving in dollars is something surprising if you haven't looked into it. We know that a considerable portion of the cost of everything we consume is due to transportation expenses, and it makes a very interesting difference to every one of us whether a horse can haul one ton or whether he can haul two tons. A load which may be hauled by one horse on a smooth iron track requires nearly forty horses on a sandy road, and only two or three on a first class macadam road. The difference in the power required to move a given load on the ordinary country highway is about seven times as great as is needed on the more civilized road.

To make a practical application of these facts. After deducting for all allowances that anybody could possibly claim, it is obviously true that the farmer's horse could haul three times as much over a first-class hard road and with less wear on the wagon than he can do on the average country road.

But when any plea for better roads comes from a bicycle man the typical farmer is apt to say, "Oh yes, we know them buysickle fellers, they want us to help make better roads so they can ride them cussed hoss-scarin' masheens." The bicycle may sometimes see a horse but that is because the horse is not yet civilized. If better roads are evidence of a higher life, and no one doubts it, then the bicycle must be counted as one of the greatest civilizing influences. Why, when a man is only a driver he don't know for certain whether a road is good or not, even though it may look all right. But as soon as he becomes both driver and horses he at once begins to study the face of the earth. Some of the roads over which he used to urge a horse at full speed because the surface looked smooth, begin to appear to him in a new light and he has more sympathy for the horse. Let me tell you that the bicycle is doing more for the horse than he can ever understand. I believe that half the time when the horse seems to be scared at a bicycle he is only surprised at its progress and wants to get out of the way before it runs over him.

As it is a self-evident fact that we need good roads and that they are an advantage to all rather than any particular class, the real question that concerns us is, how to make and maintain good roads.

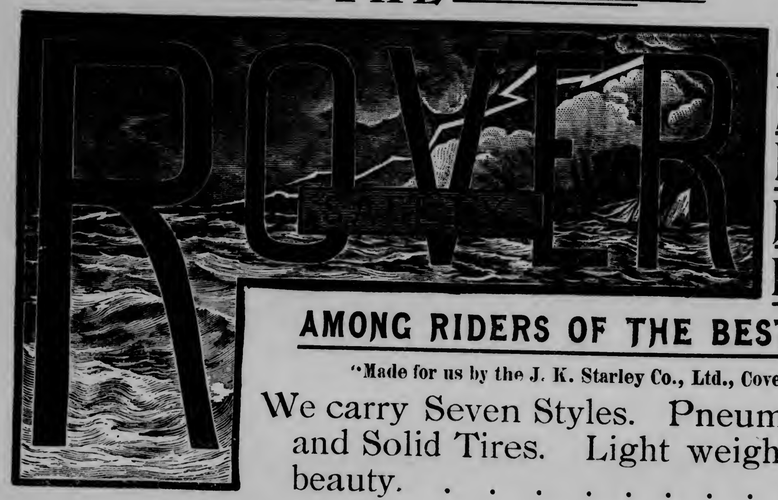
Probably the best form of road, first cost and cost of future maintenance considered, is that constructed on what is familiarly known as the McAdam principle. I don't know why it is called McAdam, unless it was that Mr. McAdam was born about the time such roads were first introduced, though he had much to do with their later popularity.

The first man to use broken stone in this way for roads was a French engineer named Tresaguet, who made such roads very general in France, at least thirty years before McAdam's time. But these roads were first given a distinctive name in England and McAdam was an Englishman, which I think will to some extent account for the name. There would be

The Latest Success.

THE

Cushion Tired Eagle Light Roadster.



Thoroughly Tested on road and track it has proved its superiority.

The Cushion Tire adds one more to the many advantages of the EAGLE. It makes the EAGLE equal to the Pneumatic in comfort, while avoiding the many disadvantages of inflated tires. The CUSHION TIRED EAGLE only needs to be tried to be appreciated.

no use however to try and detract from the fame of McAdam in the vicinity of Boston for the first part of his name was John L.

The only improvement that has been made in this line since the days of Tresaguet is in the manner of breaking the rock, it now being mostly done by power other than man power; the steam crusher accomplished what it does by the working of its jaws (a movement with which I am in hearty sympathy). The other important improvement is the road roller, in which I shall point out some faults directly.

Ice that would hold up a small boy safely might break through under the weight of a heavy man. It is beginning to be understood that a road that will do for light carriages is not necessarily good enough to stand heavy teaming. A law has recently been enacted in the State of Ohio, regulating the weight of load that may be carried on wagons having a certain width of tire. This is a move in the right direction, and until this thing is controlled by law it will be still more difficult to keep up the road surface. But I know of no law (at least no human law) that regulates the weight of road rollers. This is a question, as you will see, of the most vital importance. If you were to put up a rope swing for your child to use, you would want to test it with your own weight at least. You would want to know that there was a large margin of strength above what was needed to hold the child. Certainly you wouldn't test it with the weight of a child and then expect it to hold a man with any certainty. But this is precisely what has been done and is done every day in the making of roads.

TO BE CONTINUED.

LADIES, GO TO DETROIT.

THERE is an all-pervading interest manifested in the coming L. A. W. Meet to be held at Detroit in July, and through it all there has been but little said upon your pages of it being a meet for wheelwomen as well as for wheelmen; but the fact remains that it is a meet for wheelwomen, and Detroit expects an influx of the fair riders. Come, girls, bring your wheels and be prepared to wheel, for there are enough of the feminine element who ride that will welcome you, and while you are "just wondering whether you had better come or not," take a peep by proxy at our beautiful City of the Straits, and follow me while I try to picture some of the magnificent runs to be found in and about Detroit.

One of the most enjoyable, but perhaps the shortest, is to the "Island," or more properly speaking Belle Isle, which is conceded by even connoisseurs to be one of the most beautiful spots on earth—then why should I not take you there first? We start from some common starting point near the centre of the city, then out Jefferson Avenue, which is paved with asphalt, lined upon either side with grand old trees, back of which are situated the palatial homes of our Detroit millionaires. Coming now to the entrance to Belle Isle bridge, you will find a slight rise in ground for about a common block, but smooth as asphalt, then you strike the bridge proper. Now, don't go too fast, but take it slow and drink in the beauties of our grand and noble river, draw a deep breath of the pure, fresh air, and do not exhaust your stock of adjectives on the water, you will yet see nature in other phases of her glory. Now put on a little more steam, pedal a little faster in order to take a good, long coast at the other end. Away we go, down and up half way across the small bridge! Isn't it glorious? Who says there is no "heaven" upon earth! This is a veritable Paradise.

Let us now proceed to the Casino, a pavilion for the purpose of dispensing cooling shade, and—cooling drinks. By the way, let us take some lemonade before "taking in" the Island. That disposed of we will turn our wheels directly from the Casino, take the centre avenue, a wide, hard gravel road, with wooded lawns upon either side, small graveled foot paths cut out for people who are not so fortunate as to own a "bike," and last but not least, along the shady stretches we hear little birds which make music for rich and poor alike, and the saucy, red squirrel, which scampers across your path at various times with a crumb of cake or bread some picnicker has left from his lunch. The pert thing is really an autocrat, as neither man, woman or child are allowed to molest him. He knows it, too, for he looks at you with his little head cocked on one side, and his bushy tail arched over his back, with such a knowing air of safety.

We have not ridden perhaps a quarter of a mile (I'm not good at guessing distances) when we come to a "fork" in the road, which allows us to make a choice of two smaller roads that run through the woods. We will take the right hand one, I think, and go straight to the head of the Island. This road the hand of men has not touched, except to improve upon the road bed, but they have allowed God's handiwork to remain undefiled, and to my mind it is the prettiest spot on the island. The dense foliage of those trees overhanging the road like a green velvet drapery, making a natural awning the entire way, and looking like some triumphal arch fit for a queen to pass through. There are hosts of wild flowers in full bloom in their season growing along the side of the road, which seems to literally "spread the way with roses," the fragrance of which is not the least in their favor.

As we near the head of the island you can see where sky and water fairly meet, as a friend calls it "a beautiful waterscape"—beautiful does not half express it, it is grand, almost awe-inspiring to one who for the first time witnesses the scene. Ah, my little lady, I knew you would draw a breath of unutterable delight when you looked out upon this bit of nature. Let us now "tie" our horses and sit down for a cooling off (of course wheelwomen never catch cold), and talk of the various matters and things which interest the feminine mind, and which I of course will leave out of this narrative, as I do not think they would be interesting to any but ourselves.

After we have rested sufficiently, we will resume our spin by riding down through the companion road to the one upon which we came, an almost exact counterpart of the other, and therefore needs but a mention, it being as thickly wooded, as cool and shady, and just as many of the feathered tribe, who discourse the sweetest music for our entertainment, as we glide along to the song of the "click, click" of the chain. We have again reached the intersection of the two roads, and will pedal a short distance down the centre road again until we come to a dividing road that runs directly through the island, crossing the avenue we are upon. If you please, we will turn to the left, and go over to the deer park, from there we will continue this road until we reach the outer road along the river bank, and along a made canal that wends its way through the island and terminates in small lakes dotted all over with row boats. There are numerous bridges spanning the canal, and numerous roads by which we can again reach our starting point, the Casino; but I am anticipating a little. Let us cross one of these roads and go right across to the other side of the island. While this latter road is not nearly as good as those we have traversed, it being an entirely new road-bed, still, it is quite "wheelable," and I wish to show you our two new club houses, the Detroit and Michigan Yacht Clubs. They are certainly very handsome structures and an ornament to the island. We will now wheel back to the Casino, reaching which I would like to have you come up-stairs out on the veranda and take a bird's-eye view of the "most beautiful spot on earth," after which it is your option whether we take a boat home, or wheel home the same way we came. I think I advise taking the boat, as it would be a change, and you can see something of the Detroit river.

This is only one of the many famous runs, and the favorite one—especially with the ladies—and I notice the gentlemen get up there quite frequently, too, in Detroit. Another, and one I have neither time nor space in this issue to extol, is the "Pointe" run, a round trip of about eighteen or nineteen miles, on a road as smooth as a floor, shady and cool as the bow of the "summer girl" in winter. There is another to Highland Park, on the Pontiac road, and the road upon which the Detroit Wheelmen races are usually run; still another, along the same road to Senator Tom Palmer's Log Cabin, which is always open to visitors' inspection, and merits it, too.

Come to Detroit, girls, in July, and we will all bid you a most joyous welcome.

N. M. H.

A SUGGESTION FOR DETROIT.

By STERLING ELLIOTT.

IT is usual and has been considered proper for the principal officers of the League to hold a reception at the annual meeting, which this year occurs (though "occurs" seems like a feeble word) on July 16, 17 and 18, at Detroit, Mich.

With the possible exception of the Secretary, the officers put on their McAllister uniforms, and *including* the Secretary they stand in a row like a primary spelling class at a country school, and the "reception" begins. Someiman combining the necessary amount of dignity and cheek (as for instance "Sandy" Lawton or Bro. Mott, or in an emergency Geo. Atwater), acts as "master of ceremonies," (that's what they call him at a prize fight; I don't know what would be the correct name in this case), but however, he stands opposite the head of the class. The piano is agitated by some one who is deft (and also possibly deaf), the door is opened and all is ready. The first applicant for an introduction presents himself, the keeper asks in a low tone, his name, which being answered he turns to the head of the class, and says: "President Dunn, allow me to present Mr. Scroggs of Scowhegan; Mr. Scroggs, President Dunn." They shake hands, each informs the other that he is happy, pleased, delighted or whatever, when everybody knows that the one is bored, the other embarrassed and neither benefitted. Mr. Scroggs passes along the line to the "tallenders" (as a base ball man would say), the ceremony is repeated with each of the officers while a new grist of people is being let in at the door, and they followed by still others, forming a line far out into the night.

Now I don't believe that this is the best way. Of course, it is proper and right that at least once a year we should have a chance to see (and size up) the men who hold our destiny as in the hollow of their hands, but when it comes to holding anything more than our destiny I question the advisability of it.

Manufacturing in duplicate and in quantities leads a man to want to see as many birds killed with one stone as is possible. Why not adopt the same plan in manufacturing popular sentiment?

I would have the League Officers mounted at one end of the hotel parlor on a platform, made of tariff reform planks, resting for a foundation on empty flour barrels. When the audience was assembled I would have some competent orator, say Mr. Potter of New York, who should say something like this: "Ladies and gentlemen: (These terms are supposed to cover all League members). I have the pleasure of calling your attention this evening to an exhibit such as you can rarely see at so small a cost. The first specimen (pointing toward it) is James Randall Dunn, President of the League of American Wheelmen. He is a scholarly gentleman and knows a good chairman when he sees one. It was he who split up the Racing Board with his little acts, and the better element of the League said well Dunn.

The next specimen, ladies and gentlemen, is Walsingham Mozart Brewster. Stand up Pop, and let the ladies look at you. Isn't he elegant? He is supposed to carry in his spacious pocket the dead loads of money which the League has left after paying the salary of the next attraction to which I shall call your attention. Abbot (with two b's and one t), Bassett (with two each of s's and t's). Here, ladies and gentlemen, you see what is perhaps the most nearly indispensible of all the League's fixtures. Mr. Bassett was born in Chelsea, Feb. 31, 1868, and has never been born again. He can tell an amateur from a professional at ten paces if the wind is right, and you may hand him a dollar anywhere on earth and he will take it and put it in his pocket every time. He rides a Hickory bicycle, and is the only one of the League officers on whom there is no "time limit." Thanking you, ladies and gentlemen, for your kind attention, you will please pass through into the dining-room and allow that crowd in the office to take your places, after which this lecture will be repeated, and so on, until the curiosity of the entire crowd is satisfied, unless sooner interfered with by the police."

DETROIT MEET NOTES.

MALLEY is getting up a fifty-mile race for Tuesday, following the League Meet.

Rands was not in condition for the fifteen-mile road race last Saturday, so the race has been postponed. It is open to all Michigan riders of the high wheel using a solid tyre, and will decide who our fastest rider is.

League members here regret very much this Racing Board unpleasantness. Both sides are wrong and the League will probably be considerable hurt by this faction fight.

All wheelmen desiring rooms at the hotels should write to the Hotel Committee and not to the hotels.

Bert Hulett, of Armada, came over last week to take part in the road race, but had to return without. Bert will be right there when the race does come off.

Among the Detroit Wheelmen's visitors last Sunday was A. A. Smith of the Kings County Wheelmen.

The New York State Division headquarters will be at the Hotel Cadillac, three blocks from the club house and half way to the rink, which will be general headquarters.

Be sure to bring your L. A. W. tickets.

There will be a great waste of ribbons this year as the ribbon craze will be greater than ever. Michigan cyclists will probably wear life-size stuffed wolverines.

Nearly every bicycle rider in this city, male and female, are wearing the colors of the Detroit Wheelmen. It seems funny that so many prefer our colors to any other; evidently it is an honor to be seen supporting the black and gold

Many fine prizes have been given by wheel makers for our road race; among these are a gold headed cane from H. A. Lozier & Co., a finely finished revolver from the Lovell Arms Company, two saddles from the Garford people and a fine clock from the makers of the Victor.

"SETAGEC."

THE SPRINGFIELD TOURNAMENT.

The committees appointed by the Springfield Bicycle Club are hard at work perfecting details for the coming meet, and considering the developments of the past week, there is now very little doubt but that this will be the event of the year. The list of races:

First Day—Start of twenty-mile road race; One-mile safety, novice; one-mile safety, open, handicap; two-mile ordinary, open, handicap; half-mile safety, open; one-mile safety, 2.50 class; (finish of twenty-mile road race); one-mile ordinary, open; exhibition by D. J. Canary; quarter-mile safety, open, flying start; half-mile ordinary, open; one-mile tandem.

Second Day—One-mile ordinary, novice; two-mile tandem, handicap; one-mile ordinary, 2.50 class; quarter-mile ordinary, open; half-mile safety, open, handicap; exhibition by D. J. Canary; one-mile safety, world's record; one-mile ordinary, handicap; half-mile tandem; half-mile ordinary, 1.25 class; one-mile consolation.

L. A. W. rules to govern all races. Pneumatics will be penalized according to the latest and best methods. Entrance fee $1.00 for one event and 50 cents for each additional. Fees must accompany entries. Blanks and further information furnished by D. J. Canary, Chairman Race Committee. Address box 107.

The start of the twenty-mile road race will be made from the track, ride to Holyoke a distance of about eight and one-half miles and return, finishing the last three or four miles on the mile track, thus giving the spectators an opportunity of seeing both the start and finish.

The race of the meet will be the one-mile safety, world's record race on the second day; a very low time limit will be placed on this and the first prize will be a $1,000 Haine's Bros. piano, which has been presented to the club for this special purpose by Taylor's Music House, of Springfield; this piano will be made for the occasion, finished in quartered oak and suitably engraved.

This is believed to be the most valuable prize that has ever been offered for any athletic event of the kind, and shows not only the energy and enterprise of the club, but also the local interest taken in the tournament.

D. J. Canary, as will be seen in the above program, will give an exhibition both days, using both the safety and ordinary machines, and the public may expect some novelties in this line.

P. S.—Keep an eye on Springfield.

THE SYRACUSE MEET.

THE sixth annual tournament and second Division L. A. W. championship races will be held at Syracuse, N. Y., on Friday and Saturday, July 10 and 11, 1891, on the famous Kirkwood Track under the auspices of the Syracuse Cycling Club. The different committees are doing good work, and this meet promises to be far ahead of any in the Stste. The list of events are:

First day—mile safety, novice; quarter-mile safety, Division championship; two mile ordinary, handicap; half-mile safety, Division championship; mile safety, club championship; mile ordinary, Division championship; mile safety, 3.10 class; mile safety, open; half-mile tanden, open; mile ordinary, open.

Second day—mile ordinary, novice; two mile safety, handicap; mile tandem, Division championship; mile safety, club championship; three mile tandem, open; mile ordinary, handicap; mile safety, Division championship; mile safety, handicap; half-mile ordinary, open; two mile safety, team.

Events open to all recognized amateurs in good standing except Division championships, contestants in which must be members of the New York or New Jersey State Division L. A. W. Entries for handicap events close July 3. All other entries close July 7. Official handicapper, Mr. F. P. Prial of New York City. Races will commence promptly at 2.30 P. M. Pneumatics will be penalized 60 yards per mile in all handicap events. A special prize for each record broken. Entrance fee, 50 cents for each event, payable to Carl G. White, 338 So. Salina street, Syracuse, N. Y. Special excursion of half fare on all railroads to Syracuse. We have entries from all the fast men as A. B. Rich, Murphy Bros., W. S. Campbell, H. J. Hall, Jr., Hoyland Smith, Zimmerman, Taxis, Brinker, and many others. We have every reason to believe that many of the records will be broken because the track is very fast and will be put in the best of condition. G. Howard Avery, who is chairman of the Reception Committee, will give special attention to all visiting wheelmen; $1250 worth of prizes will be given.

The Syracuse Cycling Club extend a cordial invitation to all interested in cycling. Come, and we will make it pleasant for you.

Yours truly,
J. B. ECCLESTON,
Secretary Race Meet, 222 E. Onondaga street, Syracuse, N. Y.

THE OHIO DIVISION MEET.

THE programme of the eleventh annual meet of the Ohio Division will take place July 13, 14 and 15, as announced already in these columns.

The first day will be spent in receptions and runs to various points of interest. In the evening a Constitutional Convention and a meeting of the captains of clubs.

Tuesday, 14, will open with a scorchers' run; then will follow the grand parade, reception and address by the Governor, races, run to the Barracks; 8 P. M., open air concert; 9 P. M., reception by Buckeye Ladies' Cycling Club.

Wednesday, run to the Penitentiary [eh! what's that?—ED.] 10 A. M. Excursion to Detroit, and to those who do not go to Detroit their will be runs to other points of interest.

The lady visitors will be looked after by the Buckeye Club, Miss Freda Detmers, Secretary, and ladies are especially urged to attend. The Park Hotel, which is headquarters, is a fine house, beautifully situated. Ohio members and others who have not received the programme, should at once send for one to Dr. C. O. Probst, Columbus, Ohio.

WISCONSIN DIVISION MEET.

"Ho for Green Bay, Wis., July 22d and 23d," is the expression heard on every hand. Letters are already pouring in in vast numbers, asking information in regard to programmes and races, and from all appearances our second annual tournament, to be held in connection with the Wisconsin Division State meet, will rank with the leading tournaments of the West. Several special cars will be engaged where large delegations will be present, and reduced rates have been secured on all railroads.

Our medals, which are all made of special designs, will be on exhibition at the National meet at Detroit, July 16th, 17th and 18th which, together with the other prizes, will aggregate in the neighborhood of $2000.

In regard to our track, to those who have been here last year it will speak for itself in better terms than we could, but to those who did not have the opportunity of seeing it we wish to say that it is fully up to any of the great tracks in the Northwest, and is a full half-mile, well banked at the ends and 60 feet wide.

In addition to about two miles of new pavement there is a pavement just completed, which leads towards the park where races are to be held, and which is a great convenience over last year, and boats will also run to and from the park.

In regard to the city proper, it is just the place for wheelmen and others who wish to have a good time. It is beautifully situated at the mouth of Fox River, within one and one-half miles from the bay, and has of late years become a great summer resort, having three large mineral springs, giving the best water in the State, and possessing the most rare qualities for hunting and fishing. There are also numerous fine drives in and about the city and along the river and bay shore, and during the summer months the city is filled with tourists arriving from Chicago, Milwaukee, Detroit, Cleveland, Buffalo and all the great lake ports, there being a bi-weekly line of steamers from Chicago and Buffalo.

We have one of the very best hotels in the State, the Beaumont House, which is a League hotel, which will be turned over to the wheelmen, and our Mayor (who by the way is one of our club) has also turned over to us the freedom of the city on the above dates.

We hereby extend a cordial invitation to all lady and gentlemen riders, and all who may come to our city on these dates. ORDINARY.

Green Bay, Wis., June 19th, 1891.

WELL! WELL!! WALTHAM!!!

THE first race last Saturday of the Inter-Club Road Racing Association of Boston and vicinity was somewhat of a snap for the Waltham Club. The conditions for fast time were good at the hour of starting; the roads were excellent and the strong wind had died down; the air was rather too cool for fast riding, however. Mr. Robinson, the winner, had he been much pressed, we think would have bettered his time much and come a good deal closer to record. We think if Porter had been there and he had been in his Irvington-Millburn form, the 25-mile record would have had a very close rubbing. No 28, E. LaCroix, and No. 32, F. J. Kelly, both of the Cambridgeport Club, made a bad balk on the finish; they were second and third easy, when instead of continuing on Beacon street to the terminus of the electric road and thence up the hill and through the main entrance of the Reservoir, they cut between the basins. Kelly, on being told of his mistake, started again, rode the correct course, finishing away near the tail end instead of near the leaders as he ought to have done. LaCroix, however, did not continue, and so he was not given a position. Robinson, soon after the start, went in for the first place, secured same, and was never headed, at least all the checkers put No. 16 down as the first to pass. At the turning point, with Robinson in a strong lead, the others were timed as follows: F. B. Howard, J. Keltie, P. G. Alexander, H. Ogden, F. E. Swan, H. Dowd, V. Kuhn, Kelly, G. F. Kehew, Smith, LaCroix, Charles Corbett, Alex Corbett, Fitch, Orcutt, Keltie, Kehew, Neil, Bullock, Dadley, Fecitt, Scott, Spear, Crocker, Carman, Bean, G. W. Bean, Jr., E. H. Norris, Tucker, Andrews and Spring.

The pace home was a hot one, but Robinson felt very lonesome so far in the lead. The finish was made as follows:

H. W. Robinson, Waltham, first, time, 1.30; F. E. Swan, Waltham, second, 1.33.18; W. H. Dowd, Cambridgeport, 1.34.48; J. Keltie, Roxbury, fourth, 1.34.50; H. Ogden, Waltham, fifth, 1.35.35; V. Kuhn, Waltham, sixth, 1.35.40; H. Smith, Waltham, seventh, 1.36.47; F. B. Howard, Medford, eighth, 1.36.50; N. A. Fitch, Cambridgeport, ninth, 1.37.18; C. F. Corbett, Hyde Park, tenth, 1.38.23; A. N. Corbett, Hyde Park, eleventh, 1.38.45; A. Bullock, Waltham, twelfth, 1.39.15; G. F. Kehew, Cambridgeport, thirteenth, 1.34.25; C. H. Kehew, Cambridgeport, fourteenth, 1.39.26; F. J. Kelly, Cambridgeport, fifteenth, 1.39.35; A. R. Keltie, Roxbury, sixteenth, 1.41.50; H. Neal, Waltham, seventeenth, 1.42.22; E. H. Norris, Charlestown, eighteenth, 1.42.28; C. F. Dadly, Charlestown, nineteenth, 1 44.00; P. G. Alexander, Roxbury, twentieth, 1.44.03.

There were 32 men who started, and the finish of 24 was taken, 20 of which appears above.

The race was run without a serious accident, and, barring the anxiety of the worthy referee to get the men off before the timers and starters were ready, the affair was run off smoothly. The result gives the Waltham Club the cup, Cambridgeport second place and Hyde Park third.

We understand that the Medford Club, being dissatisfied with the result, is anxious to put a team of three men against a team of three men from the Waltham Club. The Medford Club name Perry, Talford and Size as its team. What do you say, Waltham?

KENTUCKY DIVISION RACES.

SUCCESS OF RACING BY ELECTRIC LIGHT.

BICYCLE racing by electric light, in the open air, is no longer an untried experiment. As conducted by Kentucky Division, at the Auditorium six-lap track, it is an unqualified success. Louisville has now opened the way; let Philadelphia, Boston, Springfield, Hartford, Peoria and other tournament centres follow in her footsteps.

The meet of the Kentucky Division was all that has been claimed, and even more. At least three hundred visitors from Kentucky and elsewhere were on hand, and they were absolutely forced to enjoy that proverbial hospitality. Not only did the two clubs, the Louisville Cycle and the Independent Cyclers, entertain most royally, but citizens opened their doors and the city was given to the visitors. From the Mayor down to the humblest street sweeper, every man did his best to make the visitors in knickerbockers feel at home. But one kick was heard during the entire two days, and that was a weak little chirp from non-riders, who thought it a shame that the fast men from abroad were permitted to scoop most of the good prizes.

While we Urge Riders of

BONESHAKERS,

i. e., rigid frame machines, to try the RAMBLER "for the fun of the thing," if nothing else, we also advise RAMBLER riders to give a boneshaker an occasional trial, for it is

A FACT

that nothing shows the superiority--the positive luxuriousness of the RAMBLER, or causes its riders to fully appreciate its merits, so much as these comparative tests. And by-the-by: If you have not yet tried the G. & J. Guaranteed Cushioned Tire, don't miss the chance when it presents itself. Our Tire is what the boys slangily term

"A BIRD."

GORMULLY & JEFFERY MFG. CO.,

MAKERS OF

"The American Cycles."

222-228 N. FRANKLIN STREET, - CHICAGO, ILL.

Chicago Retail Store, 85 MADISON STREET.

1325 14th STREET, N. W.,
Washington, D. C.

174 and 178 COLUMBUS AVENUE,
Boston, Mass.

The first visitors to arrive from abroad were Messrs. A. Ullman and C. Smith of Anniston, Ala., who toured from Anniston to this city, doing the distance, nearly 500 miles over almost untravelled roads, in twelve days. They arrived sunburned and slightly weary Tuesday morning. Later on, L. E. Hickok and Harry B. Hanford of Boston, came in; then followed Harry H. Hodgson of New Orleans and "elsewhere;" B. W. Cason, Jr., of New Orleans; W. C. Marion, Jr., of Hartford Conn.; George K. Barrett and C. S. Merrill of Chicago; Percy Stone and Burt Harding of St. Louis; L. A. Lafferty of Nashville; Wagner of Chicago, and others.

Meantime the Kentucky wheelmen were coming in by every turnpike and train, until by Friday morning, the 26th, the whole city seemed alive with men in small boy's clothes. The reception and entertainment committees of the two clubs were not idle, and every stranger was hunted out and made comfortable. Short runs about town were taken, and at noon a return to the Willard Hotel was made for dinner.

At 2.30 the real work of the meet began. The mammoth parade, in charge of Marshal Ed. A. Herget, formed in front of the hotel. An escort of mounted police led off, followed by a tally-ho loaded with ladies. Then came the Aquilo Cyclers of Covington, in broadcloth knickerbockers and coats; then the Kentons of Covington, the Central Cyclers of Cincinnati, the St. Louis, New Orleans, Lexington, Frankfort, Harrodsburg, Danville, Perryville, Cynthiana and other delegations following. Next came the Independent Cyclers, in yellow and black blazers and caps; the Louisville Cycle Club, in blue and white blazers and caps, brought up the rear. The procession passed through the principal streets, disbanding at Jackson and Chestnut. An invitation had been extended by Mr. Ernest Moraweck of the Frank Fehr Brewing Company, for the visitors to go through that immense establishment, and this was accepted.

Friday night the first races occurred. Everything passed off as smoothly as could be. There was not an accident of any kind, and the audience, something near 3,000, was well satisfied.

Half mile novice, safety—L. A. Lafferty, Nashville, first; W. A. Rubey, Louisville, second; Jessie B. Green, Evansville, third. Time, 1.30.

Rubey at once went to the front and maintained the lead until the last lap, when Lafferty drew away and won easily by three lengths.

Three-quarters of a mile, open, ordinary—George K. Barrett, Chicago first; Bert Harding, St. Louis, second; B. W. Cason, Jr., New Orleans, third. Time, 2.20.

Barrett was in front after they straightened out, and he held the lead by half a length until the last lap, when he opened the gap and won by two lengths, Harding being two lengths before Cason.

One mile, open, ordinary—Bert Harding, St. Louis, first; C. W. Croninger, Covington, Ky., second; John S. Barbee, New Castle, Ind., third.

Croninger held the lead until the last half of the last lap, when Harding put on steam and won easily by ten yards.

One mile, open, safety—George K. Barrett, 50 yards, pneumatic tire, Chicago, first; L. A. Lafferty, 20 yards, cushion tire, Nashville, second; C. L. Merrill, 50 yards, pneumatic tire, Chicago, third.

Barrett laid back until the middle of the fifth lap, when he assumed command. He was closely crowded by Lafferty on the last turn, but he passed the tape a winner by one length.

One mile L. A. W. State Championship, ordinary—Charles M. Croninger, Covington, Ky., first; Dan P. Hemphill, Nicholasville, Ky., second; Jake Bauer, Louisville, third. Time, 3.13 1-2. Croninger led from the start, and won easily by five yards.

One mile handicap, safety—George K. Barrett, scratch, Chicago, first; Bert Harding, 120 yards, St. Louis, second; Thomas E. Jefferis, 175 yards, Louisville, third. Time, 3.16.

Barrett started at a lively pace, and it was not until half of the last lap had been covered that he overcame the lead of Harding. Passing him, however, he won as he pleased by five yards. Harding being the same distance in front of Jefferis.

Kenton Club championship, club trophy—Ed H. Croninger, Covington, first; G. H. Lockwood, Covington, second. Distance, two miles and one-half. Time, 9 minutes.

Croninger led all the way by two lengths. Lockwood dropped out on the fourteenth lap, Croninger continuing until the two miles and one-half had been covered.

At the conclusion of the races a dance was tendered the visiting wheelmen by the Independent Club of this city.

So successful were the races, that it was deemed best to postpone the events set for Saturday afternoon until night, and this was done. This knocked out the banquet.

Saturday night a good crowd was present. The races, ten in number, were more exciting than on the previous evening.

Quarter-mile, for boys on safeties 27 inches or under—Prizes, gold and silver medals. Oscar Wilde, first; Clif. Shurman, second.

One mile, open, for safeties, best two in three heats—Barrett and Merrill were the only starters. Barrett won both heats, his times being 2.53 and 2.54 1-5. Merrill did not try, finishing half a lap behind each heat.

One mile handicap, for ordinaries—B. W. Cason, Jr., New Orleans, 120 yards; Dan P. Hemphill, Nicholasville, 250 yards; Jake Bauer, Louisville, 200 yards; Chas. T. Sparks, Nicholasville, 225 yards; L. L. Buchanan, Newport, 300 yards; John S. Barber, New Castle, 300 yards; Fred R. Taylor, Covington, 300 yards; Chas. M. Croninger, Covington, 150 yards; R. M. Tidd, St. Louis, 180 yards; C. O. Updike, Lexington, 300 yards. Hemphill won; Taylor, second; Croninger, third. Time, 2.47.

One mile Kentuck Division Championship, for safeties—Thos. E. Jefferis and W. A. Rubey, of Louisville, were the only starters. Jefferis won in 3.11.

Two-thirds of a mile, ordinary—Bert Harding and George K. Barrett were the only starters. Barrett won. Time, 2.14 4-5.

Aquilo Club handicap, one mile—W. H. Porter, two-thirds of a mile; Fred. R. Taylor, 175 yards; F. L. Nicholas, 175 yards; Ed. Vazielle, 250 yards; Chas. Croninger, scratch; L. F. Spalding, 175 yards. Spalding won; Taylor, second; Croninger, third. Time, 3.05 1-2.

One mile obstruction, for safeties—Thos. L. Jefferis and W. A. Rubey of Louisville, and R. M. Tidd of St. Louis. Jefferis won; Tidd, second. No time. Twenty-four obstructions were passed.

One mile open, for safeties. Prizes, silver cup and Kirkpatrick saddle.—Geo. Barrett and Bert Harding were the only starters. Barrett won in 2.56.

Half mile consolation, for ordinaries—Cason, first; Bauer, of Louisville, second. Time, 1.35 1-2.

Half mile consolation, for safeties—Tidd won; Greene, second. Time, 1.32 2-3.

After this race George Barrett went for the time medal. He did a mile on a pneumatic tire in 2.46, being paced by Harding and Merrill. This is record for the track.

Of electric light racing on the Louisville track, the prominent riders present said:

Cason, of New Orleans: "Far superior to daylight."

Harry Hodgson, of New Orleans: "An unqualified success."

G. L. Hickok, of Boston: "The sun is not in it; it's out of sight."

George Barrett: "It's grand. I like it."

C. L. Merrill, of Chicago: "It feels odd, but I think it's the only thing for the future."

XXX.

RACING AND MEET NEWS AND GOSSIP.

AT PHILADELPHIA.—The fourth annual races of the South End Wheelmen at the Athletic Park on last Saturday afternoon, were well attended. There seems to be no question but that cycling tournaments can be made a paying institution in this city.

It had been hoped that Zimmerman, who had been here all the week, would have ridden, but he went over to the Kings County races, so that the contests were devoid of any special interest except for the reappearance of Hazelton, who rode well, but not in his usual form. He is not, by any means, in condition, although he made a fine race with Draper in the two-mile championship. The one-mile tandem, Division championship, was the event which was looked forward to with the greatest interest, as Hazelton, who has just joined the A. C. S. N., was up with Taxis and rode against Draper and Kelley. The latter, however, had a cushion tired machine, and were never once headed.

Details: One-mile safety novice—First heat, J. Stuart Group, S. E. W., 1; H. F. Rebman, W. W., 2. Time, 3.17 1-2. Second heat—W. T. Bilgen, P. A. W., 1; W. Dickson, S. E. W., 2. Time, 3.37 2-5. Third heat—A. Gracey, C. C., 1; time, 3.17. J. J. Gesselman, W. W., 2. Final—A. Gracey, C. C., 1; J. J. Gesselman, 2. Time, 3.19.

One-mile tandem, championship of Pennsylvania—J. H. Draper and V. J. Kelley, A. C. S. N., 1; W. W. Taxis and J. R. Hazelton, A. C. S. N., 2. Time, 3.01 1-5.

Draper and Kelly had the pole, and at the flash went to the front and won as they pleased by two lengths. The A. C. S. N. team, although they spurted repeatedly, could never get by. Donnelly and Crawford, who started with the other two teams, took third.

One mile safety, 3.20 class—W. W. Owens, C. C., first; W. S. Bilyeu, P. A. W. Time, 3.17 2-5.

Five mile safety, championship of the South End Wheelmen—F. B. Marriott, first; F. H. Koenig, second; B. F. McDaniels, third. Time 18. 22s.

This was clearly Marriott's race from the start, he riding easily until the last half-mile, when he won as he pleased. McDaniel and Dimon alternated in making pace.

One mile ordinary, open—W. W. Taxis, A. C. S. N., first; W. W. Seeds, N. A. C., second; V. J. Kelly, A. C. S. N., third. Time 3.13 2-5. A pretty race, in which interest lay in second place.

One mile safety, championship Mt. Vernon Wheelmen—F. S. Hoover, first; R. A. French, second. Time 3.46.

One mile safety, 3 minute class—J. C. Donnelly, O. W., first; S. H. Crawford, T. M. C. A., second; E. M. Dampman, A. C. S. N. Time 3.19 1-5.

Quarter-mile ordinary, championship of Pennsylvania—W. W. Taxis, A. C. S. N., first; J. H. Draper, A. C. S. N., second. Time 42 2-5.

Draper would have made a closer finish in this race had he not gotten a poor start, Taxis gaining fifteen feet on the push off.

One mile safety, handicap, open to members of the club only—W. J. Greer, 90 yards, first; B. F. McDaniels, 120 yards, second; W. M. Strien, 140 yards, third. Time 3.06.

Marriott was on a pneumatic which was penalized 80 yards, and being scratch man stood no chance.

Two-mile safety championship of Pennsylvania—J. H. Draper, A. C. S. N., first; J. R. Hazelton, C. W., third; V. J. Kelly, A. C. S. N., third. Time 6.35 4-5.

Taxis did not ride in this, and Hazelton and Draper had it out, the latter winning by five yards.

One-mile safety, championship Wissahickon Wheelmen—J. J. Gesselman, first; W. L. Welch, second; D. C. Howard, third. Time 3.19 2-5.

One-mile ordinary, championship of the Franklin Bicycle Club—G. B. Cocker, first; A. B. Tomlinson, second. Time 3.32.

One-mile safety, handicap, open—W. C. Seeds, W. A. C., 80 yards, first; W. L. Welch, W. W., 185 yards, second; S. W. Merrihew, A. C. S. N., 125 yards, third. Time 2.57.

A large field started, Kelly being nearest scratch, but Seeds won easily.

One-half mile safety—W. C. Seeds, W. A. C., first; J. C. Donnelly, O.W., second. Time 1.32 2-5.

One-mile safety match race—H. H. Hoffman, Keystone Athletic Association, first; H. Longbottom, Premier Cycle Club, Coventry, England, second. Time 3.30 3-5.

Hoffman finished hands down, ten yards to the good.

One-mile ordinary, handicap—W. W. Taxis, A. C. S. N., 30 yards, first; J. Pearson, C. C., 90 yards, second; I. Van Deusen, P. A. W., 120 yards, third. Time 3.02 1-5.

Taxis started from the ten-yard mark, his cushion tire being penalized 20 yards. He rode a fine race, catching his men on the last lap and winning by a dozen lengths.

ARIEL.

Philadelphia, June 29, '91.

AT ROCHESTER, N. Y—The members of the West End Bicycle Club and their friends held a century run on the morning of June 25. The start was made from the West End club house at five A. M. and experienced no difficulty in following the schedule time, in fact at many points they were ahead of it. The following participated and all completed the run: C. J. Conolly, F. L. Hughes, F. H. Bettys, Robert Leadley, F. A. Mabbett, Fred Smith, C. B. Braman, James A. Rice, J. H. Sager, Loren Mabbett, W. J. Braithwaite, Thomas Willman, F. D. Chamberlain, C. S. Brodie, Harvey Corey, D. Bestwick, P. J. Dukelow, and the following gentlemen from Batavia, Fred D. Foster, F. J. Lorang, Fred Loomis, Robert Crowley. The run was very successful, and it was the intention of the club to make it an annual affair.

AT ROME, N. Y.—On Tuesday evening June 23d, the Rome Cyclers held the first of a series of 3-mile handicap races at the Riverside Park course. There were 13 starters in the event, which was won by Wm. R. Olney in 10m. 13 3-4s. E. S. Yarwood was a close second; G. Lynn Prescott, third.

AT COLUMBUS, OHIO, June 29.—Friday evening, about 600 people assembled on Woodland avenue to witness the half-mile race of the Columbus Safety Cycling Club. This was the second championship race for the club medal, and quite a number of enthusiasts were present to see

Headquarters.

Passaic Falls Wheelmen.

Secretary's Address.
230 Wayne Ave.

Paterson, N. J., June 25th 1891

A. L. Withers Jr.
Sir

I gave my Semi. Racer Catford a hard test today up to Greenwood Lake and back and am more than satisfied as to both its 'going' and 'staying' qualities. in coming back through those mountains I thought my 35 pound "Kitten" would go to smash every minute but on arriving at club headquarters not a spoke or nut were loosened, my advice to any anyone who wants to test a wheel is, try to make Paterson from the lake in 2 hours. 5 Miles About one third of the time between the Lake and Pompton it is almost impossible to keep your feet on the pedals I suppose you will go and smash our record now as soon as possible, let me remark if you do you will have to ride a Catford Samuel Bullock Secy. P. F. W.

their favorites win. The entries were: E. H. Sweely, Howard Affleck, T. T. Swearingen, J. S. Shobe and T. C. Casner. The course was straightaway from the north end of the avenue towards Broad street, where the crowd waited to see the finish. J. S. Shobe, first, 1.12; T. T. Swearingen, second, 1.12.25; T. C. Casner, third, E. H. Sweely, fourth. Affleck ran into a pile of rubbish and stopped. After the race about eighty wheelmen made a lantern parade over the principal streets.

AT BUFFALO, N. Y.—The Roamers' Wheel Club twenty-mile road race took place on the 25th ult. The course was to Williamsville and return. There were six entries and four starters. It was a handicap, resulting as follows: Bald (1 1-2m.) cushioned tire, 1.16; Schmidt (1m.) pneumatic tire, 1.19; Ottenott, (1m.) solid tire, 1.20; Neubauer, (5m.) solid tire, dropped out. There were two prizes, a gold medal and a cyclometer.

AT BROOKLYN, N. Y.—The Kings County Wheelmen held their tenth annual race meet on Saturday last, at Washington Park. The attendance numbered some 1500. The track was in first-class condition, and the racing spirited and exciting. A heavy wind made very fast times impossible. In the novice races the fields were very large. These races were run in heats. It was in the championships races in which all interest was centered. In the first event, the safety championships, W. F. Murphy and Harry Hall came to grief. The former, who had every prospect of winning, slipped his pedal and was thrown. Hall came right after him and naturally took a spill. Both men were thrown out of the race. In the ordinary championship Murphy started, but he was too stiff to race. Zimmerman rode in his customary erratic way, fast and slow. Charley Murphy rode the fastest mile ever ridden in Brooklyn, in the safety championship. His time was 2.54. The best previous time was 2.55, made by Hoyland Smith the previous year.

Allan Feldmier, of the Brooklyn Ramblers, rode exceptionally well. The meeting was a big success. The club offered very handsome prizes, consisting of silverware. The summary of the races is as follows:

One mile safety, novice—Won by M. H. Phillips, K. C. W.; C. A. Hoppe, B. C. C., second. Time, 3.06 1-5.

One mile tandem, scratch—Won by W. F. and C. M. Murphy, K. C. W.; W. C. Class and A. A. Zimmerman, N. Y. A. C., second. Time, 3.11 4-5.

Two mile ordinary, scratch—Won by C. M. Murphy, K. C. W.; J. W. Schoefer, M. A. C., second. Time, 7.03.

One mile safety, championship of America—Won by C. M. Murphy, K. C. W.; A. H. Feldmier, B. R., second. Time, 2.54.

Two mile ordinary, handicap—Won by H. C. Shimer, K. C. W., 200 yards; G. C. Smith, R. W., 225 yards. Time, 3.43 4-5.

Two mile safety, handicap—Won by A. H. Feldmier, B. R., 190 yards; M. Phillips, K. C. W., 225 yards. Time, 5.43 4-5.

One mile safety, handicap—Won by A. H. Feldmier, B. R., 90 yards; M. H. Phillips, K. C. W., 240 yards, second. Time, 2.43 4-5.

One mile ordinary, handicap—Won by G. C. Smith, R. W., 150 yards; W. J. Finn, K. C. W., 120 yards, second. Time, 2.48.

One mile ordinary, championship of America—Won by A. A. Zimmerman, N. Y. A. C.; C. M. Murphy, K. C. W., second. Time, 2.56 3-5.

"Spec."

TRADE NOTES.

To be convinced that this is the greatest year in cycling America has ever known, one need only visit the ware rooms of the Premier Cycle Company at 846 Eighth avenue, any afternoon between 4 and 5 o'clock. At the Fifty-first street entrance a couple of Custom House trucks may generally be seen unloading crates of Premier safeties or great hogsheads of King of the Road Lamps. Backed up on the asphalt in front, stand the wagons of Adams, National, United States, Wells, Fargo, American, and New York and Boston Express Companies, loading on crates marked and tagged and boxes of lamps, bells, and what not for anxious agents and their customers. One shipment to Portland, Ore., the other day, consisted of 29 Premier safeties, and two big casks of sundries. Messrs. Lucas & Son have written to the Premier Cycle Company that their deliveries of King of the Road Lamps and other "cyclealities" have already exceeded that of any previous year's shipments to the United States over five-fold, a fact which speaks volumes for the growth of the sport, as well as the business energy of the Premier Cycle Company.

THERE will be a bicycle tournament held at Natick, Mass., July 11. Particulars of races can be had by writing to H. E. Palmer, Natick, Mass.

THE Gormully & Jeffery Mfg. Co. are now making a diamond frame Rambler, and a very beautiful wheel it is, too.

THE pleasure and comfort to wheelmen and athletes induced by the use of the "Z. & S." Hose Supporters, manufactured by Messrs. Howard A. Smith & Co., Newark, N. J., has been much appreciated. Their line of sundries, bicycles, etc., is one of the largest in the United States, and their new catalogues recently issued are sent on application, and should be in the hand of every rider.

GEO. C. PYLE, Captain of Indianapolis Club, L. A. W., with his two sons, mounted on an Eclipse Bicycle, and as seen riding through the streets of Indianapolis almost daily. The aggregate weight of Mr. Pyle and his sons is 275 pounds. Mr. Pyle has ridden his Eclipse about six months, and although a heavy man and a rider that does not spare a wheel, he has never had so much as a broken spoke.

THE Elwell tourists have arrived in Paris, all in fine condition and excellent spirits. The trip over was very enjoyable; one evening a fine concert was given, after which Mark Twain, who was among the passengers, told several funny stories. The roads from Havre to Paris were in splendid condition, and the long, smooth coasts were a revelation to the party. June 28th the party started for Geneva, where they expect to arrive July 8th.

THROUGH the courtesy of Messrs. Wright & Ditson we were given the opportunity of trying one of Featherstone's Pneumatics. We found the wheel to be an easy running one, and of course the tire to be all that is claimed for it in comfort and speed. Having a boat to catch we scorched in from Brighton, and were delighted at the comfortable way the tire and wheel carried us.

Hotels—J. Hoffner, 243 Woodward avenue.
Parade—F. L. Abel, 187 Charlotte ave.

Reinstated.

By a unanimous vote of the Racing Board the following have been reinstated as amateurs:
J. Edwin Dauchy, Denver, Col.; J. C. Epeneter, Denver, Col.; A. L. Anderson, Denver. Col.
ABBOT BASSETT, Chairman pro tem.

Chairman Racing Board.

Mr. George S. Atwater, 1424 Pennsylvania avenue, Washington, D. C., has been appointed Chairman of the Racing Board for the balance of the current year. JAMES R. DUNN,
June 27, 1891. President L. A. W.

The Facts in the Case.

The President and the Executive Committee at the beginning of the present League year found themselves charged with the settlement of a question that has been disputed over for months and had become personal in the bitterness of the previous contest.

Rivalry between clubs belonging to other organizations than the L. A. W. had involved the L. A. W. and the A. A. U. in a contest over the amateur question, and the right of the L. A. W. under its own constitution to enforce certain suspensions that deprived certain men of their amateur standing.

It is a fundamental principle of the L. A. W. that its membership shall be made up of amateur wheelmen. Its constitution states:

"Section 9. In passing upon the eligibility of candidates as amateurs, the Membership Committee shall be guided by the following amateur rule, and shall take proper pains to ascertain and determine through the Racing Board the facts in the case where objection is made to a candidate on this ground."

The rule and its six explanatory clauses should be familiar to all, but it is clear from this section 9, that the Membership Committee and Racing Board must both be controlled by the plain provisions of the rule, neither can change it nor add to it; nor in any way can they assume to deprive a member of any rights unless the rule authorizes such action. It is doubtful whether the By-Laws ever can give to a committee a right to make a rule that will deprive a member of a constitutional privilege, even if asserted in such By-Laws in plain terms.

Under what was called Rule G of the racing rules and an oral agreement between certain committees of the L. A. W. and A. A. U. made in 1890 this dispute had arisen, and a careful study of the whole situation lead to a meeting on March 29, 1891, of the joint special committee on the alliance that was raised at the National Assembly at Washington in February "with full power."

At the meeting that was duly warned, President Dunn, Vice-Presidents Burdett and Brown, Chairman Kendall, and Secretary Bassett of the Racing Board were present, making five out of a total of eight. A full expression of opinion from every member present resulted in the acceptance of the following articles of alliance between the L. A. W. and the A. A. U.

Resolved, That it is desirable to effect an alliance between the L. A. W. and the A. A. U. for the purpose of maintaining the purity of amateur sports.

The plan of alliance as proposed by the A. A. U. was amended and adopted as follows:

1. All cycling events in the championship or other meeting of the A. A. U., or of its associations or clubs, shall be given under the rules of the L. A. W.

2. Every cyclist shall be subject to test as to his amateur standing exclusively by the provisions of the Constitution of the L. A. W., defining an amateur.

3. Charges against any cyclist shall be tried by the L. A. W., except that a member of an A. A. U. club shall be tried by a committee of three, one of whom shall be named by the A. A. U., one by the L. A. W., and the third member by the two so chosen, providing the accused shall within twenty days after the receipt of a copy of such charges submit to the Racing Board proof of his A. A. U. membership, and claim trial by such committee.

4. The League of American Wheelmen shall annually, or at such time and for such periods as it may deem advisable, elect a delegate, who shall act with and constitute one of the board, of governors of the A. A. U., and shall have a vote upon all questions coming before said board, and a right to sit upon committees and take part in all the actions thereof, as fully as members of said board elected from the several associations of the A. A. U., and to the same extent and in like manner as the delegates from the North American Turnerbund.

5. These articles of alliance shall be terminable by either party upon thirty days' written notice to the other.

In case of disagreement between the L. A. W. and the A. A. U. upon any point covered by these articles, the same shall be submitted to the board of governors of the A. A. U., including the member of the board appointed by the L. A. W., Turnerbund, and any other associations in alliance with the A. A. U., and having a delegate upon the said board.

The only one of the articles about which any doubt was expressed was article 3, which was adopted on motion of Mr. Randall, as the minutes of the meeting show. By this article a trial committee of three is provided to try any A. A. U. cyclist who may claim such privilege. It was pointed out by several that this was contrary to that provision of the By-laws, article V., section 3, which states that the Racing Board shall try all such charges, and that their decision shall be final. After discussion Mr. Randall agreed that the Racing Board should adopt the following rule under the power given it to make rules for its government:

"The Racing Board of the L. A. W. on receipt of the written decision of the tribunal provided for in clause 3 of article of Alliance between L. A. W. and A. A. U. shall confirm that decision and make it final.

Not the slightest objection was made by any one to this, nor was the Racing Board instructed to adopt it; it was accepted voluntarily. With regard to the suspensions, it was stated in open meeting that under clase *(d)* cyclists *had* a right to have expenses paid, provided they were *not* paid by certain persons, and that to expel a man from the L. A. W. for doing what the Constitution allowed him to do was certainly not right nor within the power of any committee. No vote was taken on this question, nor were any instructions given to the Racing Board in regard to it, as it was tacitly admitted that they should judge as to the suspensions. The question was discussed simply because it touched upon the policy of the League in view of the alliance that *all* present at the meeting agreed was an experiment worth trying.

At the first meeting of the Racing Board the suspensions were all raised (Mr. Randall was the only member present who had attended the meeting of the joint committee) on the ground that the rule *(G)* under which they were made was *unconstitutional*. Mr. Randall was appointed by the Racing Board the L. A. W. member of the trial committee provided by article 3 of the alliance, *and* a new *Rule G* adopted which was simply the old one with the last clause that excepted A. A. U. clubs from its restrictions left out so as to include them in the new rule. Mr. Randall's attention was called to the point that Rule *G* was possibly unconstitutional, and on *May 1st* he got the opinion of a lawyer in Chicago on the point ignoring the Rights and Privileges Committee of the L. A. W. and going outside for advice on League matters. President Dunn submitted the question to the Rights and Privileges Committee and in due time received the following majority opinion on May 28th.

COMMITTEE ON RIGHTS AND PRIVILEGES.

8 Pemberton Sq., Boston, Mass.
May 16th, 1891.

James R. Dunn, Esq., President of the League of American Wheelmen:

Dear Sir:—The request of the Executive Committee to the Committee on Rights and Privileges for its opinion as to the constitutionality of Rule G recently adopted by the Racing Board, is received. Rule G reads as follows: "A competitor in amateur events shall not accept or receive in any way from his own club or any other club, or from any club promoting sports at which he competes, the amount of his entrance fees, his expenses while in training, his travelling expenses or expenses of any kind incurred by him as such competitor unless such club shall first have the special sanction, in writing of this Board, to make such payments. A violation of this rule shall work a suspension from the track for such time as this Board may determine."

The League of American Wheelmen is an organization to promote general interests of cycling, and to regulate the government of all amateur sports connected with the use of the wheel. Any amateur wheelman of good character, eighteen years of age or over is eligible to membership. By Sect. 9, Art. 3 of the Constitution in passing upon the eligibility of candidates as amateurs, the membership committee shall be guided by the following amateur rule, and shall take proper pains to ascertain and determine through the Racing Board the facts in the case when objection is made to a candidate on this ground. The amateur rule is as follows: "An amateur is one who has never engaged, or assisted in nor taught cycling, nor any recognized athletic exercises for money, or other renumeration, nor knowingly competed with or against a professional for a prize of any description." The Constitution to prevent misunderstanding, itself interprets and explains the amateur rule and provides, that a cyclist ceases to be an amateur by.

(A) "Engaging in cycling, or any other recognized athletic exercise, or personally teaching, training or coaching any person therein, either as a means of obtaining a livelihood, or for a wager, money prize or gate money."

(B) "Competing with, or pace making for, or having the pace made by, a professional in public or for a prize."

(C) "Selling, realizing upon, or otherwise turning into cash any prize won by him."

(D) "Accepting, directly or indirectly any renumeration, compensation or expenses whatever from a cycle manufacturer, agent, or other person interested in the trade or sport, for cycling."

(E) "This rule does not apply to the teaching of the elements of cycling solely for the purpose of effecting the sale of a cycle."

(F) "The League recognizes as athletic exercises, all sports over which the Amateur Athletic Union, the National Association of Amateur Oarsmen and other amateur organizations have jurisdiction."

By Art. 4. The management of the League shall be vested in a National Assembly which shall have powers to make By-laws. Art. 6 provides for the appointment of the several committees one of which is a Racing Board, any or all of which may be suspended or removed by the President.

On February 18th, 1889, at New York the National Assembly in accordance with the Constitution adopted the By-laws which are now in force.

Article 1 of the By-laws prescribes the duties of the officer. Article 4 prescribes the duties of committees. By Section

(A) of Art. 4. "To Racing Board shall be referred all matters pertaining to racing and the championship. It shall make all arrangements in the annual championships which are held under League auspices and shall assign such other championships as are now or may be established, to be run under the auspices of such clubs or associations as it may consider most desirable, and under such conditions as it may deem expedient."

B) "It shall be the duty of the Board to make inquiry regarding any wheelman whose amateur status is questioned, and provide for an investigation by the Board, and if the charges are proved, it shall be the duty of the chairman to report the findings in the official organ declaring that the party has forfeited his amateur status."

(C) "It shall be within the province of the Racing Board to receive the request of any wheelman for reinstatement as an amateur it may if satisfied that the best interests of the sport will be enhanced by the restoration of the applicant to the status of an amateur. It may declare him to be reinstated and invest him with all the rights and privileges enjoyed by amateurs."

(D) "The Racing Board may suspend from the race track any wheelman guilty of unfair dealing in connection with cycle racing or ungentlemanly conduct on the track."

(E) "The Racing Board shall have the power to make such rules for its government and the government of cycle race meetings as may be deemed expedient, and may appoint one or more official handicappers at its discretion."

We have set out the powers and duties of the Racing Board in order to show that they are fixed and prescribed, and we are of opinion that such Board is limited to such powers as are expressly given by the Constitution.

It can readily be seen that the Constitution and By-laws must be the rules by which all officers and committees shall be guided and controlled. They provide for the election of officers, point out what committees shall be appointed, and specifically state the powers and duties of each. A Constitution is the fundamental law or rule of an organization and can only be changed in accordance with its provisions, and not because an officer or committee so desire or deem it expedient and wise.

It appears that the Racing Board intend by a violation of rule G a new penalty, and this we think is beyond their power and cannot be done. We are unable to find anything in the Constitution and By-laws which we can construe to prohibit a club assisting a member as mentioned in rule G, unless it could be held that the words, "or other persons interested in the trade or sport" in clause (D) of Article 3 of the Constitution can be construed to mean amateur clubs. We are of opinion that this would be a wrong construction, and that it was never intended to preclude a club of amateurs assisting a member, but means persons pecuniarily interested in the trade and sport, and who get up a race for the express purpose of gain and profit, or in other words run it as a business enterprise, and not solely to promote an interest in the sport the same as League and Division races.

It has always been the aim of the League to foster clubs, and it is well known that much of the interest and in fact the very life of a club may be in its having members who have become famous as racing men.

If such phrase could be construed to prohibit a club assisting a member then clearly it would be beyond the power of the Racing Board to authorize and sanction it. We believe the power of suspension by the Racing Board is limited to clauses (B) and (D), article 4 of the By-laws.

We think it clear that clause (E) of article 4 of the By-laws would not authorize the Racing Board to make such a rule, for that relates to the details of the race and its government, and is given to the Racing Board in order that races shall be run and managed in compliance with the rules of the League though the Racing Board may have a general supervision.

"We are of the opinion that the Racing Board cannot pass such a rule, and that the Racing Board must judge of an amateur's status and be controlled by the amateur rule and explanation in the Constitution.

We therefore conclude that rule G of the Racing Board is unconstitutional."

Respectfully submitted,
(Signed.) GEO. A. PERKINS,
JOSIAH S. DEAN,
CHAS. F. COSSUM,
One of the committee dissenting.

Poughkeepsie, N. Y., May 2'th, 1891.

George A. Perkins, Esq., Chairman, etc.,

Dear Sir:—I received your letter of May 21st, but have heretofore been unable to give the matter of Rule G any attention. I do not agree with you and Mr. Dean in your conclusion that the rule is unconstitutional. I think that the Racing Board have power, under sub-divisions A, D and E, of Section 7, of Article 4 of the By-Laws, to make such a rule. I do not think that the rule of itself affects the amateur standing of the competitor suspended. It is true that the rule prescribes a penalty, but it seems to me that where a committee is given power to make rules, the power to enforce the rule, by penalty or otherwise, can be fairly implied.

Under sub-division A "All matters pertaining to racing" shall be referred to the Racing Board. Under sub-division B, wheelmen may be suspended from the race track for competing in a race not governed by rules "approved by the Racing Board." Under sub-division E, the Racing Board is given power to make rules for its government of cycle race meeting. The Racing Board has always provided for a suspension of contestants, for reasons other than those provided by clauses B and D of Article 4 of the By-Laws, referred to in the majority opinion of the Rights and Privileges Committee. For instance. "any contestant in a handicap or class race, not handicapped or classified by the district handicapper, shall be liable to suspension from the track for such time as the Racing Board may determine."

I wish it distinctly understood, however, that I believe Rule G to be unwise and uncalled for. The provision for "special sanction" implies that the payment of these expenses is not to be absolutely prohibited, but that it shall be under the supervision of the Racing Board. It seems to me that the present provision of the Constitution in reference to expenses (sub-division D of Section 9 of Article 3) is all that is necessary to prevent the possibilities of "expense account" becoming a cover for compensation.

Yours very truly,
(Signed.) CHAS. F. COSSUM.

Rule G was changed May 14th by the Racing Board, but not in any essential point. The attention of Mr. Randall was called to the fact that he was not carrying out the policy agreed upon in joint committee, but was involving the Executive Committee and the League in fresh difficulties. He wrote on June 4th that the Racing Board intended to stand by Rule G in any event.

It became necessary to notify the League that the proper authority in the L. A. W. considered Rule G void and it was done. Then came the proclamation from Mr. Randall, dated June 6th, 1891, and spread broadcast in the cycling press, purporting to be the action of the Racing Board, but publicly repudiated by all the rest of the Board as soon as they saw it. On the 11th an apology was sent by Mr. Randall to President Dunn for the personalities in the proclamation, but on the 13th a formal letter repeating the personalities in the proclamation, word for word, was sent to the Executive Committee and received by them at noon on the 15th. Mr. Randall was removed that afternoon by telegraphic notice.

As the executive committee has been charged with exceeding its authority, attention is called to the following:

L. A. W. CONSTITUTION.

"Art. IV., Sec. L. The management of the League shall be vested in a National Assembly, which shall have power to make By-laws for the guidance of the League, and to generally direct and decide in all matters not provided for in the constitution."

"Art. 6, Sec. 1. The officers of the League shall be a President, First and Second Vice President, who shall be elected by the National Assembly."

"Sec. 3. There shall be the following National Committees:

1. Executive and Finance, to consist of the President and Vice Presidents."

BY-LAWS.

"Article 4, Section 1, The Executive and Finance Committee shall have the general management and control of affairs of the League while the National Assembly is not in session. Shall regulate and direct all matters of revenue, disbursement and investment, and determine all questions of detail arising in the conduct of the League."

It is clear that the Ex. Committee has all the power in the management and control of affairs of the League while the National Assembly is not in session that is possessed by the latter, except the power of legislation, as that is distinctly reserved to the National Assembly alone. The committee has acted on the understanding that the League is a body having a central government with power to control, and is not a mere assemblage of separate committees each with power to involve the League in all sorts of difficulties, acting under outside advice, while an Executive Committee having "the general management and control of affairs of the League" and power to determine all questions of detail arising in the conduct of the League must sit by with folded hands and see it drift into worse than chaos; that as a body the League has dignity and regard for its solemn agreements, and is worthy of respect even though individual members may assail the personality of the officers and seek to hamper and clog the work with dead political issues. In its conduct of affairs the committee relies upon the sound judgment and good sense of the large mass of the members who have the best interests of the League at heart, and not the success of a faction.

For the Executive Committee,
G. CARLTON BROWN, Secretary.

Kentucky Division.

MOST SUCCESSFUL MEET EVER HELD IN THE CORNCRACKER STATE.

Louisville, Ky., June 28.—The business meeting of Kentucky Division was held at the Louisville Cycle Club house Saturday morning from nine to twelve o'clock. Chief Consul A. J. Lamb presided. Roll call showed over one hundred members present. The report of the Chief Consul showed the Division to be in a most prosperous condition. The increase in membership for the year had been more than one hundred per cent. The work of preparing for the meet was referred to, and the labors of the seven committees to make it a success was highly commended. The report closed with the statement that the Chief Consul would retire from his chair at the close of his term, December 1, with a knowledge that he had fulfilled his duties to the best of his ability, and he hoped to the satisfaction of every member of the Division.

The report of the Secretary-Treasurer, G. E. Johnson, was then read. In this that officer said: "It need hardly be said that the League year 1890-91 was the most prosperous in the history of Kentucky Division. We began on July 1, 1890, with 109 members on our rolls. We close June 30, with 267, an increase of 158 members.

"Has any other division equaled this? I think not.

"Our membership is well scattered over the State. Louisville is, of course, the banner city, with 119 members—more than the entire State had one year ago; Covington comes next with 26: Harrisburg, 15; Richmond, 14; Maysville, 9; Newport, 7; Ashland, Danville, and Lexington 6 each; Nicholasville and Franklin, 5; Cynthiana, 4; Perryville, 3; Walton, 3; Williamstown, 3; Owensboro, Bank Lick, Bloomfield, Millersburg, Ludlow, Little Hickman, Greenup, Shelbyville, Junction City, 2 each: Carlisle, Ghent, Louisa, Paris, Princeton, Tonieville, Somerset, Union, Terre Haute, Ind., Poindexter, Paducah, 1 each.

"On the first of April, when the renewal season opened, we had on our books 153 members. Since then we have added 114 new members, and I feel confident that at least ninety per cent of last year's members will be on the rolls of '91-92. This magnificent increase and this splendid per cent of renewals, the Secretary-Treasurer may be pardoned for saying, is mainly due to hard, honest work on his part. Since the first of March, he has written over five hundred personal letters in regard to League affairs; has sent appealing circulars and application blanks to every non-League member whose name could be obtained; sent renewal blanks and circulars to every member on the first of May, and has repeated this every two weeks since with those whose names have not been returned to him from Boston.

"Altogether, nearly two thousand letters have been sent out by the Secretary-Treasurer since the Chief Consul authorized him to start the boom. The result of this policy shows for itself.

"I have, by authority of the Chief Consul, appointed thirty Local Consuls, and these gentlemen have all accepted the offices and will do what they can to uphold the hands of the Division officers."

The financial report was printed in the BULLETIN of April 10.

The Secretary-Treasurer, after the financial report, says:

"The Division has been lucky in so far as legal troubles go. The nearest to a lawsuit occurred at Danville in February. A League member, standing by the roadside with his wheel, caused a runaway and a smash-up. The owner of the vehicle threatened suit. The Division was appealed to, and a vigorous correspondence inaugurated. The rider, who appeared clearly in the right, was instructed to see an attorney and make a winning fight. It is one of the duties of the League to protect its members from unjust prosecution, and this we will and shall do. Luckily, or probably unluckily for the sport at large, the suit has not been filed, and we escape what might have proven an interesting and important case to define the rights of wheelmen in Kentucky.

"A few words as to the present meet. At Richmond the Louisville wheelmen present invited the Division to hold the next meet in their city. Members and officers of the Louisville Cycle Club present at the Richmond Meet tendered their club house to the Division, and it was accepted. As early as January last, preparations for the meet began. Seven committees were appointed, and they went to work in earnest. A guarantee fund, amounting to $300, was subscribed; a capitalist was interested, and through him the Division and Louisville wheelmen have secured the finest bicycle track in the United States. The two clubs have thrown open their doors, and visitors are invited to take everything in sight.

"At present Kentucky Division should feel proud of her standing and her prosperity. Let us work together hand in hand to continue this. Let us forget any differences that might exist among individuals, and all pull for the general good. Let us remember that it is not ourselves who should be considered, but the whole State; all for one, and one for all. Let harmony and good will be our motto. Respectfully submitted,
E. H. GAITHER, Sec.-Treas."

The first business of importance to come up was the following resolution:

Whereas, as Kentucky Division meets are for the entertainment and amusement; therefore, be it

Resolved, That in future the races held at Kentucky meets be open only to Kentucky L. A. W. members, except one open ordinary and one open safety race on each day of the meet.

E. H. GAITHER,
C. GRAU CRAHAM.
CHAS. M. CRONINGER.

Mr. Gaither is from Harrodsburg, Mr. Graham from Frankfort, and Mr. Croninger from Covington. The resolution was discussed by Messrs. Ed. Croninger, S. G. Kaufman, P. E. Allison, W. W. Stephenson, Prince Wells, Chas. Croninger, Dr. H. B. Tileston, N. G. Crawford, and G. E. Johnson. Mr. George K. Barrett, of Chicago, was invited to speak on the subject.

Mr. Kaufman offered an amendment excepting handicap races, and this was adopted. Then the resolution was passed. At future race meets of Kentucky Division there will be two open races each day only, with the exception of handicaps, which will all be open.

A motion calling for a revision of the constitution and by-laws of Kentucky Division was passed, and a committee was appointed to do this work and submit it at the next annual meeting. This committee consists of Dr. H. B. Tileston, Benj. Humphreys, and G. E. Johnson.

The committee appointed at Richmond to get up a new road book reported that it had been unable to accomplish anything, and a new committee to get up a handbook, with maps and roads of the touring section of the State, was appointed. This committee consists of Phil E. Allison, W. W. Walts, and T. E. Jefferis.

Nominations for officers of the Division for the ensuing year, which begins December 1, were then made. Dr. H. B. Tileston, president of the Louisville Cycle Club, nominated G. E. Johnson for Chief Consul. The nomination was seconded by Mr. Ed H. Coninger, Vice Consul, and A. J. Lamb, Consul. Capt. E. H. Gaither, of Harrodsburg, nominated Mr. W. E. Castle, and the nomination was seconded by Mr. S. G. Kaufman. Mr. Castle is President of the Independent Cyclers of Louisville

The election is to be held by a mail vote, to be

taken between the 15th of October and the 1st of November. The committee to have charge of the election consists of Dr. H. B. Tileston, M. J. Fleck, and W. W. Watts.

For Vice Consul, Mr. W. W. Stephenson, of Harrodsburg, was nominated.

For Secretary-Treasurer, Mr. W. W. Watts, of Louisville, was the only nomination.

For Representatives, two and possibly three to be elected; the nominations were Mr. C. O. Updike of Lexington, Capt. E. H. Gaither of Harrodsburg, and Mr. N. G. Crawford of Louisville.

Dr. H. B. Tileston, Prince Wells, and Ed H. Croninger were appointed a committee to procure an official badge for the Chief Consul, to be the property of the Division. The committee was also instructed to get a badge for past Chief Consuls. The cost of the former must not exceed $40.

Lexington invited the Division to hold its meet in that city in 1892, some time in July, and the invitation was accepted. The Division appropriates $100 to half defray the expenses of the meet.

A message was received announcing the illness of Mr. A. D. Ruff of Richmond, and a telegram of condolence was sent in the name of the League. Mr. Ruff is sixty-six years of age, but is one of the most enthusiastic cyclers in the State. He hoped to tour to the meet.

A vote of thanks was tendered the mayor, chief of police, donors of prizes, the committee having the meet in charge, and the citizens of Louisville generally, for favors shown and the uniform courtesy extended visiting wheelmen.

Messrs. Barrett, Merrill, and Wagner, of Chicago; Gafferty, of Nashville, Hanford and Hickok of Boston, and Marion of Hartford, who were among the visitors from abroad, made short addresses. And then the largest and most successful business meeting of Kentucky Division ever held ended by adjournment.

Reports of the parade, races, etc., will be found in another part of this paper. G. E. JOHNSON, Sec.-Treas.

Massachusetts to Detroit.

The Committee on Transportation L. A. W., beg to report the following arrangements for those wishing to attend the National L. A. W. meet at Detroit, July 16, 17, and 18.

Special rates have been offered over the lines of the Fitchburg, West Shore, and Great Western Division of the Grand Trunk Railroads, viz: $16.50 for the round trip.

The following itinerary is presented:

Leave Fitchburg station, Boston, on Tuesday, July 14, at 3 P.M.; arrive at Detroit on Wednesday, July 15, at 1.45 P.M. Tickets good for return until Sunday, the 19th.

Wheels will be transported free, and, if a sufficient number warrant it, a special baggage car will be provided.

The committee have chartered a special Wagner car for the trip on to Detroit, limited to 27 persons. The price for a whole berth will be $4.50, and those wishing to avail themselves of this special accommodation are requested to signify their intention of so doing at once, to J. B. Seward, 31 Milk street.

Sleeping car berths in the regular night car to Buffalo can be secured for $2.50 per berth.

All wheelmen who desire to go on to Detroit by this route are assured of first-class accommodations in every respect, as well as the cheapest as to price of tickets.

Please notify at once J. B. Seward, member of the Transportation Committee, if you intend to avail yourself of this opportunity, that sufficient accommodations can be provided in season.

Tickets can be procured at the West Shore Railroad office, 300 Washington street, Boston.

J. B. SEWARD, Committee.

Pennsylvania Division.

The rules governing the use of wheels in Fairmount Park are given below. I desire to say to the Division and others that the rules will be strictly enforced by the Park Guards, and that any infraction of them will result in trouble to the Division and others who are now permitted to use the drive-ways. Our rights to go into the park and use the roadways reasonably and in accordance with the rules of the road are unquestionably secure. They are founded upon statute, but that statute does not give any wheelman the right to behave in a disorderly manner, nor has he the right to disregard the convenience and rights of other occupants of the road. The rules will be strictly enforced, and the Pennsylvania Division is committed to their maintenance.

SAMUEL A. BOYLE, Chief Consul.

I. Bicycles and tricycles shall possess all the rights and privileges now accorded to carriages drawn by horses, and shall strictly comply with all rules of the road, and, in addition thereto, will be subject to the following rules and regulations:

II. Every machine must have attached to its handle a bell with a spring attachment which may be distinctly heard at a distance of thirty (30) yards—sleigh bells being inadmissible.

III. Every machine must have a lighted lamp, after dark, attached thereto.

IV. Machines must not be stacked within twenty (20) feet of the driveways, although wheelmen may rest them at proper times and places.

V. Not more than two machines shall be ridden abreast.

VI. Riding crosswise and curving to and fro are strictly prohibited.

VII. Children riding small machines may use the footwalks.

VIII. Coasting is prohibited except on safety machines provided with brakes.

The feet must not be elevated above three-quarters of the radius of the front wheel above the axle thereof, and the rider must not take hands off handles.

Wheelmen must follow the ordinary rules of the road. In meeting an opposing vehicle they must pass on the right-hand side. In passing a vehicle moving in the same direction they must pass on the left-hand side. The rule restricting speed to seven (7) miles an hour must be observed.

When a wheelman is unable to ride the various hills or roadways in the park he must dismount and push his machine up the adjoining footpath until a suitable level is reached, where he may remount and proceed.

In case of accident which cannot be repaired at the time, the rider must leave the park by the nearest exit.

Machines may be used on the ice.

These rules will be strictly enforced, and, if wilfully violated, the person or persons so doing will be subject to the law governing such cases.

By order of the Commissioners of Fairmount Park.

RUSSELL THAYER,
Chief Engineer and Superintendent.

Pennsylvania.

I am informed by the Central Traffic Association that no reduction can be given in rates to Detroit for the meet, owing to the adverse action of the Railroad Association of Michigan. This announcement was received yesterday. I regret very much that I have no other information to give the Division.

Yours fraternally,
SAMUEL A. BOYLE, Chief Consul.

Pennsylvania.

I wish to announce to the members of the Pennsylvania Division that I shall start for Europe on the 27th of June and will return early in September. I have made provision for the transaction of League business, both routine and that which may necessitate the engagement of legal counsel. Letters addressed to me to the District Attorney's office, Philadelphia, and marked "League business," will receive prompt attention.

I desire to wish each member of the Division a pleasant and agreeable vacation, and I trust that in the enjoyments of the summer their loyalty to the League and its various objects will not be forgotten. Yours fraternally,

SAMUEL A. BOYLE, Chief Consul.

New Hampshire Division.

As it was not generally understood that the business meeting was to be held at 7 o'clock on the evening of our annual meet, but few members were present. By the voice of the meeting the reading of reports was dispensed with, and same were to be published in the L. A. W. BULLETIN. The matter of the new Constitution was referred to the Division Board of Officers with power.

Regarding Constitution, will say that we have same completed and will have it published in Hand Book, together with a trip awheel through the White Mountains. Same is in the printer's hands now, and will be given to Division members free within a week.

As for my report, will respectfully refer you to the report of the Secretary-Treasurer, as it covers all the ground. Yours fraternally.

F. A. MCMASTER, Chief Consul.

REPORT OF SECRETARY-TSEASURER.

Members New Hampshire Division, L. A. W.:

It does not require a long report to tell the doings of your Division Board of Officers for the year just ended. Our time has been given almost wholly to recruiting and securing Local Consuls in outlying towns.

In this path we have been fairly successful. In January, 1891, we had representatives in but six towns in the State. Now we are firmly planted in 26, with good prospects of doubling this number before another year rolls round.

We have had in preparation since the middle of March matter for a Division Hand Book. Besides matters of State interest it includes a fine tour of the White Mountains. We have delayed its publication thus far, so as to include the new Constitution. We have also made contracts with fourteen hotels at principal points, where L. A. W. members can secure accommodations at reduced rates. The matter of free transportation of wheels has been referred to the Committee on Transportions and definite results are expected at once.

Referring to membership, our gain has been very large. One year ago we had 73 members within the State. To-day we have 308. By a little more help on the part of Local Consuls we shall be able to keep this ratio up during the coming year. We must have good live Consuls in every town that boasts a wheel. The clause in the Constitution regarding Local Consuls which reads: "May be removed for cause by Chief Consul, etc.," is to be judicially used in weeding out any drones during the coming year. The Division officers are going to hunt until such are found in every town. Connecticut, Massachusetts and Illinois are weekly sending in lists of new members that seem almost incredulous until we stop and examine their lists of Local Consuls or talk with some of them and see the interest shown.

My report as Treasurer is as follows:

Cash received Dec. 9, 1890, from F. O. Moulton		$231.04
Jan. 1.	Paper for letter heads	$1.80
Jan. 1.	Express on same	15
Jan. 1.	Express on Roll Book from Sec'y.	15
Jan. 1.	Printing 500 letter heads and paper and printing 500 cheap ones for circular use; also 1000 envelopes and printing	7.75
Jan. 1.	Express on letter heads for Chief Consul	15
Jan. 14.	Expense of Sec'y to Nashua	90
Jan. 31.	Salary Chief Consul half year to August, 1890	12.50
Feb. 8.	Printing circulars	1.25
Feb. 8.	Postage on same	25
Feb. 8.	Postage	2.00
Feb. 19.	Expense of Secretary to Washington to National Assembly	35.00
Mar. 27.	Expense of Secretary to Nashua	93
Mar. 31.	" " Concord	97
Apr. 2.	Record Book for Secretary	40
Apr. 17.	Roll Book for Vice Consul	10
Apr. 18.	Expense of Vice Consul to Manchester	72
Apr. 18.	Expense of B. F. Donovan from Plymouth to Manchester on account of Hand Book	2.80
Apr. 27.	Postage	3.00
Jun. 8.	Expense Secretary to Concord	72
Jun. 8.	Help on circulars	30
Jun. 12.	Printing Consul certificates and circulars	3.65

Seaving a cash balance on hand and deposited in Merrimack River Savings Bank of Manchester, N. H., of $92.27.

Respectfully submitted,
R. H. SCOTT, Sec.-Treas.

Connecticut Wheelmen, Attention.

All persons who intend to go with the Connecticut party to Detroit on July 14 are urged to send in their names at once. It is necessary that the list should be made up by July 9th at the latest. The Russell House will be our headquarters while in Detroit. Badges have been procured and will be furnished to all participants from this State. FRANK H. CRYGIER,

48 State street, Hartford, Conn.
Chairman Special Transportation Com.

Illinois.

At the June meeting of the Illinois Cycling Club, Messrs. T. L. Sloan and C. L. Steen were elected club representatives on the Division Board of officers, vice A. W. Towsley, resigned, and T. F. Ryan, deceased. W. A. DAVIS,
Chicago, June 8, 1891. Secretary.

Ohio.

J. M. Kiser has been appointed representative of the Columbus Safety Cycling Club in place of Dr. E. M. Gilliam, resigned. M. A. HIGH,
Cincinnati, June 26, 1891. Chief Consul.

Ohio Consuls.

Lebanon—C. K. Hamilton.
Columbus—Chas. G. Smith, in place of C. O. Woods, resigned.
Delphos—C. L. Hartwell, in place of H. E. Cowdin, resigned.
Loveland—J. R. Anderson.
Clyde—H. G. Huffman, in place of A. G. Reynolds, resigned.
Hiram—R. A. Nichols.

WILLIAM D. KEMPTON,
Cincinnati, June 27, 1891. Sec.-Treas.

Ohio Hotels.

Loveland—Stewart Hotel; day $1.00; meals or lodging 25 cents each.

Waverly—Emmitt House; day $1.50; meals or lodging 40 cents each.

Wellsville—Commercial Hotel; day $1.25; breakfast or supper 25 cents each; dinner or lodging 40 cents each.

WILLIAM D. KEMPTON,
Cincinnati, June 27, 1891. Sec.-Treas.

New League Clubs.

The following club has qualified as League club and filed the certificate required in the office of the Secretary:

349—Newburyport Bicycle Club, Mass.
350—Rutherford Wheelmen, N. J.
351—Bay City Wheelmen, Mich.

League Club Renewals.

The following League Clubs have renewed membership.

14—Cincinnati Bi. Club, O.
123—Albany Wheelmen, N. Y.
174—Manhattan Bi. Club, N. Y.
181—Riverside Wheelmen, N. Y.
194—Syracuse Cycling Club, N. Y.
234—Berkshire Rovers, Mass.
236—Washington Cycling Club, Ill.
298—Rushville Cycling, Ill.

Important Notice to the Wisconsin Division.

The following roads in the Western Passenger Association have granted a rate of one fare and one-third, to and from the annual meet at Green Bay, Wednesday and Thursday, July 22 and 23: Illinois Central; Chicago and Northwestern; Milwaukee and Northern; Milwaukee, Lake Shore and Western; Wisconsin Central; Chicago, Burlington and Northern; Chicago, Milwaukee and St. Paul; Chicago, St. Paul, Minnesota and Omaha; Green Bay, Winona and St. Paul.

For exact information as to the manner in which the business will be transacted by each line designated, and particularly as to the junction points via which it will arrange to grant the reduction, please communicate with passenger or ticket agents.

Pay full fare from starting point, and receive from agent a certificate to that effect. Same must be signed at Green Bay by F. J. Morawetz, secretary. Buy your ticket a day in advance, and, where possible, give station agent information as to number of wheels to be taken on any one train. Place tag bearing name and destination on your wheel and take tag for return trip.

This rate is open for all, whether wheelmen or not. Use your influence towards assuring a large attendance at races. This is a pleasant excursion for all, and the races will be the best contested and most interesting ever held in the Western States. Accommodations at the Bay are ample, and all citizens are working toward making this a thoroughly enjoyable event.

This notice is issued by authority of W. W. Finley, chairman Western Passenger Association.

Local Consuls hereby appointed: Neenah, F. E. Ballister; Fond Du Lac, E. M. Moore; Appleton, C. F. Totman; Glenbeulah, J. W. Van Alstyne; Beloit, F. H. Blodgett; Berlin, L. E. Davis.

Hotels hereby appointed: Commercial House, Plymouth; EauClaire House, Parkinuon & McGills, Proprietors, EauClaire, Wis.

Calling upon all members to attend both the State and national meets, and asking and advising the speedy men of this state to by all means enter in the Green Bay races, I am fraternally

W. L. SIMONDS, Chief Consul.

New York State Championships.

Notice is hereby given that the following Division Championships have been assigned to the Syracuse Cycling Club, to be contested at their race meet to be held at Kirkwood Park, Syracuse, N. Y., July 10th and 11th, 1891.

Said races open only to members of New York State Division L. A. W.

One-quarter mile safety, one-half mile safety, one-mile safety, one-mile ordinary, one-mile tandem. Yours truly, A. B. BARKMAN.

New York, June 30, 1891.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an initiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

Total 434.

FOR SALE BY

THE LEADING DEALERS

From Maine to California.

WE DIDN'T DO IT!

And we won't promise to refrain from a repetition of said delinquencies. 'CAUSE WHY? WE are NOT GUILTY.

And we wish it understood, once for all, in full reply to many letters of inquiry, that we DID NOT build the Leaning Tower of Pisa, we had no finger in the erection of the old Mill at Newport; Bunker Hill Monument was finished without our trying to spring any information or plans of previous designs on the Commissioners.

The established receipe for English Plum Pudding is no infringement on any formula of ours. We do not license makers of German sausage to use any confined styles of overcoatings, which are exclusively our property. The grass hopper weathervane on Faneuil Hall is NOT a BASE IMITATION of any particular style of hoppergrasses we were building 'steenty years ago.

We simply rise to explain that WE BUILD "BRONCHO" SAFETY BIKES. That we shall continue to build and sell them as long as the present demand continues, the assertions of the N.B. class of worshipers to the contrary, nothwithstanding.

If you want to know all the inside facts, write for CAT. and Testimonial book, AT ONCE.

WHAT IS HIGH WATER MARK?

Actual shipments of the **Giant Safety Bicycles** so far this year have been as follows: January, 793; February 852; March, 1112; April, 2001; May, 2256; Total, **7014.** Above are facts and demonstrate conclusively to the practical mind the widespread popularity of these wheels. We are now working overtime and producing about 450 wheels per week. Pretty good for a factory not yet two years old, is it not?

New edition of Catalogue now being mailed.

H. A. LOZIER & CO., - - Cleveland, Ohio.

Every rider of the

Eclipse Safety Bicycle

will tell you it is the finest machine he ever sat on.

You can make more miles over rough or smooth roads, in a day, with less effort, than on any wheel made.

The construction of the wheel is such as to remove all jar, and give the rider a machine that is as easy as a buggy.

The frame is made of material that cannot be broken.

The workmanship is first-class, ball bearing throughout, tangent spokes, and elegantly nickel plated.

Do not fail to see the ECLIPSE before buying. Price $100.

CALL, 358 Main Street, Springfield, Mass**

"QUADRANT" CYCLES

ARE RENOWNED FOR

ORIGINALITY.

We make our own designs and work our own patents, constantly incorporating in our machines about 12 or 14 of our own inventions.

EXCELLENCE.

In these days when the commonest rubbish is advertised as "the best, the lightest, the swiftest," etc., and even sold as such, we can only ask intending buyers to send for our 1891 catalogue, and read the 16 pages of unsolicited testimonials received during the past season.

TRUSTWORTHINESS.

"A prominent feature of their exhit (Philadelphia Exhibition) is a 'Quadrant' which was caught between two cable cars on Columbia Ave. This machine is bent and twisted in every direction, but not a thing is broken."—*Bicycling World*, 6 March, 1891

"The machine is twisted out of all resemblance to a bicycle, but so far as can be seen not a single break occurred."—*Referee*, 6 March, 1891.

SAFETIES No. 17 and No. 20, with Tangent Spokes and Solid Cushion, and Pneumatic Tyres, are the leading lines of the season.

Samples of same can be obtained on application to

BROWNING KING & CO., - New York.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them. The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced. Send for descriptive circular.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.
Made in sizes suited to different machines.
Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c. With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere.

AMERICAN SAW CO.,

TRENTON, N J.

"Z & S" Hose Supporters

FOR SHOULDER, BELT AND HIP.

FOR SHOULDERS—An article that meets the popular demand from wheelmen, and the public generally. The Z & S. Supporters have been greatly improved, being made lighter with a better clasp at the stocking, saving all wear on the pants, chafing the leg or tearing the stockings, and warranted not to "let go their hold" accidentally. These Supporters do away entirely with elastic bands, which bind upon the limbs and stop the circulation of blood, causing numbness or swollen veins. They are made so as to be worn beneath the flannel shirt, passing over the shoulders and down either leg. Adjustable for any sized person.

Price, 50c.

FOR BELT—With belt around the waist that allows of ample adjustment over the hips. Arranged for short or tall riders. Fitted with our patent fastener for holding the stocking; being perfectly adjustable it is impossible to chafe the leg or cut the knee-breeches or wear out the stockings They are exceedingly handy, universally adjustable, and, with our new patent catches for the stockings are found to be the best belt supporter on the market.

Price, per pair, 50cts.

FOR HIP—The "Z. & S. "Hip Stocking Supporters have undoubtedly had a more extended sale than all the other stocking supporters so far placed on the market, not because they are better than the belt or shoulder supporters, but because they are so exceedingly handy to put on and take off; can be worn under all circumstances, whether with a linen or flannel shirt, for a short ride where it is very desirable to make a quick change to long pants for social or business purposes, or vice versa.

These supporters are now made with the double safety pin, for attaching to the drawers or shirt above the hip, and extending down either leg, fastening to the stocking with the Lindsley Patent clasp, we being the only manufacturers licensed to use this clasp.

Price, per pair, 35 cents.

THE SAFETY BUNDLE CARRIER

For Handle Bar or Mud Guard.

These Carriers have come into demand wherever the Safety is used. Owing to the patented principle of swinging plates, thereby allowing them to be placed at right angles under the package to be carried, and at the same time placed close together on the bar, for a short package, or further apart for a long bundle, canes, umbrellas, etc., and upon removing the package or bundle, these plates can be moved back horizontally with the bar entirely out of the way. These Carriers are very strong, nicely nickel-plated, compact, and an ornament to the machine. They are easily detachable if desired. In ordering, state what machine they are to fit.

Price, $1.25. By mail, $1.35.

Send for latest edition of "Encyclopedia of Cyclers' Wants." Free.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

CUSHIONS WARRANTED.

"We warrant all our COLUMBIA BICYCLES and TRICYCLES to be free from imperfections in material or manufacture, and agree to make good, at store or factory, at any time within a year, any defects in them not caused by use, misuse, or neglect."

In this warrant we unreservedly include our COLUMBIA CUSHION TIRES.

These Tires are made exclusively for us of the very best rubber obtainable; are only slightly compounded, just enough to give the proper elasticity and to insure the greatest durability; are all tested to an exact weight, as well as in many other ways; and are rigorously inspected several times. They "will not float."

We unhesitatingly recommend the COLUMBIA CUSHION TIRES as superior to any other Cushion Tires in use, and riders will find by actual test that COLUMBIA CUSHIONS have more resiliency than any others. They will last as long as Solid under the same circumstances.

Carefully inspect these Tires.

THE BICYCLING WORLD & L. A. W. BULLETIN.

FOUNDED 1878

DEVOTED TO THE INTERESTS OF CYCLING.

Volume XXIII. Number 11. BOSTON, 10 JULY, 1891 $1.00 a Year. 5 cents a copy.

The great resiliency and size of the Victor Cushion Tire (the King Tire of '91) have caused many wheelmen to erroneously suppose that a puncture would work the same disaster as in the pneumatic tire. The Victor Tire "isn't built that way."

STICK A PIN IN IT.

Everybody invited to try for himself.

VICTOR CUSHION TIRE.

OVERMAN WHEEL CO., CHICOPEE FALLS, MASS.

BOSTON. WASHINGTON. DENVER. SAN FRANCISCO.

THE GENUS HOMO IS NOT ALWAYS HOMOGENEOUS.

We have a special admiration for a consistent man. A man who knows what he wants. Why he wants it. And who knows when he gets it. Then if, in addition to this, he *pays* for it, we are inclined to rate him as "one on whom the Gods have set their seal to give the world assurance of a man." A party recently came into our office and asked if we made bicycles with pneumatic tires; after a few minutes talk with him we found that he didn't know what a pneumatic tire was, and had no idea why it was called thus. Of course we sold him a

Hickory TRADE MARK

as we had no difficulty in convincing him that it had *all* the staying qualities as well as the elasticity. Of course we told him that we had cut open a pneumatic tire and were satisfied that there was "nothing in it."

By the way, speaking of pneumatics, we have been accused of trying to injure them by making sarcastic remarks. We always knew they were especially liable to injury, but had no idea they were as sensitive as that.

When anything is in such delicate health that it may be hurt by a sarcastic remark, or even by a grammatical error, it must be weaker in the knees than the bicycle ever was, and *that* has had to live down a heap of what Webster calls contumely. Who knows but the tire now so rudely spoken of as a "buster" may yet become the "head of the corner?" *We repeat, who knows?* If *you* do, please send your address to this office. Speaking of pneumatics; have you noticed any of those last years' cloaks that some of the ladies have been wearing this year? They were made to fit over a bustle, and now that the bustle is no more the cloak reminds us of several tires we have met coming home from a "run." While we are talking of bustles (and surely there can be no harm in it since they are *Ancient regime*), did you notice that conundrum that was in some of the "patent outside" papers lately? "Why is an historical novel like a bustle? Ans.: Because it is fiction founded on fact."

Hickory TRADE MARK

There was said to have been some fiction that was not founded on fact connected with the advertising of bicycles. Who could have done it we have no idea, though there was such a report.

"A NOVEL SIGHT was seen Friday evening when three local wheelmen rode down Congress street on a Hickory Safety. One man stood on the coasters, the second sat in the saddle, and the third was seated on the rear mud guard. Their combined weight was four hundred and twenty pounds, but the wheel stood the severe test finely."—Milford (Mass.) Journal.

That ought to have been fiction, but it wasn't, it was a fact. The machine was one of our regular Hundred Dollar Safeties, and weighed 44 lbs. We

Hickory TRADE MARK

don't recommend the bicycle for such use. We merely make a note of the fact that they *will* stand it.

However, if that same machine should happen to break "on a smooth road" some day the "light rider" might wonder why it was, but anybody who makes bicycles for a living wouldn't.

Queer, isn't it?

ELLIOTT HICKORY CYCLE CO.,
Newton, Mass.

P. S.—Don't forget to go to Detroit, will you?

Beauty on the Bicycle.

AS WE were one of the earliest advocates of Bicycles for ladies, it is far from pleasant to hear people who ought to know better raise silly objections, and yet we must admit there is room for improvement on one point, viz.: appearance. Hardly a rider goes by but has his saddle well back and then leans forward so as to get his body over his pedals. The outside world wonders "where is the fun of cycle riding if it is such hard work as to double a man up like that?" The initiated know that he is simply sitting in racing position, regardless of the fact that racing and riding are wholly different in their requirements. But when a lady rides with saddle too far back and also too low, the ungainly appearance is most marked, and we don't blame the Rev. Bishop Coxe for comparing her to an old woman on a broom stick. Moral—Keep point of saddle over crank axle, and remember that the SYLPH "Y" handle bars give more room for mounting than any other.

ROUSE-DURYEA CYCLE CO., - - 9 G Street, Peoria, Ill.

FEATHERSTONE'S
PNEUMATICS.

We have been too busy to say much about what our Pneumatics are doing. The reports from the races in the different parts of the country, show where the Pneumatics stand. The racing man does not think of riding anything but a pneumatic now IF HE CAN GET ONE.

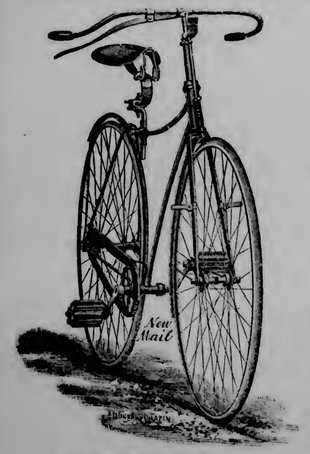
Mr. G. Minturn Worden won the State Championship of Massachusetts, at Worcester, May 30, on a FEATHERSTONE PNEUMATIC.

In the road race of 33 1-2 miles, at Denver, June 14, THREE FEATHERSTONE PNEUMATICS ENTERED AND CAME IN 1st, 2d and 4th respectively, Mr. T. F. Lyon coming in first, winning the time prize medal.

A. FEATHERSTONE,

Clark and 16th Sts., and Armour Ave., - - - Chicago.

NS AND NEEDLES



Have no effect on th "SWIFT" Cushion Tires, and don't forget that the side grooves on our Tire effectually prevent the rim from ruining the Tire.

Simplicity, Lightness, Strength.

The New Model E "SWIFT" with 1-inch Cushion Tires weighs 36 lbs. all on. Special curved handle bars with cork handles. Guaranteed to carry 200 lbs.

COVENTRY MACHINISTS' CO., Ltd.,

239 Columbus Avenue, Boston, Mass. | 11 and 13 Madison Street, Chicago, Ill.

HANDSOMEST SAFETY MADE.

WHY is the NEW MAIL at $100

The Best Value in the Market at the Price or Anywhere Near It?

BECAUSE IT HAS Cushion Tires which annul jar and vibration, giving life and elasticity to whole wheel, and are to be the Favorite Tires for 1891, and we Warrant Them. Our Cushion Tires are Right and the Best.

BECAUSE IT HAS Tangent Spokes strongly tied and Nickelled to intersections. Stronger and handsomer than direct spokes as used on cheaper wheels. Select Tangent Spokes Always!

BECAUSE IT HAS a Brazed Frame at all joints. Look our and get a Brazed Frame always to stand road wear, and at *every point* of the frame!

BECAUSE IT HAS a Standard Easy Saddle, the Garford, which is a Favorite.

BECAUSE IT HAS the Popular New Mail Shape Handle Bars, low and well back to rider.

Study all these points on examining the wheels in the market and see if you find them in Any Other. The BEST YET!!! If your dealer has not got it ask him to show one before you decide.

☞*Postage stamps will not be accepted hereafter in payment for Advertisements or Subscriptions. Checks, Money Orders or Postal Notes only will be taken.*☜

EDITORS:

C. W. FOURDRINIER. J. S. DEAN.

Editorial Contributor, F. A. EGAN.

BOSTON, 10 JULY, 1891.

ALL roads lead to Detroit during the next week, and every indication points to a large attendance and a good time. If you go, do not fail o take your League ticket, or you may regret it. Detroiters are ready and anxious to receive you all, so don't disappoint them by staying at home.

AT the meeting at Rockford, of the Illinois Division, ex-Chairman Randall and Rule G received an unanimous endorsement, and the Alliance was voted to be detrimental to the best interests of the League. As Mr. Miles was on the Committee of Resolutions, we are not surprised that he lent his influence to have the resolutions read as they did; but that H. G. Rouse, so closely identified with the racing interests of Peoria, should be in favor of Rule G, is a surprise to us. We notice one thing in the resolutions which we cannot pass without comment, and that is, the reference to Mr. Randall's "personal remarks" (that's mild!) and the claimed "apology." Mr. Randall's "personal remarks" were made in the press; therefore would it not be a more manly course had he made the apology a public one also? To accuse a man publicly of being puffed up with his own importance, and then write him a private letter expressing regret, is hardly a fair way of disposing of the matter. The least Mr. Randall can do is to say publicly, through the same medium he made his attack, that he regrets his hasty language.

THE *Referee* charges that the "Dunn organs" have shirked the question as to the power of the Rights and Privileges Committee to pass or the constitutionality of Rule G. or any other rule. We did not know that there were any "Dunn organs," and judging from the persistent unreliability of the *Referee* in treating of the Racing Board incident we doubt if such really exist. However, if they do, let them no longer "shirk" the responsibility of coming out and stating that the Rights and Privileges Committee have the right.

As for the WORLD it has from time to time stated pretty plainly that it believed the Rights and Privileges Committee has the right to pass on the question of constitutionality of any rule that may be presented and questioned. It is to be hoped that these doubting Thomases will have the question settled at an early Constitutional Convention or meeting of the National Assembly.

ALL this balderdash and nonsensical talk about the League being disintegrated in consequence of the little round and wind up between Mr. Randall and the Rights and Privileges and Executive Committees of the L. A. W., has a very hard, practical answer, and the answer is this: The League closes its books on the first of July with over 4000 more names on same than it had a year ago! This smacks of trouble and splits between the East and the West, doesn't it?

THE correspondent from Newton, Iowa, raises his voice in protest against a suggestion made in a local paper that the races there the other day would "have been a greater success if there had only been some races for the ladies." It is a pleasure for us to add our most emphatic protest to that of our correspondent. As he says, it's bad enough to encourage racing among women who desire to become professionals, but to see any pleasure in our sisters, sweethearts and wives struggling round the track—save us!! It is hard to conceive a nature which could get any enjoyment out of such a spectacle. In the first place, the professionals do not hesitate to appear in tights, a costume eminently fitted for cycle racing, but not one that would ever be adopted by lady riders. Hence ladies would have to wear the ordinary skirts, a costume not at all fitted for racing. The idea is barbarously revolting, and even the suggestion shocks the sensibilities of the refined and chivalrous.

THERE is nothing like being up with the times. Mistakes will occur in the best regulated newspapers; but when we read in a so-called cycling paper, printed June, 1891, that W. H. Emery is first Vice President of the L. A W., and Geo. Bidwell, second Vice-President, we appreciate the fact that it takes a long while for news to reach some people. The same paper speaks of Mr. Randall as being "suspended," and says there will be "music" at Detroit on the occasion of the meeting of the "National Assembly."

A WEDDING tour on bicycles seems to be the latest fad. As a rule we can scarcely recommend this mode of travel for the honeymoon. The roads of America are not such as to improve the temper, though a tour over the continent from ocean to ocean might be the means of strengthening the patience of a newly married couple to such an extent as to be of inestimable service to them in after life.

Nothing tests a man's (and a woman's for that matter) patience and good nature so much as the delays, discomforts and trials of travelling. A man who, under the soothing influences of affluent surroundings and the smooth running of affairs is patient amiability itself will, in many instances, become irritable when he encounters the annoyances incidental to travel. Such people lack the spirit which should exist in every one, and which finds a certain exhilaration in surmounting difficulties of whatsoever character. We have sometimes noticed that those we supposed possessed a serenity of disposition, become the very essence of selfishness under tests that none but the supremely selfish would ever attain.

It might be a good suggestion for engaged couples to take a prolonged tour, under proper chaperon of course; thus they would have ample opportunity to judge as to the sweetness, or sourness as the case might be, of each other's dispositions before it was too late.

"DOES it make a man a professional when he exchanges a prize he has won at a race meeting, for some other article?" This question was asked us by a rider the other day, and our answer to the query would be "No." We have known of cases where the contestants after a race have traded prizes, and we cannot see the impropriety of any rider swapping a bicycle, or watch, or any other prize for some article he would prefer, especially if he has duplicates already in his possession.

A CONSTITUTIONAL CONVENTION has been called at Hartford, Ct., for September 8th, on which occasion no doubt the questions now vexing and perplexing certain members of the L. A. W. will be discussed, and we hope amicably settled. There is no need of having sections jealousy as a factor in the discussion. What we are all after is what is best for the interests of cycling. We may view the question in different lights, but we believe that most of us are honest in our convictions.

MASSACHUSETTS heads the list of League membership at the close of the League year with a total of 2848. New York takes second place with 2513, and Pennsylvania comes third with 2132. Then comes Connecticut 1817 strong, and Illinois fifth with 1676.

THE Rt. Rev. Bishop Coxe of Western New York has raised quite a little breeze by his attack on cycling for ladies. A prominent New Yorker sent in his personal protest, and the Bishop replied as follows:

"DEAR SIR: It is impossible for me to object to your remonstrance based upon the therapeutic merits of the bicycle. But I am surprised and amused at the comments of the press on some incidental remarks which fell from my lips while addressing a school for girls which is under my care, and to which I was commending modesty as indispensable to character in women. I am still of the opinion that bicycling is grossly immodest as well as ridiculous for women; the exceptional use of it for health does not come under my censure, save only when the crowded thoroughfares of a city are chosen for such exercise. I submit that to pick out a word or two from a deeply serious and well-studied lecture, and to treat them apart from time, place, and circumstance, with no reference to the argument in which they were embedded, is not fair to any speaker, much less to one whose experience among men, and whose studies in ethics are not inferior to those of his critics. With sincere thanks and true respect, I am faithfully yours,

A. CLEVELAND COXE, Bishop, &c."

It is pleasant to note that the Bishop does not oppose cycling for ladies on his disbelief in the "therapeutic merits of the bicycle," and this being so, his dislike rests simply on what he is pleased to term the "gross immodesty" of ladies indulging in the sport.

We differ with the reverend gentleman as to its being "grossly immodest and ridiculous" for ladies to ride. We have seen ladies riding a bicycle who were decidedly ungraceful, but never have we witnessed the spectacle of a lady's appearance on a bicycle descending to the low level of "gross immodesty." The picture is overdrawn; but if the Bishop's berating will cause some of the ladies who cycle to have a little more care as to the form with which they ride, this "Tempest in a Teapot" will not have been without good results.

THOSE interested in the Rule G controversy will find hot shot and plenty of pepper in the article signed "Veteran."

GOD BLESS BRO. COXE.

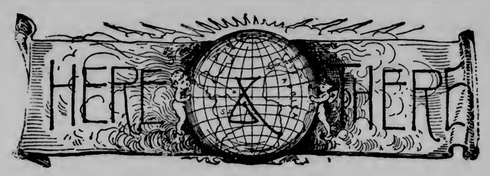
I AM inclined to take a more cheerful view of Bishop Coxe's talk than obtains with most of the bicycle people. It seems to me that it must be to the advantage of the cause rather than otherwise (however the Bishop may have intended it.) Every man, with even a moderately active digestion, sees nothing but loveliness in the bicycle riding of any woman who is appearing *as well as she can*, but it is well that some one has called attention to the matter, to the end that unnecessary awkwardness, born of ignorance as to what is best, may be eliminated so far as possible. In the *average* riding school beginners are taught to *ride* without regard to position, length of cranks, height of handle bar, ankle motion, or general effect, with the result that many of the "graduates" turned out fit the Bishop's description too closely.

Now girls, when you begin to reform, as of course you will, (please don't feel too sure that this means *some other* girl, but look into the matter carefully and see if it don't mean *you*), don't think you are cured when you are only convalescent.

Sit up; look alive; use your ankles; hold up your head; straighten up your back; wear plain, neat, becoming dress, and if the Bishop don't propose to some of you, *I* will. STERLING ELLIOTT.

Newton, July 6th.

P. S. Please speak to your brother about this and see if you can't get *him* to sit up, too.



THEY ARE IN IT.

EDITOR BICYCLING WORLD: " * * * Turning to the list of events, we find that of the twelve races to be run at Hamilton, Ont., just exactly six of them are for the good old ordinary. From this, and the fact that the word "pneumatic" does not once occur in the entire pamphlet, we are inclined to think that our Canadian friends are not as great leaders in matters cycling as one would think them to be, when their close affiliation to England and things English is considered."

In reference to the above clipping in your last issue, I would like to say for the information of the writer of same that our Canadian rules do not classify pneumatic tires. It therefore was not necessary to mention them in our pamphlet. It may interest him, however, to know that of the five eligible entries for safety championships, four rode the new tires; and as the one-mile race was won on a quarter-mile track in 2.42 1-5, I think he will admit that Canadian riders are not as far behind the times as he would imagine.

As to remarks re the good old ordinary, we have found on our roads that cushion tire rationals have proved faster than safeties, until introduction of pneumatics; and as most of our racers heretofore rode high wheels it was necessary to at least give them half of a necessarily short list of events.

The road race yesterday, won by a Hamilton rider in 54 1-2 minutes, distance 19 1-2 miles, also proves, I should think, that although we may not be leaders we are not laggards. Yours truly, R. A. ROBERTSON.

SEVERAL members of the Acorn Wheelmen of New York City made a run to Coney Island on July 4, and enjoyed a shore dinner at that place.

THE summer race meeting of the Atlantic City Wheelmen will take place July 22d.

PREPARATIONS are being made for a big bicycle meet to be held in connection with the State fair at Minneapolis, Minn., September 7.

WHAT may prove a fatal accident occurred on June 29, when four cyclists were coasting the mountain side of the road from Feltville to Scotch Plains, N. J. Corporation Counsel Craig, A. Marsh and Albert Venino were in the lead, and Mr. Venino in sweeping around a curve crashed into a wagon loaded with crushed stone and was hurled headiong down the hill. Mr. Marsh jumped from his wheel in time to avoid a collision, but was thrown in jumping and badly sprained an ankle and a wrist. The other two cyclists collided with the wagon but were less hurt. Mr. Venino was brought to his home in Plainfield, N. J., where he lies in a critical condition.

THE East Orange, N. J., Cyclers had a busy time of it July 4. At seven A. M. a portion of the organization made a run to Tarrytown on the Hudson, reaching there at 11.20 A. M., and after partaking of dinner they started for home. At 11 o'clock another portion of the club consisting of 27 members scorched it to Rahway, N. J., to witness the races of the Union County roadsters. In the evening 62 members of the club started on a fireworks parade through the principal drives of Orange, and on their return to the club house partook of refreshments, and finished up what really could be called a busy day.

THE Columbia Cycle Club of Worcester, Mass., celebrated the inauguration of Independence Day with an antique and horrible parade which, though not the success in point of numbers that was anticipated, made up in quality and a little more, what it lacked in quantity. The costumes worn by the members were indeed laughable in the extreme, and it well repaid those who were out in the early hours of the morning to witness the parade.

"ONE of the lightest wheels manufactured was shown at the quarters of the Cook County Wheelmen this week. It was a fifty-inch ordinary and weighed but ten pounds, and was made of aluminum."—*Exchange*. We should like to see how the wheel would look after it had a fair trial on the road.

MR. ELMER F. WEST, a member of the Gotham Wheelmen, is to ride to his home in the Catskills in August, where he will enjoy a month's vacation.

THE new cycling club recently formed at Natick, Mass., has twenty-six charter members, and a prospect of more before the list closes.

CAPT. SWAN of the Waltham Bicycle Club left that city on June 30 awheel for Detroit, to attend the national convention of the L. A. W.

LEWIS WARNER of the Oxford Wheelmen, of Philadelphia, Pa., has sixteen century runs to his credit so far this season.

PROBABLY the largest club mileage known for a single day was made on June 13 by the Century Wheelmen, the total being 6900 miles.

THE Boston *Record* asks: "Is a girl astride a broomstick or a bicycle a less cheerful sight than a bishop astride a hobby?"

ROCKLAND County Wheelmen race meet at County fair, Spring Valley, N. Y., September 22. Entries close with Messrs. Gardenier and Cole, Spring Valley.

ONE of the important cycling events of the year in England is the annual picnic of the Singer Cycling, Cricket and Football Clubs. Coventry takes a holiday when the Singer folks give their picnic; it could not do otherwise, for all the (Coventry) world and his wife become the guests of the Singer clubs and turn their faces toward Kenilworth on pleasure bent. Representatives from all the leading makers were present to the number of nearly 800, and a lot of others who did not cycle, made the number of those who partook of the Singers' hospitality reach nearly 1200. Mayor Hill, of the Coventry Machinists' Co., and other civic dignitaries, graced the occasion by their presence. After tea dancing and games were indulged in until the long twilight faded into night.

DR. WINFIELD HART BALDWIN of Norwich, Ct., and Miss Fannie Benedict were married July 6 at the First Congregational Church in the presence of 1000 guests. A reception and banquet followed, and later the young couple mounted bicycles and left for a journey through the West and South. They will visit Niagara Falls, Chicago, St. Paul, Omaha, New Orleans, and Washington, making almost a circle of the country east of the Rocky mountains, and returning home in the fall. Both are expert riders, and much of this long distance they propose covering on their wheels.

THE Racing Board by unanimous vote has decided that in championship events the pneumatic and cushion will not be penalized.

THE Quannapowitt Cycle Club has been organized at South Braintree, Mass.; fifty members have already joined the club, and the outlook for the future of the club is very promising.

THE Ansonia, Conn., Wheel Club cleared $232.85 on their first field day.

PATERSON, N. J., has a cycling club just organized with the name of the "Get There" Bicycle Club.

THE Amity Wheelmen, a cycling section of the Amity Athletic Association of Brooklyn, had a pleasant outing on July 4th. Thirty-two members of the organization made a trip a-wheel to Yonkers, where the party was royally entertained by residents of the place, who were former residents of Brooklyn, N. Y., dinner being served at the Getty House. After spending several hours in social intercourse, the return trip was made by way of Fordham.

THE first annual race meet of the Quaker City Wheelmen will take place at the Philadelphia Ball Park, August 29th, 1891. Address E. B. Chapman.

THE following, relating to the speed of bicycles and signals, was framed by Buffalo's assistant city attorney, and at the last meeting of the council was referred to the Committee on Ordinances: "No person shall ride any bicycle or tricycle in any street, lane, or alley of the city, at a faster pace than at the rate of ten miles an hour, and any person riding any bicycle or tricycle, shall, when approaching any pedestrian, sound an alarm, by means of a bell, horn, or whistle, and shall in the night time carry upon the front of such bicycle or tricycle, a lighted lamp or lantern."

MR. R. P. JENKS of Providence, R. I., asks: "Will any of your readers who know give me some information (through the columns of your paper) about the riding on Long Island. I wish to know about the route from Greenport to Brooklyn, following the South shore. Any information of the kind of roads, towns passed through, and distances will be very acceptable."

GEORGE A. TYLER of New Britain, Ct., had a '91 Columbia light roadster safety No. 12719, stolen from him in front of E. G. Babcock & Co.'s store, Friday, July 3, during the noon hour. He left his machine at the curbing while he entered the store to make a purchase. There is no clue to the thief.

THERE is some talk of a match race between the oldest champion and the baby champion of New Orleans. Mr. Chas. Guilliotte, the old time champion, although he has retired from the track, expresses his willingness to meet B. W. Cason, jr., if a prize of $100 or thereabouts is put up for any distance from one to ten miles.

THE Buffalo Ramblers are now considered the premier cycling club of Buffalo, N.Y., being the foremost in all local events and enterprises, so much so, that the name, "Ramblers of Buffalo," is well and favorably known all over this part of the country. That other cities appreciate the work of the Ramblers is shown by the fact that, inside of two weeks after a visit of this club to Rochester, the unattached wheelmen of that place organized a Rochester "Ramblers" wheel club, and they now have a membership of over forty, and expect a large addition at the next meeting. If they will do as much in the interests of cycling as their namesake, they will be a boon to Rochester. So, by all means, let the boom continue.

IT has been decided that the road race between the Ramblers and the Press Cycling Club, of Buffalo, take place on August 1st, and that the distance be 50 miles. The trophy will be valued at $50, and the teams shall consist of six men. The team for the Ramblers will be selected from the following: A. C. Crooks, F. E. Klipfel, J. J. Kane, C. H. Christ, F. C. Fuhrmann, Louis Bruch, H. H. Warren, and Wm. F. Walter. The Press will have a strong team selected from these names: Conn, Sullivan, Calihan, Alward, Neumann, Finley, Penseyres and Dorntge.

AT the Owosso (Mich.) Wheelmen's century run, Owosso to Detroit by a circuitous route, 110 miles, owing to rain only two started, Chas. Salisbury and Louis A. Burhans. They made the start at 4 A.M. and finish at 8.10 P.M., June 22, '91.

THE Press Cycling club century run from Erie to Buffalo resulted in a club road race, and considerable scorching was indulged in on the 10-mile stretch. F. M. Pritch of the Press started from Buffalo on the 27th, at 5.30 P.M., arriving at Erie at 4.15 A.M.; fifty minutes later he left Erie on the return, reaching Buffalo at 4.55 P.M. His actual riding time was 23h. 25m. He rode a cushioned tire safety. Sullivan of the Press also did the 200 miles; time from (riding) Buffalo to Erie, 7h. 36m., returning with the 23 members of the Press Cycle Club to Buffalo, all finishing but one, who had a break down.

THE Gotham Wheelmen of New York City expect to occupy their new and beautiful club house on August 1st. Although but eight months old this organization has a membership of seventy-five and rapidly growing, which is to be accounted for from the indefatigable efforts of the club's officers, especially its President, Franklin J. Forester.

THE Riverside Wheelmen of New York City formally opened their new club house on Tuesday evening, June 30, and gave a "stag" party to celebrate the event. The new home of the Riversides, which is located at 232 W. 104th street, is a new three-story brown stone, the interior having been altered to meet the requirements of the club. There were over 200 wheelmen present at the opening, and many expressions of good will and wishes for the future success of the club were expressed by those present. The quarters are beautifully fitted up, and one of the many interesting pieces of furniture in the parlor is an elegant cherry case containing over forty prizes won by members of the organization.

NELSON A. BRADT, who left New York City on April 9 awheel for the Pacific Coast, arrived at San Francisco on July 4th.

THE Cook County Wheelmen of Chicago, Ill., have formed a lawn tennis club, and have three splendid courts at their West side grounds.

MR. ELBRIDGE R. ANDERSON of the Boston law firm of Bartlett & Anderson, together with Mr. Joseph W. Bartlett, his partner's son, started July 1st, on a long bicycle trip, their destination being Grand Rapids, Mich.

IT is said that the Commercial Union Telegraph Company is planning to mount several of its linemen in Maine on bicycles, the object being to make quicker time in tracing breaks, and thus enable the men to make quick work. It is also proposed to use several wheels in the messenger service.

ANSWERS to numerous correspondents: No we not heard anything further from Mr. Beranger of Worcester as to his "mile in 49 seconds' machine?"

MR. STEPHEN GOLDER, we notice by the Portland, Ore., papers, was in that city during the latter part of June.

"Once upon a time" we printed a notice saying that the Bay States o Worcester only rode short distances. The captain of the Bay States sends us the following, and asks us if this looks as if they couldn't ride a little bit? "A club run of the Bay States was called for the 28th. It was a century run, and nine members started from the club rooms on Pearl street at 4.45 A.M. They all finished the distance, 110 miles. We rode from Worcester to Auburndale, from there to Waltham and Concord, back from Concord to Waltham, and then from Waltham to Chestnut Hill reservoir; from Chestnut Hill we rode back to Worcester, arriving home at 8.30 P.M. Actual riding time was 10 1-2 hours. The roads were excellent, and the air bracing and cool."

Saddle and Cycle honors us with cutting an article entire from our columns, but the editor fails to extend the courtesy of credit.

OAKLAND, Cal., has a new club with 18 charter members. The name of the club is the Alameda County Wheelmen. This makes the third club in Oakland.

A LEAGUE wheel club has been formed in Norwalk, Ct., by the name of the Alpha Wheel Club. The club consists of twenty members.

THE Norwalk Wheel Club under the leadership of Captain V. M. Hornecker, took a club run to Hotel Stanley, Saugatuck, on Wednesday evening, June 24, where supper was served and a general good time enjoyed.

W. H. CHECK and Miss M. J. Jackson of Chelsea, Mass., went over the road on Saturday to Worcester, and while there were royally entertained by the members of the Bay State Bicycling Club of that city. Miss Jackson mounted a wheel for the first time on last Fast Day, and in view of this fact and considering the state of the roads over this route the performance is a remarkable one, and is worthy of emulation of riders of longer standing.

THE Workingmen's Bicycle Club is the name of a new cycling organization recently formed at Grand Rapids, Mich.

THE midsummer number of *Outing*, just at hand, is a splendid edition of this excellent magazine. A charming allegorical frontispiece depicting the rivalry between the safety and ordinary adorns the issue. A sweet girl (Bishop Coxe kindly take notice) on a safety is far outpedalling old Father Time on an ordinary. There is an illustrated article on the Detroit Wheelmen, and an illustrated article on the founder of the cycle manufacturing trade in America, which is, of course, a sketch of Col. Pope. The number has a host of interesting articles on general subjects, and the usual interesting cycling *melange* by the "Prowler."

A NEW YORK exchange says: "There is a narrow paved alley running between two brick buildings on upper Eighth avenue, where many of the fancy bicycle riders who are seen nowadays in the Park first mounted their silent steeds. The alley is long and so narrow that the possibility of falling is reduced to a minimum. Once on a bicycle a rider need have no fear in the alley. He cannot do worse than bump his shoulder or bruise his knee. An hour's practice daily, according to the janitor of the building in the rear, has produced astonishing results in a week's time. The alley is said to be good for as much revenue to the janitor as an upper flat in the house on either side is to the landlord."

HAWKSHAW'S COLUMN.

To expect perfection in all delicate cases, amongst such a suddenly increased sporting body as wheelmen, would be to expect the development of a modern race of knights-errant, in a very short time. Such qualities as courtesy and presence of mind, however, are desirable in the practice of every sport, and of wheeling, perhaps, more than from any other, to promote harmony and good fellowship; and their cultivation is to be recommended to the cycling world in particular, not only to promote its welfare as an institution, but as a duty and a necessity. There are undoubtedly many wheelmen whose boldness would be edifying if tempered with a little more delicacy. To some it seems as though once they are off on a run, or to a meet, that they must throw to the winds all the rules of decency, decorum and good breeding, or else they cannot have what they are pleased to term "a good time." In the lexicon of these individuals "a good time" is only possible when those who desire to enjoy it make nuisances of, and disgrace themselves, bringing discredit to cycling and to themselves. When cycling was younger, some captious critics dubbed the riders of the bicycle "cads on castors," and it took many a year's careful actions to obliterate from the minds of the press and public this offensive title. We were but a few then, but what we lacked in numbers I am proud to say we made up in merit; it was our boast that one only had to meet a cycler to be certain of meeting a gentleman, and this was almost a rule without an exception. Now the cycler has become a power in the land, he is as numerous as the locusts that swept over Egypt, and I regret to say, often as careless of the comfort and welfare of others as the locust was. I do not expect wheelmen off on a run or to a meet, enthused by the stimulous of new and pleasant surroundings, to don a funeral face and never laugh or enjoy themselves. Laughter and good fellowship are the two things I most prize in life, and I therefore would be one of the last ones to deny them to others, but I do expect that wheelmen wherever they may be, and under no matter what enthusiasm they may be laboring, to remember that in the hands of each one of them rests the honor and reputation, to a certain extent, of every wheelman in the land, since the fraternity of the wheel is as a body too often judged by the inconsiderate and foolish acts of the few, instead of by the courteous and thoughtful demeanor of the many. "Boys must be boys," is but a poor excuse for some of the pranks and horse play of wheelmen, and if the excuse be a valid one, then I am more than ever anxious to see wheelmen no longer addressed as "boys."

How would this do for a motto for a dealer? "If at first you are not pleased, bi., bi. again."

There can be no question in the first place that cycling is the best adapted of all things for recreative exercise by students, and it seems

strange, such being the case, that the sport has not taken a more general hold upon the athletic inclined collegians than it has. Laboring with brain and nerve and not with muscle, confined within doors much of the time, young and active and restless as most students are, the bicycle is just the thing they need for diversion. It stands ready to hand for any half hour or half day; the roads are open and free for its use; it takes one into the open air and sunshine, away into rural scenes and natural attractions; it expands the lungs, develops the muscles and organs of the body in every direction, gives the blood a circulation away from the head and lungs, and develops other faculties of judgment and action to a degree that no other sport does. With all of these things in its favor to commend it to the collegian, for some reason or another he has never seemed to take kindly to it, and the more one thinks over this peculiar fact, the more puzzling it becomes.

"I'm going out with the tied," said the handle-bar to the bow of ribbon that fluttered from it.

Women have come to stay in cycling. They are now as much a fixture in the sport as are the men who inaugurated it. They have their clubs, their runs, and their banquets, just like their brothers and fathers do, but at their banquets there is one thing they will never know the pleasure of singing, as men do, and that is, "For He's a Jolly Good Fellow." When that is rolled out in chorus, along toward the end of the toasts, just after some favorite speaker has finished his remarks, the words carry a depth of meaning and expression beyond the comprehension of women.

Speaking of after dinner speeches, reminds me of a story they tell here on a well-known doctor who is as enthusiastic a wheelman as he is a medico. He was a "forty-niner"—a very pat expression that Mr. Editor, for the coining of which my thanks are due you—in cycling, and delighted to dilate upon the pleasures of those early days in the sport when he was one of the pioneers upon the wheel. It was after the coffee and cigars had made their appearance around the festive board that the genial doctor was called upon to respond to the toast of "Those good old days." In a thoroughly Chauncey-Depew-sort of a way he launched into the subject, and soon had nine-tenths of the new riders around the table, kicking themselves for having been born just ten years too late to have shared those experiences and exploits of the doctor and his friends. Warming up as he felt he had the sympathy and attention of his audience, the enthusiastic doctor said: "Yes, indeed, gentlemen, I well remember the first appearance of cycling; during the early part of the last decade it was sporadic, towards the middle of that period it became epidemic, and now gentlemen, it has culminated in a violent and acute attack all over the country." The laugh that greeted this mixture of medical terms and cycling caused the doctor to see that he was getting his two hobbies just a trifle tangled up, and he hurriedly brought his remarks to a close.

"HAWKSHAW."

SOME POINTS ON ROADS.

REMARKS OF MR. STERLING ELLIOTT AT THE JUNE MEETING OF THE YOUNG MEN'S ASSEMBLY.

[CONCLUDED.]

TAKE for instance the steam road roller used in Newton; it is a fair sample. Its driving wheels are twenty inches wide at the tire, and its front wheels or rolls are twenty-five inches wide, making an aggregate tire width of ninety inches. The weight of its roller is fifteen tons, giving a pressure on the road of one ton for each three inches of width or 333 pounds on each inch, and this is a heavy steam roller, much heavier than those drawn by horses. I find that it is a common thing in trucking to carry a load equal to 833 pounds for each inch in width of tire, and there are some trucks in this vicinity which carry loads equal to more than 1500 pounds per inch in width of tire, and this not taking into account the weight of the truck, while in the road roller the total weight has been considered. So we find that the road in use has to stand a weight of two and one-half to five times as much as the pressure that is used by the so-called heavy roller in making the road. Another thing which makes this difference still more is the fact that the rolls of the road roller are larger in diameter than are the wheels of the average truck, and as the surface of even the hardest road yields some under pressure, it is obvious that the small diameter is much more severe for that reason. I often think that the sign which says "Dangerous; road roller at work," would be more appropriate if it said "road roller at play," in view of the real work that the road will get afterward.

A roller could be made three times as heavy without materially increasing the strain on its parts by adding the weight to, or making it a part of the wheels themselves, and a roller with its weight so increased could be driven with the same engine as at present by a simple change in the gearing, though, of course, it would have to move at a slower speed. Or such a roller could have its weight practically increased by reducing the width of its tread surfaces.

Did you ever notice in the larger cities how paving stones are hammered down with a small ramrod in the hands of one man? And after that street has been used for a time by those heavy trucks it begins to settle in spots, and I have actually heard people wonder why it was.

I believe that when any road is made, the foundation, and afterwards the surface, should be repeatedly subjected to a pressure of some kind, equal to at least double the greatest pressure per square inch that the heaviest truck could ever exert upon it. The Ohio law prohibits the carrying of more than 3400 pounds on a four-wheeled vehicle having tires of less than three inches in width. Up to 4000 pounds the tire must be three and one-half inches; 6000 pounds, four inches; 8000 pounds, five inches; and over 8000 pounds, six inches wide. This law in Ohio does not apply to the larger cities, but I think there are probably political reasons why it doesn't, for it would certainly be an advantage to the city streets as well as those in the country.

Sometimes the cheapest street is the one that costs the most money, when the expense of repairing is taken into account. Did you ever notice how a street is sometimes repaired? A hollow spot begins to develop, due of course to some fault in the foundation or lack of density in the upper stratum. At first it is slight, but just enough to hold a little rain and cause more water to soak into that particular spot; the water has the effect to settle the earth still more at that point, while the higher margin around the sag gets less than its share of water. This goes on until the street is said to need repairing. Now, although this hole may be three or four inches deep in the middle, it begins at its edges from the proper plane and slants in gradually toward the centre. By-and-by a tip-cart comes along with a load of no matter what. John L. McAdam would turn over in his grave if he could see the quality of it sometimes.

Now I don't want you to think I am guessing at it for I am not. I have seen on the streets, within a mile of this hall, stones four inches in diameter put into a hole in the road that wasn't two inches deep and they were round stones at that, the kind that gather no moss. A few shovelfuls of these rocks (assorted sizes) are dumped into the hole, which is shaped very much like the inside of a saucer, and the tip-cart and its companions drive on to commit the same crime in another spot. Along comes one of the wealthy taxpayers with a high stepping horse. The horse kicks these stones out into that part of the road that was already too high, the carriage wheels run over them, and the taxpayer rides home and thanks God that he is permitted to live.

The proper way to fix this hole is to fix it. Beginning as far out as where the surface commences to sag, the hole should be deepened to four or five inches, leaving its sides practically perpendicular. Into this should be properly rammed the broken stone of sizes as originally used, and finishing with a very small size. It should not be left rounded up like a newly filled grave, but thoroughly packed at once, so that when the road is mended it will be fit for use.

After a few years the best stone road as now made begins to show the larger stones projecting above its surface even when the general average is good. I believe it would be possible to prevent this in building the road by rolling the foundation thoroughly, then rolling the lower stratum of large stones with enough fine gravel to fill the spaces between them, then have the top dressing of fine broken stone about double the thickness now used. Such a road would cost somewhat more, but it would be infinitely cheaper in the end. Many of the present roads where the larger stones begin to show through the surface could be greatly improved, and at very small cost, by rolling them with a heavy roller, then putting on say two inches of fine broken stone and again rolling; but the roller must be heavy.

Practically, the only concerted action that has ever been taken in this country toward the making of better roads as a national issue, is taken by the League of American Wheelmen, an organization of men who are interested in the making, selling, and riding of bicycles. The present membership numbers about 20,000, and is increasing rapidly. We have reason to think that it will reach 100,000 by '95. It has already been instrumental in the passage of numerous bills in different states, looking to the betterment of highways. Among the more notable of these was the law passed in New Jersey, which caused the building of certain state roads, and here is a point, please don't overlook it. By the building of these roads, the property through which they passed was so increased in value by and because of these roads, that the additional taxes collected have more than paid the whole bill.

The Massachusetts Institute of Technology is to have a course of instruction in highway engineering, the funds for it being furnished entirely by a single bicycle manufacturer, Col. A. A. Pope of Boston, who, by the way, has done and is doing more in this work of road improvement than any man living. We could, no doubt, have got him here to-night if he had not just sailed for Europe.

The bicycle is no longer a toy. It is no longer an experiment. It is used by thousands for business purposes. The minister rides it to church and about the parish. The doctor rides it to see his patient, who, perhaps, sent for him in the same way. The reporter rides it in search of news which sometimes its doings help to furnish. Men who vote, men who are elected to make our laws, men who are looked to to enforce laws, all are becoming interested either directly or through their sons, daughters, or wives, in the bicycle, and through it they become interested in having better roads, and good roads are a blessing to everybody.

A VETERAN'S VIEWS OF RULE G.

Is it the duty of the League to foster racing or to kill it? The question admits of but one answer. All honor to the officers of the League who have made a bold stand against those who would kill racing and bankrupt the tournament promoters. It is about time the racing men had something to say on the question of the notorious Rule G. The Chicago papers say that the killing of Rule G is a death blow to amateurism. Rubbish. Rule G allows expenses, but it makes the clubs and racing men bow down before the high and mighty Racing Board and ask permission. The Board doesn't set its foot against expenses. It merely says: "You must come and ask us for permission." And because there are some people not connected with the L. A. W. who say that they don't care to humble themselves and ask permission to do what the Constitution allows them to do, the papers of the wild West say that amateurism is dead. The Chicago team went around the circuit last year at the expense of the Chicago Club. All their expenses were paid. They stood on the same level exactly as the A. A. U. racers. And yet it is from the members of this team that we hear all the complaint about the repeal of Rule G. Had they been able to win victories from the A. A. U. men I doubt if they would be heard now. The other complainant against the executive is a man who up to within a few years was a professional, and he is to-day regarded a professional by the A. A. U. He went to Chicago and got reinstated by one of the little Western athletic unions, and now he is shouting himself hoarse over what he calls pure amateurism. Pure amateurism to his mind is not the observance of any rule, but the securing of permission to do that which no amateur rule in existence forbids being done. The Racing Board of the L. A. W. should learn that there is such a thing as too much law. Too often the Chairman of that Board is puffed up with his own importance, and too often he believes it to be his only duty to punish offenders. And we see the lamentable spectacle of one board correcting the mistakes of its predecessor, and reinstating men who never should have been disqualified. And now we hear that the recently deposed Chairman of the Racing Board proposes to carry his case to the National Assembly and seek a justification. The National Assembly is composed of gentlemen and it will only be necessary to read the insulting letter of Mr. Randall to Mr. Dunn to have him know how gentlemen regard his cause. A man may have his expenses paid if he comes and asks us and not otherwise. That's Rule G. Why not ask the Board if we may eat soup with a fork, or if we may ride a bicycle? The Racing Board has as much power to prohibit

the one as the other. But inasmuch as no law forbids us to eat soup with a fork, etc., I think the Board will not be asked. Does Rule G prevent the payment of expenses? Not at all. Any one who asks permission may pay expenses galore. It gratifies the self-conceit of the Racing Board, and does not another thing. And yet the Chicago papers say the death of Rule G means the death of amateurism. Pshaw!

VETERAN.

THE 1891 ELWELL EUROPEAN TOUR.

IT was with a sigh of relief that we bade adieu to the murky air of the atelier one fine morning a week ago, and climbed aboard of the trusty pneumatic to wheel down to Havre there to meet the touring party of 1891. Of the journey down nothing need be said save that Saturday night we were safely housed in the hotel at Havre, and had ascertained that "La Gascogne" was expected to arrive about noon the following day. The next morning, a bright and cheerful Sunday, which filled the rather commonplace streets of Havre with a gay holiday making crowd, we adventured forth upon the great stone jetty which marks the entrance of the harbor. There she was, on time sure enough, but forced to wait several hours for the flood tide in order to come to her dock.

It so happened that this very day the notabilities of the French Transatlantique Co., the Ministers of War, of the Interior, and their wives and families were at Havre to celebrate, by a big dinner and a proper amount of speech making, the inauguration of their big new ship "La Touraine," now on her first voyage to New York. Thus it came to pass that the tenders were in use by these invited guests of the company and the passengers on the Gascogne had to remain on board until the ship docked.

It was past three o'clock ere the the familiar faces of Papa Elwell and Harry Higgins downed upon my sight. They had passed a wearisome hour in the hands of the custom officers owing to the great crowd and the festivities. The entire party was at last ensconced in the big omnibus, and a few minutes later were at the Frascati. The tourists report a rather rough passage during which nearly all of them temporarily lost any desire for food. The ship was filled to the last berth, and among the cabin list were the Russian Ambassabor to the United States, Marie Jansen and Mark Twain (who paid duty for about a dozen boxes of cigars on the dock at Havre.)

The voyage on the whole had been pleasant, and the members had become acquainted with each other, yet they all seemed glad to be once more on solid ground, and were soon busily engaged in sight-seeing, and in getting over their heads in the language.

The long twilights seemed to puzzle the newly arrived Americans, as they were not used to having daylight until nine in the evening.

Monday, the day after arriving, was devoted to getting the brand new American wheels from their crates and in preliminary spins through the town. The weather was chill and drear and seemed to presage rain. However Tuesday morning the sun was up bright and early, so that when the party started at nine o'clock the day was as beautiful as could be desired. The party was escorted out of the city by Mr. Chrystie, an old American resident in Havre, and an ardent cyclist, who despite his seventy-seven years, can still do sixty miles per day with the best and not finish the last. After parting from Mr. Chrystie at Harfleur, four miles out of Havre, we continued our way to Lillebonne for dejeuner. At Harfleur under the escort of Mr. Chrystie we visited the old church built by the English during their occupation of Normandy centuries ago. A venerable Gothic structure which shows other marks than those of Time, for on its tower wall are seen the marks of cross-bow bolts, souvenirs of a memorable fight in which 104 young Frenchmen who had entrenched themselves in the tower were all slain by the English soldiery.

At Lillibonne, after the first of those long winding coasts so plentiful in France, the party visited the Roman Amphitheatre, excavated some seventy odd years ago.

The many kodaks of the members secured lasting souvenirs of the ancient relic of Roman grandeur as well as various comic pyramids of the boys and sundry instantaneous flashes at fellows leaping, dancing and running. The afternoon's ride to Caudebec was through a most charming bit of Norman landscape, as had been that of the morning. The bright sun, smooth roads and the many and various strange sights and sounds all contributed to make this our first day's wheeling one of intense interest to all.

The sweet scent of new mown hay, the vermilion popples and bright blue corn flowers, growing everywhere among the young wheat, the quaint villages and quainter village folk all combined in one glorious whole to make the happy cyclers forget the qualms of stomach and the heartaches they had endured upon the voyage. Caudebec, our first night's stopping place, was reached in good season, so that all had an hour or two leisure before dinner. Caudebec is one of the very few old Norman towns which have escaped the march of modern improvement. It is deliciously old fashioned. Rambling up and down its narrow streets lined by houses with overhanging stories dating anywhere from 1400 upwards, one might easily imagine oneself in the olden days, when what we see only in comic opera nowadays was the real life of the people.

The church, so old that the carved stone work of the facade has worn down to an inextricable blur (like unto a candle which has dripped down its candle stick) is a gem in its way. Much of the old stained glass remains, and fortunately so, for all of the hundreds of stone saints about the great portal lost their heads and hands during the furious wave of the French Revolution.

While at dinner in the long pleasant dining room overlooking the Seine, several good sized iron steamers passed up stream towards Rouen, which is the head of ocean navigation on the river. The first day's ride, albeit a short one, had tired the tourists enough to make them go early to bed after a most charming day's ride which was a revelation to most of them as to roads and scenery.

Wednesday an early start was made for Rouen, which all reached in time for dejeuner at Hotel d'Albion. The road as on the previous day followed up the valley of the Seine, only leaving it now and again to climb a hill and coast down again the other side when necessary to cut off one of the long windings of this most sinous of rivers.

A short distance from Caudebec the limestone cliffs beside the road present a most curious appearance, being hollowed out into caves and cellars, and in many cases houses, the front of which only is visible, the interior being excavated out of the hillside. The kodaks got several views of these strange habitations, which made one think of the old cave dwellers of antiquity.

The long coast down into Rouen, as well as the charming panorama of the river and city from the hill-top, delighted everyone, and five minutes after all were at the hotel. After lunch the afternoon was spent in sight-seeing in the old Norman capital, visiting the cathedrals, the place where Joan of Arc was burned, her prison, etc., etc., and in promenading along the main streets where the many beautiful things exposed for sale in the shop windows greatly interested the party.

From Rouen on Thursday our route lay up the valley to Gaillon (a curious little town with a big chateau) for lunch, and then ten miles further on to Vernon for the night. Here is an old castle built by the father of William, the Conqueror; here also the party played base ball in the square in front of the hotel as best as they could with a soft rubber ball and a broomstick bat. Several of the party took a short after dinner ride to Giverny, an artistic haunt where were several American artists located for the summer. This village, on the little river Ept, is the home and working place of the celebrated French artist, Claude Monet, whose landscapes are so much discussed on account of their daring impressionalism.

Friday forenoon's run was to Mantes, where the Hotel du Grand Cerf, as of old, received the tourists most hospitably. The table was set under the trees in the garden and a most enjoyable meal was had in the open air.

The day being warm (as had been the previous ones) we did not start for St. German until three o'clock, and, after an easy ride of about twenty miles, arrived at the Prince de Galles Hotel for our last night on the road before reaching Paris. Before dinner most of the party took a walk to the terrace in the park in order to obtain their first view of the Eiffel Tower. In the evening the brilliant electric rays from its summit were distinctly seen, although we were fifteen miles away from the city.

Saturday morning an early start was made, and following the direct road through Nauterre and up over Mt. Valerien, and so through the Bois de Boulogne the Continental was reached safely by all at eleven o'clock.

The members are now busily engaged in seeing the sights of the gayest city of the world, and, no doubt, when next Saturday comes and it is time once more to wheel away towards Geneva, most of them will be glad to be once more a wheel after the tiresome task of a week's sight-seeing. The trip to Paris was marked by fine warm weather and nothing occurred to mar the pleasure of any of the touring party. "PEDALS."

LAST CALL FOR DETROIT.

WHEELMEN, wheelmen, wheelmen, awaken to the fact that the 16, 17 and 18th of this month you want your vacation; you must have it, this is a case of necessity, it is necessary you should be to the meet if for nothing more than to meet the Detroit wheelmen. You will find them a jolly and hospitable set. Do not forget the Rink is the headquarters From the train or boat go direct to your hotel, and then to headquarters and register. You will know the Detroit wheelmen by the Detroit Wheelmen monogram on their cap. Make yourselves known to them, they want to meet all, and have you go away feeling you have had the best time you ever had. In the Official Department we give particulars as to transportation from the East.

"HONOR TO WHOM HONOR IS DUE."

IN your issue of June 26th, there appeared an article describing the "Great Brooklyn Parade," signed "Spec." A paragraph in this article described the riding salute given by one of the Brooklyn clubs of simultaneously raising their caps upon reaching the grand stand, but by some mistake the credit was given to the wrong club. The club that gave this salute was the Prospect Wheelmen, the fourth oldest club in Brooklyn. By correcting this error in your next issue, you will greatly oblige,

Very truly yours,
GEO. W. SHANNON,
Chairman Press Committee.

New York, July 3, 1891.

SPRINGFIELD TOURNAMENT SQUIBS.

AN appropriation of $1000 has been voted to put the famous old half mile track in record breaking shape again, and work will be commenced immediately. It is expected that by about August 10 it will be in shape for the racing men to commence training, and judging from what has been heard from them lately, they are anxious to get back to Springfield once more and commence work for the fall.

Did it ever occur to you of the wonderfully central location of Hampden Park? Only a few moments walk or ride from the Union station or the hotels, and no crowded excursion trains to wait for.

In regard to the handicapping of tires at the tournament, the following rule has been adopted by the club: Handicapping of tires will be handled in accordance with the judgments of the Racing Committee.

The Springfield Bicycle Club has assurances from Windle that he will be present and participate in the races, September 10 and 11. With some few trials made on a safety on his private track at Millbury, he is said to have shown evidences of speed that will make the other fellows "hustle" to keep him company when he again gets in proper form.

W. S. Bull of Buffalo, Chief Consul of the N. Y. Division L. A. W., is to officiate as referee at the tournament, and his selection as such is considered a most excellent one.

The progress of events regarding the tournament will be recorded in the columns of the BICYCLING WORLD, and those interested will govern themselves accordingly.

CHALLENGE.

I HEREBY challenge any amateur wheelman in the State of Michigan to a road race, any distance, for the solid tired championship of Michigan. Distance, time and road as can be agreed upon. Respectfully,

Armada, June 29th, 1891. BURT HULETT.

THE COLUMBIA CYCLE CLUB RACE MEET—A RECORD.

THE results of the initial meet of the Columbia Cycle Club at Hartford, July 4, must have been highly gratifying to its projectors. It was a fit rival to the famous meets of the Hartford Wheel Club held at that place every Labor Day. The parade was not very successful in point of numbers, as the streets were in poor condition, owing to the rain which fell during the night. But those in line looked well, and the judges had no difficulty in selecting the Rover Club as the winner of the prize for best appearance, and the Windsor Locks for numbers. The Colt Club deserve honorable mention as they looked extremely well, but the Hartford clubs with true courtesy, waived all claims to prizes.

The races at Charter Oak Park were, of course, the feature of the meet. The track was found to be unimpaired by the storm, and absence of any very strong wind made records possible.

The attendance was very large. About four thousand crowded the grand stand and field. The riding of Murphy was fine. He made a positive record, about which there can be no question for the mile in competition, 2m. 26 1-5s. A difference occurred among the watches held by non-official timers, but the officials made it by two watches as above. It will be accepted as record. Zimmerman rode well and established a new record for ordinary, riding the last quarter in 31s. Murphy also broke a record of similar character for the safety wheel, riding the last quarter in 31 1-5s.

It was noticed throughout the different races that Hoyland Smith did not show up as was expected, and disappointment was experienced; but in the last event, for which, probably, he had saved himself, he rode a telling race and finished second, with a record for the two-mile, safety wheel, of 5m. 26 3-5s., which was loudly applauded.

Just prior to this event a miniture cyclone struck the place, and it was a question whether the last race would be run or not, but fortunately it was of short duration, swept the place and cleared away instantly. It was a day of records and falls. Every few minutes some one would go down, but no serious damage was done. A very interesting exhibition of fancy riding was given by W. S. Maltby. A summary of events follows:

One-mile safety, 3.20 class—Won by A. W. Warren, Hartford; A. W. Olmsted, Springfield, second; C. A. Leishman, New Haven, third. Time 2m. 56 1-2s.

One-mile safety, City reporters, pneumatics barred—Won by C. E. Wilson, *Times*; L. Webb, *Globe*, second; J. T. Sherman, *Chat*, third. Time 3m. 28 1-2s.

One-mile safety, open—Won by W. F. Murphy, N. Y. A. C.; S. B. Bowman, N. Y. A. C., second; Hoyland Smith, N. Y. A. C., third. Time 2m. 35 1-2s.

One-mile ordinary, open—Won by A. A. Zimmerman, N. Y. A. C.; L. Foster, Hartford, second. Time 2m. 49 1-4s.

One-mile safety, team race, pneumatics barred—Won by the Hartford Wheel Club, 13 points; C. L. Sage, J. M. Grant and C. H. Wood, New Haven Bicycle Club, second, 8 points. Time 2m. 55 1-4s.

One-mile safety, handicap—Won by J. M. Grant, Hartford, 175 yards; G. M. Worden, Boston, 60 yards, second; W. M. Haradon, Springfield, 100 yards, third. Time 2m. 23 1-2s.

One-mile ordinary, handicap—Won by A. A. Zimmerman, N. Y. A. C., scratch; L. Forster, Hartford, 90 yards, second; F. G. Hudson, Hartford, 110 yards, third. Time 2m. 40 1-4s.

One-mile ordinary, L. A. W. State championship—Won by H. B. Arnold, New Britain; L. Forster, Hartford, second. Time 3m. 0 4-5s.

Half-mile safety, L. A. W. State championship—Won by H. B. Arnold, New Brittain; C. L. Sage, Hartford, second. Time 1m. 14 1-5s.

One-mile safety championship of Hartford—Won by A. W. Warren; A. C. Rose, second; F. Herman, third. Time 2m. 58s.

Two-mile safety, handicap—Won by C. F. Seeley, Norwalk, 350 yards; H. Smith, N. Y. A. C., scratch, second; W. M. Haraden, Springfield, 170 yards, third. Time 5m. 23 1-5s.

The officials were: referee, L. A. Miller; Judges, L. A. Grover, C. F. Gorman, C. L. Burdett, D. J. Post and F. L. Hughes. "SPEC."

THE HAGERSTOWN MEET.—A SUCCESS FOR MARYLAND.

Up in the northwestern corner of the fair State of Maryland, where the glorious valley of the Shenandoah sweeps from mountain to river, lies the little city of Hagerstown, the embodiment of all that is fair and pleasing to a wheelmen's eyes, and which contains, in proportion to its size, probably more cycling enthusiasm and hospitality than can be matched in this broad land. Once before, year before last, has she entertained the League of American Wheelmen, and the meet of '89 will long be remembered by those who were fortunate enough to take part therein; and when the first annual meet of the Third Racing District was called for Hagerstown, on July 2d, 3d, and 4th, every rider in this vicinity made up his mind to be there, and he was. To be sure it was not the national meet, but it was very much like it, and I question whether Detroit can outdo it. The attendance was in the neighborhood of between fifteen hundred and two thousand, and they owned the town in every sense. All the business places and many of the private residences were handsomely decorated with flags and bunting, and the L. A. W. reigned supreme. The cycler's badge and dress was welcomed everywhere, and to their credit, be it said, that the license was not abused.

The visitors began coming in on Wednesday night, the Philadelphia contingent arriving on two special trains, one via the Baltimore and Ohio, and the other over the Pennsylvania Railroad. There was a goodly representation from the Quaker City, but hardly so many as it was hoped would go, the Park Avenue Wheelmen having the largest number.

On Thursday morning a number of runs were taken, parties of the visitors being out in all directions over the numerous pikes radiating from Hagerstown, under guidance of the local club men, who had their hands full acting as chaperons. In the afternoon the majority of the visitors went up to Pen Mar for the purpose of taking in the famous view at that point, likewise the complimentary supper tendered by the Hagerstown Club, after which dancing was the order of the evening.

SECOND DAY, JULY 3d.

It had been feared that yesterday's rain would cause a repetition of the disappointment experienced during the '89 meet, in consequence of the condition of the track; but a high wind and a bright sun dried it up so well that it was in fair condition when the races began, although there was so much wind blowing down the straight that fast time was an impossibility. Philadelphia's representatives secured the cream of the prizes, and it was a matter of universal regret that Zimmerman and the Murphys were absent, as in that case there would have been more excitement. However, the various events were well contested, the finishes in nearly every instance being close. Hazleton is not yet up to his last year's standard, but is riding in better form than he was a fortnight since.

SUMMARY.

One-mile novice, ordinary—W. H. Milliken, first; H. Berrian, second. Time 3.44 1-5.

Half-mile ordinary—Heats, 1.32 limit. First heat—W. W. Taxis, first; W. C. Seeds, second; E. G. Bowen, third. Time 1.21 1-5. Taxis made a pretty finish of this race.

Second heat—J. H. Draper, first; J. R. Hazleton, second; F. W. Merrihew, third. Time 1.29 3-5. Draper only crossed the line first by a small margin of half a wheel. The final was run Saturday.

One-mile ordinary, Maryland Division Championship—W. H. Milliken, first; W. Hall, second, in the remarkable championship time of 4.25. A loafing exhibition of the most approved kind.

One-mile open, time limit, 3.05—W. W. Taxis, first; J. R. Hazleton, second; W. C. Seeds, third. Time, 3.04 4-5. This race was run pretty close to time limit, but it was a very good race, being one of the best of the day. The finish was very close, all the men finishing with wheels lapping.

Two-mile ordinary, handicap—Very fair handicapping was shown in this race, the men all being bunched on the back stretch of the last lap. Seeds had a good lead until within 20 yards of the finish, when Merrihew put on steam and crossed the line, a winner by a small margin. Hazleton was a close third. S. W. Merrihew, 210 yards, first; W. C. Seeds, 120 yards, second; J. R. Hazleton, 90 yards, third. Time 5.50.

Half-mile ordinary, Hagerstown Club championship—J. P. Loose, first; E. Brening, second; L. Hayes, third. Time 1.30 4-5.

Half-mile, Pennsylvania championship—W. W. Taxis, first; J. H. Draper, second; J. R. Hazleton, third. A very close race at the finish.

One-mile safety, 3.10 class—Heats. First heat—C. C. Bowen, first; Sandoe, second, A. Beggs, third. Time 3.10.

One-mile safety, team race—W. W. Taxis, J. H. Draper, and V. J. Kelly, Park Avenue Wheelmen, Philadelphia, first, 24 points. W. C. Seeds, S. W. Merrihew, and B. F. McDaniel, Wilmington Wheel Club, second, 18 points. Taxis finished first in 3.01 4-5. A protest was entered against the winners on the ground that the men were A. C. S. N., as the race was for members of bicycle clubs only. The protest was not allowed.

One-mile ordinary, Third District riders only—W. W. Taxis, first; J. H. Draper, second; W. C. Seeds, third. Time, 3.03 2-5. Taxis laid low until near the finish, when he came up with his old rush and won one of the prettiest contests of the day. The other men were all close up.

Second heat, safety, mile, 3.10 class—A. A. Gracey, first; H. Berrien, second. Time 3.03 2-5. A very easy race for the winner.

The glorious Fourth was ushered in by the detonations of fire crackers and the kindred noises by which our national enthusiasm usually finds vent on the nation's natal day. The parade took place in the morning with about eight hundred machines in line, President Dunn being the Chief Marshal. As it wound through the principal streets of the city the wheelmen were the recipients of much applause from the assembled crowds, the majority of the wheels being handsomely decorated.

The races in the afternoon were very exciting, the track being in first-class condition.

One-mile ordinary, championship Pennsylvania—W. W. Taxis, first; J. R. Hazleton, second; J. H. Draper, third. Time 3.01. The men rode well together until the home stretch, when Taxis put for the front, got there, and finished a handy winner.

One-mile ordinary, championship District Columbia—W. T. Robertson, first; E. C. Bowen, second. Time 3.15.

Half-mile ordinary, championship Pennsylvania—W. W. Taxis, first; J. R. Hazleton, second; F. M. Dampman, third. Time 1.20. Dampman cut the pace, but he could not hold it, and had to retire to third. Taxis only got over the tape first by a foot.

Half-mile safety, championship Hagerstown—C. T. Johnson, first; E. Brening, second; C. T. Mentzer, third. Time 1.28 4-5.

One-mile ordinary, championship of the meet—W. W. Taxis, first; E. C. Bowen, second; S. W. Merrihew, third. (Time limit 2.55). Time 2.54 4-5.

One mile safety, championship Maryland—W. Holland, first; W. H. Mulliken, second; C. Turtle, third. Time 3.09 1-5.

One-mile tandem safety, open—W. W. Taxis and J. H. Draper, first; D. R. Perkinpine and J. C. Donnelly, second. Time 3.09 1-5.

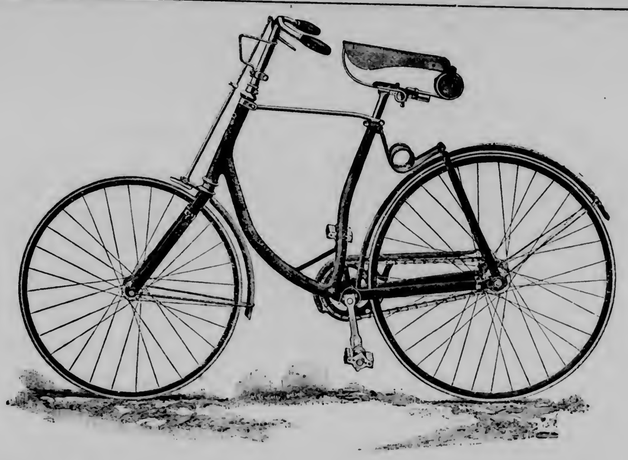
Final heat, half-mile—J. R. Hazleton, first; E. C. Bowen, second; S. W. Merrihew, third. Time 1.20. Hazleton cut out a clipping pace and kept it up to the end. He won by 50 feet.

One-mile team race—W. C. Seeds, S. W. Merrihew and F. M. Dampman, W. A. C., first, 24 points; P. L. Brown, E. C. Bowen and W. T. Robertson, second, 18 points. Seeds led the crowd in 3.00 4-5.

Final heat, one mile safety, 3.10 class—W. Holland, first; A. A. Gracey, second. Time 2.58 3-5.

Two-mile safety, handicap—S. H. Bilyeu, 220 yards, first; W. C. Seeds, 90 yards, second; V. J. Kelly, 165 yards, third. Time 5.43. Bilyeu's handicap enabled him to finish with 100 yards to the good.

One-mile ordinary, 3.10 class—E. W. Bair, first; W. H. Mulliken, second. Time 3.23. Though rather slow they made a pretty race to look at.



One-mile ordinary, championship Delaware—Only two starters. W. C. Seeds, first; F. M. Dampman, second. Time 3.25 2-5.

This was the final event of two day's splendid racing. Pneumatics were handicapped 90 yards on the mile, 50 yards half mile. U section cushion 20 yards on the mile and 15 yards on the half-mile. Ordinary cushion 8 yards on the mile and 5 yards on the half-mile.

NOTES OF THE MEET.

A number of receptions were tendered the visitors, the first one on Wednesday evening, when a large party assembled at the Hagerstown Club's rooms, the procession to which was headed by the band. Speeches were made by Vice-President Scott of the club, and Messrs. Mott and Hodgson. H. H. was very much on hand during the meet.

President Dunn was unable to be present on Thursday, but when he did come was greeted with enthusiasm.

American Light Rambler.

Not only Honestly Constructed but Mechanically Sound.

You may think you know

What luxurious Cycling means,

But you don't and won't

Unless you have ridden a RAMBLER.

EVERY JOLT A DELIGHTFULLY EASY ONE.

GORMULLY & JEFFERY MFG. CO.,

MAKERS OF

"The American Cycles."

Chicago Retail Store, 185 MADISON STREET.

BRANCH HOUSES:

174 and 178 COLUMBUS AVENUE, Boston, Mass.

1325 4th STREET, N. W., Washington, D. C.

FACTORY AND GENERAL OFFICES:

222-228 N. Franklin Street, Chicago, Ill.

The reception tendered by the Mayor to President Dunn, Chief Consul Mott, and the prominent League officials, was very enjoyable, and the wheelmen were made to feel that their welcome was a genuine one, many of the leading citizens joining in the receptions.

THE TRADE

were on hand, of course, a number of very nice exhibits being shown: among them the Capital Cycle Co., Overman Wheel Co., Gormully & Jeffery Mfg. Co., Crawford Mfg. Co., and Eisenbrandt Cycle Co.

HISTORIC BATTLEFIELDS.

Throngs of the riders rode down to Antietam's battlefield, visiting the national cemetery at Sharpsburg, where so many thousands of the dead who wore the blue lie buried; and among them were some few who had worn that blue and some who had worn the gray. But in that quiet enclosure there was no thought of either blue or gray. Forgotten was the old-time difference, and, knowing neither North nor South, they met upon the common ground of countrymen.

Hushed are the volleying rifles; silent the roar of the cannon. No more shall the charging squadrons and deploying armies front each other in deadly conflict. Gone, like a dream, thank Heaven, the fratricidal strife; and forever, hereafter, when Columbia's sons meet on the field of battle, shall it be shoulder to shoulder against one common foe.

And so we silently file out of the last earthly resting place of the nation's dead, and leave them alone with their glory.

"On Fame's eternal camping ground
Their silent tents are spread;
And glory guards, with solemn round,
The bivouac of the dead."

Philadelphia, July 6, 1891. ARIEL.

ILLINOIS DIVISION MEET.

THE Rockford meet is at an end. The eighth annual meet of the Illinois Division L. A. W. was as much of a success as the most sanguine anticipated. Four hundred and five League members were registered; many were not registered, and many who were not members of the League were present. A rough estimate places the number present at six hundred. The first matter of importance at the meet was the business meeting, Chief Consul Davis and Secretary-Treasurer Sheridan on the platform, the Treasurer's report showing Illinois to have more members than ever before, and but a hundred odd behind Connecticut for fourth place. The treasury was shown to be in good condition, with $2200 on hand. Illinois was shown to have more Local Consuls than any other State.

Chief Consul Davis appointed as a committee to draft resolutions relating to Randall's suspension, Harry G. Rouse, Peoria Bicycle Club; J. M. Erwin, Lincoln Cycling Club, and S. A. Miles, Chicago Cycling Club.

Following resolutions were read and passed unanimously amidst much enthusiasm:

Whereas, Difference of opinion has arisen among officers of the League of American Wheelmen on the following questions, to wit: 1. The right of the Racing Board to make Rule G, as adopted at the last meeting of the Board at Chicago, or similar rules and regulations. 2. The right of the President and Executive Committee or either of them to declare said rule or any other rule void under advice of the Rights and Privileges Committee or otherwise; and

Whereas, Certain allusions of a personal character were made by Mr. Randall while Chairman of the Racing Board to the President, which remarks have been apologized for, and the apology accepted; and

Whereas, Mr. Randall has been removed from the Chairmanship of the Racing Board by the President; and

Whereas, The present alliance between the League of American Wheelmen and the Amateur Athletic Union has been productive of results not beneficial to the League; therefore, be it

Resolved, That the Illinois Division of the League of American Wheelmen is of opinion that it is within the province of the Racing Board to pass and sustain Rule G or any similar rule; that the President or Executive Committee, or either of them, do not possess the right to annul said rule or any other rule of the Racing Board; that said Rule G is and will remain in effect until annulled by the Racing Board, and that while the personal allusions above referred to are deeply regretted, the action of the President in removing Mr. Randall was ill advised, particularly as no reason was given; therefore, be it further

Resolved, That rule G is for the best interests of the L. A. W., and that in the opinion of this Division Mr. Randall should be at once reinstated; that the Alliance in its present form is detrimental to the interests of the League, a usurption of its powers; be it further

Resolved, That it is the sense of the Illinois Division, actuated solely by a desire to benefit the League, that the present controversy does not and cannot partake of the nature of a sectional quarrel between East and West, but rather of a difference between the League of American Wheelmen and the Amateur Athletic Union; that the Division particularly disclaim any such feeling of hostility toward any other section; that the strength of the League is such that it can and should maintain its own independence, and that any alliance with any organization should be of such nature as to be favorable to the League of American Wheelmen.

Friday afternoon a picnic was held at Harlem Park, which although not well attended was a most enjoyable affair. The Elgin Watch Co. band discoursed sweet music, and the roller coaster afforded much amusement. In the evening an entertainment was given at Unity Hall. Saturday morning bright and early a run was taken to Schweinfurth's famous heaven, eight miles and one half, where one hundred and fifty wheelmen men were received royally by Herr Schweinfurth himself. He addressed them eloquently, combining references to piety and the glorious Fourth in his speech. Immediately after the return to town the parade was formed with the Watch Co. band in wagons at the head and Mayor Starr of Rockford leading the wheelmen. Mayor Starr was escorted to the platform at the business meeting, and in an eloquent speech welcomed the cyclists to Rockford, and he gave the visitors the freedom of the town, a gift by the way fully appreciated The procession wound through mile after mile of beautiful business and residential streets, winding up at the fair grounds where a picture was taken. Photos were also taken in "Heaven," and proofs may be seen at 17 Madison street. Saturday evening a dance (full dress) was given at Unity Hall, also a supper, and a stag party at the rink. Following is a report of the races in detail:

One-mile novice, safety—cushion-tired machines were handicapped twenty yards, Moffat inflated cushion ridden by Ed Chrisholm thirty-five yards, and pneumatic tires fifty yards. Ten started. J. B. Card, C. C. C., won by three lengths. Time 3.03 2-5. Joe Stillwell, L. V. C. C., second by a bare length; F. H. Allen, W. C. C., third.

One-mile novice, ordinary, ten starters. The C. C. C. won their second race, E. W. Ballard carrying their colors to the front in splendid style. H. N. White, W. C. C., third; George W. Bowers, I. C. C., fourth. Time 2.53 2-5.

Two-mile open, safety—Bray started at scratch, Thorne, Tuttle, Dennison, Barrett, Bode and Fanning were handicapped fifty yards. They were mounted on pneumatics. Bray led at the first mile in 2.50. George K. Barret, C. C. C. won. This made three straight for C. C. C. Tuttle, second; Bode, third. Time, 5.29 1-2. The time of the last quarter was 30 seconds. The time for two miles and fifty yards, 5.29 1-2.

Two-mile handicap, ordinary—H. R. Githens, C. C. C., started at the scratch. A. P. Miller, C. C. W., had the limit, 210 yards. Ten men in all started. Githens was third at the first mile—time 2.45—and won handily by twenty yards from Bamberger, I. C. C.; J. B. Bliss, third. Time 5.36. Githens' riding was excellent, and his victory made four straight for C. C. C.

One-mile safety—F. Howard Tuttle, I. C. C., won; F. J. Fanning, I. C. C., second; George W. Dennison, E. C., third. Time 3.15 1-5.

One-mile ordinary, championship—H. A. Githens, C. C. C., won by two lengths; George W. Dennison, E. C. C., and J. D. Simmons, I. C. C., fought it out for second, the first-named winning. Githens' time was 2.56 2-5.

One-half mile safety—George K. Barrett, C. C. C., first; F. J. Fanning, second; Walter Bray, L. C. C., third. Time 1.10 3-5.

One-half mile ordinary, championship—H. A. Githens, C. C. C., first; J. T. Taylor, Aurora, second. Time 1.14 3-5.

One-mile handicap, safety, with Barrett and Thorne fifty yards back of scratch on pneumatics, Tuttle and Bode twenty yards back, and Dennison ten yards from scratch. J. L. Price of Springfield won from the 110 yard mark in a close finish; George K. Barrett, C. C. C., second; Tuttle two feet behind. Time 2.36 2-5. Barret's time from the starting mark was 2.33 2-5, pretty fast going.

One-fourth mile ordinary—H. A. Githens, C. C. C., won by twenty yards; J. T. Taylor, Aurora, second; A. D. F. Simmons, I. C. C., third. Time 32 3-5.

One-fourth mile safety—William C. Thorne, C. C. C., won; J. L. Price, Capital City Cycling Club, Springfield, second; George K. Barrett, C. C. C., third. Time 33.

One-mile, 3.10 class—E. C. Bode, C. C. C., won by fifty yards; J. L. Price, Springfield, second; Swanson, third. Time 2.46.

One-mile ordinary, handicap—Githens, C. C. C., and John Taylor, Aurora, started on scratch, and there were twelve other starters. J. P. Bliss, C. C. C., was first; H. A. Githens, C. C. C., second; John Taylor, Aurora, third, two feet behind Githens. Time 2.37 4-5.

Two-mile tandem, championship—F. Howard Tuttle and William C. Thorne, the only contestants, rode one mile in three minutes.

The consolation race was won by George W. Dennison, E. C. C.; Walter Bray, A. C. C., second. George K. Barrett, C. C. C., then attempted to lower the quarter-mile safety record, doing it in 33 seconds.

It seemed to be a great day for the three C.'s. Members from this club took the bulk of the prizes. FORT WAYNE.

THE IOWA DIVISION MEETING.

THE eighth annual meet of the Iowa Division at Newton, Iowa, was a success, and I cannot concur in the remark made by a local paper that one thing was lacking to make the races an entire success, and that was a ladies' race. It's bad enough to encourage professionalism among women cyclists, but when it comes to our sisters, daughters and lady friends going for racing on a public track I must cry for a halt, and may I never see the day when such a thing is possible. I am, however, indebted to the same paper for the following summary of the racing events:

FIRST DAY.

One mile safety, novice—A. B. Edmonds, Algona, first; W. E. Bowman, Farmington, second; W. J. Snooks, Newton, third; George Tones, Des Moines, fourth. Time 3.10 1-4.

One mile, ordinary, novice—W. G. McCormick, Grinnell, first; W. H. Rhodes, Grinnell, second; G. F. Shilling, State Center, third. Time 3.30 1-4.

Half-mile safety, State Championship—C. H. Curley, Prairie City, first; W. E. Bowman, Farmington, second; A. E. Hodgson, Des Moines, third; Aug. Bilz, Des Moines, fourth. Time 1.28 1-4.

Two mile, ordinary, championship—E. S. Van Gorder, Grinnell, first; E. Kastomlatsky, Oskaloosa, second. Time 6.28.

One mile safety, open—Geo. W. Denison, Chicago, Ill., first; W. E. Walsh, Minneapolis, second; Chas. H. Bennington, Des Moines, third. Time 3.23 1-4.

One mile ordinary, handicap—Fred H. Clifford, first; E. Kastomlatsky, Oskaloosa, second. Time 3.20. In this race Clifford was given eight seconds of a start.

Half-mile safety, boys under 16—G. G. Garfield, Algona, first; R. H. Gill, Prairie City, second; Fred Shaw, Monroe, third. Time 1.41.

One mile ordinary, open—G. W. Dennison, Chicago, first. Time 3.10 1-4.

Slow race—W. F. Harrah, Newton, first; W. P. Chase, Des Moines, second. Time 3.20. Distance run 100 yards.

Fancy—Budd Bliss, Des Moines.

SECOND DAY.

Two mile safety—A. B. Edmonds, Algona, first; A. E. Hodgson, Des Moines, second; C. H. Bennington, Des Moines, third. Time 6.55 1-3.

Quarter-mile ordinary—Fred H. Clifford, Newton, first; J. A. Cravath, Grinnell, second; E. Kostomlatsky, Oskaloosa, third. Time 43 seconds.

Quarter-mile safety—W. E. Bowman, Farmington, first; Seth A. Perkins, Des Moines, second; Fred H. Clifford, Newton, third. Time 43 3-48.

Half-mile ordinary, championship—E. S. Van Gorder, Grinnell, first; Fred H. Clifford, Newton, second; E. Kastomlatsky, Oskaloosa, third. Time 1.29 1-2.

Notice.

A Constitutional Convention having been requested by a very large number of members of the League, and various demands having been made for a meeting of the National Assembly, I have decided, upon careful consideration and advice, to issue the call published in this number of the BULLETIN, for a Constitutional Convention to be held at Hartford, Conn., September 8, 1891, and will later, at the proper time, issue a call for a meeting of the National Assembly to be held at the same place.

All proposed amendments to the Constitution and By-laws should be published in the BULLETIN at least 30 days from the date of these meetings.

JAMES R. DUNN, President L. A. W.

Constitutional Convention.

Members of the League are notified that a Constitutional Convention will be held at Hartford, Conn., on September eight next ensuing.

JAMES R. DUNN, President.

To Detroit.

Dear Sir—In order to better accommodate wheelmen who attend the twelfth annual meet of the L. A. W. at Detroit, Mich., July 16, 17 and 18, and to make the journey as pleasant as possible, I have arranged with the Fitchburg Railroad and the West Shore Railroad for increased service, special baggage and sleeping cars for our party.

I give below the time that trains leave the terminals, but it is greatly to our advantage to concentrate our party on train No. 3, leaving Boston at three P. M. and New York at Jay street at five P. M., and West 42d street fifteen minutes later, Tuesday, July 14, 1891.

I have been able to secure for this meet the lowest tariff ever quoted to wheelmen attending national reunion, i. e., one fare for the round trip.

For tickets, berths, and other information, New England wheelmen should apply to A. A. Smith, No. 300 Washington street, Boston, who is looking after a party leaving Boston via the Fitchburg Railroad at three P. M., Tuesday July 14, that will connect with the New York party at Rotterdam Junction over the West Shore Railroad.

The round trip will cost as follows. From Boston, $16 50; Fitchburg, $16.00; Greenfield, $15.00; North Adams, $14.75; New York, $14.00; Newburgh, 13.00; Kingston, $13.00; Albany, $12.95; Utica, $9.98; Syracuse, $9.92; Rochester, $8.32; Buffalo, $7.00.

Berth in sleeping car to Detroit will cost from Boston and Fitchburg, $4 50; Greenfield and North Adams, $4.00; New York and Albany, $3.50; Utica, $3.00; Syracuse, $2.50; Rochester and Buffalo, $2.00.

Wheelmen from Hartford, New Haven and that section can join the party at New York, Albany or Greenfield.

In addition to the above special rate, these roads will place a special coach at the disposal of any club, providing the party consists of thirty persons, or will haul a sleeping car if the party numbers eighteen

I am organizing a special party to go on train No. 3, as mentioned above, which will be run especially for wheelmen, and, if you can use this special service, apply at once, when tickets will be promptly forwarded and a place secured for you on the train, which will carry the wheelmen from New York and New England, making the largest train of wheelmen ever carried to a meet in this country.

If you anticipate attending any of the meets, you should secure tickets, berths, etc., early, in order that the arrangements for the heavy travel will be perfect.

Wheels will be carried free and have excellent care in the baggage cars, which will be held exclusively for wheels. I would suggest that the pedals be removed from all bicycles, and that the wheels be placed in baggage cars as much before the departure of trains as possible, and that each wheel be tagged with the name of owner and destination thereon, to avoid confusion.

I shall be pleased to furnish additional information upon application to CHAS. A. SHEEHAN, No. 5 Vanderbilt Avenue, New York.

New York, July 7, 1891.

Rhode Island Division—Detroit Meet.

Members of the Rhode Island Division are informed that a special rate has been obtained for the Detroit meet. Fare from Providence via Worcester to Detroit and return, $21.67; good for three days only after the meet is over. Wheels will be carried free from Worcester to Detroit and return.

GEO. L. COOKE,
Providence, R. I., July 6, 1891. Chief Consul.

Notice N. J. Members.

On and after July 1st and until October 1st, my address will be Geo. C. Pennell, Belmar, N. J.

GEO. C. PENNELL, Sec.-Treas.

League Club Renewals.

The following League Clubs have renewed membership.

3—Essex Bi. Club, N. J.
8—Bridgeport Wheel Club, Conn.
104—Allegheny Cyclers, Pa.
126—Lockport Wheelmen, N. Y.
313—Quincy Bi. Club, Ill.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an initiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.

Total 338.

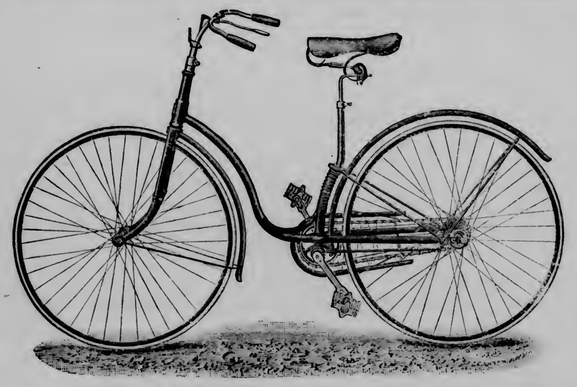
If you want your name in gold, stamped on the holder, send 50 cents xtra. *Leave the margin in using this blank.*

"THE WARWICK PERFECTION CYCLES



(some 120) that were ridden in the Century Run, finished as they started, in perfect condition." This from a dealer. We should never have alluded to above, had not our attention been drawn to the announcements of makers who were fortunate enough to have a PROPORTION of their wheels go through without breakage.

WARWICK PERFECTION CYCLES

Are built on honor. They are the lightest road wheels built in America.

SEND FOR CATALOG.

WARWICK CYCLE MAN'F'G. CO., - - Springfield, Mass.

INCLUSIVE of spokes, nipples, chain and balls, the average high-grade safety is made up of some seven hundred distinct and separate parts and pieces.

From this the value of a little care can best be realized. —*The Wheel.*

The above is fact; but in the

PARAGON

we offer a spring frame machine with fewer parts and simpler action than any machine on the American market.

All Shoes Stamped with this Trade Mark are of the Celebrated Norman & Bennett make. They are the best Fitting and Most Comfortable Shoe ever produced for Wheelmen.

FOR SALE BY

THE LEADING DEALERS

From Maine to California.

WE DIDN'T DO IT!

And we won't promise to refrain from a repetition of said delinquencies. 'CAUSE WHY? WE are NOT GUILTY.

And we wish it understood, once for all, in full reply to many letters of inquiry, that we DID NOT build the Leaning Tower of Pisa, we had no finger in the erection of the old Mill at Newport; Bunker Hill Monument was finished without our trying to spring any information or plans of previous designs on the Commissioners.

The established receipe for English Plum Pudding is no infringement on any formula of ours. We do not license makers of German sausage to use any confined styles of overcoatings, which are exclusively our property. The grass hopper weathervane on Faneuil Hall is NOT a BASE IMITATION of any particular style of hoppergrasses we were building 'steenty years ago.

We simply rise to explain that WE BUILD "BRONCHO" SAFETY BIKES. That we shall continue to build and sell them as long as the present demand continues, the assertions of the N.B. class of worshipers to the contrary, nothwithstanding.

If you want to know all the inside facts, write for CAT. and Testimonial book, AT ONCE.

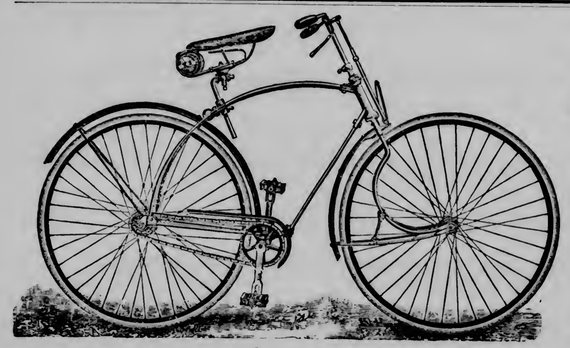
Mention this paper.

The Billings & Spencer Co., Hartford, Conn., U. S. A.

Manufacturers of the Wheelman's Favorite, Billings' Patent Bicycle Wrenches, 4 and 5 inches long when closed. Well and favorably known on two continents.

Drop forged o bar steel and finished in a thorough manner and case hardened. Small in size but giants in strength. Warranted a first-class tool in every respect.

For sale by all Cycle manufacturers and dealers.



WHAT IS HIGH WATER MARK?

Actual shipments of the **Giant Safety Bicycles** so far this year have been as follows: January, 793; February 852; March, 1112; April, 2001; May, 2256; Total, **7014.** Above are facts and demonstrate conclusively to the practical mind the widespread popularity of these wheels. We are now working overtime and producing about 450 wheels per week. Pretty good for a factory not yet two years old, is it not?

New edition of Catalogue now being mailed.

H. A. LOZIER & CO., - - Cleveland, Ohio.

Modesty forbids us telling the wheelmen of the Country about the Pullman races. Every wheel in that race came in first, and now we can't help putting modesty aside and saying that the Eclipse is first as a Comfortable durable road wheel. Our cushioned tired wheels are capturing the riders all over the country. No wonder! We make a first class, high grade wheel. Never one owner of Malleable iron pub on an Eclipse. It is a poor wheel for the repairer, but just the wheel for the rider. Stock Pulley & Mfg. Co. Indianapolis

Samples of same can be obtained on application to

BROWNING, KING & CO., - New York.

THE SPIRAL FLEXIBLE TOE CLIP

Is flexible and easy on the foot. Adjusts to any size of foot or pedal. Stands any amount of blows, kicks or tramping on, and still retains its form. Will not catch on curbs, sidewalks, door sills or obstructions and pull out of shape while wheel is being trundled over them.

The only toe clip extant that permits of the correct adjustment of foot to pedal; not having a toe check it does not tend to pedalling with toes pointing downward, which position induces a strained and set condition of the muscles of the foot, ankle and calf. One of the best, simplest and most easily attached. Try a pair and be convinced. Send for descriptive circular.

AS CARRIED WHILE RIDING

No more foul, greasy and collapsed tool bags.
No soiled hands or clothes
No loss of oil or one's temper.
No dirty tool bags or oily tools.
No weight, no delays to oil up.
No loose tops, no rattle.
No neglected or damaged bearings.
No squeaking or pounding.

Made in sizes suited to different machines.

Pronounced by old wheelmen, the press and the trade as the BEST novelty before the cycling public for '91.

In ordering state make of wheel and give diameter of seat rod or handle bar shaft.

Price mailed, 50c. With C. & D. Oiler $1.

The Spiral Flexible Toe CLIP is flexible, easy, adjustable, effective, indestructable, faultless. One of the best, simplest and most easily attached. Price per pair, mailed, 50c Agents wanted everywhere.

Descriptive circular free. [Mention this paper.

PIERCE, SMALL & CO., RANDOLPH, MASS.

"Z & S" Hose Supporters

FOR SHOULDER, BELT AND HIP.

FOR SHOULDERS—An article that meets the popular demand from wheelmen, and the public generally. The Z. & S. Supporters have been greatly improved, being made lighter with a better clasp at the stocking, saving all wear on the pants, chafing the leg or tearing the stockings, and warranted not to "let go their hold" accidentally. These Supporters do away entirely with elastic bands, which bind upon the limbs and stop the circulation of blood, causing numbness or swollen veins. They are made so as to be worn beneath the flannel shirt, passing over the shoulders and down either leg. Adjustable for any sized person.

Price, 50c.

FOR BELT—With belt around the waist that allows of ample adjustment over the hips. Arranged for short or tall riders. Fitted with our patent fastener for holding the stocking; being perfectly flat it is impossible to chafe the leg or cut the knee-breeches or wear out the stockings They are exceedingly handy, universally adjustable, and, with our new patent catches for the stockings are found to be the best belt supporter on the market.

Price, per pair, 50cts.

FOR HIP—The "Z. & S." Hip Stocking Supporters have undoubtedly had a more extended sale than all the other stocking supporters so far placed on the market, not because they are better than the belt or shoulder supporters, but because they are so exceedingly handy to put on and take off; can be worn under all circumstances, whether with a linen or flannel shirt, for a short ride where it is very desirable to make a quick change to long pants for social or business purposes, or vice versa.

These supporters are now made with the double safety pin, for attaching to the drawers or shirt above the hip, and extending down either leg, fastening to the stocking with the Lindsley Patent clasp, we being the only manufacturers licensed to use this clasp.

Price, per pair, 35 cents.

THE SAFETY BUNDLE CARRIER

For Handle Bar or Mud Guard.

These Carriers have come into demand wherever the Safety is used. Owing to the patented principle of swinging plates, thereby allowing them to be placed at right angles under the package to be carried, and at the same time placed close together on the bar, for a short package, or further apart for a long bundle, canes, umbrellas, etc., and upon removing the package or bundle, these plates can be moved back horizontally with the bar entirely out of the way. These Carriers are very strong, nicely nickel-plated, compact, and an ornament to the machine. They are easily detachable if desired. In ordering, state what machine they are to fit.

Price, $1.25. By mail, $1.35.

To Athletes, Cyclists, Baseball & Footballists, Horse-back riders, Boxers and Oarsmen; when you want to ride, run, walk, row, skate or swim a long distance, USE

ANTI-STIFF

To Strengthen the Muscles.

To Strengthen the Muscles.

It is a marvellous preparation for Strengthening the Muscular System. With Anti-Stiff there is no faith required; it goes straight for the muscles, and you can feel it at work. It has a peculiarly warming, comforting and stimulating effect on all weak or stiff muscles and sinews. Quick in action, cleanly and pleasant in use. Rub it into the muscles every night for a fortnight, and you will be pleased at its supporting and strengthening properties. There is not, nor has been, anything like it till now. It differs from all Oils, Embrocations, and Liniments, both in substance and effect. Some athletes are so fond of it that they rub it all over them.

COLUMBIA LIGHT ROADSTER SAFETY

Price, $135.00.

VALUE AND PRICE

Are relative terms, and are often far apart, but when applied to the COLUMBIA BICYCLES they are as nearly equal as a thoroughly responsible house can make them.

QUALITY FIRST

And reputation afterwards, the latter the effect of the former cause, has always been the motto of COLUMBIA manufacturers, and therefore COLUMBIAS have a justly earned reputation, based upon the work which has preceded.

POSITIVE VALUE

Is indicated by the name "COLUMBIA" (synonymous with *best*) for the simple reason that the product has given a standing to the name, and not the name to the product. For the same reason "Columbia" is the accepted standard, and all others must be "as good as the Columbia."

CONTINUED FROM PAGE 350.

One mile safety, handicap—Fred H. Clifford, Newton, first; J. L. Laird, Newton, second. Time 3.14.

Five mile team race—E. D. Van Gorder, Grinnell, first; James Cravath, Grinnell, second; C. F. Montgomery, Grinnell, third.

One mile safety, championship—W. E. Bowman, Farmington, first; A. B. Edmonds, Algona, second; C. H. Curley, Prairie City, Time 3.07 3-4

Two mile ordinary, handicap)—W. Walsh, Minneapolis, first; W. Schnell, Omaha, second; C. F. Montgomery, Grinnell, third. Time 6.31 1-4.

Two mile safety, handicap—Geo. W. Dennison, Chicago, first; W. E. Walsh, Minneapolis, second; A. B. Edmonds, third. Time 6.15.

[We wish our correspondents would see that in reporting handicap races the handicaps are given—Ed.].

At the banquet given on the evening of the first day Mr. Stubbs of Fairfield acted as toast master. After a few happy introductory remarks he introduced the Hon. H. S. Winslow, who delivered the address of welcome. He turned the city over to them and told them that if they "wanted anything they could not see they only had to ask for it and it would be theirs."

Chief Consul Chase spoke of the League and its advantages and paid a pleasant compliment to the citizens and wheelmen of Newton for their generous hospitality.

"Business men and the bicycle" was the toast answered by Hon. B. C. Ward of Prairie City. He was happy to note that the business men were grasping the idea that in the use of the bicycle was to be found health, pleasure and wealth, inasmuch as in its practical use was a saving of time, and time was money in these hustling times.

The Rev. J. W. Lewis spoke for the clergymen, and he referred to the unfortunate position taken by some that cycling was an undignified pastime for men of the cloth. He gladly noticed, however, that no such opposition existed in Newton.

"Our Lady Cyclers" was a toast assigned to Mr. C. C. Rhodes, but so overwhelming was the theme that Mr. Rhodes could hardly express his appreciation of the fair riders.

Mr. Tainter gave a few pointers on touring, and after a rousing vote of thanks the banqueters dispersed.

A GREAT RECORD.

(By wire to the World.)

[We regret the following did not reach us until too late for last issue—Ed.]. Terry Andrae has lowered the world's 25-mile record over a 6 3-4 mile course. The first round trip was done in 21m. 30s.; second round trip, 22m. (43m. 30s.); third trip, 22m. 30s. (1h. 6m. 0s.). The last 4 3-4 miles was made in 15m. 32s. Total for the 25 miles, 1h. 21m. 32s. Andrae was paced by his brother H. P., and Pattiz, Crocker, Kilby, Carney, Wagner, Nickel.

H.

[If this time is correct, and the distance properly measured, this will be the American road record.—Ed.].

TWENTY-FIVE MILE ROAD RACE, ALAMEDA BICYCLE CLUB.

EDITOR BICYCLING WORLD: Kindly publish the following correct account: The Alameda Bicycle Club gave its first 25-mile road race on the San Leandro Triangle on Decoration Day, May 30, 1891. There were nineteen entries, and the following were the first three with the time attached: W. F. Foster, Alameda Bicycle Club, Alameda, handicap 3m., first. Time 1.25.25. George Osen, Garden City Wheelmen, San Jose, handicap 3m., second. Time 1.25.30. Frank Waller, Oakland Bicycle Club, Oakland, handicap 2 1-2m., third. Time 1.24.57. There was a protest against the award of the time medal to Frank Waller of Oakland, as every one on the track could testify that W. F. Foster had won both the time and first place medal. The protest has not as yet been decided. The time made by Foster and Waller, I think, beat the United States record by two seconds and again beat the California record made by Elwell by eight minutes and two seconds. The Irvington races time was not to be compared to the time made at our races.

"ALAMEDA."

RACING AND MEET NEWS AND GOSSIP.

AT BOSTON, JULY 4.—Boston could not have a Fourth of July celebration without bicycle races. The city authorities recognized the fondness of the public for sport of this kind, and so they have for the past many years catered to this fondness by having prominent among the list of public amusements a good cycling programme. The following is a summary of the races:

One-mile ordinary, novice—Wm. Clark, first; Batchelder, second.

One-mile safety, novice—First heat—C. C. Orcutt, first; F. St. Onges, second, J. A. Darlow, third. Time 2.52 3-4.

The first two men in the next heat were F. S. Elliott and J. E. Martin, while Post and Ogden succeeded in capturing the third heat.

Fourth heat—Bache, first; Rapheal, second. Time 2.57 4-5.

Final heat—Elliott, first; Martin, second. Time, 2.55 4-5.

The one-mile, safety, handicap race for cushion and pneumatic tired machines brought out P. J. Berlo, scratch; C. F. Taylor, 50 yards; Connolly, J. S. Morse, 75 yards; A. H. Beers, 100 yards; W. L. Russell, 125 yards; Fred St. Onges, 150 yards; J. P. Ogden, H. E. Post, and C. J. Abbott, 175 yards. Berlo, first; Taylor, second. Time 2.38 2-5.

One-mile ordinary, handicap—J. Clark (scratch), E. J. Clarke (25 yards), Connolly (50 yards), H. G. Andrews, A. K. Pressy and Peter Alexander (75 yards), T. and W. Ourish (100 yards), Victor Duplin, W. Clarke and W. B. Clough (150 yards), and W. B. Handy (175 yards). Andrews, first; Pressy, second. Time 2.41 4-5.

One-mile safety, solid tire—Taylor, first; Connolly, second. Time 3.02 2-5.

Half-mile, boys safety race—G. O. Curtis, first; Vogel, second. Time 1.26 1-2.

Quarter-mile ordinary—Connolly, first. Time 35 3-5s. Pressy and Andrews made a tie for second place. In the run off Andrews finished first in 38s.

Quarter-mile safety—first heat; Berlo, first; Connolly, second.

Second heat—Burnham, first; Taylor, second.

Final heat—Berlo, first. Time 35 4-5s.

Consolation race—Beers, first; St. Onges, second. Time 2.52.

THE POORMAN HANDICAP RACE—Was run at Cincinnati, July 4. The course was in excellent condition owing to the rain two days previously, and as a consequence the records of last year were smashed, Van Sicklen beating his own record, 11 min. 43 2-5 sec.

The race was won by H. C. Tyler of Highlandville, Mass., Chas. Roth of Cincinnati, second; Van Sicklen winning the time medal.

Order of finish.	Name.	Tire.	Handicap.	Riding time.
1	H. C. Tyler	cushion	6.00	0.54 51 1-2
2	C. H. Roth	solid	9.30	1 01.21
3	N. H. Van Sicklen	pneumatic	scratch	0.52 47
4	R. O. Baumann	pneumatic	4.00	0.56.49 3-5
5	H. E. Anderson	solid	12.00	1.05.43 1-2
6	R. M. Barwise	cushion	4.30	1.01.02 1-2
7	W. C. Rands	pneumatic	3.00	0.56.51
8	C. Aszman	cushion	7.30	1.01.53
9	Al. L. Arnot	solid	12.00	1 06.24
10	B. A. Cramm	pneumatic	5.00	1.07.32 1-2
11	C. F. Domm	solid	9.00	1.05.23 2-5
12	"Teddy" Allsup	cushion	5.00	1.06.08 1-5

The Great Van Wagoner did not put in an appearance although he had entered. This is the second time he has fooled those who went to see the race, and the wheelmen in this vicinity are beginning to entertain a very poor opinion of him. The distance of the road race was 18 miles.

"STAR."

AT CINCINNATI, JULY 4.—The Fourth of July tournament of the Porkopolis Wheelmen of Cincinnati was run at Chester Park. The park was never in better condition. It was smooth and hard. The weather was all that could be desired, the attendance large, and the spectators enthusiastic.

The following are the races, time, winners, etc.:

One mile safety, novice—Geo. Bauers of the Crescents, first. Time 2.57. H. Serodino (cushion) second, and Chas. Domm, third.

One-mile ordinary, championship of Hamilton County—Chas. Aszman (cushion) first. Time, 3.02. Tudor, second. Time 3.02 1-2. Jas. Rowe, third. Time 3.02 3-5.

Half-mile safety, open—H. C. Tyler (cushion), Highlandville, Mass., first. Time 1.23 1-5. T E. Jefferis (cushion), Louisville, Ky., second. Time 1.26 1-5. R. O. Baumann (pneumatic), third.

Half-mile safety, ride, and run—Jefferis (cushion), first. Time 1.24. W. A. Ruby (pneumatic), of Louisville, Ky., second. Chas. Domm (cushion), third.

Quarter-mile safety for boys—Geo. Riegger, first. Time 46 1-58. Chas. Poorman, second; John Frances, third; Walter Larrabbee, fourth.

N. H. Van Sicklen (pneumatic) then rode a half-mile, to make a record for the track in 1.13 1-5, starting from scratch.

Half-mile ordinary—Aszman (cushion), first. Time 1.24 2-5. Rowe, second; Tudor, third.

Half-mile safety, championship of the Porkopolis Wheelmen—Oscar L. Graeser (cushion) first. Time, 1.26 3-5. Otto Barth (cushion), second; Rudolph Meiser, third.

Two-mile safety, open—Tyler (cushion), first. Time 6.12 1-5. Jefferis (cushion), second; Ruby (pneumatic), third.

One-mile ordinary, open—Chas. Roth, first. Time 3.06 4 5. Rowe, second; Tudor, third.

Two hundred yards ordinary, slow race—Won by Chas. Roth. Time not taken.

Pneumatics were penalized fifty yards and cushions 20 yards to the mile.

In the third race "Ted-dy" Allsup took a header and broke his left fore-arm.

"STAR."

AT ATTLEBORO, MASS.—The races given on July 4 at Attleboro Park were a grand success, and a large number of persons were present to witness the sport. The first race was a one-mile safety, for prizes of medals and lantern. The starters were Albert Wetherell, Fred Waite, Joseph Neuschutz and Harry Merritt. It was a good race and the riders went over the tape in the order named. Time 3.30. Howard and Albert Carpenter took in the one-mile ordinary, and Albert succeeded in beating his brother in 3.23. The one-half mile safety was won by Albert Wetherell in 1.40; Neuschutz was second, Fred Waite third and A. M. Wrigley, fourth. Fred Brigham gave them an exhibition of fancy riding. A special one-half mile ordinary was then put on, in which Howard Carpenter defeated Albert in 1.34. The prize was a fine lantern, presented by the Overman Wheel Co. Albert Schneider, Fred Carpenter and Fred Wade were the contestants in the one-half mile safety race for boys. Young Schneider won in 1.59, closely followed by Carpenter and Wade. Wetherell beat Waite and Neuschutz in the two one-half mile safety races. The times were 1.34 and 1.43.

AT WATSESSING, N. J.—The first annual races of the Watsessing Bicycle Club took place on July 4, at Watsessing, N. J. There were two events, a five mile handicap road race for club members and a two mile boys' race, open to all. The five mile race resulted as follows: Jacob Ehui, first, time 22.23; Harry Downer, second, Walter Ellor, third. In the boys' race Arthur Hyde came in first, Herbert Ellor, second, and John Emelton, third.

AT FRANKLIN, PA., JUNE 27.—The races run under the auspices of the Y. M. C. A. at the above place were successful in point of attendance and sport. The results:

One-mile ordinary—Lou Black, first; A.P. Steele, second. Time 3.32 3-4.

Half-mile safety—B. Adams, first; F. McIntosh, second; A. B. Jordan, third. Time 1.39 1-2.

Quarter-mile ordinary—A. P. Steele, first; C. Steele, second. Time 568.

One-mile safety—A. B. Jordan, first; A. Wilson, second. Time 3.44.

Half-mile ordinary—A. P. Steele, first; C. A. Steele, second. Time 2.05 1-4.

Quarter-mile safety—B. Adams, first; S. S. Swift, second. Time 53 1-4.

One-mile open—B. Adams, first; A. S. Robinson, second; J. Bridge, third. Time 3 39 1-2.

Two-mile ordinary—A. P. Steele, first; L. Black, second. Time 8.20 3-4.

Two-mile safety—W. Shafler, first; F. Irish, second. Time 7.45.

AT SPRINGFIELD, MASS.—The employees of the Massachusetts Mutual Life Insurance Company of Springfield, Mass., held a road race on July 1, in which nine persons competed. The run was up Carew street and over the hill above the hospital to Chicopee, across the covered bridge and again over the river by the North-end bridge to John street. The

race was won by Edward Allis in 29m. 51 2-5s. while the others came in this order: T. T. Davee, 30m. 50s.; W. L. Gammons, 31m. 30s.; A. S. Haskins, 32m. 40s.; A. Hughes, 33m.; Henry E. Schmuck, 34m. 30s.; Lennox F. Beach, 34m. 35s.; Charles W. Bliss, 35m. 37s. Harry W. Haskins, 42m. 40s.

AT CAMDEN, N. J., JULY 4.—Philadelphia was without cycling events on the Fourth, Taxis, Hazleton, Kelly, Draper, et al. being absent at Hagerstown. The Sons of St. George, however, gave their usual annual games at Stockton Park, Camden, which included two cycling events, the results of which were as follows:

One-mile safety, handicap—Won by W. J. Greer, S. E. W., scratch; H. L. Heffern, S. E. W., 50 yards, second. Time 4.27 1-4.

Two-mile—Won by Lewis Castor, F. B. C., 100 yards; William Strein, S. E. W., 50 yards, second. ARIEL.

AT WESTFIELD, N. J., June 27.—Six of the ten entries in the Westfield Wheelmen's road race rode in the five mile handicap road race on that date. The course, which was over the county road between this place and Cranford, was in perfect condition, though too heavy a wind was blowing to expect fast time. The first three men were as follows: James Willis, (1 min.;) time, 16 min. 30 sec.; C. Whitehead, (3 min.;) time, 20 min. 8 sec.; E. Bloodgood, (1-2 min.;) time, 17 min. 46 1-2 sec.

AT SUFFERN, N. Y.—'Tis a cycle club we have here, branch of Ramapo Valley Club, fifteen members, nice club house, billiards, etc., latch string on outside of door, splendid crushed stone roads are being made about here, feverish times, racing for medals, 2-mile straight away, course Havermyers macadam road, Saturday, June 20, road race, best two in three, mile heats, Frank Becraft of Tuxedo, Will Hilliard of Ramapo (champion of Rockland County). First heat, Becraft, 3.10 1-5; second heat, Hilliard, 3.12; third, Hilliard, 3.05.

Hilliard won last heat by about three feet. The Foundry terror now wears an elegant gold medal ($25), and his admirers and co-workers are about to present him with a racing safety. Lots of money lost, about 500 people present. This being the first of the kind to ever happen here the crowd were nearly crazy. The excitement among the wild colored mountain contingent was intense. The red haired, the straight haired, blue-eyed colored people, even the Albinos, one of whom had his scarlet eyes changed in a twinkling to a dark bronze color by a freckled-face, red-haired coon from whom he had won a $1 and wouldn't give it back, lost his grief and was seen standing on head in his exuberance of joy. 'Twas a holiday, what will July 4th be, when it is expected they and others will race again? 1-4 mile, 1-2 mile, 1 mile (two in three and three in five) mile heats, big time and lots of fun. I have known racing men to diet, but when one sees a man two hours before a race delicately lunching on three plates of ice cream, two plates of cucumbers, some cake, a plint of peanuts, a handful of candy, smoke one or two strong cigars, and then go in and win a hard up-hill race. He truly merits the name of the "Iron boy." RAMAPO.

AT NEEDHAM, MASS., JULY 4.—Among the sports at Needham were the following bicycle races:

Five-mile—Charles Measure, first; Chas. Courtenay, second; Harry Fisher, third. Time 17m. 55s.

One-mile, championship of Needham—Won by Chas. Measure.

Half mile race for boys under 15—Alfred Measure, first; Albert Chandler, second.

Two-mile—Charles Courtenay, first; Harry Fisher, second; Fred Marriott, third.

Two-mile, novice—George Poggi, first; David Smith, second; C. E. Stanwood, third.

SATURDAY, July 4th, the Clinton, Ind., Cycle Club held their first races for the season in the afternoon. Two half-mile races were run: O. E. Cosner, first; Wm. Hodge, second. Time 1.36 first and 1.37 second heat. At 6.30 P. M. the mile races came off; one safety and one ordinary. The safety race had four starters: C. E. Fennell won; Fred S. Coulter, second. Time 3m. 16s. The ordinary race had five starters: Frank Miller won; Ed Murphy, second. Time 3m. 26s.

OUR attention has been called to the fact that at Hagerstown and other places the U shaped cushions were handicapped 20 yards on the mile, while the ordinary cushions were handicapped 8 yards. The Victor cushion is U shaped, and the excess in the handicapping same is an evidence of how handicappers estimate the value of the Victor tire, which must be exceedingly gratifying to the Victor people.

TRADE NOTES.

DOWN FROM PIKE'S PEAK.

MESSRS. H. G. KENNEDY, W. E. Perkins, and C. C. Candy made a perilous trip Sunday down Pike's Peak. At 4.30 A.M. they started from Manitou, pushing their wheels up the cog road to the peak. The summit was reached at 2.30 P.M. The return trip was commenced at about 4.15 via the Cascade toll road to Cascade, which was reached at 6.30 o'clock, Kennedy's cyclometer registering twenty-two miles from the summit. Some of the grade was not less than 25 per cent., and it was necessary to strap the brake levers to the handle bars. The road had been passable for teams but two days, and had it not been for large cushion tires the trip would have been impossible. The mounts used were two Victor safeties, and one special safety, belonging to Mr. Kennedy. The wheels and riders came through without a scratch, and the former are on exhibition at the Overman Wheel Company's store, Stout and Eighteenth streets. All three of the gentlemen are members of the Ramblers.—*Denver Republican.*

The Denver *Sun* has this to report as coming from one of the party: * * * "The first five miles were simply a series of bumps and jars, and if it had not been for the large cushioned safeties, we would never have gotten half way down. At the end of five miles the roads began to improve, and it was a continuous coast with the brake-levers strapped to the handle bars, and the spoons at times getting so hot that they burnt the tires. I had to swallow my heart several times as we went round corners where a slip would send the rider down a precipice of 3000 feet."

THE first piece of cold drawn tubing of American manufacture will appear at Detroit, and be incorporated in an Elliott Hickory wheel. The tubing is made by the Shelby (Ohio) Steel Tubing Company, and it required a good deal of hustling on the part of that company to get it out in time for the Detroit meet.

WHAT cyclist has not been annoyed and seriously inconvenienced by the loss of a nut from his machine when far away from any repairer and machine shop? There is no need for future bother on this score, as we have before us an adjustable nut which will fit any thread or any bolt on a bicycle. On page 358 will be found a cut of this simple little device, and riders who do not at once purchase at least one or two of these devices will not deserve sympathy when they find themselves "miles from anywhere" minus a nut and plus a disabled machine. The price is ridiculously small, 50 cents. See page 358.

LUCAS SONS' King of the Road Lamps have an international reputation, and the very best reputation at that. There is no doubt as to the excellence of these lamps, as will be found out by all those who have used them. The Premier Cycle Co., of 8th avenue and 51st street, New York, are sole U. S. agents for these goods. So if your dealer has not the "King of the Road" in stock, send to the Premier Cycle Co. for prices, etc.

A PHILADELPHIA rider, who is somewhat of a mechanic, on last Sunday rode through Fairmount Park on a machine which attracted considerable attention. To the rear wheel of a Broncho, with its accompanying hub and gearing, was attached a frame similar to that of a Star bicycle, carrying at the lower end of the front bone a small 18-inch wheel. The machine rode very steadily; the steering being fair, but it pulled heavily on loose or poor roads, the small front wheel being a decided drag. The owner proposes equipping it with a 24-four inch steerer, fitted with cushion tires, with which he thinks the objections referred to will be overcome.

"ANOTHER scalp" goes to the Union Cycles. Yes, several scalps, for it will be noticed that the great Poorman road race at Cincinnati, July 4, was won by H. C. Tyler on a Union No. 9 cushion. Further, out of sixteen prizes offered at Needham, July 4, twelve were captured by the Unions. Truly, in Unions will be found strength and also speed.

MR. HILL, of the Coventry Machinists' Co., says he has received a consignment of the new Model E "Swift," with the lines of the Model A "Swift;" specially curved handle bars, cork handles and inch cushions. It actually weighs 36 pounds complete.

THE Eagle does not cease to flutter round the head of the column in the number of "firsts" and "seconds" in the racing events. The Eagle has a way of proving its qualities as a "flyer," and by referring to page 345 it will be seen that it was found in the front in many of the late events at Hagerstown.

IN Philadelphia a man has had patented a double gear, which "Ariel" tested last week. The invention apparently differed in no wise from the ordinary chain gear, except that the crank-hanger, together with the rear wheel carries a sprocket wheel on both sides. This, with the double chains, adds about eight or ten pounds to its weight, which of course is a drawback. However, it worked very nicely, a simple touch of the lever attached to the handle bar sufficing to change from a forty-eight to a seventy-two gear at a moment's notice, while setting it in a third position threw the cranks out of action entirely, permitting the feet to be held stationary on the pedals for coasting, while the rear wheel and sprockets revolved as usual. The invention is a thoroughly practical one, except its weight, which will tell against it in actual use.

THE Ormonde seems to be "in it," having placed the 50-mile road record to its credit to the time of 2 hours 24 minutes 44 seconds. This not only is the fastest fifty miles ever done on the road, but it beats the *track* record by nearly one minute. The Ormondes are evidently made to go.

INTENDING purchasers having doubts as to the wheel they want will do well to have the points of the "Swift" explained to them. Their special tire is meeting with a great demand, and gives universal satisfaction.

"ONE of the latest acquisitions to the wheel business in Philadelphia is the John Shirley Cycle Company. Convenient to Broad street, the warerooms are 1404 Oxford, offering a splendid chance for the riders of either street to secure cyclealities or inspect the Viking. This wheel is of English make and is the 'piece de resistance' of the firm. The name of the makers is sufficient guarantee as to quality, it being strictly high grade. Although but a short time in business here the Shirley Co. have already made hundreds of acquaintances among the cycling fraternity, who find them obliging, energetic and reliable business men."—*Saddle and Cycle.*

CLINTON CYCLE CO., of Clinton, Mass., report that they are doing a large exchange business this season. They allow the highest prices obtainable for high wheels towards new safeties of all the leading makes.

FIXTURES.

JULY.

16, 17 and 18—Annual League Meet and National Championships, Detroit, Mich.

22—Summer race meeting of the Atlantic City, N. J., Wheelmen.

July 24 and 25—Annual Bicycle Meet of Chicago Cricket Club at Parkside. J. G. Davis, Parkside, Chicago, Ill.

22 and 23—Wisconsin Division Annual Meet and Green Bay Cycle Tournament at Green Bay.

AUGUST.

1—Cortland, N. Y., Wheel Club's tournament. F. S. Jepson, Secretary.

4—Waiontha Bi. Club's 50-mile road race, Richfield Springs, N. Y.

19 and 20—N. Y. State Division meet at Rochester, N. Y.

29—First annual race meet of the Quaker City Wheelmen, Philadelphia Ball Park. E. B. Chapman, 1400 Oxford st.

SEPTEMBER.

5—At Providence, Rhode Island Wheelmen's tournament at Narragansett Park.

7 and 8—Hartford Wheel Club Tournament, and Meet of the Connecticut Division, L. A. W. Address J. J. Grace, Secretary, Box 365.

10 and 11—Springfield Bicycle Club's tournament at Hampden Park. P. O. Box 107, Springfield, Mass.

12—Second Road Race of the Wheelman's Racing League, Brooklyn, N. Y.

18 and 19—Third annual tournament of the Peoria Bicycle Club.

18 and 19—Syracuse C. C. race meet.

22—Rockland County (N. Y.) Wheelmen's race meet, Spring Valley, N. Y. N. Gardenier, Spring Valley, N. Y.

29—Montreal (Canada) Bicycle Club annual race meeting.

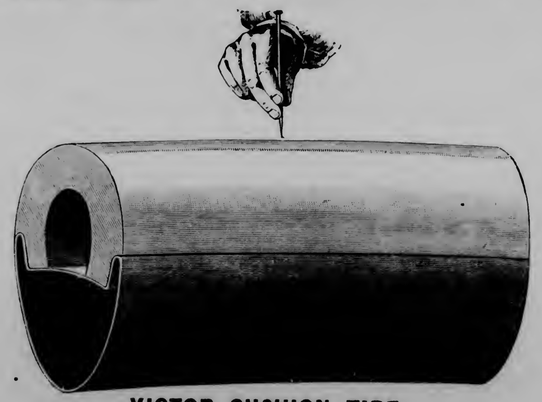
THE BICYCLING WORLD & BULLETIN.



DEVOTED TO THE INTERESTS OF CYCLING.

Volume XXIII. Number 12. BOSTON, 17 JULY, 1891 $1.00 a Year. 5 cents a copy.

The great resiliency and size of the Victor Cushion Tire (the King Tire of '91) have caused many wheelmen to erroneously suppose that a puncture would work the same disaster as in the pneumatic tire. The Victor Tire "isn't built that way."

STICK A PIN IN IT.

Everybody invited to try for himself.

VICTOR CUSHION TIRE.

OVERMAN WHEEL CO., CHICOPEE FALLS, MASS.

Gentlemen—"For several seasons I have used your Lactart and found it very satisfactory, as a quencher of thirst." Respectfully,

A. P. BENSON, Newton Club.

CONTINUED FROM PAGE 386.

tificate of appointment hung in a conspicuous place in their office. Complaints have reached me from time to time, that the privileges which we enjoy are granted to all wheelmen, whether League members or not, and we must adopt some plan to avoid this infraction of the contracts. The agreement especially provides that if the rates are made to us are granted to non-members the appointment of the hotel can be cancelled at once. I would therefore request Local Consuls to keep a strict watch and inform me of all violations of the contract.

Highway Improvement.

This important branch of League work has been sadly neglected in our State just because you failed to nominate enthusiastic workers as members of the Highways Improvement Committee. During the session of the Legislature I wrote and appealed to the then chairman of the committee to take some action towards introducing a Road Bill or other legislation to improve the existing condition of things; but my communications remained unanswered, and I was finally compelled to remove him. Only a few weeks remained of the session of the Legislature, and Mr. G. H. Lucas of St. Louis then came forward and kindly volunteered to do what he could to secure recognition of the crying need for better roads. Accordingly, a circular was drawn up, setting forth the advantages of rock roads, and with it was enclosed a copy of the League's work on Highway Improvement. This was sent to every member of the Legislature. The aid of several influential Senators and Representatives was secured, and as a direct outcome of the agitation two road bills were introduced, one of which came to a hearing but was left on the calendar on account of the adjournment of the Legislature. I cannot too forcibly condemn the inactivity of the Highways Improvement Committee in this matter, as the results of our little agitation showed that the Legislature was favorably inclined towards enacting laws to improve our highways. If we had such roads as Jasper County boasts, our State would be well equipped; and the first step to insure their building is to nominate a committee at this meeting who will take hold of the matter promptly and, by securing the aid of the press, educate the people up to the great benefits which good roads provide as factors of civilization.

Finances.

Our Secretary-Treasurer is personally present, and will read his report in detail. The financial condition of our Division is satisfactory when we consider the heavy expenses which we incurred during the year. Members should not forget that each new member who joins before November 1 contributes 1.50 to the Division treasury, and that a large increase in our growth will place us just that many dollars ahead. The charges for printing and postage were made necessary to obtain new recruits and taken all together I think I can be justified in stating that our finances were very economically managed. Amongst the extraordinary expenses are the following items: the Canfield case which cost us $33; a typewriter for my office, 30; salary of the Division attorney, $50; prizes for Local Consuls, $10; postage on recruiting pamphlets, $20; making a total of $146, which, if deducted from the total expenses, will make the expense account small.

Work Accomplished.

During the year much work has been accomplished to secure the abatement of nuisances, such as excessive sprinkling in St. Louis. Our committee began the work last December and received the assurance that the slopping of the asphaltum streets, which makes riding on them dangerous, would be abolished. The sprinkling season came round and no water was placed on the streets during May. Unfortunately the Street Commissioner blundered by permitting the dust and dirt to accumulate on the pavement and this caused the adjoining property owners to file a remonstance with the result that sprinkling was resumed. We are promised that the asphaltum streets will be cut out of the sprinkling contracts next year, and improved machinery is now being experimented with to keep the pavement dry and clean at all times.

Contrary Legislation.

Since my last report there has been no contrary legislation to contend with, and I very much doubt if any such measures will ever again come before our Legislature.

Renewals.

Immediately after the expiration of the League year on April 30 I sent a circular to all our members asking them to renew at once, and enclosed therewith a renewal blank and a recruiting pamphlet. I am sorry to say that but a few responded to the call, and on June 16 a postal card was sent to all the delinquents which was followed up with a personal letter on June 25. In spite of all this arduous labor our membership has fallen to 312 members on account of members failing to renew. The total number of renewals was only 317 out of a membership of 475. When the fact is taken into consideration that in addition to all this work a collector assisted me in making personal calls on the St. Louis members, the results are very discouraging and lead me to believe that our members do not appreciate the vast amount of work which is gratuitously performed by the officers of the Division.

Names of non-League Wheelmen.

By a careful canvas of the State many new names have been added to my cyclist's directory, and to date number fully 1500. If the members themselves would only take one half of the interest in the growth of the Division which is shown by the members of other Divisions, our Division would soon rank among the leaders. The must be reason for this lack of interest, and I should like to hear suggestions from the members present.

Road Book.

The present edition of the Road Book is entirely exhausted, and I would like to know if it is the wish of the members to issue a new one. Contrary to all expectations the book did not act as much of a factor in increasing our membership, and when the heavy expense, $377, is taken into consideration, it might be well to consider other schemes which will involve a smaller outlay of money to secure the desired results.

Constitution and By-Laws.

In conformity with the notice published in the BULLETIN some months ago, a new Constitution and By-Laws which has been drawn up by the Rights and Privileges Committee and altered and amended in many points, will come before you for adoption or rejection, and in case it is passed, I would suggest that a handbook containing same, the National Constitution and By-Laws, the names of our officers, members, hotels, Local Consuls, repair shops, and such other matter as is of interest to our members, be published in case it is decided not to issue the Road Book.

Next Year's Meet.

To date no application has been received for next year's meet, and if there are any members from cities present who desire the meet, I should be pleased to hear from them. As the meets are growing in popularity, greater preparations are necessary to make them as successful as they can be made, and for this reason the location should be decided on as soon as possible.

Applications.

Before concluding my report, I wish to call your attention to the great necessity of recruiting. From April 30 to July 1, '90, we had 110 applications for membership. During the same period this year we had but 79. "No step backward" should be our motto, and I want to turn over this Division to my successor on December 1 with a membership of 600 or even 700. I therefore request the cordial support of every officer and member to induce all wheelmen to join our ranks.

Respectfully submitted,

ROBERT HOLM, Chief Consul.

APPLICATIONS FOR MEMBERSHIP.

The following is a list of applications for membership received up to date, and published in accordance with Article III. of the Constitution, which is as follows:

"Any amateur wheelman, in good standing, eighteen years of age or over, shall, with the indorsement of two League members in good standing, or of three reputable citizens of the United States or Canada, be eligible to membership in this League upon payment of an initiation fee of one dollar, and such dues for the year as may be provided for in the By-Laws. Upon the approval of the Board of Officers, or a committee thereof, two weeks after the publication of the name in a list of candidates in the official organ of the League the applicant shall become a member."

Tickets will be issued fourteen days after the publication of names.

Candidates will please notice if their names are correct.

Members are requested to examine carefully these lists as they are published, and to report errors and omissions to the Secretary. In order that no objectionable person may unite with the League, members are given the right to protest, but such protest must be received by the Secretary within two weeks from the date of publication, and contain specific charges, so far as it is possible to make them. All such communications will be considered confidential.

The application list is closed at 10 A. M on the Monday preceding day of publication. All applications received after that hour must go over to the list of the following week.
